The Ameca Extension from Guadalajara to Ameca, 55.41 miles in length (88 kilometers), was completed during the year, as previously noted; and the Government Subsidy Bonds amounting to \$176,000 (or \$1,000 per kilometer) were received and sold, the proceeds being credited to construction and used for the purchase of new equipment. The payments of the State Subsidy of \$1,000 per kilometer have also been commenced.

The completion of the Ameca and Laguna Extensions entitles the Company to issue bonds, when it requires them, to the extent of \$32,000 a mile, making allowance for the mileage of the San Blas Division canceled, the funds for the construction of these branches having been provided from the sale of bonds in the Treasury.

In 1891 the company obtained from the Government a release of its obligation to complete the Pacific Division, of which 16.60 miles from San Blas had been built in 1881 and 1882. This mileage was included under the mortgage at the time it was constructed, and bonds issued on it. The road not being operated and the concession being canceled, it was deemed proper by the directors to substitute new mileage for it under the mortgage. Accordingly, in certifying the new mileage of the Ameca and Laguna Extensions, the San Blas Division has been deducted, a release obtained from the trustee, and the 16.60 miles stricken from the mileage.

Under the principal concession of the Company, it was to build to the city of Guanajuato, but owing to engineering difficulties in the way of heavy grades that would have had to be overcome, railroad construction was stopped at Marfil, and a tramway line was constructed from there to Guanajuato. In 1882, under a contract with the Guanajuato Tramway Company, the Railway Company sold to it the piece of tramway track it had constructed, agreeing to transfer to it the concession beyond Marfil and also the General Government Subsidy of \$9,500 per kilometer on that portion of the line. This transfer was made, and in 1888 (see report for that year, page 18) the Railway Company collected and paid over the Subsidy. The General Government, however, never approved the transaction, claiming the Railway Company had no right to make the transfer of the concession without approval, that it was still obligated to build a railroad to Guanajuato, and that the Subsidy collected on the tramway constructed between Marfil and Guanajuato should be returned.

This matter, which has been in dispute for a long time, was finally arranged with the Government in July of last year, by a contract under which the Company paid to the Government \$20,000 Mexican Currency, in full settlement,

and was released from all further obligations in regard to the Guanajuato Concession, Marfil being declared the terminus of the line.

During the year a narrow gauge road, about 17 miles in length, was built by the mining and smelting interest at Mapimi, from that town and from the mines, about four kilometers beyond, to the Mapimi Station on the Mexican Central, which will be a valuable feeder to our line.

A contract was made in the latter part of the year for supplying wood and ties on the San Luis Division for a period of five years. This will require the construction by the contractor of a narrow-gauge road some forty miles in length, from San Luis Potosi southeast, which will also bring to the line some commercial business.

Results for the year 1896, either from a Mexican Currency or a United States Currency standpoint, cannot be considered satisfactory; but the conditions were abnormal, both in regard to traffic and causes of expense. With normal crop conditions and with the adjustment of rates now arranged, it is confidently believed the net results will be much improved for 1897.

As a result of the large expenditures made in 1896, the road, equipment and appurtenances were maintained in first-class condition.

The Comptroller's report following gives the Balance Sheet and Income Account of the Company in United States Currency, and other statements pertaining to the operations.

Respectfully submitted by order of the Board,  
A. A. ROBINSON, *President.*

#### GENERAL ELECTRIC COMPANY.

##### FIFTH ANNUAL REPORT—FOR THE YEAR ENDING JANUARY 31, 1897.

SCHENECTADY, N. Y., April 27, 1897.

To the Stockholders of the General Electric Company:

The business of your Company has suffered during the past year, in common with that of all manufacturing enterprises, from the disturbed financial and political conditions which have prevailed during a considerable portion of the time. These conditions have curtailed the amount of capital ordinarily available for the establishment and extension of Power and Lighting plants, and have enforced the practice of great economy on the part of its customers. As a result, the shrinkage in orders received by your Company was very

marked, especially during the latter half of the year. This shrinkage is not shown by a material falling off in shipments, as given in the Profit and Loss Statement on page 850 but the amount of work in progress and unfilled orders on hand is considerably less than a year ago.

With a return to normal commercial conditions, a corresponding revival in the business of your Company may be expected. The volume of business secured by it for the first three months of the current year is slightly in excess of that for the same period in either of the three previous years.

On January 31, 1895, the sum of \$2,000,000 was set aside, as shown in the Annual Report of that year, to provide for shrinkage in assets, exact values of which it was then extremely difficult to fix. During the past year your Directors have been able to value these items with substantial accuracy, and the \$2,000,000 fund has been found sufficient and has been used to provide for the proper adjustment of all accounts and other assets for which it was created.

## BUSINESS OF THE YEAR.

Gross Earnings.....	\$12,820,395 87
Less Expenses.....	11,207,388 65
	\$1,613,007 22
Deduct:	
Interest on Debentures*.....	\$431,250 00
Less interest and discount, and interest and dividends received on securities owned.....	370,479 70
	60,770 30
	\$1,552,236 92
Deduct Amounts written off:	
Sundry losses and allowances for possible losses.....	\$318,531 13
Patents.....	349,919 20
Inventories and Consignments.....	61,084 36
	\$729,534 69
Less:	
Profit on securities sold and debentures canceled.....	136,955 85
	592,578 84

Reduction of the deficit of previous years..... \$959,658 08

Additional purchases of your company's debenture bonds have been made during the year to the amount of \$750,000, leaving now outstanding \$8,000,000. All debentures purchased have been canceled.

The decrease in the amount of interest and dividends received, as compared with the previous year, is due largely to the cessation of dividends by the Canadian Company, which it is hoped will soon resume dividends on its reduced capital. As a partial offset there has been an increase in the income derived by your company from dividends on stocks held by it in various local companies.

## PATENT LICENSES AND PATENT LITIGATION.

In the last Annual Report attention was called to an arrangement which had then been concluded with the Westinghouse Electric & Manufacturing Company for an exchange of licenses under patents owned and controlled by the two companies. Your directors are pleased to report that the result of this arrangement has been highly satisfactory.

The result of the work of your company in protecting its patents and enjoining infringers thereof has been especially encouraging, and a considerable number of patents of value has been acquired by it during the year.

The Courts have invariably recognized the validity and controlling importance of the Van DePoele patents on the electric railway trolley and switch system, and at the present time substantially all manufacturers of infringing trolleys and switches are under injunction. The company has met with no reverses in its patent litigation during the past year.

Many new suits have been brought, involving important patents, and are now being actively pushed.

## SALES, FINANCIAL AND MANUFACTURING DEPARTMENTS.

Attention is called to the reports of the First, Second and Third Vice-Presidents, containing much valuable information with respect to their various departments.

The great improvements made by your Company during the past year in the design and construction of its apparatus have been very satisfactory. The development in long-distance transmission of electricity and the progress made in electric railway service have been especially noteworthy. Many new enterprises, involving the application of electricity to railways now operated by steam, are under consideration, and the ensuing year promises to be marked by a very rapid growth in that field of work.

Your Company has added one large factory of brick and steel construction to its plant in Schenectady during the year, besides completing and occupying another which was commenced in 1895. Other important improvements at these works are in preparation designed to add to the facility and economy of handling their output.

By order of the Board of Directors.

C. A. COFFIN, President.

## REPORT OF 2D VICE-PRESIDENT.

SCHENECTADY, N. Y., April 27, 1897.

C. A. Coffin, Esq., President General Electric Company.

SIR—The Balance Sheet and Statement of Profit and Loss, herewith transmitted, include the assets and liabilities and profit and loss accounts of the Edison General Electric, Edison Electric Light and Thomson-Houston Electric Companies (which, for convenience of book-keeping, are consolidated with those of the General Electric Company) at January 31, 1897; and when "the Company" is spoken of, all the above-mentioned corporations are included.

I submit explanations of what each item on the Balance Sheet represents.

## ASSETS.

## PATENTS AND FRANCHISES.

During the year there was expended for acquiring new patents and patent litigation. \$349,919 20, all of which has been written off to Profit and Loss; leaving the patents, franchises, good will, etc., of the Company standing unchanged at \$8,000,000.

## FACTORY PLANTS.

This account represents the real estate (lands and build- ings); machinery, tools, appliances, etc.; patterns, drawings,

etc.; and sundries (fittings and other small property accounts) of the Factories at Schenectady, New York; Lynn, Massachusetts; and Harrison, New Jersey.

The lands amount to over 72 acres and the total factory floor space of all buildings is approximately 1,416,000 square feet.

All are free from mortgage or other lien.

These Plants, being a permanent investment, all expenditures for their maintenance and repair, plus an allowance to provide against depreciation, are charged to operating expenses.

Their book value at the date of the last Annual Report was \$3,468,002 00. The amount written off during the fiscal year for depreciation, over and above the total cost of all maintenance, repairs and additions, was \$68,000 00 - leaving the book value of Factory Plants at January 31, 1897, \$3,400,002 00.

A summary of the changes in this account during the past year is as follows:

	Book Value Jan. 31, 1896.	Cost of additions.	Written off for depreciation.	Book Value Jan. 31, 1897.
Real Estate.....	\$1,800,000 00	\$92,092 45*	\$97,092 45	\$1,795,000 00
Machinery.....	1,668,000 00	205,321 90	268,321 90	1,605,000 00
Patterns.....	1 00	47,794 34	47,794 34	1 00
Sundries.....	1 00	34,361 68	34,361 68	1 00
Totals.....	\$3,468,002 00	\$379,570 37	\$447,570 37	\$3,400,002 00

	BOOK VALUE OF EACH PLANT.	Jan. 31, 1896.	Jan. 31, 1897.
Schenectady Factory.....		\$2,135,000 90	\$2,157,000 90
Lynn ".....		1,038,000 80	993,000 80
Harrison ".....		295,000 30	250,000 30
Totals.....		\$3,468,002 00	\$3,400,002 00

## REAL ESTATE.

(OTHER THAN FACTORY PLANTS.)

This account represents the investment in the Edison Building, 44 Broad Street, New York City, also a large building covering five lots on the corner of Avenue B and 17th Street, New York City, and sundry parcels of land in various places, mostly improved and rented, which have been acquired at various times, chiefly in payment of debts. All will be sold when opportunity offers.

## STOCKS AND BONDS.

Schedule A [in pamphlet report] contains a list of nearly all the Company's stocks and bonds which are carried at more than merely nominal values.

Those having a market value are carried at slightly under the price of recent sales. The book value of those not readily salable has been fixed after careful examination of their present worth.

I believe that their actual present value is equal to the aggregate at which they stand in the Balance Sheet, viz., \$8,545,660 68. In addition, the Company owns various miscellaneous securities of many manufacturing, selling and patent owning corporations, and also of street railway and lighting companies. As the present value of these is doubtful and their future value speculative, they are carried at one dollar for each lot, making in all..... 135 00

Total book value of all Stocks and Bonds.....	\$8,545,795 68
The book value of Stocks and Bonds in the last Annual Report was.....	5,479,332 23
Increase.....	\$3,066,463 45

Although some securities have been purchased for cash, most of those acquired during the year have been accepted in payment of *old* indebtedness.

The principal items of the above increase are:

	Par value.
Edison Electric Co. of New Orleans, received in Exchange for the claim against the receivers of the Fort Wayne Electric Co., and for cash advanced to the Edison Electric Co. to purchase the Louisiana Electric Light Co. and build a large new central light and power station—First Mortgage Bonds.....	\$891,000 00
Preferred Stock.....	1,980,000 00
Common Stock.....	1,000,000 00
Baltimore & Ohio R.R. Co.'s Receivers' Certificates, received in payment of balance due for electric plant and electric locomotives for its tunnel under the city of Baltimore.....	323,000 00
Bonds of the City of Jacksonville, Fla., received in part payment of a lighting plant.....	58,000 00
Sacramento Electric Power & Light Co., received in part payment of a contract.....	44,000 00
Bonds of the Brush Electric Co. (the entire issue outstanding), received in payment of notes and purchased for cash.....	369,000 00
Bonds of the Columbus R.R. Co., Columbus, Georgia, received in payment of claim against Brush E. L. & P. Co. of Columbus.....	50,000 00
Preferred stock of the United Electric Securities Co. bought for cash.....	74,200 00
Bonds of the Citizens' General Electric Co. of Louisville, Ky., purchased.....	94,000 00
Bonds of the Tacoma Ry. & Motor Co. purchased under old contracts with the United Electric Securities Co.....	231,000 00
Bonds of the Augusta Ry. & Electric Co. received in exchange for claims against Thomson-Houston Electric Co. of Augusta, Georgia.....	41,000 00
Stocks and Bonds received from Licensees in payment of royalties.....	119,750 00
	\$5,274,950 00

\* Includes \$67,250, cost of building a new erecting and testing shop 92x350 feet, with an annex 60x80 feet, at Schenectady.

† Includes office furniture and fixtures, horses and trucks, shop fixtures, benches, steam fitting for heating system, sprinkler system for fire protection, electric wiring of buildings, etc., etc.

\*On \$3,750,000 for ten months and on \$3,000,000 for two months.

## SALES OF STOCKS AND BONDS.

The past year has not been favorable to the established policy of selling securities which there is no special reason for holding permanently, and but few have been sold since the last Annual Report.

Securities whose par was \$326,115 were sold for..... \$285,820 56  
They were carried on the books at..... 200,012 80

Profit..... \$79,816 76

The cash thus received was used toward the purchase of securities mentioned on the preceding page.

## CASH.

The policy of the previous two years has been adhered to and sales maintained on a basis of cash, or short credit to desirable customers.

It has not been necessary to borrow money, nor has the Company's credit been used during the year either by issuing notes, endorsing customers' paper for discount or lending its name in any way.

During the year all purchases have been paid for in cash.

None of the money realized from the sale of assets was required for the current business of the Company during the year.

## NOTES AND ACCOUNTS RECEIVABLE.

These accounts represent the total amount now due the Company by customers.

They appear in the balance sheet at an estimated realizable value (i. e. their face, less allowance for possible losses) which I believe to be a fair one.

They may be classified approximately as follows:

	Face Values.	Face Values.
Current Notes.....	\$1,196,715 81	
Current Accounts.....	2,901,773 96	
		\$4,098,489 77
Slow Notes.....	766,074 05	
Slow Accounts.....	207,189 16	
		974,162 21
		\$5,072,651 98
Due from local Lighting and Street Railway properties owned by the Company.....		217,700 92
Due from the Brush Electric Co.....		194,516 85
Total face value*.....		\$5,484,869 75

Collection of the old indebtedness remaining from previous years has been as satisfactory as was possible under the financial conditions of the year.

## WORK IN PROGRESS

This account does not include anything in process of manufacture; but represents expenditures for labor, material, etc., on 194 installations of manufactured apparatus delivered at various places..... \$900,807 52  
Less partial payments thereon, received under the terms of the contracts as work progressed..... 382,941 22

Balance..... \$517,866 30

None of the estimated profit to be derived from these installations is included in the earnings of the year, and no allowance is made thereon for possible loss.

## INVENTORIES.

These accounts represent raw materials and goods manufactured and in process of manufacture at the factories; manufactured goods in storerooms of local offices and on consignment; office furniture, fixtures, instruments, &c., in the general office and in local offices; tools and materials in local repair shops; and also shipments in transit to local storerooms.

All have been counted and valued item by item.

Raw materials have been valued at the market prices prevailing on January 31, 1897; active-selling finished and partly-finished apparatus and supplies at factory cost; inactive or slow-selling apparatus and supplies at about 50 per cent of factory cost; obsolete apparatus and supplies at scrap value; and tools, instruments, furniture, &c., at present value.

The inventories of the factories showed an excess over book value of \$141,184 98, which is not taken as a part of the year's profit but is retained as a reserve.

All other inventories showed a shrinkage from book value of \$50,854 85, which has been written off as a loss for the year.

As goods are taken in and out of local office inventories at factory cost, at the time being, the bulk of the above shrinkage is due to factory costs at January 31, 1897, being lower than at January 31, 1896; and the remainder to writing down the book value of slow-selling apparatus and other personal property.

## CONSIGNMENTS.

Finished apparatus for novel uses has been delivered to various concerns, subject to purchase if its operation is successful. The greater part of this account represents such contingent sales, and the remainder represents apparatus on exhibition, or loaned to regular customers for temporary use by them.

All the above apparatus is charged, at factory cost, to this account at a total of..... \$73,720 80  
Less allowance for depreciation..... 35,977 15

Net book value of consignments..... \$37,752 65

\* In addition there are old notes and accounts receivable of 435 debtors aggregating \$2,644,547 59, which have all been written off to Profit and Loss except the nominal book value of one dollar for each debtor. They are being liquidated as rapidly as possible.

## LIABILITIES.

The Company has no Notes Payable, nor is any paper bearing the Company's endorsement or guaranty under discount.

## DEBENTURES.

During the year the Company has purchased and canceled \$750,000 of its own Debentures at an average cost of 92-88 per cent.

## ACCRUED INTEREST ON DEBENTURES.

This account, as its name implies, is the full amount of interest accrued to January 31, 1897, on the Company's \$8,000,000 outstanding five per cent gold coupon Debentures.

## ACCOUNTS PAYABLE.

This account includes all unpaid audited indebtedness.

At the close of business on January 31, 1897, the unpaid vouchers on hand amounted to only \$40,155 32, and none of these was due under the terms of purchase.

The difference between that amount and the amount of Accounts Payable shown in the Balance Sheet, \$402,264 81, represents expenditures belonging to the year, vouchered between January 31 and February 23, the date of closing the general books. The amount of vouchers which has to be carried over in this way monthly, owing to keeping the books—other than the cash book—open a sufficient time to include expenditures of a particular month in that month, is usually about \$500,000.

## MORTGAGE ON EDISON BUILDING.

A mortgage was created when the Company's Building, No. 44 Broad Street, New York City, was erected. It was paid off in full February 26, 1897.

Respectfully submitted,

J. P. ORD,  
Second Vice-President.

Owing to absence in Europe of the First and Third Vice-Presidents, their annual statements cannot be prepared in time to accompany this Report, which is sent out in advance of the annual meeting of Stockholders.

Complete copies of the Report, with their statements appended, will be sent out in due course.

## The Commercial Times.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, April 30, 1897.

The observance of a holiday on Tuesday interrupted business to a limited extent during the past week. The interest shown in the war situation at the Far East has been less keen, as advices received indicate that the Powers are preparing to intervene between Turkey and Greece. The agitation over the proposed new tariff bill has again become the dominant factor in the business world. The advices received from Washington have been of a very conflicting nature relative to the progress of the bill in the Senate Finance Committee, and the general impression has appeared to be growing that the bill signed by the President will be a very different measure from that passed by the House of Representatives. An export movement of gold has attracted some attention, and it is thought probable that an export movement during the summer cannot be avoided; thus far, however, it has had comparatively little influence, due largely to the full reserve held by the Treasury and the belief that the banks from their large holdings would recoup the Treasury should the movement become formidable.

Lard on the spot has been quiet, as demand from both shippers and refiners has been slow and prices have weakened. The close, however, was steady at 43 $\frac{3}{4}$ ¢ for prime Western, 390¢ for prime City and 460¢ for refined for the Continent. The local market for lard futures continued neglected. At the West the trading was quiet and prices have weakened slightly in sympathy with the depression in the grain markets. The close was quiet but steady.

## DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May.....	4:50	4:45	Hol.	4:35	4:35	4:45

Pork has had only a limited sale, but prices have been without change, closing steady at \$9@9.50 for mess, \$9.50 @10.50 for family and \$9.50@10.50 for short clear. Cut meats have continued in fair demand for pickled bellies at firm prices; other meats have been quiet, closing at 5 $\frac{1}{4}$ @5 $\frac{1}{2}$ ¢ for pickled bellies, 12@10 lbs. average, 5¢ for pickled shoulders and 9@9 $\frac{1}{4}$ ¢ for pickled hams. Beef has had a slow sale and values have been easy, closing at \$7@8 for mess, \$8@9 for packet, \$9@10 for family and \$12@14 for extra India mess. Beef hams have further advanced, closing at \$21. Tallow had an active sale early in the week and the close was firm at 3 $\frac{1}{2}$ @3.16¢. Oleo stearine has been quiet but steady at 4 $\frac{1}{4}$ @4 $\frac{3}{4}$ ¢. Lard stearine has advanced and the close was firm at 5 $\frac{1}{4}$ ¢ for prime City. Cotton-seed oil was in demand early in the week and prices further advanced, closing firm at 20 $\frac{1}{2}$ @21¢ for prime crude and 24 $\frac{1}{2}$ ¢ for prime yellow. Butter has had a fair sale at firm prices, closing at 11@17¢ for creamery. Cheese has been in fairly good demand at firm prices at 9 $\frac{1}{2}$ @11¢ for State factory full cream. Fresh eggs have advanced for choice and the close was steady at 10@10 $\frac{1}{2}$ ¢ for Western.

The Brazil grades of coffee have had only a limited sale, but there has been no pressure to sell and prices have advanced, closing steady at 7 $\frac{1}{2}$ ¢ for Rio No. 7. Mild grades have sold rather slowly and prices have ruled easy, closing at 14¢ for good Cuouta and 25¢ for standard Java. The trading in the market for contracts has been quiet, but in response to stronger foreign advices and some talk of an import duty prices have advanced, closing firm and higher. The net advance for the week is 35@45 points.

The following were the final asking prices:

May.....	7:55c.	Aug.....	7:20c.	Nov.....	7:50c.
June.....	7:40c.	Sept.....	7:55c.	Dec.....	7:85c.
July.....	7:60c.	Oct.....	7:80c.		

The demand for raw sugars has been quiet, but prices have held about steady, closing at 8 $\frac{1}{2}$ ¢ for centrifugal 96-deg. test and 2 $\frac{1}{2}$ @2.13-16¢ for muscovado 89-deg. test. Refined sugars have been quiet and unchanged; granulated closed at 4 $\frac{1}{2}$ ¢. Teas have been quiet but steady.

The demand for Kentucky tobacco has continued slow, but values have held steady. Sales 125 hhds. Seed leaf tobacco has sold slowly, awaiting tariff developments, but values have held steady. Sales for the week were 745 cases, as follows: 200 cases 1895 crop, New England Havana, 16 @25¢; 150 cases 1895 crop, Pennsylvania Havana, 13¢; 140 cases 1895 crop, New England seed leaf, 14¢, and 250 cases sundries, 5@15¢; also 350 bales Havana at 75¢ to \$1.10 in bond and 225 bales Sumatra at 75¢ to \$2.10 in bond.

Business in the market for Straits tin has been rather quiet, but values have held fairly steady, closing at 13:25@13:30¢. Ingot copper has sold slowly and prices have weakened slightly, closing at 11@11 $\frac{1}{4}$ ¢ for Lake. The demand for lead has been quiet and prices have declined, closing at 3:25@3:30¢ for domestic. Spelter has been dull but about steady, closing at 4:10@4:15¢ for domestic. Pig iron has been dull and weak at \$10@12.50 for domestic.

Refined petroleum has been quiet, closing at 6:05¢ in bbls., 3:55¢ in bulk and 6:50¢ in cases; naphtha dull at 8¢. Crude certificates have been neglected. Credit balances have been lowered to 81¢. Spirits turpentine has advanced, closing at a reaction from top prices at 81¢. Resin has been dull and unchanged at \$1.65 for common and good strained. Wool has been firm but quiet. Hops have continued quiet and easy.

## COTTON.

FRIDAY NIGHT, April 30, 1897.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 34,583 bales, against 47,260 bales last week and 48,795 bales the previous week, making the total receipts since the 1st of Sept., 1896, 6,493,396 bales, against 5,015,451 bales for the same period of 1895-6, showing an increase since Sep. 1, 1896, of 1,477,945 bales.

12. We have included in the above table, and shall continue each week to give, the average price of futures each day for each month. It will be found under each day following the abbreviation "Av'ge." The average for each month for the week is also given at bottom of table.

**THE VISIBLE SUPPLY OF COTTON** to-night, as made up by cable and telegraph is as follows. The Continental stocks, as well as those for Great Britain and the afloat are this week's returns, and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (Apr. 30), we add the item of exports from the United States, including in it the exports of Friday only.

The imports into Continental ports the past week have been 45,000 bales.

The above figures indicate a decrease in the cotton in sight to-night of 127,171 bales as compared with the same date of 1896, a falling off of 1,154,770 bales from the corresponding date of 1895 and a decrease of 319,020 bales from 1894.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1895-96—is set out in detail below.

**WEATHER REPORTS BY TELEGRAPH.**—Advices to us by telegraph this evening are, on the whole, quite favorable, and outside of the overflowed districts rapid progress has been made with cotton-planting during the week and it is nearing completion at a number of points. In some localities early plantings are up but growth has been checked somewhat by cool nights. Rain has fallen in most sections during the week, and it has been of much benefit, more particularly in Texas, where it was quite generally needed. The Mississippi River is falling at Memphis and Helena, but below Vicksburg the situation is unchanged.

**Galveston, Texas.**—General showers on Sunday and Wednesday were of great benefit to growing crops and were needed in all sections. But the cool weather now prevailing throughout the State will retard the growth of cotton. Planting is about completed in the Southern portion of the State and the greater part of the crop is planted in North Texas. Early-planted cotton is up and was growing nicely before the cool spell. It has rained on two days of the week, the rainfall reaching seventeen hundredths of an inch. Average thermometer 68, highest 78 and lowest 57.

**Palestine, Texas.**—There has been rain on three days of the past week, the rainfall reaching one inch and forty-eight hundredths. The thermometer has averaged 66, the highest being 80 and the lowest 52.

**Huntsville, Texas.**—We have had rain on two days during the week, the rainfall being ninety-three hundredths of an inch. The thermometer has averaged 68, ranging from 53 to 83.

**Dallas, Texas.**—Farmers are very busy plowing and planting. An increase in cotton acreage is anticipated. We have had rain on two days of the week, the precipitation reaching one inch and twenty-six hundredths. The thermometer has ranged from 49 to 83, averaging 66.

**San Antonio, Texas.**—It has rained lightly on four days of the week, the precipitation being sixty-six hundredths of an inch. Average thermometer 69, highest 84 and lowest 54.

**Luling, Texas.**—We have had heavy rain on four days of the past week, to the extent of three inches and twelve hundredths. The thermometer has averaged 70, the highest being 85 and the lowest 54.

**Columbia, Texas.**—Rain has fallen on two days of the week, to the extent of ninety-six hundredths of an inch. The thermometer has averaged 69, ranging from 54 to 84.

**Cuero, Texas.**—Rain has fallen on three days of the week, to the extent of eighty-eight hundredths of an inch. The thermometer has ranged from 55 to 85, averaging 70.

**Brenham, Texas.**—There has been heavy rain on two days during the week to the extent of one inch and eighty-seven hundredths. Average thermometer 70, highest 86, lowest 53.

**Fort Worth, Texas.**—We have had beneficial rain on two days of the week, the precipitation being one inch and twenty-seven hundredths. The thermometer has averaged 69, ranging from 46 to 82.

**Wentworth, Texas.**—We have had beneficial rain on two days of the past week, the rainfall reaching one inch and thirty-two hundredths. The thermometer has ranged from 45 to 81, averaging 63.

**New Orleans, Louisiana.**—We have had rain on two days of the past week, the rainfall reaching fifty-three hundredths of an inch. Average thermometer 71.

**Shreveport, Louisiana.**—We have had rain on two days of the past week, the rainfall being ninety hundredths of an inch. The thermometer has averaged 69, the highest being 81 and the lowest 53.

**Columbus, Mississippi.**—Rain has fallen on three days of the week, the precipitation reaching seventy-three hundredths of an inch. The rain will do great good. The thermometer has averaged 66, ranging from 51 to 88.

**Leeland, Mississippi.**—The week's rainfall has been sixty-three hundredths of an inch. The thermometer has ranged from 57 to 80, averaging 67.7.

**Vicksburg, Mississippi.**—It has rained on two days of the week, the precipitation being sixty-two hundredths of an inch. Average thermometer 68, highest 84 and lowest 53.

**Little Rock, Arkansas.**—We have had rain on four days of the week, to the extent of one inch and eighty-nine hundredths. The thermometer has averaged 68, the highest being 83 and the lowest 55.

**Helena, Arkansas.**—The river has been falling slowly, but now the decline is becoming more rapid. It is believed that most of the overflowed land will be planted, but some have abandoned anticipations of a crop. We have had light rain on two days of the week, the precipitation reaching thirty-two hundredths of an inch. The thermometer has averaged 64, ranging from 53 to 75.

**Memphis, Tennessee.**—Planting is active on the hills and in bottoms where overflow does not interfere. Some cotton is up. The river is 33.9 feet on the gauge and falling. The total fall to date is 3.2 feet. Rain has fallen on three days of the week to the extent of sixty-nine hundredths of an inch and is raining now. The thermometer has ranged from 54.9 to 83.6, averaging 69.7.

Last week the weather was fine for farm work, but it was greatly interfered with by buffalo gnats. The river stood at 35.2 feet on the gauge and was falling. The week's rainfall reached two hundredths of an inch on one day. The thermometer averaged 69.7, ranging from 43.9 to 79.

**Nashville, Tennessee.**—There has been rain during the week, the rainfall being one inch and fifteen hundredths. As a rule the weather has been favorable and planting is nearly completed. Average thermometer 68, highest 84 and lowest 51.

**Mobile, Alabama.**—There has been considerable replanting in some sections on account of previous dry cool weather. The condition is ten to twenty days backward. Good rains in the interior the latter part of the week have been very beneficial. It has rained on three days of the past week, the rainfall reaching one inch and eleven hundredths. The thermometer has averaged 69, the highest being 82 and the lowest 57.

**Montgomery, Alabama.**—The first rain for two weeks fell yesterday and will do much good. It is raining now. The precipitation reached one inch and thirty-two hundredths. The thermometer has averaged 70, ranging from 60 to 78.

**Madison, Florida.**—Planting is completed; stands are moderately good, but the plants are not looking well on account of cool nights. Dry weather has prevailed all the week. Average thermometer 74, highest 89, lowest 56.

**Savannah, Georgia.**—The week's rainfall has been fifty-five hundredths of an inch, on two days. The thermometer has averaged 71, ranging from 57 to 85.

**Augusta, Georgia.**—The week's rainfall has been sixty-four hundredths of an inch, on two days. The thermometer has ranged from 51 to 88, averaging 70.

**Charleston, South Carolina.**—Rainfall for the week forty-eight hundredths of an inch, on one day. The thermometer has averaged 69, the highest being 80 and the lowest 58.

**Stateburg, South Carolina.**—There has been one light thunder shower the past week, the rainfall reaching eleven hundredths of an inch. The thermometer has averaged 70.7, ranging from 54 to 86.

**Greenwood, South Carolina.**—There has been rain on one day of the week, the rainfall reaching twenty-eight hundredths of an inch. Moisture is badly needed. The thermometer has ranged from 53 to 82, averaging 69.

**Wilson, North Carolina.**—There has been rain on one day during the week, to the extent of seven hundredths of an inch. Average thermometer 69, highest 86, lowest 48.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock April 29, 1897, and April 30, 1896.

	Apr. 29, '97.	Apr. 30, '96.
New Orleans.....	Above zero of gauge.	
Memphis.....	Above zero of gauge.	
Nashville.....	Above zero of gauge.	
Shreveport.....	Above zero of gauge.	
Vicksburg.....	Above zero of gauge.	

**INDIA COTTON MOVEMENT FROM ALL PORTS.**—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to April 29.

**BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.**

Year	Shipments this week.			Shipments since Sept. 1.			Receipts.	
	Great Britn.	Continent.	Total.	Great Britain.	Continent.	Total.	This Week.	Since Sept. 1.
'96-7	3,000	19,000	22,000	24,000	398,000	422,000	56,000	1,185,000
'95-6	.....	17,000	17,000	56,000	503,000	559,000	77,000	1,717,000
'94-5	2,000	43,000	45,000	8,000	246,000	254,000	92,000	955,000
'93-4	1,000	43,000	44,000	41,000	544,000	585,000	61,000	1,326,000

According to the foregoing Bombay appears to show a decrease compared with last year in the week's receipts of 21,000 bales and an increase in shipments of 5,000 bales, and the shipments since Sept. 1 show a decrease of 137,000 bales. The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

	Shipments for the week			Shipments since Sept. 1.		
	Great Britain.	Continent.	Total.	Great Britain.	Continent.	Total.
Calcutta—						
1896-97...	.....	5,000	5,000	6,000	42,000	48,000
1895-96...	.....	2,000	2,000	10,000	45,000	55,000
Madras—						
1896-97...	.....	.....	.....	6,000	14,000	20,000
1895-96...	.....	.....	.....	10,000	7,000	17,000
All others—						
1896-97...	.....	4,000	4,000	20,000	60,000	80,000
1895-96...	1,000	2,000	3,000	13,000	47,000	60,000
Total all—						
1896-97...	.....	9,000	9,000	32,000	116,000	148,000
1895-96...	1,000	4,000	5,000	33,000	99,000	132,000

The above totals for the week show that the movement from the ports other than Bombay is 4,000 bales more than the same week last year. For the whole of India, therefore, the total shipments since September 1, 1896, and for the corresponding periods of the two previous years, are as follows.

**EXPORTS TO EUROPE FROM INDIA.**

Shipments to all Europe from—	1896-97.		1895-96.		1894-95.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Bombay.....	22,000	422,000	17,000	559,000	45,000	254,000
All other ports	9,000	148,000	5,000	132,000	2,000	105,000
Total	31,000	570,000	22,000	691,000	47,000	359,000

**ALEXANDRIA RECEIPTS AND SHIPMENTS.**—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, April 28.	1896-97.		1895-96.		1894-95.	
Receipts (cantars)*....						
This week.....	40,000		10,000		8,000	
Since Sept. 1.....	5,684,000		5,170,000		4,514,000	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Exports (bales)—						
To Liverpool.....	2,000	299,000	4,000	307,000	5,000	245,000
To Continent.....	6,000	312,000	6,000	279,000	8,000	301,000
Total Europe.....	8,000	611,000	10,000	586,000	13,000	546,000

\* A cantar is 99 pounds.

Of which to America in 1896-97, 45,913 bales; in 1895-96, 51,956 bales; in 1894-95, 39,905 bales.

**MANCHESTER MARKET.**—Our report received by cable to-night from Manchester states that the market is steady for yarns and firm for shirtings. The market does not respond to the movement in Liverpool. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

	1897.						1896.					
	32s. Cop. Twist.			8 1/4 lbs. Shirts, common to finest.			32s. Cop. Twist.			8 1/4 lbs. Shirts, common to finest.

**SEA ISLAND COTTON MOVEMENT.**—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (April 30) and since Sept. 1, 1896, the stocks to-night, and the same items for the corresponding periods of 1895-96, are as follows.

Receipts to April 30.	1896-97.		1895-96.		Stock	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1897.	1896.
Savannah.....	98	82,743	75	74,218	9,931	4,523
Charleston, &c.....	10,371	10,371	10,405	1,631	1,509	
Florida, &c.....	17	6,733	4,783	2,958	1,611	
Total.....	115	99,847	75	89,403	14,570	7,643

The exports for the week ending this evening reach a total of 904 bales, of which 762 bales were to Great Britain, 42 to France and 100 to St. Petersburg, and the amount forwarded to Northern mills has been 831 bales. Below are the exports for the week and since September 1 in 1896-97 and 1895-96.

Exports from—	Week Ending Apr. 30.			Since Sept. 1, 1896.			North'n M. S.	
	Great Brit'n.	Fr'nce &c.	Total.	Great Brit'n.	Fr'nce &c.	Total.	Week.	Since Sept. 1.
Savannah, &c.....	100	100	15,029	3,176	18,204	834	27,108	
Charleston, &c.....	2,933	2,933	2,933	17	6,733		1,925	
New York.....	145	42	187	10,465	6,555	17,020		
Boston.....	28	28	10,602	10,602				
Phila., &c.....	559	559	3,622	102	3,724			
Total.....	762	142	904	42,850	9,333	52,483	851	35,766
Total 1895-6.....	607	224	831	38,208	6,691	44,897	264	37,254

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations April 30 at Savannah, for Floridas, common, 8c.; medium fine, 10c.; choice, 13 1/2c.

Charleston, Carolinas, medium fine, 17@17 1/2c.; fine, 18c.; fully fine, 19@20c.; extra fine, 25@33c.

**HIGH WATER IN THE MISSISSIPPI.**—There has been no particular change in the flood situation in the Mississippi Valley during the week. The water pouring through the breaks in the Louisiana levees has inundated portions of over half a dozen counties, some of the most productive soil in the State being under water. Traffic has been suspended on the Natchez Red River & Texas RR. and other roads are likely to be affected. The river has been about stationary at Vicksburg, but below that city there has been a general rise. The situation is considered very critical above and below New Orleans and constant work on levees is required to hold them. The greater part of the water from the Louisiana crevasses will return to the Mississippi through the Red River and so on by New Orleans. In the upper river the water is declining gradually, as our telegraphic reports from Memphis and Helena this evening indicate.

**COTTON CONSUMPTION AND OVERLAND MOVEMENT TO MAY 1.**—Below we present a synopsis of our overland movement, receipts, exports, spinners' takings, &c., for the month of April and for eight months of the season to May 1, for the years 1894-95, 1895-96 and 1896-97.

	1896-97.	1895-96.	1894-95.
Gross overland for April.....bales.	59,793	62,765	122,587

Total crop.....	7,162,473	9,892,766	
Average weight of bales.....	502.63	501.59	507.03

**EXCHANGES.**—The following exchanges have been made during the week:

03 pd. to exch. 1,700 May for July.	01 pd. to exch. 100 July for Aug.
35 pd. to exch. 1,000 Nov. for July.	05 pd. to exch. 200 Apr. for June.
15 pd. to exch. 200 Oct. for Sept.	09 pd. to exch. 1,600 May for Aug.
10 pd. to exch. 700 Sept. for May.	01 pd. to exch. 2,900 July for Aug.
11 pd. to exch. 16,100 May for Aug.	10 pd. to exch. 500 May for Aug.
36 pd. to exch. 500 Oct. for Aug.	06 pd. to exch. 400 May for July.
10 pd. to exch. 1,900 May for July.	04 pd. to exch. 900 June for July.
04 pd. to exch. 400 May for June.	02 pd. to exch. 400 May for June.
12 pd. to exch. 200 Jan. for Sept.	47 pd. to exch. 1,500 Nov. for May.
10 pd. to exch. 1,000 May for Aug.	08 pd. to exch. 200 Nov. for Feb.
12 pd. to exch. 8,000 May for Aug.	05 pd. to exch. 900 May for Aug.
50 pd. to exch. 200 Nov. for Aug.	08 pd. to exch. 200 Nov. for Feb.
05 pd. to exch. 400 May for June.	Even 300 July for Aug.
13 pd. to exch. 500 Sept. for May.	Even 100 Nov. for Dec.

**GOVERNMENT WEEKLY COTTON REPORT.**—Mr. W. L. Moore, Chief of the Weather Bureau of the Agricultural Department, made public on Tuesday the following telegraphic reports on the crops in the Southern States for the week ending April 26:

**North Carolina.**—Heavy frosts throughout the State greatly damaged peas, beans, tomatoes, melons, and killed potatoes to ground; grapes slightly, and other fruit considerably damaged; apples and peaches thought still safe in western counties; some corn and cotton being replanted; much cotton and bulk of corn planted and transplanting tobacco begun; crops growing slowly.

**South Carolina.**—Cotton coming up slowly; stands very uneven; earliest planted receiving first working; worms and crows injuring corn. Wheat promising. Oats needing rain. Rice doing well.

**Florida.**—Week decidedly favorable over western and northern counties for cotton, corn, cane, tobacco and vegetables. Pineapple crop will be good.

**Mississippi.**—Cotton-planting progressing and being pushed to a finish; some cotton up and being scraped and chopped.

**Louisiana.**—Week average normally warm, with local showers and abundant sunshine; fine weather for completing replanting cotton injured by late cool spell, rice planting and working corn.

**Texas.**—Cotton-planting about completed, except in northern portion, where waiting for warmer weather.

**STATE AGRICULTURAL REPORTS.**—We give below summaries of the reports for the week ending April 19, issued by the various States, under the auspices of the Weather Bureau of the U. S. Department of Agriculture, so far as they apply to cotton.

**NORTH CAROLINA.—Eastern District.**—The unfavorable feature of the week was the cold weather and heavy frosts on the morning of the 21st and 22nd. The week was very dry and the latter part was quite warm. Rain is needed to make corn and cotton start off, and to moisten the soil, which is getting hard. Farm work progressed favorably and most farmers are up with their work. A little young corn and cotton was killed by the frost. Planting a large crop of cotton is progressing rapidly though interfered with by dryness. **Central District.**—The past week was fine for planting and plowing, but the land is now dry and hard, and work still behind to some extent. The weather has been unfavorable for growth of crops on account of the frost early in the week and the general dryness; warm showers are much needed. The frosts in this section were quite heavy, the temperature falling below freezing at many points, with formation of thin ice. Young cotton was cut down. A great deal of cotton was planted and planting is in full swing. Cotton damaged by the frost is being replanted. **Western District.**—A full week's sunshine and no rain made conditions very favorable for farm work, which progressed rapidly; but rain is now needed to bring up seeds, as the ground is getting hard and baked. The frosts did comparatively less damage in this district, except to fruit. Much cotton has been put in and some is up.

**SOUTH CAROLINA.**—The weather was extremely favorable for farm work but too cool and dry for growing crops and for breaking up bottom lands or clay soils generally. Cotton-planting progressed rapidly and is now about half finished over the western and central counties. In many places, in eastern sections, planting is practically completed. Slow germination and growth, owing to cool nights and want of moisture. Stands very uneven. Replanting necessary over northeastern counties, where many fields were destroyed by frost. Rain and warm nights would prove beneficial. Sea Island cotton practically all planted and good stands have been secured.

**TEXAS.**—The weather during the week was exceptionally favorable for farm work, and farming operations are well advanced. The rain at the close of the week was very beneficial where it occurred, but the drought still prevails over the greater portion of the southern half of the State, where crops have begun to suffer for rain in many localities. The showers improved cotton where they occurred, but a general rain is needed for the crop. Early planted cotton is up and looking well, except over North Texas, where the cool nights have checked its growth. Cotton planting is generally completed over the southern portion of the State, and the bulk of the crop is planted over the northern portion of the State, where some replanting has been necessary.

owing to early planting not coming up overly well on account of the late cool weather. With favorable weather, planting will be completed in a few weeks and a good acreage will be planted.

**Arkansas.**—The weather was perfect for farm work and farmers took full advantage of it to push planting vigorously forward. *North-east section.*—Dry, warm weather facilitated farm work. Cotton land is about all prepared and planting is progressing. Much land is still too wet to work. *South-east section.*—With the exception of Arkansas County and certain overflowed lands along the Mississippi, crops in this section are well advanced and doing splendidly. Cotton planting will be completed this week if the weather continues favorable. *Central section.*—The weather has been entirely favorable during the week for planting and farmers have succeeded in getting in all of their corn seed and most of the cotton. Some cotton is up and growing nicely. Chopping out will commence next week. *South-east section.*—This has been a fine week for plowing and planting and farmers have made great strides in catching up with their work. *Northeast section.*—Ground is being bedded for cotton. Prospects for all crops continue good.

**EUROPEAN COTTON CONSUMPTION TO APRIL 1.**—We have received to-day (Friday) by cable Mr. Ellison's figures brought down to April 1. We have also received the revised totals for last year and give them for comparison. The spinners' takings in actual bales and pounds have been as follows:

October 1 to April 1.	Great Britain.	Continent.	Total.
<b>For 1896-97.</b>			
Takings by spinners...bales	1,893,000	2,417,000	4,315,000
Average weight of bales, lbs.	502	485	492.6
Takings in pounds.....	952,996,000	1,172,745,000	2,125,741,000
<b>For 1895-96.</b>			
Takings by spinners...bales	1,853,000	2,211,000	4,064,000
Average weight of bales, lbs.	500	481	489.8
Takings in pounds.....	926,795,000	1,063,975,000	1,990,670,000

According to the above, the average weight of the deliveries in Great Britain is 502 pounds per bale this season, against 500 pounds during the same time last season. The Continental deliveries average 485 pounds, against 481 pounds last year, and for the whole of Europe the deliveries average 492.6 pounds per bale against 489.8 pounds last season. Our dispatch also gives the full movement for this year and last year in bales of 500 pounds.

Oct. 1 to April 1. Bales of 500 lbs. each, 000s omitted.	1896-97.			1895-96.

Spinners' stock Apr. 1	266,	512,	808,	258,	599,	855,
<b>Weekly Consumption</b> 000s omitted						
In October.....	64.0	80.0	144.0	61.0	79.0	140.0
In November.....	61.0	80.0	141.0	61.0	79.0	140.0
In December.....	61.0	80.0	141.0	61.0	79.0	140.0
In January.....	61.0	80.0	141.0	61.0	79.0	140.0
In February.....	61.0	80.0	141.0	61.0	80.0	141.0
In March.....	61.0	80.0	141.0	61.0	80.0	141.0

The foregoing shows that the weekly consumption is now 144,000 bales of 500 pounds each, against 141,000 bales of like weights at the corresponding time last year. The total spinners' stocks in Great Britain and on the Continent have increased 81,000 bales during the month, but are now 47,000 bales less than at the same date last season.

**JUTE BUTTS, BAGGING, &c.**—The market for jute bagging has been steady the past week, and an improvement in demand is to be noted. The closing quotations to-night are 5¼c. for 1½ lbs., 5½c. for 2 lbs. and 6¼c. for standard grades. Car-load lots of standard brands are quoted at 5¼c. for 1½ lbs., 5½c. for 2 lbs. and 6¼c. for 2½ lbs. f.o.b. at New York. Jute butts continue quiet at 1-05c. for paper quality, 1-30c. for mixing and 1¼c. for bagging, all to arrive.

**SHIPPING NEWS.**—The exports of cotton from the United States the past week, as per latest mail returns, have reached 128,325 bales.

## BREADSTUFFS.

FRIDAY, April 30, 1897.

The activity of demand in the market for wheat flour has disappeared, business during the past week having been slow, as buyers and sellers have been apart in their views. The former, owing to a sharp break in wheat values, have materially lowered their bids, while the latter have held fairly strong in their views and have been reluctant to grant concessions to do business. At the close the market was quiet but steady. City mills have been quiet but about steady. Rye flour has had a fair sale at steady values. The demand for corn meal has been quiet, but no changes have been made in values, closing steady.

There has been a fair degree of activity to the trading on the market for wheat futures, but at a decline in prices, as the advices received from the Far East indicate an early settlement of the present troubles, and this prompted liquidating sales by "longs." The net decline in prices for the week is 2½¢@2¾¢. Saturday there was a firm market. Foreign advices were stronger and were accompanied by buying orders; this induced buying by local operators, and at the close prices showed an advance of 1½¢@2¼¢. Monday prices started on their downward course. The advices received on the war situation were more pacific, and this, together with weaker foreign advices prompted general selling under which prices declined 3¢@4¢. Tuesday was a holiday. Wednesday there was a further break of 2½¢@2¾¢. In prices under continued selling by longs as a result of the weaker foreign advices. Thursday the changes in prices were unimportant. To-day the market turned stronger. There was fairly active buying for foreign account during early change, and later in the day reports of an active export business stimulated a demand from shorts to cover contracts, and the close was firm at an advance of 1½¢@1¾¢. A fair export business has been transacted in spot wheat here and at outports during the week, and at the close demand was active, the sales reported to-day amounting to 400,000 bushels, principally for forward shipment. Prices quoted for wheat to arrive were:

83¼¢, f.o.b. afloat, for No. 1 hard; 82¢, f.o.b. afloat, for No. 1 Northern Duluth; 80¾¢, f.o.b. afloat, for No. 1 Northern New York, and 79½¢, f.o.b. afloat, for No. 2 hard winter.

### DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery.....c.	83¾	80¾	Hol- day.	77½	77½	78½
June delivery.....c.	82½					
July delivery.....c.	82	78¾		76¾	76½	77½
September delivery.....c.	79	75¾		72½	72½	74½
December delivery.....c.	80½	76½		74½	74½	75½

There has been a quiet speculation in the market for Indian corn futures and prices have weakened under the more pacific advices received relative to the situation at the Far East and in sympathy with the decline in wheat. To-day, however, there was a fractional improvement in prices following the stronger turn to the wheat market, and the close was steady. In the spot market only a limited volume of business has been transacted and prices have weakened slightly, closing with sales of No. 2 mixed at 30½¢ delivered and quoted at 31¼¢ f. o. b. afloat.

### DAILY CLOSING PRICES OF NO. 2 MIXED CORN

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery.....c.	30¼	29½	Hol- day.	29¼	29¼	29¼
July delivery.....c.	31¾	31		30¾	30¾	31
September delivery.....c.	33¼	32¾		32½	32½	32½

There has continued a quiet speculation in the market for oats for future delivery, and there has been a slight weakening in prices in sympathy with the depression in other grains. At the close, however, there was a steadier tone to the market, as there was some buying by shorts to cover contracts. The net decline in prices for the week was ½¢. Business in the spot market has been moderately active and prices have held steady. The sales to-day included No. 2 mixed at 23¢, in elevator and No. 2 white at 27¢, in elevator.

### DAILY CLOSING PRICES OF NO. 2 MIXED OATS.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery.....c.	23¼	22½	Hol- day.	22	21½	22
July delivery.....c.	23¾	23		22½	22½	22½

Rye has been in fairly good demand but at easier prices. Barley has been quiet.

## THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., April 24, 1897

There has been a considerable attendance of buyers in the market this week, drawn by the Grant Memorial ceremonies on Tuesday, but they have not made their presence felt to any extent in the primary market. With jobbers it has been different, as they have secured better results in the volume of sales than for some time past. The tone of the primary market for cotton goods has an improving tendency. The advances reported last week showed this in bleached cottons, and this week the upward movement in raw cotton has imparted a firmer tone to brown goods in a number of quarters, even where it has not materially accelerated the demand. Current prices are paid more readily for quick supplies, and sellers are, as a rule, less ready to listen to bids for forward deliveries. There are exceptions still, but fewer than before. Cottons are nearly all on such a low plane of values that a material advance in raw cotton means either higher prices for goods or serious curtailment of output. Business in the woolen and worsted goods departments has revealed no new feature this week. Collections are generally fair.

**WOOLEN GOODS.**—The attendance of buyers in this division of the market has been small this week and spot trade slow, whilst the orders coming in through the mails have been of limited extent. There is little in the way of new business, although some fine goods are still getting first orders, and the duplicating demand has not yet developed. Meanwhile sellers maintain a firm attitude without, however, any further advances in prices being recorded. The demand for satinetts, cotton-warp cassimeres and the like is slow. Sales of overcoatings have been limited but prices are maintained. Cloakings in moderate request and steady. Flannels are firmly held; stocks indifferent. Blankets quiet and unchanged. Carpets tending upwards, tapestries generally 2½c. per yard higher. Dress goods are mostly well sold, and, although quiet just now, are very firm.

**DOMESTIC COTTON GOODS.**—The exports of cotton goods from this port for the week ending April 26 were 10,272

packages, valued at \$393,077, their destination being to the points specified in the tables below:

NEW YORK TO APRIL 20.	1897.		1896.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.

Total.....	10,272	87,658	4,775	82,948

\* From New England mill points direct

The value of the New York exports for the year to date has been \$3,317,807 in 1897 against \$3,301,805 in 1896.

There has been but an incidental advance in bleached cottons, where a ticket has moved into line with the higher prices noted last week, but the general tone for medium and fine grades is decidedly firm. The demand has been fairly good, but generally for such lines as remained at unchanged prices. There is no perceptible improvement in low grades. Sales of brown sheetings and drills have improved somewhat in volume, particularly in the heavier weights, and the general tone is firmer, but not as yet to the extent of practically helping prices, although prevailing prices are more readily paid. Cotton flannels are steadier this week, considerable business having been done since the auction sale. No change in cotton blankets. Denims are still quiet, but not easier to buy than before, and other coarse, colored cottons are generally without change. Kid-finished cambrics have a firmer tendency. There has been a quiet business in printed fabrics this week without special feature. Gingham have also been featureless. Regular-print cloths have been neglected and remain nominally 2 9-16c. A quiet business has been done in odd goods, with a steadier tone at the close.

Stock of Print Cloths—	1897.	1896.	1895.	1894.
At Providence, 64 squares.	Apr. 24.	Apr. 25.	Apr. 27.	Apr. 23.
At Fall River, 64 squares.....	201,000	805,000	8,000	316,000
At Fall River, odd sizes.....	333,000	546,000	91,000	85,000

Total stock (pieces)..... 587,000 1,601,000 224,000 631,000

**FOREIGN DRY GOODS.**—The foreign goods market is still cramped by tariff uncertainties, but for ready business and early deliveries there has been a slight increase in general demand, with a firm tone prevailing.

**Importations and Warehouse Withdrawals of Dry Goods.**

The importations and warehouse withdrawals of dry goods at this port for the week ending April 29, 1897, and since January 1, 1897, and for the corresponding periods of last year are as follows:

**Bond Proposals and Negotiations.**—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

**Atlantic City, N. J.**—*Bonds Authorized.*—The City Council has authorized an issue of \$10,000 of sidewalk bonds and \$12,000 of water bonds.

**Bedford County, Va.**—*Bond News.*—A report has been published to the effect that Bedford County had placed a loan of \$5,000 with the First National Bank of Roanoke at 6 per cent. We are officially advised that this is not true, but that the Board of Supervisors has authorized a committee to borrow \$5,000 from the First National Bank of Lynchburg at 6 per cent, which has not as yet been done.

**Boulder, Col.**—*Bond News.*—E. K. Stafford, City Clerk, reports to the CHRONICLE that the question of issuing electric-light bonds was not put to a vote of the citizens of Boulder. Bonds for that purpose were for a time under consideration, but it was decided not to issue the same.

**Brockton, Mass.**—The following bids were received on April 28, 1897, for the \$25,000 of 4 per cent water and \$30,000 of 4 per cent sewer bonds offered by the city of Brockton:

Bidder—	Water.	Sewer.
S. A. Kean, Chicago, Ill.....	103-2500	104-750
Adams & Co., Boston, Mass.....	107-6700	104-590
Blodget, Merritt & Co., Boston, Mass.....	107-5400	104-180
N. W. Harris & Co., Boston, Mass.....	107-4375	104-0625
Brockton Savings Bank, Brockton, Mass.....	107-3000	.....
E. C. Stanwood & Co., Boston, Mass.....	107-0000	104-450
R. L. Day & Co., Boston, Mass.....	106-7870	103-737
Estabrook & Co., Boston, Mass.....	106-7290	104-160
Deliz, Denison & Prior, Boston, Mass.....	108-5670	104-157
Geo. A. Fernald & Co., Boston, Mass.....	103-5200	.....
Jose Parker & Co., Boston, Mass.....	106-4390	103-299
Blake Bros. & Co., Boston, Mass.....	105-4750	103-150
Jas. W. Longstreet & Co., Boston, Mass.....	105-8130	103-571
E. H. Rollins & Sons, Boston, Mass.....	105-810	103-430
Lee, Higginson & Co., Boston, Mass.....	105-520	103-588
Tower, Giddings & Co., Boston, Mass.....	(for both issues)	\$58,118

The bonds were awarded to S. A. Kean. The securities are dated May 1, 1897, and the interest is payable semi-annually on the first days of May and November. The water loan is issued in the form of coupon bonds of \$1,000 each, maturing May 1, 1927, and the sewer loan in the form of registered certificates of \$1,000 each, maturing at the rate of \$1,000 per annum from May 1, 1898 to 1927, inclusive.

**Brooklyn, N. Y.**—*Bonds Proposed.*—The city of Brooklyn will soon issue water-works improvement bonds to the amount of \$375,000. It is stated that this amount will reduce the borrowing capacity of the city to about \$110,000.

**Brownsville, Tenn.**—*Bonds Proposed.*—It is reported that the city of Brownsville proposes to issue bonds for school purposes.

**Barlington (Ia.) Independent School District.**—*Bond Offering.*—Proposals will be received until June 15, 1897, by this school district for the purchase of \$16,000 of 4½ per cent school-house bonds. The securities will be dated July 1, 1897; interest will be payable semi-annually on the first days of May and November and the principal will mature July 1, 1907, subject to call after July 1, 1898.

The bonded debt of the school district at the present time amounts to \$47,700, against which a sinking fund of \$4,800 is held. The assessed valuation is \$5,000,000; the real value is estimated at about \$25,000,000.

**Callaway County, Mo.**—*Bond Call.*—Bonds of this county bearing 5 per cent interest and maturing in from five to twenty years from August 1, 1897, numbered 79 to 90, 92 to 102, 104 to 138, 143 to 163, 166, 167 and 174 to 227, inclusive, for \$1,000 each; also 71 to 100, inclusive, for \$500 each, have been called for payment at the State Trust Company or the National Bank of Commerce, New York City, or at the Union Trust Company, St. Louis, Mo. Interest on the securities ceases May 1, 1897. The above bonds are to be refunded by an issue of \$150,000 of 4 per cent bonds of \$1,000 each, to mature in twenty years from date of issue, \$100,000 subject to call after five years, and the remainder after seven years.

**Cape May, N. J.**—*Bond Offering.*—Proposals will be received until 8 o'clock P. M., May 6, 1897, by the Finance Committee for the purchase of \$12,000 of 5 per cent bonds of the city of Cape May. The securities will be of the denomination of \$500 each; interest will be payable semi-annually on the first days of May and November, and the principal will mature in twenty years from date of issue. No bid for less than par will be considered.

**Carrollton, Ga.**—*Bond Offering.*—Proposals are now being received by the city of Carrollton for the purchase of bonds to the amount of \$15,000, to be issued for the purpose of erecting and equipping a school building. The securities will bear interest at the rate of 5 per cent, payable annually at the Hanover National Bank, New York City, and the principal will mature at the rate of \$1,000 yearly, beginning July 1, 1912. The denomination of the bonds will be not less than \$500 nor more than \$1,000. Principal and interest will be payable in gold.

The city has at present no debt of any kind. The assessed valuation of real estate for 1895 was \$308,542; personal property, \$333,640; total, \$642,182. The actual valuation is estimated at about \$1,250,000. The population in 1890 was 1,451 and in 1896 it was estimated at 2,500.

**Chelsea, Mass.**—*Bond Offering.*—Proposals will be received until 4 o'clock P. M., May 11, 1897, by Thos. B. Frost, City Treasurer, for the purchase of \$50,000 of 4 per cent park bonds. The securities will be of the denomination of \$1,000 each, dated April 1, 1897; interest will be payable semi-annually on the first days of April and October, at the office of the City Treasurer of Chelsea, and the principal will mature October 1, 1936. The total debt of the City of Chelsea at the present time amounts to \$1,249,700. This includes \$139,700 of special assessment bonds, a park loan of \$10,000 and a water debt of \$300,000. On January 1, 1897, the sinking funds for the regular city debt amounted to \$98,017 and for the water debt to \$29,916. The assessed valuation for 1896 is: Real estate, \$20,523,550; personal property, \$2,834,544; total, \$23,358,094. The tax rate (per \$1,000) is \$16 80; the population in 1896 was 31,295.

**Choteau County, Mont.**—*Bond Offering.*—Proposals will be received until 12 o'clock noon, June 7, 1897, by E. Frank Sayre, County Clerk, Fort Benton, Mont., for the purchase of \$92,000 of 6 per cent coupon bonds. The securities will be of the denomination of \$1,000 each; interest will be payable

semi-annually on the first days of January and July, and the principal will mature in twenty years from date of issue, subject to call after fifteen years. The loan is to be issued for the purpose of refunding certain bonds now due and converting various outstanding warrants.

The official notice of this bond offering will be found elsewhere in this Department.

**Claremont, N. H.—Temporary Loan.**—A report has been published that the town of Claremont has sold \$12,000 of bonds. We have been officially informed that this is incorrect but that a temporary loan of \$17,000 has been placed with certain municipal investors at 3 per cent.

**Clarkfield, Minn.—Bond Sale.**—On April 26, 1897, the \$3,000 of 6 per cent public-hall bonds of the village of Clarkfield were awarded to F. H. Wellcome of Granite Falls, Minn., for \$3,040. The other bids received were:

Geo. D. Cook Co., Chicago, Ill. .... \$3,034 25  
S. A. Kean, Chicago, Ill. .... 3,000 00

The securities are dated May 1, 1897, and will mature in fifteen years from date of issue.

**Clermont County, Ohio.—Bond Offering.**—Proposals will be received until May 4, 1897, by Clermont County for the purchase of \$20,000 of 5 per cent bridge bonds. The securities will be of the denomination of \$500 each and will mature in nine years from date of issue.

**Colorado Springs, Col.—Bonds Defeated.**—Chas. E. Smith, City Clerk, reports to the CHRONICLE that at a recent election the citizens of Colorado Springs defeated a proposition to issue \$30,000 of school bonds. The city expects to do a good deal of sewer construction during the next two or three months but does not expect to issue bonds to cover the cost of the work.

**Cumberland, Md.—Bond Election.**—On May 17, 1897, the citizens of Cumberland will vote on the question of issuing bonds to the amount of \$20,000.

**Curwensville, Pa.—Bonds Proposed.**—It is reported that this municipality will soon issue street-paving bonds to the amount of \$15,000.

**Delphos, Ohio.—Bond Offering.**—Proposals will be received until 12 o'clock noon, May 17, 1897, by this municipality for the purchase of \$10,000 of water-works bonds. The securities will be of the denomination of \$1,000 each and will mature at the rate of \$1,000 per annum from May 1, 1898 to 1907, inclusive.

**De Ruyter, N. Y.—Bond Sale.**—The \$14,000 of 4 per cent 10-20-year water bonds of De Ruyter were awarded to Dan'l A. Moran & Co., of New York City. The other bids received were:

Bertron & Storrs, New York, N. Y. .... 100-125  
Farson, Leach & Co., New York, N. Y. .... 100-008

**Detroit, Mich.—Bond Sale.**—The Commissioners of the Sinking Fund have purchased \$50,000 of 4 per cent thirty-year street-improvement bonds at 110-67½. These securities were formerly awarded to Estabrook & Co. of Boston, Mass., at 110-07½, but were not accepted by that firm on account of some questions, as to their legality. These legal objections were set aside by the decision of the Wayne County Circuit Court on August 25, 1896.

**Dundee, N. Y.—Bond Sale.**—Dundee has sold \$2,400 of school bonds to local investors.

**Duval County, Fla.—Bond News.**—A report has been published to the effect that Duval County has sold \$25,000 of 5½ per cent bonds. County Treasurer Gustav Miller reports to the CHRONICLE that no bonds have recently been issued by the county but that the city of Jacksonville sold an issue of bonds to the amount of \$73,500.

**Galveston County, Texas.—Bond Sale.**—On April 22, 1897, the following bids were received for the purchase of the \$200,000 of 5 per cent court-house bonds:

E. S. Flint of Galveston, Tex., a premium of \$4,000; W. G. Scott of Houston, Tex., a premium of \$4,000; Illinois Trust & Savings Bank and Mason, Lewis & Co. of Chicago, Ill., a premium of \$3,497; also 2 per cent interest on the proceeds if left on call with them until needed by the county, or 3 per cent interest if left on their three, four, five and six months' certificates of deposit; the Lamprecht Bros. Co. of Cleveland, Ohio, a premium of \$2,500; J. B. Oldham, a premium of \$2,488 75; Dietz, Denison & Prior of Cleveland, Ohio, \$204,300 flat, bonds to be taken on July 10 and interest from April 10 to accrue to purchasers.

The bonds were awarded to E. S. Flint.

The securities are of the denomination of \$1,000 each; interest is payable semi-annually on the tenth days of April and October, and the principal will mature in from ten to forty years from date of issue, both principal and interest being payable at the office of the County Treasurer at Galveston.

**Glenn Falls (N. Y.) Union Free School District.—Bond Sale.**—On April 29, 1897, school bonds of this district to the amount of \$24,000 were sold at 100-58¾. The securities bear 5 per cent interest and mature at the rate of \$3,000 annually, beginning December 1, 1899. Sixteen thousand dollars of the same issue were sold in December, 1896, at 100-51½.

**Grapeland (Cal.) Irrigation District.—Bond Offering.**—Proposals will be received until 11 o'clock A. M., May 1, 1897, by the Board of Directors for the purchase of \$25,000 of bonds of this district.

**Hartford, Conn.—Bond Call.**—A notice has been issued by City Treasurer C. C. Strong that \$270,000 of new ten to twenty-five-year bonds of the town of Hartford, issued January 1, 1880, numbered 1 to 270, inclusive, will be redeemed to-day. The securities mature January 1, 1905, subject to call after December 31, 1899. They ceased to bear interest on April 30, 1897.

**Hatfield, Mass.—Bonds Proposed.**—The town of Hatfield proposes to issue bonds to an amount not exceeding \$20,000 for the purpose of extending the water system to North Hatfield.

**Haverlock, Neb.—Bond Offering.**—Proposals will be received until 6 o'clock P. M. May 15, 1897, by this municipality for the purchase of \$5,000 of 6 per cent fifteen-year school bonds.

**Helena, Mont.—Bond Sale.**—On April 27, 1897, the \$161,500 of refunding 5 per cent bonds of the city of Helena were awarded to Farson, Leach & Co., of Chicago, Ill., at 100-025. The securities are of the denomination of \$500 each, dated January 1, 1896; interest is payable semi-annually and the principal will mature as follows: \$8,000 at the rate of \$500 per annum from January 1, 1900 to 1950, inclusive, and \$153,500 on January 1, 1916, both principal and interest being payable at the office of the City Treasurer of Helena or at the Third National Bank of New York City. The bonded debt of the city, including this issue, is \$391,500 assessed valuation (estimated at ¾ actual value), \$12,656,788. The population is estimated at 15,000.

**Holland, Mich.—Bond Offering.**—Proposals will be received until 7 o'clock P. M. May 11, 1897, by Wm. O. Van Eyck, City Clerk, for the purchase of \$18,000 5 per cent water bonds. The securities will be of the denomination of \$1,000 each; interest will be payable annually at the office of the City Treasurer of Holland and the principal will mature Feb. 1, 1908.

The total bonded debt of Holland at the present time amounts to \$69,450. The tax valuation for 1896 is \$1,923,320, which is estimated at less than one-half of the actual value.

**Huntington (W. Va.) School District.—Bond Offering.**—Proposals will be received until 12 o'clock noon, May 10, 1897, by James K. Oney, Secretary of the Board of Education, for the purchase of \$15,000 of 6 per cent school bonds. Interest on the securities will be payable annually and the principal will mature in thirty years from date of issue, subject to call after ten years. Both principal and interest will be payable at the National Park Bank of New York City.

**Hyde Park, Mass.—Bond Sale.**—The \$150,000 of 4 per cent 1-30-year sewer bonds of Hyde Park were awarded to E. C. Stanwood & Co. at 105-40. The other bids received were:

Jose Parker & Co., Boston, Mass. .... 104-9179  
Geo. A. Fernald & Co., Boston, Mass. .... 104-7190  
Cushman, Fisher & Phelps, Boston, Mass. .... 104-6900  
Adams & Co., Boston, Mass. .... 104-6570  
N. W. Harris & Co., Boston, Mass. .... 104-5750  
D. W. Howland, Boston, Mass. .... 104-5410  
E. H. Rollins & Sons, Boston, Mass. .... 104-5180  
Blake Bros. & Co., Boston, Mass. .... 104-4400  
Dietz, Denison & Prior, Boston, Mass. .... 104-3770  
Estabrook & Co., Boston, Mass. .... 104-3410  
R. L. Day & Co., Boston, Mass. .... 104-3190  
Jas. W. Longstreet & Co., Boston, Mass. .... 104-2340  
Third National Bank, Boston, Mass. .... 104-1800  
S. A. Kean, Chicago, Ill. .... 104-1250  
Leland, Tivolo & Co., Boston, Mass. .... 104-0700  
Blodgett, Merritt & Co., Boston, Mass. .... 104-0400  
E. H. Gay & Co., Boston, Mass. .... 103-6400

These bonds are of the denomination of \$1,000 each, dated May 1, 1897; interest is payable semi-annually at such bank or trust company in the city of Boston as the Board of Sewer Commissioners may select.

**Indiana County, Pa.—Bonds Authorized.**—This county has been authorized to issue \$44,500 of 4 per cent funding bonds; \$22,000 of which will become due January 1, 1900, and the remainder January 1, 1901.

**Jacksonville, Fla.—Bond Sale.**—The city of Jacksonville has sold \$73,500 of bonds, the proceeds of which will be used for the redemption of outstanding securities and various other purposes.

**Jersey City, N. J.—Bonds Authorized.**—The Board of Finance of Jersey City has authorized an issue of \$100,000 of park bonds. The securities will bear interest at a rate not exceeding 4½ per cent and will mature in thirty years from date of issue. The bonds will be secured by an annual sinking fund of 2 per cent of the entire issue.

**Karnes County, Texas.—Bond Sale.**—On March 4, 1897, \$6,500 of 6 per cent 5-40-year Karnes County bridge bonds were sold to J. B. Oldham of Dallas Texas, for \$6,600. Interest on the securities is payable at the office of the County Treasurer or at the First National Bank of Austin, Texas.

**Lake Butler, Fla.—Bonds Proposed.**—This municipality is contemplating the issuance of bonds for the construction of water works and an electric-light plant.

**Lancaster, Pa.—Bond Sale.**—This city has sold \$10,000 of 4 per cent 10-year school bonds to local investors.

**Lead, South Dakota.—Bonds Authorized.**—The citizens of this municipality have voted in favor of a proposition to issue \$15,000 of 7 per cent twenty-year city-hall and jail bonds.

**Long Island City, N. Y.—Bond Sale.**—This city has sold to Dener & Dener, attorneys of New York City, \$29,500 of 4½ per cent two-year improvement bonds at par.

**Lowell, Mass.—Bond Offering.**—Proposals will be received until 1 o'clock P. M., May 4, 1897, by Charles S. Coburn, City

**Treasurer, for the purchase of \$75,000 of 4 per cent sewer bonds.** The interest on the loan will be payable semi-annually. The issue will be in the form of ten registered bonds of \$7,500 each, payable respectively in ten successive years from date of delivery; or, in one bond of \$75,000, payable in ten annual instalments, as the purchaser may prefer.

Bids will also be received at the same time for the rate of discount on \$100,000 of six months' notes to be issued in anticipation of the collection of taxes for the current year.

**Marshalltown (Ia.) Independent School District.—Bond Offering.**—Proposals will be received until 2 o'clock P. M. May 15, 1897, by the Treasurer of this school district for the purchase of \$57,000 of 4½ per cent school bonds. Interest on the securities will be payable semi-annually and the principal will mature in ten years from date of issue, subject to call after five years.

**Martin, Tenn.—Bond Election.**—A proposition to issue bonds to the amount of \$25,000 to pay the cost of water-works and an electric-light plant will be submitted to a vote of the citizens of Martin on May 4, 1897.

**Maury County, Tenn.—Bond News.**—J. B. Granbery, Trustee of Maury County, reports to the CHRONICLE that the County Court, which will meet July 1, 1897, will determine in regard to the proposition to issue \$50,000 of funding bonds.

**Meridian, Miss.—Bond Offering.**—Proposals will be received until 12 o'clock noon May 27, 1897, by I. A. Mooser, City Clerk, for the purchase of \$50,000 of 6 per cent sidewalk paving bonds. The securities will be of the denomination of \$1,000 each, dated April 1, 1897; interest will be payable semi-annually and the principal will mature April 1, 1917, both principal and interest being payable at the Seaboard National Bank of New York City. No bid for less than par and accrued interest will be considered, and each proposal must be accompanied by a certified check for \$1,000.

The present bonded debt of the city of Meridian is \$209,400; assessed valuation, \$4,569,506; tax rate (per \$1,000), \$15.

**Middletown, Conn.—Bond Sale.**—On April 29, 1897, the \$215,000 of 4 per cent water-works bonds of the city of Middletown were awarded to the Middletown Savings Bank at 107 50. Fourteen other bids were received. The securities are of the denomination of \$1,000 each, dated July 1, 1897; interest is payable semi-annually on the first days of January and July, and the principal will mature July 1, 1922, both principal and interest being payable at the office of the City Treasurer of Middletown.

This loan was authorized to provide means for the construction of a new and additional system of water supply by means of reservoirs, and will be issued in the form of registered or coupon bonds, as the purchaser may desire.

**Milwaukee, Wis.—Bond Offering.**—Proposals will be received until 10 o'clock A. M., May 18, 1897, by the Commissioners of Public Debt, care of William J. Fiebrantz, City Comptroller, for the purchase of \$200,000 of 5 per cent library and museum bonds. The securities will be of the denomination of \$1,000 each, dated Jan. 1, 1897; interest will be payable semi-annually on the first days of May and November and the principal will mature at the rate of \$10,000 per annum from May 1, 1898 to 1917, inclusive. Principal and interest will be payable at the office of the City Treasurer of Milwaukee or at the office of Morton, Bliss & Co., New York City.

**Montana.—Bond Sale.**—The \$100,000 of 6 per cent University bonds of the State of Montana have been awarded to Farson, Leach & Co. of Chicago, Ill., at a premium of \$25. The securities mature in thirty years from date of issue, subject to call after twenty years.

**Newark, N. J.—Bonds Authorized.**—The Common Council of Newark has authorized an issue of \$300,000 of library bonds.

**New Brighton, Pa.—Bond News.**—George Davidson, Borough Treasurer, reports to the CHRONICLE that the \$60,000 to \$80,000 of sewer bonds proposed by the people of New Brighton will probably not be issued this year.

**Newton, Mass.—Bond Sale.**—On April 29, 1897, the \$100,000 of 4 per cent sewer bonds were awarded to Estabrook & Co. of Boston, Mass., at 109 17. The securities are of the denomination of \$1,000 each; interest is payable semi-annually on the first days of May and November at the National Reserve Bank of Boston, Mass., or at the office of the City Treasurer of Newton, and the principal will mature May 1, 1927.

**Newtown, N. Y.—Bond Sale.**—On April 28, 1897, the town of Newtown received bids for the purchase of \$620,000 of 4½ per cent road improvement bonds maturing January 1, 1925. The securities were awarded to Walter Stanton & Co. of New York City at 111.

**Newtown (N. Y.) Union Free School District No. 2.—Bond Offering.**—Proposals will be received until 8 o'clock P. M., May 14, 1897, by Chas. H. Georgi, President of the Board of Education, for the purchase of \$15,000 of 4 per cent school bonds. The securities will be of the denomination of \$1,000 each, dated July 1, 1897; interest will be payable semi-annually on the first days of January and July, and the principal will mature at the rate of \$1,000 per annum from July 1, 1904 to 1918, inclusive.

No bid for less than par will be considered and each proposal must be accompanied by a certified check for 3 per cent of the amount of the bid.

**Bonds Proposed.**—The Treasurer of the Board of Education reports to the CHRONICLE that this school district will in the

near future issue \$15,000 of bonds in addition to the above issue.

**Niles (Ohio) School District.—Bond Offering.**—Proposals will be received until 3 o'clock P. M., May 3, 1897, by the Board of Education for the purchase of \$10,000 of 5 per cent school bonds of this district.

**Northfield, N. Y.—Bonds Proposed.**—The town of Northfield proposes to issue road improvement bonds to the amount of \$40,000.

**Oneonta (N. Y.) Union Free School District No. 5.—Bond Offering.**—Proposals will be received until 2 o'clock P. M. May 10, 1897, by the Board of Education, at the office of Alva Seybolt, Secretary of the Board, for the purchase of \$10,000 of 4 per cent bonds of the district. The securities will be dated Jan. 1, 1897; interest will be payable annually on January 1 at the Wilbur National Bank, Oneonta, N. Y., where the principal also will be payable. The bonds will be of the denomination of \$500 each and will mature as follows: \$500 yearly from January 1, 1899, to January 1, 1902, inclusive, and \$2,000 each year thereafter to and including 1906. The loan is to be issued for the purchase of a new school site and erecting a school building thereon.

The above is part of an authorized issue of \$34,300; the remainder will probably be offered for sale about July 1, 1897.

The total indebtedness of the school district, not including this issue, is \$6,250; its assessed valuation, according to the last assessment roll, is \$1,533,761, and the population is estimated at 7,000.

**Orange, Texas.—Bond News.**—The City Council has passed an ordinance to cancel \$11,000 of the \$25,000 of school bonds and issue 11 bonds of \$1,000 each to provide funds for the construction of a water-works system.

**Ottumwa (Ia.) Independent School District.—Bond Sale.**—The \$30,000 of 4 per cent bonds of this district were awarded on March 3, 1897, to the First National Bank of Chicago, Ill., at a private sale. Interest on the securities is payable semi-annually and the principal will mature March 5, 1907, subject to call after March 5, 1902, both principal and interest being payable at the First National Bank of Chicago, Ill.

**Owyhee County, Idaho.—Sale Postponed.**—E. L. Ballard, Chairman of the Board of County Commissioners reports to the CHRONICLE that no satisfactory bids were received for the purchase of the \$61,000 of 6 per cent 10-20 year funding bonds of Owyhee County and that the sale has been postponed until July 12, 1897.

**Peabody, Mass.—Bond Sale.**—On April 29, 1897, the \$52,000 of 4 per cent refunding water bonds of the town of Peabody were awarded to Josee Parker & Co. of Boston, Mass., at 102 67 1/2. The other bids received were:

Salem Savings Bank, Salem, Mass.	102-570
Budget, Merritt & Co., Boston, Mass.	102-310
W. & J. Denison & Prior, Boston, Mass.	102-197
Adams & Co., Boston, Mass.	102-192
N. W. Harris & Co., Boston, Mass.	102-187 1/2
Third National Bank, Boston, Mass.	102-180
Geo. A. Fernald & Co., Boston, Mass.	102-180
E. H. Rollins & Sons, Boston, Mass.	102-077
R. L. Day & Co., Boston, Mass.	102-076
Blake Bros. & Co., Boston, Mass.	102-075
Estabrook & Co., Boston, Mass.	102-035
Jas. W. Longstreet & Co., Boston, Mass.	101-963
Parkinson & Burr, Boston, Mass.	101-462

The securities are of the denomination of \$1,000 each, dated May 1, 1897; interest is payable semi-annually on the first days of May and November, in the City of Boston, and the principal will mature at the rate of \$4,000 per annum from May 1, 1898 to 1910, inclusive.

**Bond Sale.**—The \$29,000 of bonds held by the Commissioners of the High Service Sinking Fund of Peabody were awarded to Adams & Co. of Boston, Mass., for \$30,895. Eight other bids were received.

**Pittsburg, Pa.—Bond Sale.**—The \$20,000 of water bonds recently sold by this city constitute part of a loan of \$6,250,000 made in 1895. This whole loan, less \$625,000 reserved for the sinking funds, was sold to James Carothers of Pittsburg at 108 7/2. These bonds have been delivered to Mr. Carothers, as the money was needed for the improvements contemplated by the loan. Up to the present time the total amount of bonds delivered is, in round numbers, about \$4,000,000.

The loan bears interest at the rate of 4½ per cent and was made in such a way as to make one-tenth of the whole loan, or \$625,000, redeemable every three years, beginning with May 1, 1898.

**Pittsfield, Mass.—Bond Offering.**—Proposals will be received until 3 o'clock P. M. May 12, 1897, by E. H. Kennedy, City Treasurer, for the purchase of \$170,000 of 4 per cent school bonds and \$100,000 of 4 per cent water funding bonds. Both issues will be dated May 15, 1897, interest will be payable semi-annually on the fifteenth days of May and November and the principal will mature at the rate of \$10,000 per annum, beginning with May 15, 1898. Both principal and interest will be payable at the National Bank of Redemption of Boston, Mass.

**Polk County, Iowa.—Bond News.**—H. C. Murphy, County Treasurer, reports to the CHRONICLE that the \$50,000 of 6 per cent 1-4 year insane asylum warrants of Polk County, which were awarded to Farson, Leach & Co. of Chicago, Ill., at a premium of \$507 50, are to be issued as the work on the building progresses. The loan is to be paid from the proceeds of a

tax levied upon the taxable property of the county for 1897, which tax will be collected during the years 1898, 1899 and 1900.

**Portsmouth, Ohio.—Bond Sale.**—The \$10,000 of 5 per cent 7-10 year school bonds of the city of Portsmouth were awarded to the First National Bank of Chillicothe, Ohio, at a premium of \$537, but owing to some discrepancy in the advertising they will have to be resold. This will probably be done in about three weeks.

**Put-in-Bay, Ohio.—Bond Sale.**—The village of Put-in-Bay has sold \$9,038 75 of 6 per cent park bonds. The securities are dated April 15, 1897, interest is payable semi-annually and the principal will mature as follows: \$1,038 75 on April 15, 1902, and \$8,900 at the rate of \$1,000 every two years from April 15, 1904 to 1918, inclusive, both principal and interest being payable at The Union Savings Bank Company of Toledo, Ohio. The bonds are of the denomination of \$1,000, except one bond of \$1,038 75.

**Richmond Hill, N. Y.—Bond Offering.**—Proposals will be received until 8 o'clock P. M., to-day, by the village of Richmond Hill, for the purchase of \$70,000 of 4 per cent gold street-improvement bonds. The securities will be of the denomination of \$1,000 each, dated May 1, 1897; interest will be payable semi-annually on the first days of May and November, and the principal will mature at the rate of \$5,000 per annum beginning with May 1, 1937. No bid for less than par will be considered and each proposal must be accompanied by a certified check for not less than 5 per cent of the amount bid for.

**Rocky River (Ohio) Special School District.—Bond Offering.**—Proposals will be received until 4 o'clock P. M., to-day by C. S. Crossley, President of the Board of Education, for the purchase of \$1,000 of 6 per cent school bonds. The securities will be of the denomination of \$300 each, dated May 1, 1897, and will mature at the rate of \$300 per annum from May 1, 1898 to 1902, inclusive.

**St. Joseph, Mo.—Bond News.**—The City Counselor has submitted an opinion to the Board of Aldermen of St. Joseph to the effect that they have the right to pay off the 6 per cent bonds amounting to \$323,400 at par and interest, although the bonds do not mature until 1903. It is claimed that this is in

accordance with the decision of the case of the National Bank of the Republic of New York against the city of St. Joseph as found in Vol. 31 Federal Reports, page 216.

**Sand Beach, Mich.—Bond Offering.**—Proposals will be received until 8:45 P. M., to-day by this village for the purchase of \$10,000 of 5 per cent water bonds. Interest on the securities will be payable semi-annually and the principal will mature in thirty years from date of issue, subject to call after fifteen years.

**Sayre, Pa.—Temporary Loan.**—The Borough Council has ordered that \$1,000 be borrowed from the Sayre Banking Co. The loan will probably be effected about the 1st of May, will bear interest at the rate of 6 per cent and will become due about the 1st of September, both principal and interest to be payable at the Farmers' National Bank of Athens, Pa.

**Seattle, Wash.—Loan Proposed.**—Will H. Parry, City Comptroller, reports to the CHRONICLE that next June the city of Seattle will probably issue \$20,000 of 7 per cent warrants in anticipation of the collection of taxes.

**Santa Barbara, Cal.—Bond Sale.**—The \$50,000 of 5 per cent water bonds of Santa Barbara were awarded to N. W. Harris & Co. of Chicago, Ill., at 102-09.

**South Hadley Falls, Mass.—Temporary Loan.**—This town has placed an eight months' loan of \$20,000 with the City National Bank at 3½ per cent interest.

**South Park, Ill.—Bonds Proposed.**—The Board of Commissioners of South Park has decided to present a bill to the State Legislature authorizing an issue of \$5,000,000 of bonds for improvements, the proposition to be submitted to a vote of the people.

**Spartanburg (S. C.) School District.—Bond Offering.**—Proposals will be received until about July 1, 1897, by this district for the purchase of \$10,000 of 6 per cent coupon bonds to be issued for the erection of a new school-house. The securities will be of the denomination of \$500 and mature in thirty years from date of issue. They will be a lien upon all school district property.

**Springville, N. Y.—Bond Sale.**—This village has placed a loan of \$28,000 with Geo. P. Smith of Tonawanda, N. Y., at par. The issue is in the form of 4 per cent thirty-year bonds.

## NEW LOANS.

\$50,000

### PELHAM MANOR, N. Y., FOUR PER CENT GOLD SEWER BONDS.

PROPOSALS FOR SEWER BONDS IN THE  
VILLAGE OF PELHAM MANOR, N. Y.

Sealed proposals will be received until May 1st, at eight thirty o'clock P. M., at which time, at the Trustees' Rooms of the Village of Pelham Manor, in said Village, the said bids will be opened for the purchase of

**\$50,000 FOUR PER CENT GOLD BONDS,** or any part thereof, of the Village of Pelham Manor, Westchester County, New York, authorized and issued by the Board of Sewer Commissioners of said Village, pursuant to the provisions of the General Sewer Act of 1889, and its amendments.

The said bonds will mature in twenty years from May 1st, 1897, the interest to be paid semi-annually, on May 1st and November 1st, at the office of the Knickerbocker Trust Company, New York. Said bonds to be coupon or registered at option of purchaser. The bids to be addressed to John H. Dey, Treasurer, Pelham Manor, New York, and to be marked on envelopes "Proposals for Sewer Bonds." Each bid must be accompanied with a certified check payable to the order of said Treasurer, for two per cent of the total amount of the bid. The right is reserved to reject any or all bids.

Dated PELHAM MANOR, N. Y., March 23d, 1897.

F. CARLES MERRY,

President.

JOHN C. HAZEN,

Clerk.

DIETRICH SCHMIDT,

WILLIAM B. RANDALL,

HENRY B. R. STAPLER,

JOHN B. DODD

Treasurer of Village.

\$10,000

### UNION, S. C.,

### 6½ Water Works & Electric Light Bonds.

The Town of Union, S. C., will sell Forty Thousand Dollars of Six Percent Bonds for Water Works and Electric Light. These bonds are issued in accordance with an Act of the General Assembly approved March, 1896, giving cities and towns permission to issue bonds for Water Works and Electric Light.

Bids must be sent by May 2d, 1897.

To F. M. LARR, Chairman.

Union, S. C.

### MANHATTAN ISLAND REAL ESTATE INVESTMENT.

### CASS REALTY CORPORATION.

209, 211 and 213

East Twenty-Third Street.

Speaking of Manhattan Island Real Estate Investment, the "N. Y. Evening Post", April 3, 1897, said:

"\* \* \* it is sure in time to become immensely profitable; for the increase in the fee value of the property will be attended by a greater demand \* \* and a relative increase in rents."

Write or Call for Particulars.

**Taylor, Penn.—Bond Election.**—The citizens of this municipality will soon vote on a proposition to issue \$10,000 of electric-light bonds.

**Tompkinsville, N. Y.—Bonds Authorized.**—An issue of \$45,000 of 24-year school bonds has been authorized.

**Tonawanda (N. Y.) Union Free School District No. 3.—Bond Sale.**—The \$50,000 of 4 per cent school bonds of this district have been awarded to James H. Rand of Tonawanda, N. Y., at 100-361.

**Waltham, Mass.—Bond Offering.**—Proposals will be received until 4 o'clock P. M. May 5, 1897, by E. J. Sanders, Jr., City Treasurer, for the purchase of \$7,000 of 4 per cent thirty-year sewer bonds, \$6,000 of 4 per cent twenty-year water bonds and \$5,000 of 4 per cent ten-year building bonds. The sewerage and building loans will be dated Jan. 1, 1897, and the interest will be payable on the first days of January and July. The water bonds will be dated April 1, 1897, and the interest will be payable on the first days of April and October. All the above loans will be issued in the form of coupon bonds of \$1,000 each.

**Warren County, Ohio.—Bond Sale.**—On April 22, 1897, the \$50,000 of 4½ per cent bridge bonds of Warren County were awarded to Seasegood & Mayer of Cincinnati, Ohio, for \$51,603 25. The other bids received were:

German National Bank, Cincinnati, Ohio.....	\$51,503 00
H. Kuhn & Son, Cincinnati, Ohio.....	51,400 00
Roberts & Hall, Cincinnati, Ohio.....	51,275 00
N. W. Harris & Co., Chicago, Ill.....	51,268 00
Dietz, Denison & Prior, Cleveland, Ohio.....	51,177 00
Rudolph Kiebolte & Co., Cincinnati, Ohio.....	51,157 79
Farson, Leach & Co., Chicago, Ill.....	51,150 00
W. J. Hayes & Sons, Cleveland, Ohio.....	51,090 00
E. H. Gay & Co., Chicago, Ill.....	51,067 00
Mason, Lewis & Co., Chicago, Ill.....	51,035 00
The Lamprecht Bros. Co., Cleveland, Ohio.....	51,015 75

Spitzer & Co., Toledo, Ohio.....	50,877 50
E. H. Rollins & Sons, Boston, Mass.....	50,769 50
Lebanon National Bank, Lebanon, Ohio.....	50,751 00

The securities are of the denomination of \$500 each, dated April 22, 1897; interest is payable semi-annually on the first days of April and October, and the principal will mature at the rate of \$2,500 every six months beginning with April 22,

1899, both principal and interest being payable at the office of the County Treasurer at Lebanon, Ohio.

**Wasco County (Ore.) School District No. 12.—Bond Offering.**—Proposals will be received until 1 o'clock P. M. May 15, 1897, by the County Treasurer for the purchase of \$30,000 of 6 per cent school bonds. Interest on the securities will be payable semi-annually and the principal will mature in twenty years from date of issue, subject to call after ten years.

**Waterford, N. Y.—Bonds Authorized.**—The Board of Education of Waterford has authorized an issue of \$20,000 of school bonds.

**Waterville, Me.—Temporary Loan.**—The City of Waterville has borrowed \$3,000 to \$4,000 of local banks, in anticipation of the collection of taxes. This is part of an authorized loan of \$20,000.

**Wayne County, Ill.—Bond Call.**—Notice has been given that the following past-due twenty-year railroad aid bonds of Wayne County issued in 1869 and 1870 are called for payment on June 30, 1897, at the American Exchange National Bank of New York City on the First National Bank of Fairfield, Ill., after which date they will cease to bear interest:

Bonds numbered 13 to 90 inclusive of \$1,000 each.  
Bonds numbered 74 to 93 inclusive of \$500 each.  
Bonds numbered 1 to 482 inclusive of \$100 each.

**West Springfield, Mass.—Temporary Loan.**—The city of West Springfield has made a temporary loan of \$30,000.

**Woonsocket, R. I.—Bond Sale.**—On April 24, 1897, the \$350,000 of registered gold bonds of the city of Woonsocket were awarded to Street, Wykes & Co., of New York City, at 105-17. The other bids received were as follows:

Farson, Leach & Co., New York, N. Y.....	104-755
E. H. Rollins & Sons, Boston, Mass.....	103-910
Lee, Higginson & Co., Boston, Mass.....	103-780
Blodget, Merritt & Co., Boston, Mass.....	103-580
Estabrook & Co. and R. L. Day & Co., Boston, Mass.....	103-327
Blake, Bros. & Co., Boston, Mass.....	103-190
Jas. W. Longstreet & Co., Boston, Mass.....	103-080

The bonds are of the denomination of \$1,000 each, dated May 1, 1897; interest is payable semi-annually on the first days of May and November and the principal will mature May 1, 1927.

With this issue of the CHRONICLE we send out our usual monthly number of the QUOTATION SUPPLEMENT. The SUPPLEMENT contains, besides a complete record of the past month's transactions on the New York and Boston Stock Exchanges, twenty-seven pages of general quotations, comprising all classes of securities—railroad stocks and bonds, municipal securities, bank stocks, gas stocks, insurance stocks, street railways, etc., etc.

### THE FINANCIAL SITUATION.

The tariff bill was reported to the Senate by the Finance Committee Tuesday morning. This action was a surprise, as the public had prepared itself merely for a report on that day to the full committee with the expectation that it would be detained in committee undergoing examination three weeks or more, and not till after that come before the Senate. These formalities, though usual, gave to the outlook in this case a somewhat discouraging aspect, since already more than one and a-half months had been consumed over this legislation, and still the bill was in the preliminary process of incubation. It was consequently a very decided relief to industrial classes and a very welcome surprise to have this slow development hastened by skipping one stage which seemed to promise little advantage to any one. As it had become a settled fact that we are to have a higher tariff, the prevailing feeling is to let the party responsible for the results shape it, and then depend upon open discussion for modifying its provisions and fixing its final form. But we have written on a subsequent page with reference to the measure as reported to the Senate. It will be seen that the Committee's work has on the whole greatly improved the old bill in important particulars, which we have there explained.

The defeat of the Arbitration Treaty is a wretched and humiliating conclusion to a most commendable effort. We are glad to be able to say that the adverse vote in no measure voices public sentiment. The large body of our people were full of enthusiasm over the success of the negotiation; they have with deep regret seen the treaty robbed of most of its value by amendments; yet now, being of precisely of the same mind as at the first, they feel as if in the final result they had received a personal injury. The twenty-six votes recorded against arbitration tell clearly enough the source of the hostility. With hardly an exception they are the same coterie of Senators who have made up during the past three years the leading war and silver party in that body. The most of them care for nothing but silver. With arbitration established, an easy way to the attainment of silver payments in the United States, which is the height of their ambition, would be closed. They know full well that a real war scare with any important nation in Europe, and most of all with Great Britain, where so many of our securities are held, would under existing circumstances scatter our gold reserve in a day. With the country facing such a contest and facing the impossibility of conducting such a war on a gold basis, depositors and security holders both small and large would hasten to convert their funds before it was too late. It is somewhat of a relief to the disappointment and chagrin the public feel on this occasion because of this lost opportunity, that they know the moral tone of our people is not of nearly as low a grade as the vote against this treaty might indicate.

There has been a wholly natural reaction in foreign exchange this week after the considerable export of gold during the last two weeks, aided this week by the shipment on Tuesday of one and a-half million dollars more and the engagement yesterday of another million for shipment to-day. This outflow furnished a large quantity of exchange, an amount in excess of what was needed to supply the immediate requirements of the market, and as a consequence rates fell. No conclusion can be predicated with reference to the future course of exchange on this decline other than that the adverse movement was due, as we more fully explained last week, to existing adverse conditions arising from temporary causes—the large merchandise imports in prospect of higher tariff duties and the special demand for gold in Europe. Favoring for the time being the check to gold exports has also been the presence of a considerable amount of running off bills which were being carried in this market the latter part of April and which mature in May. It was owing to their presence that the higher rates of exchange were maintained by bankers in April, and that the agreement existed not to ship gold unless 4 88½ for demand sterling could be obtained; an agreement which was broken because of the peremptory order to ship the bullion which went out on the 27th of April. After that bankers took advantage of the fact that exchange at Paris on London was 25 francs 9½ centimes to send the metal to Paris and sell sterling against it, for so long as sterling could be marketed at 4 87½ there was a clear profit in the triangular operation during which at one time demand sterling fell as low as 4 87¼. The direct influence reported as imparting greater steadiness to the market the latter part of this week has been the large purchases by importers of merchandise.

The reduction in the dividend rate by the Chicago & Alton is an event that deserves more than passing notice. The Alton has a dividend record running back over thirty years, and the 8 per cent rate has prevailed for a period of sixteen years. The reduction is small, only 1 per cent per annum, and no doubt the Western Populists will consider 7 per cent per annum a very high rate of return. But the Alton has always been very conservatively managed, and it cannot be urged against it that its stock has been watered. Its shareholders, unlike those of some other roads, have never had "plums" in the shape of stock dividends. Nor does the present amount of the capitalization represent anywhere near its cost. In its early days the Alton went through the experience of other enterprises of that kind, and those who put their money into the undertaking lost heavily. In the address of Mr. James Charlton, which we recently reviewed, it was pointed out that while the capital account of the Alton stands at 35 million dollars, the property has cost the owners over 70 millions. The road was originally bought at sheriff's sale, and only by putting the earnings into the track and equipment year after year, instead of using them for dividends, was it possible to bring the property up to a condition where it could make regular returns to its shareholders. Mr. Charlton declared that if the company were paying dividends on the actual amount of money invested, instead of that amount boiled down, the rate would be only two per cent, instead of the 8 per cent which has ruled. When a company so situated is obliged to cut its dividend rate, the railroad industry evidently can not be regarded as in a very satisfactory state.

It is not surprising under these circumstances that investors should be turning from railroad investments to municipal investments. No feature of the situation is more noteworthy or significant at the moment than the extent to which new municipal bond issues are being put out and the avidity with which they are being absorbed by the investing public. We may take occasion in the near future to comment more at length on this feature, but wish to note here the magnitude of the sales. According to our summary for April, published to-day in our State and City Department, the aggregate of the disposals of municipal securities during that month reached \$12,301,823. In our STATE AND CITY SUPPLEMENT for April we showed that the sales for the previous five months since the 1st of last November had been \$80,739,743, so that for the six months over 93 millions of new bonds have been issued, not counting in the total any temporary loans made for one purpose or another. To be sure, the total includes nearly 35 millions of bonds sold in November, representing the accumulation of unsold issues during the silver campaign of last year, but even with this month eliminated we have an aggregate of over 58 million dollars for the remaining five months. Bond dealers tell us that such is the eagerness of investors to buy that purchases of bonds by them are spoken for by the public almost as fast as made. The new issues have multiplied so fast that we have found it necessary to increase the space allotted to our State and City Department, where we record the news and events regarding municipal securities.

We give on another page the statement of mercantile failures by branches of trade for the month of April, as prepared by Col. W. M. Grosvenor for Dun's Review. The advantage of having classified returns of that kind is well shown in this case. Judging by the mere totals it would appear that business affairs were getting steadily worse and that the results were strikingly unfavorable, as the liabilities of the failed concerns are reported at no less than \$17,613,477 for April 1897 against only \$12,487,697 for April 1896 and \$10,966,459 for April 1895. But on examination it is ascertained that more than the whole increase has been in the cotton goods industry, and that this represents the collapse of the five New Bedford cotton mills, whose misfortunes are due to a special cause, and do not reflect inherent weakness in the trade itself. The aggregate liabilities of these five mills was \$7,990,734. Eliminating these failures, the record is seen to be really an encouraging one, and this view is also borne out by the decrease in the number of failures, which are reported at only 941 for 1897, against 1,000 for 1896 and 999 for 1895.

Money on call, representing bankers' balances, has loaned this week at  $1\frac{1}{2}$  and at 2 per cent. The tone was a little firmer early in the week, but after Wednesday it grew easier and then the bulk of the business was at  $1\frac{1}{2}$  per cent, and this has been the average. Some of the banks have obtained 2 per cent for money over the counter but the majority of these institutions and the trust companies have loaned at the rates current on the Stock Exchange. Time contracts on good mixed stock collateral are freely offered but not much business is reported. Rates are 2 per cent for thirty to sixty days,  $2\frac{1}{2}$  per cent for ninety days to four months, 3 per cent for five to six months and  $3\frac{1}{2}$  per cent for longer dates. There has been a good inquiry for commercial paper and the demand increased after the

middle of the week, but the offerings were only fair. Quotations are  $3\frac{1}{4}$ @ $3\frac{1}{2}$  per cent for sixty to ninety day endorsed bills receivable,  $3\frac{1}{2}$ @ $4\frac{1}{4}$  per cent for first class and  $4\frac{1}{2}$ @5 per cent for good four to six months single names.

An Athens cable reported that the ministers of Great Britain, France, Russia and Italy had been instructed to propose mediation, and if this is accepted the Græco-Turkish war will speedily end. The Bank of England minimum rate of discount remains unchanged at  $2\frac{1}{2}$  per cent. The cable reports discounts of sixty to ninety day bank bills in London 1 per cent. The open market rate at Paris is 2 per cent; at Berlin it is  $2\frac{3}{8}$  per cent, and at Frankfort  $2\frac{1}{2}$  per cent. According to our special cable from London the Bank of England lost £240,198 during the week, and held £36,253,715 at the close of the week. Our correspondent further advises us that the loss was due to the export of £186,000 (of which £130,000 was to Japan and £56,000 to France), to shipments of £291,000 net to the interior of Great Britain and to the import of £237,000, of which £165,000 was from the Cape, £35,000 from China, £25,000 from Australia and £12,000 from Portugal.

The foreign exchange market has been quiet and generally easy this week, growing steadier again as the week closes. On Monday it was announced that Kidder, Peabody & Co. of Boston would increase their shipment of gold by Tuesday's steamer, by \$250,000, making it, with \$750,000 engaged last week, \$1,000,000; Heidebach, Ickelheimer & Co. also engaged \$500,000 gold coin for the same steamer. The offerings of bills drawn against this and the former shipments caused a decline in rates for actual business in sight sterling; exchange at Paris on London fell off and the price of bar gold in London declined one quarter of a penny per ounce, while American Eagles dropped half a penny. It was thought then that gold exports had been suspended for the time being, but on Friday Lazard Freres engaged \$1,000,000 for shipment to-day. Purchases of exchange by importers of merchandise to make remittances will explain why the pressure of bills against the large gold exports did not affect the market more heavily. It is expected that some run-off bills will soon be marketed. Bankers report a slight increase in commercial drafts against provisions, but there are very few offerings against grain. On Monday nominal rates for sterling opened at unchanged figures compared with the close of last week, and there was no alteration in them until Tuesday afternoon, when the Bank of British North America reduced the rates half a cent, and thereafter the range was from  $4\ 86\frac{1}{2}$  to  $4\ 87$  for sixty-day and  $4\ 88$ @ $4\ 88\frac{1}{2}$  for sight until Friday, when all the bankers quoted the sixty-day rate  $4\ 87$ . Rates for actual business opened on Monday unchanged for long at  $4\ 86\frac{1}{4}$ @ $4\ 86\frac{1}{2}$ , but short sterling and cable transfers were reduced one quarter of a cent, to  $4\ 87\frac{1}{4}$ @ $4\ 87\frac{1}{2}$  for the former and  $4\ 87\frac{1}{2}$ @ $4\ 87\frac{3}{4}$  for the latter, and the market closed dull and barely steady. On the following day the tone was easier at a decline of one-quarter of a cent all round, to  $4\ 86$ @ $4\ 86\frac{1}{4}$  for long,  $4\ 87$ @ $4\ 87\frac{1}{4}$  for short and  $4\ 87\frac{1}{4}$ @ $4\ 87\frac{1}{2}$  for cable transfers, and no change was made on Wednesday, when the tone was still easy. On Thursday it was a shade firmer for short sterling and cable transfers, and rates for actual business were advanced to  $4\ 87\frac{1}{4}$ @ $4\ 87\frac{1}{2}$  for the former and  $4\ 87\frac{1}{2}$ @ $4\ 87\frac{3}{4}$  for the latter. Yesterday the market was steady to firm with no change in rates. The

following shows daily posted rates by some of the leading drawers.

DAILY POSTED RATES FOR FOREIGN EXCHANGE.

	FRI., Apr. 30.	MON., May 1.	TUES., May 2.	WED., May 3.	THUR., May 4.	FRI., May 5.

The market closed steady on Friday at 4 87 for sixty day and 4 88@4 88 1/2 for sight. Rates for actual business were 4 86@4 86 1/2 for long, 4 87 1/2@4 87 3/4 for short and 4 87 1/2@4 87 3/4 for cable transfers. Prime commercial bills were 4 85 1/2@4 85 3/4 and documentary 4 84 1/2@4 85.

After an increase in March, bank clearings for April again show a decrease, the falling off from last year being 4.4 per cent. It is noteworthy that the comparison is greatly improved by leaving out New York, the decrease then being only 2.5 per cent. The Grant memorial celebration on the 27th, in giving an extra holiday, no doubt operated to reduce the volume of exchanges.

MONTHLY CLEARINGS.

Month.	Clearings, Total All.			Clearings Outside New York.		
	1897.	1896.	P. Ct.	1897.	1896.	P. Ct.
January	1,507,014,723	1,627,143,291	-2.6	1,917,667,391	2,064,739,583	-7.1
February	3,691,475,797	4,115,468,186	-10.8	1,616,345,618	1,742,476,558	-5.6

In some parts of the country the showing is quite favorable. Thus the Southern group of places records 3.4 per cent increase over last year, the New England group 3.7 per cent increase and the Pacific group 1.9 per cent increase. The group comprising the cities in the Middle States shows 6 per cent decrease, the Middle Western group 7.8 per cent decrease and the Far Western group 1.00 per cent decrease. The following furnishes a comparison for four years of the clearings at the principal cities.

BANK CLEARINGS AT LEADING CITIES.

We shall publish next week our review of the gross earnings of the railroads for the month of April. A

preliminary statement we have prepared this week covering '82 roads shows \$537,278 increase or 1.76 per cent. The following compares the returns of gross and net for four years of a number of roads that have submitted statements this week for March.

Name of Road—	March Earnings.			
	1897.	1896.	1895.	1894.
Central of New Jersey	Gross \$21,214 Net 2,09,411	\$21,019 \$22,578	1,019,818 406,303	\$21,253 233,202

The following statement gives the week's movements of money to and from the interior by the New York banks.

Week Ending May 7, 1897.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency	\$5,089,000	\$2,347,000	Gain, \$3,822,000
Gold	682,000	411,000	Gain, 271,000
Total gold and legal tenders	\$6,651,000	\$2,758,000	Gain, \$3,893,000

With the Sub-Treasury operations and gold exports the result is as follows.

Week Ending May 7, 1897.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' Interior movement as above	\$6,651,000	\$2,758,000	Gain, 3,893,000
Sub-Treas. operations and gold exports	20,000,000	29,500,000	Loss, 9,500,000
Total gold and legal tenders	\$26,651,000	\$32,258,000	Loss \$5,607,000

Amount of bullion in principal European banks.

The division (between gold and silver) given in our table of coin and bullion in the Bank of Germany and the Bank of Belgium is made from the best estimate we are able to obtain; in neither case is it claimed to be accurate, as these banks make no distinction in their weekly returns, merely reporting the total gold and silver, but we believe the division we make is a close approximation.

NOTE. We receive the foreign results weekly by cable, and while all of the data given at the head of this column, they are the returns issued nearest to that date—that is, the latest reported figures.

### IMPORTANT AMENDMENTS IN THE SENATE TARIFF BILL.

The Senate Finance Committee, through the introduction of the tariff bill reported this week, has done the country a substantial service. We say that, in face of the fact that the measure as it stands lays a tax on hides, a duty certain to be of no material benefit to any one, while equally certain to inflict decided harm on all manufacturers and consumers of boots and shoes; also a tax on low-grade wools which would for a time demoralize the carpet industry and bear heavily on the purchaser of carpets, which in this country includes all classes. These features are conspicuously objectionable. Common report says they were out of accord with the views and intention of those who prepared the measure and were only inserted to hasten legislation. In other words those concessions are evi-

dence of a commendable desire to get the bill before the Senate without a further delay in committee of two or three weeks which seemed impending. The Committee no doubt felt that business interests called for quick action, for a settlement of the tariff in some way speedily; while the enactment of those duties, whether put in the bill as reported or not, must depend upon finding a majority of the Senate in favor of them. Which way the votes will be cast ought not to be in doubt, and if the Senators are left free to act without caucus dictation there are reasons for thinking that the Committee's tariff bill can find a majority in the Senate with those features eliminated. However that may be, business interests are largely dependent upon having this legislation closed up as soon as practicable, and consequently the getting of the bill before the Senate with so little friction has been a decided relief to industrial classes, for it ensures a nearer end to the deliberations of that body than was thought possible a week ago.

There is another important benefit that will immediately flow from the report of the Senate Finance Committee, a matter too that was in urgent need of attention. We refer to the circumstance that the Senate bill has omitted the retroactive feature of the House bill and has thereby removed the shackles from a very extensive department of business (our foreign trade) which had been demoralized, transactions in foreign goods being embarrassed and in large measure checked by that provision. Importers were hampered both in buying and selling, whether their purchases were afloat at the date the bill named or not. To be sure the clause was probably unconstitutional and in its operation so obviously unjust as to be against public policy. It would consequently have found no favor with either court or jury. And yet each import of goods must be entered for consumption subject to a law suit with the Government, and if sold would have to be sold with that embarrassing attachment. Such a situation was not only a menace to the importer, but more or less of a disorganizing influence in other business circles; for it is a fact that restrictive and dispiriting conditions in one trade always induce a sympathetic feeling in trades beyond the department immediately affected.

The hitherto untried experiment which introduced this state of affairs was an effort merely to check imports and save a loss of income to the Government under the new tariff when it should become a law. As it happened, even assuming the clause to be legal, its insertion in the bill was too late to secure the end sought. It seems to be a fact that more than enough sugar and wool to meet a year's demand was either already in the country or afloat, or bought and ordered to be shipped (and so excepted from coming within the retroactive provision) before the section was added. Hence it is likely that imports of those two articles would have stopped in a natural way very soon, even had that clause never passed the House; this would have happened because the surplus stocks held in this country and hanging over the market would have become so large as to depress the prices of the articles in excessive supply to an extent to discourage the importer from making further ventures. But fortunately the Senate's action relieves all the anxiety the retroactive provision was causing.

Moreover, the Finance Committee have in their report otherwise shown good judgment with reference to

what was needed to meet the situation; by their work they tell us plainly that to remove the existing business depression the first requirement is additional revenue. They have not only realized that the retroactive clause was doing harm and have dropped it, they have likewise most effectually met and provided for a condition that clause was framed to obviate but merely aggravated. We refer chiefly to the Senate Committee's action in laying a duty of 10 cents a pound on tea, an internal revenue tax of 44 cents additional on beer (plus the old rebate of 8 cents, which we understand has been removed,) and additional taxes on tobacco, snuff, cigars and cigarettes. These imposts are only to be continued two and a-half years, and are expected to produce at once an increased income of about 30 million dollars; after January 1 1900 it is very properly assumed that the Customs duties laid will disclose their full productiveness and furnish without the ten cents on tea sufficient revenue for all Government purposes. These added taxes consequently provide for a highly important period and condition and relieve an acutely sensitive point just now in the financial situation. Merchants and bankers recently have been talking among themselves with considerable anxiety in reference to the lack of income the House tariff bill was likely to yield for a year or two, mainly because of the large imports now and which have been for some months in progress in anticipation of the new duties. Even with the Dingley tariff bill a law, it was seen that a short income would be a troublesome factor again, certainly during the coming two years.

There is another feature of the Senate's proposed changes which will also enlarge the usefulness of its revision as a revenue measure; we refer to the decided average reductions made from the House bill in the rates of duties laid. As the measure stands now it will act in a less degree to exclude foreign goods, and hence will yield to the Government a larger income. The benefits from this condition may in some measure be secured in the first year's operations of the law, but after that they will be of more consequence. Altogether therefore the Senate's proposition affords the assurance that from the date of its passage, unless appropriations are recklessly made, the Treasury Department will be relieved from all anxiety with reference to a deficit. That was the security which a tariff measure was expected to bring to the Government and afford to business operations. The House bill, because in good part of the enlarged imports tariff legislation has induced, clearly failed of supplying this defect; and it is the fact that the Senate Committee has made a new departure in pursuit of an enlarged revenue, and that almost every change in duties it has proposed has likewise contributed to add strength to the point of greatest weakness (the Government income), while curing other faults in the bill as it read when it came into their hands, that has given the new hopefulness this week apparent in all business circles.

We did not intend a criticism or analysis of the Senate's proposal in detail. Our object was to bring together the changes of a general character which the Finance Committee has made affecting in a general way industrial affairs. That we have done, and in doing it we think we have shown that their manipulation has conferred upon the business classes a decided benefit, and put a more promising aspect on the business outlook.

## LARGE GOVERNMENT RECEIPTS AND GOLD EXPORTS.

The monthly debt and revenue statements of the Federal Government for the 1st of May possess greater interest and deserve closer study than similar monthly returns for some time past. In the first place they show some noteworthy changes as compared with the returns for preceding months; in the second place the progress of tariff legislation and the beginning of a new outflow of gold give unusual importance to the results disclosed.

The fact which stands out most prominently is the welcome one that Government receipts are for the present at least exceeding Government expenditures. Disregarding for this occasion the operations in connection with the National Bank Redemption Fund, the revenues for the month of April are found to have been \$37,812,135, the disbursements \$32,072,097, leaving an excess on the side of the receipts in the sum of nearly six million dollars. Moreover this is the second month that we have had a favorable showing of that kind, the receipts for March having been \$36,217,662, with expenditures of only \$27,212,998, leaving an excess of receipts in the amount of over nine million dollars. Of course such results mean that the national debt is being reduced, the actual amount of the reduction for April having been \$5,718,068 and for March \$8,638,253. To understand what a noteworthy change these figures indicate, it is only necessary to recall the constantly recurring deficits year by year and month by month which the country has experienced so long, and which have been the source of so much anxiety to Government officials and the public alike.

It would be gratifying if the change could be regarded as the outgrowth of normal conditions, indicating an expansion in trade and a revival of prosperity. Our readers of course need hardly be told that the change cannot be ascribed to such a happy state of things but has followed from wholly exceptional conditions. Congress is engaged in devising a new scheme of tariff duties, higher than those now in force, and the country is going through the experience to which we have become so accustomed on such occasions. Importers are rushing goods through the Custom Houses and through the bonded warehouses to get the benefit of the existing lower rates of duty. That this is the sole cause for the improvement in the relation between receipts and disbursements becomes very evident when we examine the figures critically. The receipts for March we have seen were \$36,217,662, for April \$37,812,135. These are very heavy aggregates. In the one case the amount is \$10,176,513 in excess of that for the corresponding month last year, in the other case it is \$13,529,242 in excess. In other words the totals of the receipts in 1896 were respectively only 26 millions and 24½ millions, against 36½ millions and 37½ millions now. Comparing with the months immediately preceding, the average of the monthly receipts for the period from July to February inclusive was only 25½ million dollars, against the average of 37 million dollars for March and April. In brief the revenues the last two months have been running 50 per cent in excess of recent monthly averages.

Carrying the analysis a step further we ascertain that the exceptional magnitude of the Government income these two months is due entirely to the large volume of the Customs payments. These Customs

payments alone in April were nearly equal to the total of all receipts (Customs, internal revenue and miscellaneous) in the preceding months of the current fiscal year. The payments reached \$24,454,000 in April, \$22,834,000 in March. Last year in April they were only \$11,816,000 and in March \$13,344,000. Combining March and April, the amount this year at \$47,288,000 compares with \$25,160,000 for the same two months of last year. In the four months immediately preceding these last two months (namely, the period from November 1896 to February 1897, inclusive), the aggregate of the Customs payments was only \$43,387,000—that is to say, in the whole of these four months not as much revenue from Customs was collected by several million dollars as during the last two months. In this case, therefore, the increase is considerably over 100 per cent. In the following we show the receipts for the two months this year in comparison with those for the corresponding two months of the three years preceding. This reveals, perhaps, better than anything else the wholly exceptional dimensions of the 1897 totals.

	March and April.	Customs Receipts.	Internal Revenue.	Miscellaneous.	Total.
	\$	\$	\$	\$	\$
1897 ...	47,288,000	23,373,000	3,369,000	74,030,000	
1896 .....	25,160,000	22,762,000	2,402,000	50,324,000	
1895 .....	27,383,000	20,504,000	1,882,000	49,719,000	
1894 .....	21,536,000	24,172,000	1,828,000	47,536,000	

Thus as against total revenues of \$74,030,000 for March and April 1897, the amount for 1896 was only \$50,324,000, for 1895 only \$49,719,000 and for 1894 but \$47,536,000. The Customs payments at \$47,288,000 for 1897 compare with \$25,160,000 for 1896, with \$27,383,000 for 1895 and with \$21,536,000 for 1894. Moreover, we may say that in no two consecutive months of any recent year have the Customs payments been equal to those for March and April 1897. The nearest approach was in September and October 1890, and then the total did not quite come up to that for the two months of this year.

All this is important not only as explaining the transformation in the relation between Government revenues and Government disbursements, but also because of its bearing on the renewed outflow of gold. Obviously there is a very close connection between the large merchandise imports and the efflux of gold. Perhaps it may be thought that the heavy Customs payments reflect not so much exceptional imports as large withdrawals of goods from the bonded warehouses. In March certainly the withdrawals were large, in April they appear to have been less of a feature—probably because those who feared that the retroactive provision in the tariff bill as it passed the House might become a law took their goods out of bond before the date fixed for the provision to go into effect, namely the 1st of April.

We have only the dry goods withdrawals as a guide, but in that case the distinction in this respect between March and April is very marked. For the four weeks ending March 31 the withdrawals of dry goods from the bonded warehouses at this point the present year were \$6,039,451, against only \$1,911,091 in the corresponding four weeks of last year; at the same time the entries for warehousing were very light, reaching only \$1,087,694 in 1897 against \$2,183,782 in 1896. On the other hand, for the four weeks ending April 30 the withdrawals and entries show only comparatively small changes contrasted with last year, the withdrawals being \$2,152,168 against \$1,627,770, and

the entries \$1,890,681 against \$1,790,176. In tabular form the figures are as follows.

DRY GOODS IMPORTS AT NEW YORK.

	1897.	1896.
<i>Four Weeks March—</i>		
Warehouse withdrawals.....	\$6,039,451	\$1,911,091
Warehouse entries.....	1,087,694	2,183,782
<i>Four Weeks April—</i>		
Warehouse withdrawals.....	2,152,168	1,627,770
Warehouse entries.....	1,890,681	1,790,176

Entirely independent of the withdrawals, however, the imports have been extraordinarily large—large almost beyond precedent. The report of the importations for the whole country for April is not yet available. For March the imports footed up \$76,373,000. This compares with only \$59,237,000 for the month preceding (February) and with but \$51,354,000 for January, and is the largest total reached in any month of any year since 1893. For April the total must have been still larger, judging by the movement at this port. For the four weeks ending April 29th the dry goods imports at New York were \$14,669,008 in 1897, against \$7,366,770 in 1896, an increase of nearly 100 per cent, and the importations of all kinds, including dry goods, were \$53,891,830, against \$36,301,537, an increase of about 50 per cent. For March, with total merchandise imports at all the ports of \$76,373,000, the imports at New York were \$46,878,360. As for four weeks (28 days) in April the New York figures show imports of \$53,891,830, it is evident that when the figures for the whole country are made up we shall have a total greatly in excess of the seventy-six million dollars reached in March. Not unlikely the aggregate will break all previous monthly records.

With such large merchandise imports, the gold export movement possesses no element of surprise, particularly when, as pointed out last week, it is considered that these imports come at a time when some of the European countries, and particularly Austria, are offering special inducements to obtain gold. Obviously, too, as the imports can hardly be expected to continue at their present volume indefinitely, the duration of the gold efflux, so far as it is controlled by that circumstance, promises to be limited.

There is one other feature of the Treasury statements that possesses much interest in connection with the gold movement. We refer to the extent of the holdings of gold and of cash. It is a great many years since the Treasury has held such a large gold reserve as at present. This reserve has been steadily increasing under the revival of confidence that the November election brought, and of course the sudden abundance of revenues which has developed during the last two months has tended further to swell the accumulation of gold in the Treasury vaults. Thus it happens that the net gold holdings May 1 are found to be larger than they were April 1 (the amounts are \$153,340,890, against \$151,786,464), notwithstanding the withdrawals for export. Not all the gold that went out last week appears in the statement for May 1, but \$2,477,000 of the amount does, and hence the Treasury balance increased  $1\frac{1}{2}$  million dollars during the month in face of the  $2\frac{1}{2}$  millions exports. On the 5th of last November the Government gold balance was only \$114,957,109, on July 23 last year (before the gold holdings had been replenished through the action of the banks) the amount was only \$89,669,971, and on February 10 1896 it was but \$42,066,860. To show how much stronger the position of the Treasury now is than at the corresponding dates of other years we present the following statement.

<i>May 1.</i>	<i>Net Gold.</i>	<i>Total Cash.</i>	<i>Cash Balance.</i>
	\$	\$	\$
1897.....	153,340,890	270,253,828	228,090,517
1896.....	125,393,900	307,911,963	271,090,661
1895.....	91,247,144	219,400,568	180,817,916
1894.....	100,202,009	169,197,533	125,097,786
1893.....	97,011,330	159,797,919	121,482,904

Total cash holdings, it will be seen, are a little less than at this date last year, but the gold holdings are very much larger than in any of the other years given. Thus the situation is that on the one hand the gold exports are largely due to a special cause which must soon be greatly diminished in force, and on the other hand they come at a time when the Government is better able than for a long time past to stand a drain.

### THE SOUTHERN PACIFIC AND THE DECLINE IN RATES.

The Southern Pacific Company has changed its fiscal year, and the annual report will hereafter cover the year ending June 30, which is the fiscal year of the Inter-State Commerce Commission and of most of the State railroad commissions, instead of the calendar year. For the information of the security holders, however, a report for the late calendar year is made in the usual way. This is called an "abridged" report, but even this abridged report makes a bulky pamphlet, folio size. One reason is that the affairs of the company are very extensive, another is that its accounts and operations are always stated with much fullness and detail.

The late calendar year was, as is known, one of continuous and very severe depression in business. Yet the company is able to show a surplus on the operations of the twelve months in the sum of \$1,789,553. Gross earnings fell off as much as \$1,790,358, but the large sums expended in previous years for betterments and additions have permitted the carrying out of important economies in operation, and expenses were reduced \$1,280,229, leaving a loss in net of only \$510,129. One element in the saving in expenses has been the attention paid to the loading of cars. On the Pacific System, while the number of tons of freight handled was but little less than in 1895, and the falling off in ton miles was barely  $3\frac{1}{2}$  per cent, the decrease in revenue train mileage was over  $12\frac{1}{2}$  per cent, and there was a reduction in the loaded car mileage of fully 8 per cent and in the empty car mileage of over 15 per cent. The average train load was increased by 17 tons, or over 10 per cent. On the Atlantic properties a reduction in tonnage of 6.21 per cent was attended by a reduction of 7.45 per cent in car mileage and on the Houston & Texas Central lines 4.18 per cent additional tonnage was moved with 2.43 per cent less car mileage.

As indicating the saving in another way, through the large betterment outlays in past years, the report presents a table to show the steady reduction, year by year, in the cost of repairing and maintaining timber trestling on the Atlantic properties, before and after renewals were made with creosoted lumber and ballasted decks. Beginning with 1891, when the effect of these renewals became apparent, the cost per annum has been as follows:

	<i>Total Expenses.</i>	<i>Cost per Lineal Foot.</i>
1891.....	\$317,848 42	\$1.212
1892.....	266,469 62	.975
1893.....	261,216 32	.953
1894.....	139,447 08	.494
1895.....	130,020 19	.459
1896.....	98,393 61	.346

It will be seen that while the expenditures for this purpose on the Atlantic properties in 1891 were \$317,848, in 1896 the amount was only \$98,393, the cost per lineal foot having been reduced from \$1.212 in 1891 to \$0.346 in 1896.

President Huntington discusses quite at length the great reduction in rates which has occurred in recent years, and the important losses which have resulted to the roads from this cause, and the corresponding gains to the public. He shows that since 1885 the average receipt per ton per mile on the Southern Pacific System has fallen from 1.98 to only 1.10 cents, being a decline of over 44 per cent. The density of traffic in the same period increased over 88 per cent, that is the number of tons of freight carried one mile per mile of road rose from 184,865 to 348,683. Notwithstanding this growth in traffic, however, the earnings per mile of road, owing to the decline in rates, were only 5 per cent larger, being \$3,853 for 1896, against \$3,665 for 1885. Had the companies been able to realize the same average of rates as in 1885, earnings in 1896 would have been \$26,578,809 greater than they have proved to be. For the whole eleven years the saving to the public by reason of the reduction in rates has been \$79,992,614 on the Pacific System lines and \$50,125,884 on the Atlantic System lines, or over 130 million dollars together. Mr. Huntington says there are probably no other railroad properties in this country where the reduction in expenses resulting from unification in the operation of a number of lines, economy in working expenses and outlays for improvements by which expenses may be still further lessened, have contributed to the public so large a sum in so short a period. The amount of the reduction in rates on the Pacific System lines is considered especially noteworthy in view of the much higher prices than other roads which these lines have to pay for fuel, wages and all material entering into their operations.

Mr. Huntington thinks that the limit of the downward tendency of rates has evidently been reached, if the owners of the railroads and their managers can agree upon the maintenance of reasonable rates, just and equitable to all. However bad the laws may be, these have in his estimation never damaged the railroad properties of this country so much as have the people who owned them, by their want of faith in each other and disregard of their engagements with each other. Apropos of the Supreme Court decision in the Trans-Missouri Freight cases, he expresses the opinion that "means can certainly be found for operating the railroads of this country, representing one-fifth its entire wealth, so as to give some returns to those who have invested their money in them without its being illegal or unconstitutional." He says that experience suggests a modification of the Inter-State Commerce Law, so that traffic agreements between railroads, sanctioned by the Commission, can be made enforceable between them, all prohibitions and penalties prescribed for carriers to be applicable to their customers and patrons. He also argues in favor of placing a restriction upon the license to construct new roads where the building of such lines is without proportionate benefit to the public.

Attention is called to the fact that the prospects for large crops along the lines of the Southern Pacific are quite encouraging. Mr. Huntington says the crops are particularly promising in California, where crop failures and low prices for several years

have temporarily checked the steady development of the resources of that State. "With higher prices for their products and large crops which now seem assured, we may reasonably expect a general improvement in business, and, as a sequence, also in the earnings of these lines."

#### FAILURES BY BRANCHES OF TRADE.

Col. W. M. Grosvenor, the editor of Dun's Review, has kindly furnished us with the following statement showing the failures in the United States by branches of trade for the month of April during the last three years.

##### FAILURES BY BRANCHES OF BUSINESS IN APRIL.

Manufacturers.	Month of April.

\* Includes five New Bedford cotton mill failures for \$7,906,731.

NOTE.—Iron, woollens and cottons include all the branches of those manufactures; machinery includes implements and tools; lumber includes saw, planing, sash and door mills, carpenters and coopers; clothing includes millinery and furnishings; hats include furs and gloves; chemicals include drugs, fertilizers, paints and oils; printing and books include engraving and maps; milling includes baking; leather and shoes include makers of harness, saddlery, trunks and rubber goods; liquors include tobacco, wines, brewers and beer; glass includes earthenware, pottery, brick, lime and cement; groceries include meats and fish; hotels include restaurants; dry goods include carpets and curtains; furniture includes crockery; hardware includes stoves and tools; and jewelry includes clocks and watches. Brokers include all real estate, note, insurance or produce dealers whose main business is not the handling of actual products, with mortgage and other loan concerns, and transporters include all except incorporated railway companies.

**Clearings by Telegraph.—Sales of Stocks, Bonds, &c.—Stock Exchange Clearing-House Transactions.**—The subjoined statement, covering the clearings for the current week, usually appears on the first page of the CHRONICLE, but on account of the length of the other tables is crowded out once a month. The figures are received by telegraph from the leading cities. It will be observed that as compared with the corresponding week of 1893 there is an increase in the aggregate of 4.2 per cent. So far as the individual cities are concerned New York exhibits a gain of 8.1 per cent, and the gains at other points are: Boston 9.7 per cent, Baltimore 17.4 per cent and St. Louis 9.3 per cent. The losses are: Philadelphia 5.7, Chicago 7.9 and New Orleans 25.7 per cent.

CLEARINGS.	Week Ending May 8.		
Returns by Telegraph.	1897.	1896.	Per Cent.
New York.....	\$528,866,741	\$489,293,757	+8.1
Boston.....	90,187,052	82,209,712	9.7
Philadelphia.....	51,549,329	54,001,203	-4.7
Baltimore.....	13,924,824	11,859,947	17.4
Chicago.....	82,413,224	80,472,012	-7.9
St. Louis.....	23,039,642	21,089,778	+9.3
New Orleans.....	5,510,214	7,411,378	-25.7
Seven cities, 5 days.....	\$795,491,629	\$755,989,477	5.2
Other cities, 5 days.....	133,430,248	132,010,247	+1.1
Total all cities, 5 days...	\$928,927,877	\$888,005,724	+4.6
All cities, 1 day.....	173,417,926	169,440,301	+2.3
Total all cities for week...	\$1,102,345,803	\$1,057,446,025	+4.2

Another table, our usual monthly detailed statement of transactions on the various New York Exchanges, has also been crowded off of the first page. The results for the four months of the current year, are, however, given below and for purposes of comparison the figures for the corresponding period of 1896 are also presented.

Description.	Four Months, 1897.			Four Months, 1896.		
	Par Value or Quantity.	Actual Value.	Average Price.	Par Value or Quantity.	Actual Value.	Average Price.

## Monetary and Commercial English News

LONDON, SATURDAY, April 24, 1897.

[From our own correspondent.]

On Sunday the long-threatened war between Greece and Turkey broke out, but the effect upon the European stock markets has been small. So many alarming events have occurred during the past year and a-half that speculation has been utterly paralyzed, and there is in consequence no "bull" account open anywhere, at least none worth speaking of. The markets, therefore, are able to take a cool view of affairs.

The business community throughout Europe generally is persuaded that the struggle will be localized, that Greece will be quickly defeated, that the Powers will then intervene, and that the Greek forces will have to withdraw from Crete, while Turkey will be prevented from annexing any Greek territory. There is, therefore, a rather sanguine feeling not only in this country but on the Continent also, and especially in Paris.

In political circles, however, there is not quite so much confidence. That England, France and Italy are earnestly endeavoring to maintain the Concert of the Powers, to protect Greece from the consequences of her rashness, and to restrain Serbia and Bulgaria, is beyond all doubt. It is also certain that Austria Hungary is most anxious to prevent the disturbances from spreading. But there is much more doubt as to the real policy of Germany and Russia. That Germany desires to bring about a better understanding with Russia everybody believes, but there is less agreement as to how she is endeavoring at the present moment to attain her aim. One opinion is that she has deliberately urged Turkey to attack Greece before the other Balkan States could make up their minds to act, that she has thereby put Russia in a difficulty, and that she hopes to bring about a difference between Russia and France. France is intent upon keeping Russia out of Constantinople, and protecting Greece. Russia, on the other hand, wishes to keep Greece weak, and to strengthen her control over Turkey.

Another view is that Germany and Russia have a private understanding, and that we are about to witness a new grouping of the Powers. Whatever the real facts are, there is much more confidence in business circles than amongst political people. The European stock exchanges, therefore, are inclined to welcome every Turkish success, calculating that Turkey will not be allowed to extend her territory, and that a decisive Greek defeat will remove the dangers to which Europe is exposed.

There is also a much more hopeful feeling here this week than there has been for a long time past respecting South Africa. The great mining magnates apparently have at last come to see that their own dissensions have enabled President Krüger to treat them without consideration, and subject them to all kinds of harassing legislation. Mr. Robinson, Mr. Eckstein, Mr. Barnato and Mr. Albu are therefore endeavoring to bring about a general combination. So far they have failed to unite the Chamber of Mines and the Mining Association, but they have brought the leading people together, and have agreed upon a petition to the Volksraad. It is said, moreover, that since Dr. Leyds left Pretoria the Boer Government has shown itself much more amenable to reason. And, lastly, it is understood that the French Government has warned President Krüger that his present attitude towards the Uitlanders justifies English intervention, and that therefore if he does not change his policy he will lose the sympathy of all Europe.

The London Stock Exchange was closed from Thursday evening till Tuesday morning. When it opened on the latter day there was a slight fall in all departments, but as the day advanced a more favorable view was taken of the situation, and on Wednesday there was a very general recovery.

Apart from politics the recovery was strengthened by the favorable reports of trade throughout the country and by

the exceedingly satisfactory Easter traffic earnings. The Easter holidays were unusually wet and on some days there were heavy thunderstorms accompanied by hail; yet the passenger receipts are exceedingly good. Therefore there was a general advance in British railway stocks, Consols recovered from the fall of the day before, and even foreign government securities generally advanced. But the investing public is holding quite aloof. What business there is is purely professional.

In European government securities there is little done, even in the best of times, in this market; at the present moment there is practically nothing doing. The firmness is entirely due to the Paris Bourse. In the American department the public is holding aloof, but members of the Stock Exchange and some outside operators have bought London favorites on the fall at the beginning of the week. In South American securities little has been doing, but there is more activity in the South African department, partly due to the more favorable view taken of the prospects in the Transvaal and partly because during the past few weeks there has been a very large "bear" account opened in that market. Broadly speaking, however, the public is not buying, and at any moment the mere professionals may turn round.

As regards trade, the reports are favorable, although there are loud complaints from Belfast that the Dingley tariff has injured the linen trade, and few American orders have been placed for a month or so back in Bradford.

The outlook for the farming industry is less satisfactory. The winter and spring have been exceedingly wet, and during the past couple of months especially farmers have found it impossible in stiff heavy soils to sow their fields. Barley is unusually late, and in many localities the farmers have now decided to put in oats instead of barley. The lateness of the grain sowing makes it probable that the harvest will be late likewise and the agricultural interest is therefore much depressed. On the other hand grass is very forward, and the prospect at present is that the hay crop will be abundant.

The outbreak of hostilities has had even less influence upon the money market than upon stocks. The quotation in the open market for three months bills is  $1\frac{1}{2}$  per cent, but business has been done most generally at  $1\frac{1}{2}$  to  $1\frac{1}{4}$  per cent. Loans for a week or a fortnight have ranged from  $\frac{3}{4}$  to one per cent, and the probability is that there will be little advance provided political alarm does not arise. Both Austria-Hungary and Japan are buying gold on a large scale, and as soon as politics allow, it is understood that there will be a Russian loan of 10 millions sterling in Berlin, and that a Russian demand will arise. But the supply in the open market is so large and the demand so small that the banks and discount houses are unable to advance rates. There would be a very great change, no doubt, if the danger of war were to disappear and there were to be a general outburst of speculation, but while things continue as at present rates are more likely to decline than advance.

The silver market is weak, and the India Council fails to dispose of the whole of its drafts offered for tender, probably because the India Council is really unwilling to sell very freely. It offers more than it can dispose of but it asks a price which the exchange banks refuse to give. The explanation doubtless is that the Indian treasuries having to provide such large sums for famine relief are not in a position to meet very considerable demands on the part of the exchange banks. On Wednesday the India Council offered for tender 35 lacs, and the applications amounted to a little over 28  $\frac{1}{2}$  lacs; 21  $\frac{1}{2}$  lacs in bills were sold and three lacs in telegraphic transfers; the average price for the bills was 1s. 3d. per rupee and for the transfers 1s. 3-32d.

In India there is no change for the better yet reported. The numbers on the famine relief works do not diminish, and though there is some abatement of the plague in Bombay and Kurrachee, it seems to be spreading slowly and gradually inwards.

The "Railway News" of London reports the traffic receipts for the week ending April 18 of 55 railways of the United Kingdom which make weekly returns at £1,703,224, against £1,537,837 in the corresponding week of last year, an increase of £165,387. For the sixteen weeks of the current half-year receipts were £24,178,075, an increase of £605,406.

The rates for money have been as follows:

London.	Bank Rate.	Open Market Rates.						Interest allowed for deposits by		
		Bank Bills.			Trade Bills.			Joint Stock Banks.	At Call.	7 to 14 Days.
		Three Months.	Four Months.	Six Months.	Three Months.	Four Months.	Six Months.			
Mar. 28					$1\frac{1}{4}$	2	2	$1\frac{1}{4}$	$1\frac{1}{4}$	$1\frac{1}{4}$
Apr. 23	$1\frac{1}{4}$	$1\frac{1}{4}$	$1\frac{1}{4}$	$1\frac{1}{4}$	$1\frac{1}{4}$	$1\frac{1}{4}$	$1\frac{1}{4}$	$1\frac{1}{4}$	$1\frac{1}{4}$	$1\frac{1}{4}$
" 9 2 1/2	1 1/2	+	+	+	$1\frac{1}{4}$	$1\frac{1}{4}$	$1\frac{1}{4}$	1	1	$1\frac{1}{4}$

\*  $1\frac{1}{2}$  to  $1\frac{1}{4}$ . +  $1\frac{1}{2}$  to  $1\frac{1}{4}$ . †  $1\frac{1}{2}$  to  $1\frac{1}{4}$ . ‡  $1\frac{1}{2}$  to  $1\frac{1}{4}$ .

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

## Commercial and Miscellaneous News

**NATIONAL BANKS.**—The following information regarding national banks is from the Treasury Department:

NATIONAL BANKS ORGANIZED.

- 5,063—The First National Bank of Winton, Minnesota. Capital, \$50,000. A. D. Perkins, President; W. J. Clark, Cashier.  
 5,064—The National Bank of Gaffney, South Carolina. Capital, \$50,000. F. G. Stacy, President; D. C. Ross, Cashier.  
 5,065—The Ohio National Bank of Columbus, Ohio. Capital \$400,000. John Blech-ck, President; Emil Kiewewetter, Cashier.

CORPORATE EXISTENCE EXTENDED.

- 2,355—The National State Bank of Boulder, Colorado, until April 18, 1917.

**GOVERNMENT REVENUE AND EXPENDITURES.**—Through the courtesy of the Secretary of the Treasury, we are enabled to place before our readers to-day the details of Government receipts and disbursements for the month of April. From previous returns we obtain the figures for previous months, and in that manner complete the statement for the ten months of the fiscal years 1896-97 and 1895-96.

Messrs. Pixley & Abell write as follows under date of April 23:

Gold.—Although the demands on the Bank are somewhat lessened, the inquiry continues without intermission. The amount sold by the Bank of England is \$106,000, while \$107,000 has been paid in. Arrivals: West Indies, \$24,000; Australia, \$212,000; China, \$25,000; Bombay, \$48,000; Capetown, \$144,000. Total, \$483,000. Shipments to Japan, \$747,200.

Silver.—The market was quite a nominal one at the end of last week; since then the price has slightly declined, but at 28 1/2, the market is steady. The Bombay price is Rs. 7 3/4. Arrivals: New York, \$159,000; West Indies, \$59,000. Total, \$278,000. Shipments to Bombay, \$133,500.

Mexican Dollars.—These coin remain nominal.

The quotations for bullion are reported as follows:

WALL STREET, FRIDAY, MAY 7, 1897—5 P. M.

**The Money Market and Financial Situation.**—So far as there has been any change during the week in the conditions which affect current business in Wall Street it is generally of a favorable character. The fact that progress has been made with the tariff bill gives almost universal satisfaction, however much diversity of opinion there may be as to particular features of the bill itself. Business at the Stock Exchange responded to this sentiment with an increase in volume and an advance in prices when the bill was reported to the Senate on Tuesday.

Gold shipments, which were a feature of last week, are this week limited to \$1,500,000 which went out on Tuesday and \$1,000,000 which has been engaged for shipment to-morrow, a total of \$2,500,000. The war in Europe, which has been gradually diminishing in its disturbing effect, is apparently drawing to a close, and is no longer a factor of importance in the business situation.

Notwithstanding these favorable influences there is almost no change to note in the financial situation and business in all departments remains exceedingly dull. The reduction of the rate of dividend from that which has prevailed for many years made by the directors of the Chicago & Alton Railroad and the announcement that no dividend may be expected this season on St. Paul & Omaha common stock show how railroad interests in the West are affected by the present conditions.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1½ to 2 per cent. To-day's rates on call were 1½ to 1¾ per cent. Prime commercial paper is quoted at 8¼ to 4¼ per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £240,198 and the percentage of reserve to liabilities was 51.60, against 51.91 last week; the discount rate remains unchanged at 2½ per cent. The Bank of France shows an increase of 7,375,000 francs in gold and 1,500,000 francs in silver.

The New York City Clearing-House banks in their statement of May 1 showed an increase in the reserve held of \$179,500 and a surplus over the required reserve of \$48,917,625, against \$49,257,900 the previous week.

**Foreign Exchange.**—The foreign exchange market has been dull and easy on a limited demand. The offerings have been in fair supply, and rates, which had eased off a fraction, were firmer on Thursday, closing steady.

To-day's actual rates of exchange were as follows: Bankers, sixty days' sterling, 4 86@4 86½; demand, 4 87½@4 87½; cables, 4 87½@4 87½.

Posted rates of leading bankers follow:

May 7.	Sixty Days.	Demand.
Prime bankers' sterling bills on London	4 87	4 88@4 88½
Prime commercial	4 85½@4 85½	
Documentary commercial	4 84½@4 85	
Paris bankers' (franco)	5 16½@5 16½	5 14½@5 15
Amsterdam (guilder) bankers	40½@40½	40½@40½
Frankfort or Bremen (reichmark) bankers	95½@95½	95½@95½

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 1-16 discount, selling par; Charleston, buying par, selling ¼ premium; New Orleans, bank, \$1 50 premium; commercial, 25c. premium; Chicago, 55c.@60c. per \$1,000 premium; St. Louis, 70c.@90c. per \$1,000 premium.

**United States Bonds.**—Sales of Government bonds at the Board include \$63,000 4s. coup., 1925, at 122¼ to 122¾; \$36,000 4s. reg., 1925, at 122¼ to 122¾; \$50,000 4s. coup., 1907, at 112 to 112¾; \$51,500 4s. reg., 1907, at 110½ to 111, and \$25,000 5s. coup., at 113 to 113½. Following are closing quotations:

" 7	4,558,553	4,619,572	126,664,843	1,823,072	68,030,543
Total	17,285,014	20,393,505			

**Coins.**—Following are the current quotations in gold for coins:

Sovereigns.....\$4 87	\$4 90	Fine silver bars... — 60½ @ — 61½
Napoleons.....3 86	3 89	Five francs..... — 93 @ — 95½
X X Reichmarks. 4 79	4 84	Mexican dollars... — 47½ @ — 49
25 Peetas.....4 77	4 81	Peruvian sole..... — 42½ @ — 45
Span. Doubloons.15 55	15 75	English silver.... 4 86 @ 4 90
Mex. Doubloons.15 50	15 75	U. S. trade dollars — 65 @ — 75
Fine gold bars... par	2½ prem.	

**State and Railroad Bonds.**—Sales of State bonds at the Board include \$16,000 Tennessee settlement 3s at 80 to 81½, \$5,000 Virginia deferred trust receipts, stamped, at 5, and \$1,000 Virginia fund. d. bt 2-3s of 1991 at 65.

The market for railway bonds has improved in tone, notwithstanding some weak features, and the volume of business, although still not large, has increased to some extent. Investors seem not to be eager to buy bonds under present conditions, and holders are generally of the opinion that it is not a good time to sell. Of the special features Fort Worth & Denver City bonds have advanced 1½ per cent on very limited offerings. Chicago & Northern Pacific have been in request on the announcement of the new plan and moved up 1 point. Fractional advances in the active list are common. Wabash and Missouri Pacific issues have been the weakest features of the market, and declined for lack of support, in sympathy with other so-called Gould securities. There is nothing new affecting these properties which is known to the public. The active list includes, in addition to the above-mentioned issues, Atchison, Chesapeake & Ohio, Burlington & Quincy, Rock Island, Chicago & North Western, Erie, Milwaukee & St. Paul, Missouri Kansas & Texas, New York Central, Northern Pacific, Oregon Short Line, Reading, Rio Grande Western, St. Louis Southwestern, Texas & Pacific and West Shore bonds.

**Railroad and Miscellaneous Stocks.**—The stock market has been somewhat more active this week than of late but irregular in movement, and the trading almost wholly professional in character. Many leading stocks have made a substantial advance in prices, while a few have declined. Lake Shore was a prominent feature of the railroad list and advanced 8 points on limited transactions. The coal stocks have recovered a part of the loss recently noted, Central of New Jersey leading with a gain of 1½ points. The grangers have in most cases been strong and, with New York Central, Cleveland Cincinnati Chicago & St. Louis and Northern Pacific preferred, advanced a point or more. St. Paul & Omaha declined 2 points on reports that no dividend would be declared in June. Missouri Pacific has been especially weak, selling at 10 on Thursday, a decline of 5 points within a week, and the lowest price ever recorded for it. Manhattan Elevated lost 2½ points but partially recovered. Metropolitan Traction has fluctuated over a range of 4 points, closing at 105.

Speculation has been active in the miscellaneous list. American Sugar was the leader and advanced 4 points on announcement of the revised sugar schedules in the tariff bill reported to the Senate. It has fluctuated between 118½ and 118, closing at 118½. Chicago Gas advanced 2½ points on an active demand for the stock. United States Leather preferred and Pacific Mail have been strong. Western Union was weak in sympathy with other Gould stocks and made its lowest record of the year on Thursday, when it sold at 75½. It closes at 76½.

**NEW YORK STOCK EXCHANGE--ACTIVE STOCKS** for week ending MAY 7, and since JAN. 1, 1897.

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

ROADS.	Week or Mo.	Latest Gross Earnings.		Jan. 1 to Latest Date.

Figures given do not include Oregon Ry. & Nav., Un. Pac. Denver & Gulf, Denver Leadville & Gunnison, Montana Union and Leavenworth Topeka & Southwestern. These figures include results on leased lines. b Includes earnings from ferries, etc., not given separately. c Mexican on renew. d Includes only half of lines in which Union Pacific has a half interest. e Includes operations of the Chic. Burlington & Northern in both years. f Covers results for lines directly operated east of Pittsburgh. g The earnings for the fourth week of April in 1895 were \$10,411. h Covers besides the Atlantic system the Houston & Texas Central, Anglo & Northwestern, Central Texas & Northwestern and Ft. Worth & New Orleans. i Includes St. Louis, Alton & Terre Haute for all periods.

#### Latest Gross Earnings by Weeks.—The latest weekly earnings in the foregoing are separately summed up as follows:

For the fourth week of April our preliminary statement covers 60 roads, and shows 2.59 per cent increase in the aggregate over the same week last year.

4th week of April.	1897.	1896.	Increase.	Decrease.

Total (84 roads).....	6,418,072	6,301,493	385,950	269,371
Net increase (1.85 p. c.)			116,578	

\* Week of April 17.

For the month of April 82 roads (all that have furnished statements for the full month as yet) show aggregate results as follows:

Month of April.	1897.	1896.	Increase.	Per Cent.
Gross earnings (82 roads)	31,000,276	30,462,998	537,278	1.76

It will be seen there is a gain on the roads reporting in the amount of \$537,278, or 1.76 per cent.

**Net Earnings Monthly to Latest Dates.**—The table following shows the net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of April 17, 1897. The next will appear in the issue of May 22, 1897.

\* Net earnings here given are after deducting taxes.  
 \* Net earnings here given are before deducting taxes.  
 \* Expenses for March include \$30,500 incurred by flood damages.  
 \* The large increase in expenses is due largely to ex. outlays for coal, freight and dock in Buffalo and large outlays on equipment.

**Interest Charges and Surplus.**—The following roads, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus or deficit above or below those charges.

### STREET RAILWAYS AND TRACTION COMPANIES

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

#### STREET RAILWAYS AND TRACTION COMPANIES.

Includes results from North Side Traction Company, which was leased February, 1897 to the Second Ave. Traction Co.

**Street Railway Net Earnings.**—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of April 17, 1897. The next will appear in the issue of May 22, 1897.

### ANNUAL REPORTS.

**Annual Reports.**—The following is an index to all annual reports of steam railroads, street railways and miscellaneous companies which have been published since the last editions of the INVESTORS' AND STREET RAILWAY SUPPLEMENTS.

This index does not include reports in to-day's CHRONICLE.

RAILROADS AND MISCEL. CO'S.		RAILROAD AND MISCEL. CO'S (Con.)	
Volume 64—	Page.	Volume 64—	Page.
American Bell Telephone.....	797	Sandar Creek Coal.....	797

#### Southern Pacific Company.

(Report for the year ending Dec. 31, 1896.)

Upon subsequent pages of to-day's CHRONICLE will be found extracts from the report of Mr. C. P. Huntington, the President of the Southern Pacific Company, for the fiscal year ending Dec. 31, 1896, including the balance sheet and extended tables of earnings, etc.—V. 64, 710.

#### Central Pacific Railroad.

(Report for the year ending December 31, 1896.)

Abstracts of the annual report and the President's remarks, together with the balance sheet, will be found on subsequent pages.

From the Southern Pacific Company's report we have the Central Pacific earnings and income account for 1896, which are compiled for the CHRONICLE as follows, in comparison with previous years.

	EARNINGS AND EXPENSES.

## Lake Shore &amp; Michigan Southern Railway.

(Report for the fiscal year ending Dec. 31, 1896.)

**Earnings.**—The traffic earnings for 1896, compared with 1895, show an increase from freight traffic, January to April, equal to 7.78 per cent; during the remainder of the year there was a falling off amounting to 12.24 per cent. The ton mileage decreased 3.99 per cent, but the mileage of freight trains was decreased 4.91 per cent. The average load of freight trains was again increased; in 1895 it was 318.5 tons; in 1896, 321.6 tons.

Earnings from express traffic decreased \$30,229, or 5.19 per cent. The passenger business shows a decrease in number of passengers carried but a small increase in mileage and earnings.

**Operating Expenses.**—The operating expenses, including all taxes and betterments, were:

In 1896	\$13,726,155	67.97 per cent of earnings.
In 1895	14,568,220	69.32 per cent of earnings.

Decrease..... \$942,065

Operating expenses for 1896 include the following expenditures: For new equipment purchased, \$316,302; for changes of grades, \$95,413; for 8.10 miles of new side tracks, \$30,780.

**Road Operated.**—Except for an increase of 8 miles in its sidings, the road operated remains the same as last year, including lines owned by L. S. & M. S. Ry. Co., 855 miles; six proprietary roads, 263 miles; five leased roads, 32.2 miles; total length of road operated, 1,440 miles; second track, 491 miles; third track, 9.63 miles; side tracks, 719 miles. Total miles of track, all steel rail except 12 miles, 2,659.18 miles.

**Construction and Equipment.**—These accounts still stand at \$84,000,000, as shown in the balance sheet; nothing has been charged to either of them since 1888.

**Stock and Bonds.**—The capital stock has remained unchanged since 1871—twenty-five years. It is \$50,000,000. The funded debt was reduced in 1896 from \$43,442,000 to \$43,192,000 by the purchase and cancellation for the sinking fund of \$250,000 in bonds secured by the first mortgage. The total amount of bonds thus canceled is \$6,500,000.

**Equipment.**—On December 31, 1896, the company owned 548 locomotives, a decrease of 28 since 1895; 418 passenger, mail, baggage, etc., cars, a decrease of 4; 19,313 freight cars, an increase of 605, and 733 working cars, a decrease of 9; the total number of cars owned was 20,464, against 19,873 in 1895 and 20,640 in 1894.

**Traffic.**—The following facts as to the tonnage carried have been compiled for the CHRONICLE:

Year.	Total of all.	Tons (000 omitted).					Average train load.
		Coal and Coke.	Iron Ore.	Stone, Sand and Lime.	Grain, oil, kinds.	Lumber.	
1896	13,662	4,171	1,224	1,255	1,020	699	321.6
1895	14,382	3,994	1,543	1,324	1,011	744	318.5
1894	12,142	3,474	1,182	802	989	641	287.2
1893	11,531	2,355	1,174	905	1,158	950	283.1
1889	10,021	1,729	984	929	918	820	254.7

In 1896 the gross earnings per mile of road were \$14,027, against \$13,824 in 1895; the net earnings \$4,492, against \$4,710. The freight train mileage was 7,391,880, against 7,298,395 in 1895. The freight earnings per train mile were \$1.80, against \$1.72 in 1895. The average number of paying passengers per passenger train was 45, against 56 in 1895; passenger train mileage 4,655,339, against 3,947,496; passenger earnings per train mile \$1.41, against \$1.69.

**Statistics.**—The comparative statistics for four years, compiled for the CHRONICLE, are as follows:

OPERATIONS AND FISCAL RESULTS.				
	1896.	1895.	1894.	1893.

## Michigan Central Railroad.

(Report for the year ending Dec. 31, 1896.)

The annual report is signed by President Ledyard and Mr. Cornelius Vanderbilt, Chairman of the board of directors. The report says in substance:

**Stock and Bonds.**—The capital stock remains unchanged at \$18,738,000. There has been no change in the funded debt.

**Construction.**—This account has increased \$111,718, as follows: Coat of constructing the Grayling Twin Lakes & Northeastern RR., Grayling to Twin Lakes, 27.80 miles, \$118,818, less received from sale of land, \$2,100; balance, \$111,718.

**Earnings.**—The freight traffic shows a decrease in tons moved one mile of 7,738,309, and an increase in earnings of \$234,000. The rate per ton per mile shows an increase from

0.017 to 0.036, or 0.019. The passenger traffic shows a decrease of 6,775,719 in passengers moved one mile, and a decrease of \$127,000 in earnings. The rate per passenger per mile shows an increase from 2.252 to 2.268, or 0.016.

The operating expenses and taxes show an increase of \$209,118. The cost of all betterments and additions to the property, except the items shown under the head of construction, is included in this account.

**Chicago Terminal Road.**—During the year arrangements have been consummated for the acquisition by this company of important terminals and belt line facilities at Chicago and East Chicago, under which it will have its own direct connection with the Stock Yards at Chicago and with a belt line around the city, intersecting all lines entering Chicago. \$500,000 has been expended on this account, for which bonds bearing four per cent interest from Jan. 1, 1897, have been issued and sold.

**Renewals and Equipment.**—As to these the report shows:

Tons of steel rails laid, 6,100; number of ties replaced, 648,085; miles of fence rebuilt, 15.75; miles of new fence built, 22.25.

The passenger equipment of the Michigan Central consists of 246 cars; Canada Southern, 11; total, 463—an increase of 3 during the year. The freight equipment of the Michigan Central includes 9,480 cars; Canada Southern, 3,764; total, 13,224—an increase of 197. The number of locomotives remains unchanged.

The cars, as above enumerated, were maintained at the following cost: passenger cars, \$208,919; freight cars, \$688,719; and locomotives the following items: cars, new (add'l total), 3 mail cars, and 2 snow plows; cars, new to replace old cars worn out, 452. New wheels—iron, 15,790; steel tire, 166; midvale tires, 339. New axles, 2,901; cars receiving general repair, 1,658.

**Statistics.**—The comparative statistics for four years, compiled for the CHRONICLE, are as follows:

#### New York Chicago & St. Louis Railroad.

(Report for the year ending Dec. 31, 1896.)

The report, which is signed by President Callaway and Mr. W. K. Vanderbilt, Chairman of the board of directors, says in substance:

**General Results.**—The earnings from freight traffic decreased \$614,680 and from passenger traffic \$119,755. These results were caused mainly by the decrease in the volume of business attributable to the general depression throughout the country. The average rate received per ton per mile was

.526 cent and per passenger per mile was 1.76 cents, an increase of .003 cent and .17 cent respectively, as compared with the preceding year. The operating expenses—including taxes and rental of terminals—show a decrease of \$480,875.

**Financial.**—In compliance with the terms of the equipment trust lease, referred to below, covering 13 locomotives, 300 box and 200 gondola cars, there was paid \$50,000, and \$3,000 was paid to various parties, making \$53,000 expended during the year account of this equipment. This amount has not been charged against the net income of the year, but has been shown in the income account as a deduction from the surplus income of previous years. All other expenditures during the year for additions to the property have been included in operating expenses, no charges having been made against construction or equipment.

**Physical Condition.**—As to the road, bridges, equipment, etc., the report shows:

Length of main track, 513 miles, second track 15 miles, side track 187 miles; total 715 miles. Increase for the year in side track of 2 1/2 miles; in side track since the operation of the road by this company, 59 miles; in side track since the road was opened, 132 miles.

The length of bridges is, of iron, 3 miles 1,903 feet, and of wood 4 miles 5,277 feet. The increase for the year in length of iron bridges is 45 feet and the decrease in wooden bridges by substitution of earth embankment for temporary wooden trestles is 437 feet.

The condition of the track and structures has been improved. During the year 19 1/2 miles of track were ballasted with gravel, 9 miles with cluders and 3 1/2 miles with other material; 214,467 cross ties were renewed and 4,078 tons of new 65-pound steel rails (38 1/2 miles) were laid with new joint fastenings. Under an equipment trust lease between The Central Trust Company of New York and this company, dated January 27, 1896 there have been added to the equipment 13 locomotives, 300 box and 200 gondola cars. The amount expended during the year for hire of freight cars in excess of the amount received from other railroads for use of this company's freight car equipment was \$318,136. The engine and car equipment received large repairs during the year, and its condition has been well maintained. There was expended in repairs to freight cars \$311,919, which is \$17,958 in excess of the amount expended the previous year in repairs to that class of equipment.

**Traffic.**—[Of the through freight in 1896, that eastward bound yielded \$2,390,626; that westward bound \$949,478. The average number of tons per train in 1896 was 230; in 1890 it was 250. The earnings per mile of road in 1896 were \$10,694, against \$11,193 in 1890. The gross earnings per freight train mile in 1896 were \$1.21, per passenger train mile were \$0.835.—EDS.]

**Statistics.**—The statement of operations, earnings and charges has been compiled for the CHRONICLE as follows:

**Erie Telegraph & Telephone Company.**

(Report for year ending Dec. 31, 1896.)

The report of this company for the late fiscal year is given almost in extenso on subsequent pages of to-day's CHRONICLE.

As explanatory of the important fields covered by the company's operations we may say that the Erie Telegraph & Telephone Co. owns 65 to 70 per cent of the capital stock of three companies, viz.: (1) *Cleveland Telephone Co.* (capital, \$1,700,000), operating in Cuyahoga County in Ohio, including the city of Cleveland; (2) *Northwestern Telephone Exchange Co.* (capital \$2,000,000), operating a continuous system of wires located in and about La Crosse, Wis. (connecting there with the lines of another company which afford communication with Chicago), Sioux City, Ia., and Yankton, South Dakota, with Minneapolis and St. Paul, and thence running westerly and northerly to Fargo and Jamestown, and also to Grafton, North Dakota, with many branches; (3) *South Western Telegraph & Telephone Co.* (capital, \$3,000,000), whose system chiefly comprises a network of wires in and connecting the cities of Paris, Denison, Sherman, Dallas, Waco, Austin, San Antonio, Houston, Galveston and intermediate places.

The company's earnings, etc., for four years past have been compiled for the CHRONICLE as follows:

	SUB-COMPANIES.		
	1896.	1895.	1894.
Gross income.....	\$1,036,19	\$1,045,896	\$1,033,619

**American Grocery.—Receiver Denied.**—At Trenton, N. J., April 30, Judge Kirkpatrick, in the United States Circuit Court, decided that the facts did not warrant the appointment of a receiver for dissatisfied stockholders.—V. 64, p. 798.

**American Soda Fountain.—Denial by Mr. Matthews.**—As to the rumor that the firm of John Matthews is about to re-engage in the business of manufacturing soda water apparatus in competition with the American Soda Fountain Co., George Matthews, per John H. Matthews, has written an open letter saying, in part:

We will not deny that we have been approached by parties wishing to interest us in a plan to organize a company to be conducted under our personal management, but it is not true that we have engaged in any definite negotiations along this line. Further, we can say that there is no agreement whereby the firm of John Matthews is restricted from entering into competition with the American Soda Fountain Co. for a period of ten years from January 1, 1891. It is impossible even to guess if at any time there will be a legitimate and profitable field for an enterprise of this kind, and we certainly would not hold the matter in consideration under the present circumstances.—V. 64, p. 284.

**Atlantic Coast Line Company of South Carolina.—Wilmington Columbia & Augusta RR.—**northeastern RR. of South Carolina—Cheraw & Darlington RR.—Central RR. of South Carolina—Manchester & Augusta RR.—Florence RR.—**Proposed Consolidation Held Lawful.**—As stated in the CHRONICLE of April 3, p. 663, the South Carolina Legislature at its last session authorized the six companies last above named, comprising the lines of the Atlantic Coast system in South Carolina, to be consolidated under the title of the "Atlantic Coast Line Company of South Carolina." Preparatory to consolidation a friendly suit was brought in the Circuit Court at Columbia, S. C., on April 26, to determine

whether under the laws of the State forbidding the union of competing lines the consolidation could legally take place. The jury promptly rendered a verdict that it could. The merger would result in bringing into one corporation about 707 miles of road (of which toward 600 miles is in South Carolina. The "Atlantic Coast Line Company" holds a controlling interest in the stock of the Marcheser & Aug., the Florence, the Cheraw & Darl. and the Northwestern railroads. The other companies are held under lease to lines in its system.

The question will now have to be submitted to the stockholders of the several corporations, and it is not anticipated that the consolidation can be effected under a year, even in case it should prove possible to take advantage of the authority granted.—V. 64, p. 660.

**Atlantic & Pacific RR.—Atchison Topeka & Santa Fe Ry.—Sold in Foreclosure.**—The Western Division of the Atlantic & Pacific RR. was sold under foreclosure of the first mortgage on May 3 and purchased for \$2,000,000 in the interest of the Atchison, which holds practically all the Western division bonds, obtained as already stated in the CHRONICLE. (See V. 64, p. 179, 232, 286, 468, 609, 663.) The sale was confirmed by Judge Collier at Albuquerque on May 4.—V. 64, p. 663.

**Atlas Tack.—Sale Confirmed.**—Judge Colt has confirmed the foreclosure sale of April 27, despite the objection of a stockholder that \$200,000 cash, \$112,000 accounts receivable, \$350,000 raw materials and goods in process of manufacture, machinery worth \$255,000 and real estate worth \$214,860, the whole property being mortgaged for only \$223,000, were sold for the sum of \$250,000.—V. 64, p. 841.

**Baltimore & Northern Electric Ry.—Falls Road Electric Ry.—Pikesville Reisterstown & Emory Grove RR.—Construction and Consolidation.**—Arrangements, it is said, have been completed for constructing the Falls Road Electric Ry., and for consolidating it, when completed, with the Pikesville Reisterstown & Emory Grove RR., under the title of the Baltimore & Northern Electric Ry. It is expected to finish the Falls Road and branches by Sept. 15, and to complete it as far as Mount Washington by July 20. The consolidated company will issue capital stock for \$1,000,000 and \$1,250,000 5 per cent bonds, the Maryland Trust Co. acting as trustee. Contract for construction and equipment have been let.

**Bridgeport & Millville Traction.—South Jersey Traction Co.—Reorganized Company.**—The South Jersey Traction Company, which was sold recently at master's sale, was reorganized on May 3 as the Bridgeport & Millville Traction Company, with these officers: Directors, C. Harman Kuhn, Stephen Greene, Aaron Fries, Bloomfield H. Minch, Lawrence Johnson, Frank S. Lewis and Walter H. Bacon. C. Harman Kuhn was elected President; Stephen Greene, Vice-President, and Walter H. Bacon, Secretary and Treasurer.—V. 64, p. 567.

**Brooklyn Elevated RR.—Plan Declared Effective.—Over 80 per cent of Bonds Deposited.—Penalty after May 15.**—The Oicott committee announces that the plan and agreement dated March 19, 1897, has been declared effective, more than 80 per cent of the various issues of bonds provided for having been deposited. The time for the deposits has been extended to and including May 15, 1897, after which date no securities will be received except on payment of such penalty as the committee may impose.

Application has been made to the New York Stock Exchange to list Central Trust Co. of New York certificates of deposit for securities deposited.—V. 64, p. 842.

**Brooklyn Union Gas.—Contract with City Executed.**—The contract between the Brooklyn Union Gas and the city of Brooklyn, which was accepted some weeks ago by the Board of Aldermen, was approved this week by Mayor Wurstler. The contract is for five years and provides that the city shall receive gas at \$1 per thousand cubic feet for the first year, and that the price shall be reduced at the rate of 2 cents a thousand each year until, for the last year, the price to the city will be 90 cents. The same contract provides that the price of gas to private consumers shall begin at \$1.20 per thousand, and shall be reduced at the rate of 5 cents per thousand each year so that the price for the last of the five years will be \$1 per thousand. The contract was to go into effect Jan. 1, 1897, and by advice of counsel the company have made a rebate on all bills rendered in excess of \$1.20 since that date. At this rate the friends of the company hope it will be able to pay dividends at the rate of six per cent per annum.—V. 63, p. 1009.

**Calumet Electric Street Ry.—Receiver Appointed.**—John C. McKeon, receiver for the National Bank of Illinois, has been appointed receiver.—V. 64, p. 798.

**Chicago & Alton RR.—Dividend Reduced.**—The company on Thursday declared a quarterly dividend of 1 1/4 per cent, payable June 1, a reduction of 1/4 per cent from the rate paid quarterly for many years past. The reduction applies to both common and preferred shares, the preferred stock being entitled to a preferential dividend of only 7 per cent per annum, the common then receiving 7 per cent, after which both stocks share pro rata. A reduction of 1 per cent per annum in the rate of dividends curtails the annual dividend charge \$222,306. Last year the surplus over 9 per cent dividends amounted to \$17,333.—V. 64, p. 370.

**Chicago Milwaukee & St. Paul RR.—Conversion of Maturing Bonds.**—The Iowa & Minnesota 7s which fall due July 1, 1897, were reduced by conversion into preferred stock dur-

log the ten days following the payment of the April dividend on that stock from \$1,736,000 to \$383,000. The holders of these remaining bonds having neglected to avail themselves of the right to convert their bonds into preferred shares (which are quoted at about 131 bid) must now accept par for them in cash at maturity July 1.—V. 64, p. 233.

**Chicago & Northern Pacific RR.—Chicago Terminal Transfer RR.—Meeting May 20 to Adopt Reorganization Plan.**—The committee of which J. Edward Simmons is Chairman has called a meeting for May 20 of the holders of certificates of deposit representing the first mortgage bonds for the purpose of taking action upon reorganization. Especial attention is called to the fact that the adoption of the plan requires the affirmative vote of 70 per cent in interest of the certificate holders. It is therefore important that the vote of every certificate holder should be recorded at this meeting. Copies of the plan and proxies can be obtained from the secretary of the committee or from the United States Trust Company.

**Plan.**—The plan itself is published at length on pages 898 to 900. It provides for the formation of a new company (the Chicago Terminal Transfer RR Co.), which shall acquire all the property of the Chicago & Northern Pacific RR. and of the Chicago & Calumet Terminal Ry., the last named being the property regarding which an agreement was made with the Northern Pacific Committee in April, 1896 (see full particulars V. 62, p. 778).

Under the plan every holder of \$1,000 of United States Trust Co. certificates for Chicago & Northern Pacific bonds will receive for principal and overdue interest, \$400 in new first mortgage 50-year 4 per cent gold bonds, \$500 in non-cumulative 4 per cent preferred stock, \$400 in common stock. It will be observed from the plan that all the securities placed upon the property, except those reserved for cash requirements, are to go to the holders of Chicago & Northern Pacific bonds, or for the acquisition in their interest of new property required for the completion of the terminals, so that the present bondholders will receive the full benefit of any future increase in value or earnings.

Negotiations are in progress for the joint operation of other terminal and belt properties in and about Chicago [including presumably the Chicago Hammond & Western RR., 45 miles—see INVESTORS' SUPPLEMENT—EDS.], and in order that the reorganized company shall be in position to accept any advantageous proposition in this connection, the plan provides for retaining in trust, for a short period, all the securities of the new company. Proprietary certificates, however, will be issued in the mean time in their stead, and the new securities will be delivered Dec. 31, 1897, unless otherwise ordered by 70 per cent in interest of the new securities. The plan submitted has already received the assent of holders of a very large amount of United States Trust Company certificates.—V. 64, p. 329.

**Colorado Midland RR.—Foreclosure Decree Entered.**—At Denver, Col., May 4, a decree was entered in the United States Circuit Court ordering the foreclosure sale of this property under both the first mortgage of 1886 and the consolidated mortgage of 1890. The sale will take place at Colorado City at a date to be announced later. The properties covered by each mortgage will be sold separately, and then as a whole. The committee has not fully determined upon the details of the reorganization plan, and is no haste to have a date fixed for the sale.—V. 64, p. 134.

**Electric Storage Battery.—New President.**—President Gibbs has resigned, being succeeded by L. L. Rice.—V. 64, p. 841.

**Fort Worth & Rio Grande Ry.—Interest Scaled.**—The holders of all except \$11,000 of the bonds having agreed to a reduction in the rate of interest, the Central Trust Co. is now delivering the old bonds with new coupon sheets attached in accordance with the terms of settlement, viz: 3 per cent interest for the five years to and including Jan. 1, 1902, and 4 per cent for the remainder of the life of the bonds. Holders desiring receive payment of the unpaid January, 1897, coupon in cash at the 3 per cent rate. The old coupons will be held alive by the trustee for the benefit of the depositing bondholders, to be enforced by it in case of default on the adjusted interest to the extent that they have not been met therefrom.—V. 64, p. 257.

**Gettysburg Electric Ry.—Foreclosure Sale June 10.**—The foreclosure sale is set for June 10.—V. 64, p. 707.

**Interior Conduit & Insulation.—Injunction.**—Judge Russell, in the Supreme Court, on Wednesday, granted an injunction to the minority stockholders, enjoining the company from issuing \$500,000 debenture bonds and reducing the capital stock to \$1,000,000.—V. 62, p. 413.

**Jacksonville Tampa & Key West RR.—Sale Again Postponed.**—On Monday this property was again offered for sale and again no bid for came forward. The sale has been advertised five times and bids solicited three times. It has now been continued subject to future order of court.—V. 64, p. 751.

**Lebanon Springs R.R.—New Receiver.**—Elnathan Sweet has been made receiver to fill the vacancy caused by the death of William V. Reynolds. Pell W. Foster is made trustee for the bondholders.

**Metropolitan Street Railway (N. Y. City).—Quarterly.**—Earnings for the quarter and the nine months ending March 31 have been reported as follows:

3 mos. end.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance surplus.
Mar. 31—					
1897.....	\$2,092,462	\$952,037	\$117,990	\$734,090	\$285,987
1896.....	1,579,571	778,593	60,110	657,863	180,840
9 mos—					
1896-7.....	\$6,502,325	\$2,951,614	\$392,162	\$2,362,871	\$970,935
1895-6.....	5,250,117	2,422,771	147,353	1,763,801	806,823

—V. 64, p. 330.

**Mexican Central Ry.—Annual Meeting May 5.**—At the annual meeting the following were elected directors, James C. Melvin succeeding Jacob Edward:

Isaac T. Burr, Boston. James C. Melvin, Boston. Joseph Richardson, Sebastian Camacho, Mex. E. Rollins Morse, Boston. New York. Benj. P. Cheney, Boston. H. R. Nickerson, Mexico. A. A. Robinson, Tex. Levi Z. Leiter, Chicago. John B. Palmer, Boston. Wm. Rotch, Boston. Pablo Martinez, Mexico. C. E. Perkins, Burlington, Ia. Alden Speare, Boston. Jos. H. White, Boston. Geo. H. Wilbur, Boston. R. R. Symon, London, Eng.

The officers elected are as follows:

A. A. Robinson, President; Robert R. Symon, Vice-President; E. Rollins Morse, Vice-President and Chairman Finance Committee; J. T. Harner, Clerk and Comptroller; C. A. Browne, Treasurer and Transfer Agent; H. R. Nickerson, General Manager; W. A. Frost, Auditor; Jay A. Hendry, Assistant Treasurer.

**Outlook.**—The remarks of President Robinson at the stockholders' meeting are reported by the "Boston Financial News" as follows:

He spoke encouragingly of the future of the road and of the Republic. He said that just now there was more freight offered than could be handled with the present equipment, and that arrangements were made recently to provide more equipment.

The opening of Tampico harbor and the completion of the Tampico branch has opened the markets of Europe to Mexico by water transportation, whereas, formerly, all the business had to go by rail through the United States and was restricted on account of the great expense.

The latest census taken by the Mexican Government showed a population of 12,570,000, an increase since the last census, seventeen years previous, of 2,663,000, or 26 per cent. With the introduction of modern methods, the growth of Mexico should be faster during the next seventeen years and greater progress should be made.

The cattle and fruit industries have made rapid strides and the transportation of oranges over the Mexican Central road have increased 100 per cent every year during the past three years. The mining business is an important factor and to-day some of the largest smelters in the world are located in Mexico. President Robinson anticipated no retaliatory measures on the part of the Mexican Government on account of the new tariff, which was unfavorable for Mexico as to the duties on cattle and hides.—V. 64, p. 839, 843, 845.

**Middle Tennessee & Alabama RR.—Sold in Foreclosure.**—This road was sold under foreclosure at Fayetteville, Tenn., May 5, and purchased by J. W. Dickon for \$150,000.—V. 64, p. 707.

**New York Central & Hudson River RR.—Quarterly.**—The actual figures of earnings for the quarter and the nine months ending March 31 have now come to hand; the estimated results were published in the CHRONICLE of March 13, and differed but slightly from the following actual figures:

3 m. end.	Gross earnings.	Net earnings.	First charges.	P. O. Dividends.	Balance sur. or def.
Mar. 31—					
1897.....	10,133,425	3,246,449	2,635,863 (1%)	1,000,000	df. 389,414
1896.....	10,283,911	3,254,583	2,644,527 (1%)	1,000,000	df. 389,914
9 months—					
1896-7.....	33,071,888	10,690,828	7,900,097 (3%)	3,000,000	df. 209,271
1895-6.....	34,292,313	11,073,926	7,923,030 (3%)	3,000,000	df. 150,796

—V. 64, p. 843.

**New York Chicago & St. Louis RR.—Quarterly.**—Earnings for the quarter ending March 31 have been reported as follows. The annual report is given on a previous page.

3 mos. end.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, deficit.
March 31—					
1897.....	\$1,310,984	\$213,076	\$1,406	\$305,908	\$91,426
1896.....	1,451,491	198,879	5,690	290,671	86,102

—Vol. 64, p. 374.

**Oregon Improvement Company.**—See page 902.

**Reading Company.—Voting Trust Agreement.**—On account of the crowded condition of our columns we are obliged to defer again the publication of the Voting Trust Agreement, which was to have been printed last week in connection with the article on Voting Trusts.—V. 64, p. 843.

**Sanford & St. Petersburg Ry.—Savannah Florida & Western Ry.—Bonds for \$300,000 Guaranteed.**—The form of guaranty, which was published last week, applies to only \$300,000 out of the total issue of \$600,000 first mortgage bonds.—V. 64, p. 843.

**Standard Oil Dividend.**—The liquidating trustees have declared a quarterly dividend of 3 per cent and an extra dividend of 7 per cent, payable June 15. The payment in March also aggregated 10 per cent. In December, 1896, 5 per cent was paid, in September 3 per cent, in June 10 per cent and in March 13 per cent. On Friday sales of the certificates were reported at from 302 to 307, the highest price ever reached. In Sept., 1896, they were quoted as low as 202.—V. 62, p. 871.

**Toledo St. Louis & Kansas City RR.—Old Purchase Money Claims Affirmed.**—The United States Circuit Court at Chicago this week rendered a decision affirming a judgment in favor of the American Surety Co. for \$323,909, with interest since July 1, 1893. This was a test case, and the decision affects claims aggregating some \$500,000, which were not settled under the previous foreclosure sale in 1885, the property at that time being sold subject to their lien. The reorganized company paid the interest, but never found it convenient to pay off the principal. The decision just rendered establishes these claims as ahead of the first mortgage bonds.—V. 64 p. 331.

For other Investment Items see pages 902 and 903.

# Reports and Documents.

## SOUTHERN PACIFIC COMPANY.

ABSTRACT OF THE TWELFTH ANNUAL REPORT—FOR THE YEAR ENDING DEC. 31, 1896.

### To the Stockholders :

The business year of the Southern Pacific Company and its constituent companies has been changed from December 31 to June 30, so as to conform to the period for which the railroads of the United States are required to make reports annually to the Inter-State Commerce Commission and to the respective State Railroad Commissions. This change will save the companies the expense attending the re-statement of their business for a period differing from that heretofore observed by them, and enable them to render their annual reports to the Commissions at a considerably earlier date than heretofore.

For the information, however, of those interested in the securities of these companies, an abridged report is now published, summing up the operations for the year ending December 31, 1896, and other essential information in regard to the changes which have taken place in the assets and liabilities since the last annual report. The usual fully tabulated annual report will be issued for the year ending June 30, 1897.

NEW YORK, April 7, 1897.

### I.—PROPERTIES AND MILEAGE.

The properties which constitute the Southern Pacific lines, the miles of road and water lines owned or leased by them, consisted on December 31, 1896, of the following transportation lines :

	<i>Pacific System Lines.</i>	<i>Lines in Texas.</i>	<i>Atlantic System Lines.</i>	<i>Total.</i>	<i>During the year. Increase.</i>
<b>I.—PROPRIETARY LINES.</b>					
Total miles main line owned.....	2,830-11	1,966-65	422-25	5,219-01	54-68
Total miles main line leased.....	7-24	.....	23-60	30-84	.....
Total miles second track owned.....	45-96	.....	21-79	67-75	5-54
Total miles second track leased.....	3-51	3-89	.....	7-40	.....
Total miles sidings.....	627-69	367-94	157-18	1,152-81	55-65
Total length single track and sidings.....	3,514-51	2,333-48	624-82	6,477-81	115-87
<b>II.—LEASED LINES.</b>					
Total length of single track and sidings.....	2,598-10	.....	.....	2,598-10	7-74
Total main line proprietary companies and leased lines.....	4,965-84	1,964-65	445-85	7,378-34	54-68
Total second track proprietary companies and leased lines.....	58-94	3-89	21-79	84-67	5-54
Total sidings proprietary companies and leased lines.....	1,077-79	367-94	157-18	1,602-91	63-39

The changes in mileage have been as follows :

*Southern Pacific Railroad of California.*—Extensions of the Coast Division were completed as follows : January 30, the Lake to Someo, 7-6 miles; April 6, Someo to Viaduct, 7-2 miles; June 1, Viaduct to Tangair, 2-5 miles; June 10, Tangair to Santa Ynez, 4-2 miles; August 18, Santa Ynez to Surf, 7-2 miles; total, 22-22 miles. On the Southern Division there were completed January 28, Monrovia to Duarte, 2-96 miles; March 7, Covina to San Dimas, 4-5 miles; April 20, San Dimas to Lordsburg, 2-1 miles; August 22, Lordsburg to Pomona, 1-24 miles; July 20, San Bernardino to Riverside, 11-09 miles; October 21, Anaheim to Los Alamitos, 10-08 miles; December 30, Extension at Santa Ana, 1-4 miles. Total new lines, 54-34 miles. Between Los Angeles and Shorb 5-54 miles of double track were built.

Minor changes in tracks of completed roads, and corrections in distances formerly reported, have increased the mileage of the proprietary lines 34 miles.

There were operated an average of 7,355-86 miles for the year, against an average of 7,288-35 miles operated in 1895.

### II.—INCOME FOR THE YEAR 1896.

The following statement shows the transportation earnings of the proprietary and leased railroad and steamship lines, and all other receipts, except from capital created. Also operating expenses, taxes, sinking fund contributions, and all other charges which are an obligation of the proprietary companies, or of the Southern Pacific Company as lessee. Receipts and payments appertaining to transactions in former years, and transactions other than such as grow out of the transportation operations of the roads, and adjustment between the several interests in respect to operations, are shown separately under profit and loss. Under "proprietary companies" are shown the earnings over operating expenses, taxes and fixed charges which inure to the Southern Pacific Company as the principal owner of the stock of said proprietary companies, and under "leased lines" the profits or losses from the operation of the property leased from the Oregon & California RR. Co., Central Pacific RR. Co. and California Pacific RR. Co. which inure to or become a charge against the income of the Southern Pacific Company.

\* Applicable to U. S. requirements under Thurman Act, company sinking fund, land department expenses, and other corporate charges.

The expenditures for betterments and additions, excluding the \$160,924 55 charged to income as above, for the year were \$826,029 05. Of this sum \$25,209 63 was expended for account of the Oregon & California Railroad, and \$800,819 42 for account of the proprietary companies. Of the latter amount \$134,208 01 was by the proprietary companies charged to their profit and loss account of the year, leaving \$666,611 41 charged to capital account.

The year's results show a decrease in the surplus of the proprietary lines of \$396,915 06, a decrease of \$238,540 67 in the deficit from the operations of the leased lines, and an increase of \$14,705 63 in the surplus of the Southern Pacific Company, from its interest in certain leases and income from property investments.

The distribution of the year's results between the several interests is detailed as follows :

Proprietary Lines Leased to Southern Pacific Company:	Total Loss or Profit Under Terms of Lease or Oper- ations by Their Own Organizations.		DISTRIBUTED AS BETWEEN			
	Loss.	Profit.	Proprietary Companies.		Leased Lines	South'n Pacific Co.
			Loss.	Profit.	Loss.	Loss or Profit.

Surplus .....		\$1,789,558 58		\$1,957,677 56		Profit \$618,172 64
Deficit .....					\$786,296 62	

The year 1896 was one of unremitting business depression. The unfavorable conditions which culminated in the financial disturbances in July, 1893, and the general business depression which has since prevailed, were intensified by the business uncertainties usual to a Presidential year, and grave apprehensions as to the final result of the election. From this exceptional combination of conditions resulted a decrease of \$1,790,357 83, or 3·68 per cent, in the gross earnings, greater than in any year since the existence of the present business depression. Of this decrease, \$1,316,049 73, or 3·78 per cent, occurred on the lines of the proprietary companies, and \$498,617 17, or 3·19 per cent, on the leased lines. Fortunately the large sums expended by these companies in former years for betterments and additions enabled them to reduce their cost of operation. This saving, in conjunction with the decrease of expenses which would necessarily result from a diminution in traffic, lower prices of material and economies in transportation operations, enabled the company to reduce its operating expenses \$1,280,228 89, or 3·85 per cent. This saving in expenses reduced the company's losses for the year to \$510,128 94, a decrease of only 2·96 per cent against 1895. Of the decrease in the operating expenses, \$745,855 25, or 3·23 per cent, was on the lines of the proprietary companies, and \$558,083 80, or 5·52 per cent, on the leased lines.

The decrease in income from trackage and other rentals resulted from a credit in 1895 of \$44,769 32 in adjustment in trackage accounts running over a number of years. The decrease in the net profits under the omnibus lease resulted from the diminished earnings of the lines embraced in said lease. The increase or decrease in the remaining items of income are explained by their titles.

In charges to income, the increase in taxes resulted from a settlement of taxes assessed against the Southern Pacific Railroad Company of California in the years 1887 and 1888, amounting to \$164,975 86. Of the increase in interest on bonded debt, \$87,328 41 is for account of the Southern Pacific Railroad of California, and \$11,693 61 for account of the Morgan's Louisiana & Texas Railroad & Steamship Company. There was a decrease of \$4,260 in interest on bonded debt of the Southern Pacific Company, \$1,233 35 in Texas Transportation lines, and \$49,635 in interest paid for account of the Central Pacific RR. Co., leaving a net increase in interest on bonded debt of \$40,898 67. Sinking-fund contributions were increased by \$30,000, being an amount set aside for sinking fund by the Southern Pacific Railroad of Arizona. The remaining items of increase or decrease are explained by their titles.

The following statement shows annually, since the organization of the Southern Pacific Company, the general operations and net results derived from the operation of the proprietary companies and leased lines, the net proceeds of which have either accrued directly to the Southern Pacific Company or to the several proprietary companies, and are represented in the increased assets of the respective companies:

YEAR.	Earnings of Proprietary Com- panies over Oper- ating Expenses and Fixed Charges.	Income of S. P. Co. other than from Operation of Proprietary or Leased Lines.	Loss in Operation of Leased Lines.	Surplus after Payment of all Fixed Charges.	Expenditures for Betterments and Additions.	Balance Remaining after Payment for Betterments and Additions.

The assets and liabilities have been classified so as to place their character understandingly before those interested in them. Under "Current" have been classed the liabilities which are in current process of adjustment and the assets available for their payment; under "Deferred" such liabilities as are payable at some future day, either near or remote, and the assets available therefor; and under "Contingent" the amounts involved in the general accounting between the Southern Pacific Company and the proprietary companies; also accounts the payment or collection of which depends upon future adjustments and conditions, and such other accounts as the companies may, on their books, have opened with themselves for convenience in accounting in respect to certain funds.

#### VI.—PROPRIETARY COMPANIES.

The following statement shows the outstanding bonds and shares of the proprietary companies, and the property covered thereby, on December 31, 1896. The capital stock of said companies is owned principally by the Southern Pacific Company, and against it the stock of the Southern Pacific Company is outstanding:

CAPITAL ACCOUNT.	Total, 1896.	Total, 1895.	Increase.	Decrease.

Total.....	\$800,819 42	\$666,611 41	\$134,208 01	\$16,334,699 27

#### VII.—TRANSPORTATION EARNINGS.

The transportation operations and all statistics in respect thereto of the companies whose capital stock is owned principally by the Southern Pacific Company, and companies whose capital stock is owned by others than the Southern Pacific Company but which are operated by the Southern Pacific Company under leases to it, have been, since the organization of the Southern Pacific Company in 1885, distributed as between operations of lines west of El Paso and operations of lines east of El Paso. As the lines west of El Paso are all leased to the Southern Pacific Company and operated as one system, they are known as the "Pacific System" of the Southern Pacific Company. Certain lines in Texas operated by their own organizations, and Louisiana, leased to the Southern Pacific Company, constitute the lines east of El Paso. For the purpose of facilitating the comparison of operations with former years on substantially the same lines, the operations have been re-combined and are reported for convenience under "Atlantic Properties." A similar combination has been made of the operations of the Houston & Texas Central, Austin & Northwestern, Central Texas & North Western and Fort Worth & New Orleans Railroads, and designated, for convenience, "Houston & Texas Central Lines."

	Pacific System.	Atlantic Properties.	Houston & Texas Central Lines.	Total.	During the Year.

Per cent	2.75	5.73	4.32	3.68		

The increase in car mileage earnings results from a change in the method of accounting, made in order to state correctly the mileage accounts between the various interests. In former years the difference between the amounts received for wheelage from foreign lines and the wheelage paid to them was credited monthly, either to car mileage earnings, or charged to expenses of conducting transportation, according to the state of the account. This year the total amount received for wheelage from foreign lines is credited to car mileage earnings, and the total payments to foreign lines is charged to expenses for conducting transportation. The increase in the earnings for the year 1896 exceed by \$3,941.33 the increase in payments charged to expenses for conducting transportation. The cars of the Pacific System, Atlantic properties and H. & T. C. lines are treated as cars of foreign lines when running on lines other than their own.

The passenger traffic of the railroads and ferries has been:

PASSENGERS.	Pacific System.	Atlantic Properties.	Houston & Texas Central Lines.	Total.	+ Increase.		— Decrease.	
					Pacific System.	Atlantic Properties.	H. & T. C. Lines.	
Earnings	\$9,468,812.01	\$1,781,684.15	\$729,083.37	\$11,979,579.53	— \$28,292.15	+ \$67,931.42	— \$84,540.45	
Number of passengers carried	19,045,914	973,116	734,586	20,753,616	+ 452,762	+ 13,938	— 63,569	
Passengers carried one mile	496,924,090	78,185,544	30,592,034	605,701,668	+ 13,744,337	+ 2,147,652	— 4,849,868	
Aver. miles traveled by each pass.	26.09	80.34	41.63	29.18	+ .10	+ 1.07	— 2.76	
Aver. receipts per passenger per mile	Cents 1.905	Cents 2.279	Cents 2.383	Cents 1.978	— Cents .060	+ Cents .026	+ Cents .088	

**Pacific System.**—Earnings from through passengers increased \$83,207.54, or 3.72 per cent, and in number of passengers carried 5,006, or 4.45 per cent. Earnings from local passengers decreased \$134,792.21, or 2.14 per cent, and in number of passengers carried 159,606, or 2.92 per cent. Earnings from ferry suburban passengers increased \$28,292.52, or 2.40 per cent, and in number of passengers carried 287,550, or 2.21 per cent. There was an increase in the average receipts per passenger per mile from through passengers, but a decrease of 4.49 per cent in receipts from local passengers.

**Atlantic Properties.**—Earnings from through passengers increased \$38,370.88, or 6.49 per cent, and number of passengers carried decreased 4,379, or 5.79 per cent. Earnings from local passengers increased \$28,560.54, or 2.54 per cent, and number of passengers carried 18,217, or 2.06 per cent. There was a gain in the average receipts from through passengers of 3.37 per cent, but a slight loss in the receipts from local.

The passenger earnings of the steamship lines decreased \$10,282.64, but of this sum \$6,936.34 resulted from the withdrawal of the Nicaragua line, which was not operated during 1896.

**Houston & Texas Central Lines.**—Earnings from through passengers decreased \$36,041.83, or 16.35 per cent, and number of passengers carried 33,093, or 24.95 per cent. Earnings from local passengers decreased \$47,195.31, or 7.99 per cent, and number of passengers carried 31,566, or 4.58 per cent. The average receipts per passenger per mile were slightly greater.

The freight traffic of the railroads and ferries has been:

FREIGHT.	Pacific System.	Atlantic Properties.	Houston & Texas Central Lines.	Total.	+ Increase.		— Decrease.	
					Pacific System.	Atlantic Properties.	H. & T. C. Lines.	
Earnings commercial freight	\$17,897,492.05	\$8,088,120.83	\$2,740,811.98	\$28,726,424.86	— \$994,509.76	— \$301,779.32	— \$55,947.83	
Earnings company freight	1,025,479.61	160,897.53	.....	1,186,377.14	— 82,584.87	+ 60,996.37		
Total	\$18,922,971.66	\$8,249,018.36	\$2,740,811.98	\$29,912,802.00	— \$1,077,094.63	— \$362,775.60	— \$55,947.83	
Commercial freight.								
Number of tons carried	5,382,327	2,655,749	1,152,238	9,190,314	+ 16,249	+ 134,024	+ 57,428	
Tons carried one mile	1,458,515,707	895,666,635	197,425,397	2,553,607,709	+ 43,746,656	+ 24,285,815	+ 1,785,461	
Average length of haul	Miles 270.43	Miles 337.26	Miles 171.74	Miles 270.22	— Miles 8.96	+ Miles 7.57	— Miles 7.36	
Aver. receipts per ton per mile	Cents 1.230	Cents .903	Cents 1.390	Cents 1.178	— Cents .030	— Cents .009	— Cents .040	

**Pacific System.**—Earnings from through freight decreased \$593,942.44, or 7.06 per cent. There was, however, an increase in the number of tons carried of 15,578 tons, or 1.27 per cent, but a decrease in ton miles of 36,290,403 miles, or 3.51 per cent. Earnings from local freight decreased \$400,567.32, or 3.82 per cent. The number of tons carried increased 671 tons, but there was a decrease in ton miles of 7,456,253 miles, or 1.60 per cent. The causes for the exceptional falling off in gross earnings on this system are found in the general business depression already referred to, and the partial failure of those crops in California and Oregon which are sold to Eastern markets. This shortage reduced east-bound through shipments \$523,691.50, or 10.84 per cent, and the loss to the communities of the commercial value of these crops is in part reflected in the diminished local earnings. The average receipts per ton per mile decreased 3.68 per cent on through traffic and 2.27 per cent on local traffic.

**Atlantic Properties.**—Earnings from through freight decreased \$244,432.94, or 4.34 per cent; tons carried 105,187 tons, or 5.36 per cent, and ton miles 12,513,797 miles, or 1.61 per cent. Earnings from local freight decreased \$57,316.38, or 2.07 per cent, and tons carried 29,437 tons, or 2.81 per cent, and ton miles 11,772,018 miles, or 8.23 per cent. The decrease in through freight earnings resulted from the diminished east-bound shipments from the Pacific System lines, decrease in shipments of lumber, merchandise and manufactured articles, and in the local freight earnings from the increased movement of freight of low classification. The average receipts per ton per mile varied but slightly in the amount received in 1895.

The freight earnings of the steamship lines decreased \$132,253.17. There were 23 less trips made by the New York line, which shows a falling off of \$113,898.63 in earnings. The remaining decrease results from diminished coastwise tonnage and the withdrawal of the Nicaragua line, which was not operated in 1896.

**Houston & Texas Central Lines.**—A change during the year in the classification of through and local freight traffic to conform to that observed on the other properties makes this data unavailable for comparison with 1895; comparisons are therefore made only with regard to the total freight traffic. The earnings have decreased \$55,947.83, or 2.06 per cent, tons carried increased 57,428 tons, or 5.24 per cent, and the ton miles 1,785,461 miles, or .92 per cent. The effects of the short cotton crop in 1895, and the failure of the grain crop in 1896, resulted in reducing the earnings of the Houston & Texas Central Lines \$107,018.11, but there was an improvement in the earnings of the other lines, principally in granite shipments, which reduced the loss in freight earnings for the year to \$55,947.83. The earnings of these lines were also affected by a change in the distribution of cotton and cotton seed products which has taken place of late, and which has resulted in lessening the length of haul. Although the total tonnage exceeded that for 1895 by 5.42 per cent, the average length of haul decreased 1.42 per cent. The cost of the terminal and accessorial services, rendered by the railroad, in a single shipment of goods, either large or small, is not affected by the length of haul, but is alike in amount for both short and long haul. The effect of this change is, therefore, that the earnings will be reduced by the diminished length of haul and the expenses will be increased by the greater number of shipments to be handled.

## VIII.—OPERATING EXPENSES.

The operating expenses of the railroads, ferries and steamships have been as follows:

	Pacific System.	Atlantic Properties.	Houston & Texas Central Lines.	Total.	+ Increase. — Decrease.		
					Pacific System.	Atlantic Properties.	H. & T. O. Lines.
Maintenance of way and structures.	\$4,666,330 97	\$1,374,732 41	\$638,179 70	\$6,679,243 08	— \$453,719 77	— \$137,198 24	+ \$143,406 46
Maintenance of equipment.	3,207,341 21	1,016,973 84	352,412 98	4,576,728 03	— 274,341 29	+ 24,260 83	+ 54,375 26
Conducting transportation.	10,462,418 20	3,929,605 32	1,306,703 48	15,698,727 00	— 218,369 11	— 172,655 90	— 68,550 94
General expenses.	2,137,193 49	805,538 47	259,261 25	3,201,993 21	+ 129,800 10	+ 58,035 25	+ 14,033 04
Steamships.		1,805,515 29		1,805,515 29		— 379,304 58	
Total, 1896.	\$20,473,283 87	\$8,932,365 33	\$2,556,557 41	\$31,962,206 61	— \$816,630 07	— \$606,862 64	+ \$143,263 82
Per cent.					— 3.84	— 6.36	+ 5.94
Per cent of oper. expenses, rail lines	64.71	64.76	67.89	64.98			

The steamships have been operated for 79.92 per cent of their gross earnings, against 81.18 per cent in 1895.

The conditions which have enabled the companies to reduce their expenses so largely without impairment to their property have already been explained. As an illustration in one item of the diminished cost of maintenance toward which the large expenditures for betterments in past years have contributed, the cost of repairing and maintaining timber trestling on the Atlantic properties, before and after renewals were made with creosoted lumber and ballasted decks, is cited. Beginning with 1891, when the effect of these renewals became apparent, the cost per annum decreased as follows:

	Total expenses.	Cost per lineal foot.		Total expenses.	Cost per lineal foot.
1891.	\$317,848 42	\$1.212	1894.	\$139,447 08	.494
1892.	266,469 62	.975	1895.	130,020 19	.459
1893.	261,216 32	.953	1896.	98,393 61	.346

There would have been a still greater reduction in the operating expenses but for the large amount expended on the Southern Pacific Railroad of Arizona in improving its roadbed and track. The expenses on that property exceeded by \$326,075 83 the expenses for the year 1895, nearly all of which was expended in maintenance of way and structures.

## MAINTENANCE OF WAY AND STRUCTURES.

	Pacific System.	Atlantic Properties.	Houston & Texas Central Lines.	Total.	+ Increase. — Decrease.		
					Pacific System.	Atlantic Properties.	H. & T. O. Lines.

Total.	\$3,207,341 21	\$1,016,973 84	\$352,412 98	\$4,576,728 03	— \$274,341 29	+ \$24,260 83	+ \$54,375 26
Per cent.					— 7.88	+ 2.44	+ 18.24

The increase or decrease on the several properties in the principal items which constitute these expenses are shown above.

On the Pacific System the expenses include \$99,253 76 for equipping 4,834 freight cars with automatic couplers, and \$97,300 for difference in 12 old sleeping cars changed into passenger cars. Six light 10-wheel freight locomotives were changed into 6-wheel switching engines.

On the Atlantic properties the expenses include \$18,500 for equipping 865 freight cars with automatic couplers and \$14,530 28 for 2 old sleeping cars charged off.

As locomotives and cars are destroyed, or condemned as unserviceable, the cost of a new locomotive of the same type and of a car of the present standards, is charged to the operating expenses and credited to the respective renewal funds. The amount of the rolling stock included in operating expenses, or charged against the renewal funds, and other work done which has entered into the above expenses, is shown in the pamphlet report.

8. All other expenses.	97,767 66	19,551 90	6,878 03	124,197 59	+ 1,745 22	— 1,211 07	— 9,251 64
Total.	\$10,462,418 20	\$3,929,605 32	\$1,306,703 48	\$15,698,727 00	— \$218,369 11	— \$172,655 90	— \$68,550 94
Per cent.					— 2.04	— 4.29	— 4.98

The increase or decrease in the principal items which constitute these expenses on the several properties are shown above. The increase of \$255,591 23 in car mileage expenses for the Pacific System lines arises from the change in method of accounting put in effect on the system in 1896, as already referred to. This increase is offset by an increase in car mileage earnings of \$249,578 57. A very considerable part of the reduction in the above expenses resulted from the close attention given by the transportation department to the loading of cars. The results obtained from the attention to this detail, on the Pacific System lines, have been exceptionally satisfactory. Although the tonnage handled was but little less than in 1895, the decrease being only 42,588 tons, or .61 per cent, and in ton miles 3.42 per cent, this tonnage was carried with a decrease in revenue train mileage of 1,257,733 miles, or 12.39 per cent, and a reduction in loaded car miles of 10,206,248 miles, or 8.08 per cent, and in empty car miles of 6,814,210 miles, or 15.02 per cent. The average train load was increased by 17.24 tons, or 10.24 per cent, over 1895.

On the Atlantic properties a reduction in tonnage of 6.21 per cent was offset by a reduction of 7.45 per cent in car miles, and on the H. & T. C. lines, 4.18 per cent; additional tonnage was moved with 2.43 per cent less car mileage.

## IX.—GENERAL REMARKS.

Considering the exceptionally unfavorable business conditions under which the railroads of the United States have been operated during the year 1896 the net results of the year's transactions do not compare unfavorably with those for the year 1895. There remained for the year 1896 a surplus from transportation earnings and receipts from all other sources of the proprietary companies, leased lines, and Southern Pacific Company, after the payment of taxes, interest and all other charges against income,

the sum of.....\$1,789,553 58  
against a surplus for 1895 of.....2,185,232 34  
showing a decrease in 1896 of.....395,668 76

Taking into the calculation of both years the expenditures for betterments and additions, which were exceptionally large in 1895, but which were \$985,276 08 less in 1896 than in 1895, the net results for 1896 show a gain of \$589,607 32 over 1895.

The requirements for betterments and additions during the year 1897 are estimated at about \$997,000. A considerable part of this sum is for ballasting, sidings and the enlargement of terminal facilities, in the expectation of an improvement in the general business situation during 1897.

From the statements published in respect to the year's expenditures for maintenance of way and structures and for maintenance of equipment, the material used in repairs and renewals of the roadway and track, and the large output of the company's several wood preserving works, it will be evident that the company's properties have been fully maintained at their high standard of excellence, although there had been a considerable shrinkage in the earnings. It was a source of considerable satisfaction to me to observe the excellent physical condition of these properties on my recent trip over them; although there is a steady appreciation in their physical condition each year, their condition at the close of the year 1896 was particularly satisfactory.

The tonnage moved over all the company's lines averaged 314,919 tons per mile of road, against 356,005 ton miles in 1895, a decrease of 3.11 per cent. The average receipts per ton mile was 1.127 cents against 1.150 in 1895, a decrease of .023 cent. Although this is but a slight reduction, the reduction in freight rates on the lines of the Pacific System alone operated to reduce the earnings of that system in 1896 by \$142,006 61.

But little is known of the enormous sums involved in the reduction in rates of transportation which has taken place on these properties since 1885, when the Southern Pacific Company was organized and began operations. In an able article recently published in the “North American Review” on the subject of railroad transportation and legislation, the reduction in freight rates on thirteen of the important railways, performing about one-third of the entire freight transportation of this country, were shown to have averaged about fifteen per cent between 1885 and 1896.

The reduction in rates on these properties between the years 1885 and 1896 have been much greater, as will be seen from the following statement of earnings, volume of traffic and rates received:

	Total.		Per Mile of Road Operated.				
	1885.	1896.	1885.	1896.	Increase.	Decrease.	Per Cent.
Miles of road.....	4,697 53	6,743 61	.....	.....	.....	.....	.....
Passenger Traffic.....	.....	.....	.....	.....	.....	.....	.....
Gross earnings.....	\$4,013,373 54	\$11,550,496 16	\$1,765 87	\$1,712 95	\$7 08	.....	.42
Passengers carried.....	1,525,985	20,019,060	2,028	2,969	911	.....	46.40
Passengers carried one mile.....	318,088,758	575,199,634	67,714	85,289	17,575	.....	25.95
Average receipts per passenger per mile.....	.....	.....	Cents 2.5192	Cents 2.6033	.....	Cents .5109	20.28
Freight Traffic.....	.....	.....	.....	.....	.....	.....	.....
Gross earnings.....	\$17,217,392 34	\$25,985,612 88	\$3,665 20	\$3,853 69	\$188 49	.....	5.14
Tons commercial freight carried.....	3,765,192	8,038,076	802	1,192	390	.....	48.63
Tons freight carried one mile.....	808,409,660	2,351,182,402	184,865	348,683	163,818	.....	88.62
Average receipts per ton per mile.....	.....	.....	Cents 1.9819	Cents 1.1052	.....	Cents .8767	41.23

The above results show that the reductions have amounted to 20.28 per cent in passenger rates and 41.23 per cent in freight rates. Stated in another way these properties have, in 1896, as compared with 1885, given to the public 25.95 per cent more passenger service with an increase in gross earnings of less than one-half of one per cent, and 88.62 per cent more freight service with an increase in gross earnings of a fraction only over five per cent.

These reductions in rates are exceptionally large for so short a period, but some part thereof has resulted from the unification in operation of a number of smaller lines by which the service to the public was improved and the expenses of operations lessened. The sums involved in these reductions amount to many millions. Had the companies received in 1896 the rates which they received five years ago, the earnings for 1896 would have been greater by \$14,074,825 98, and at the rates received in 1885 by \$26,578,809 43 greater. If we apply the rates received in 1885 to the traffic of the subsequent years, including 1896, the reduction to this public not interested in railroad securities and the loss to the large public that invests in such securities, or depends upon the railroads for employment, directly or indirectly, has for the 11 years amounted to \$79,992,614 82 on the Pacific System lines, and to \$50,125,884 79 on the lines of the Atlantic properties, a total of \$130,118,499 61. There are probably no other railroad properties in this country, and I doubt if elsewhere, where the re-

duction in expenses resulting from unification in their general operation of a number of lines, economy in working expenses, and expenditures for improvements, by which expenses may be still further lessened, have contributed to the public so large a sum in so short a period as on these properties. The amount of the reduction on the Pacific System lines is exceptionally large, considering the much higher prices than other lines which they have to pay for fuel, wages and all material entering into operation of their railroads.

Diagrams Nos. 1 and 2 in the report of the Controller show the freight rates in density of tonnage on the Pacific System lines and on the lines of the Atlantic properties from 1885 to 1896. These diagrams show the large reduction in freight rates which has taken place since 1885, and the loss in gross revenue resulting therefrom, as well as the gain in gross revenue from the increase in tonnage. The important bearing of density of traffic on the earnings of the railroads referred to in the last annual report and on the determination of reasonable rates is graphically set forth in these diagrams.

The disastrous effects of the reductions in rates, to which all the railroads in this country have been subjected more or less, have been evidenced in the large number of roads which were compelled to seek relief in the courts since 1893. The shrinkage of capital, and the lessened returns upon the capital, which followed each reorganization, the large reduction in the number of employees on the railroads and in the amount of supplies purchased, imposed by the diminished earnings of railroads, have demonstrated to the public how essential a factor the prosperity of the railroads is in the general prosperity of the country. The change in public opinion toward the acceptance of this fact, referred to in the last annual report, has been manifested in a greater sense of justice shown toward corporate rights, on the part of Legislatures and Railroad Commissions in States which had formerly been extreme in their attacks upon vested rights. The mutuality of interests between communities and the railroads and the many difficulties which enter into the question of transportation are becoming better understood by those intrusted with the supervision over those matters. The Railroad Commissions appreciate the desire of the railroads to deal justly with all interests, and in their annual reports refer to the very small number of actual violations of the law, and the alacrity with which the railroads have remedied complaints brought against them, which, as they state, have almost invariably arisen from an innocent mistake of facts and were unintentionally committed. These changes all point to a marked improvement in the minds of the public toward the transportation interests of this country.

The trend of public opinion is unmistakably in favor of uniform and reasonable rates, such as will enable the railroads to keep their properties in good condition, improve and add to their facilities for the public service, and leave a reasonable profit on the capital invested, in creating and maintaining these facilities. The limit of the downward tendency of rates has evidently been reached, if the owners of the railroads and their managers can agree upon the maintenance of reasonable rates just and equitable to all. To what extent the owners and managers will agree upon such a course, or maintain any agreements made between themselves in respect thereto, remains to be seen. In view of the recent decision of the Supreme Court in the Trans-Missouri Freight Association case, the wish is earnestly expressed that the costly experience of the owners of railroads of the last thirty years will have shown to them some way by which a repetition of their disastrous experiences will be prevented. Means can certainly be found for operating the railroads of this country, representing one-fifth of its entire wealth, so as to give some returns to those who have invested their money in them without its being illegal or unconstitutional. However bad the laws may be, they have, I believe, never damaged the railroad properties of this country as much as did the people who owned them, by their want of faith in each other, and disregard of the engagements with each other, no matter how sacred their character may have been.

The experience of the majority of those who have had the management of railroad properties for a considerable number of years seems to be in favor of a modification of the Inter-State Commerce Law, under which traffic agreements between railroads, sanctioned by that Commission, can be made enforceable between them, and all prohibitions and penalties prescribed for carriers shall be made applicable to their customers and patrons. A large majority of the shipping interests of the country also recognize the necessity of some such modification in order to secure uniform rates and prevent unjust discrimination. Some action will probably be taken by Congress in the matter, and if the owners of railroads cannot among themselves maintain uniform and reasonable rates, suggested modification will probably be the next best step for the preservation of their properties. Whatever amendments may be presented in regard to this matter should, in justice to the railroads, include provision against unjust discriminations by railroads in the hands of receivers, and the law should also be amended to afford protection to the railroads as well as the shippers. A restriction should be placed upon the license to build new roads where the building of such lines is without any proportionate benefit to the public. The extent to which the general prosperity of the country has been harmed by the unlicensed and indiscriminate construction of new lines has been recognized by the Railroad Commissioners of the State of New York, and in several of the other States, and they have declined to sanction the construction of new roads where the building of such will do more harm to vested interests than benefit the public. This provision for the protection of existing property and against the waste of new capital, which finally comes out of the public, should be embodied in the laws of the Inter-State Commerce Commission, for the equal protection of the interests committed to them. Until something is done in this direction the owners of railroads, or those who manage them, will have to be more reliable than they have been in the past, and maintain their rates which will be just and reasonable to the public, and leave a fair return to those that have spent their money in creating these properties. If this is not done there is no way of keeping the railroads out of the courts, and that is a condition of affairs, I believe, where everybody loses, that is, the public and the owners of the property, and no one gains excepting the receivers and the courts.

The prospects for large crops along the lines of these properties are quite encouraging. They are particularly promising in California where the failures in crops and low prices for several years have temporarily checked the steady development of the resources of that State. With higher prices for their products, and large crops which now seem assured, we may reasonably expect a general improvement in business, and, as a sequence, also in the earnings of these lines.

The Board desires to acknowledge its indebtedness to the officers and employees of the company for the satisfactory results of the year, which are due to the faithful and efficient discharge of their respective duties.

Respectfully,

C. P. HUNTINGTON,

President.

## CENTRAL PACIFIC RAILROAD COMPANY.

### ABSTRACT REPORT FOR YEAR ENDING DEC. 31, 1896.

The following statement shows the transportation operations of the company for the year, and embraces receipts and disbursements reported by the lessee for account of the transportation of the company, and receipts and disbursements made directly by the company; also charges for taxes and other liabilities remaining unpaid at the close of the year, but which are charges to the transportation operations for the year:

	Years ending December 31.—		
	1896.	1895.	Inc. or Dec.

\* Interest on bonded debt paid by lessee during the year amounted to the sum of \$3,288,280, as shown on table 4 of the report of the Southern Pacific Company.

Passenger earnings show a net decrease of \$4,270 58. Whilst there was an increase of \$28,030 17 in through, there was a decrease of \$34,300 75 in local business. Mail earnings increased \$1,451 68; excess baggage \$1,160 14; sleeping car earnings, \$1,167 19; car mileage, \$17,042 28; and locomotive mileage, \$552 31.

Freight earnings show a decrease of \$319,384 50 in through, \$91,416 31 in local and \$119,511 09 in company freight, making a total of \$530,311 90. There was also a decrease of \$1,653 97 in telegraph earnings, \$3,922 32 in earnings from rents of buildings, etc., and \$944 22 in miscellaneous earnings.

The details of the foregoing expenditures, showing a net decrease of \$486,622 97 in operating expenses, will be found in table J of the report of the Secretary and Auditor.

The average earnings and expenses per mile of road compared with 1895 are as follows:

	1896.	1895.	Decrease.
Gross receipts	\$9,159 68	\$9,534 31	\$374 63
Operating expenses	5,700 59	5,930 94	230 35
Earnings over operating expenses	3,459 09	3,603 37	144 28
Taxes and all other fixed charges	3,613 52	3,727 09	113 57

#### ASSETS AND LIABILITIES.

The assets and liabilities of the company are shown in detail in table A in the report of the Secretary and Auditor.

During the year \$3,883,000 Central Pacific first mortgage bonds, series B, C and D, maturing July 1, 1896, and \$3,997,000 of series E, maturing January 1, 1897, were extended, with the consent of the holders, to January 1, 1898, and the interest reduced to five (5) per cent per annum. Land grant bonds of 1870 amounting to the sum of \$110,000 were re-deemed during the year.

#### UNITED STATES GOVERNMENT ACCOUNT.

The accounts with the Government, arising from its issue of so-called "subsidy" bonds, are as stated below:

<b>SINKING FUND IN THE UNITED STATES TREASURY:</b>			
By transportation service	\$1,884,619 86		
By cash payments	633,992 48		
		\$5,518,612 31	
Interest and premiums received	\$2,839,748 86		
Less premiums paid	1,343,896 15		
		1,495,852 71	
<b>Total in sinking fund</b>		<b>\$7,014,465 05</b>	
<b>INTEREST REPAID BY COMPANY:</b>			
By transportation service	\$7,834,306 72		
By cash for five per cent of net earnings	658,283 26		
		8,492,590 98	
<b>Total to credit of company December 31, 1896</b>		<b>\$15,507,055 13</b>	

The sinking fund in the United States Treasury was created by the "Thurman Act" of May 7, 1878. The Secretary of the Treasury, as custodian of this fund, has made investments in United States bonds and first mortgage bonds of the respective companies whose lien is prior to that of the United States, and invariably at a considerable premium. As shown by the following statement, this premium amounts to the sum of \$1,343,896 15, which represents a loss to the company, as most of the bonds now in the fund will soon mature and be payable at par. This statement also shows the character of the various investments.

<b>Year ending December 31, 1896</b>			
Deposits by the company	\$5,518,612 31		
Interest and premiums received	\$2,839,748 86		
Less premium paid	1,343,896 15		
		1,495,852 71	
<b>Total in fund</b>		<b>\$7,014,465 05</b>	

<b>Invested by the Secretary of the Treasury:</b>			
United States five per cent bonds of 1894	\$125,000 00		
Union Pacific Railway bonds	3,069,000 00		
Central Branch Union Pacific RR. bonds	163,000 00		
Kansas Pacific Railway bonds	300,000 00		
St. Louis City & Pacific Railway bonds	32,000 00		
Western Pacific Railroad bonds	117,000 00		
	\$3,806,000 00		
Cash uninvested	3,208,165 05		
<b>Total in fund</b>		<b>\$7,014,165 05</b>	

Pursuant to an Act of Congress approved June 19, 1878, 20 Stat., 169, the United States Commissioner of Railroads has made an annual examination of the accounts of the company and determined the amounts currently due the United States under the provisions of the Acts of 1862, 1834 and the Thurman Act of 1878, and payments have been annually made or provided by the company for the amounts so determined. A summary of these accounts is shown in the following statement:

<b>Year ending December 31—</b>			
Annual requirement under the Thurman Act	\$614,573 83	\$618,390 03	
Applicable as follows:			
To United States bonds and interest	350,173 58	353,251 11	
To sinking fund to U. S. Treasury	264,400 25	265,138 92	
Payments to the U. S. Government to Dec. 31, as per settlements with the U. S. Commissioner of Railroads:			
For U. S. bonds and interest	\$9,739,466 40	\$9,689,292 82	
For sinking fund in U. S. Treasury	5,821,756 81	5,539,356 56	
<b>Total</b>	<b>\$15,561,223 21</b>	<b>\$11,919,619 38</b>	

Your Board is still unable to report any definite action on the part of Congress looking toward the settlement with the United States Government for account of the bonds advanced in aid of the construction of the road. Several methods for the settlement of this matter are now pending,

and it is hoped that some plan will be adopted, as a large part of this indebtedness will mature on January 1, 1898.

Respectfully submitted,

ISAAC L. REQUA, President.

#### GENERAL BALANCE SHEET, DECEMBER 31, 1896.

### PLAN OF REORGANIZATION OF THE CHICAGO & NORTHERN PACIFIC RR. CO. AND Chicago & Calumet Terminal Railway Co.

MAY 4TH, 1897.

#### Committee:

J. EDWARD SIMMONS, SIMON STERNE,  
HENRY WUDGE, WILLIAM MERTENS,  
R. C. MARTIN, ALFRED S. HEIDELBACH,  
WM. ALLEN BUTLER, JR.

#### Counsel:

SIMON STERNE, GEORGE P. BUTLER,  
WM. ALLEN BUTLER, JR., 54 WALL STREET,  
New York. New York.  
JOHN P. WILSON, Chicago.

#### Depository:

UNITED STATES TRUST COMPANY,  
45 WALL STREET,  
New York.

To the Holders of United States Trust Company Certificates for Chicago & Northern Pacific Bonds:

In accordance with the provisions of the Bondholders Agreement under which there have been deposited \$28,723,000 out of \$28,855,000 Chicago & Northern Pacific Bonds, the Bondholders' Committee have formulated a plan for the reorganization of the property, and submit the same herewith for your ratification.

The proposed Plan of Reorganization contemplates the formation of a new company, to be called the *Chicago Terminal Transfer Railroad Company*, which shall acquire all the property of the Chicago & Northern Pacific Railroad Company and the Chicago & Calumet Terminal Railway Company, the latter property being a belt line which has always been operated in connection with the Chicago & Northern Pacific terminals.

All the securities of the Chicago & Calumet Terminal Railway Company are held by the managers of the Northern Pacific Reorganization, who have entered into an agreement with your committee, subject only to your own ratification, whereby, in connection with full and satisfactory settlement of all claims and accounts between the two companies and their respective receivers, the \$2,500,000 Chicago & Northern Pacific Bonds claimed by your committee to have been improperly diverted, are to be delivered by the Northern Pacific Reorganization managers to your committee, and \$6,000,000 Calumet bonds and \$5,000,000 Calumet stock (constituting all the securities of the Calumet Company) are to be handed to your committee to be delivered to the new company, the Northern Pacific reorganization managers receiving securities of the proposed new company equal in amount to those to be delivered under the reorganization in exchange for \$5,000,000 Chicago & Northern Pacific bonds.

The adoption of the accompanying plan of reorganization will depend upon your previous ratification of the settlement above outlined. In the opinion of those most competent to judge, it is considered of great importance that the new company which is to acquire the Chicago & Northern Pacific property should also acquire the property of the Calumet Company, both on account of the large volume of traffic interchanged between the two roads and on account of the strategic position which the Calumet holds as a belt line about the City of Chicago. The Committee ask for your ratification of this settlement, believing it to be for your best interests.

It is nearly four years since this Committee accepted, at your request, the supervision of the affairs of the Chicago & Northern Pacific Company. During that time they have given their best efforts to the settlement of the many problems arising out of the insolvency of the Company. Nearly all the income of the property since the receivership has been absorbed in completing the construction begun and left unfinished by the insolvent company, in acquiring title in fee to property necessary to the right of way, and in completing the purchase of property bought and partly paid for by the old company. With the payment, provided for in the plan, of \$206,500 due July 1, 1897, in final payment for the Sturgis tract of 380 acres, the Receiver will have discharged the last of such obligations, and the new company will start free from all encumbrances and obligations of the old companies, except the \$650,000 purchase money mortgage upon the Grand Central Passenger Station and the \$394,000 Chicago Great Western bonds.

The extent of the combined properties to be acquired by the new company can be seen from the statements in the accompanying plan.

It is proposed to place upon this property **\$16,500,000 new First Mortgage 50-year 4 per cent Gold Bonds**. Of these bonds only **\$12,742,000** will be issued on reorganization; **\$258,000** will be reserved for the use of the new company, and the rest reserved in the hands of the trustee for the purposes specified in the plan. There will also be issued **\$17,000,000 of Non-Cumulative 4 per cent Preferred Stock** and **\$13,000,000 of Common Stock**. The securities thus issued will be sufficient to give to the holders of United States Trust Company certificates 40 per cent in new first mortgage bonds, 50 per cent in preferred stock and 40 per cent in common stock, and will provide ample working capital for the new company.

It will be observed from the plan that all the securities placed upon the property, except those reserved for cash requirements, are to go to the holders of Chicago & Northern Pacific bonds, or for the acquisition in the interest of the bondholders of new property required for the completion of the terminals, so that the present bondholders will receive the full benefit of any future increase in value or earnings.

Negotiations are now in progress for the joint operation of other terminal and belt properties in and about Chicago, and it is deemed important that your reorganized company shall be in position to accept any advantageous proposition that may be made to it in this connection. Accordingly, the Plan provides for retaining in trust, for a short period, all the securities of the new company. Your attention, however, is especially called to the fact that *the new securities will be delivered on December 31, 1897, unless otherwise ordered by the owners of 70 per cent in interest of the new securities.*

The Plan submitted has received the unanimous approval of your Committee, and has already received the assent of holders of a very large amount of United States Trust Company certificates, and is respectfully submitted by the undersigned Committee in the belief that it secures in the most efficient manner possible the Bondholders' ownership of the property and their interest in its future development.

J. EDWARD SIMMONS, WM. MERTENS,  
HENRY BUDGE, ALFRED S. HEIDELBACH,  
R. C. MARTIN, WM. ALLEN BUTLER, JR.,  
SIMON STERNE, Committee.

NEW YORK, May 4, 1897.

## PLAN OF REORGANIZATION.

The New Company will be called

### CHICAGO TERMINAL TRANSFER RAILROAD COMPANY.

#### CAPITALIZATION OF NEW COMPANY.

**1. First Mortgage 50 Year 4% Gold Bonds.** Amount to be limited to **\$16,500,000**. Interest to run from July 1, 1897. First semi-annual coupon due January 1, 1898.

These bonds will be secured by a first mortgage on all property of the Chicago & Northern Pacific Railroad Company, including the Grand Central Passenger Station in Chicago and on all the property of the Chicago & Calumet Terminal Railway Company, junior only to the \$550,000 purchase money mortgage on the Passenger Station and the \$394,000 Chicago & Great Western bonds.

Nearly all the property to be acquired by the new company will be owned in fee.

**\$12,742,000** only of the new bonds will be issued on reorganization.

**\$258,000** of the new bonds will be reserved for uses of the new company.

**\$1,305,000** of the new bonds will be placed in the hands of the trustee of the mortgage for retirement of \$1,044,000 above-described underlying mortgages.

**\$2,195,000** of the new bonds are to be so reserved that they can be issued for future requirements, under carefully guarded provisions in the mortgage.

**2. Non-cumulative Four Per Cent Preferred Stock, \$17,000,000.**

Which will entitle the holders to non-cumulative dividends up to *four per cent* per annum, payable out of net earnings before any dividends shall be paid on the Common Stock.

**3. Common Stock, \$13,000,000.**

Provision is to be made that no additional mortgage shall be put upon the property of the new company, nor the amount of the Preferred Stock authorized under this plan be increased, except with the consent, in each instance, of the holders of two-thirds of the whole amount of Preferred Stock, given in writing or at a meeting of the stockholders called for that purpose, and with the consent given in writing of the holders of two-thirds of the Common Stock or given at a meeting, by two-thirds of such part of the Common Stock as shall be represented at such meeting. The holders of each class of stock shall vote separately.

The new company may reserve the right to redeem at any time its Preferred Stock at par in cash.

The Preferred Stock shall be preferred both as to dividends and in liquidation.

#### Distribution of New Securities.

##### 1. First Mortgage 50-Year 4% Gold Bonds.

To holders of U. S. Trust Co. Certificates for Chicago & Northern Pacific First Mortgage Bonds, \$28,855,000 less \$2,500,000 bonds returned under settlement between the Reorganization Managers of the Northern Pacific and the Chicago & Northern Pacific Bondholders' Committee, \$26,355,000.....	40%	\$10,542,000
For acquisition of \$6,000,000 Chicago & Calumet Terminal Railway Company bonds, and \$5,000,000 Chicago & Calumet Terminal Railway Co. stock, the equivalent of \$5,000,000 Chicago & Northern Pacific Trust Receipts (under settlement between the Reorganization Managers of the Northern Pacific and the Chicago & Northern Pacific Bondholders' Committee) \$5,000,000.....	40%	2,000,000
For cash requirements.....		200,000
<b>Total to be issued on reorganization.....</b>		<b>\$12,742,000</b>
Reserve for uses of the new company.....		258,000
Reserve to extent necessary for retiring, \$1,044,000 5% underlying mortgages.....		1,305,000
Balance for future requirements under strictly guarded provisions in mortgage.....		2,195,000
		<b>\$16,500,000</b>

##### 2. Non-cumulative 4% Preferred Stock.

To holders of U. S. Trust Co. Certificates for Chicago & Northern Pacific First Mortgage Bonds, \$26,355,000.....	50%	\$13,177,500
For delivery with First Mortgage Bonds as above for acquisition of Calumet securities.....		2,500,000
For cash and other requirements.....		972,500
Reserve for uses of the new company.....		350,000
		<b>\$17,000,000</b>

##### 3. Common Stock.

To holders of U. S. Trust Co. Certificates for Chicago & North Pac. First Mort. Bonds, \$26,355,000.....	40%	\$10,542,000
For delivery with First Mortgage Bonds as above for acquisition of Calumet securities.....		2,000,000
For cash and other requirements.....		458,000
		<b>\$13,000,000</b>

#### SUMMARY.

Under this plan every holder of \$1,000 of United States Trust Co. certificates for Chicago & Northern Pacific Bonds will receive for principal and overdue interest—  
**\$400 in New First Mortgage 50 Year 4% Gold Bonds.**  
**\$500 in Non-cumulative 4% Preferred Stock.**  
**\$400 in Common Stock.**

In order that the parties hereto may secure the benefits of any arrangement for the future joint operation of railway properties in and about Chicago, all securities deliverable under this plan and constituting the purchase price of the properties to be conveyed by the Committee to the new company, and also the purchase price of the Calumet property, will remain in the custody of the Committee, who shall deposit the same with the United States Trust Company for the uses and purposes which shall be specified in a trust agreement to be executed by and between the Committee, the new company and the United States Trust Company, as depository, and which shall provide that the United States Trust Company shall, upon surrender of each of its certificates now outstanding, deliver in lieu thereof a proprietary certificate for the amount of bonds and stock of the new company specified in the above summary, and for equal amounts of securities of the new company issued to others than holders of United States Trust Company certificates now outstanding the United States Trust Company shall deliver additional similar proprietary certificates, to wit, 5,000 proprietary certificates on surrender of all the Calumet securities, and 910 proprietary certificates on surrender of the securities reserved for cash requirements, as stated on page 10 [pamphlet] hereof. The trust agreement shall also provide that the securities of the new company deposited thereunder shall be deliverable to the owners of the proprietary certificates on Dec. 31st, 1897, or as soon thereafter as practicable, unless otherwise ordered, in accordance with the provisions of the Trust Agreement, which shall, among other things, provide:

I. That, upon written authority of seventy per cent in interest of the owners of all said proprietary certificates, the Trust Company shall exchange all the bonds and stock of the new company held for the owners of such proprietary certificates for such other securities as shall be specified in kind and amount in the written authority above mentioned, and upon receipt of such specified securities the Trust Company shall divide the same *pro rata* among the owners of the proprietary certificates.

II. That the assent to such exchange by seventy per cent in interest of the owners of the proprietary certificates shall bind every certificate holder to the same extent and purpose as though he had himself assented in writing to such exchange.

III. That no right to exchange the securities of the new company for other securities under the authority provided in the said Trust Agreement shall exist after December 31, 1897, unless prior to that date either a contract authorized by 70 per cent in interest of the owners of proprietary certificates, shall have been entered into by the United States Trust Company for such exchange or unless an extension (which shall not be beyond six months) for the making of such contract shall have been assented to by such 70 per cent.

The Chicago & Northern Pacific Bondholders' Committee shall have power to make any alteration in the details of this plan necessary to carry out the general features embodied therein.

#### Fixed Charges After Reorganization.

Interest on underlying mortgages..... \$52,200  
Interest on \$12,742,000 First Mortgage Bonds, at 4 percent... 509,680

Total fixed charges.....\$561,880

The net earnings (after deducting taxes) of the combined properties applicable to the interest charges of the new company are estimated for the year commencing July 1, 1897, at over.....\$620,000

The total fixed charges of the old companies amounted to ..\$1,791,950

(For itemized statement see p. 2 of pamphlet.)

#### Cash Requirements.

Balance due on Sturgis tract .....\$206,500  
Requirement for second track on Calumet Road, as per contract with Hammond Co. .... 120,000  
For expenses of reorganization, including settlement of claims, incorporation of new company, issue of new securities, counsel fees and disbursements of the committee..... 287,000

\$613,500

The above cash requirements will be provided for by the income of the property until July 1, 1897, and by the sale of \$910,000 proprietary certificates, representing the following securities:

\$290,000 C. & N. P. Certificates received by committee from Northern Pacific Railway Co. in settlement of claims against receivers of Northern Pacific RR. Co.  
\$120,000 non-assessing Chicago & Northern Pacific bonds.  
\$200,000 New First Mortgage Bonds.  
\$250,000 New Preferred Stock.  
\$200,000 New Common Stock.

It is estimated that upon completion of the reorganization the new company will have in its treasury the following assets:

\$250,000 New First Mortgage Bonds,  
\$250,000 New Preferred Stock, and about  
\$100,000 cash, with additional quick net assets approximately valued at \$175,000.

## ERIE TELEGRAPH & TELEPHONE CO.

### FOURTEENTH ANNUAL REPORT—FOR THE YEAR ENDING DECEMBER 31, 1896.

The principal assets of the Erie Telegraph & Telephone Company consist of an ownership of stock in the following Telephone Companies:

Sixty-five per cent of the capital stock of the Cleveland Telephone Company. Capital issued, \$1,700,000. Territory, Cuyahoga County in Ohio, which includes Cleveland.

Seventy per cent of the capital stock of the Northwestern Telephone Exchange Company. Capital issued, \$2,000,000. Territory, the States of North Dakota, South Dakota, excepting the Black Hills District, and Minnesota, excepting the City of Duluth. (For list of cities see below.)

Seventy per cent of the capital stock of the Southwestern Telegraph & Telephone Company. Capital issued, \$3,000,000. Territory, the States of Arkansas and Texas. (For list of cities see below.)

#### To the Stockholders:

Your Directors respectfully submit the Fourteenth Annual Report of the Corporation, showing the operations of this company and of the three telephone companies (in which this company owns a controlling interest), for the year ending December 31, 1896, together with a statement of assets and liabilities.

2,558	The Southwest. Tel. & Tel. Co.,	6,759	8,233
5,991	Total.....	16,174	21,389

Net increase for 1896, 2,798.

Total number of metallic circuit subscribers included in the above, 2,061.

1893.	Total Number of Exchanges.	1894.	1895.	1896.
3	The Cleveland Telephone Co.,	3	4	4
13	The Northwest. Telep. Ex. Co.,	15	15	16
38	The Southwest. Tel. & Tel. Co.,	39	44	45
54	Total.....	56	63	65

The Erie Telegraph & Telephone Company was organized in June, 1883, and originally owned the telephone properties now operated by the Cleveland Telephone Company, the Northwestern Telephone Exchange Company, and the Southwestern Telegraph & Telephone Company. In 1887 an arrangement was entered into with the American Bell Telephone Company whereby perpetual contracts were issued covering the three sections mentioned, and the properties were conveyed by bills of sale to the corporations now owning them, this company retaining a controlling interest, heretofore mentioned, in each company. The growth of the business since 1883 has been marvelous, and the year 1896, notwithstanding the general unsatisfactory condition of the business of the country, shows a greater increase, comparatively, than any previous year.

The expenditure upon the plant and equipment during the year has been

For new construction.....	\$828,317 65
For maintenance.....	194,823 78
For real estate.....	206,273 07
Total.....	\$1,234,414 50

The number of subscribers has increased from 5,991 in 1883 to 21,389 in 1896, a net gain of 15,398.

Income and expenditures since 1883 have been as follows :

Gross income.....	\$10,745,911 59
Gross expenses.....	6,927,918 04
Net earnings.....	\$3,817,993 55
Included in the item "Gross Expenses" is the sum of..	\$1,832,989 71
Expended in improving the plant, to which must be added the cost of all classes of extensions, and the cost of real estate.....	3,006,470 25

Grand total cash disbursement upon the plant since 1883 (exclusive of the cost of the original properties and rights)..... \$4,839,459 96

The Erie Telegraph & Telephone Company has paid 53 dividends since the organization of the Company, including the dividend declared by the Directors January 29th, 1897, from the earnings for the quarter ending Dec. 31st, 1896.

## REAL ESTATE.

For an exchange of about 700 subscribers, where an underground system is necessary, it is advisable that a permanent location be secured for the "Central Office." The company now owns land and buildings in the following cities :

	Value.
Austin, Texas.....	\$3,500 00
Galveston, Texas.....	55,000 00
Houston, Texas.....	37,000 00
Little Rock, Ark.....	6,500 00
San Antonio, Texas.....	18,000 00
Cleveland, Ohio (Main).....	250,000 00
Cleveland, Ohio (Branch).....	20,000 00
St. Paul, Minn. (purchased Jan. 1, 1897).....	50,000 00

Total.....\$440,000 00

There is now being constructed for our use at Minneapolis a building, which we have the option of purchasing, that will cost, with the land, a sum not exceeding \$125,000. We also have under consideration a permanent location at Dallas and Fort Worth, in Texas, although at present we are well situated, under satisfactory leases.

It is the policy of the management to purchase land and erect buildings only of sufficient size and practically for our own use, as far as possible, so as to avoid the trouble of renting offices.

## UNDERGROUND.

The Sub-Companies commenced burying their wires in 1888, and now have 11,808 miles of wire working underground, in the following cities :

Houston, Texas. (Conduit laid ready for wires.)	
San Antonio, Texas.....	550 miles.
St. Paul, Minn.....	1,690 "
Minneapolis, Minn.....	2,173 "
Cleveland, Ohio.....	7,395 "

Total.....11,808 miles

## TOLL LINES.

A decidedly valuable auxiliary to the exchange telephone service is the toll line department, and we have spared no effort to extend this branch of the business to every city and town in our vast territory, wherever the lines can be operated profitably. With the exception of about seventeen hundred miles of iron wire to small branch stations, our entire system of eleven thousand five hundred and twelve miles is composed of heavy copper metallic circuits, and we are prepared to give an excellent long distance service throughout our territory. The time is not far distant when we expect that the American Telephone & Telegraph Company (the Long Distance Company) will build to points in our territory, thereby connecting our extensive system with the great long distance service of the United States.

Most of the toll line construction has been done during the years 1895 and 1896, under the direction of our efficient Superintendent of Construction, Mr. P. G. Reynolds. The lines in most cases have been constructed outside of the railroad right of way and parallel thereto on land purchased by the company, and are built in a most able and thorough manner.

In the Northwest we are operating 5,054 miles of Toll wire, as follows:

Cir- cuits.	From	To	Pole Miles.	Copper Wire Miles.	Iron Wire Miles.
1	Grand Forks	Park River,	54	108	....
1	Grand Forks	Larimore,	28	....	56

1	Winona	Tremleau,	28	....	28

\*Includes two wires, one circuit, No. 8 copper wire, Minneapolis to Fargo. This wire is of sufficient size to enable Park River, N. D., to talk with Bar Harbor, Maine, when the connection is made between Milwaukee and Minneapolis. The distance from Milwaukee to Minneapolis is 310 miles, and from Park River, in North Dakota, to Bar Harbor, Maine, is about 2,118 miles. Longest circuit operated by this Company is from Park River in N. D. to Parker in S. D., via Minneapolis, which is 700 miles.

In the Southwest we are operating 6,458 miles of toll wire, as follows:

Circuit.	From	To	Pole Miles.	Copper Wire Miles.	Iron Wire Miles.

11	Total in Arkansas,		340	384	295
74	Total Southwestern Tel. & Tel. Co.,		2,102	5,418	1,040

The longest circuit operated by this Company is from Clarksville, Texas, to Galveston, Texas, 600 miles. The construction of 165 miles of line between Memphis, Tenn., and Pine Bluff, Arkansas, and 163 miles from Malvern, Ark., to Clarksville, Texas, would connect all of Arkansas and Texas with the general long distance system of the United States. The longest telephone circuit in the world would be Bar Harbor, Maine, to Galveston, Texas, 2,738 miles.

#### TOLL LINE SUMMARY.

Circuit.	Pole Miles.	Copper Wire Miles.	Iron Wire Miles.
60 Northwestern Telephone Exch. Co.,	1,452	4,398	656
74 Southwestern Tel. & Tel. Co.,	2,102	5,418	1,040
134 Total	3,554	9,816	1,696
Miles iron wire.		1,696	---

Total miles wire, 11,512  
Grand total number of miles of wire in operation December 31, 1896, 42,032  
as follows:

	Underground.	Aerial.	Toll.	Total.
The Cleveland Telephone Co.,	7,395	6,548	195	14,138
The Northwestern Telephone Ex. Co.,	3,863	5,573	5,054	14,490
The Southwestern Tel. & Tel. Co.,	550	6,356	6,458	13,364
Total	11,808	18,517	11,707	42,032

#### EXTENSIONS.

To establish ample facilities in the Northwestern and Southwestern sections for the large and increasing toll business, and to reach important points demanding service, it will be necessary to build within the next eighteen months 842 miles of pole line and 3,982 miles of wire. We estimate that the total expenditure for extensions of the plant and real estate for the year 1897 will be as follows:

For New Construction,	\$500,000 00
For Real Estate	200,000 00
Total	\$700,000 00

#### FINDS.

To provide funds for the future growth of the business, the capital stock of the Cleveland, the Northwestern and the Southwestern companies is increased from time to time as the work progresses, the American Bell Telephone Company

taking and paying for their pro rata of the increase, at par, with this Company. For this purpose, to December 31st, 1896, the number of shares sold in each Company has been as follows:

	Shares.	Par Value.
The Cleveland Telephone Company	9,000	\$900,000 00
The Northwestern Telephone Exchange Co.,	21,429	1,071,450 00
The Southwestern Telegraph & Telephone Co.,	10,000	1,000,000 00
Total	40,429	\$2,971,450 00

To enable the Erie Telegraph & Telephone Company to take its proportion of new stock issued to date and that that may be issued in the future, you have authorized an issue of four million five per cent bonds, payable in 1926. All of the bonds have been sold, to be delivered as the Company may require funds. One million of this issue has already been delivered, making the total outstanding indebtedness \$2,243,000 00.

THE SUB-COMPANIES HAVE NO OUTSTANDING INDEBTEDNESS.

I can conservatively say that the affairs of the various corporations are in good hands throughout, that we may look forward for continued prosperity in every section of the territory.

For the Directors,  
LOWELL, MASS., U. S. A., LEVI SPRAGUE,  
January 29, 1897. President.

**Oregon Improvement.—Reorganization Matters.**—The apparently conflicting statements made by the two reorganization committees in their advertisements have puzzled some persons and deserves explanation. The Waterbury committee says: "Pursuant to an understanding with the committee representing outstanding minority interests", the time for deposits without penalty under the Waterbury agreement has been extended to and including May 11. The Amy committee, on the other hand, says: "No agreement whatever has been made by this committee, representing the security holders, with the committee of which Mr. Waterbury is chairman, and all statements to that effect are wholly unwarranted by the facts."

The explanation is this: The Waterbury committee, it is stated, gave the Amy committee to understand at the beginning of negotiations looking to a settlement of their differences that the negotiations would be continued only for "a reasonable time", and that then if no agreement were reached the Waterbury committee would proceed to foreclose and carry out its plan, but that before doing so it would allow the minority interests a limited period within which to subscribe to the plan. Such opportunity is now offered. This is the extent of "the understanding", but the use of these words gave rise to the idea that a compromise had been reached and so called forth from the Amy committee its emphatic denial of the existence of any agreement. Mr. Rolston's sudden and severe illness made it necessary for him to withdraw from the committee with which his name has been identified, leaving as members of that committee Henry Amy and Henry K. McHarg, acting with Michael H. Cardozo as counsel. The many friends of Mr. Rolston will be glad to hear that his condition, which at first was most alarming, is improving, and that it is hoped he will soon be able to return to business.

**Right to Withdraw Securities, Etc.**—A circular issued by the Amy (formerly Rolston) Committee says in substance:

In January last Mr. Waterbury submitted to Mr. Rolston certain alterations, which, if satisfactory, he stated he would recommend to his committee for adoption. Our Chairman thereupon commenced a correspondence with the receiver to ascertain the precise money requirements of the company, and down to the time that we have taken all the correspondence was continued. We have since undertaken to induce Mr. Waterbury to renew the proposition made by him to our Chairman, but he has declined to do so.

This committee is and always has been opposed to the plan of the Waterbury Committee and recommends all security holders to leave their securities on deposit with this committee at the Farmers' Loan & Trust Company, and this committee will do its utmost to preserve their rights, and has already taken proper steps to intervene and answer in the now pending foreclosure suits. If, however, any bondholder is desirous of withdrawing his bonds, he may do so on or before May 1, 1897, upon payment of \$5 for each bond so withdrawn; any stockholder may do likewise upon payment of 50 cents per share.

Holders of certificates of the Manhattan Trust Company have a right under the terms of their deposit to withdraw such certificates for the purpose of paying the assessments called for on May 11th at any time without charge.—V. 64, p. 800.

**Union Pacific RR.—Penalty on Deposits of Collateral Trusts of 1879 after May 20.**—The holders of a majority of the collateral trust 6s of 1879 having deposited their bonds under the agreement dated March 25th, 1897, holders who desire to deposit their bonds are notified to make such deposit with the Union Trust Co. of New York, on or before May 20th, 1897. Deposits after that date, if received at all, will be subject to such terms as may be prescribed.—(V. 64, p. 713.)

**Penalty on Deposits of Collateral 5s of 1883 after May 15.**—The holders of a large majority of the collateral trust 5s of 1883, having deposited or agreed to deposit their bonds under the agreement dated March 25th, 1897, holders who wish to deposit their bonds are notified to make such deposit with the State Trust Co., New York, on or before May 15th, 1897. Deposits after that date, if received at all, will be subject to such terms as the Bangs committee may prescribe.—(V. 61, p. 665.)

**Collateral Trust Gold Notes. 6s, Nearly all Deposited.**—Holders of about 95 per cent of the collateral trust gold notes, 6s, have deposited the same with J. P. Morgan & Co. under agreement of February 15, 1897. The last day for depositing was April 30th. The notes have been stricken from the Stock Exchange list.—(V. 64, p. 567, 758)—V. 64, p. 844.

**Western N. Y. & Pennsylvania Ry.—Quarterly.—Earnings** for the quarter and the nine months ending March 31 have been reported as follows. Charges in 1896-97 include interest (amounting to \$150,000 for the nine months) on the new general mortgage bonds; in 1895-96 this interest was provided for under the reorganization plan.

3 mos. end.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, &c.	Balance, sur or def.
Mar. 31—					
1897.....	\$614,196	\$111,524	\$41,485	\$205,132	dr. \$52,223
1896.....	628,913	141,778	66,333	177,905	cr. 30,206
9 mos.—					
1896-7.....	\$2,285,332	\$743,724	\$55,651	\$616,386	cr. \$183,009
1895-6.....	2,449,423	664,613	73,441	494,732	cr. 243,322

Loans and bills payable March 31, 1897, were only \$9,000, against \$62,720 on June 30, 1896.—V. 64, p. 333.

**Wisconsin Central Co.—Milwaukee & Lake Winnebago RR.—Chicago Wisconsin & Minnesota RR.—Suspension of Leases.—Coupon Payments.**—An agreement has been reached under which the receivers will operate the constituent lines of the system on their own bases, each of the various corporations to receive the net earnings of its own property after deducting its proportion of all terminal, equipment and other expenses.

The **Central Car Co.** also, whose stock, as stated last week, (page 844), forms the chief part of the collateral back of the **Wisconsin Central joint improvement bonds**, has agreed in like manner temporarily to accept rental upon the present actual cash value of its equipment. The rental paid to the car company for the year 1895-96 amounted to \$260,346, about seven-eighths of which sum, it is understood, accrued to the account of the improvement bonds. Mr. Edwin H. Abbot, Voting Trustee of the Wisconsin Central, in reply to our inquiry as to what effect the change in the payment of rental is likely to have upon payment of coupons on the improvement bonds, says:

"The new arrangement is terminable on ten days' notice, but if continued six months may possibly reduce cash payment about half, with scrip for balance, but reorganization should be accomplished before November, and include complete retirement of all equipment leases and absorption of these bonds."

These alterations in the method of operation are made in order to ascertain the relative earning capacity of the different parts of the system, preparatory to formulating a reorganization plan which shall be fair to all interests, the intention being to merge the separate companies into a single corporation.

The increase in freight earnings amounting to 11 per cent during the month of March is accounted for by the opening on F. b. 19 of the ferry connecting with the Flint & Pere Marquette RR. across Lake Michigan, by which a new route is obtained to ride water without breaking bulk. The reduction in distance by this route as compared with the shortest line previously existing between St. Paul and Buffalo is estimated by those interested at 115 miles out of 947, or on fast freight a saving in distance of about 12 per cent, and in time of two to three days. See particulars in V. 62, p. 633, and subsequent issues.—V. 64, p. 844.

**Wyoming & Northwestern.—Mortgage Filed.**—The company has made a mortgage to the Chicago Title & Trust Co. and H. W. Leman, as trustees, to secure \$1,500,000 bonds, which it is proposed to issue in order to build the road from Casper, Natrona County, the present western terminus of the Fremont Elkhorn & Missouri Valley, west about sixty miles to the western border of Natrona County.

—The firm of N. W. Harris & Co., who have made municipal bonds a special study for fifteen years past, have grown with that branch of the investment business, and until they at length have been compelled to transfer their offices from 15 Wall Street to the new building at 31 Nassau Street, to obtain the accommodations necessary for the handling of the immense amount of detail incident to a large and growing business. As stated in a booklet just issued by them, "their policy has been to recommend to investors only those securities which they are willing to buy outright with their own funds and hold". Messrs. Harris & Co. make a feature of furnishing quotations and valuations of municipal bonds to institutions, banks, trustees and representatives of estates at any time on request, and have an accumulation of carefully indexed files gathered during its business career which enable them to furnish investors gratis with valuable information about municipalities not otherwise accessible. Government bonds and street railway issues are largely dealt in, as are also first mortgages, water works and gas bonds. Our readers, more especially investors residing abroad, should write this firm for the booklet quoted above, and any matter referred to them, relating to investments in either of their departments, will be carefully considered.

—C. H. White & Co., bankers, are now occupying their new offices in the National Bank of Commerce Building, 31 Nassau Street.

—A list of investment bonds and guaranteed stocks are offered for sale in an advertisement on page VIII. by Messrs. Redmond, Kerr & Co.

—The Central National Bank, Mr. Edwin Langdon, President, is now located in the building recently erected upon the old site, corner of Broadway and Pearl Street.

—Messrs. Reed & Flagg advertise a list of bonds in this issue, to which attention is directed.

## The Commercial Times.

### COMMERCIAL EPITOME.

FRIDAY NIGHT, May 7, 1897.

The tariff bill as reported from the Senate Finance Committee to the Senate on Tuesday has been more favorably received than was the bill as passed by the House of Representatives. The advance in the duties on carpet wools and the reduction in the duties on other wools has caused dissatisfaction, and the proposed duty to be placed on hides, it is claimed, will be detrimental to the interests of the leather and boot and shoe trades. In the meantime business in general continues in a more or less unsettled condition, awaiting the final outcome of the tariff legislation. The striking out of the retroactive amendment has resulted in increased activity among importers for early shipment from abroad. There has been severe fighting between the Turkish and Greek forces, but at the close it is reported that the Powers have practically concluded to intervene. There have been further limited engagements of gold for export, but thus far no anxiety has been felt over the movement. The Governor has affixed his signature to the Greater New York charter, thus making it a law becoming operative January 1, 1898.

Following is a statement of stocks of merchandise:

	May 1, 1897.	Apr. 1, 1897.	May 1, 1896.

Wool.....bbls. and sacks.	104,300	120,300	154,600

Lard on the spot has continued to meet with a slow sale, as both shippers and refiners have been indifferent buyers. Offerings have been moderate and the close was easy at 4.25c. for prime Western, 3.85c. for prime City and 4.55c. for refined for the Continent. No business has been transacted in the local market for contracts and at the West the trading has been quiet. Prices have declined under increased offerings and the close was easy.

#### DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thur.	Fri.
May.....c.	4.35	4.35	4.30	4.25	4.37	4.27

Demand for pork has been limited to a few peddling orders but prices have held steady, closing at 9@9.50c. for mess. Tallow has continued in active demand and large sales have been made at 31½c., closing steady. Oleo-stearine has been quiet and the close was easy at 4¼c. Butter, cheese and eggs have been steady.

Coffee of Brazil growth has been in moderate demand and a slight further advance has been made in prices, closing steady at 8c. for Rio No. 7. Mild grades have also had a moderate sale at steady values, closing at 14c. for good Cuouta and 25c. for standard Java. The speculation in the market for contracts has been quiet, and the changes in prices have been unimportant, closing dull and easier.

The following were the final asking prices:

May.....	7.45c.	Aug.....	7.50c.	Nov.....	7.60c.
June.....	7.45c.	Sept.....	7.55c.	Dec.....	7.65c.
July.....	7.45c.	Oct.....	7.60c.	Jan.....	7.70c.

Raw sugars have been in more active demand and prices have advanced, closing firm at 3-16c. for centrifugals, 96-degrees test, and 2-13-16c. for muscovado, 89-degrees test. Refined sugars were active early in the week; later prices were advanced 1-16c., and the close was quiet at 4-9-16c. for granulated. Owing to the proposed duty of 10c per pound on tea there has been a firmer market, and prices have advanced about 2½c. per pound, with a fair volume of business.

Kentucky tobacco has been quiet but steady. Seed leaf tobacco has had only a limited sale, but values have been firm. The sales for the week were 1,175 cases.

The market for Straits tin has been quiet but the close was steady at 13-25@13-35c. Large sales have been made recently of ingot copper at 11c. for Lake and the close was quoted steady at 10¾@11c. Lead has advanced and the close was firm at 33-4@3-35c. for domestic. Spelter has been quiet but steady at 4-10@4-15c. for domestic. Pig iron has had a limited sale, with values easy, closing at \$9 25@12 00 for domestic.

Refined petroleum has been advanced closing at 6-25c. in bbls., 3-75c. in bulk and 6-70c. in cases; naphtha dull at 6c. Crude certificates have been neglected. Credit balances have been advanced to 86c. Spirits turpentine has declined but the close was firm at 29c. Rosins have been quiet but steady at \$1 65 for common and good strained. Wool has been in increased speculative demand at firm prices. Hops have been dull and weak.

## COTTON.

FRIDAY NIGHT, May 7, 1897.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 42,333 bales, against 31,583 bales last week and 47,200 bales the previous week, making the total receipts since the 1st of Sept., 1896, 6,330,729 bales, against 5,052,782 bales for the same period of 1895-6, showing an increase since Sept. 1, 1896, of 1,277,947 bales.

Receipts at—	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.	Total.

Total 1895....	40,085	12,248	38,324	9,354	100,021

Speculation in cotton for future delivery has been less active and prices have tended downward, losing part of last week's advance. English advices have reported a subsidence of the demand for spot cotton, and this has prompted liquidation by longs under which values have weakened. Saturday prices eased off a trifle as foreign advices were somewhat disappointing, and the CHRONICLE's report of favorable conditions at the South for planting induced selling. Monday the market was lower. Foreign advices were weaker and brought selling orders. The South also sold, and this prompted selling by longs to realize profits. The close was barely steady at a decline of 7 to 13 points for the day. A further shrinkage in values occurred on Tuesday. Foreign advices were again weaker. The movement of the crop was larger, and as the demand for spot cotton was reported as falling off, there was an increased pressure to sell under which prices receded 4 to 7 points. Wednesday the market turned slightly stronger. Foreign advices were firmer and this stimulated something of a demand from shorts to cover contracts, on which prices advanced. Towards the close, however, there was selling to realize profits and part of the improvement was lost, closing at a net advance of 2 to 5 points for the day. The market on Thursday was dull and the changes in values were unimportant, closing with prices unchanged to 1 point lower as compared with the final quotations of the previous day. To-day the market opened unchanged to 1 point lower, and then further declined 3 to 4 points in response to easier foreign advices. Later in the day, however, it was reported that a large export business had been transacted in the spot market and the exporters were in the market as buyers; this stimulated a demand from shorts to cover contracts and values advanced sharply, closing firm with prices 5 to 7 points up for the day.

Cotton on the spot has had only a limited sale and on Tuesday prices were lowered 1/8c. To-day there was a good business reported for export and prices were advanced 1-16c., closing at 7 11-16c. for middling upland.

The total sales for forward delivery for the week are 492,701 bales. For immediate delivery the total sales foot up this week 17,815 bales, including 7,569 for export, 2,456 for consumption, — for speculation and 7,800 on contract. The following are the official quotations for each day of the past week—May 1 to May 7.

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon.	Tues.	Wed.	Th.	Fri.
Good Ordinary.....	6 3/4	6 3/4	6 3/4	6 3/4	6 3/4	6 11/16

The imports into Continental ports the past week have been 81,000 bales.

The above figures indicate a decrease in the cotton in sight to-night of 133,331 bales as compared with the same date of 1896, a falling off of 1,209,747 bales from the corresponding date of 1895 and a decrease of 361,305 bales from 1894.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1895-96—is set out in detail below.

TOWNS.	This week.	Movement to May 7, 1897.		This week.	Movement to May 8, 1896.	
		Receipts.	Shipments.		Receipts.	Shipments.

.....	.....	.....	.....	.....	45,881	209,770

\* This year's figures estimated.

The above totals show that the interior stocks have decreased during the week 27,519 bales and are now 65,369 bales less than at same period last year. The receipts at all the towns have been 2,206 bales less than same week last year and since Sept. 1 they are 827,986 bales more than for same time in 1895-6.

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below are closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

CLOSING QUOTATIONS FOR MIDDLING COTTON ON—						
Week ending May 7.	Satur.	Mon.	Tues.	Wednes.	Thurs.	Fri.
Galveston	7½	7½	7½	7½	7½	7½
New Orleans	7½	7½	7½	7½	7½	7½
Mobile	7½	7½	7½	7½	7½	7½

Cincinnati	7½	7½	7½	7½	7½	7½
Louisville	7½	7½	7½	7½	7½	7½

The closing quotations to-day (Friday) at other important Southern markets were as follows.

Atlanta	7½	Euftala	7½	Natchez	7½
Charlotte	7½	Little Rock	6½	Raleigh	7½
Columbus, Ga.	7½	Montgomery	7½	Selma	7½
Columbus, Miss.	7	Nashville	7½	Shreveport	7

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week ending—	Receipts at the Ports.			St'k at Interior Towns.			Rec'pts from Plant'ns.		
	1897.	1896.	1895.	1897.	1896.	1895.	1897.	1896.	1895.
Apr. 3.....	61,257	60,202	116,767	259,060	203,942	275,016	36,693	37,600	68,751
" 9.....	46,639	57,967	93,523	232,170	240,927	317,849	19,759	14,912	65,456
" 16.....	48,795	40,078	80,617	204,020	263,609	212,778	20,645	22,758	45,541
" 23.....	47,390	51,006	69,905	184,447	247,104	186,611	25,047	34,161	44,833
" 30.....	34,595	39,828	56,937	171,920	233,041	165,976	21,661	25,768	36,374
May 7..	42,333	37,331	41,900	114,601	209,770	148,535	11,814	11,657	24,475

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1896, are 6,554,536 bales; in 1895-96 were 5,229,852 bales; in 1894-95 were 7,778,451 bales.

2.—That although the receipts at the outports the past week were 42,333 bales, the actual movement from plantations was only 14,814 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantation for the week were 14,657 bales and for 1895 they were 24,475 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending May 7, and since Sept. 1 in the last two years are as follows.

May 7.	1896-97.		1895-96.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Shipped—				
Via St. Louis	5,012	501,267	8,761	507,825
Via Cairo	1,933	258,491	2,245	228,671
Via Parker	1,078	17,464	260	17,169
Via Evansville	.....	2,584	.....	1,681
Via Louisville	602	131,464	1,092	124,839
Via Cincinnati	966	133,108	2,584	94,467
Via other routes, &c.	406	114,208	1,291	88,328
Total gross overland	9,997	1,158,586	16,233	1,062,980
Deduct shipments—				
Overland to N. Y., Boston, &c.	2,335	300,809	3,198	257,700
Between interior towns	12	4,209	15	3,359
Inland, &c., from South	850	37,462	1,217	46,470
Total to be deducted	3,197	342,480	4,430	307,529
Leaving total net overland*	6,800	816,106	11,803	755,451

\* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 6,800 bales, against 11,803 bales for the week in 1896, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 60,665 bales.

In Sight and Spinners' Takings.	1896-97.		1895-96.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Receipts at ports to May 7	42,333	6,530,729	37,331	5,052,782
Net overland to May 7	6,800	816,106	11,803	755,451
Southern consumption to May 7	17,000	706,000	17,000	685,000
Total marketed	66,133	8,052,835	66,134	6,493,233
Interior stocks in excess	27,519	23,807	23,274	177,070
Came into sight during week	38,614	.....	42,460	.....
Total in sight May 7	.....	8,076,642	.....	6,670,303
North's spinners tak'g to May 7	18,915	1,533,372	21,800	1,455,785

\* Decrease during week.

It will be seen by the above that there has come into sight during the week 38,614 bales, against 42,460 bales for the same week of 1896, and that the increase in amount in sight to-night as compared with last year is 1,166,339 bales.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices from the South this evening indicate that the weather has been favorable as a rule and that planting has made good progress where not already completed. Rain has fallen in many localities, but the precipitation has been light at most points and in some districts moisture is needed. There are a few complaints that cool weather at night is checking growth. In Texas the plant is doing well generally. The Mississippi River is falling slowly in the vicinity of Memphis and planting is being carried on as fast as the water recedes.

Galveston, Texas.—The weather during the week has been very favorable for farm work. Showers which fell over North and Central Texas yesterday and last night were very much needed and were very beneficial to cotton, but the crop needs more rain over South Texas. The plant is generally doing well and there is a fair stand in most sections. Planting is not yet completed over North Texas. The warm weather now prevailing is very beneficial to the growth of the crop. There has been but a trace of rain here. The thermometer has averaged 68, the highest being 78 and the lowest 59. April rainfall one inch and twenty-four hundredths.

Palestine, Texas.—We have had rain on two days of the week, the rainfall reaching ninety-eight hundredths of an inch. The thermometer has averaged 68, ranging from 48 to 88. April rainfall two inches and one hundredth.

Huntsville, Texas.—There has been rain on one day during the week to the extent of ten hundredths of an inch. The thermometer has ranged from 50 to 87, averaging 68. April rainfall one inch and seventy-three hundredths.

Dallas, Texas.—We have had rain on two days of the week, the rainfall reaching sixty-five hundredths of an inch. Average thermometer 66, highest 86, lowest 46. April rainfall two inches and fifty-eight hundredths.

San Antonio, Texas.—We have had rain on two days during the week, the precipitation being four hundredths of an inch. The thermometer has averaged 71, the highest being 86 and the lowest 56. April rainfall one inch and eighty-four hundredths.

Luling, Texas.—We have had rain on one day of the past week, to the extent of six hundredths of an inch. The thermometer has averaged 70, ranging from 54 to 87. April rainfall five inches and seventy hundredths.

Columbia, Texas.—There has been no rain the past week. The thermometer has ranged from 50 to 84, averaging 67. April rainfall two inches and thirty-three hundredths.

Cuero, Texas.—Rain has fallen on one day of the week, to the extent of five hundredths of an inch. Average thermometer 70, highest 88 and lowest 52. April rainfall two inches and eighty-five hundredths.

Brenham, Texas.—There has been no rain during the week. The thermometer has averaged 70, the highest being 87 and the lowest 53. April rainfall, one inch and ninety-eight hundredths.

Fort Worth, Texas.—It has rained on two days of the week, the precipitation having been seventy hundredths of an inch. The thermometer has ranged from 48 to 85, averaging 66. April rainfall, three inches and thirty-two hundredths.

Weath rford, Texas.—We have had rain on three days during the week, to the extent of ninety-two hundredths of an inch. Average thermometer 66, highest 84, lowest 49. April rainfall, two inches and forty-three hundredths.

New Orleans, Louisiana.—Dry weather has prevailed all the week. The thermometer has averaged 69. April rainfall five inches and seventy-five hundredths.

Shreveport, Louisiana.—There has been only a trace of rain during the week. The thermometer has averaged 69, ranging from 54 to 84. During the month of April the rainfall reached one inch and seventy-one hundredths.

Columbus, Mississippi.—The weather has been too cool and windy. Moisture is badly needed. We have had no rain during the week. The thermometer has ranged from 52 to 86, averaging 67. April rainfall three inches and forty hundredths.

Leland, Mississippi.—Dry weather has prevailed all the week. Average thermometer 62-9, highest 79, lowest 51. April rainfall two inches and eighty-three hundredths.

Vicksburg, Mississippi.—We have had no rain during the week. The thermometer has averaged 66, the highest being 80 and the lowest 54.

Little Rock, Arkansas.—The week's rainfall has been three hundredths of an inch, on one day. The thermometer has averaged 56, ranging from 49 to 81.

Helena, Arkansas.—Some planting has been done in the overflowed district, but the river is falling so slowly that much cannot be planted until too late. On the uplands crops have been injured by cool weather and cut worms, necessitating much replanting. We have had dry weather all the week. The thermometer has ranged from 48 to 74, averaging 59. April rainfall five inches and fifty-five hundredths.

Memphis, Tennessee.—Planting makes good progress. Nights have been rather cool for young cotton. The river is now thirty-eight feet on the gauge and falling. Planting is being carried on as fast as the water recedes. It has rained on one day of the week, the rainfall being seventy-two hundredths of an inch. Average thermometer 61-6, highest 79-9 and lowest 48. April rainfall five inches and fifty-two hundredths.

**Nashville, Tennessee.**—It has rained on one day of the week, the precipitation reaching twenty-nine hundredths of an inch. The thermometer has averaged 58, the highest being 78 and the lowest 40. April rainfall five inches and seventy-nine hundredths.

**Mobile, Alabama.**—Cotton-planting is about completed, except on some lowlands. Cool weather is checking growth, injuring stands and necessitating considerable re-planting. Rain and warm weather are badly needed. There has been rain on two days of the week, to the extent of seventeen hundredths of an inch. The thermometer has averaged 67, ranging from 52 to 83. April rainfall five inches and seventy-three hundredths.

**Montgomery, Alabama.**—Farmers are making good headway but some re-planting has been necessary. Late plantings are coming up well. It rained on one day during the early part of the week, but the latter portion has been fine and warmer. The rainfall reached one inch and thirty hundredths. The thermometer has ranged from 55 to 74, averaging 64. April rainfall six inches and thirty hundredths.

**Madison, Florida.**—The acreage will probably be 5 per cent greater than last year. It has rained on one day of the week, the rainfall reaching thirty hundredths of an inch. The thermometer has averaged 72, the highest being 86 and the lowest 54.

**Savannah, Georgia.**—There has been rain on three days of the week, the rainfall reaching thirty-nine hundredths of an inch. The thermometer has ranged from 51 to 81, averaging 67. April rainfall three inches and thirty-five hundredths.

**Augusta, Georgia.**—We have had rain on two days of the week, the rainfall reaching thirty-four hundredths of an inch. Average thermometer 65, highest 80, lowest 48. April rainfall three inches and seventy-five hundredths.

**Charleston, South Carolina.**—It has rained on four days of the week, the precipitation reaching ninety-two hundredths of an inch. The thermometer has averaged 67, ranging from 53 to 80. During the month of April the rainfall reached one inch and eighty-nine hundredths.

**Stateburg, South Carolina.**—There have been several thunder storms during the week, the precipitation having been two inches and twenty-three hundredths. Weather too cool and windy for cotton. The thermometer has ranged from 47 to 78, averaging 63.3. April rainfall, four inches and eighty-six hundredths.

**Greenville, South Carolina.**—There has been rain on two days during the week, the precipitation reaching seventy-six hundredths of an inch. The thermometer has averaged 62, the highest being 72 and the lowest 52.

**Wilson, North Carolina.**—We have had rain on two days during the week, the precipitation being two inches and twenty-six hundredths. The thermometer has averaged 65, the highest being 86 and the lowest 48.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock May 6, 1897, and May 7, 1896.

	May 6, '97.	May 7, '96.
	Feet.	Feet.
New Orleans.....	Above zero of gauge.	19.3
Memphis.....	Above zero of gauge.	30.3
Nashville.....	Above zero of gauge.	16.4
Shreveport.....	Above zero of gauge.	11.3
Vicksburg.....	Above zero of gauge.	51.5

**MANCHESTER MARKET.**—Our report received by cable to-night from Manchester states that the market is dull for yarns and quiet for shirtings. The market does not respond to the movement in Liverpool. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

**HIGH WATER IN THE MISSISSIPPI.**—There has been a considerable improvement in the flood situation the past week. In the vicinity of New Orleans the crisis has not yet passed but above the river is falling steadily. Where the overflow has already subsided work is being actively pushed in planting cotton.

**STATE AGRICULTURAL REPORTS.**—We give below summaries of the reports for the week ending May 3, issued by the various States, under the auspices of the Weather Bureau of the U. S. Department of Agriculture, so far as they apply to cotton.

**NORTH CAROLINA.**—*Eastern District.*—Crops made slow growth this week on account of the dry weather, but farm work progressed favorably, as grass is not yet troublesome. The drought was broken by fine showers Friday and Saturday, which thoroughly soaked the ground, so that prospects for next week are much better. Cotton is pretty well all planted, except in north portion, and a good stand is now ensured.

*Central District.*—A generally fair week; warm during the day up to Sunday, but too cool at night for growth. Land dry and in bad condition up to Friday. Very beneficial and much-needed rains fell Friday and Saturday. Perhaps the bulk of the cotton crop has been planted and is coming up slowly; a good stand now assured. *Western District.*—A comparatively warm, dry week; too dry to plow up lands, but a great deal of lowlands were planted to corn. Light showers occurred on 25th and the drought was broken by a general and much-needed rain on Friday and Saturday. Farm work progressed favorably. Cotton and corn are still being planted and first planted is coming up nicely.

**SOUTH CAROLINA.**—The warmer weather and rain had a very beneficial effect on growing crops. For the greater portion of the week, however, it was too dry to finish preparing some lands for planting, nevertheless farm work progressed rapidly, and is generally as much advanced as usual at this season, although in some localities the season is considered late. Farmers are generally well up with their work. The percentage of cotton yet to be planted ranges from five to twenty-five, the latter in Chester and York and to the westward. Stands are greatly improved and are generally satisfactory. The late rains will bring up the recently planted to good stands. In the eastern portions of the State cotton has received its first cultivation and some fields have been chopped to a stand. It is estimated that cotton-planting will be finished in about ten days.

**GEORGIA.**—During the early part of the week dry weather prevailed, with abundant sunshine and seasonable temperature. The drought was broken on Thursday by good soaking rains which covered nearly every section of the State. Rain also fell on the following day and night. These rains did much good, giving renewed energy to growing crops and softening up the ground so that it could be plowed. Cotton is about all planted; some is up and being chopped. Reports relative to this crop are favorable as a rule, though in a few localities the stand is rather poor.

**ALABAMA.**—The week ending Monday, May 3, gave conditions generally favorable to farm work over the entire State, and while a general rain on the 29th and 30th was very beneficial, both to growing crops and crusted land, still the growth of all crops has been retarded by continued cool weather. Cotton in all stages, from late planting in northern counties to chopping out in southern and central portions of State; some few reports of good stands, but as a whole cotton is slow and stands injured by cool weather.

**MISSISSIPPI.**—The week ending May 3 was favorable for farm work generally, but the cool nights were detrimental to vegetation. Cotton-planting is nearly completed except in lowlands. Some cotton is up to a good stand and being scraped and chopped. Cotton was killed in places by the cold weather, and some of it has been re-planted. Corn is doing well, and where well cultivated it is tasseling. Worms are injuring cotton, corn and gardens locally. Reports of fruit are variable. Gnats are still annoying stock in some localities. Water receding slowly in the Delta, and prospects somewhat better for raising a crop.

**LOUISIANA.**—Rain fell in all portions of Louisiana during the week ending Monday, May 3, 1897, but the distribution was unequal. The rains were beneficial to vegetation generally, but the effect of the cool weather is shown on the early-planted cotton, making it look sickly, and some dying out, necessitating additional replanting. The cotton is about all planted, and so far is being chopped out. Defective seed doubtless cuts some figure in the stands of cotton reported. The rains will bring up the late-seeded cotton, and with warmer weather a better showing should be made next week. Work on the levees continues all along the river parishes. Reports from Madison, Tensas and Concordia parishes are mislaid, but the situation in these parishes can be surmised. The back water is ruining lowland crops in Catahoula and is encroaching upon the lower lands east of the Teche in St. Landry. The situation continues decidedly critical for the district below the mouth of the Red.

**TEXAS.**—The general showers at the opening of the week were needed for all crops, but the amount of rainfall was not sufficient in many localities, and especially along the coast, where the dry weather still continues. These showers would have been more beneficial had they not been followed by cool nights, that checked the growth of all vegetation. Cotton-planting is generally completed, except over North Texas, where there is much yet to be planted. Early-planted cotton is up and there is a good stand generally, but it is a consensus of opinion among the correspondents that the night has been too cool for the plant and checked its growth considerably. Much cotton has been chopped out and the fields are clean and in fair condition, and, with warmer weather, the plant will soon recover from the effects of the cool nights.

**TEXAS.**—The favorable conditions of sunshine and showers during the early part of the week, followed by a good rain on the 30th, contributed to make the week perhaps the most favorable of the season, and certainly to promote the growth of young crops and facilitate the completion of the spring plantings, many of which had been so long delayed. As a result, most of the corn and cotton crops are in the ground, and the former reported coming up well.

**ARKANSAS.**—*Northeast Section.*—Weather cool and pleasant, and favorable for planting and farm work of all kinds, but too cool for rapid germination of seed and growth of vegetation. The water is receding quite rapidly in the overflowed district, and planting is being pushed as fast as the water recedes. Much cotton and corn planted; in some localities all the cotton crop is reported planted. Cotton and corn coming up very slowly and much damage being done to these crops in localities by cut worms; the cool weather has caused the crops to look yellow and sickly; replanting will be necessary. *Southeast Section.*—Cut worms are doing much damage to cotton and corn in this section; in some places the stand was injured to such an extent that replanting was necessary. The weather has been generally favorable for planting but very trying on the growing crops, so cool as to stop the growth of cotton and corn and give it a tendency to turn yellow. Planting is practically completed and corn is being worked out. *Central Section.*—Weather entirely too cold and crops have made but little growth. Cut worms, bud worms and flea bugs are damaging corn and cotton in localities and are eating up garden truck. Planting of corn and cotton nearly finished except where replanting will be necessary; both crops are coming up very slowly and the plants generally are poor. The water in White River bottoms of Prairie County is leaving very fast and planting has begun in low lands. *Southeast Section.*—Weather very favorable for farm work but too cool and dry for favorable growth of crops. The dry, cool weather has been favorable for depredations of cut worms, which have done great damage to both cotton and corn; in many localities both crops will have to be replanted. Cotton is also suffering from "sore shin."

*Northwest Section.*—Weather cool and detrimental to growing crops, especially cotton. Planting well along toward completion. Cut worms damaging potatoes and corn but apparently have not done corn any harm.

**Missouri.** During the fore part of the week the temperature was considerably above the normal in all sections, but the latter part was unusually cool. In most sections of the State rains have interfered with farm work to a greater or less extent. Cotton-planting is progressing fairly well in the southeastern counties.

**Oklahoma.** The heavy rains have interfered with farm work throughout northern, eastern, central and western sections, and cotton-planting is not yet completed. It is thought, too, that some of the cotton planted will not come up on account of and being too cool and wet. Warm dry weather is needed for cotton. The rainfall throughout the southern section was much less than in other sections; it was, however, above normal and amply sufficient for all needs. Farm work has progressed all right; corn and cotton have been cultivated. All crops have grown well except cotton, which is somewhat backward on account of the continued cool weather.

**JUTE BUTTS, BAGGING, &c.**—There has been a moderate amount of business in jute bagging during the week under review and prices are as last quoted, viz.: 5½¢ for 1½ lbs., 5½¢ for 2 lbs. and 6½¢ for standard grades. Car-load lots of standard brands are quoted at 5½¢ for 1½ lbs., 5½¢ for 2 lbs. and 6½¢ for 2½ lbs. f. o. b. at New York. Jute butts have been in fair demand at 15¢ for paper quality, 13¢ for mixing and 1½¢ for bagging, all to arrive.

**From Messrs. Ira A. Kip & Co.'s circular we ascertain that the deliveries of jute butts and rejections at New York and Boston during April were 59,787 bales, against 65,036 bales for the same month last year and for the four months since January 1 the deliveries have been 142,177 bales, against 217,255 bales last year. Importers and speculators at New York and Boston on April 3 held no stock, against 3,600 bales at the corresponding date in 1896; and the amount stored for the United States reaches 155,630 bales, against 69,312 bales last year.**

**EXCHANGES.**—The following exchanges have been made during the week:

01 pd. to exch. 200 Nov. for Oct.	01 pd. to exch. 400 Aug. for July.
51 pd. to exch. 1,000 Dec. for Aug.	01 pd. to exch. 200 June for July.
02 pd. to exch. 200 Aug. for July.	52 pd. to exch. 500 Nov. for Aug.
01 pd. to exch. 200 Nov. for Dec.	03 pd. to exch. 2,300 Jan for Aug.
04 pd. to exch. 500 Nov. for Jan.	07 pd. to exch. 5,700 May for July.
19 pd. to exch. 400 Oct. for Sept.	06 pd. to exch. 100 May for Aug.
02 pd. to exch. 1,900 July for Aug.	02 pd. to exch. 230 Oct. for Dec.
20 pd. to exch. 600 Oct. for Sept.	05 pd. to exch. 200 May for Aug.
08 pd. to exch. 2,000 Nov. for Feb.	49 pd. to exch. 400 Dec. for Aug.
54 pd. to exch. 1,000 Nov. for July.	53 pd. to exch. 400 Nov. for Aug.

**SHIPPING NEWS.**—The exports of cotton from the United States the past week, as per latest mail returns, have reached 73,593 bales. So far as the Southern ports are concerned these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

**Total bales.**

New York—To Liverpool, per steamers Cuffe, 1,925 .. Georgia, 7,475 upland and 260 Sea Island .. Hilary, 1,456 .. Nasmith, 1,531 ..	13,037

Below we add the clearances this week of vessels carrying cotton from United States ports, bringing our data down to the latest dates:

GALVESTON—To Liverpool—May 5—Steamer Darion, 6,938.
To Bremen—April 30—Steamer Roland, 6,159.
NEW ORLEANS—To Liverpool—May 3—Steamer Electrician, 5,101.
To Belfast—May 5—Steamer Helen, 1,026.
To Havre—April 30—Steamer Benwick, 7,032.
To Bremen—May 4—Steamer Milwaukee, 21,154.
To Hamburg—May 5—Steamer Oswestry, 2,741.
To Rotterdam—April 30—Steamer Alexandra, 200.
To Antwerp—April 30—Steamer Cayo Romano, 1,950.
To Copenhagen—April 30—Steamer Alexandra, 100.
To Genoa—May 1—Steamer Ischia, 2,912.
To Trieste—May 1—Steamer Ischia, 2,103.
To Venice—May 1—Steamer Ischia, 1,300.
CHARLESTON—To Genoa—May 4—Steamer Sicilia, 4,978.
PORT ROYAL—To Liverpool—April 30—Steamer Eden Hall, 5,259.
WOLFOLE—To Rotterdam—May 5—Steamer Whetstone, 1,341.
BOATON—To Liverpool—April 29—Steamer Ottoman, 284 upland and 173 Sea Island .. May 4—Steamer Cambrian, 50 Sea Island.
To Hull—April 30—Steamer Lepanto, 400.
To Yarmouth—April 30—Steamer Yarmouth, 134.
BALTIMORE—To Liverpool—April 30—Steamer Kibhal, 556.
To Bremen—May 6—Steamer Munchen, 2,209.
To Hamburg—May 5—Steamer Armonian, 101.
PHILADELPHIA—To Liverpool—April 30—Steamer Belgienland, 9.
NEW FRANKFORD—To Japan—May 1—Steamer City of Peking, 150.

## BREADSTUFFS.

FRIDAY, May 7, 1897.

There have been no new developments of an important or interesting nature in the market for wheat flour. A limited amount of attention has been given to the market by buyers, but as their bids have been slow and mills have been fairly well sold up as a result of the recent active trading, the volume of business transacted has been small, as sellers have held for steady prices. City mills have had a limited sale at slightly lower values. Rye flour has been in moderate request and prices have held about steady. The demand for corn meal has been moderately active, and prices have been without changes and steady.

There has been a moderately active speculation in the market for wheat futures but the net changes are comparatively slight. Saturday there was a fractional improvement in prices, but on Monday the market turned weaker, following foreign advices, and Tuesday there was a further shrinkage in values; the decline for the two days amounting to 2@2½¢. The weakness came principally from abroad and prompted liquidation by local holders. Wednesday the market turned stronger. Foreign advices came firmer and stimulated a demand from shorts to cover contracts, on which prices advanced ½¢@¾¢. Thursday the market was fairly active and on foreign advices, together with unfavorable crop news from the West, prices advanced 1½¢@1¾¢. The buying was principally by shorts to cover contracts, although there was a limited demand for investment account. To-

day the market was weaker. Foreign advices were disappointing and the unfavorable crop advices have comparatively little influence, prices closing at a decline of  $\frac{3}{4}$ @1c. for the day. In the spot market a moderate volume of business has been transacted, although at the close the demand was quiet. No. 1 hard Duluth was quoted at 82 $\frac{3}{4}$ ¢ f. o. b. afloat to arrive; No. 1 northern Duluth at 81 $\frac{1}{4}$ ¢ f. o. b. afloat to arrive; No. 1 Manitoba at 82 $\frac{1}{4}$ ¢ f. o. b. afloat to arrive and No. 2 hard winter at 78 $\frac{1}{4}$ ¢ f. o. b. afloat to arrive.

## DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery.....c.	79	78 $\frac{3}{4}$	76 $\frac{3}{4}$	77 $\frac{3}{4}$	79	78 $\frac{1}{4}$
July delivery.....c.	77 $\frac{1}{4}$	76 $\frac{1}{4}$	75	75 $\frac{3}{4}$	77 $\frac{1}{4}$	76 $\frac{1}{4}$
September delivery.....c.	73 $\frac{3}{4}$	72 $\frac{3}{4}$	71 $\frac{3}{4}$	72 $\frac{3}{4}$	74 $\frac{3}{4}$	73 $\frac{3}{4}$
December delivery.....c.	75 $\frac{3}{4}$	74 $\frac{3}{4}$	73 $\frac{3}{4}$	74 $\frac{3}{4}$	75 $\frac{3}{4}$	75

The speculation in the market for Indian corn futures has been dull and for the remote deliveries prices have declined  $\frac{3}{4}$ @1c. Early in the week the entire market was lower in sympathy with the decline in wheat. Subsequently, however, prices for this month's delivery turned stronger and recovered the loss on buying by a few shorts to cover contracts, while the distant months made slight further declines. To day the market was quiet and fractionally lower with the wheat market. In the spot market only a moderate volume of business has been transacted but values have held steady, closing with sales of No. 2 mixed at 29 $\frac{1}{2}$ ¢ in elevator and No. 3 mixed at 28@28 $\frac{1}{2}$ ¢ in elevator.

## DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery.....c.	29	29	28 $\frac{3}{4}$	29	29 $\frac{3}{4}$	29 $\frac{1}{4}$
July delivery.....c.	30 $\frac{3}{4}$	30 $\frac{1}{4}$	30	30 $\frac{3}{4}$	30 $\frac{1}{4}$	30 $\frac{1}{4}$
September delivery.....c.	32 $\frac{3}{4}$	31 $\frac{3}{4}$	31 $\frac{1}{4}$	31 $\frac{1}{4}$	31 $\frac{1}{4}$	31 $\frac{3}{4}$

Speculation in the market for oats for future delivery has been quiet and the course of prices has been somewhat irregular. The prices for the near-by deliveries have gradually advanced as there was some buying to cover contracts, but the distant months weakened early in the week under moderate offerings although subsequently some of the loss was recovered. The close was quiet but steady. In the spot market a fair business has been transacted at steady values. The sales to-day included No. 2 mixed at 22 $\frac{3}{4}$ @23¢ in elevator and No. 2 white at 27¢ in elevator.

## DAILY CLOSING PRICES OF NO. 2 MIXED OATS.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery.....c.	21 $\frac{3}{4}$	21 $\frac{3}{4}$	21 $\frac{1}{4}$	22 $\frac{1}{4}$	22 $\frac{1}{4}$	22 $\frac{3}{4}$
July delivery.....c.	22 $\frac{3}{4}$	22 $\frac{1}{4}$	22	22 $\frac{1}{4}$	22 $\frac{1}{4}$	22 $\frac{1}{4}$

Rye and barley have been in fairly good export demand and steady.

## THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., May 7, 1897.

The course of the cotton goods market during the past week has been disappointing. The indications of improvement noted in recent reports have disappeared and changes during the week have been in favor of buyers. These include declines in prints and in print cloths. The latter have given way to 2 7-16c. for extras at Fall River, which is as low as any price previously recorded there. The market has suffered from lack of adequate demand, buyers refusing to operate with any greater freedom than before, and from the retrograde movement in raw cotton since Monday. Business with jobbers has been fair, but warm weather is needed to help forward the supplementary demand for seasonable goods. Stocks of cotton goods in first hands are full in the aggregate, but are generally reported moderate with jobbers and retailers. There has been no new feature of any moment in woolen goods, either in men's-wear fabrics or dress goods. The reporting of the tariff bill to the Senate has not changed conditions in the domestic market, but the elimination of the retroactive clause has been followed by greater efforts on the part of importers to secure business.

WOOLEN GOODS.—There has been no break this week in the previous dullness ruling in this division of the market. There is still but a limited attendance of buyers, and orders come to hand through the mails somewhat slowly. Until the clothing trade has some indication of what the fall demand for garments is likely to be this inactivity is likely to continue. There is considerable pressure upon sellers to make deliveries of early purchases and the majority are kept fairly well employed in meeting this. The tone of the general market continues quite firm, and in most directions buyers find a firmer market than they operated in early in the season.

Sales of overcoatings have been light, without change in prices, but there has been more doing in clothings at previous prices. Dress goods are firm, but the current demand is moderate. Sales of flannels are indifferent and blankets are inactive; but prices hold.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending May 3 were 2,642 packages, valued at \$116,794, their destination being to the points specified in the tables below:

NEW YORK TO MAY 3.	1897.		1896.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	5	1,806	26	786

\*From New England mill points direct

The value of the New York exports for the year to date has been \$3,331,601 in 1897 against \$3,315,499 in 1896.

Last week sellers of heavy-weight brown sheetings and drills were very reserved over forward business, but this week some bids have been accepted which were then declined. Spot goods are willingly sold at current prices, but the demand is moderate only. In coarse colored cottons the only change has been an incidental advance in plaids of  $\frac{1}{4}$ ¢. Denims, ticks, checks and stripes and ocheviots are as dull and as easily bought as before. Bleached shirtings are quiet throughout, and no further advances are probable at the moment. Wide sheetings sell slowly, and the current demand for cotton flannels and blankets is moderate. Kid-finished cambrics steady but dull. In prints, fancies are slow and unchanged. Black and white and other mourning prints generally reduced  $\frac{1}{4}$ ¢. to  $\frac{1}{2}$ ¢ per yard. Indigo blues, shirtings, etc., dull and unchanged. Gingham inactive. Print cloths dull all week; extras declined to 2 7-16c. and odds easy.

Stock of Print Cloths—	1897.		1896.		1895.		1894.	
	May 1.	May 2.	May 1.	May 2.	May 1.	May 2.	May 1.	May 2.
At Providence, 64 squares..	470,000	251,000	470,000	251,000	130,000	222,000	130,000	222,000
At Fall River, 84 squares...	208,000	840,000	208,000	840,000	6,000	394,000	6,000	394,000
At Fall River, odd sizes....	343,000	530,000	343,000	530,000	73,000	104,000	73,000	104,000

Total stock (pieces).....1,059,000 1,624,000 209,000 720,000

FOREIGN DRY GOODS.—During the past few days there has been more doing in foreign merchandise, importers being less reserved. It is, however, too late for them to expect much business for fall in any line. Dress goods, silks, linens, ribbons and men's-wear woollens are all firm in tone.

## STATE AND CITY DEPARTMENT.

## TERMS OF SUBSCRIPTION.

The INVESTORS' SUPPLEMENT will be furnished *without extra charge* to every annual subscriber of the COMMERCIAL AND FINANCIAL CHRONICLE.

The STATE AND CITY SUPPLEMENT will also be furnished *without extra charge* to every subscriber of the CHRONICLE.

The STREET RAILWAY SUPPLEMENT will likewise be furnished *without extra charge* to every subscriber of the CHRONICLE.

The QUOTATION SUPPLEMENT, issued monthly, will also be furnished *without extra charge* to every subscriber of the CHRONICLE.

TERMS for the CHRONICLE with the four Supplements above named are Ten Dollars within the United States and Twelve Dollars in Europe, which in both cases includes postage.

## Terms of Advertising—(Per inch space.)

One time.....	\$3.50	Three Months (13 times).....	\$25.00
One Month.....	11.00	Six months (23 times).....	43.00
Two Months.....	18.00	Twelve Months (52 times).....	58.00

The above terms for one month and upwards are for standing cards.

## MUNICIPAL BOND SALES IN APRIL.

Our record of the sales of municipal securities for the month of April, which is given below, shows that the total amount marketed was \$12,301,823, not counting \$646,404 of temporary loans negotiated. This is to be compared with \$4,521,850 for the corresponding month of last year and \$12,488,809 for March of the present year.

The number of municipalities issuing bonds has increased during the last month and the demand for the securities appears to be unabated. In fact, just now municipal securities sell more readily than any other class of investments. Dealers do not have to announce their purchases of bonds in order to dispose of them. Investors come in and take the bonds off their hands without the asking.

The chief sales during the month were the \$3,000,000 New York State 3 per cent 15-year canal improvement bonds at 101-279 to 102, and the \$1,275,000 3½ per cent 5-year Boston loan. There were two other sales of amounts over \$500,000, namely the \$620,000 of Newtown, N. Y., 4½s at 111, and the \$588,000 of Louisville, Ky., 4s at 106-77; and twelve sales of amounts between \$200,000 and \$500,000. The sale of Louisville, Ky., bonds has just been declared illegal, and if the upper courts uphold the decision the securities will have to be re-sold.

A rather noticeable feature of the sales during the past month was the amount of improvement bonds marketed by the various municipalities to be included in the Greater New York. Jamaica, Newtown and Richmond County are the most conspicuous in this class, these three localities selling over \$1,500,000 of bonds. We publish further on in this department a table showing the amount of bonds that New York City and the surrounding territory have been authorized to issue by the Legislature which has just adjourned. This will prove of interest at the present juncture.

In the following table we give the prices which were paid for April loans to the amount of \$11,863,385 issued by 88 municipalities. The aggregate of sales for which no price has been reported is \$438,438 and the total bond sales for the month \$12,301,823. In addition we give a list of the temporary loans, amount-

ing to \$646,404, swelling the grand total to \$12,948,237. In the case of each loan reference is made to the page of the CHRONICLE where a full account of the sale is given.

Grand total of sales for April.....\$12,948,227

In the CHRONICLE of April 10, 1897, page 720, a list of March bond sales amounting to \$12,284,309 will be found. Since the publication of that statement we have received the following reports.

## ADDITIONAL MARCH BOND SALES.

Page.	Location.	Rate.	Maturity.	Amount.	Award.
768.	Dayton, Wash.	6	1898-1900	\$5,000	100
914.	Monett, Mo.	6	1902-1917	4,500	100

Total.....\$9,500

Additional sales for which no price was reported.....195,000

Total additional sales for March.....\$204,500

These additional loans will make the total sales, not including temporary loans, as reported for March, 1897, amount to \$12,488,809.

**New York City.**—*The Greater New York Charter Signed by the Governor.*—On May 5, 1897, Governor Black signed the Greater New York Charter, thereby uniting into one municipality New York City, Brooklyn, Long Island City, Richmond County and surrounding territory. The exact area to be annexed to the present boundaries of the city is defined by the charter as follows: "The county of Kings, the county of Richmond, the city of Long Island City, the towns of Newtown, Flushing and Jamaica, and that part of the town of Hempstead in the county of Queens, which is westerly of a straight line drawn from the southeasterly point of the town of Flushing, through the middle of the channel between Rockaway beach and Shelter Island in the county of Queens, to the Atlantic ocean and the present city of New York." The charter is to go into effect January 1, 1898.

**Bonds Authorized for Greater New York.**—The "Brooklyn Eagle" on April 29 published a statement showing the amount of bonds the municipalities included within the boundaries of the Greater New York have been authorized to issue by the State Legislature recently adjourned. The statement is as follows:

## NEW YORK.

For a garden at Van Cortlandt Park.....	\$50,000
To establish a zoological garden at Bronx Park.....	125,000
For the repair of streets and avenues.....	2,000,000
Providing for a public library in Bryant Park.....	2,500,000
For an addition to the American Museum of Natural History buildings and its equipment.....	500,000
For a new Tomba prison.....	500,000
Providing for general park improvements.....	250,000
Providing for four new High Schools.....	2,500,000
For additional pumping stations and water mains.....	500,000
For the erection of new common schools and their equip.....	10,000,000
Providing for a drawbridge at Third Ave., over the Harlem Jerome Avenue improvements.....	500,000

Authorizing the expenditure by the trustees of Jamaica for macadamizing and improving certain public streets in that village of.....	\$200,000
Authorizing the village of Flushing to borrow in anticipation of arrears of taxes, not to exceed.....	35,000
To authorize Long Island City to provide additional school accommodations.....	500,000
Authorizing the completion of improvements on portions of Grand Avenue and Main Street, Long Island City.....	45,000
Total.....	\$780,000

**New Jersey.**—*Act Authorizing the Issue of County Bonds.*—The New Jersey State Legislature at its recent session passed an Act, which was approved by the Governor April 16, 1897, allowing counties to issue bonds for the construction of court-houses. The following is the full text of the Act:

1. Whenever the board of chosen freeholders of any county in this State shall determine, by a vote of not less than two-thirds of all the members of such board, to erect, enlarge or re-build a county court-house and buildings for the accommodation of courts and county officers and the various departments of the county government, it shall be lawful for such board of chosen freeholders to issue and sell the bonds of such county corporation, and to use the proceeds for the purpose of paying the cost of such new or enlarged building, and of furnishing the same; such bond shall bear interest at a rate not exceeding four per centum per annum, payable semi-annually, with such provisions as to registration and payment of interest or coupons as may be found expedient; shall be payable at a time not exceeding forty years from their date; shall be for an aggregate amount not exceeding two-tenths of one per centum of the total assessed value of real and personal property in such county, and shall not be sold at either public or private sale for less than par.

2. It shall be the duty of such board of chosen freeholders to establish a sinking fund, to be raised by taxation from year to year, sufficient to pay off and discharge such bonds at their maturity; and also to include in the annual county tax levy a sufficient sum to pay the interest on such bonds from year to year.

3. This act shall take effect immediately.

**Philadelphia, Pa.**—*City's Borrowing Capacity.*—Judge Bidle last Saturday handed down a decision sustaining the right of the city of Philadelphia to create two loans of \$8,000,000 and \$3,000,000 to provide for certain public improvements. The right to issue the bonds had been called in question by David Pepper and others, who as taxpayers filed a bill in equity to restrain the city from issuing the bonds. They based their contention on Section 8, Article IX of the Constitution of 1874, which reads as follows: "The debt of any city, county, borough, township, school district or other municipality or incorporated district except as herein provided, shall never exceed 7 per centum upon the assessed value of the taxable property therein, nor shall any such municipality or district incur any new debt or increase its indebtedness to any amount exceeding 2 per centum upon such assessed valuation of property without the assent of the electors thereof at a public election in such manner as shall be provided by law; but any city the debt of which exceeds 7 per centum of such assessed valuation may be authorized by law to increase the same 3 per centum in the aggregate at any one time upon such valuation."

The claim of the plaintiffs was that under this Constitutional provision the city cannot issue bonds in excess of 2 per cent upon the assessed value of the taxable property unless a vote of the electors is obtained.

Judge Bidle, in rendering his decision, presented the following facts:

"The assessed value of the taxable property of the said city on Jan. 1, 1874, was \$548,243,535; 7 per cent of the said valuation, \$38,377,047 45.

Total debt January 1, 1874.....\$59,338,816 97  
City securities in sinking fund.....15,773,644 80

Net debt January 1, 1874.....\$43,565,172 17

"The debt of the city at the time of the adoption of the Constitution was therefore in excess of 7 per centum of the assessed value of the taxable property.

"The assessed value of taxable property January 1, 1897, was \$818,827,549; 7 per centum of that assessment, \$57,317,928 43.

Total debt January 1, 1897.....\$54,023,120 22  
Securities in sinking fund.....19,575,350 00

\$34,447,770 22

Cash, revenue and solvent debts applicable to the payment of the said debt.....3,111,095 78

Net debt January 1, 1897.....\$31,336,674 44

"The question before the Constitutional Convention when it came to the consideration of the section regulating the debts of the cities was simply this: A great many cities of the State had a debt far below the limit of indebtedness which

was proposed, and of course there was no difficulty in saying that hereafter their debts should not be increased beyond 7 per centum of the taxable property therein. This limit, however, it was demonstrated, was too low a limit to be applied to the city of Philadelphia, for at that very time its debt exceeded 7 per centum. Of course it might have been provided that Philadelphia's debt should be decreased to a certain limit as early as practicable or that no increase should be made until that was effected. This, however, was not done. On the contrary, the Convention recognized the indebtedness of upwards of \$13,000,000, and so far from requiring that it should be diminished, gave express authority that it should be increased to the extent of 3 per centum. Therefore it was beyond peradventure that the limit fixed for the city at that time was \$13,000,000 and upwards, with power to increase. Now, when or where since that date has anything been done to show that that limit is not as perfectly legal and proper now as it was then? It has been suggested that it is true that the city, up to the 1st of January, 1897, so far from increasing, has reduced its debt to about \$31,000,000, and it is therefore argued that it can never be increased to the limit authorized by the Constitution. So that if the municipality, when the rate of money was high, found it advantageous for the time to reduce its indebtedness, it could not, when the rate of money was one-half the former rate, borrow again at that more advantageous rate. Surely if a life tenant were authorized to encumber his estate to the amount of \$50,000 and found that he could pay off \$10,000, for which he was paying 6 per cent, and re-borrow it for 3 per cent, how could it be contended that that was a violation of law, and having once temporarily reduced the amount he was authorized to borrow, he could never again go back to his original authority which authorized him to raise \$50,000? It seems to us that the city's indebtedness, so far as this case is concerned, cannot be lower than \$43,565,172 17, and as long as the city keeps within that limit it is clearly within its rights. It, therefore, has the right to increase its present indebtedness as contemplated by the two ordinances under consideration without submitting the question to a popular vote."

An appeal will be taken to the Supreme Court, and an application made for an early hearing, so as to decide definitely the question of the city's borrowing capacity.

**Bond Proposals and Negotiations.**—We have received through the week the following notices of bonds recently negotiated and bonds offered and to be offered for sale.

**Alabama.**—*Condition of Treasury.*—From the report of State Auditor White to the Governor of the condition of the State treasury on December 31, 1896, we note the following figures. The cash on hand Oct. 1, 1896, was \$58,219; received to Dec. 31, \$550,816; total cash, \$509,165. As against this we find disbursements of \$553,592, leaving a cash balance in the treasury on January 1, 1897, of \$25,573. On Oct. 1, 1896, the warrants outstanding amounted to \$3,972 and up to Dec 31 \$645,909 additional warrants were issued, making a total for the year of \$694,881. Of this amount the Treasurer redeemed \$553,592, leaving a balance of outstanding warrants on January 1, 1897, of \$111,289. The total liabilities, including the outstanding warrants on January 1, were \$647,054, which, after deducting the cash balance of \$25,573, leaves an excess of liabilities of \$621,480.

**Albany, N. Y.**—*Bonds Authorized.*—An ordinance authorizing the city of Albany to issue bonds to an amount not exceeding \$500,000 to pay the cost of a water filtration plant has been passed by the Legislature.

**Arenac County, Mich.**—*Bond Offering.*—Proposals will be received until 1 o'clock P. M. June 1, 1897, by Ernest C. Butler, County Clerk, for the purchase of \$7,000 of 6 per cent refunding bonds. The securities will mature at the rate of \$1,000 per annum from March 1, 1898 to 1904, inclusive; both principal and interest will be payable at the Second National Bank of Bay City, Michigan.

**Athens, Ohio.**—*Bond Offering.*—Proposals will be received until May 25, 1897, by the city of Athens for the purchase of \$5,000 of 5 per cent city hall improvement bonds.

**Bay City, Mich.**—*Bonds Proposed.*—Road improvement bonds of this city are under consideration; they will probably be issued about August 1, 1897.

**Bay St. Louis, Miss.**—*Bond Election.*—It is reported that an election will be held in Bay St. Louis to vote on issuing \$40,000 of bonds. The securities, if authorized, will bear 6 per cent interest and the proceeds will be used for the construction of water works and an electric light plant.

**Benson, Minn.**—*Bond Sale.*—On April 27, 1897, the \$5,500 of 6 per cent water works bonds of the village of Benson were awarded to the Winona Deposit Bank of Winona, Minn., for \$5,794 50. The other bids received were:

E. W. Post & Son, St. Paul, Minn.	\$5,675 00
Bank of Benson, Benson, Minn.	5,625 00
D. M. Peters, Chicago, Ill.	5,610 00
Avery Brush, St. Paul, Minn.	5,601 00
Morse, Lewis & Co., Chicago, Ill.	5,592 00
F. H. Hols n, Benson, Minn.	5,560 00
A. Keen, Chicago, Ill.	5,555 50
Nathan's Farmers' Bank, Owatonna, Minn.	5,550 00
George D. Cook Co., Chicago, Ill.	5,543 15
W. J. Hayes & Sons, Cleveland, Ohio.	5,537 00
J. R. Fulton & Co., Grand Forks, N. D.	5,527 00
Charles Defer, Eureka, S. D. (for a part).	3,850 00

The securities will mature as follows: \$4,000 at the rate of \$1,000 per annum from July 1, 1904 to 1907, inclusive and \$1,500 on July 1, 1908.

**Berkley, Va.**—*Bonds Authorized.*—The Finance Committee of Berkley has ordered an issue of \$25,000 of improvement bonds, as the \$25,000 of bonds recently issued were not sufficient to cover the cost of the work.

**Beverly, Mass.**—*Temporary Loan.*—The town of Beverly has awarded a temporary loan of \$30,000 to Budget, Merritt & Co., of Boston, Mass., at a discount of 3-08 per cent. The other bids received were:

	Rate of Discount	Premium
Blake Bros. & Co., Boston, Mass.	3-07	\$1-00
Bond & Goodwin, Boston, Mass.	3-10	.....
Chas. Well & Co., Boston, Mass.	3-20	1-00
E. H. Rollins & Sons, Boston, Mass.	3-26	.....
R. L. Day & Co., Boston, Mass.	3-375	.....

The loan was issued in anticipation of the collection of taxes and will become due November 15, 1897.

**Binghamton, N. Y.**—*Bond Election.*—A proposition to issue \$55,000 of bonds for the construction of bridges will be put to a vote of the citizens of Binghamton on May 18, 1897.

**Brockton, Mass.**—*Bond News.*—It is reported that the \$35,000 of water bonds and \$30,000 of sewer bonds awarded on April 28 to S. A. Keen of Chicago have not been taken by him, and the bids have been awarded to Adams & Co. of Boston, Mass., on their bids of 107-67 for the water bonds and 104-59 for the sewer bonds. Both issues bear interest at 4 p. c.

**Buffalo, N. Y.**—*Bond Sale.*—The city of Buffalo has awarded a \$6,111 04 3½ per cent twenty-year grade crossing bond to the Comptroller at par, in trust for the Bailey Avenue sewer sinking fund. The bond is dated April 15, 1897, and the interest is payable semi-annually.

**Cameron, W. Va.**—*Bond Issue.*—This municipality proposes to issue improvement bonds to the amount of \$3,000.

**Catskill, N. Y.**—*Bond News.*—At a meeting of the taxpayers of this village held on May 3, it was decided not to issue the \$20,000 of paving bonds recently reported as having been authorized.

**College Point, N. Y.**—*Bond Election.*—At the election held in this village on May 6, a proposition to issue bonds to the amount of \$50,000 for a new school building was carried by a vote of 411 to 84.

**Cranston, R. I.**—*Bond Sale.*—The town of Cranston has sold \$150,000 of 4 per cent forty-year gold funding bonds to N. W. Harris & Co., of New York City, at 104-33½. The other bids received were:

Farnson, Leach & Co., New York, N. Y.	103-810
R. L. Day & Co., Boston, Mass.	103-349
E. H. Rollins & Sons, Boston, Mass.	103-279
Richardson & Clark, Providence, R. I.	103-271
Cushman, Fisher & Phelps, Boston, Mass.	103-177
E. C. Stanwood & Co., Boston, Mass.	103-140
Rudolph K. Eysbolte & Co., New York, N. Y.	103-137
Dietz, Denison & Prior, Boston, Mass.	102-930
Estabrook & Co. Boston, Mass.	101-790

**Deering, Me.**—*Bonds Authorized.*—Bonds of this city to the amount of \$20,000 have been authorized. The securities will be of the denomination of \$1,000; they will bear interest at the rate of 3½ per cent and mature in twenty years from date of issue.

**Des Moines, Ia.**—*Bond Sale.*—On May 6, 1897, the \$35,000 of 4 per cent 19-20 year funding bonds were awarded to Rudolph Kleybolte & Co. of Cincinnati, Ohio.

**Dundee (N. Y.) Union School District.**—*Bond News.*—The interest on the \$2,400 of 6 per cent 2 year school notes, recently sold to Geo. P. Lord at par, is payable at the Dundee State Bank.

**Essex County, N. J.**—*Bond Issue.*—As authorized by an act recently passed by the New Jersey State Legislature, granting authority to the various counties to issue bonds for the construction of court houses, and given in full elsewhere in this Department, Essex County will issue \$370,000 of bonds for that purpose. At a recent meeting of the county officials it was decided to go on with the plans for the building, but the selection of a site was laid over till a later meeting.

**Far Rockaway, N. Y.**—*Bond Election.*—A special election will be held in Far Rockaway on May 14, 1897, to vote on a proposition to issue bonds or certificates of indebtedness to the amount of \$35,000. The securities, if authorized, will be issued for the purpose of improving the streets of the village. They will be of the denomination of \$1,000; interest at the rate of 5 per cent will be payable semi-annually on the first days of January and July, and the principal will mature at the rate of \$1,000 on January 1 of each year after date of issue, with the exception of the twenty-first year, when \$15,000 will become due.

**Gardiner, Me.**—*Bond Sale.*—This city has sold \$18,000 of 3½ per cent funding and refunding bonds at par. Interest on the securities is payable semi-annually at Gardiner.

**Georgetown, Ky.**—*Bonds Proposed.*—Bonds of this city to the amount of \$25,000 for the construction of water-works and gas plant are under consideration.

**Glenville Village (Ohio) School District.**—*Bond Offering.*—Proposals will be received until 8 o'clock P. M., May 23, 1897, by the Board of Education, for the purchase of \$17,000 of 5 per cent school bonds. The bonds will be dated June 1, 1897; interest will be payable on the first days of June and

December in each year at the office of the Treasurer of the District, and the principal will mature part yearly from 1898 to 1912. Bids for less than par and accrued interest will not be considered.

**Gloucester, Mass.—Temporary Loan.**—The city of Gloucester has awarded a temporary loan of \$50,000 to Curtis & Motley, of Boston, Mass., at a discount of 3.04 per cent. The other bids received were:

	Rate of Dis.ount.	Prem.
Blake Bros. & Co., Boston, Mass.....	3.05	
Rogers, Newman & Toleman, Boston, Mass.....	3.15	\$1 25
Edgerly & Crocker, Boston, Mass.....	3.16	
D. W. Howland, Boston, Mass.....	3.25	2 75
C. H. Well & Co., Boston, Mass.....	3.25	1 00
Cape Ann National Bank.....	\$25,000 3.50	
	25,000 3.625	

The loan was issued in anticipation of the collection of taxes and will mature \$25,000 in six months and \$25,000 in seven months from date of issue.

**Gloversville, N. Y.—Bond Sale.**—The New York News Bureau reports the sale to-day of \$23,000 of 4 per cent 25 year bonds of the city of Gloversville to Isaac W. Sherrill of Poughkeepsie at 107 and interest.

**Grand Junction, Col.—Bonds Authorized.**—On April 24, 1897, the City Council of Grand Junction passed an ordinance authorizing and directing the issue of \$65,000 of water-works bonds. The securities are to be in the form of coupon bonds of the denomination of \$100 each. They will be dated May 1, 1897, interest at the rate of 6 per cent will be payable semi-annually on the first days of May and November, at the office of the City Treasurer, or by Kountz Bros., New York, and the principal will mature May 1, 1912, subject to call after May 1, 1907. The ordinance also makes provision for a sinking fund for the payment of the interest and principal of the bonds.

**Grand Rapids, Mich.—Comptroller's Report.**—The following figures, relating to the finances of the city, are taken from the annual report of Comptroller Caro, covering the year from April 23, 1896, to April 22, 1897. The bonded debt of the city on April 23, 1896, was \$1,849,000, and on May 2, 1896, \$75,000 additional bonds were issued; during the year \$222,000 of bonds were redeemed, making the bonded debt on April 22, 1897, \$1,702,000, a net reduction of \$147,000. On April 22, 1897, the cash on hand in the diff rent funds amounted to \$367,469, and all other assets, consisting of city property, amounted to \$3,724,898.

**Hamilton, Mass.—Bond Sale.**—The following bids were received for the purchase of \$20,000 of 4 per cent 1-20 year town-house bonds and \$11,500 of 4 per cent 1-10 year school bonds.

	\$20,000 Town-house Bonds.	\$11,500 School Bonds.
E. H. Gay & Co., Boston, Mass.....	103.50	101.510
Estabrook & Co., Boston, Mass.....	102.430	101.231
R. L. Day & Co., Boston, Mass.....	102.517	101.037
E. H. Rollins & Sons, Boston, Mass.....	102.430	101.170
Allen & Rogers, Salem, Mass.....	102.339	101.037
Blake Bros. & Co., Boston, Mass.....	102.260	101.070

The securities were awarded to E. H. Gay & Co.

**Hamilton, Ohio.—Bond Offering.**—Proposals will be received until May 17, 1897, by the city of Hamilton for the purchase of \$16,000 of 4½ per cent bonds.

**Hardy Township, Ohio.—Bonds Defeated.**—The Circuit Court has affirmed the decision of the Common Pleas Court, holding that the special act of the State Legislature, authorizing Hardy Township to issue \$40,000 of public improvement bonds, was illegal.

**Hartford, Conn.—Bond Sale.**—R. L. Day & Co., of Boston, have been awarded \$270,000 of the town of Hartford 3½ per cent bonds at 103.219. This loan was issued to refund the \$270,000 of 4½ per cent ten-twenty-five year bonds issued by the town in 1880, which were called for payment on May 1, 1897.

**Hartford (Conn.) Arsenal School District.—Bond Offering.**—This district proposes to issue bonds to the amount of \$100,000, for the purpose of paying the floating debt and the expenses to be incurred in improving the present school building. The securities have been authorized by the General Assembly of the State of Connecticut, and proposals will be received until 2 o'clock P. M. May 13, 1897, by C. H. Burt, Treasurer, at the State Bank, Hartford, Conn., for the purchase of the same. The denomination of the bonds will be \$1,000, interest at the rate of 4 per cent will be payable semi-annually, and the principal will mature in twenty years from date of issue. The district committee will hold a meeting on May 14, 1897, to decide in regard to the awarding of the bonds.

**Huntsville, Tenn.—Bonds Proposed.**—The city of Huntsville has under consideration a proposition to issue \$30,000 of bonds to provide funds for the construction of a sewerage system.

**Hyde Park, Ohio.—Bond Offering.**—Proposals will be received until 12 o'clock noon, May 22, 1897, by Frank Lewis, Village Clerk, for the purchase of \$4,143.80 of 5 per cent street improvement bonds. The securities will be of the denomination of \$414.38 each, dated May 25, 1897; interest will be payable annually, and the principal will mature at the rate of \$414.38 per annum from May 25, 1898 to 1907, inclusive. No bid for less than par and accrued interest will be considered.

**Indiana County, Pa.—Bond Sale.**—The \$44,500 of 4 per cent funding bonds of Indiana County have been sold.

The securities will mature as follows: \$22,000 on January 1, 1900, and the remainder on January 1, 1901.

**Jamestown, N. Y.—Bond Sale.**—It is reported that the \$26,000 of 5 year paying certificates of the town of Jamestown have been re-awarded to Deitz, Dennison & Prior. The securities were originally sold to Jas. W. Longstreet & Co.

**Jersey City, N. J.—Bond Sale.**—The Board of Finance of Jersey City has sold to Blair & Co., of New York City, \$100,000 of 4 per cent park bonds at par.

**Bond News.**—It is reported that Mayor Hoos of this city has announced that he will not approve the issue of \$40,000 of bonds which the previous administration had arranged for. The last Legislature authorized the City Hall Commission to issue bonds in anticipation of the sale of city property, the proceeds of which were to be used for the payment of claims growing out of the building of the new city hall. The old city hall not having been sold, the commissioners wish to issue the bonds as authorized.

**Key West, Fla.—Bonds Proposed.**—It is reported that this city will issue \$100,000 of 5 per cent refunding bonds.

**Lenawee County, Mich.—Bond News.**—A report has been published to the effect that the citizens of Lenawee County would soon vote on a proposition to issue bonds to provide for the construction of a county jail. We have been officially informed that this is not true and that no such proposition has been thought of.

**Le Roy, N. Y.—Bond Issue.**—The Water Commissioners of Le Roy have decided to issue \$10,000 of additional water bonds.

**Lindavista Irrigation District, Cal.—Bond Offering.**—Proposals will be received until May 15, 1897, by this district, for the purchase of \$324,000 of bonds.

**Lisbon, Ohio.—Bond Sale.**—The \$9,500 of 6 per cent street-improvement and \$11,000 of 6 per cent special assessment bonds offered by this village on May 3, 1897, have been awarded to Seasongood & Mayer, of Cincinnati, at a premium of \$1,400. The street-improvement bonds are of the denomination of \$500 each, dated May 1, 1897; interest is payable semi-annually, and the principal will mature as follows: \$2,500 at the rate of \$500 per annum, from May 1, 1898 to 1902, inclusive; \$5,000 at the rate of \$1,000 per annum, from May 1, 1903 to 1907, inclusive, and \$3,000 on May 1, 1908. The special assessment bonds are of the denomination of \$100 each, dated May 1, 1897; interest is payable annually, and the principal will mature at the rate of \$1,000 per annum, from May 1, 1898 to 1908, inclusive.

**Los Angeles, Cal.—Bond Offering.**—Proposals will be received until 10 o'clock A. M. May 17, 1897, by C. H. Hance, City Clerk, for the purchase of \$370,000 of 4 per cent gold refunding bonds. The securities will be dated June 1, 1897; interest will be payable semi-annually on the first days of June and December, and the principal will mature at the rate of \$6,750 per annum, beginning with June 1, 1898. The bonds will be of the denomination of \$250 and \$500, and will be payable, both principal and interest, at the office of the City Treasurer of Los Angeles. No bid for less than par and accrued interest will be considered and each proposal must be accompanied by a certified check for 3 per cent of the amount of the bid.

The amount of bonded indebtedness which the city of Los Angeles can assume, as regulated by the law, is \$7,836,345, or 15 per cent of the assessed valuation.

The present bonded debt is \$1,498,900; assessed valuation, \$52,242,302; tax rate (per \$1,000), \$13.00. Property is assessed at about 60 per cent of its actual value. The population is at the present time estimated at about 100,000.

**Louisville, Ky.—Bonds Invalid.**—Judge Toney in the Law and Equity Court has decided that the sale of \$588,000 of refunding bonds, awarded last month by the city of Louisville to the New York Security & Trust Company, was unconstitutional.

The Sinking Fund Commissioners were authorized to issue bonds to refund \$499,000 of water bonds maturing July 1, 1897, and \$89,000 of city bonds maturing August 1, 1897, or \$588,000 of bonds in all.

The Commissioners asked for proposals for the purchase of \$588,000 of bonds and awarded the entire issue to the New York Security & Trust Company for \$627,000, or a premium of \$39,000.

Judge Toney decided that only sufficient bonds should have been sold to refund by the proceeds of the sale the \$588,000 of bonds maturing.

The case will be appealed to a higher court.

**Lowell, Mass.—Bond Sale.**—On May 4, 1897, the \$75,000 of 4 per cent sewer bonds were awarded to Budget, Merritt & Co. of Boston, Mass., at 102.83. The other bids received were:

Leland, Towle & Co., Boston, Mass.....	102.8150
Lee, Higginson & Co., Boston, Mass.....	102.8148
Blake Bros. & Co., Boston, Mass.....	102.7420
Horace B. Homer & Co., Boston, Mass.....	102.7420
Estabrook & Co., Boston, Mass.....	102.6500
N. W. Harris & Co., Boston, Mass.....	102.5700
R. L. Day & Co., Boston, Mass.....	102.5368
Jas. W. Longstreet & Co., Boston, Mass.....	102.5330
Jose Pa. Ker & Co., Boston, Mass.....	102.5179
L. W. Morrison, New York, N. Y.....	101.5500
Adams & Co., Boston, Mass.....	102.4460
Third National Bank, Boston, Mass.....	102.3500
E. H. Rollins & Sons, Boston, Mass.....	102.2700
W. J. Hayes & Sons, Boston, Mass.....	102.2700
Parkinson & Burr, Boston, Mass.....	102.2520
Rudolph Kleybolte & Co., New York, N. Y.....	102.0300
D. W. Howland, Boston, Mass.....	101.9823

The bonds are issued in the form of ten registered bonds of \$7,500 each, and are payable respectively in ten successive years from date of issue. Interest on the securities is payable semi-annually.

**Temporary Loan.**—The following bids were received for the discount on the \$100,000 of six months notes issued in anticipation of the collection of taxes.

	Rate of Discount.	Premium.
Old Colony Trust Co., Boston, Mass.	2 15-16	
Hend & Goodwin, Boston, Mass.	3 000	
Curtis & Motley, Boston, Mass.	3 010	\$1
Jas. W. Longstreet & Co., Boston, Mass.	3 010	
Blake Bros. & Co., Boston, Mass.	3 100	1
Duncomb & Jenkinson, New York, N. Y.	3 125	3
E. Geerly & Crocker, Boston, Mass.	3 130	
Hodgett, Merrill & Co., Boston, Mass.	3 140	
E. H. Rollins & Sons, Boston, Mass.	3 150	
Chas. Weil & Co., Boston, Mass.	3 200	
Horace S. Homer & Co., Boston, Mass.	3 300	3
D. W. Howland, Boston, Mass.	3 500	2

The notes were awarded to the Old Colony Trust Company.

**Lumberton, N. C.—Bonds Authorized.**—The citizens of Lumberton have voted in favor of a proposition to issue \$6,000 of water-works bonds. The securities will be offered for sale in about two months; they will bear interest at the rate of 5 per cent and will mature in thirty years from date of issue, both principal and interest being payable at the Atlantic National Bank of Wilmington, N. C.

**Lynchburg, Va.—Bond Call.**—A notice has been issued to the effect that on June 1, 1897, the city of Lynchburg will redeem \$424,800 of 5 per cent coupon and registered bonds, on which date interest will cease. The called securities are dated July 1, 1882, and January 1, 1887, and are in denominations of \$100 and \$10,000.

**Macon, Ga.—Bonds Authorized.**—The city of Macon has been authorized to issue \$50,000 of bonds. The securities will be of the denomination of \$1,000 each; interest at the rate of 4 per cent will be payable quarterly on the first days of January, April, July and October, at the office of the City Treasurer of Macon, and the principal will mature in thirty years from the date of issue. Both principal and interest will be payable in gold. A sinking fund of \$1,000 per annum shall be set aside for the first twenty-five years. If at the end of that period the sinking fund, together with the interest earned on it, shall be less than \$40,000, the city will set aside \$2,000 per annum until the fund amounts to \$50,000, provided that the City Treasurer shall be allowed to redeem the bonds at his discretion at a price not exceeding par.

**Marietta, Ohio.—Bond Sale.**—On April 27, 1897, the \$11,802 of 6 per cent bonds of Marietta were awarded to S. Kuhn & Son, of Cincinnati, Ohio, at 106-69. The securities are issued in anticipation of the collection of special assessments for sewer improvements; they are of the denomination of \$500 10 each, dated March 1, 1897, interest is payable semi-annually, and the principal will mature at the rate of \$590 10 every six months from date of issue, payable at the fiscal agency of Marietta in the city of New York.

**Medford, Mass.—Bond Offering.**—Proposals will be received until 11:30 o'clock A. M., May 11, 1897, by Parker R. Litchfield, City Treasurer, for the purchase of \$200,000 of 4 per cent bonds. The securities will be of the denomination of \$1,000 each, dated May 1, 1897, interest will be payable semi-annually on the first days of May and November, and the principal will mature May 1, 1917, both principal and interest being payable at the Howard National Bank of Boston, Mass.

**Mercer County, N. D.—Bonds Authorized.**—The County Commissioners of Mercer County have authorized an issue of \$35,000 of funding bonds.

**Middletown, Conn.—Bond Sale.**—The following is a complete list of the bids received for the purchase of the \$210,000 to \$215,000 of bonds offered by the city of Middletown on April 29, 1897:

Middletown Savings Bank, Middletown, Conn.	107-500
Hetzl, Denison & Prior, Boston, Mass.	107-600
R. L. Day & Co., Boston, Mass.	106-336
Lee, Higginson & Co., Boston, Mass.	106-280
Geo. A. Fernald & Co., Boston, Mass.	106-171
N. W. Harris & Co., N. Y.	106-079
E. H. Gray & Co., Boston, Mass.	105-830
Adams & Co., Boston, Mass.	105-812
Blake Bros. & Co., Boston, Mass.	105-775
Columbia Trust Co., Middletown, Conn.	105-700
E. H. Rollins & Sons, Boston, Mass.	105-239
Birent, Wykes & Co., N. Y.	105-170
Estabrook & Co., Boston, Mass.	105-050
Hodgett, Merrill & Co., Boston, Mass.	104-510
H. A. Keen, Chicago, Ill.	103-00

Two hundred thousand dollars of the securities were awarded to the Middletown Savings Bank at their bid of 107-500, and \$15,000, the remainder of the authorized issue, were withheld for cancellation.

**Milwaukee, Wis.—Bonds Proposed.**—The city of Milwaukee proposes to issue sewerage bonds to the amount of \$100,000.

**Monett, Mo.—Bond Sale.**—On March 22, 1897, bonds of this city to the amount of \$1,500 were awarded to the Commercial Bank of Monett at par. The securities bear interest at the rate of 6 per cent, payable at the National Bank of Commerce, New York City, and mature in from 5 to 20 years from date of issue.

**Montrie, Ga.—Sale Postponed.**—The sale of bonds of this city which was to have taken place on May 1, has been postponed until July 1, as it was found impracticable to have the bonds

prepared by the date set. The securities are school bonds to the amount of \$5,000, bearing interest at 6 per cent and maturing in 20 years from date of issue.

**Mount Morris, N. Y.—Bonds Authorized.**—Bonds of this town to the amount of \$30,000 have been authorized.

**Morristown, Minn.—Bond Offering.**—Proposals will be received until 10 o'clock A. M., June 10, 1897, by W. D. Widrick, Village Recorder, for the purchase of \$3,000 of 5 per cent public-hall bonds. The securities will be of the denomination of \$500 each, dated June 1, 1897; interest will be payable annually and the principal will mature at the rate of \$590 every two years, beginning with August 1, 1900, both principal and interest being payable at Morristown. Each bid must be accompanied by a certified check for \$100, payable to the order of the Village Recorder.

**Newark, N. J.—Bond Offering.**—Proposals will be received until 4 o'clock P. M. May 26, 1897, by John S. Gibson, City Comptroller, for the purchase of \$300,000 of 4 per cent registered library bonds. The securities will be of the denomination of \$1,000 each, dated June 1, 1897; interest will be payable semi-annually and the principal will mature in thirty years from date of issue. The bonds will be exempt from taxation. Each proposal must be accompanied by a certified check for 5 per cent of the amount bid for.

The total debt of the City of Newark on January 1, 1897, was \$13,773,000, \$7,757,000 of which constituted the water debt; sinking funds, \$2,784,652 88; net debt, January 1, 1897, \$10,988,347 12. The assessed valuation for 1896 was \$133,483,311, and the net earnings of the water plant \$495,481 50. The population in 1890 was 181,830. The City Comptroller reports that since January 1, 1897, \$143,000 of permanent bonds have been paid and \$30,000 issued. Temporary loan bonds are only issued by the city in anticipation of the collection of taxes and assessments for pavings and sewers, and are fully covered by the city's temporary assets. The interest and sinking fund charges on the water debt are (about) paid by the revenues from the water department, the interest and sinking fund charges on \$498,000 of tax arrearage bonds by the collection of taxes on real estate, and on \$335,000 of market bonds by the earnings of the market.

The official notice of the bond offering will be found among the advertisements elsewhere in this Department.

**New Mexico.—Bond Sale.**—The \$75,000 of 5 per cent refunding bonds of the territory of New Mexico have been awarded to the B. L. & G. D. Cook Company of Chicago, Ill. Twenty-five thousand dollars of the securities are dated May 1, 1895, and \$50,000 are dated November 1, 1895. The interest is payable semi-annually on the first days of May and November at the National Bank of Commerce in the city of New York, and the principal will mature in thirty years from the above dates of issue, subject to call after 1915.

**Newton, Mass.—Bond Sale.**—On April 29, 1897, Seth A. Rickett, City Treasurer, received the following bids for the purchase of the \$100,000 of 4 per cent thirty-year sewer bonds:

Estabrook & Co., Boston, Mass.	109-170
	\$25,000 109-050
Blake Bros. & Co., Boston, Mass.	25,000 109-000
	25,000 108-900
	25,000 108-800
Jas. W. Longstreet & Co., Boston, Mass.	109-010
Adams & Co., Boston, Mass.	108-926
R. L. Day & Co., Boston, Mass.	108-917
Hodgett, Merrill & Co., Boston, Mass.	108-710
H. S. Homer & Co., Boston, Mass.	108-659
Tower, Giddings & Co., Boston, Mass.	108-625
N. W. Harris & Co., Boston, Mass.	108-585
Geo. A. Fernald & Co., Boston, Mass.	108-530
Jose Parker & Co., Boston, Mass.	108-399
E. H. Rollins & Sons, Boston, Mass.	108-279
Parkinson & Burr, Boston, Mass.	108-200
Dietz, Denison & Prior, Boston, Mass.	108-000

The securities were awarded to Estabrook & Co. at their bid of 109-17.

**New Orleans, La.—Regarding the Incorporation of a Sewer Co.**—On April 14, 1897, the articles of incorporation of the New Orleans Sewer Company were filed in the city of New Orleans. The object of this company is to provide a system of sewerage for the city. The purposes for which the company was organized, as set forth in Article II. of the act of incorporation, are as follows:

"The objects and purposes for which this corporation is organized and the nature of the business to be carried on by it are hereby declared to be the acquisition of the sewerage franchise originally granted to A. A. Woods and his associates by ordinance No. 6,142, C. S., and to construct, maintain and operate the system of sewerage in the city of New Orleans, provided for in said ordinance and in the contract subsequently entered into by virtue of said ordinance between the said city of New Orleans and A. A. Woods and his associates, by act before Joseph D. Taylor, of date the 13th day of April, 1892; and to assume all the obligations of said A. A. Woods and associates to the city of New Orleans under said contract and generally to construct and maintain works of drainage, sewerage and land reclamation."

The amount of capital stock is fixed at \$2,000,000, and it is provided that the company may become a going concern when the sum of \$700 in cash has been subscribed to the capital stock. The board of directors has authority to authorize mortgages upon the property of the company, without the consent of the stockholders to the extent of \$2,000,000, but to increase the debt beyond that amount the consent of the stockholders must be obtained at a special meeting called for that purpose.

**Niles (Ohio) School District.—Bond Sale.**—On May 3, 1897, the \$10,000 of 5 per cent school bonds of this district were awarded to N. W. Harris & Co. of Chicago, Ill., for \$10,547.50. The other bids received were:

Rudolph Kleybolte & Co., Cincinnati, Ohio.....	\$10,485 37
S. Kuhn & Son, Cincinnati, Ohio.....	10,460 00
Seasonood & Mayer, Cincinnati, Ohio.....	10,451 50
Farson, Leach & Co., Chicago, Ill.....	10,443 50
Mason, Lewis & Co., Chicago, Ill.....	10,417 00
The Lamprecht Bros. Co., Cleveland, Ohio.....	10,403 00
Fourth National Bank, Columbus, Ohio.....	10,385 00
First National Bank, Niles, Ohio.....	10,308 00
J. B. Works.....	10,292 00
Spitzer & Co., Toledo, Ohio.....	10,227 00
D. B. Lyons.....	10,167 50
W. J. Hayes & Sons, Cleveland, Ohio.....	10,094 00

All of the bids received were with accrued interest except that of N. W. Harris & Co., who bid \$10,547.50 flat.

**Norfolk County, Va.—Bond Offering.**—Proposals will be received until 12 o'clock noon, May 11, 1897, by Alvar H. Martin, Clerk of the Board of Supervisors, for the purchase of \$25,000 of 5 per cent refunding coupon bonds. The securities will be dated July 1, 1897; interest will be payable semi-annually, and the principal will mature in ten years from the date of issue.

**Ohio.—Bond Offering.**—Proposals will be received until June 10, 1897, by Malcolm Jennings, Clerk of the Sinking Fund Commission, for the purchase of \$250,000 of 3 per cent State bonds. The securities will be dated July 1, 1897, interest will be payable semi-annually on the first days of January and July, and the principal will mature July 1, 1902. No bid for less than par will be considered. The proceeds of the sale are to be placed to the credit of the sinking fund and the bonds, with the interest thereon, will be payable out of the sinking fund.

The aggregate debt of the State of Ohio at the present time is \$1,541,665, bearing 3 per cent interest.

**Okobajo Township, S. D.—Bond Issue.**—This township is refunding certain school bonds which are redeemable at the present time.

**Ogden, Utah.—Bonds Proposed.**—The Council of this city proposes to issue \$250,000 of bonds for the purpose of either purchasing or erecting water-works.

**Omaha, Neb.—Bonds Authorized.**—The citizens of Omaha have voted in favor of a proposition to issue \$50,000 of paving bonds.

**Orange, N. J.—Note Sale.**—This city has sold \$150,000 of 4½ per cent sewer notes to the New York Mutual Life Insurance Company at par. The securities are dated May 1, 1897, interest is payable semi-annually on the first days of May and November, and the principal will mature at the rate of \$37,500 every six months from November 1, 1897, to May 1, 1899, inclusive.

**Palo Alto, Cal.—Bond Sale.**—The town of Palo Alto has sold the \$40,000 of 4 per cent 1-40 year bonds to J. H. Warren & Co., of Portland, Ore., at par and accrued interest. Interest on the securities is payable at Palo Alto.

The bonds were originally awarded to the Lamprecht Bros. Co. of Cleveland, Ohio, but as that firm claimed the accrued interest on the securities, the award was canceled and the bonds sold as above.

**Pickens County, Ala.—Bond Sale.**—Pickens County has refunded certain 8 per cent bonds by an issue of 6 per cent bonds.

**Pelham Manor, N. Y.—Bond Sale.**—On May 1, 1897, the \$50,000 of 4 per cent gold sewer bonds of Pelham Manor were awarded to E. H. Rollins & Sons, of Boston, Mass., at 105.53. The other bids received were:

Rudolph Kleybolte & Co., New York, N. Y.....	105-090
N. W. Harris & Co., New York, N. Y.....	103-570
E. L. Day & Co., New York, N. Y.....	102-139
J. & W. Sellman & Co., New York, N. Y.....	102-137
Dietz, Denison & Prior, Cleveland, Ohio.....	101 770
Seymour Bros. & Co., New York, N. Y.....	101-750
Dan'l A. Moran & Co., New York, N. Y.....	101-680
Bertron & Storrs, New York, N. Y.....	100-125
L. W. Morrison, New York, N. Y.....	100-040
Isaac W. Sherrill, Poughkeepsie, N. Y.....	100-000

Five other bids were received which were either too late or failed to comply with the terms of the sale.

Interest on the securities is payable semi-annually on the first days of May and November at the office of the Knickerbocker Trust Company of New York City; the principal will mature May 1, 1917.

**Pittsburg, Pa.—Correction.**—The \$6,000,000 water bonds sold by the city of Pittsburg to James Caruthers of Pittsburg bear 4 per cent interest instead of 4½, as reported by us last week.

**Pittsfield, Mass.—Bond Offering.**—Proposals will be received until 3 o'clock P. M., May 12, 1897, by E. H. Kennedy, City Treasurer, for the purchase of \$170,000 of 4 per cent gold school bonds and \$100,000 of 4 per cent gold water bonds.

The securities will be dated May 15, 1897; interest will be payable semi-annually on the fifteenth days of May and November, and the principal of each issue will mature at the rate of \$10,000 per annum, beginning with May 15, 1898. Both principal and interest will be payable at the National Bank of Redemption of Boston, Mass. The above loans will be issued in the form of coupon bonds of \$1,000 each, or, if desired, the school bonds will be in the form of registered certificates of \$1,000, \$5,000 or \$10,000 and the water bonds in the form of registered certificates of \$1,000 or \$5,000.

The official advertisement of this bond offering will be found elsewhere in this Department.

**Pittsford, N. Y.—Bonds Authorized.**—At an election held in this place on May 4 the question of issuing bonds to pay for the construction of a water-works system was carried.

**Portland, Ore.—Bond News.**—A report has been published to the effect that the city of Portland has sold \$90,000 of 6 per cent 20-year funding bonds. We have been officially informed that this is not true. In September, 1896, the city sold \$85,000 of 6 per cent 10-year improvement bonds to J. W. Caruthers at par and accrued interest, to be taken from time to time as the city should issue them. The contract has not as yet been entirely filled.

**Punxsutawney, Pa.—Bond Offering.**—Proposals will be received until May 13, 1897, by this borough for the purchase of \$8,000 of bonds. The securities will bear interest at the rate of 4 per cent and will mature in thirty years from date of issue, subject to call after eight years.

**Richmond Hill, N. Y.—Bond Sale.**—On May 1, 1897, the \$70,000 of 4 per cent gold street improvement bonds of the village of Richmond Hill were awarded to Farson, Leach & Co., of New York City, at 109.587. The other bids received were:

Roberts & Co.....	109-375
C. H. White & Co., New York, N. Y.....	109-251
Rudolph Kleybolte & Co., New York, N. Y.....	109-030
Walter Stanton & Co., New York, N. Y.....	108-500
Isaac W. Sherrill, Poughkeepsie, N. Y.....	107-870
Street, Wykes & Co., New York, N. Y.....	107-850
Dietz, Denison & Prior, Boston, Mass.....	107-777
W. J. Hayes & Sons, Boston, Mass.....	107-750
Seymour Bros. & Co., New York, N. Y.....	107-730
Dan'l A. Moran & Co., New York, N. Y.....	107-168
The Lamprecht Bros. Co., Cleveland, Ohio.....	107-100
Bertron & Storrs, New York, N. Y.....	107-070
Geo. M. Hahn, New York, N. Y.....	106-950
Benwell & Everitt, New York, N. Y.....	104-375
E. D. Shepard & Co., New York, N. Y.....	101-580
E. H. Gay & Co., Boston, Mass.....	101-195

The securities are of the denomination of \$1,000 each, dated May 1, 1897; interest is payable semi-annually on the first days of May and November, and the principal will mature at the rate of \$5,000 per annum, beginning with May 1, 1937.

**Ravenna (Neb.) School District.—Bond News.**—It has been reported that \$5,500 of 6 per cent 6-year school bonds of this district have been sold. We are informed by the Treasurer of the Board of Education that the report was not correct; the bonds have not yet been disposed of.

**Ridgeway and Shelby (N. Y.) Union Free School District No. 12.—Bond Sale.**—On May 1, 1897, the Board of Education awarded the \$19,000 of school bonds to Rudolph Kleybolte & Co., of New York City. The securities are of the denomination of \$1,000 each and will mature at the rate of \$1,000 per annum from November 1, 1898 to 1916, inclusive.

**Rockport, Me.—Bond Sale.**—The town of Rockport has sold \$13,000 of 3 per cent 5-10 year optional bonds to local parties at par. Interest on the securities is payable at the office of the Town Treasurer.

**Rocky River (Ohio) Special School District.—Bond Sale.**—On May 1, 1897, school bonds of this district to the amount of \$4,000, bearing interest at 6 per cent, were awarded to W. J. Hayes & Sons, of Cleveland, Ohio, for \$4,167. The following is a list of bids received:

W. J. Hayes & Sons, Cleveland, Ohio.....	\$4,167
H. W. Blocher.....	4,160
S. A. Keane, Chicago, Ill.....	4,050
Spitzer & Co., Toledo, Ohio.....	4,037
Rogers & Son, Chagrin Falls, Ohio.....	4,017
Dietz, Denison & Prior, Cleveland, Ohio.....	4,007
Seasonood & Mayer, Cincinnati, Ohio.....	4,007
Lamprecht Bros. Co., Cleveland, Ohio.....	3,980
J. B. Works, Cleveland, Ohio.....	3,920

The securities are of the denomination of \$300 each, dated May 1, 1897, and will mature at the rate of \$300 per annum from May 1, 1898 to 1902, inclusive.

**Saaron Springs N. Y.—Bond Offering.**—Proposals will be received until 7 o'clock P. M., May 13, 1897, by the Board of Water Commissioners of this village, for the purchase of \$30,000 of water-works bonds.

**Somerville, Mass.—Bond News.**—The bonds of this city, reported in the CHRONICLE of April 10 as having been authorized, are described as follows: City Loan bonds to the amount of \$143,000 and Sewer Loan bonds amounting to \$25,000. All of the securities will be dated July 1, 1897, will bear interest at 4 per cent, payable semi-annually at the National Security Bank, Boston, and will be of the denomination of \$1,000. The principal of the City Loan bonds will mature part yearly on July 1, as follows: from 1893 to 1901, \$11,000 yearly; from 1902 to 1907, \$9,000 yearly; from 1908 to 1911, \$5,000 yearly,

and from 1912 to 1917, \$4,000 each year. The Sewer Loan bonds will mature at the rate of \$1,000 yearly on July 1, from 1898 to 1922, inclusive.

**Southport (N. Y.) School District No. 4.—Bond Offering.**—Proposals will be received until May 15, 1897, by this district for the purchase of \$5,500 of 5 per cent school bonds. Interest on the securities will be payable annually, and the principal will mature in from four and one-half to fifteen and one-half years from date of issue.

**Syracuse, N. Y.—Bonds Authorized.**—The city of Syracuse has been authorized to issue \$54,000 of bonds for the construction of municipal subways.

**Tyrene, Pa.—Bond Election.**—A proposition to issue bonds for the purchase of a water-works plant will be put to a vote of the people of this municipality on June 19, 1897.

**Union County, N. J.—Bonds Authorized.**—This county has been authorized to issue \$33,000 of bonds for the purchase of the Sheridan House of Elizabeth, N. J., for county purposes.

**Washington, Pa.—Bond Offering.**—Proposals will be received by the finance committee of the Borough Council, Gen. John Hall, Chairman, for the purchase of \$60,000 of street improvement bonds of this borough.

The securities are coupon bonds of the denomination of \$500. They will be dated July 1, 1897, interest at the rate of 4 per cent will be payable at the office of the Borough Treasurer on the first days of April and October in each year, and the principal will mature, part yearly, on October 1, from 1898 to 1910 inclusive. The present bonded debt of the borough is \$129,700 and the latest assessed valuation was \$3,029,577.

**Waterford (N. Y.) Union Free School, District No. 1.—Bond Offering.**—At 12 o'clock noon to-day the Board of Education will sell \$20,000 of 4 per cent bonds. The securities will be of the denomination of \$1,000 each, dated May 1, 1897; interest will be payable semi-annually on the first days of May and November, and the principal will mature at the rate of \$1,000 per annum from May 1, 1912 to 1911, inclusive. Both principal and interest will be payable at the Garfield National Bank of New York City.

**Waltham, Mass.—Bond Sale.**—We give below a list of bids received on May 4, 1897, for the \$7,000 of 4 per cent thirty-year sewer bonds, \$6,000 of 4 per cent twenty-year water bonds and \$5,000 of 4 per cent ten-year building bonds of this city. The sewer and water bonds were awarded to Messrs. Jas. W. Longstreet & Co. and the building bonds to Messrs. R. L. Day & Co., Boston. The bids were as follows:

	Sewer Bonds.	Water Bonds.	Building Bonds.
James W. Longstreet & Co.....	108-793	108-798	103-619

Columbian Trust Co., Middletown, Ct.....	105-523	104-920	102-300

The sewerage and building loans are dated Jan. 1, 1897, and the interest is payable on the first days of January and July. The water bonds are dated April 1, 1897, and the interest is payable on the first days of April and October. All the above loans are issued in the form of coupon bonds of \$1,000 each.

**Wauseon, Ohio.—Bonds Authorized.**—The City Council of Wauseon has authorized an issue of bonds to provide for the construction of a water-works system.

**Wilkes-Barre, Pa.—Bond Offering.**—On June 1, 1897, at 10 o'clock A. M., the city of Wilkes-Barre will sell at public auction \$100,000 of 4½ per cent improvement bonds. The securities will be dated June 1, 1897, and the interest will be payable semi-annually on the first days of June and December at the office of the City Treasurer of Wilkes-Barre. The loan will be issued in the following form:

25 bonds of \$100 each, redeemable June 1, 1902, payable June 1, 1927.  
15 bonds of \$500 each, redeemable June 1, 1902, payable June 1, 1927.

NEW LOANS.

\$300,000

NEWARK, NEW JERSEY,

FOUR PER CENT

Free Public Library

Bonds.

NEWARK, N. J., May 2d, 1897.  
I, JAMES S. GIBSON, Comptroller of the City of Newark, New Jersey, will receive until Wednesday, May 25, 1897, at 4 o'clock P. M., sealed bids for an issue of thirty year 4 per cent registered bonds in the sum of

\$300,000,

being an issue of bonds in that amount authorized by law for the construction of the Free Public Library, which bonds will be issued in denomination of \$1,000 each. Bids to be opened Wednesday, May 20, 1897, at 4:15 P. M. Each bidder to state in writing the highest amount at which he will purchase the whole or any part of said issue of \$300,000. Bonds to be dated June 1, 1897, exempt from tax, and interest payable semi-annually. Bids to be accompanied by a certified check for 5 per cent of amount bid for. The right to reject any and all bids reserved. All bids to be addressed to John S. Gibson, Comptroller, Newark, New Jersey, and marked "Bid for Library Bonds."

Water debt of city.....	\$7,757,000 00
Other debt of city.....	6,048,000 00
Total permanent debt.....	\$13,775,000 00
Amount in sinking funds.....	2,798,622 00
Net debt.....	\$10,996,378 00
Assessed valuation.....	\$123,483,311 00
Net earnings of the water plant for the year 1896.....	\$405,181 20

The temporary indebtedness of Newark is represented by temporary loan bonds issued against unpaid taxes and assessments for paving and sewers, and the temporary debt of the city far exceeds its temporary liabilities. Of its permanent debt the amount from the Water Department are about equivalent to meet the interest and sinking fund charges on the total water debt. The interest and sinking fund charges on \$12,000,000 of Tax Anticipation Bonds are fully met by the collection of taxes on real estate and in great and sinking fund charges on the issue of Water Bonds are paid from the earnings of the Waterworks. The net reduction in the permanent debt of the city will be \$1,127,127 20.

JOHN S. GIBSON, Comptroller  
Room 1, City Hall,  
Newark, N. J.

NEW LOANS.

\$270,000

City of Pittsfield, Mass.,

4 PER CENT SCHOOL

AND

WATER BONDS.

Principal and Interest payable in Gold.

OFFICE OF THE CITY TREASURER,  
PITTSFIELD, MASS., April 20, 1897.

Pursuant to order of the City Council, approved by the Mayor April 8, 1897, the undersigned, Treasurer of the City of Pittsfield, will receive until Wednesday, May 12th, 1897, at 3 P. M., sealed proposals for the whole or any part of Two hundred and seventy \$1,000 Coupon Bonds.

Said bonds will be dated May 15th, 1897, to be payable \$10,000 annually, and will bear interest at the rate of 4 per cent per annum, payable semi-annually on the 15th days of May and November. Principal and interest payable in gold coin of the United States of the present standard of weight and fineness, at the National Bank of Redemption, in Boston, Mass.

School bonds to the amount of \$170,000 will be issued under authority given by Chapter 20 of the Public Statutes of Massachusetts and amended Acts.

Water bonds to the amount of \$100,000 will be issued under authority granted to the City of Pittsfield by the provisions of Chapter 185 of the Acts of the General Court of Massachusetts for the year 1892, as amended by Chapter 91 of the Acts of the year 1894, and as amended by Chapter 114 of the year 1896.

School bonds will be paid in seventeen annual instalments of \$10,000 each and Water bonds in ten annual instalments of \$10,000 each.

If desired, registered School bonds may be issued in sums of \$1,000, \$5,000 or \$10,000, and registered Water bonds in sums of \$1,000 or \$5,000 each, at the option of the holder.

The right is reserved to reject any or all bids.

Further information may be obtained of the undersigned, to whom proposals should be addressed, endorsed respectively, "Proposals for School Bonds", "Proposals for Water Bonds."

E. H. KENNEDY,  
City Treasurer.

NEW LOANS.

\$618,000

QUEENS COUNTY, N. Y.,

GOLD

4% ROAD BONDS.

Dated April 1, 1897. Due April 1, 1917.  
Interest April and October.

Assessed valuation.....	\$85,345,111 00
Real valuation.....	2,000,000 00
Total debt (a little more than 2% of assessed valuation).....	1,840,000 00

A great part of Queens County is included in the GREATER NEW YORK, and within the portion so included are practically all of the highways for the improvement of which these bonds are issued.

Legal for investment for Trustees and Savings Banks in New York State.

Price and Particulars on Application.

The Lamprecht Brothers' Co.,  
197 Superior St., Cleveland, O.

\$92,000

Choteau County, Mont.,

6 PER CENT BONDS.

Sealed proposals will be received at the office of the County Clerk of Choteau County, Montana, at Fort Benton, the county seat of said county, up to noon of Monday, June 7th, 1897, for the purchase of \$92,000 coupon bond of said county, said bonds to draw interest at the rate of six per cent per annum, payable semi-annually, in January and July of each year, redeemable in fifteen and payable in twenty years after date of issue. Said bonds are issued for the purpose of converting outstanding warrants and redeeming other bonds of said county now due and payable. Said new bonds will be issued in denominations of \$1,000 each, and bids will be received for the whole or any part of the aforesaid amount. Proposals must be endorsed "Proposals for Bonds", and addressed to E. Frank Sayre, County Clerk, Fort Benton, Montana. The right to reject any or all bids is reserved.

By order Board County Commissioners,  
E. FRANK SAYRE, County Clerk

Chronicle Volumes.  
A second-hand set from 1886 to 1895—66 Volumes, for sale.  
WILLIAM B. DANA COMPANY,  
76½ Pine Street, New York

20 bonds of \$500 each, redeemable June 1, 1907, payable June 1, 1927.  
 20 bonds of \$1,000 each, redeemable June 1, 1912, payable June 1, 1927.  
 20 bonds of \$1,000 each, redeemable June 1, 1917, payable June 1, 1927.  
 20 bonds of \$1,000 each, redeemable June 1, 1922, payable June 1, 1927.  
 20 bonds of \$1,000 each, payable June 1, 1927.

Of the total amount to be issued, \$70,000 will be devoted to sewer construction, \$10,000 to fire-department improvement and \$20,000 to street improvement.

The bonded debt of Wilkes-Barre, including this issue, is \$493,700; floating debt, \$53,726; total debt, \$547,426. The cash in the treasury at the present time amounts to \$25,720; other available assets, \$93,666; total resources, \$119,386; net debt, \$428,040. The assessed valuation is \$3,877,871; the real value is estimated at about \$35,000,000. The population in 1890 was \$38,000, and at the present time is estimated at about \$5,000.

**York County, Me.—Bond Sale.**—York County has sold \$25,000 of 4 per cent bonds to Woodbury & Moulton of Portland, Me. The other bids received were:

Swan & Barrett, Portland, Me.	102-09
E. H. Rollins & Sons, Boston, Mass.	102-04
Farson, Leach & Co., New York, N. Y.	102-04
Lutner R. Moore, Saco, Me.	101-78
Dietz, Denison & Prior, Boston, Mass.	101-67

This loan constitutes the only bonded indebtedness of York County.

### STATE AND CITY DEBT CHANGES.

We subjoin reports as to municipal debts received since the last publication of our STATE AND CITY SUPPLEMENT. Some of these reports are wholly new and others cover items of information additional to those given in the SUPPLEMENT and of interest to investors.

**Essex County, New Jersey.**—Ed. L. Conklin, Auditor. In the debt statement of this county, published in the April number of our STATE AND CITY SUPPLEMENT, the \$1,500,000 issue of 4 per cent park bonds put out last year was inadvertently omitted. We reprint the statement below with that issue inserted, and with the other figures in the statement corrected down to the latest dates.

The county seat is Newark.

Total all cities, 5 days.....	\$824,652,188	\$839,582,093	-1.8
All cities, 1 day.....	165,011,076	176,914,372	-6.7
Total all cities for week.....	\$989,663,264	\$1,016,496,465	-2.6

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, May 8, and the results for the corresponding week in 1896, 1895 and 1894 are also given. Contrasted with the preceding week, there is an increase in the aggregate exchanges of about one-hundred and ninety-nine million dollars, and at New York alone the gain is over one-hundred and thirty-five millions. In comparison with the week of 1896 the total for the whole country shows an increase of 4.6 per cent. Compared with the week of 1895 the current returns record a decline of 1.1 per cent, and the excess over 1894 is 25.7 per cent. Outside of New York the gain over 1896 is 1.0 per cent. The increase over 1895 reaches 4.6 per cent, and making comparison with 1894 the excess is seen to be 15.2 per cent.

Week ending May 8.

### THE FINANCIAL SITUATION.

Nothing essentially new has transpired the past week affecting business affairs. The more prominent influences are the old ones. Gold exports have probably attracted more attention than any other event. Not for years has such a movement occurred under circumstances which impart to it less reason for anxiety. But we have treated that matter on subsequent pages.

As the week closes Cuban affairs have been given new prominence and have made the public a little anxious. This anxiety has arisen from the fact that the discussion with reference to Cuban belligerency in the Senate has been met by the President inviting three of the Senators to examine the reports from the Government's representatives in Cuba on file in the State Department. No doubt a bad condition of affairs exists in that island. A two years' civil war could not be carried on, especially within a limited space, without doing immense harm, working serious injury, and being attended by cruel wrongs. To stop these disturbances and restore the island to a state of peace and prosperity could not fail to be the earnest wish of every one. A further new and interesting feature in the case is a memorial signed by leading merchants and bankers of New York, Boston and Philadelphia in the Cuban trade, addressed to Secretary Sherman. This memorial, we understand, has not yet been presented to the Department, nor has it been made public. Report says it simply asks the Government in the interests of humanity and commerce to take such steps as it can to put a stop to the war so that business may be resumed and the sufferings of the people cease. From what the President is reported to have said it would seem as if some plan was in his mind and in progress of development which gave promise of relief. Cuban belligerency is, however, a proposal that cannot be acceded to unless a state of affairs exists which makes it a fact, and cannot be desired except by those who would like to irritate Spain and involve us in trouble with that Government.

The war between Greece and Turkey no longer affects business interests here. It looks though to-day as if that affair and its results might not far hence give rise to the great question of the age among those who seek to promote the welfare of the race. At the moment the only party connected with the Cretan, Grecian and Turkish involvement whose prestige has come out of it with added lustre is the Sultan of Turkey. As to the Powers, who so loudly proclaimed peace as their purpose, they have certainly had a hand in the nastiest little war that has ever disgraced Europe, having at the outset, willingly or unwillingly, aided Turkey and crippled Greece as antagonists. As to Greece the feeling is general that her armies have been very poorly led; that possibly the result may have been a foregone conclusion, but no one can be found here who does not think that the bravery of the soldiers and the justice of their cause deserved better management.

But how does this affair leave "poor, sick Turkey", about which so much has been heard in the past. One cannot help remembering at this juncture events which have led up to the present crisis. Recall that famous speech of Lord Salisbury at the Mansion House on the evening of Nov. 19 1895. That was the occasion which marked a very important stage in the develop-

ment of Turkish diplomacy. Almost up to that moment the Christians were being brutally murdered by the thousands within the dominion of the Sultan and this concert of nations was looking on hopefully but helplessly. Just at that time at the dinner referred to came those ringing words from Lord Salisbury intended as descriptive of Turkey's condition which we all applauded so heartily—"Constant misgovernment must lead the Government that carries it on to its doom", and much more to the same effect. Passing the Sultan's letter which this speech drew out, we come to the next stage in this diplomatic concert, which was marked by another speech by Lord Salisbury just a year later, November 9 1896. On this occasion not quite as complete confidence was expressed in the shattered condition of Turkey; indeed, the Sultan's diplomacy seemed to be in the ascendant. The form the speech took this time was simply the expression of a hope that "the Powers would be able to convince Turkey that she was drifting in the current toward an abyss and that they would succeed in diverting her before she arrived at the edge." The next we hear of this concert of Powers it is apparently engaged in encouraging Turkey to destroy Greece, and, as it was a kind of work Turkey has always shown a liking for, she has done it, and according to latest news, keeps on doing it even after being called off by all Europe. No doubt she will stop when she gets ready, but most likely it will be when she gets her claws where she can enforce her demands. That, though, is a point of small difference probably. The question of the day is, Where is "poor, sick Turkey" now?

A favorable industrial event is that another railroad company has been able to float 3½ per cent bond issues. We refer to the transaction announced this week by the Illinois Central, covering the negotiation of \$30,000,000 3½ per cent bonds, secured upon the former Chesapeake Ohio & Southwestern and the St. Louis Alton & Terre Haute roads, both now constituting parts of the Illinois Central system. While this is not a refunding operation like the refunding operations of the New York Central and the Lake Shore, the benefits to result from it to the Illinois Central will be very substantial, and it is a highly gratifying fact that in times of business depression, such as we are now passing through, several of our leading roads should be able to borrow at such low rates. It is hardly necessary to say that under present conditions only dividend-paying companies of excellent standing and high credit can secure money at 3½ per cent. Of the \$30,000,000 bonds, \$20,000,000 will be issued on the Chesapeake Ohio & Southwestern and enable the Illinois Central to finance the purchase of that road and \$10,000,000 will be on the old Alton & Terre Haute Road and permit the taking up of branch line bonds, bearing much higher interest rates, in one instance as high as 7 per cent. Only \$6,000,000 of the \$30,000,000 bonds, we understand, will be sold and delivered at once. The company has also arranged to extend at 3½ per cent certain small issues of bonds maturing in the near future. But we need not go into particulars, as the full details will be found in our railroad news columns on another page. We may summarize the advantages to result from the new loans, however, by saying that the effect will be to diminish the Illinois Central charges and enable the company to take up prior liens on the Chesapeake Ohio & Southwestern and to realize on the large ad-

vances made on that property, besides supplying the means to provide for the purchase of the minority interests in the various branch and leased lines of the Alton & Terre Haute.

The effect of the absence of trade revival and the continued decline in prices in the iron industry is seen in the monthly report of the "Iron Age" of this city, showing a falling off in the production of pig iron for the first time since the Presidential election of last year. The "Age" reports only 146 furnaces in blast May 1, having a capacity of 170,528 tons per week, against 153 furnaces April 1, with a capacity of 173,279 tons. The smaller furnaces are being steadily crowded out, as is apparent from the fact that the number of active furnaces is now one less than it was in December last, though the production then was only 142,278 tons per week, against 170,528 tons now. Prices for iron and steel are ruling at extremely low figures. For instance "The Age" reports that steel billets this week touched \$13.75 at Pittsburg and \$13.50 at the Valley furnaces, prices believed to be the lowest yet reached in this country. The curtailment of the output of iron should tend to restore the equilibrium between supply and demand. With better prices for the raw product, there would necessarily come an improvement in the prices of all forms of iron and steel. We notice that there was only a further slight increase in the reported total of stocks of iron on hand, sold and unsold, the amount for May 1 being 1,038,639 tons, against 1,029,831 tons for April 1.

We have reached the period of the year where considerable interest attaches to the progress of agriculture and crops in the farming districts. The only large crop, however, regarding which it is possible to speak with any definiteness yet, is the winter-wheat crop. The Agricultural Bureau at Washington has this week issued its report for May 1st, and this shows that on that date the general average of condition for winter-sown wheat was a little lower even than in May last year, the average being 80.2 per cent for 1897, against 82.7 for 1896. From the Central Western States the returns are very poor as a rule, Ohio being the one prominent exception, with an average of 82, against 55 last year. In Illinois injury from freezing and deficient snow has reduced the average to only 37; in Missouri the condition, though somewhat better than this, is only 54; in Indiana the average is 61, and in Kansas 78, being in each case materially lower than a year ago. In Kansas the condition is 78 against 96. In the South, on the other hand, the average of condition is very high—Tennessee 93, Virginia 99, Texas 98 and Maryland 102, which in all but the first case is a decided improvement over a year ago. On the Pacific Coast the condition was excellent in 1896 and is likewise very good the present year, being 97 for California and 95 for Oregon. A tabular comparison for the leading States will be found at the end of our breadstuffs market on page 964. The wet spring has been very favorable to spring pasture and meadows, the average condition of pasture being reported at 93.4 this year against 93.2 last year, and that of meadows 93.4 against 91.8.

Money on call, representing bankers' balances, has loaned at the Stock Exchange this week at 1½ and at 1½ per cent, averaging 1½ per cent, and the supply has been liberal. Banks and trust companies who offer their money on the Exchange have accepted the current

rates. The inquiry for time loans is very small and brokers find difficulty in placing them, though offered on advantageous terms both as to rates and collateral. Quotations are 2 per cent for thirty to sixty days, 2½ per cent for ninety days to four months, 3 per cent for five to six months, and 3½ per cent for longer periods, on good Stock Exchange security. There is a fair demand for commercial paper and a good supply, merchants borrowing more freely, mainly for the purpose of paying duties upon imported goods. The rates are firmly held at 3½@3¾ per cent for sixty to ninety day endorsed bills receivable, 3¾@4½ for first-class and 4½@5 per cent for good four to six months' single names.

It was announced on Sunday that the Greeks had decided upon the evacuation of Crete, by the advice of the representatives of the Powers, as a step preliminary to mediation between Greece and Turkey. Later it was reported that the Porte demanded as terms of peace not only an indemnity from Greece, but the surrender of a portion of her fleet and the cession of the mountain passes on the Greek frontier. The Ministers of the Powers on Wednesday submitted to the Sultan a demand that he direct a cessation of hostilities in order that peace negotiations could be undertaken, but at the latest dates this demand had not been heeded. The Bank of England minimum rate of discount was reduced on Thursday to 2 per cent, from 2½ per cent, at which it had stood since April 8. The cable reports discounts of sixty to ninety-day bank bills in London ¾ of 1 per cent. The open market rate at Paris is 1¾ per cent, at Berlin 2¾ per cent and at Frankfort 2½ per cent. According to our special cable from London the Bank of England lost £33,131 bullion during the week and held £36,220,584 at the close of the week. Our correspondent further advises us that the loss was due to the £15,000 (bar gold) sold in the open market, to £91,000 net sent to the interior of Great Britain and to £73,000 imported, of which £50,000 was from the Cape, £17,000 from Australia and £6,000 from Portugal.

After opening firm, the foreign exchange market became easy, though not quotably lower, and it so continued until Wednesday afternoon, when it grew firm, still without any change in rates for actual business, and it so remained on Thursday and Friday. During the week \$2,800,000 gold was engaged for shipment to Europe—\$550,000 coin by Kidder, Peabody & Co. through Baring, Magoun & Co. for shipment on Thursday and \$1,000,000 bars by Heidelbach, Ickelheim & Co., and \$1,250,000 bars by Lazard Freres for shipment to-day. The nominal rates have been without change at 4 87 for sixty-day and 4 88@4 88½ for sight, the Bank of British North America posting the lower sight figure. Rates for actual business opened on Monday one-quarter of a cent higher for long sterling, at 4 86½@4 86½, compared with the close of last week, while short sterling and cable transfers were unchanged and the tone was firm. On the following day and on Wednesday until the afternoon the market was easy, though for actual business quotably unchanged, and on Thursday it was firm and dull, and the only evidence of offering of gold bills was the reported sale of £50,000 at 4 87½. Yesterday the conditions remained the same, the close being quiet and steady. The following shows the daily posted rates for exchange by some of the leading drawers.

1

Certainly no one finds it necessary to be reminded of the short stop these transactions and the 60-day bills issued put on the gold export movement. The check was so sharp that, although gold was actively

moving to Europe the first half of the week ending July 25th, not a dollar went out on Saturday. More than that, after a few weeks, with the help of considerable sales of 60-day bills, of dearer money and freer exports of merchandise, the flow of gold was reversed and the United States received large additions to its stock, aggregating from August 1 1896 to the 31st of December, inclusive, \$72,882,000. To what extent the bankers associated together in July sold their bills and how long it was before they fully covered them, we do not pretend to know. Neither can we know with accuracy the state of the country's accounts with the outside world on January 1 1897; the peculiar situation of affairs which we have briefly but only in part recited makes that problem peculiarly intricate and involved. At the same time a study of the trade record in connection with the circumstances mentioned above and the high rate of exchange which has ruled ever since the middle of December, when gold imports ceased, gives probability to the assumption that the holdings of foreign exchange for investment on the first of January must have about balanced the trade accounts of the United States with the outside world when 1897 opened.

Other matters could be urged and facts cited to fortify this conclusion. We do not think they are needed. On the basis thus reached the current gold exports will be seen to be fully accounted for and easily explained. After making our usual allowance for freights, undervaluations, travelers' credits, etc. (aggregating about 160 million dollars annually), the total foreign trade movement (including the unrecorded as well as the recorded data) made up since January 1 and covering April, will net a considerable balance against us. In other words, the facts indicate that this idea of loaning gold, as some would call it, is nothing but a settlement of accounts for the large stocks of foreign merchandise we have recently been accumulating; that as soon as Europe stops offering a premium for our gold, the rate of exchange will further rise and gold exports continue in a wholly natural way. Of course there is always the possible contingency of a return of the disposition in Europe to invest in American securities, which would speedily check a gold outflow.

But whether the confidence of foreign investors is soon to be realized or not, the truth is unquestionable that it is long since the occasion of a gold outflow offered so little reason for anxiety as it does now. The past year has very materially replenished the country's stock of that metal. Not only have the imports been large the past nine months, but the production has been large and increasing, so that the banks and the Treasury are abundantly able to supply the demand. More than that, under the Senate tariff bill we have good promise of a sufficient Government income to wipe out the deficit which has of course for years been a source of special weakness. Then again these large imports are but a temporary affair and must be soon followed by abnormally small ones. If we have on hand over a year's consumption of sugar and of many other important articles affected by tariff revision, it stands to reason that so far as that is true there can be no call for the importation of those articles during near-by months. Besides, higher duties will check imports of general merchandise for a time, and until prices have risen so as to correspond with the advance in the Customs rate. To be sure the same influence will tend too to decrease exports, but that is

an effect of slower growth. Altogether very soon after tariff legislation is completed our foreign trade ought to show a favorable balance again.

There is one other condition which we hope for and which, if it can be attained, will for the time being tend to relieve all anxiety over gold exports and inspire confidence. We refer to a prospect that some movement in Congress towards currency reform may be made as soon as tariff legislation is over. If a Commission to report a plan next fall could be appointed, it would put hope into every department of business. Can not industrial interests be so far favored?

#### *STATUS OF NON-ASSENTING BONDS IN REORGANIZATIONS WITHOUT FORECLOSURES.*

Considerable interest and importance attaches to the position of minority or non-assenting bondholders in cases where a company finds itself unable to meet the payments required on its bonds, and where a reorganization is effected on a lower basis of charges, but without foreclosing the mortgage securing the bonds. The courts hold to the doctrine that in such cases a bondholder who has declined to accept the terms of reorganization offered is not bound by the action of his fellow bondholders (barring an express reservation to that effect in the mortgage) no matter though the holdings of these bondholders may constitute the bulk of the whole issue, but can secure a judgment against the company on his own bond for the amount of his claim. Foreclosure is an expensive process, and the effort always is to avoid this step if possible. Hence where all but an insignificant minority of the bondholders give their adhesion to a reorganization scheme, the scheme is generally carried into effect. The non-assenting bondholders have not been slow to see the advantage which this gives them, and in one or two instances they have been able to secure for themselves very much better terms than the majority bondholders.

There is an obvious injustice and unfairness in this, and as an obstreperous or scheming minority is capable of a great deal of mischief, provisions have been inserted in the newer mortgages intended to guard against leaving the majority at the mercy of the minority by making any modifications or arrangements accepted by a certain proportion of the bondholders binding upon all. In view of that fact, a decision just rendered in an action brought by a holder of one of the old bonds of the Denver & Rio Grande Western Railway will no doubt receive considerable attention. The case was one where the mortgage deed explicitly gave to a majority in interest of the bondholders the right and power to waive default and the rights accruing thereunder and to accept new terms and conditions if thought desirable (such action to be conclusive upon all the bondholders), and where yet an individual bondholder was able to prosecute successfully an action against the company for default in the payment of coupons on certain bonds held by him. Those who do not understand the special facts and circumstances governing in this case may be led to conclude that even where a mortgage deed has been especially framed to cover a contingency of that kind, the majority are powerless to prevent harassing litigation on the part of some individual bondholder. It is hence desirable that the exact facts should be set out. As we proceed it will become apparent that the decision embraces

few points of general application. The truth is, the complainant bondholder had very clever counsel, who were not slow to perceive certain weak points in the railroad company's defense, and to attack those points with great vigor and persistency.

The case has been in the courts for a great many years, and there have been a number of trials of the issues involved. In order to understand the decision rendered this week, it is necessary to refer to the previous decisions in the same suits and the points involved in each. The original action was brought February 14 1890, against the present Rio Grande Western Railway, by Simon Rothschild as the holder of 110 coupons cut from 10 of the bonds of the old Denver & Rio Grande Western Railway Company. The coupons represented semi-annual instalments of interest for thirty dollars each maturing September 1 and March 1 from September 1 1884 to September 1 1889, inclusive. The company in 1885 had found itself unable to meet its interest in full and had arranged with the bondholders to pay the same part in cash and part in scrip. According to a report which we find for August 1, 1887, no less than \$5,681,000 of the bonds (out of a total of \$6,900,000) had agreed to the funding scheme up to that date. The plaintiff in the present suit, however, did not assent. In 1889, in order to provide means for widening the gauge of the road, and at the same time to make a definite adjustment with the bondholders, the company was completely reorganized and new bonds of the Rio Grande Western Railway bearing 4 per cent interest (together with an allowance of preferred stock) were issued in exchange for the 6 per cent bonds of the old Denver & Rio Grande Western Company. The amount of the old bonds outstanding, as already stated, was \$6,900,000, and no less than \$6,873,000 of this amount joined in the reorganization. The plaintiff, Rothschild, would not join in this arrangement either, but preferred to act independently, and brought the suit already referred to, on February 14, 1890, for the recovery of a judgment (for money only) on the 110 coupons held by him.

As said above, what gives the case prominence is that the mortgage contained a provision which seemed to make, and evidently was intended to make, it impossible for a bondholder to maintain a separate action. Thus Article VIII. of the mortgage deed reads: "It is further distinctly stipulated, mutually covenanted and agreed (any law or usage to the contrary notwithstanding) that neither the trustee, nor his successor or successors in the trust, nor the holder or holders of any bond or bonds hereby secured, shall pursue any remedy at law or in equity for obtaining possession of, or procuring a sale of the trust property hereby transferred and conveyed, or intended so to be, or any part thereof, otherwise than in the manner herein provided for enforcing his or their rights and demands, or recovering the whole or any portion of the principal or interest of the said bonds, it being the intention, stipulation, covenant and agreement of the parties hereto, with each other, and the bondholders secured hereby, for the better protection of the holders of the bonds hereby secured, collectively, and for the securing of the largest possible benefits and proceeds from the trust property or any portion thereof, that the modes and remedies of entry, or of sale, or both, hereinbefore provided, shall be exclusive of all others." Furthermore, Article IX. declares that it is mutually covenanted and agreed, as condi-

tions subject whereto the bonds secured hereby are issued and held by each successive holder, that the holders of a majority in interest of bonds may, by an instrument under their hands and seals duly authenticated, or resolution adopted at a meeting of such bondholders, waive or instruct the trustee to waive any default occurring, and the rights accruing therefrom, on such terms and conditions, or without any conditions, as to such majority shall seem proper."

These are broad declarations and it becomes important to know how the plaintiff, in face of them, was able to prosecute his suit successfully. The case was heard on two demurrers and two appeals from demurrers before it came to trial on the issues. At the first trial the matter came up in the Supreme Court, before Judge Andrews, and a judgment entered on a non-suit was rendered dismissing the complaint. The only point determined on this trial was the right of the bondholder to bring a suit on his coupons. From this judgment an appeal was taken to the General Term, First Department, where on January 18 1895 the decision of the trial court was reversed and a judgment given for the plaintiff. The opinion in this latter instance was by Judge Follett, Judges Parker and Van Brunt concurring. George Hoadley and William Strauss appeared for the plaintiff Rothschild, while Theodore F. H. Meyer represented the company. The Court took the position that the provisions in the mortgage declaring that no bondholder should pursue any remedy at law or in equity "otherwise than in the manner herein provided" related only to the sale under the mortgage and did not affect the right of the bondholder to sue at law on his bond. Furthermore the Court found an apparent inconsistency between the provisions in the bond and those in the mortgage. The bond contained the recital that the bond was entitled to the benefits and subject to the provisions of the trust deed, adding—"which trust deed also provides, in the several cases of default as therein specifically stated, for the right in the trustee to exercise the power of entry thereby conferred, the right to declare the principal due, to sell in case of non-payment of such principal, subject to the qualifications therein contained, to which trust deed reference is hereby made."

Judge Follett in the opinion referred to (which, as stated, was rendered in January 1895,) said that the language here quoted was not calculated to inform the purchaser of a bond that he could not sue at law for defaulted interest, but informs him that in case of default the trustee may enter into possession and sell the mortgaged property as provided in the mortgage. The paragraph clearly indicates that the rights and powers of the trustee to enforce the trust deed are expressed therein, but there is no intimation that the right of the bondholder to sue for the money which becomes due is denied or cut off by the trust deed. Undoubtedly, said Judge Follett, the bond and trust deed are to be construed together, but in case there is any ambiguity in any of the provisions of the mortgage, such ambiguity must be construed against the corporation, since it is an elementary rule for the construction of contracts that ambiguous phrases are to be taken most strongly against the covenantor, whose words they are.

While it is true that mortgage deeds are matters of record, the records are often in a State distant from the place at which the bonds are sold, and the purchaser seldom has an opportunity of examining the

terms of the instrument. The contention of the defendant would in effect exempt all of the property of the corporation, not covered by the mortgage, from liability to be taken in satisfaction of its bonded debt. No such stipulation is contained in the trust deed, nor in the bonds, nor in the coupons. The bonds and the coupons contain an absolute promise to pay definite sums on specific dates, which implies a right of action in case of failure; and if Article VIII. of the mortgage is capable of the construction claimed by the company, it is inconsistent with the bond, which in that case must prevail.

On these grounds the judgment of the lower court was reversed and a new trial granted on the facts. At this second trial the case came before Judge Beach, and the plaintiff again secured a judgment in his favor. An appeal was then taken to the Appellate Division (First Department), and it is this second appeal that has just been determined. We have gone thus at length into the decision on the prior appeal because the purport and scope of the latest decision cannot be understood without full knowledge of all the preliminary proceedings. Messrs. George Hoadly and William Strauss again appeared for the plaintiff, and Mr. C. A. Jackson represented the Rio Grande Western Company. The Court of course on this appeal did not consider anew the question as to the right of the plaintiff to maintain an action against the company, that question having been determined upon the previous appeal. The point passed upon was simply, whether the lower court had erred in ruling out an exhibit intended to show that a majority of the bonds in compliance with the requirement of Article IX. had waived the default in payment of the coupons.

The exhibit referred to consisted of a copy of the funding plan, having appended to it the signatures of bondholders supposed to have assented to the plan. It appears, however, that this paper was not authenticated in the way called for in the mortgage. There was no offer to prove any signature appearing thereon, and as the paper was not acknowledged by any of the signers, it could not prove itself. Nor was there any offer to prove that any of the signers were actually bondholders, or that if they were bondholders that they held the number of bonds set opposite their names, or held any other number of bonds. Finally, allowing all the items contained in the paper (some of them, it is alleged, were merely pencil memoranda indicating that certain amounts of bonds had assented to the funding plan), the total would foot up only \$2,689,000, out of a total issue of \$6,900,000, or considerably less than a majority of the whole. Thus in the first place the paper, not having been proved, could not be accepted as evidence, and in the second place if it had been proved the signers did not represent a majority of the bonds outstanding. The Court therefore holds that the ruling of the lower court in rejecting the paper in question was right, and with this the case of the defense necessarily falls to the ground.

Obviously the existence of these various special features controlling the determination greatly limit and restrict its significance. The earlier decision on appeal established merely that the limitations sought to be imposed by the mortgage were not in this instance broad enough to tie the hands of the individual bondholder in seeking a judgment on his unpaid coupons. The present decision upholds the plaintiff because

of the further ground that no legal proof has been offered to show that default had been waived in such a manner as to bind the minority holders. It is plain enough that the funding plan had the assent of the required amount of bonds, otherwise it could not have been carried out, and indeed we have shown that up to 1887 fully five-sixths of the outstanding bonds had given the plan their approval; but unfortunately the company was not able to produce proof of the fact in such a shape as to make it competent evidence in a court of law.

### THE COST OF GOVERNMENT.

In submitting, two weeks ago, his estimates of revenue and expenditure for the coming year, the Chancellor of the British Exchequer made some interesting historical comparisons. Sixty years ago, on the accession of Queen Victoria, "the revenue was £52,500,000; now it is £112,000,000." Expenditures were of course proportioned to the income in 1837 as in 1897, the conclusion being that during the sixty years under review the cost of running England's Government has increased over 100 per cent.

Such a comparison illustrates, perhaps more fairly than in the case of any other State, the tendency of governments, during the past half century, to enlarge expenditure. France makes a comparison quite as startling; though the increase in the debt since 1871 materially affects the showing. England, during the last half century, has not only reduced the annual rate of interest on its debt, but has cut down the principal some £200,000,000. The United States presents the most remarkable of all comparative arrays of figures. In 1836 this Government's expenditure, excluding interest on the debt, was \$30,868,164; in 1896 it was \$316,794,417. It had actually increased tenfold. But if the United States has an extravagant Government to-day, it had a somewhat needy Government sixty years ago. Furthermore, the United States, within the last half century, has increased 45,500,000 in population, or upwards of 250 per cent, whereas the increase in Great Britain has been 10,350,000, or less than 40 per cent. Great Britain was moreover in 1837 as in 1897 the richest nation of the world; its increase in annual public expenditure is therefore a reasonable measure of the general tendency.

So much has been said of the unwarranted increase in our own Government's annual expenditure that it will be worth while to investigate the reasons for this growth in the cost of England's Government. If conditions are at work which govern all nations alike, the fact would be, if not an absolute excuse, at least a palliation of our own Congressional extravagance. If, on the other hand, we find that European budgets are increased by outlay which circumstances force upon the governments, while our own appropriations are increased through simple recklessness, the conclusion as regards our own Congressional methods will be only emphasized.

It is the past fifteen years which have witnessed the most rapid expansion, both in our own and in the foreign budgets. In England's case the net annual expenditure increased during this period some £15,700,000, and the estimates submitted by Sir Michael Hicks-Beach for the current year increase the outlay by £900,000. Taking these estimates as a basis, the increase in the annual outlay for the English navy has been £11,000,000. In other words, 70 per cent of the increase in the annual expenditure since 1882

has arisen from this single item in the budget. It is not difficult to see the motive for this increase. All Europe has been arming itself since the rise of the consolidated military power in Germany. The English navy fifteen years ago was the most efficient on the seas; but the increase in the Continental armaments made necessary added safeguards. At first the British Parliament was chary in its grants of the large supplies requested by ministers for the navy. But intermittent popular "scares" of a very curious character, regarding the danger to which the British Empire was exposed, succeeded in offsetting wholly the instinct of economy. At one time such a movement of outside opinion would arise from a realistic magazine story of supposed invasion; at other times from the alarmist talk of ministers themselves; again, from simple fright over the wholesale army expenditure of Continental Powers.

Whatever the immediate cause, the actual result was a demand by taxpayers themselves for an increase in the navy. It has been the policy, openly declared by half a dozen ministries, to keep the English navy to a point of practical efficiency where it could cope with navies of two or three Continental Powers combined. As the other States, particularly Germany, devoted their attention more and more to the extension of their own floating armaments, the pursuance of this policy required constant increase in the British navy, and in the annual appropriation for its purposes. Great Britain is to spend this year, reckoning in American values, \$109,190,000 on its warships. Germany, meantime, votes to its navy barely \$21,500,000 annually, France \$47,425,000 and the United States \$27,500,000. Although this naval expenditure has necessitated a continuous increase in taxation of the English citizens, it is probably the most popular policy pursued by England's Government. The people have in short acquiesced in the assumption that the nation's safety rests upon the maintenance of a naval armament great enough to protect from foreign aggression England's own coast and that of all its colonies. A month ago another of the periodical "scares" regarding England's possible isolation was revived in Parliament, several members asking what provision the Ministry would make to ensure receipt from foreign grain-growing communities of Great Britain's necessary food supplies in case of war. The question thus put to the Ministry started an animated controversy throughout the United Kingdom. But Mr. Balfour answered Mr. Seton-Karr to the effect that the English Government was responsible for maintaining naval supremacy such as should be competent at all times to protect the channels of Great Britain's foreign trade. The answer has been accepted both by Parliament and people, as conclusive.

It will be observed, therefore, that nearly three-fourths of the increase in the running expenses of the English Government during recent years, has been caused by what were in a way necessities of the situation. The same may be said of the enormous increase in the army expenditures of governments such as Germany. Even granting the wastefulness and folly of maintaining these armed camps throughout the Continent, the fact remains that when one first-class nation arms, its neighbor and rival must in self-defense do at least as much. Now let us apply a similar test to the United States. During the fifteen years in which British expenditure for public purposes has

increased \$78,500,000, our Government's annual expenditure, outside of interest on the debt, has increased \$129,890,000. Even with us the outlay for the navy has been considerably expanded. But considerations of national defense have played a part, in the long run, relatively insignificant. Annual pension expenditures have increased since 1882 no less than \$78,000,000; annual outlay for river and harbor work, for public buildings, and for other similar purposes, has risen by the sum of \$30,000,000. Now it was several years before 1882 that one of the best of our authorities on army questions, himself a distinguished veteran of the war, declared in Congress that the proper maximum of expenditure for pensions had been reached already. We do not, on the other hand, imagine that this country's pressing needs for annual additions or improvements to its ports and public property have doubled in a decade and a half. Yet our average expenditure for pensions during five years past has exceeded the annual payment made by France or Germany for its army or England for its navy.

Such a comparison is worth some serious reflection. It shows that while the foreign States are bearing heavy burdens, forced on them by circumstances which most of them regard as first of their misfortunes, our own Government has deliberately and needlessly placed itself in the same position. The ratio of increase in this country's annual expenditure, moreover, has been nearly twice as rapid as the increase in the European States. This has happened while we are at peace with all the world, with no risk of armed collision unless by our own deliberate provocation, and not in the remotest danger of invasion.

We have hitherto discussed at some length the method of appropriations in our Congress. It is without any question in these haphazard fiscal methods that the mischief of our Federal extravagance lies, and through correction of them alone can the evil itself be corrected. Our readers are aware that the practice of drawing up appropriation bills by eight separate committees in the House, without supervision by the Executive, with the certainty of enormous increase by the Senate, and with careful scrutiny or debate impracticable, has brought our annual grants of expenditure to a pass where reduction or even rational adjustment seems impossible.

"Ours is the only Government in the civilized world", said Mr. Cannon in his report last session for the Appropriations committee of the House, "wherein the administrative branch apparently assumes no degree of responsibility to the taxpayers for its demands for the expenditure of public money." The truth of this assertion is unquestionable; indeed, it may be added that the methods which have grown up in our Government turn absolutely topsy-turvy the theory, precedent and practice, in the use of public funds, in every parliamentary government of our time. Without exception, every important European State regards the annual budget of revenue and expenditure as a programme of the ministry to which the assent of the legislature is asked. Equally without exception it is the theory at least in all these European States that the request of the executive must be watched, and in a way distrusted, in order to forestall excessive grants. The taxing power is the jealously guarded privilege of the people's delegates. The ministry is bound to construct a system of taxation which will yield enough to cover what it need

for purposes of expenditure. If the legislature does not approve the estimate of expenditure as submitted, they may refuse a portion of the taxing power. The Parliament, the Deputies and the Reichstag are, in other words, the guardians of the people's income against the only too probable aggression or extravagance of rulers.

This system does not always operate perfectly. In Germany, as the study by the Cobden Club some years ago pointed out, the influence of the executive is virtually supreme; ministers or their agents sit with the committee on the budget, and the vote of supply is in some degree an empty form. This is, however, a fault of the country's general autocratic system, not of the fiscal system individually. Such defects as the French practice presents arise rather from parliamentary intrigue than from wilful lavishness. The committee on the budget, chosen by lot, hardly grapples with the fiscal question. "Its discussions", writes M. Leroy-Beaulieu in describing the system of his Government, "are never really serious. A committee so selected is not always made up of competent men; it ends by becoming a sort of coterie; between it and the Government there are established confidential relations." It sits in secret; its report is rarely more than explanatory.

These are two faulty developments of the system; yet even so it will be found that no such confusion and haphazard extravagance exists in France and Germany as in the case of our Congressional appropriations. On the other hand, the British budget system, based on two centuries of thorough experiment, shows what an honest use of the system may make possible. The Chancellor of the Exchequer submits his estimates of expenditure and asks his grant of new supplies. His requests become at once a subject of debate; last week some of Sir Michael Hicks-Beach's provisions were openly and emphatically opposed. The budget goes next to a select committee, made up invariably of the most experienced business members of the House; such practical financiers as Sir John Lubbock in our time and Sir Francis Coutts a generation back. By them the budget is examined with the close attention to its detail which would be expected in a first-class corporation, but which is unfortunately rare in government. Revised by experts of this sort, the English budget rarely makes mistakes. Its revenue yield matches its estimated outlay to a marvel; only in half a dozen years during the present generation has the surplus revenue or the deficit mounted up to more than six figures on the balance-sheet. Such monstrous surplus revenues as our Government reported during 1887 and 1888, or such shortages as those of 1894 and 1895 would have driven ignominiously out of office in Great Britain even a Vansittart.

Whatever may be their shortcomings in actual execution, the European budget system has three inestimable advantage over ours. It is prepared with greatest care by the executive, who is held strictly accountable for its operation. It comprises estimates of revenue and for expenditure prepared by the same hand, and adjusted with the single view of matching one another. It is considered by the legislature, never with the purpose of increasing outlay, but with the well-established object of restraining ministries from unjustifiable extravagance. Under this system the strictest kind of economy in government is possible; under our system such results are inconceivable. Mr. Cannon expressed last March the belief

that one initial step of reform was feasible through the assumption by the President himself and his administrative council of larger responsibility in the cutting down of estimates and in the framing of a proper budget of expenses. The task is heavy; very possibly the labors of the Cabinet would be wholly nullified by the inexcusable practice of increasing appropriations by the tens of millions in the House and Senate. Unless, however, a beginning of reform is some time made, it may be predicted with certainty that large increases in the revenue will soon mean little except the further mounting up of governmental extravagance.

#### RAILROAD GROSS EARNINGS FOR APRIL

No very decided change in the character of the reports of railroad gross earnings is yet observable. In the aggregate our statement below shows a gain of \$542,234, or 1.44 per cent, over the same month last year, which is satisfactory as far as it goes; but when we come to look at the results for the separate roads we find considerable irregularity in the exhibits, with over half the number reporting losses—68 roads out of 133 being so distinguished.

While the gain in the aggregate is not very large, any gain at all is perhaps to be regarded as encouraging considering the conditions which prevailed. For it is a fact that nearly every leading condition was unfavorable. Trade and business still continue exceedingly depressed. The effects of this are very apparent in the earnings of the roads in the Middle and Middle Western States. In those sections the losses outnumber the gains about 3 to 1. Indeed, gains are very rare in that part of the country. Then, also, the grain movement, though fairly large, fell behind that of a year ago. At two of the Northwestern markets the receipts of spring wheat were remarkably free, considering the difference in the size of the crops in the two years; at other points and in other cereals the present year's receipts in most cases record losses. Furthermore, there was also some contraction in the movement of live hogs at the West—at least the deliveries at Chicago comprised only 542,887 head in April 1897, against 608,674 head in April 1896.

It is to be noted, too, that in the South the cotton movement failed to come up to that of last year, and last year the movement had been very much below that of the year before. Finally it must be remembered that we are comparing with rather full earnings in April of previous years, our final total having shown a gain of fair amount both in 1896 and in 1895. The following carries the comparisons back for a series of years.

	Mileage.		Earnings.		Increase or Decrease.
	Year Given.	Year Preceding.	Year Given.	Year Preceding.	
April.	Miles.	Miles.	\$	\$	\$
1893 (144 roads).....	98,993	92,089	40,285,767	38,895,195	Inc. 1,390,572
1894 (126 roads).....	98,045	95,417	31,871,186	40,955,889	Dec. 6,084,703
1895 (126 roads).....	99,460	99,355	30,898,603	35,259,321	Inc. 1,639,444
1896 (131 roads).....	95,529	95,081	37,240,276	36,012,491	Inc. 1,227,785
1897 (133 roads).....	99,036	98,300	38,147,090	37,604,866	Inc. 542,224
Jan. 1 to April 30.					
1893 (142 roads)....	98,735	91,559	161,942,914	157,643,926	Inc. 4,298,988
1894 (122 roads)...	97,955	95,357	142,581,512	164,043,811	Dec. 21,462,299
1895 (124 roads)...	99,246	99,101	145,108,717	143,616,894	Inc. 1,491,822
1896 (130 roads)...	94,697	94,233	161,100,764	139,800,964	Inc. 11,199,800
1897 (133 roads)...	99,036	98,360	162,196,786	153,448,948	Dec. 1,202,162

Dealing specifically with the grain movement, the receipts of wheat for the five weeks ending May 1 the present year were 10,595,860 bushels against 9,923,679 bushels in the corresponding five weeks of last year; but more than the whole gain appears at Duluth and Minneapolis; at the other primary markets the wheat

movement was less than in 1896. In corn the aggregate of the receipts was only 8,675,476 bushels against 8,809,367 bushels, in barley 1,461,861 bushels against 1,900,469 bushels, and in oats but 9,052,038 bushels against 10,888,647 bushels.

RECEIPTS OF FLOUR AND GRAIN FOR FIVE WEEKS ENDING MAY 1 AND SINCE JANUARY 1.

At Chicago we have the receipts for the even month, and here we find a loss in every one of the cereals (with one minor exception), the total for April 1897 being only 8,782,274 bushels, against 11,584,357 bushels in April 1896, as will appear by the following.

RECEIPTS AT CHICAGO DURING APRIL AND SINCE JANUARY 1.

We have stated above that out of 133 roads, contributing returns of earnings, 68 record losses. Only 10 of these losses, however, exceed \$30,000 in amount. The Milwaukee & St. Paul leads with a decline of \$162,821; then comes the Norfolk & Western with a decline of \$117,656, then the Wabash with \$100,850 decrease, the Illinois Central with \$71,004 decrease, the Northern Pacific with \$69,061 decrease, &c. Practically all sections of the country, it will be seen, are represented in these losses. The annexed statement indicates all the gains as well as all the losses above \$30,000.

Total (representing 10 roads).....\$713,485

As already stated, the poorest exhibits as a whole are made by the roads in the Middle and Middle Western States. Aside from the depression in business there is one other reason for this namely the fact that many of the roads suffered also from a contraction in the grain traffic. It is noteworthy, however, that among these the larger trunk lines (so far as we have returns from them) in one or two instances record gains in earnings. For instance, the New York Central shows the best total for April of any year since 1893. The Wabash on the other hand shows the smallest total since 1894. Below is a six-year comparison for a few of the trunk line roads.

#### EARNINGS OF TRUNK LINES.

April.	1897.	1896.	1895.	1894.	1893.	1892.

\*Includes the operations of the St. Louis Alton & Terre Haute for all the years.  
A figures here for 1897 and 1896 are simply the totals of the earnings for the four weeks

Another group of roads where the returns are generally unfavorable is the Northwestern. This perhaps is not surprising seeing that those roads had a phenomenally large spring-wheat crop to move last year, whereas the present year the crop was much smaller. We have already brought out the fact that at both Duluth and Minneapolis the wheat receipts the present year were larger than last year in face of the smaller crop. This will explain no doubt the gains in earnings reported by a few of the roads like the Great Northern, the "Soo", the St. Paul & Duluth and the Chicago Great Western. In the case of most of the roads in the spring-wheat districts, however, it is safe to say that the grain traffic was much smaller than in 1896. At all events, in the aggregate the earnings of the Northwestern group of roads fall behind the amount of last year, as will be seen by the following.

## EARNINGS OF NORTHWESTERN LINES.

Among the Pacific roads on the extreme north the Canadian Pacific, we should suppose, like some of the United States roads, was favored by a larger wheat movement. It reports \$145,000 increase in earnings. The Northern Pacific has \$69,000 decrease.

## EARNINGS OF PACIFIC ROADS.

April.	1897.	1896.	1895.	1894.	1893.	1892.
	\$	\$	\$	\$	\$	\$

Rio Gr. West'n..	190,700	197,700	166,073	169,460	300,085	212,952
Total.....	3,049,504	2,974,871	2,748,429	2,588,318	3,552,556	3,645,720

The two groups which have done better than any others are the Southern and the Southwestern. In both these groups the gains greatly outnumber the losses. This cannot be explained by reference to the cotton movement, which, as we have seen, in the aggregate did not equal that of last year. It seems to be a fact, however, that general business in these parts of the country has taken on a more hopeful aspect. The following compares the earnings of nine Southern roads for six years, and it will be seen that only two of the nine roads record for 1897 smaller earnings than for 1896.

## EARNINGS OF SOUTHERN GROUP.

April.	1897.	1896.	1895.	1894.	1893.	1892.
	\$	\$	\$	\$	\$	\$

a Figures here for 1897 and 1896 are simply the totals of the earnings for the four weeks of the month as reported in the weekly returns; the month's earnings usually exceed the weekly estimates quite considerably.

b Including Soloto Valley & New Zealand and Shenandoah Valley for all the years.

c Figures are approximate, same as for this year; actual earnings were larger.

In the Southwest, the St. Louis Southwestern and the Denver & Rio Grande Railway are about the only two roads of prominence that have fallen behind.

## EARNINGS OF SOUTHWESTERN GROUP.

## A PLAN FOR IMPROVING BORROWING FACILITIES.\*

That there is an insufficiency of borrowing and banking facilities in some parts of the country must be admitted, and while it is true that the money is sufficient to do all the necessary business, it is congested—it is not distributed, it does not flow equally from any main reservoir into the channels of our geographical and financial system. In some sections money is a drug; in others it cannot be had at all; and in still other sections business is even transacted by the pristine method of barter and exchange.

Now, while we are free from the heat and passion of any political contest, when professional politics and demagogism do not obscure the real questions involved, the moment is propitious, in a spirit of non-partisanship, to search for some method of relief by which money may be better distributed and borrowing facilities enlarged.

It is an unquestionable fact that this cry for more money emanates from, and is more keenly heard in, those sections of the country where agricultural and farming pursuits prevail, and where banking facilities are either totally lacking or deficient. The importance of this agricultural interest will be appreciated by a recourse to the figures presented in the Census of 1890. According to that authority, there is \$21,000,000,000 invested in farms and agricultural industries, and 70 per cent of the population of the United States is engaged therein; and it follows, as a mere matter of course, that the wealth and sustenance of this great nation depend almost solely upon the success of these pursuits.

There are \$3,000,000,000 actually loaned on farm properties alone.

There are 5,000,000 farms in cultivation, with their improvements, estimated at.....	\$15,000,000,000
The value of tools, implements and machinery on farm products amounts to. ....	600,000,000
The value of live stock on said farms is estimated at.....	2,500,000,000
And the yearly average value of farm products is estimated at.....	3,000,000,000
<b>Making a grand total.....</b>	<b>\$21,100,000,000</b>

It appears from the Census of 1890 that the number of real estate mortgages on acres of land as contradistinguished from feet, was 2,303,061, amounting to. ....	\$2,209,148,431
The number of mortgage loans on lots was 2,474,637, amounting to. ....	3,810,537,554

Thus showing a total number of real estate mortgages in force Jan. 1, 1890, to be 4,777,698, amounting to. ....\$6,019,679,985

The inequality existing in the power to borrow money on the part of the farmers, on the one side, and of the merchants or owners of personal securities engaged in financial and mercantile pursuits, on the other, is vivid and striking. Almost every avenue is closed to the farmer. The doors of all the national banks are shut upon him. They are prohibited from loaning money on real estate, and the history of the legislation of this country, instead of exhibiting a desire to aid and accelerate the business of the agriculturist, has been almost systematically indifferent to him and his interests. The money lenders and the money interests are all centered in the large cities, and the farmer has not been able to borrow with any ease, either on his land or on his crops, but he is very frequently compelled to sacrifice his products and his land to his existing financial needs and necessities. When the former can borrow money at all, he is compelled to pay rates of interest which average from 10 to 15 per cent, including commissions, and for the \$3,000,000,000 which the agriculturists of this country have borrowed upon their farms, they are paying an average rate of interest amounting to \$300,000,000 a year. The farmer knows that while he is compelled to pay this heavy rate of interest to obtain the money, persons who are engaged in any reputable or established commercial or mercantile business can procure their loans at rates not exceeding an average of

6 per cent; and he also sees that the owner of securities of all kinds listed and dealt in on the stock exchanges can borrow money, generally, on call for about 2 per cent, and on time for between 2 and 4 per cent.

The great basis of all national wealth is the farming industry. It feeds the people, creates and runs the railroads, and sets in motion the wheels of all manufacturing industries; and while the shares and bonds of railroads and other industrial corporations can be readily used as mediums for effectuating loans at cheap rates of interest, the men who constitute the base of all national wealth are compelled to pay extravagant and ruinous percentages for the use of the money they borrow. When we study these suggestions calmly, away from the smoke and passion of political contests, it does not seem strange or unnatural that the farmers become at times persistent agitators for new and organic schemes, and are advocates for many theories which promise change even though they give no assurance of relief from existing conditions.

Another striking feature of the subject which I am considering is the inequality between the rates of interest existing in the different States of the Union; and any economic measure or legislation which has for its purpose and effect the equalizing of such rates ought to receive prompt and substantial encouragement from all classes of people. When certain country or farm property is equally good and advantageously situated, and earning equally as much net income as a similar kind of property situated in a different place, the owner of the former should be able to borrow his money at the same rate of interest as the latter.

The substantial reason for this disparity seems to arise from a lack of proper borrowing facilities, and if we had a system by which they would be established in all sections of the country, as far as the loaning of money is concerned, there would seem to be no doubt that many inequalities such as I have alluded to above would substantially disappear.

The disparity in the rates of interest in the different States of the Union is most striking.

The interest laws show that the legal rates of interest exceed 6% in twenty of the States and Territories; in nine States, viz., Alabama, Georgia, Illinois, Indiana, Iowa, Louisiana, Missouri, Ohio and South Carolina, the rate of interest allowed by contract varies from 7% to 9% inclusive; in seventeen States, Arkansas, Minnesota, Mississippi, Nebraska, New Mexico, North Dakota, Oregon, South Dakota, Texas, Washington, Wisconsin and Wyoming, the rate varies from 10% to 18% inclusive. In the following eleven States, viz., Louisiana, California, Colorado, Connecticut, Maine, Massachusetts, Montana, Nevada, Oklahoma, Rhode Island and Utah any rate of interest is allowed by contract.

The history of political contests in this country shows that as long as the prices for cereals and other products are compensative to the farmer, his voice is seldom heard in agitation for measures which are novel, and which tend, so to speak, to shock and alarm the confidence of what is known as the financial world. But when the rates of his products are so low and unremunerative that he finds it impossible to obtain the necessities of life, he becomes a natural agitator for quick and prompt measures of relief; and sometimes without regard either to his own ulterior benefit or the general interests of the country. At such periods when he finds that he can neither obtain money on his lands or his crops at all, or else at an excessive and ruinous rate of interest, and when he sees that merchants and all classes of persons engaged in commercial and financial pursuits are able to get money upon personal property, notes and other kinds of corporation securities, at comparatively insignificant rates when compared to those which he is compelled to pay, at such times, I say, it is simply human nature that he should complain and be discontented.

The important question, therefore, to be solved, is whether there is any practicable and substantial way by which above conditions of affairs can be remedied. Is there any practical system by which the real wealth of the farmer, both in his land and products, can be used as a means upon which he can borrow money at the same rates of interest as persons holding personal property? Is there any means by which real estate and improved farm lands can be made a safe and easy basis for loans of money? If there be such, the remedy should be adopted immediately. There is no doubt that, even in cities, the facilities for borrowing money upon

\* We give this communication, not because we can commend the proposal as it stands, or believe it to be wholly practicable, but because the object sought is eminently desirable and the writer's suggestions are no doubt conceived in a spirit, as he says, of "genuine patriotism."  
—[EDITOR OF THE COMMERCIAL AND FINANCIAL CHRONICLE.]

real estate has been in many cases more or less difficult and in marked contrast with the ease with which the owner of securities of railroads and corporations can obtain loans thereon.

Within the last few years in the State of New York, through a system of improved conveyancing, and by means of title guarantee companies, the means of borrowing money upon real estate has been made much more easy, but even to-day the owner of a piece of real estate upon Fifth Avenue finds little or no favor in Wall Street, where the holder of insecure and even worthless railroad mortgage bonds or stocks, quoted on the New York Stock Exchange, may readily effectuate a temporary, or time loan, up to eighty or ninety per cent of the existing quoted value. Wall Street has sternly set its face against loans on real estate, and so have the national banks, which, as I have said before, are prohibited from lending on any such security. While all lenders are generally willing to admit that good real estate constitutes the safest basis for loans, safer than railroad or corporation securities, the difficulty of "turning" these loans, or quickly realizing upon them, has always rendered them objectionable and unfashionable. The truth of the matter is that the question has never been seriously studied in this country, and no systematic movement has ever been made towards endeavoring to remedy the inequality existing between loans on real and personal property. Of course, this difficulty has largely arisen from the fact that, in making a loan upon railroad securities, the promises of the company secured by one mortgage are split up into bonds of the denominations of \$100, \$500 or \$1,000 each, so that they can be transferred from hand to hand and do not put upon any one or a few individuals the burden of carrying the whole loan; whereas in real estate the largest loans, some of which in the City of New York have amounted in single instances to as high as \$2,000,000 are represented by one bond and mortgage, and the whole transaction is borne by one individual, estate or corporation.

The question of discovering a remedy for the condition of affairs above described has been the subject of serious thought and study by a few gentlemen in this city for the last year. The remedy, we think, exists in decentralizing loans upon real estate, and in segregating and distributing one loan among many investors, as is followed in loans upon railroad property, and it can be obtained by the establishment of a company in the nature of a Loan & Mortgage Company—a charter for which I have already drawn and which it is proposed to call the Loan & Mortgage Company of the United States. I would have some hesitation in presenting the above and the following views to the public if I had not been able to find ample precedents for them in foreign countries; which establish the entire practicability and perfect success of such institutions. A company similar to that we now propose to ask Congress to incorporate and establish is to be found in France under the name of the "Credit Foncier", which has existed with the most extraordinary success since 1852, not even suspending the payment of its interest during the terrible Franco-Prussian War, and the Communistic rebellion which raged subsequently in France. In Germany a similar system has successfully existed for a hundred years, and also in Austria and Egypt Credit Foncier Companies have been operated with complete success for many years past.

In the outset, I wish to affirm that there are no conditions of dissimilarity existing between this country and the countries where the mortgage and loan companies have been established, which would render them objectionable and impracticable, nor can the objection be urged to the company which we propose to establish that it has already been tried and found wanting in this country in previous years. No similarity exists in the few attempts which have been heretofore made to establish mortgage and loan companies and the company here proposed.

The difference is fundamental and marked, as will be seen hereafter, but it may be explained in this connection that among other reasons which made these small institutions unsuccessful in this country was a lack of ample capital, and inability to sell their bonds, and of loaning money only for short and fixed periods, instead of for long periods with the "amortization" or sinking fund element, which is the whole life and vitality of the principle.

Another important suggestion must also be borne in mind in this connection: Since twenty years there has grown up in this country a large class of persons with small fortunes, ranging from three to twenty-five thousand dollars, what are called in France "les petits rentiers", a class of small capitalists most important and strong.

In the financial negotiations which have heretofore taken place in this country, in railroad and other securities, no systematic appeals have ever been made to this very large class of capitalists, and no direct effort has ever been made to secure the investment of small sums of money in legitimate investments. This class of investors has placed its money in Savings Banks and Building Loan Companies. They, therefore, present an entire new field for exploitation and development, and if they can be convinced that the stock and bonds of the Company which we propose to establish constitute a safe and stable security, a large amount of money would flow into the Company, and all of its issues would be absorbed, without any regard to the contribution of large capitalists, who have heretofore exclusively appeared in financial negotiations. With this necessary preface, I will proceed to state the nature and general objects and purposes of the "Loan and Mortgage Bank Company of the United States."

It is proposed to establish a company under a special charter from the Government of the United States, with a capital of \$100,000,000, divided into shares of \$10 each, to open books of subscription all over the United States and to invite people generally to subscribe for the shares, no one person having the right to receive more than \$1,000 of the stock unless the whole amount is not taken, in which case it will be awarded to reserved subscribers. This makes the Company the bank of the people and gives it at once a stamp of popularity which cannot be effaced from it.

There is at present on deposit in the savings banks and building loan associations in this country three billion dollars (\$3,000,000,000) and it is assumed that many of the depositors in these institutions will subscribe for the new stock. If all of the \$100,000,000 should be withdrawn from the savings banks and the building loan associations it would not exceed one-thirtieth of the whole amount deposited with them, but it is believed that inasmuch as subscriptions to the shares of stock of this company will be received in sums of \$10 and upwards, that a large amount will be taken by persons other than those who are depositors in and subscribers to savings banks and building loan associations, and who are their own custodians of their savings and capital.

It is impossible to state what amount of money is held and secreted by individuals in their own homes; but it is known to be very large, and if it can be made plain to this last class of persons that an investment of this kind is safe, subscriptions will undoubtedly be received from that source. The opinion and belief that this \$100,000,000 can be procured from the people at large is based upon the fact that in the charter there will be embodied restrictions and limitations upon the business and operations of the Company that will carry conviction to persons asked to subscribe that the institution will be conducted upon the best, most stable and safest principles of banking. That the subscribers to the stock of the Company will receive a yearly dividend upon their shares there would seem to exist no doubt. The long and prosperous experience of the Credit Foncier of France strongly confirms this opinion.

Besides important sums taken from the profits every year and set aside as surplus reserve to the capital stock, the yearly dividends paid to stockholders during the last five years, 1896, 1895, 1894, 1893, 1892 have amounted respectively to 26, 26, 44, 44 and 45 francs, thus showing a rate of dividends ranging from  $5\frac{1}{4}\%$  to  $9\%$  per annum, net of taxes.

Dividends have been continuous and much higher in the past; the decrease being almost exclusively due to the constant lowering of the value of money, owing to the prosperity of that country.

It is not proposed to ask the Government of the United States to subscribe One Dollar to the capital of the company, but, on the contrary, one of the purposes of the incorporators and conditions under which the charter will be asked from Congress will be that the company shall, on the Government's demand at all times, be ready to advance at least \$25,000,000 to the Government at current rates of

interest, for which the Company shall receive Certificates on short term, or other obligations, repayable out of the Government receipts, or otherwise, as circumstances may permit. In addition to these restrictions and limitations the Government will have the right to appoint the Governor or President, of the Bank, and two Directors, to look after the interests of the shareholders and bondholders, and also to appoint a special Auditor, who shall make and publish monthly reports of the condition of the Company, which reports will be supplemented by regular quarterly reports made under oath by the Executive or Managing Board of Directors. In fine, no known existing precautions or conditions to make a safe, successful and profitable company will be neglected in the Charter.

The powers and objects of the Company will be generally as follows:

**FIRST.**—To make and facilitate first mortgage loans on improved rural, urban and suburban real estate, capable of producing continuous and stable income, and to make such loans upon every species of indebtedness or obligation, whose repayment is secured or guaranteed by first lien or mortgage upon real property, at a rate of interest not to exceed 6 per cent, which loan shall not exceed in any case 50 per cent of the actual cash value of the said properties as determined by competent sworn appraisers, whose movements will be guarded and regulated by such rules as will make it practically impossible for the Company to lose money. It is stated that in forty-five years, under the regulations established by the "Credit Foncier" for loaning money, it has not lost a single dollar, and the Company has acquired by purchase during that time only Six Millions of Dollars of real estate out of a business represented by \$750,000,000 of assets.

The loans made by the proposed Company shall be made for short terms, not exceeding fifteen years, and repayable in full at the end of a fixed period, and for long terms ranging from fifteen to seventy-five years, repayable in periodical instalments which shall include principal, interest and charges. The borrower on either short or long terms to have the privilege of discharging at any time, in full or part, the balance of his indebtedness. These loans are to be negotiated through the principal office of the company at Washington or through branch offices or agencies of the company, which will be established in all parts of the country.

**SECOND.**—In addition to the capital of \$100,000,000 which the company proposes to have, it will be authorized to issue its bonds bearing interest at as low a rate as 3-65 per cent, or 1c. a day, if possible, against every operation which it may make in loaning money upon real property. In other words, if the company should make a loan of \$1,000 upon a piece of property worth \$2,000, it has a right to issue its bonds for \$1,000 to cover that transaction, which bond will be issued in series to represent the transaction against which it is issued; that is to say, if a loan is made upon a piece of property for \$1,000 for seventy-five years, the bond of the company will be issued to mature within the same period of time, and for the purpose of paying them within the above period of time an amortization or sinking fund will be created which will secure the repayment of the bond of the company.

The method of doing business would be practically as follows: A farmer wishes to borrow, say \$1,000 on a farm worth \$2,000; the loan is arranged and the company pays the farmer either in its bond at par, bearing 3-65% interest as aforesaid, or in cash, as it may deem proper.

The Company proposes to charge the farmer interest at the rate of 4-65%, and it collects from him this interest quarterly, or half-yearly, as may be determined, together with the expenses and the sinking fund, amounting altogether to 5-50% which includes an extra reserve fund either to cover extra losses or to reduce eventually the amount of his annuity. By this operation the farmer or borrower, who ever he may be, has secured a loan for 75 years, and he is never called upon to pay the principal, because by the small payment which he makes each year the principal is eventually paid.

If the borrower however wishes to anticipate at any time the payment of his loan, he has the privilege of doing so upon paying to the Company the difference which he owes at the time of the anticipated payment. The figures which

I now give will illustrate clearly the transaction to the farmer or borrower.

Annuity paid by borrower to cover interest, repayment of loan, management and running expenses, and extra reserve fund, on a loan of \$1,000 repayable within 75 years, \$55 divided as follows:

Interest and sinking fund to retire bonds at 3-66%...\$39 30  
Expense fund, including extra reserve and profits... 15 70

Total annuity.....\$55 00

By this system the farmer secures a loan for about 4-65% interest and he makes additional payments to the sinking or amortization fund and extra reserve, which may eventually lessen the annual cost of his loan.

As has been shown above, the amount of loans on farm property in this country amounts to \$3,000,000,000, bearing a rate of interest, as we have shown, averaging about 10%. The effect of the establishment of this company will be to pay off and release a great portion of this large debt, which weighs so heavily upon the agriculturists, and it will save to that class yearly a large amount of interest. Besides the money which is released must flow into other lands or other channels and will necessarily benefit the whole farming and business interests of the country.

It is proposed to give the Company the power to issue its bonds in twenty times the amount of its capital, reserve and surplus, which at the minimum would enable it to create \$2,000,000,000 of these obligations.

The effect of making loans to the farmer and other borrowers to the extent of \$2,000,000,000 at the low rate contemplated will be to save to the borrowing community about \$100,000,000 a year, being the difference in interest on \$2,000,000,000, between 4-65 and 10 per cent, which is now paid.

The bonds of the company will be issued in denominations as low as \$10 with interest coupons attached, and as it is assumed that when they are known to the people these bonds and coupons will circulate as currency, the available circulation of the country will be to this extent enlarged.

In respect to its \$100,000,000 of capital the Company will be bound to hold one quarter, or 25 millions, thereof as a reserve fund, which must be invested in Government bonds, making such reserve absolutely invulnerable.

With the balance of its capital of 75 millions the company can make all the operations and loans contemplated in the description of its powers, which are hereafter given, having in view the assisting of the farmer and laborer in their operations, that being the predominating motive and purpose of the charter.

**THIRD.**—The Company shall have the right to make short time loans on collateral securities, to receive money on deposit for fixed terms at a fixed rate of interest, but such deposits not to be subject to withdrawal by demand checks. To undertake the management of sinking and redemption funds or annuities with municipalities.

To subscribe and bid for all loans of the Government, States, municipalities, railroads or other private or public corporations, or individuals, when sufficient and proper securities are given.

It will also be clothed with power to erect, possess, rent, lease, manage, buy and sell grain elevators and warehouses; to make loans upon imperishable farm or other natural or manufactured land products, and upon all kinds of grain, cereal, cotton, tobacco, leather, mineral oil and other products; either on its own behalf or as agent for others; to act as agent or trustee upon the reorganization or consolidation of all kinds of corporations, municipal or private, to act as trustee or executor and administrator, and in settlement of estates, and to transact all operations and business of trust and warehouse companies; to deal in all of its own securities, except in the shares of its Capital Stock, and to generally have all powers necessary for carrying into effect the purposes and schemes of the charter, which are to be as nearly as possible assimilated to the powers now exercised by the "Credit Foncier of France."

The Company, however, shall not have the power to issue Bank notes or bills, or discount commercial paper, or to receive money subject to withdrawal on demand checks.

The immediate benefits and advantages which will flow from the incorporation of this Loan & Mortgage Company are, among others, the following:

**FIRST.**—It enables the farmer and other borrower of money on farm property, real estate, to obtain it easily and at a low rate of interest, and upon terms not onerous, and permits him to pay off the loan when he is ready, or leave it to remain until it is paid off by the small sum which he contributes every year to the amortization or sinking fund.

**SECOND.**—The immediate effect of introducing a system which facilitates the farmer and laborer in obtaining money easily, and at low rates of interest, will be to enhance the value of all farm lands, by withdrawing from the market such farms as are now subject to foreclosure for inability to meet the principal, and making the borrowing upon farms and real estate as practicable and easy as the borrowing of money upon negotiable securities or other personal property.

**THIRD.**—It will enable the farmer or producer of unperishable products to borrow money upon them at a low rate of interest, until such time as he is ready to sell them. There is no doubt that each year the farmer is subjected to the caprices and speculations of a large class of operators in cereals and other crops, who take advantage of his known condition to wrest his products from him at rates which do not always represent the actual and inherent value of the same.

**FOURTH.**—By the establishment of this company with the powers which are sought to be obtained for it, a large fund will be added to the circulating medium of this country.

**FIFTH.**—It will confer upon those sections which now are suffering from the lack of banking facilities the same use of money as is now enjoyed by the most favored communities.

**SIXTH.**—It will have the effect of equalizing for borrowing purposes the value of property in all sections of the country, and enable the owner of land in Tennessee or Arkansas of a fixed and certain value and income to borrow the same amount of money thereon at the same rate of interest he could on property of equal value in other States.

**SEVENTH.**—As a consequence of the establishment of a low rate of interest by this Company, a large amount of money which is now reserved for high rates of interest will be forced into the market and add to the facility of borrowers of money elsewhere.

**EIGHTH.**—The establishment of this system in this country will necessarily have an effect upon the habits and business methods of the farmers by making them prudent and economic in the management of their farms to conform to the conditions and regulations of the Company relating to loans both before and after they are made; and by interesting him as a stockholder, or bondholder or borrower of the Company, will render him more conservative in his politics and less liable to the wiles and deceptions of demagogic politicians. It will also have the effect of removing much of the sectional spirit and jealousy which from time to time crop out in public discussion.

According to the conditions and limitations which are made in the Charter of the Company, it is quite improbable that the latter can suffer any losses beyond those which are entailed upon any bank conducted upon the best-known banking principles; in fact, this company, as a study of the subject will reveal, is less exposed to losses than those which accrue to ordinary banking. It can never be exposed to "runs" or to the influences of temporary panics or depressions of securities. It will have no obligations except to pay the interest upon its outstanding bonds, which are always amply secured by its natural and legitimate income. And even if one-third of the persons who borrow money from the company should in any year fail in the payment of their interest (an event quite improbable) the Company would still be able to take care of its obligations. For illustration, assuming that it had bonds outstanding to the amount of \$100,000,000, its requirements for interest would be \$3,650,000 a year. It should receive from its borrowers interest and charges and sinking fund at the rate of 5-50, which would amount to \$5,500,000 a year, leaving the difference between its receipts and interest as follows:

Amount of annual interest received by the Company .....	\$5,500,000 00
Amount of interest to be paid by the Company ..	3,650,000 00
Leaving balance of .....	\$1,850,000 00

Therefore, if one-third of the borrowers, viz: to the amount of \$33,333,333 32 should fail in any year to pay their interest, the Company would have received from the other two-thirds of its borrowers more than sufficient to meet the whole interest; besides the Company has a cash capital of \$100,000,000, the income from which, assuming that it uses it with even the sagacity of the most ordinary banks, would be 6½ per annum, or \$6,600,000 yearly at least. Moreover no loans upon farm properties or real estate can be made by the Company except after investigation of the most

searching character, not only of the land and its net income, but of the character of the borrower; which examinations are to be conducted by sworn appraisers, whose reports will be confirmed by certain local authorities and contradictory experts. The sole use that the Company can make of the money paid into its treasury for principal, interest and charges by its borrowers is to pay its expenses, interest upon its bonds, and dividends to the Stockholders, and to redeem its bonds with any surplus in the Sinking Fund.

It is the purpose of this Company every year, when the net receipts from the loans in any series exceed the interest and charges on the bonds of that series, to use the balance which constitutes the sinking fund in paying or redeeming the bonds—which are called in by allotments and redeemed at par. To illustrate: the different series of bonds are to be issued to represent the different times of maturity of the loans; for example series "A" of the bonds of the Company would represent 15 year loans.

Series "B" .....	25 year loans.
Series "C" .....	50 year loans.
Series "D" .....	75 year loans.

There no doubt will be objections raised to the incorporation of this Company, but I feel assured, however, that they can be classified into two kinds:

**FIRST.**—From those having selfish motives in the unfounded belief that this Company will in some way interfere with their business; and,

**SECOND.**—from those persons who do not sufficiently and seriously study the plan.

This Loan & Mortgage Company does not propose to advance cash directly to the borrower when it makes a loan upon property, but at its option to issue to him its bonds at par for a sum equal to the amount of the loan. The borrower himself disposes of his bonds on the market and realizes from them the current market price, and if there is a premium upon them, as there is in France on all bonds issued by the Credit Foncier, the borrower is benefited by it. It will perhaps be said that in the outstart the credit of this Company will not be sufficiently established to enable the farmer to sell easily his bonds at par, and that there will be but a limited market in which they can be traded. This may be admitted to be true for the first year or so, and until the public fully appreciates the strength, stability and security of the business of the Company; but inasmuch as the Company is authorized to buy its own bonds it can support them in the market at par until the public begins to appreciate their value, when there will no longer be any necessity for the use of the capital of the company in that direction. One reason for making the capital large is to enable the Company at all times to protect its credit, and if the success of the Credit Foncier of France, Austria and other countries, where these institutions exist, is realized in the present instance, the bonds of the Company bearing 3-65 interest will soon command a substantial premium; at any rate, the Company will at all times be powerful enough to support its credit. Moreover by the Government exercising the power of management and supervision which is conferred upon it by the Charter the confidence of the people ought to be bestowed upon the Company from the commencement of its operations, and its bonds shall then speedily sell at par.

The power of the Congress of the United States to establish a corporation of the character involved in the above general plan has been fully considered, and irrespective of other clauses of the Constitution it may safely rest upon the decision in *McCulloch vs. State of Maryland*, where Chief Justice Marshall, in 1819, fully examined the whole subject and said:

"The subject is the execution of those great powers on which the welfare of a nation essentially depends. It must have been the intention of those who gave these powers to insure, as far as human prudence could insure, their beneficial execution. This could not be done by confining the choice of means to such narrow limits as not to leave it in the power of Congress to adopt any which might be appropriate and which were conducive to the end. This provision is made in a Constitution intended to endure for ages to come, and consequently to be adopted to the various crises of human affairs. To have prescribed the means by which Government should in all future time execute its powers would have been to change entirely the character of the instrument and give it the properties of a legal code. It would have been an unwise attempt to provide by immutable rules for exigencies which, if foreseen at all, must have been seen dimly, and which can be best provided for as they occur."

By nature the farming interest ought to be the most conservative in every country; in ours it is at times the most radical. This cannot be without some just cause of discontent. To seek a true remedy and apply it by right methods is a work of genuine patriotism.

The farmers have now the feeling that they are cut off not merely from a participation in the opportunities enjoyed by their more favored fellow-citizens, but also from their sympathies. Convince them that this is error and half the battle will be gained, and a movement in their favor will be incalculably more efficacious if it originates outside of party lines and partisan discussion.

In that spirit I present these general views to the public.

JOHN R. DOS PASSOS.

NEW YORK, May 11, 1897.

DEBT STATEMENT APRIL 30, 1897.

The following statement of the public debt of the United States on April 30, 1897, is made up from official figures issued on that day. Lower down we give an interesting exhibit of the bonds issued in aid of the Pacific Railroads, and the Treasury cash holdings, all of the same date.

INTEREST-BEARING DEBT APRIL 30, 1897.

Title of Loan—	Interest payable.	Amount issued.	Registered.	Amount outstanding—Coupon.	Total.
4½% Fund. loan, 1891. Q.—M.		250,000,000	25,364,500		25,364,500
Continued at 2 p.c.					
4½% Funded loan, 1897. Q.—J.		740,000,000	430,444,100	69,195,750	559,839,850
4½% Refund'g certifi's. Q.—J.		40,012,750			45,280
5% Loan of 1904. Q.—F.		100,000,000	60,179,850	34,820,150	100,000,000
5% Loan of 1905. Q.—F.		182,315,400	104,339,750	57,981,650	182,315,400
Total, excluding Pac.					
RR Bonds.....	1,293,220,850	680,319,290	187,000,550		547,365,030

NOTE.—The denominations of bonds are as follows. Two per cents (registered only), \$50, \$100, \$500, \$1,000, \$5,000, \$10,000, \$20,000, \$50,000; 4½ of 1897, registered, \$50, \$100, \$500, \$1,000, \$5,000, \$10,000, \$20,000, \$50,000, coupon, \$50, \$100, \$500, \$1,000; 4½, refunding certificates, \$10; 5s of 1904, registered, \$50, \$100, \$1,000, \$10,000, coupon, \$50, \$100, \$1,000; 4s of 1905, registered, \$50, \$100, \$500, \$1,000, \$5,000, \$10,000, coupon, \$50, \$100, \$500, \$1,000.

DEBT ON WHICH INTEREST HAS CEASED SINCE MATURITY.

	March 31, 1897.	April 30, 1897.
Funded Loan of 1891, matured September 2, 1891.	\$152,350 00	\$152,350 00
Old debt matured prior and subsequent to Jan. 1, 1891.	203,410 26	1,201,487 29
Debt on which interest has ceased.....	\$1,755,760 26	\$1,353,830 29

DEBT BEARING NO INTEREST.

United States notes.....	\$346,681,016 00
Old demand notes.....	54,347 50
National Bank notes—Redemption account.....	23,991,154 50
Fractional currency.....	\$15,265,175 14
Less amount estimated as lost or destroyed.....	8,375,934 00
	0,880,241 14

Aggregate of debt bearing no interest.....\$377,615,789 14

RECAPITULATION.

Classification of Debt	April 30, 1897.	March 31, 1897.	Increase or Decrease.
Interest-bearing debt.....	\$47,365,030 00	\$47,364,950 00	Inc. 80 00
Debt, interest ceased.....	1,353,830 29	1,755,760 26	Dec. 1,402 97
Debt bearing no interest.....	\$77,615,789 14	\$77,237,096 44	Inc. 378,692 50
Total gross debt.....	\$126,334,649 40	\$126,007,806 70	Inc. 326,842 50
Less balance in Treasury..	\$23,090,517 02	\$22,045,005 10	Inc. 1,045,511 92
Total net debt.....	\$98,244,132 38	\$103,962,801 71	Dec. 5,718,668 33

The foregoing figures show a gross debt on April 30 1897 (interest-bearing and non interest-bearing) of \$1,226,334,649 40 and a net debt (gross debt less net cash in the Treasury) of \$998,244,132 38.

Pacific Railroad bonds are never included in the official total of the Government debt. The status of these obligations to-day is as below. Methods of book-keeping make the official record unintelligible to most readers, and hence we have brought together in our compilation the leading facts relating to the subject.

BONDS ISSUED IN AID OF PACIFIC RAILROADS.

Name of Railway.	Bonds issued and accumulated int.		Bonds paid, or date of maturity.—	
	Principal.	Interest.	Already paid.	Due Jan. 1, 1898.
Central Pacific.....	25,485,120	35,488,627	6,074,000	10,614,120
Kansas Pacific.....	6,304,000	9,597,259	1,890,000	1,423,000
Union Pacific.....	27,238,512	39,529,049	5,164,000	15,919,512
Cent. Br. U. P.....	1,600,000	2,158,439	1,290,000	320,000
Western Pacific.....	1,970,590	3,255,093	320,000	1,650,590
St. Louis & Pac.....	1,623,320	2,523,923		1,623,320
Total.....	\$64,623,512	\$90,596,046	\$20,714,000	\$29,904,952

The cash holdings of the Government as the items stood April 30 we take from the Treasury statement of that date. The net cash balance given below is the same as deducted above in reaching the net debt.

CASH IN THE TREASURY.

Gold—Coin.....	\$157,978,832 16
Bars.....	32,760,036 65

Monetary: Commercial English News

LONDON, SATURDAY, May 1, 1897.

[From our own correspondent.]

The Turkish victories at first gave hope all over Europe that the Eastern Question would be quickly closed. Now it is feared that the Turks will be so elated by the utter rout of the Greeks that they will refuse to listen to the Powers in their demands for reforms. Should the Turkish Government become very confident, or should Mohammedan feeling assert itself aggressively, nobody knows what might be the consequence, and therefore at present there is even more apprehension than there was when the actual fighting was taking place.

The visit of the Austrian Emperor to St. Petersburg does not allay apprehension. People remember that 20 years ago there was a similar meeting of emperors, and that the war between Russia and Turkey followed, with the occupation of Bosnia and the Herzegovina by the Austrians. Of course there is this difference now, that France was weak then and is strong at present, and that may exercise a very wholesome influence. But the fact that the German Emperor visited Vienna immediately before the Austrian Emperor started for St. Petersburg is not considered altogether reassuring.

Moreover, our relations with the Transvaal seem to be growing worse. Two Blue Books have been published within little more than a week, in which it is very clearly pointed out by Mr. Chamberlain that the Transvaal Government has infringed the London Convention in a great number of instances, as, for example, not complying with that article of the Convention which requires that treaties or conventions entered into by the Transvaal shall immediately be submitted for approval to the British Government; and still more by subjecting foreigners in the Transvaal to vexatious and humiliating regulations. The London Convention provides that foreigners may enter the Transvaal, reside there, travel and do business freely and without interference so long as they obey the law. The recent legislation compels them to take out licenses, to register themselves, and so on; and, furthermore, empowers the Government to expel them at its pleasure. Above all, the application to white men of regulations that were hitherto only applied to natives are considered especially humiliating. The Transvaal Government insists that it has a perfect right to do all this. The Uitlanders are exasperated, and in consequence we seem to be drifting into an impossible position. A large naval force is assembled in Delagoa Bay and the garrisons are being reinforced both in Cape Colony and in Natal, especially in artillery.

As a matter of course the Stock Exchange and the Continental bourses are, as a consequence of all this, much depressed. The greatest fall this week has been in South African mining securities. They have been declining almost without interruption for six or seven months, and it was thought that they were as low as they well could go, but this week there is a further drop, and it is quite possible that they may go lower still. The state of the South African market has depressed all other mining departments. In the Inter-bourse market there is practically nothing doing; indeed, there is very little done in it in London in the best of times, but there is exceptionally little doing at present; and even in the Argentine market there is not much activity, although some of the Government bonds, especially of the funding and the 1886 loans, are being bought pretty freely.

The American market is quite neglected. The general impression here is that the discussion of the tariff bill in the Senate will be very protracted, that in consequence trade will be in an undecided state, and that the sound money Democrats may be so disappointed by the action of the majority that the silverites may be encouraged to renew their agitation actively.

There is a tendency this week towards an advance in the money market, chiefly because of the strong continued demand for gold on the part of Japan and Austria-Hungary. The Japanese demand is on account of the decision to adopt the gold standard, but it has caused a good deal of surprise that the demand is so large, and has continued so long. The general impression was that Japan in carrying out its naval programme and in extending its railways at home, and constructing public works in Formosa, would have to

spend practically the whole of the Chinese indemnity in Europe and the United States. Apparently, however, it is diverting a larger proportion than was anticipated to the procuring of gold.

Austria-Hungary has been preparing for years for the resumption of specie payments. It had intended some time ago to issue a loan for completing its measures, but did not consider the time favorable. Instead it sold Treasury bills, which have been placed to a considerable extent in London. It is thus able to take the metal from London. It is not likely to resume specie payments, however, if the political horizon does not clear.

Russia is this week raising a railway loan in Berlin and Amsterdam, and it is expected that the larger part will be taken in gold. Lastly, the gold shipments from New York this week are expected to go to Vienna, while the Paris Exchange upon London is practically at the point where gold may be taken. With the exception of Japan the real explanation of these movements is that every country on the Continent thinks it well to be prepared in the present political condition of things for any contingency that may happen. It is quite possible then that we may see a rapid rise in rates here in London if the crisis in Southeastern Europe continues.

The silver market is weak and the India Council is not successfully disposing of its drafts. It offered for tender on Wednesday 35 lacs and disposed of less than 17½ lacs, barely half the amount offered, the average price being 1s. 3d. per rupee. Later in the day it sold another lac at the same price. The Bank of Bombay on Thursday reduced its rate of discount from 10 to 9 per cent.

For a considerable time past various disquieting rumors have been circulating respecting the Consolidated Gold Fields of South Africa, of which Mr. Rhodes is one of the general managers. It will be recollected that the company was deeply implicated in the raid last year. The company's properties consist mainly of deep leveled mines, the estimate being that it will be necessary to sink shafts about 3,000 feet to reach gold, and the gist of the rumors was that the capital of the company was exhausted, and that in the present condition of things the sub-companies could not obtain funds. At last it is officially announced that the board of the company has decided to raise 725,000 additional £1 shares to enable the sub-companies to continue development, and a meeting of the shareholders is announced for Friday next to authorize the issue.

The following return shows the position of the Bank of England, the Bank rate of discount, the price of consols, &c., compared with the last three years:

	1897. April 18.	1896. April 29.	1895. May 1.	1894. May 2.

Messrs. Pixley & Abell write as follows under date of April 29:

Gold.—The Bank has received £300,000 in sovereigns, of which £140,000 came from Australia and £150,000 from South Africa; £527,000 has been withdrawn in bars, chiefly for Japan. In addition to the demand for Japan there has also been extensive buying for Austria, and several large shipments have been made from New York. Arrivals: South Africa, £209,000; Silver Plate, £41,000; West India, £40,000; Bombay, £74,000; Australia, £268,000; total, £411,000. Shipments: Bombay, £4,000; Japan, £211,000; total, £415,000.

Silver.—There has been no demand for India, and with large sales from New York the price has fallen to 28½d., at which the market shows weak. The Bombay price is 1s. 77. Arrivals: New York, £111,000; West India, £20,000; total, £131,000. Shipments: Bombay, £204,000; Calcutta, £45,000; total, £249,000.

Mexican Dollars.—There have been no sales of these coins.

The quotations for bullion are reported as follows:

## Commercial and Miscellaneous News

BONDS HELD BY NATIONAL BANKS.—The following interesting statement, furnished by the Comptroller of the Currency, shows the amount of each class of bonds held against national bank circulation and to secure public moneys in national bank depositaries on April 30:

Description of Bonds.	U. S. Bonds Held April 30, 1897, to Secure—		
	Public Deposits in Banks.	Bank Circulation.	Total Held.
Currency 6s, Pac. RR....	\$375,000	\$8,573,000	\$8,948,000
5 per cents, 1894.....	535,000	15,481,350	16,016,350
4 per cts., funded 1907..	11,970,000	150,978,750	162,948,750
4 per cents, 1895.....	2,400,000	35,397,350	37,797,350
2 per cts., funded 1891..	1,033,000	22,318,650	23,351,650
Total.....	\$16,313,000	\$232,749,300	\$249,062,300

**CHANGES IN LEGAL TENDERS AND NATIONAL BANK NOTES TO MAY 1.**—The Comptroller of the Currency has furnished us the following, showing the amounts of national bank notes April 1, together with the amounts outstanding May 1, and the increase or decrease during the month; also the changes in legal tenders held for the redemption of bank notes up to May 1.

<i>National Bank Notes—</i>		
Amount outstanding April 1, 1897.....	\$233,708,894	
Amount issued during April.....	\$371,007	
Amount retired during April.....	1,277,857	908,650
Amount outstanding May 1, 1897*.....		\$232,802,214
<i>Legal Tender Notes—</i>		
Amount on deposit to redeem national bank notes April 1, 1897.....	\$23,941,192	
Amount deposited during April.....	\$1,370,160	
Am't released and bank notes retired in Apr. ....	1,277,657	92,503
Amount on deposit to redeem national bank notes May 1, 1897*.....		\$24,033,695

\* Circulation of National Gold Banks, not included in above, \$95,740.

According to the above the amount of legal tenders on deposit May 1 with the Treasurer of the United States to redeem national bank notes was \$24,033,695. The portion of this deposit made (1) by banks becoming insolvent, (2) by banks going into voluntary liquidation, and (3) by bank reducing or retiring their circulation, was as follows on the first of each of the last five months:

Deposits by—	Jan. 1.	Feb. 1.	Mar. 1.	Apr. 1.	May 1.
Insolvent bks.	\$95,497	\$93,897	\$1,026,852	\$1,184,253	\$1,129,394
Liquid'g bks.	4,789,795	4,769,053	4,681,430	4,825,026	4,852,970
Red'g unde. act of 1874.	14,043,782	16,118,424	17,528,483	17,951,913	18,051,331
Total.	19,728,074	21,821,374	23,234,545	23,941,192	24,033,695

\* Act of June 20, 1874, and July 12, 1882.

**COINAGE BY UNITED STATES MINTS.**—The following statement, kindly furnished us by the Director of the Mint, shows the coinage at the mints of the United States during the month of April and for the four months of 1897.

Denominations.	April.		Four Months 1897.

—The "Manual of Water-Works" for 1897 has been issued. As the standard source for reference regarding water-works and their securities, the appearance of the book will be welcomed, the interest in the subject matter covered being a very general one. The book describes the water-works systems of the United States and Canada, now 3,350 in number, and gives the water rates charged in 1,250 cities and towns. In the introduction some recent tendencies in water-works practice are reviewed, with comments upon the increase in the number of works during the past six years. A feature of the book of especial interest at this time is the figures which it gives showing how the works in each State are divided between public and private ownership. A list of 200 cities and towns is given, in which the ownership of the water-works has changed from private to public, and there is another list of reverse changes in 20 cities and towns. "Engineering News," 220 Broadway, publishers; price \$3.

—"Mining in the Pacific Northwest" is the title of a book of 200 pages, issued from the office of the "Post-Intelligencer," Seattle, Wash. It gives a description with maps of each mining district in Washington and in Southern British Columbia; also a digest of the mining laws and other information on the subject of mining. Issued in paper covers; price 50 cents.

—Messrs. Farson, Leach & Co. offer sale \$120,000 city of Quincy, Mass., 4s.

**Headstuffs Figures Brought From Page 934.**—The statements below are prepared by us from the figures of the New York Produce Exchange. The receipts at Western lake and river ports for the week ending May 8, and since Aug. 1, for each of the last three years, have been as follows:

Receipts at—	Flour.	Wheat.	Corn.	Oats.	Barley.	Rye.

—The holders of United States Trust Company certificates for Chicago & Northern Pacific first mortgage bonds are advised by J. Edward Simmons, Chairman of the Bondholders' Committee, that by the provisions of the bondholders' agreement, the adoption of the plan of reorganization requires the assent of 70 per cent of the certificate holders. It is therefore important that the vote of every certificate holder should be recorded at the meeting to take place on the 20th of this month. Blank proxies for use at such meeting may be obtained from the United States Trust Co. or from the Secretary of the Committee.

—Messrs. Price, McCormick & Co., members of the New York Stock Exchange, advertise in to-day's issue traction, gas, water and out-of-town industrial securities. Their unlisted department has been placed in charge of Mr. A. A. Lisman, who will doubtless, with characteristic push and energy, make this department a feature of the firm's business.

—Mr. F. J. Lisman advertises in another column that he is prepared to trade in a number of railroad bridge securities as well as all other inactive railroad securities.

WALL STREET, FRIDAY, MAY 14, 1897-5 P. M.

**The Money Market and Financial Situation.**—As a result of diverse influences, business in Wall Street has been generally narrow and featureless this week. The foreign situation has improved under increasing evidence that hostilities between Turkey and Greece will soon terminate, and the better feeling which now prevails at the financial centres abroad has resulted in higher quotations for British consols, for French rentes and a noticeable increase in operations for foreign account at the Stock Exchange.

On the other hand, the slow progress which is being made with tariff legislation and uncertainty as to results of the the same, together with new discussion of the Cuban question in high official circles at Washington, serve to counteract any favorable effects which might follow other and more encouraging influences.

The Bank of England has again reduced its rate of discount, this time to 2 per cent, which denotes the easy condition of the money market in London, and is also evidence that the political situation abroad is much nearer a settlement than it has been. It was estimated early in the week that a considerable amount of gold would be exported before the close, but the total shipments are only \$2,800,000, including \$2,250,000 which has been engaged for to-morrow.

In the money market there is a somewhat better supply of commercial paper but not in sufficient amount to affect rates, and call money has been offered exceptionally low, with few takers.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1 1/4 to 1 1/2 per cent. To-day's rates on call were 1 1/4 to 1 1/2 per cent. Prime commercial paper is quoted at 3 1/2 to 4 1/2 per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £33,131 and the percentage of reserve to liabilities was 51.40, against 51.60 last week; the discount rate remains unchanged at 2 1/2 per cent. The Bank of France shows an increase of 24,650,000 francs in gold and 1,750,000 francs in silver.

The New York City Clearing-House banks in their statement of May 8 showed an increase in the reserve held of \$6,447,300 and a surplus over the required reserve of \$14,095,975, against \$48,917,625 the previous week.

**Foreign Exchange.**—The market for foreign exchange has been firm on a limited volume of business. The supply, which is supposed to include bills drawn against gold shipments, has been equal to the demand.

To-day's actual rates of exchange were as follows: Bankers, sixty days' sterling, 4 86 1/4 @ 4 86 1/2; demand, 4 87 1/4 @ 4 87 1/2; cables, 4 87 1/2 @ 4 87 1/2.

**State and Railroad Bonds.**—Sales of State bonds at the Board are limited to \$3,000 Tennessee settlement 8s at 82 and \$1,000 Alabama, Class A, at 107.

The railway bond market has been narrow and business in this department on a diminishing scale this week. Offerings of high-grade bonds have been limited and transactions confined chiefly to the speculative issues, with fluctuations in most cases represented by small fractions. Northern Pacific bonds have been the active features and advanced nearly a point under the movement. Kansas Pacific 1st consols and Erie general lien 3s have declined 1 1/2 points or more. The active list includes in addition to the above Atchison, Burlington & Quincy, Central New Jersey, Chesapeake & Ohio, Chicago & Erie, North West., Rook Island, Erie, Fort Worth & Denver City, East Tenn. Virginia & Georgia, Lake Shore, Missouri Kansas & Texas, Milwaukee & St. Paul, New York Central, New York Chicago & St. Louis, Norfolk & Western, Oregon Railroad & Navigation, Oregon Short Line, Reading Rio Grande Western, St. Paul Minn. & Manitoba, San Antonio & Aransas Pass, Southern Railway, Texas & Pacific, Union Pacific, Wabash, West Shore, Union Elevated, Brooklyn Elevated, Brooklyn Union Gas and Standard Rope & Twine bonds.

**Railroad and Miscellaneous Stocks.**—A feature of the stock market this week was an increased interest by brokers with foreign connections. Operations by arbitrage houses have been on a more extensive scale than of late, owing to a revival of investment and speculative activity abroad. Under the influence of this movement the highest quotations of the week were generally made on Tuesday, when the active list showed gains of from 1 to 2 per cent, averaging about 1 1/2 per cent. On this rise there was some taking of profits, but the reaction which followed was due more largely to the fact that the Cuban question is again up for discussion at Washington, which has had a depressing effect upon business at the Stock Exchange. Changes in the active railway list were about evenly divided between gains and losses, but rarely exceeding 1 point in any case until to-day, when the market was weak and lower quotations were general. The coal stocks were weak features, Central of New Jersey having declined 3 1/4 points. Union Pacific has been unusually active and on Wednesday sold at 7 3/4, against 5 1/2 last week and 4 1/4 on April 19. Northern Pacific preferred shares in sympathy with the bonds have been in demand at advanced quotations. Manhattan Elevated moved up 2 1/2 points on a favorable quarterly statement. The grangers have been relatively strong, although Burlington & Quincy shows a net loss of 1 point. Of the miscellaneous list Chicago Gas has been a prominent feature and declined 1 1/2 points on doubts as to the success of the gas consolidation bill in the Illinois State Legislature. Pacific Mail advanced on the announcement of a dividend, but closes with a net loss of 3/4 per cent. American Sugar has fluctuated between 11 1/2 and 11 1/4 under the influence of Senate discussion of sugar schedules in the tariff bill, closing at 11 3/4. Changes in other stocks included in this list are unimportant. ]

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

ROADS.	Latest Gross Earnings.		Jan. 1 to Latest Date.

\* Figures given do not include Oregon Ry. & Nav., Un. Pac. Denver & Gulf, Denver Leadville & Gunnison, Montana Union and Leavenworth & Southwestern. † These figures include results on leased lines. ‡ Includes earnings from ferries, etc., not given separately. § Mexican currency. ¶ Includes only half of lines in which Union Pacific has a half interest. †† Includes operations of the Ohio, Burlington & Northern in both years.

† Covers results for lines directly operated east of Pittsburgh. ‡ The earnings for the fourth week of April in 1895 were \$10,411. § Covers besides the Atlantic System the Houston & Texas, Central, Austin & Northwestern, Central Texas & Northwestern and Ft. Worth & New Orleans. ¶ Includes St. Louis Alton & Terre Haute for all periods.

**Latest Gross Earnings by Weeks.**—The latest weekly earnings in the foregoing are separately summed up as follows: For the first week of May our preliminary statement covers 57 roads, and shows 4.20 per cent increase in the aggregate over the same week last year.

Net increase 3.33 p. c.				

For week ending April 24.

**Net Earnings Monthly to Latest Dates.**—The table following shows the net earnings of STEAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of April 17, 1897. The next will appear in the issue of May 22, 1897.

#### STREET RAILWAYS AND TRACTION COMPANIES

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

GROSS EARNINGS.	Latest Gross Earnings.		Jan. 1 to Latest Date.

Includes results on North Side Traction Company, which was leased February, 1897 to the Second Ave. Traction Co.

**Street Railway Net Earnings.**—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of April 17, 1897. The next will appear in the issue of May 22, 1897.

### Georgia & Alabama Railway.

(Statement for Calendar Year 1896.)

The company's first mortgage preference bonds, limited to \$6,500 per mile) were recently listed on the New York Stock Exchange. The official statement submitted in connection with this event contains the following:

**Bonds.**—Of the \$2,431,000 first mortgage preference bonds issued, the company holds in its treasury \$201,000, of which \$100,000 are deposited as security for the lease of the road from Lyons to Meldrim. The amount of preference bonds, therefore, in the hands of the public is \$2,230,000.

The \$2,230,000 first mortgage preference bonds now outstanding nearly all represent new money put into the property. The holders of the old first mortgage bonds (\$3,350,000) of the former Savannah Americus & Montgomery Railway were given in new preference bonds only \$167,500, or 5 per cent of the face amount of their old bonds, in addition to the junior securities distributed among them.

**Mileage.**—The mileage of the company is as follows:

Owned—	Miles.	Leased—	Miles.
Montg'm'y, Ala., to Lyons, Ga. 205		Lyons, Ga., to Meldrim.....	58
Abbeville, Ga., to Fitzg'd, Ga. 224		Trackage, Meldrim to Savan. 17	
Columbia, Ga., to Albany, Ga. 874			

Total mileage owned.....375

Total mileage operated..450

**Physical Condition.**—As to the equipment, rails, bridges, etc., the company states:

**EQUIPMENT.**—The rolling stock includes 36 locomotives, also 2 additional belonging to the leased Montgomery Terminal Co., 26 passenger coaches, 10 baggage, mail and express cars, 624 box cars, 698 flat cars and 17 other cars; also a pile-driver and steam shovel.

**RAILS.**—The line from Montgomery to Lyons is laid with 60-lb. steel rails; from Lyons to Meldrim with 63-lb. steel rails; from Meldrim to Savannah with 63-lb. steel rails; Columbia, Ga., to Albany, Ga., with 58-lb. steel rails; from Abbeville, Ga., to Fitzg'd, Ga., with

16th steel rails. The rails are in good condition. The company has also about 50 miles of sidings and other tracks.

**Bridges.**—The bridges of the company are all steel and iron, with the exception of a 60 foot wooden truss bridge, which is now being replaced with a steel girder. They have all been recently examined by a bridge expert, and are in good condition, with the exception of one bridge, now being rebuilt.

The road is provided with sufficient side tracks, switch signals, safety switches, etc. The station buildings, offices and shops belonging to and used by the company are in good condition.

**Earnings.**—The earnings for the calendar year 1896 on an average mileage operated of 329 miles were as follows, the road from Abbeville to Fitzgerald, 22 $\frac{1}{4}$  miles, being included from Aug. 15, 1896, but not the 87 $\frac{1}{4}$  miles from Columbus, Ga., to Albany, Ga., the merger of this latter property only becoming effective Dec. 31, 1896:

Gross earnings	\$268,426
Operating expenses and taxes	599,173
Net earnings	\$269,253
<b>Fixed Charges.</b>	
Interest accrued same period on first mortgage preference bonds (about \$1,440,000) outstanding	\$72,525
Interest accrued same period on first mortgage consolidated bonds (\$2,325,000) outstanding	116,250
(Under the terms of the mortgage the company may, if it so elect, pay the whole or any portion of the interest on the consolidated mortgage bonds from Jan. 1, 1895, to Jan. 1, 1900, in 6 per cent 10-year scrip, but as its revenues have been ample, the company has always met the entire interest in cash as it has become due.)	
Rentals	49,025

Net revenue	\$237,800
	\$31,433

The company also retired during this period the principal and interest of car trust notes to the amount of \$95,397, leaving amount outstanding as per balance sheet below.

The calendar year 1896 included three months, January, February and March, before the road had secured its entrance into Savannah. Since the entrance into Savannah was obtained the business of the company has developed rapidly. The gross earnings of the company for the six months ending December 31, 1896 (being the first six months of the current fiscal year), on an average mileage operated of 356 miles, amounted to \$525,195. The operating expenses and taxes for the same period were \$345,388, leaving net earnings of \$179,807. The fixed charges for the six months amounted to \$125,850 (including interest on the preference bonds, \$36,775, interest on the consolidated bonds, \$58,125, rentals, \$30,950), leaving the net income for the six months \$53,957.

**Balance Sheet.**—The condensed balance sheet as of Jan. 1, 1897, was as follows:

Assets.	Liabilities.
Road, franchises, real estate, leaseholds, equipments, etc.	Common stock
\$11,627,361	\$5,610,000
Railroad line	Preferred stock
80,991	3,740,000
Stocks and bonds	First mtg. pref. 5A
G. & A. 1st mtg. pt. 5A	2,431,000
Consol. 5A	First M. con. 5s. gold
984,000	3,366,000
Preferred stock	Equip. notes, incl. int. to maturity, due 1897 to 1902
1,090,000	484,621
Common stock	Interest and rentals accrued, not due
1,930,000	22,242
Ins. paid, not accrued	Earnings (July 1 to Dec. 31)
4,122	525,195
Paid July 1 to Jan. 1—	Columbus Southern
Oper. ex. and taxes	96,242
345,388	Current liabilities—
Interest on bonds	Vouchers and accs. payable
94,000	123,883
Rentals	Due to connecting lines
30,950	4,899
Current assets—	Wages uncollected for
Cash	951
52,478	Loans and bills payable
Due by agents	112,815
31,382	Profit and loss
Due by others	25,607
10,389	
Due by U. S. Post O.	
6,640	
Other expenses	
223	
Materials and supplies	
51,510	
Total	Total
\$16,540,455	\$16,546,455

The surplus revenue to Jan. 1, 1897, together with the proceeds of the bonds sold and balance of funds received from the Bondholders' Committee under the reorganization plan, have been expended in the purchase of the Abbeville & Waycross RR., in the purchase of the Columbus Southern Ry., the purchase and retirement of the equipment notes of the old Savannah Americus & Montgomery Ry., the purchase of additional equipment and for improvements and betterments to the property.—V. 64, p. 843.

#### Burlington Cedar Rapids & Northern Railway.

(Report for year ending Dec. 31, 1896.)

President C. J. Ives in the report says in part:

**Permanent Improvements.**—The first half of the year showed a large increase in earnings over any previous year. This, with the handsome surplus of 1895, led your directors to increase the yearly dividends from 3 per cent to 4 per cent, and also to authorize the placing of 10,298 tons of 80 lb. steel rails in track, thus replacing light and worn rails. All our main tracks are now laid with steel. The replacing of wooden bridge structures by stone and steel was pushed vigorously, and sixty wooden bridges were replaced with permanent structures. Hauling with gravel, cinders and stone was done on 55 miles of track. Ofiles 221,000 oak and 147,000 cedar were placed in track. These heavy expenditures in maintenance of way has resulted in placing your roadway in better condition than ever before, thus providing for handling the traffic in the most economical manner. The great decrease in the price of steel rails has induced your directors to order for 1897 8,500 tons, believing it better to economize in something else and give the track the benefit of the low price.

Two hundred work cars, four switch engines and three flat cars—larger engines have been added to the equipment, the cost of which is charged to operating expenses. These additional stock cars are adding largely to the car mile

age earned, and decreasing the amounts paid, so that the balance at the close of 1897 will undoubtedly be in our favor instead of against us, as it has been of late. It will not be necessary to purchase any more cars for this year. Two freight engines will be bought to replace old light engines.

The Union Passenger Station at Cedar Rapids has been completed, and is thought to be the finest and most convenient station in the State.

**Financial.**—The \$584,000 Iowa City & Western Ry. 7s have been replaced with a like amount of consolidated 5s.

The rapid decrease in earnings commencing with August, 1896, has continued until the present time, and earnings so far this year are approximately the same as in the years 1894 and 1895, and the economies in operation in those years are in practice now, which, with an increase of business confidently looked for, will without doubt enable your company to maintain its property in its present most excellent condition, as well as to provide for its fixed charges and dividends.

**Traffic.**—The reports for a series of years show tonnage hauled as follows (000 omitted):

Year.	Total.	Wheat.	Corn.	Barley.	Oats.	Flour.	Lumber.	Coal.	Merch.
1896	1,003	125	82	138	245	+166	171	270	114
1895	1,852	129	24	99	206	+117	206	295	113
1894	1,534	68	60	60	109	+94	178	240	118
1893	1,731					+96	185	243	107
1892	1,817			405		+79	214	235	109

Includes meal. Includes coke.

The average earnings per freight train mile in 1896 were \$1.55, against \$1.61 in 1895 and \$1.34 in 1893. Of the total tons carried in 1896 (1,902,585) 415,068 were local freight. The gross earnings per mile of road in 1896 were \$3,916, against \$3,965 in 1895 and \$3,157 in 1890; net earnings do \$953, against \$1,316 in 1895 and \$780 in 1890.

**Statistics.**—The operations and fiscal results and balance sheet for the recent year compares as below:

	1896.	1895.	1894.	1893.

#### Chicago & West Michigan Railway.

(Report for the year ending Dec. 31, 1896.)

The sixteen annual report is signed by Secretary Charles Merriam, who says in substance:

**General Results.**—The geographical location of this property makes it dependent entirely upon local business. The commercial conditions have remained substantially in the same dull condition as during the three years preceding, and there has consequently resulted a decrease in gross earnings of \$81,430.

The passenger traffic, in sympathy with the depressed movement of commodities, shows a heavy falling off, viz., \$52,533.

**Car Ferry.**—The plan for a car ferry is still under consideration, but conditions are not yet favorable to its inauguration.

**Financial.**—The large percentage of operating expenses to earnings is due entirely to small earnings, as a large increase in traffic could be handled with little increase in expense.

As the conditions which made it necessary in 1895 to pay only half of the face value of the bond coupons in cash and the remainder in coupon scrip still exist, the same course will be pursued in regard to the coupons maturing May 1 and June 1, 1897. This course has increased somewhat the mortgage debt and consequently the annual interest charge.

General Manager Charles M. Heald says in part:

**Track and Equipment.**—The roadway and tracks have been maintained to the standard of previous years and special attention has been given to the ditching and embankments; but, owing to the enforced curtailment of work upon the road during the past few years, increased care is now required to maintain it to the proper standard of safety, so that, notwithstanding the most rigid economy, it has not been possible to effect any reduction in the expenses of the track department. The total cost of repairs of roadway and tracks, including renewals of rails and cross ties, was in 1896 \$307,174, as against \$298,497 in 1895. The work done includes:

New ditching made, 19.29 miles; old ditching cleaned out, 95.49 miles; main track ballasted, 36.52 miles; side track ballasted, 14.69 miles. Three bridges and five culverts, with a total length of 133 feet, were removed and filled, making in all 10,050 feet of such openings in the track closed since the commencement of this work, six years ago. 151,426 feet of embankment were widened. No new steel rails were purchased or laid during the year; 339,217 cross ties and 334,017 feet of switch ties were laid; 35.75 miles of wire fence, 2.95 miles of board fence and 2.37 miles of snow fence were built.

Twelve locomotives received general repairs, 16 heavy repairs and 62 light repairs. Eleven locomotives, old and too light for service, were sold. The locomotives, including six belonging to the Michigan Equipment Co., now number 65, against 76 last year.

**Traffic.**—Of the traffic earned in 1896 lumber and products of forest contributed 44.06 per cent; products of agriculture, 16.71 per cent; of animals, 1.71 per cent; of manufactures, 8.97 per cent; of mines, 13.23 per cent; merchandise, 10.05 per cent; miscellaneous, 5.27 per cent.

**Statistics.**—Earnings, expenses, charges, etc., have been compiled for the CHRONICLE as follows:

FISCAL RESULTS.

Surplus over charges.....	70,038	71,185	105,919

There has been expended for new construction and equipment from 1890 to 1896 \$353,173, leaving available assets on Dec. 31, 1896, of \$77,094.—V. 62, p. 867.

### New England Telephone & Telegraph Company.

(Report for the year ending Dec. 31, 1896.)

President Thomas Sherwin in the report says in part:

The year closed with a substantial increase of the number of subscribers connected with the exchange system. The construction at nearly all points is now of so substantial a character that interruptions of service due to wind or storm damage are of rare occurrence.

Looking back over the records of the past ten years, we find that within that time the number of exchange stations has increased from 13,525 to 29,484; private line contracts from 2,680 to 5,454; the mileage of exchange wire from 12,303 to 60,908 miles, and that of toll line wire from 3,092 to 20,801 miles. The number of yearly exchange connections has increased meantime from 18,400,000 to 66,800,000, and the toll line messages from 44,700 to 3,029,000. Of the entire number of exchange subscribers, 19,253 are now connected by metallic circuit. The plan of measured service exchange rates has proved so acceptable that we have recently decided to extend the system.

The expenditure for new construction during the year amounted to \$489,047, of which \$124,095 was for exchange aerial construction; \$145,313 for underground work; \$67,583 for equipment, and \$152,049 for toll lines.

The maintenance account has assumed large proportions, but when it is considered that in addition to the cost of current repair every telephone company operating under conditions of climate similar to our own must, in order to keep its property at the best standard of efficiency, replace yearly one tenth of its entire plant, exclusive of underground conduits, the necessity for the large expenditure chargeable to this account becomes evident. We believe that the property was never in a condition of greater efficiency than at present.

An additional issue of \$500,000 five per cent twenty-year debenture bonds, seventh series, was authorized early in the year; \$350,000 of this issue, together with the remaining \$50,000 of the sixth series have been sold. Of the stock held in trust for the benefit of the company (2,310 shares) 200 have been sold, and proceeds used for construction.

The necessary expenditure for maintenance and extension of the plant during 1897 are estimated as follows: For new construction, \$500,000; for maintenance, \$1,000,000; total, \$1,500,000.

**Statistics.**—Results of operations were as given below:

RECEIPTS AND EXPENSES.			
	1896.	1895.	1894.
<b>Revenue—</b>

\* Retired in 1896.—V. 64, p. 663.

### Erie Telegraph & Telephone Company. (Report for year ending Dec. 31 1896.)

The report of this company for the late fiscal year was given at much length in the CHRONICLE last week on pages 900 to 902 showing clearly the growth in business and earnings of the three proprietary companies from which the Erie Telegraph & Telephone Co. derives its income. Thus for instance the Cleveland Telephone Co., operating in the county of Cuyaboga, Ohio, including the city of Cleveland, exhibits an increase of subscribers from 3,936 Dec. 31, 1894, to 4,681 Dec. 31, 1896, or over 18 per cent. The Northwestern Telephone Exchange Co., also, embracing Minneapolis, St. Paul, etc., etc., shows an increase in subscribers of over 19 per cent, and the Southwestern Telegraph & Telephone Co., with lines covering all the important points in Texas, has an increase of no less than 50 per cent, the latter company having at present over 10,000 subscribers. Nevertheless, through a mistake in our compilation, the earnings of the sub-companies, as published in this column last week, were made to show a decrease compared with 1895 instead of the increase of 11 per cent that really existed. The results for the Erie Company itself, however, were correctly given, and on page 900 the full official statement explained in detail the nature of the results.

The revised figures are as follows:

SUB-COMPANIES.			
	1896.	1895.	1894.
Gross income.....	1,306,147	1,085,806	1,033,619
Gross expenses.....	706,135	635,258	638,493
Net earnings.....	500,012	450,638	395,136
Dividends.....	461,662	403,625	352,375
Surplus.....	38,350	47,013	42,761
ERIE TELEGRAPH & TELEPHONE CO.			
	1896.	1895.	1894.
Proportion of dividends rec'd.....	314,914	275,337	240,867
Fixed charges and expenses.....	106,274	60,855	25,756
Net income.....	208,640	214,482	214,911
Dividends paid.....	192,000	192,000	192,000
Balance, surplus.....	16,640	22,482	22,911

—V. 64, p. 587, 900.

**American Bell Telephone.—Berliner Patent Upheld by United States Supreme Court.**—The United States Supreme Court on Monday, in an opinion delivered by Justice Brewer, decided the famous Berliner patent case in favor of the company. Justice Harlan dissented. Justices Gray and Brown took no part in the case. The Berliner patent, all interest in which was assigned to the company in 1878, was first applied for in April, 1877, but was not granted till Nov. 17, 1891, thus securing to the company the benefits of its protection for seventeen years from that date, viz., till Nov. 17, 1908. The Government brought suit to have the patent set aside, but the Supreme Court, sustaining the lower court, now holds that there was no evidence of corruption or undue influence or of fault on the part of the company to account for the delay in granting the patent. It holds that whatever delay there has been was through the fault of the Patent Office and by no fault of the company.

The Berliner patent, it is said, "practically covered the ground of the first Bell patent, which was granted March 8, 1876." The other fundamental patents having expired, it has been expected to protect the company from free competition until November, 1908.

Would be competitors of the company say that the decision merely acquiesces the company of the charge of fraud in connection with the issuance of the patent, but does not establish the validity of the patent in other respects. Similar patents, they claim, have expired in foreign countries, and, therefore, in view of recent decisions, they profess to believe that the Berliner patent will finally be set aside. The friends of the company, however, express no fear on this score and are much elated over the victory just attained.—V. 64, p. 797.

**American Grocery Co.—Meeting May 22 to Consider Dissolution.**—President T. L. Marsalis, "by order of the board of directors," has called a meeting of the stockholders to be held May 22, 1897, to consider disposing of the business. A circular says in substance:

For several months past David Hunt, a former director, and H. Applington, a former attorney for the Thurber-Whyland Co., and some employees, have been pursuing a course detrimental to the company. On April 12, 1897, a bill drawn by H. Applington was filed on complaint of David Hunt, representing forty-four shares of stock out of a total of 35,000 shares, for a receiver for the company. Judge Kirkpatrick decided that no receiver was necessary. The hostile attitude of these parties for several months past made it necessary to reduce the volume of business and otherwise take steps to prevent a sacrifice of the assets by creditors, and, had it not been that the liabilities of the company were only about \$50,000 when this suit was brought, the business would certainly have been wiped out by attaching creditors. The company now owes only about \$30,000, and if not interfered with by these parties its liabilities will be entirely discharged in a few days. These attacks have so injured the credit and trade of the company that it is practically impossible to continue the business, and in view of this fact a meeting of the stockholders is hereby called, to be held on the 22d day of May, 1897, at 12 o'clock noon, to consider the advisability of disposing of the business.—V. 64, p. 897.

**American Tobacco.—New Directors.**—At the annual meeting May 12 Ernst Schmeisser was elected a director in place of G. W. Gail, who retired. The other three directors whose terms expired were re-elected. Messrs. Marburg and Ginter also resigned from the board, and were replaced by Herman Ellis and J. D. Cobb. The report is given on another page.—V. 64, p. 663.

**Atlantic & Pacific RR.—Atchison Topeka & Santa Fe Ry.—Suit of Income Bondholders.**—The committee representing the Atlantic & Pacific (Western Div.) Income bondholders, through their counsel, Henry Crawford and William Strauss, have brought suit in the Supreme Court of this State against the Atchison Topeka & Santa Fe Ry. Co. and others, to obtain a decree declaring said bondholders not to be cut off by the foreclosure of the first mortgage, and permitting them to acquire the property by redemption. The contention of the bondholders is that the reorganized Atchison Company is virtually the old Atchison Company and was organized under a plan to obtain the assets of the old corporation and the properties it controlled, and to cut off certain creditors and junior lien holders, including the income bondholders. The plaintiff's complaint asks for such accountings and injunctions as may be necessary to protect their rights in the premises.

**Atlantic & Pacific 4 Per Cent Guaranteed Trust Bonds.**—On behalf of outstanding bondholders, Messrs. Whitehouse & Co., 25 Broad Street, New York City, have invited others of the same class to co-operate for the protection of the rights of holders of A. & P. (Western Division) 4 per cent guaranteed trust bonds not heretofore deposited with the State Trust Co. Under the action of the committee and trustee the only return offered to such bondholders is about (not quite) ten cents on the dollar. There are about \$387,000 bonds outstanding. It is proposed to test the regularity of this matter.—V. 64, p. 887.

**Baltimore & Ohio RR.—New Docks at Chicago and Milwaukee.**—The company has secured possession of dock property at Chicago and Milwaukee for its new lake line from Fairport, O. One of the Milwaukee docks has a corrugated iron warehouse 300x200 feet. Another dock on the Menominee

River has a slate-covered warehouse 325x60 feet. The Chicago dock is at the foot of Illinois Street and has 200 feet frontage on the river. Its storage capacity is estimated at 3,000 tons.—V. 64, p. 841.

**Baltimore Traction.—City & Suburban Ry.—Lake Roland Elevated RR.—Meeting May 22 to Ratify Consolidation.**—The stockholders of these companies will meet May 22 to ratify the consolidation agreement. The terms of the merger have not been officially announced, but it is understood that the agreement has been signed by T. Edward Hambleton and John M. Nelson, representing the Traction Company, and Frank Perin, of Cincinnati, and Michael Jenkins, of Baltimore, for the City & Suburban. It is further understood that the Traction Company's stock will be exchanged at a valuation of \$22 per \$25 share for the stock of the new company, while the City & Suburban stock will be exchanged at par. The "Consolidated Traction Company", as the new company will probably be called, is expected to have a capital stock issue of about \$9,000,000. It will assume the bonded indebtedness of the lines merged to a total of \$10,550,000, but it is said will not issue bonds of its own. The combined roads will aggregate about 190 miles of track.—V. 64, p. 753, 799; V. 62, p. 547.

**Boston & Albany RR.—Quarterly.—Earnings for the quarter and the nine months ending March 31 have been as follows:**

3 months end, Mar. 31.	Gross earnings.	Net earnings.	Interest, taxes, etc.	Balance, surplus.
1897.....	\$2,028,716	\$764,639	\$134,891	\$629,748
1896.....	2,072,585	787,528	148,169	639,359
9 months—				
1896-7.....	\$6,727,459	\$2,489,912	\$1,010,548	\$1,479,364

**Brooklyn Elevated RR.—Listing of Reorganization Certificates.**—On the New York Stock Exchange have been listed certificates of deposit for the following assented bonds:

	1st M.	2d M.	1st M.	1st M.
Deposited.....	\$3,035,000	\$1,126,000	\$5,212,000	\$1,245,000
Total issue.....	3,500,000	1,250,000	6,150,000	1,365,000
-V. 64, p 887.				

—V. 64, p. 887.

**Buffalo (Street) Railway.—Quarterly.—Earnings for the quarter and the nine months ending March 31 have been reported as follows. These figures do not include the Crows-town Street Railway, 76 miles:**

3 months end, Mar. 31.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, surplus.
1897.....	\$323,076	\$150,813	\$5,959	\$6,474	\$50,098
1896.....	335,154	161,716	8,183	103,821	64,078
9 months—					
1896-7.....	\$1,011,794	\$499,867	\$17,993	\$318,925	\$198,935
1895-6.....	1,025,167	522,977	13,293	314,076	227,194

Loans and bills payable March 31, 1897, \$163,100, against \$763,029 on June 30, 1896.—V. 64, p. 329.

**Cambria Iron Co.—New Bonds.**—The circular sent out by the company regarding the new bond issues says in part:

The stockholders on Jan. 16, 1894, authorized the directors to issue \$2,500,000 of bonds whenever deemed advisable. The magnitude of the company's business is such that it is not thought prudent to borrow money from time to time to conduct it, and in order to pay off the present loans and provide funds for ore property about to be purchased and for additional coke ovens and improvements to be made at Johnstown the directors have decided to offer to the shareholders \$2,000,000 of the issue of \$2,500,000 of bonds (the balance, \$500,000, being held in the treasury at par, the proceeds to be applied as follows: To pay off loans at present existing, \$1,300,000; to pay for ore property in the Mesaba District and improvements at works, \$700,000.

The following is the proposed wording of the bonds:

The Cambria Iron Co. acknowledges itself to be indebted to the bearer or in case of registration as hereinafter provided to the registered owner in the sum of \$1,000 lawful gold coin of the United States of America of present standard weight and fineness, which sum the Cambria Iron Co. promises to pay in said gold coin on the first day of July, 1917, together with interest thereon at the rate of 6 per cent per annum, payable in like gold coin semi-annually on the first days of January and July in each year until the payment of the principal as herein provided, said principal and interest to be paid free from all taxes imposed thereon by the laws of the United States or the State of Pennsylvania which the Cambria Iron Co. may be required to pay or retain therefrom.

This bond is one of a series of twenty-five hundred bonds of \$1,000 each and of like tenor issued under the terms of an agreement bearing even date herewith between the Cambria Iron Co. and Powell Stockhouse and Edward T. Stotesbury, trustees, by the terms of which it is *inter alia* provided that the Cambria Iron Co. shall have the right on and after the first day of July, 1902, at any interest period after thirty days' notice given by advertisement, to redeem this bond at par, as in said agreement is particularly provided, and in which agreement the Cambria Iron Co. doth covenant that no mortgages shall be placed upon its property or franchises until a mortgage securing the bonds issued under this agreement shall have been executed with a portion on all of said property and franchises.

This bond shall not be obligatory upon the Cambria Iron Co. until the certificate hereon endorsed shall have been signed by the trustees, and is subject to registration as to the principal thereof upon books kept by the Cambria Iron Co. for that purpose.

Witness the corporate seal of the Cambria Iron Co. and the signatures of its President and Secretary this first day of July, 1897.—V. 64, p. 753.

**Central Crosstown RR. (N. Y. City).—Quarterly.—Earnings for the quarter and the nine months ending March 31 have been reported as follows:**

3 mos. end, Mar. 31—	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, surplus.
1897.....	\$134,477	\$37,465	\$1,223	\$25,842	\$12,346
1896.....	134,911	35,259	1,183	25,645	10,797
9 mos.—					
1896-7.....	\$421,935	\$115,295	\$3,423	\$77,526	\$41,192
1895-6.....	411,066	112,821	3,452	76,934	39,339

—V. 64, p. 286.

**Central Washington RR.—Foreclosure Decree.**—Judge Hanford of the U. S. Circuit Court, at Spokane, Washington, has signed the decree of foreclosure. W. J. C. Wakefield has been appointed Master in Chancery to make the sale within sixty days from June 7. The property will be purchased by the bondholders' committee, and a meeting of the bondholders will be shortly called.—V. 63, p. 1114.

**Chicago & Northern Pacific RR.—Sale Confirmed.**—Judge Jenkins of the United States Circuit Court has confirmed the sale of the property to the reorganization committee. The sale took place Nov. 17, 1896, the bid being \$8,000,000.—V. 64, p. 888, 898.

**Chicago Packing & Provision.—Annual Statement.**—The report of the English directors shows:

Dividends paid or due on the shares held by the company \$25,000; profits over expenses \$24,123, which, with \$16,807 brought forward last year, makes a total of \$40,930. Dividends paid April 30 and Oct. 31, 1896, absorbed \$32,000, and a dividend at the rate of 8 per cent on the preferred shares for the half-year ending April 30, 1897, consumes \$8,000, leaving a surplus of only \$930. The directors "regret that the amount available for dividends does not permit of the payment of a final dividend on the ordinary shares." The English Company has outstanding ordinary shares \$200,000, and 8 per cent cumulative preference shares, \$200,000, and owns shares of the Chicago Packing & Provision Co. and H. Botsford & Co. (subject to an existing mortgage for \$550,000), which were purchased at a cost of \$399,700.—V. 61, p. 924.

**Chicago Street Railways.—Defeat of Humphreys Bills.**—A press dispatch from Springfield, Ill., says that the Humphreys bills, to permit the extension of franchises of street railways in Illinois fifty years and vesting the control of existing lines and new franchises in boards of commissioners instead of the aldermen of the various cities, were killed in the Legislature on Wednesday. The enacting clause of the first bill was stricken out by a vote of 123 to 29. Similar action was taken regarding the second bill by a viva voce vote. Substitute bills are talked of.

**Citizens' Street RR. of Indianapolis.—New Directors and Officers.**—At the annual meeting in Indianapolis, Ind., May 11 a new board of directors was elected, composed of the Philadelphia men, W. W. Kuriz, Kennedy Crossan, R. H. Rushton, W. C. Houston, Joseph A. Neff, F. Duondors and W. J. Turner. Only the last two were members of the old board. Mr. Crossan was unanimously chosen President, succeeding A. L. Mason. The General Superintendent, Treasurer and Electrician were re-elected.—V. 64, p. 842.

**Commercial Cable Co.—Listing of Bonds.**—As already stated in this column, the company has listed on the New York Stock Exchange \$18,000,000 of its new bonds. Of the authorized loan of \$20,000,000, \$16,000,000 have been issued, but of this latter amount \$3,000,000 have been returned to the company and canceled in exchange for debenture stock.

The bonds are secured by a first mortgage executed by the Commercial Cable Co. to the Farmers' Loan & Trust Co. of New York, as trustee, covering:

- The property of the Commercial Cable Co., including its triple cable system of submarine telegraph, comprising 9,110 miles of cable.
- All the telegraph lines, property and assets of the Postal Telegraph Cable Co., said telegraph lines being about 90,000 miles in length, all of which are free from other bonded indebtedness. These telegraph lines are secured to the trustee of the mortgage, not only by the mortgage covering all these lines but also by the deposit with the Farmers' Loan & Trust Co., as trustee, of the capital stock of the Postal Telegraph Cable Co. itself, amounting altogether to 150,000 shares of \$100 each, nearly all of which has already been deposited with the trustee of the mortgage. In addition to the above there are about 25,000 miles of telegraph lines which are owned by subsidiary companies. The shares of stock of these subsidiary companies were owned by the Postal Telegraph Co. and have all been transferred to the Farmers' Loan & Trust Co. as trustee under the mortgage. Certain leases by which the Postal Telegraph Cable Co. operates telegraph lines about 8,733 miles in length are also covered by the mortgage.
- All the income of both companies.

The Postal Telegraph Company's earnings are as follows:

Year.	Receipts.	Net earn.	Year.	Receipts.	Net earn.
1896.....	\$4,473,084	\$579,182	1894.....	\$3,754,233	\$596,581
1895.....	4,321,296	617,863	1893.....	3,565,293	537,273

[For earnings and balance sheet of Commercial Cable Co., see the annual report in CHRONICLE of March 20, 1897, page 565, the combined net earnings of the two companies for 1896 being \$1,755,747.]

Other facts furnished are as follows:

The Commercial Cable Co. has a reserve fund which at the present date amounts to \$2,292,820, and more than two-thirds of which is invested in United States Government bonds, real estate bonds and first-class railroad bonds, and the remainder in stocks. The real estate bonds consist of \$250,000 of the \$1,000,000 of the 4 per cent 20-year first mortgage gold bonds of the Commercial Cable Building Co., which owns the new building at 20 and 22 Broad Street and 18 and 20 New Street, in the city of New York.

The property covered by the mortgage runs through or into some thirty-eight States of the Union and also foreign countries. The mortgage has been recorded in New York, Chicago, Philadelphia, St. Louis, Boston, Buffalo, Providence, Rochester, Springfield, Syracuse, Rockport, Mass., and Guyaboro (Canso), N. S., but in order to obviate the necessity of recording it in all the States, the mortgage provides that the title to the property (subject, of course, to the mortgage,) shall be deeded to a subsidiary company, and that all the shares of stock of that subsidiary company shall be deposited with the trustee of the mortgage as additional security under the mortgage. This prevents any future debt or obligation of the Commercial Cable Co. taking precedence to the mortgage debt, for the reason that the title to the mortgaged property will not be vested in the Commercial Cable Co. The only property held abroad is the landings, buildings and electrical apparatus at Waterville, Ireland, and Canso, Nova Scotia.

At any time the bonds may be exchanged for 4 per cent debenture stock at the rate of 100 of debenture stock for each \$1,000 of bonds. The debenture stock is issued in certificates of the denomination of \$1 sterling and upwards, transferable and receiving interest only in London, but the amount of bonds and debenture stock combined can never exceed \$2,000,000. All outstanding debenture stock will have a lien upon the assets equally with the bonds. The debenture stock is not convertible again into bonds.

As previously stated, the whole issue of bonds is \$20,000,000, whereof \$15,000,000 are issued in payment of the property of the Postal Telegraph Co., each shareholder in that company receiving said bonds, dollar for dollar, for stock. All of the \$15,000,000 of said bonds have been so issued, excepting about \$250,000, which will probably be applied for shortly. \$1,000,000 of the remaining \$5,000,000 of bonds have been issued to pay debts incurred for construction prior to 1907, thus leaving both companies free from floating debt. The remaining \$4,000,000 of the \$20,000,000 of the bonds may, by the terms of the mortgage, be issued at any time by the company for any lawful purposes of the company.

The mortgage securing the said bonds requires that the accounts of the company be audited each year by public accountants, to be elected by the stockholders.—V. 64, p. 542.

**Delaware & Hudson Canal.—New Director.**—The stockholders at their annual meeting this week elected R. S. Hayes a director to succeed Cornelius Vanderbilt, who declined a re-election on account of ill health. Mr. Hayes is President of the S. Paul & Duluth RR.—V. 64, p. 370.

**Delaware Lackawanna & Western RR.—Quarterly.**—Earnings of the D. L. & W. leased lines in New York State for the quarter ending March 31 have been as follows:

3 mos. end, Mar. 31.	Gross earnings.	Net earnings.	Interest, taxes, etc.	Balance, sur. or def.
1897.....	\$1,215,826	\$451,877	\$628,245	\$176,371
1896.....	1,434,101	585,729	620,715	35,019

The report of the whole system for year ending December 31, 1896, was given in CHRONICLE of Jan. 31.—V. 64, p. 423.

**Diamond Match Co.—Sale of Liverpool Plant.**—Dividend June 12.—The sale of the Liverpool plant, it is announced, was closed in London May 10, when the Diamond Match Co. (Limited) was registered under the laws of Great Britain. A dividend of 2½ per cent has been declared, payable June 12.—V. 64, p. 754.

**Erie Railroad.—Quarterly.**—Earnings for the quarter and the nine months ending March 31, 1897, have been reported as follows. The road was not turned over to the present company until Dec. 1, 1895, so no comparison is given for the nine months. Earnings of the Chicago & Erie are not included in the following figures, but the net result to the Erie for the 1897 quarter is included in the balance.

3 mos. end, Mar. 31.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, sur. or def.
1897.....	\$6,258,999	\$1,401,246	\$35,011	\$1,121,820	def. \$631,532
1896.....	6,137,311	1,976,343	6,719	1,741,290	def. 58,139
9 months—					
1896-7.....	\$1,567,416	\$1,416,303	\$70,930	\$5,339,641	sur. \$37,592

—V. 64, p. 603.

**Fitchburg Railroad.—Quarterly.**—Earnings for the quarter and the nine months ending March 31, have been as follows:

3 mos. end, Mar. 31.	Gross earnings.	Net earnings.	Interest, taxes, etc.	Balance, sur. or def.
1897.....	\$1,565,505	\$438,275	\$319,718	sur. \$48,557
1896.....	1,676,020	368,830	380,757	def. 11,927
9 months—				
1896-7.....	\$5,342,304	\$1,779,750	\$1,145,795	sur. \$673,955
18-9-4.....	5,760,977	1,648,206	1,129,561	sur. 551,642

—V. 64, p. 707.

**Fulton, Wall & Cortlandt Street Ferries RR., New York City.—Foreclosure Proceedings.**—The referee in the foreclosure suit of the Central Fruit Co. finds that the amount due on 450 defaulted bonds is \$593,925, and that 59 other bonds are not in the hands of bona fide holders. The mortgaged property consists of franchises for a street railway, projected to run from Fulton and Wall Street ferries to Cortlandt and Liberty Street ferries, a distance of 2-7 miles. These franchises, the referee finds, should be sold as an entirety. Edward Kearney, 45 William Street, New York, is President of the company.

**Grand Trunk RR.—Central Vermont RR.—Report for Six Months Ending Dec. 31.**—The pamphlet report of the Grand Trunk RR. Co. for the six months ending Dec. 31, 1896, is at hand, showing:

6 mos. to Dec. 31.	Gross receipts.	Net earnings.	Net, incl. other inc.	Rentals.	Interest, etc.	Balance, surplus.
1894.....	\$2,079,745	\$614,112	\$1,07,807	\$369,520	\$39,047	
1895.....	1,981,963	544,173	634,252			

The report makes the following interesting statements as to the company's increased facilities for doing business via Portland and as to the new bridge over the Niagara River:

**Increased Facilities for Export Business via Portland.**—The extension of the company's wharves at Portland for the accommodation of the larger class of ocean steamers now engaged in the service has been completed; additional new wharves at and between Montreal and Portland have been provided, and the improved facilities thus afforded for the prompt handling of the traffic have resulted in a satisfactory increase of traffic to and from that port. The new elevator of about 1,000,000 bushels capacity in course of construction at Portland is nearly completed and will no doubt tend still further to the development of business.

**New Bridge at Niagara.**—The construction of the new double track bridge across the Niagara River, in substitution of the single track suspension bridge, is in progress, and the new bridge is expected to be available for traffic in the course of this year, thereby greatly facilitating the movement of trains and the handling of traffic at that point of the system.

**Ownership of Central Vermont Securities.**—In view of the pending reorganization of the Central Vermont RR., the following statement showing the securities of that company owned by the Grand Trunk Company is of value:

Consolidated Railroad of Vermont, first mortgage bonds, \$751,300 (85 cents paid there 3 per cent bonds were lent to assist the Central Vermont RR. Co. in July, 1894 against collateral of \$1,000,000 4 per cent general mortgage bonds); preferred stock, \$201,000; common

stock, \$150,000; Central Vermont RR. common stock, \$50,000; Central Vermont RR. notes, \$114,775.—V. 64, p. 423, 693.

**Illinois Central Railroad.—Important Bond Transaction.**—The following official statement was made on Thursday: "The Illinois Central RR. Co. has made a negotiation with Kuhn, Loeb & Co. and Verrill & Co., covering \$10,000,000 3½ per cent gold bonds [two loans—Eds.] secured upon the former Chesapeake Ohio & Southwestern and the former St. Louis Alton & Terre Haute railroads, both now forming part of the Illinois Central system.

"The company has also sold to the same houses the \$1,350,000 Chicago St. Louis & New Orleans first mortgage bonds, interest reduced to 3½ per cent, to be issued November 1st in lieu of maturing divisional bonds, and has arranged with these firms to renew at 3½ per cent the \$3,000,000 Springfield division bonds maturing next January."

Of the \$30,000,000 3½ per cents above referred to, \$20,000,000 are Chesapeake Ohio & Southwestern purchase money mortgage bonds issued to reimburse the Central for its expense in acquiring that property, and \$10,000,000 are first mortgage bonds of 1896 issued on the St. Louis Division, comprising the old St. Louis Alton & Terre Haute. While the contract is for the ultimate sale of the whole \$30,000,000 of bonds, only about \$6,000,000, part of each issue, will be delivered at once. The remainder will be issued from time to time as deemed best.

#### CHESAPEAKE OHIO & SOUTHWESTERN LOAN.

This new \$20,000,000 loan will be dated July 1, 1897, and mature July 1, 1953, receiving interest in the meantime semi-annually in January and July. The mortgage will provide that \$5,000,000 additional bonds, and no more, may be issued for future betterments and new property. The Illinois Central issued in 1895 about \$5,000,000 of 4 per cent 2-19-year bonds, subject to call at par, to pay for the second mortgage bonds and other securities of the Chesapeake Ohio & Southwestern that were purchased from Mr. Huntington. These bonds have not yet been called for payment, but they will be redeemed by the company and the new bonds issued in their stead, whenever the syndicate so requests.

The new bonds will cover the following properties:

Property to be covered by mortgage—	Miles.
Former Chesapeake Ohio & Southwestern—	
Elizabethtown, Ky., via Paducah, Ky., to Memphis, Tenn.....	353
Lease from L. & N. of line from Louisville to Cecilia Junction ...	45
Former Owensboro Falls of Rough & Green River RR.—	
Owensboro to Horse Branch Ky. (purchased April 9, 1897.—V. 64, p. 755).....	42
Former Short Route Ry. Transfer (V. 64, p. 331) two-tracked road in Louisville.....	1½
The terminals in Louisville and Memphis, which have been heretofore deeded in trust to the United States Trust Co. lands in Louisville and elsewhere which have been recently purchased by the Illinois Central R. Co. together with the equipment and franchises appertaining to the railroads named.	

Total (including 45 miles leased).....442½

The \$20,000,000 new bonds will be at the rate of about \$50,000 per mile of road owned, but the interest rate is only 3½ per cent, and the terminal property included at Louisville and Memphis is large and valuable. Since the Illinois Central took possession, Aug. 1, 1896, it has simply spent the receipts of the property in bettering it, replacing all of the 54-lb. steel with 75-lb. steel, strengthening the bridges, putting in a large quantity of additional ballast; it is now painting and repairing the stations, in short, getting the whole property up to the Illinois Central standard.

The earnings of the above lines while in receivers' hands were as follows:

Year ending June 30.	1896.	1895.	1894.
Chesapeake Ohio & S. W.....	\$2,432,416	\$815,646	\$799,044
Owensboro Falls of R. & G. River.....	53,896	8,241	15,418
Short Route Ry. Transfer.....	39,274	26,731	18,718

Total.....\$2,557,316 \$850,618 \$833,180

Interest charge on the \$20,000,000 of 3½ per cents will be \$700,000.

No allowance has here been made for taxes, but it is clear that the new bonds are issued on a conservative basis and should be no burden to the Illinois Central proper.

#### ST. LOUIS DIVISION BONDS.

The total authorized issue of the St. Louis Division bonds is \$15,000,000, of which amount \$5,000,000 are set aside for exchange for the stocks of the old St. Louis Alton & Terre Haute and Belleville & Southern Illinois railroads deposited with the United States Trust Company. The \$5,000,000 so held are three per cents and until Jan. 1, 1898, are subject to the option of Spencer Trask & Co., or their assigns, to purchase them at 90. They are not included in the bonds now sold, and consequently the interim certificates issued on account of the stock of the St. Louis Alton & Terre Haute and Belleville & Southern Illinois will not be paid or exchanged at present. The \$10,000,000 3½ per cent bonds sold embrace all the balance of the issue, including \$3,500,000 held to retire the following bonds covering portions of the St. Louis Alton & Terre Haute:

Bonds to be retired.—	
St. Louis Alton & T. H. Terminal bonds, subject to call at 100 on one year's notice.....	\$2,275,000
Belleville & Southern Ills. 1st M. 4½s. due Oct. 1, 1897.....	938,000
St. Louis Southern 1st M. 4s. due Sept. 1, 1931.....	510,000
Belleville & Eldorado 1st M. 7s. due July 1, 1910.....	220,000
Belleville & Carondelet 1st M. 6s. due June 1, 1923.....	485,000
Carbondale & Shiloh 1st M. 6s. due March 1, 1912.....	250,000
Chicago St. Louis & Paducah 1st M. subject to call at any time on sixty days' notice at 105.....	1,000,000
Total.....	\$5,778,000

The loans here enumerated are either for the most part already in the possession of the Illinois Central, or, as will be seen, are redeemable at its option at short notice, thus rendering available the bonds reserved against them.

The remaining \$3,500,000 St. Louis Division bonds may be issued under the mortgage as follows:

For the purpose of acquiring interests and outstanding securities in said properties (whether any of said first mortgage bonds above enumerated or otherwise) and to construct or acquire extensions, branches or other additions to said properties and improvements and betterments thereof, and additional equipment for use thereon and in connection therewith, all of which interests, securities, additions, improvements, betterments and property shall thereupon become subject to the lien and operation thereof.

"The effect of the new loan", says President Fish, "will be to diminish the Illinois Central charges; enable it to take up the prior liens on the C. O. & S. W.; to realize on the large advances it has made thereon (receivers' certificates, overdue coupons, etc.); and also to buy up the minority interests in the various branch and leased lines of the St. Louis Alton & Terre Haute RR." It may be added that on June 30, 1896, the company reported outstanding "bills payable (including obligations incurred in purchase of C. O. & S. W. first mortgage bonds and other securities)" to the amount of \$6,142,619. The funding of this item at the low rate of  $3\frac{1}{2}$  per cent will naturally, as President Fish says, reduce the company's annual interest charge.—V. 64, p. 755.

**Indiana Decatur & Western Ry.—Earnings.**—For the year ending December 31 earnings have been reported as follows:

Year end. Dec. 31.	Gross earnings.	Operating expenses.	Net earnings.
1896.....	\$468,881	\$308,413	\$160,468
1895.....	473,621	320,518	153,103

—V. 64, p. 41.

**Indianapolis Decatur & Springfield Ry.—Indianapolis Decatur & Western Ry.—Foreclosure Sale Upheld.**—The Supreme Court of Illinois has just handed down a decision in the suit brought by E. R. Craft for leave to redeem from the old Indianapolis Decatur & Western mortgage the Illinois end of the line upon the ground that there had been no foreclosure suit brought in Illinois. The case is decided against the plaintiff, the court affirming the foreclosure decree. Mr. Chas. Robinson Smith, counsel for the railroad company, says: The Court sustained all three of our contentions:

1. That the suit brought in Indiana by the trustees for instructions and for leave to sell under the power of sale contained in the mortgage passed a good title;

2. That that suit viewed simply as a foreclosure suit was sufficient to pass title in Illinois on the authority of *Muller vs. Dows*, 94 U. S. 4; and

3. That independently of the Indiana suit, and if there had been no suit whatsoever, the acts of the trustees in conveying in compliance with the power of sale, passed a good title.

The decision also sustained the judgment below on our cross bill quieting our title and forever enjoining Craft from interfering therewith.

The decision is of some importance as establishing the rule contended for that an inter-State railroad mortgaged as an entirety may be foreclosed in a single State court without the institution of ancillary proceedings in the courts of the other States through which it extends. The general rule, of which this is a qualification, is that foreclosures and other suits affecting land must be brought in the courts of the State where the land lies.

The quo warranto suit which was brought last December and which involved questions on the consolidation law of Illinois is now on appeal in the Illinois Supreme Court and is likely to be heard at the next term of the Court.—V. 64, p. 41.

**Kansas City Pittsburg & Gulf RR.—Through Trains June 10.**—It is expected that by June 10th the Kansas City Pittsburg & Gulf Railroad Co. will have through trains running over its own track from Kansas City, Mo., to Port Arthur, Texas. The grading south of Many, La., is nearly completed, and track laying is progressing rapidly and satisfactorily. The increasing local earnings of this road, it is suggested, bear testimony to the improved and improving conditions of general business along the line from Kansas City to Shreveport.—V. 64, p. 754.

**Long Island RR.—Quarterly.**—Earnings for the quarter and the nine months ending March 31 have been as follows:

3 mos. end. March 31.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, sur. or def.
1897.....	\$2,495	\$1,380	\$10,657	\$294,379	def. \$237,362
1896.....	631,218	23,333	loss 690	278,346	def. 255,693
9 months—					
1896-7....	\$2,856,872	\$315,286	\$126,819	\$915,801	sur. \$26,284
1895-6....	2,928,770	910,822	103,770	844,421	sur. 170,171

Loans and bills payable March 31, 1897, \$1,494,000, against \$900,000 on Sept. 30, 1896.—V. 64, p. 754.

**Madison Square Garden.—Annual Meeting—Reorganization.**—At the annual meeting this week the old board of directors was re-elected as follows: F. K. Sturgis, J. Pierpont Morgan, D. O. Mills, Charles Lanier, H. H. Hollister, W. F. Wharton, Sanford White, W. C. Gulliver, James T. Woodward, H. I. Nicholas and James C. Young. The company, it is stated, remains in about the same unsatisfactory condition as a year ago. The option for the sale of the Garden given April 3, requires the purchaser to pay \$12 a share for the stock and assume the outstanding indebtedness. This option will expire on June 1. It is thought the option will not be exercised, and that a committee will be appointed soon after that date to draft a plan of reorganization.

**Manhattan (Elevated) Railway, N. Y. City.—Quarterly.**—Earnings for the quarter and the nine months ending March 31 have been reported as follows:

3 mos. end. March 31.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, surplus.
1897.....	\$2,347,504	\$1,048,513	\$42,560	\$665,324	\$425,689
1896.....	2,362,811	945,039	50,080	616,418	384,761

9 months.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, surplus.
1896-7.....	6,430,992	2,835,165	135,693	2,076,166	944,692
1895-6.....	6,935,118	2,790,075	190,020	2,223,598	756,497

Dividends for the nine months of 1896-7 (4 p. c.) call for \$1,200,000 against ( $4\frac{1}{2}$  p. c.) \$1,350,000 in 1895-6. Loans and bills payable, March 31, 1897, \$730,000, against \$190,000 on June 30, 1896.—V. 64, p. 799.

**Metropolitan Street Ry., New York.—Official Statement as to Cause of Delay in Changing Motive Power.—Right of City to Purchase Sixth and Eighth Avenue Lines.**—President Vreeland issued a statement on Tuesday explaining why work had not been begun on the proposed change of motive power. The statement, which charges a rival company with causing the delay, is in part substantially as follows:

The company promised that it would during the coming season introduce electricity as a motive power upon portions of its system. The promised change would have resulted in two new rapid-transit lines from the Battery, one ending at the Harlem River and One Hundred and Sixtieth Street, and the other at Amsterdam Avenue and One Hundred and Twenty-fifth Street, from which point it could be extended further north at a later time. A majority of the owners of private property have given their consent, the Railroad Commissioners have authorized the change, the Commissioner of Public Works has issued his permit, the plans are prepared, and as much as fifteen miles of the material for construction are already delivered.

Numerous injunction suits, however, have been instituted, the real point being to prevent the competition which new and improved railroads would cause. An injunction has been issued on several technical questions and also the question whether the city of New York has any option to purchase portions of the Sixth and Eighth Avenue railroads. We have no considerable investment in these lines except some comparative small betterments made since the leases were executed. But if we invest the large sum of money necessary to introduce electricity as a motive power we are liable to find ourselves involved in litigation, and will have placed our capital where it will be subject to attack.

"We are advised by the most eminent counsel we can employ that there is no merit in these claims. It is admitted by both sides that large parts of both the Eighth and Sixth Avenue roads were built under grants which never contained any provision for sale, so that the city's right to purchase—if it exists at all—applies only to a little more than half of the Sixth Avenue road and a somewhat greater portion of the Eighth Avenue.

"We have done everything we could in pressing the hearing in court and the case will doubtless soon be decided."

Henry J. Braker, an importer, of 95 William Street, has offered the city \$1,000,000 for each of the two franchises in addition to the amount required to pay the present occupants for their improvements, and the franchisees to be subject to the regular franchise tax, never to be less than \$50,000 per annum on each road.—V. 64, p. 838.

**New England RR.—Quarterly.**—Earnings for the quarter and the nine months ending March 31 have been as follows:

3 mos. end. Mar. 31.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, sur. or def.
1897.....	\$1,130,620	\$230,601	\$8,291	\$395,587	def. \$154,675
1896.....	1,263,858	260,604	5,748	381,177	def. 114,789
9 months—					
1896-7....	\$3,860,896	\$799,397	\$20,750	\$1,172,563	def. \$352,421
1895-6....	4,557,588	1,296,087	13,278	1,201,022	sur. 103,321

Loans and bills payable March 31, 1897, \$100,000, against \$100,000 on June 30, 1896.—V. 64, p. 604.

**New England RR.—Treatment of New York & New England Terminal Mortgage.**—In view of the sale by this company of a large block of its real estate in Boston to the Boston Terminal Company, the question has been asked in regard to the Terminal mortgage for \$1,500,000, made in 1889 by the New York & New England RR. Co., in what manner the loss of a portion of its security is to be made good to the bondholders. We are authoritatively informed on this point as follows: "By agreement the bondholders have decided to have the proceeds of the sale of the terminal property in the city of Boston invested in other mortgages upon property also owned by the New England RR., or, in other words, practically to substitute other mortgages for the mortgages that are paid off. The mortgage for \$94,000 will be substituted at once, and the proceeds of the mortgage for \$120,000 will be held by the American Loan & Trust Co. in trust until the mortgage which it is proposed to give is ready for execution, regarding which latter there may be some months delay. The New York & New England Terminal bonds will not be disturbed and will run their natural life."—V. 64, p. 664.

**New York & Harlem RR.—New York Central & Hudson River RR.—Harlem to Get the Saving from Refunding.**—Referring to the item in the CHRONICLE of March 13 (page 519), citing the lease of the New York & Harlem RR. to the New York Central, we are now officially informed that the saving from the refunding of the \$12,000,000 of Harlem 7s due May 1, 1900, has been decided to belong to the Harlem stockholders. The annual charge on the \$12,000,000 of  $3\frac{1}{2}$  per cent refunding bonds will be \$420,000, a saving compared with the present interest charge of \$420,000, or equal to 4.2 per cent on the Harlem Company's \$10,000,000 of stock. The official statement to us from Treasurer Rossiter is as follows: "The action of the New York & Harlem RR. board of directors was taken on the advice of counsel that the Harlem Company was entitled to any benefit that may accrue in the refunding of the Harlem bonds."—V. 64, p. 800.

**New York New Haven & Hartford RR.—Quarterly.**—Earnings for the quarter and the nine months ending March 31 have been reported as follows:

3 mos. end. Mar. 31.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, surplus.
1897.....	\$6,433,178	\$1,891,859	\$129,150	\$1,009,927	\$411,082
1896.....	6,600,955	2,118,091	124,023	1,498,207	743,907
9 months—					
1896-7....	\$21,710,784	\$7,115,403	\$429,674	\$4,753,260	\$2,791,808
1895-6....	22,736,843	7,204,293	355,555	4,897,418	2,665,430

From this surplus for the nine months (\$2,791,808) dividends at 8 per cent per annum call for \$2,850,000, leaving a deficit of \$58,192.

Loans and bills payable March 31, 1897, \$7,720,000 (against \$6,650,000) on June 30, 1896, but in April, 1897, a flock of debenture 4s and \$5,000,000 guaranteed New England 5s were sold and proceeds were applicable to payment of floating debt and for improvements.

**Electric Line Tested.**—The directors on Monday made a trial trip over the line recently equipped with the third-rail electric system between New Britain and Hartford. The run of ten miles, it is stated, was made in 13½ minutes, and with less jar than is ordinarily experienced in the steam passenger trains. Stretches of the route were covered much faster than a mile a minute. The electricity is generated at New Britain, where the engine room provides for five engines with an aggregate of 10,000 horse power. The cars are about fifty feet long.—V. 64, p. 843.

**New York Ontario & Western Ry.—Quarterly.**—Earnings for the quarter and the nine months ending March 31 have been reported as follows:

3 months end. Mar. 31.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, sur. or def.
1897.....	\$818,829	\$204,717	\$20,093	\$217,918	sur. 7,462
1896.....	763,881	163,761	20,000	213,517	def. 29,756
9 months—					
1896-7.....	\$2,915,534	\$971,031	\$62,078	\$639,221	sur. \$344,484
1895-6.....	2,811,108	886,806	60,090	670,610	sur. 276,286

Loans and bills payable March 31, 1897, \$323,053, against \$434,383 on June 30, 1896.—V. 64, p. 424.

**Northeastern RR. of Georgia.—Road Turned Over to State.**—Receiver Dooley on May 7 turned over the road to Rufus Raver, the agent of the State. The rent due the State by the lessees, it is stated, covers a period of one quarter, two months and four days, or about \$7,500.—V. 64, p. 843.

**Ohio Valley Ry.—Foreclosure Sale June 3.**—The sale is advertised for June 3 at Henderson, Ky., the upset price to be \$1,050,000.—V. 64, p. 288.

**Philadelphia & Erie RR.—Sunbury & Erie 7s Due Oct. 1, 1897.**—The Sunbury & Erie RR first mortgage 7s, maturing October next, will be replaced by the issue of a similar amount of Philadelphia & Erie RR. general mortgage 4s. The Pennsylvania RR. Co. has purchased the latter bonds at 103, thus furnishing the funds to redeem the 7 per cent loan at maturity, of which \$976,000 is outstanding. The saving in interest will be \$29,280 annually.—Philadelphia "Ledger."—V. 64, p. 371.

**Quincy Omaha & Kansas City Ry.—Omaha Kansas City & Eastern Ry.—Sale Confirmed.**—The sale of the Quincy Omaha & Kansas City has been confirmed and the payment completed. The link to connect the road with the Omaha & St. Louis will be completed within thirty days, when the two roads will be merged into the company organized for the purpose, viz.: the Omaha Kansas City & Eastern.—V. 64, p. 900.

**Rio Grande Western Ry.—Denver & Rio Grande Western RR.—Rights of Bondholder Not Assenting to Reorganization of 1889.**—The suit of Simon Rothschild to recover judgment on first mortgage coupons (of which in 1890 he held 110) attached to bonds not assenting to the reorganization plan of 1889 came up before the Appellate Division of the New York Supreme Court this week on appeal taken by the Railway Company at the trial term and was decided in favor of Mr. Rothschild.

The case, which was originally brought in 1890, was decided by the Supreme Court before Judge Andrews in favor of the defendant, the question involved being the right of a bondholder to bring action upon coupons, notwithstanding the provisions of the mortgage prohibiting individual bondholders from bringing suit to enforce the mortgage security and providing that the trustee only may take such proceedings. On an appeal to the General Term the decision was reversed Jan. 18, 1895, in an opinion rendered by Judge Follett, concurred in by Judges Van Brunt and Parker, the Court holding that inasmuch as "there is no hint in the bond or in the coupon that the owner may not, in case of default, maintain action at law for the recovery of the principal or interest as it falls due", that the right to such action "cannot be nullified by an inconsistent provision contained in the trust deed."

The right of the plaintiff to bring an action being upheld, the case was again brought to trial in the Supreme Court before Judge Beach, and a judgment in favor of the plaintiff obtained. The decision just rendered by the Appellate Division (First Department) is on the appeal from this judgment. It is as follows:

The objection that the complaint does not state facts sufficient to constitute a cause of action is not maintainable. It was held on a former appeal that the complaint was sufficient in its allegations respecting the effect of the consolidation of the railroad corporations (14 N. Y. Sup. 584). The complaint also sets forth sufficient facts to impose upon the defendant liability for the coupons. The contention that an action upon the coupons has already been determined by the General Term (44 Hun. 101).

Concerning the second defense, there is nothing to indicate that the ruling of the judge at the trial term excluding the bondholders' agreement, was erroneous. It was not an authenticated paper in any sense, and it also appears that it was not sufficient as proof for the reason that by Article 9 of the mortgage it required the holders of a majority in interest of bonds to waive defaults in such manner as would bind the minority holders, and the amount of bonds claimed to be owned by the signers of that paper was very much less than the major part of the outstanding issue.

The judgment of the Supreme Court is therefore affirmed. An article regarding the decision will be found in our editorial columns.—V. 63, p. 697, 709, 1009.

**Saginaw Consolidated Street Ry.—Saginaw Union Ry.—Default.—Receiver Applied For.**—The interest due Feb. 1, and May 1, 1897, on the bonds of these companies was not paid. Application was made recently in the United States Court for a receiver for both the Saginaw Union and the Consolidated, but this was denied. Action has already been begun, however, looking toward a receivership for the Consolidated Co., which action will probably be decided in a few days. A committee consisting of Chas. E. Eddy, Gardner T. Sanford and S. D. Loring is representing the Consolidated Company's bonds, a large majority of which are already deposited with the Boston Safe Deposit & Trust Company as trustee under the committee's agreement.

**St. Joseph & Grand Island Ry.—New Securities Ready.**—The Central Trust Co. expects to begin on Monday or Tuesday the delivery of the new securities.—V. 64, p. 841.

**St. Louis Terminal Cattle Station & Property —\$3,000,000 Bonds offered.—Description of Property.**—This company's \$3,000,000 of 4½ per cent first mortgage gold bonds have been offered for subscription recently at par. They are dated June 1, 1897, and are due June 1, 1917, but are subject to call at 102 and interest after June 1, 1902. Principal and interest are payable in New York or London in gold, tax free. The issue is limited to \$3,000,000 and is stated to be an absolutely first lien.

President R. S. Brookings says regarding the property:

"The Cattle Station Wholesale Buildings of St. Louis, the first group of which was erected in 1891, consist of several blocks of high-class, modern, slow-combustion buildings, situated on both sides of the mouth of the Terminal R.R. Association's tunnel in that city, and surrounding a Union freight station, which is a part of the property. This station is operated, directly or indirectly, by all of the railroads entering St. Louis and East St. Louis, and is so connected with the different buildings of the group as to permit the tenants to receive and ship any quantity of freight, from a single package to a car-load, without the delay and expense incident to the usual system of carting to and from depots. One large steam plant furnishes the power for operating the elevators, and also heats and lights all of the buildings, which are leased to about twenty of the largest wholesale houses in the city of St. Louis, including such well-known houses as the Simmons Hardware Co. and the Samuel Cupples Wooden Ware Co. In addition to the Cupples Station Buildings proper, a number of other, wholesale buildings in the immediate vicinity of the Cupples Station are included under this mortgage; of these two are still in course of erection. The Cupples Station is located within five to six blocks of the Post-office, Custom-house, Southern Hotel, and of the office building centre of St. Louis, and its location enables tenants to use the street side of the buildings for offices, sales-room and city business. The Terminal Railroad Association of St. Louis is under perpetual contract to maintain a freight station on the premises. The income of the company is secured by leases, which have an average unexpired duration of about nine years. These bonds which form the total \$3,000,000 authorized are an absolute first lien upon the lands (comprising 218,900 square feet, all held in fee), buildings, railway tracks, and easements ceded in the trust deed."

The earnings of the property for the year 1896 and the interest charge as it will hereafter be on the new 4½s are reported as follows:

Gross Revenue.	Op. Exp., taxes, &c.	Net Revenue.	Other Income.	Total Net.	Interest on 4½s to be
\$267,866	\$52,928	\$214,938	\$25,062	\$240,000	\$155,000

**Savannah Florida & Western Ry.—Offer of Exchange to Holders of Atlantic & Gulf 7s due July 1, 1897.**—This company has made arrangements with the New York Security & Trust Co. to pay at maturity, July 1, 1897, the Atlantic & Gulf bonds, or to exchange them for Savannah Florida & Western first mortgage gold bonds of 1884, with interest reduced to 5 per cent per annum. The Atlantic & Gulf bonds aggregate \$1,781,000; \$1,000,000 of them may be exchanged for the aforesaid issue until June 1, 1897, upon payment of 5 per cent of the amount of the bonds. Holders desiring to make the exchange should notify the New York Security & Trust Co.

The bonds offered in exchange are a part of the \$6,500,000 first mortgage gold bonds authorized under the mortgage of April 1, 1884, with interest reduced to 5 per cent, both principal and interest payable in gold coin of the present standard of weight and fineness, in New York City, and mature April 1, 1934. They are a first lien on 487 miles of the Savannah Florida & Western road and cover 58 miles additional, subject to prior liens of \$664,000 (which will be paid off on or before September, 1899), at only 12,000 per mile. The mortgage of 1884 is followed by the \$30,000,000 consolidated 5 per cent bonds due May 1, 1943, on the entire road, of which there are at present outstanding \$6,900,000.

The New York Security & Trust Co., 46 Wall Street, and Chas. T. Wing & Co., 18 Wall Street, are now prepared to purchase at par, adjusting interest, the bonds of any holders who may desire to sell rather than exchange.

Arrangements will be made to have the new bonds listed on the New York Stock Exchange as soon as issued. The saving in interest charges to the company from the refunding will be \$17,800 yearly.—V. 64, p. 421.

**Seaboard & Roanoke RR.—Suit to Declare the Pooling Agreement Void.**—Thomas F. Ryan brought suit in the U. S. Circuit Court at Baltimore on Tuesday to obtain possession of 153 shares of the company's stock, which were deposited with Louis McLane and Judge Watts, under the pooling agreement of October, 1895, (see V. 63, p. 715, 924), and the receipt representing which was purchased by Mr. Ryan on Jan. 2, 1897, for \$15,300. The object of the suit is to have the pooling agreement declared illegal.—V. 64, p. 753.

**Second Avenue RR. (N. Y. City).—Quarterly.**—Earnings for the quarter and the nine months ending March 31 have been reported as follows:

3 mos. end. Mar. 31.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, sur. or def.
1897.....	\$139,494	def. \$30,835	\$1,170	\$33,433	def. \$33,593
1896.....	175,023	26 036	625	26,267	sur. 424
9 months—					
1897-7.....	\$525,933	\$59,798	\$2,421	\$84,713	def. \$76,494
1895-6.....	669,742	155,927	1,375	99,034	sur. 58,768

Loans and bills payable March 31, 1897, \$185,000, against \$10,000 on June 30, 1896.—V. 64, p. 664.

**Staten Island Rapid Transit RR.—Quarterly.**—Earnings for the quarter and the nine months ending March 31 have been reported as follows, excluding ferry earnings:

3 mos. end. Mar. 31.	Gross earnings.	Net earnings.	Interest, taxes, etc.	Balance, sur. or def.
1897.....	\$23,052	def. \$10,859	\$40,627	def. \$9,516
1896.....	131,790	net 45,791	81,403	d.f. 35,318
9 months—				
1897-7.....	\$447,766	net \$161,739	\$241,773	d.f. \$79,989
1895-6.....	569,849	net 243,851	234,279	sur. 9,572

Loans and bills payable March 31, 1897, \$738,640, against \$699,375 on June 30, 1896.—V. 64, p. 331.

**Summit Branch.—Time for Deposits Extended to June 10.**—The time for assenting to the reorganization plan has been extended until June 10.—V. 64, p. 755.

**Third Avenue RR.—(N. Y. City).—Dividend Reduced.**—The company this week declared a quarterly dividend of 2 per cent, a reduction of  $\frac{1}{4}$  of 1 per cent from the last two quarterly dividends. From August, 1895, to August, 1896,  $2\frac{1}{4}$  per cent was paid quarterly, so that the yearly rate has been reduced from 10 to 8 per cent since August last.—V. 64, p. 844.

**Trans-Missouri Freight Association—Joint Traffic Association.**—At Washington, May 10, the Supreme Court denied the petition for a rehearing in the Trans-Missouri Freight Association case. This action will leave the legality of traffic agreements unsettled until the Court hears the appeal in the Joint Traffic Association case in October next, as it has already decided to do.—V. 64, p. 800, 754.

**Union Pacific Ry.—Listing of Reorganization Certificates for Collateral Trust Gold Notes.**—Reorganization certificates for \$8,150,000 of the total issue of \$3,488,000 collateral trust gold notes 6s of 1891 (Morgan notes) have been listed on the New York Stock Exchange.

**Foreclosure Suit under Denver Pacific Mortgage.**—George Gould and Russell Sage as mortgage trustees, have filed suit in the United States Circuit Court at Denver, asking for the foreclosure of the Denver Pacific mortgage, and for possession of the 106 miles of road between Denver and Cheyenne, known as the Cheyenne branch of the Union Pacific, which are covered by that mortgage. Of the \$975,000 7 per cent first mortgage issued by the Denver Pacific \$971,000 are held for the Kansas Pacific consols, and practically all remaining equity in the property belongs to the Union Pacific collateral trust gold 6s of 1891 by virtue of deposit as security therefor of the Kansas Division and collateral trust bond, which, with other security, have a direct lien on the Cheyenne Division immediately subsequent to the \$975,000 Denver Pacific firsts. Newspaper despatches to the contrary notwithstanding, the United States Government has no claim upon the Cheyenne branch.—V. 64, p. 902.

**Utah Central Ry.—Sold in Foreclosure.**—This road was sold under foreclosure at Salt Lake City May 8 for \$277,000 to Graff & Dittmeyer, representing New York bondholders.—V. 64, p. 800.

**Wheeling & Lake Erie Ry.—A Majority of First 6s of 1926 Co-operate.**—Maitland, Coppel & Co. state that they have the co-operation of owners of Wheeling & Lake Erie Ry. first mortgage bonds of 1926 in excess of \$1,500,000, being a majority of the issue, and request other holders to communicate with them for the protection of all interested.—V. 64, p. 713.

**Wisconsin Central Co.—New Through Freight Line.**—The company announces the formation of a line between St. Paul and Minneapolis and Newport News, Va., via the Wisconsin Central, to Manitowoc, the Great Lakes Steamship Company, the Cleveland Cincinnati Chicago & St. Louis and the Chesapeake & Ohio Railways, for the transportation of freight from the Northwest to Newport News and then across the ocean. Through bills of lading will be issued to various foreign points.—V. 64, p. 903.

—The "Chicago Economist" has issued an investors' supplement giving statistics of all the leading Chicago corporations whose securities are listed on the Stock Exchange, or which command public attention. The supplement contains tables showing the operations of the various corporations, with income and operating expenses, interest requirements and dividends, together with all obtainable data regarding bond and stock issues, and provisions of mortgages and leases. It also contains maps of all the street railway companies in Chicago and Cook County. It brings down to date the statistics regarding street railways as printed in a supplement issued a year ago, and also includes various other corporations.

## Reports and Documents.

### READING COMPANY.

#### VOTING TRUST AGREEMENT.

To meet the desire expressed by some of our readers to see a copy of a typical voting trust agreement, we give below the full text of the Reading agreement, and of one of the certificates issued under it. These should be read in connection with the article in the April issue of our INVESTORS' SUPPLEMENT, and the two editorial articles in the CHRONICLE of April 24 and May 1.

The agreement itself is as below, the head lines being inserted by us to assist in its perusal. The right to convert the second preferred stock in the manner stated is, of course, exceptional, and is not usually found in voting trust agreements. The agreement says:

AGREEMENT DATED FEB. 1, 1897.

This Agreement, made in the City of New York this first day of February, 1897, by and between

#### PARTIES.

J. P. MORGAN & Co. (hereinafter called the "managers") reorganization managers under a certain plan and agreement for the reorganization of the Philadelphia & Reading system, dated the fourteenth day of December, 1895, parties of the first part, and J. PIERPONT MORGAN, FREDERIC P. OLCOTT and HENRY N. PAUL (hereinafter called the "voting trustees"), parties of the second part.

#### PREAMBLE—PURPOSE OF VOTING TRUST.

WHEREAS, pursuant to the terms and conditions of the said plan and agreement for reorganization, and in order to promote and protect the value of the securities to be held and to be issued by the Reading Company, and as an additional protection to its new general mortgage bonds, the managers have delivered to the voting trustees certificates for fully paid shares of fifty dollars (\$50) each of the capital stock of the Reading Company, as follows, viz.: 560,000 shares of the first preferred stock; 840,000 shares of the second preferred stock; 1,398,000 shares of the common stock, which certificates, together with such other similar certificates as hereafter from time to time may be delivered hereunder, are to be held and disposed of by the voting trustees under and pursuant to the terms and conditions hereof:

AND, WHEREAS, such certificates for shares are substantially in the forms hereto annexed and for all purposes are made a part hereof.

#### NOW, THEREFORE:

FIRST.—The voting trustees do hereby promise and agree to and with the managers, and to and with each and every holder of any certificate issued as hereinafter provided, that from time to time, upon request, they will cause to be issued to the managers, or upon their order, in respect of all stock received from them, certificates in substantially the following form:

[Then follow copies of the New York trust certificates registered by the Central Trust Co., and the Philadelphia trust certificates signed by the Pennsylvania Company for Insurance of Lives & Granting Annuities. The wording of one of these certificates is given further below.—Eds.]

#### PROVISIONS RESPECTING TERMINATION OF TRUST.—SECOND PREFERRED STOCK SUBJECT TO CONVERSION.

SECOND.—On the first day of January, 1902, if then the Reading Company for two consecutive years shall have paid 4 per cent per annum cash dividend on its first preferred stock, and, if not, then so soon as such dividend shall be so paid, and upon surrender of any stock trust certificate then outstanding, the voting trustees will, in accordance with the terms hereof, deliver therefor corresponding proper certificates of stock of the Reading Company. It is, however, distinctly understood and agreed that at any date the voting trustees may call upon the holders of stock trust certificates to exchange them for certificates of capital stock, and at or after the date to be specified in any such call they shall deliver stock certificates in exchange therefor; and also that the second preferred stock is subject to the right of the Reading Company, at its option and in such manner as it shall determine, at any time after dividends at the rate of 4 per cent per annum shall have been paid for two successive years on the first preferred stock, to convert the second preferred stock not exceeding \$42,000,000 at par, one-half into first preferred stock and one-half into common stock.

#### VOTING TRUST TO APPLY TO ANY SUCCESSOR CORPORATION.

THIRD.—The term "Reading Company" for the purposes of this agreement and for all rights thereunder, including the issue and delivery of stock, shall be taken to mean either the Pennsylvania corporation of that name, or any successor or consolidated or any corporation which, with the unanimous approval of the voting trustees, shall be adopted to carry into full effect said reorganization plan and agreement, dated Dec. 14, 1895.

#### TO INCLUDE ALL STOCK HEREAFTER ISSUED.

FOURTH.—From time to time hereafter the voting trustees may receive any additional fully-paid stock, duly authorized, of the capital stock of the Reading Company, either preferred or common, and in respect of all such stock so received will issue and deliver certificates similar to those above mentioned, entitling the holders to all rights above specified.

#### RESIGNATION AND APPOINTMENT OF VOTING TRUSTEES.

FIFTH.—Any voting trustee may, at any time, resign by delivering to the other voting trustees, in writing, his resignation, to take effect ten days thereafter; and in every case of death, or resignation, or of the inability of any voting trustee to act, the vacancy so occurring shall be filled by the appointment of a successor or successors to be made by the other voting trustees by a written instrument, and the term "voting trustees" as herein used shall apply to the parties of the second part and their successors hereunder.

## LIMITATIONS ON POWERS OF VOTING TRUSTEES.

SIXTH.—All questions arising between the voting trustees shall from time to time be determined by the decision of the greater number of those then acting as voting trustees, either at a meeting or by writing with or without a meeting, and in like manner they may establish their rules of action, but they will not, nor will any of them, consent that (1) any mortgage, additional to the mortgage of \$135,000,000 heretofore authorized, shall hereafter be put upon the property formerly constituting the system of the Philadelphia & Reading R.R. Co. and Philadelphia & Reading Coal & Iron Co., or that (2) the amount of the first preferred stock of the Reading Company be increased, except after they shall in each instance have obtained the consent of the holders of a majority of the whole amount of each class of preferred stock trust certificates given at a meeting of such certificate holders called for that purpose, and also the consent of the holders of a majority of such part of the common stock trust certificates as shall be represented at such meeting; the holders of each class of stock trust certificates voting separately; or that (3) the amount of the second preferred stock be increased except with like consent by the holders of a majority of the whole amount of second preferred stock trust certificates given at a meeting of the holders of second preferred stock trust certificates called for that purpose, and also with like consent by the holders of a majority of such part of the common stock trust certificates as shall be represented at such meeting; the holders of each class of stock trust certificates voting separately; provided, however, that no consent of holders of stock trust certificates shall be required or necessary to authorize the voting trustees to consent or the company to proceed to the conversion of its second preferred stock to an amount not exceeding \$12,000,000 at par, one-half into first preferred stock and one-half into common stock, at any time after dividends at the rate of 4 percent per annum shall have been paid for two successive years on the first preferred stock.

## VOTING TRUSTEES TO SELECT SUITABLE DIRECTORS.

SEVENTH.—In voting the stock held by them, the voting trustees will exercise their best judgment from time to time to select suitable directors, to the end that in accordance with the purposes first above set forth the affairs of the company shall be properly managed; and, in voting on other matters which may come before them at any stockholders' meeting, they will exercise like judgment; but they assume no responsibility in respect to such management, or in respect of any action taken pursuant to their votes so cast, if being understood that no voting trustee incurs any responsibility for the act or omission of any agent hereunder nor by reason of any error of law or of any matter or thing done or omitted under this agreement, except for his own individual malfeasance.

EIGHTH.—This agreement may be simultaneously executed in several counterparts, each of which so executed shall be deemed to be an original; and such counterparts shall together constitute but one and the same instrument. Any voting trustee hereunder may vote in person or by proxy to any other person, whether or not a voting trustee.

IN WITNESS WHEREOF The several parties herunto have set their hands and seals the day and year first above mentioned.

(Signed by J. P. Morgan & Co. and the three voting trustees, viz.: J. P. Morgan, F. P. Olcott, H. N. Paul.—Eds.)

## STOCK TRUST CERTIFICATE.

The stock trust certificates issued under the above agreement are in the following form, they being as stated in the agreement, either New York and Philadelphia certificates, according as issued by the New York or the Philadelphia trust company.

[New York Certificate.]

READING COMPANY.

First Preferred Stock Trust Certificate.

THIS IS TO CERTIFY that, as hereinafter provided, will be entitled to receive a certificate or certificates for fully paid shares of fifty dollars each in the FIRST PREFERRED capital stock of the READING COMPANY, and in the meantime to receive payments equal to the dividends, if any, collected by the undersigned voting trustees upon a like number of such shares standing in their names; and, until after the actual delivery of such certificates, the voting trustees shall possess, and shall be entitled to exercise, all rights of every name and nature, including the right to vote, in respect of any and all such stock; it being expressly stipulated that no voting right passes by or under this certificate, or by or under any agreement expressed or implied.

This certificate is issued under and pursuant to the terms and conditions of a certain agreement dated February 1, 1897, by and between J. P. Morgan & Co., as reorganization managers, and the undersigned voting trustees. No stock certificates shall be due or deliverable hereunder before the first day of January, 1902, nor until the expiration of such further period, if any, as shall elapse before the Reading Company, for two consecutive years, shall have paid 4 percent per annum cash dividends on its first preferred stock; but the voting trustees, in their discretion, may make earlier delivery.

This certificate is transferable only on the books of the voting trustees in New York by the registered holder, either in person or by attorney duly authorized, according to rules established for that purpose by the voting trustees, and on surrender hereof, and until so transferred, the voting trustees may treat the registered holder as owner hereof for all purposes whatsoever, except that delivery of stock certificates hereunder shall not be made without the surrender hereof.

This certificate is not valid unless duly signed by J. P. Morgan & Co., as agents, and also registered by the Central Trust Company of New York, as registrar in New York.

This certificate may be exchanged, in such manner as the voting trustees may prescribe, for a similar certificate to be issued by Drexel & Co., in behalf of the voting trustees, and to be registered by the Pennsylvania Company for Insurance on Lives and Granting Annuities.

IN WITNESS WHEREOF, the said voting trustees have caused this certificate to be signed by J. P. Morgan & Co., their duly authorized agents, this

J. PIERPONT MORGAN,

FREDERIC P. OLCOTT,

HENRY N. PAUL,

By their Agents hereunder,

Voting Trustees.

Registered in New York this day of 189.

CENTRAL TRUST COMPANY OF NEW YORK, Registrar.

Transfer Clerk.

## The Commercial Times.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, May 14, 1897.

Business in general has continued to drag. This has been largely the result of the unsettled feeling pending the outcome of the tariff legislation. It is now reported that the time for taking up the tariff bill by the Senate has been postponed for one week and the impression has appeared to be growing that there will be a long and bitter fight in that body before the bill will be reported back to the House of Representatives. During the latter part of the week the Cuban situation again came into prominence. A message to Congress is expected shortly from the President showing his position on the question and recommending that an appropriation be made at once for the relief of suffering American citizens in Cuba. The European political situation has been considered, apparently, as progressing favorably, although delay is reported in effecting an armistice between Turkey and Greece. Additional export shipments of gold have been reported, but they have had little or no influence.

Lard on the spot has had a limited sale to refiners, but the export demand has been flat, and as the offerings have been fairly large prices have weakened, closing at 4'17½@4'20c. for prime Western, 3'70@3'75c. for prime City and 4'50c. for refined for the Continent. The local market for lard futures has been neglected and at the West the market has been quiet, and under free offerings prices have declined, closing easy.

## DAILY CLOSING PRICES OF LARD FUTURES.

	sat.	Mon.	Tues.	Wed.	Thur.	Fri.
May.....	4'30	4'25	4'25	4'20	4'20	4'15

Business in pork has been limited to small jobbing sales and prices have weakened, closing at \$9 75@9 50 for mess, \$9 50 @ \$10 50 for family and \$9 50@10 50 for short clear. Cattle have been quiet and easy, closing at 5½@5½c. for pickled bellies, 12@10 lbs average, 4½@5c. for pickled shoulders and 9@9½c. for pickled hams. Beef has had a limited sale and has brought steady prices, closing at \$7@8 for mess, \$8@9 for packet, \$9@10 for family and \$12@14 for extra India mess. Beef hams have been firm, closing at \$22@23. Tallow has had a slow sale and prices have further declined, closing at 3c. Oleo-stearine has also weakened, closing at 4½c. and lard stearine has declined to 4½@4¾c. Cotton seed oil has been quiet but steady, closing at 20c. for prime crude and 23½@24c. for prime yellow. Butter has been moderately active and steady, closing at 12@15c. for creamery. Cheese has been in fair export demand and firm at 9@11½c. for State factory, full cream. Fresh eggs have been quiet and easy, closing at 10¼@10½c. for choice Western.

The Brazil growths of coffee have continued to have a moderate sale and prices have been unchanged and steady, closing at 8c. Business in the market for the mild grades has been quiet but values have held about steady, closing at 14c. for good Cucata and 25c. for standard Java. The speculation in the market for contracts has been quiet, but there has been a slight advance in prices in response to stronger European advices, closing quiet but steady.

The following were the final asking prices:

May.....	7'60c.	Aug.....	7'60c.	Nov.....	7'70c.
June.....	7'55c.	Sept.....	7'65c.	Dec.....	7'75c.
July.....	7'55c.	Oct.....	7'70c.	Jan.....	7'80c.

Raw sugars have had a limited sale and prices have been unchanged and steady, closing with sales at 3 5/16c. for centrifugals, 96 deg.-test, and 2½c. for muscovado, 89-deg. test. Refined sugars have been quiet but steady, closing at 4 9/16c. for granulated. Teas have continued in demand at advancing prices.

Kentucky tobacco has been in fairly active demand for export at firm prices. Sales 250 bbls. Seed leaf tobacco has been quiet but steady. Sales for the week were 740 cases, as follows: 140 cases 1895 crop, New England Havana, 15@22c.; 200 cases 1893 crop, Wisconsin Havana 9½c.; 100 cases 1895 crop, Zimmer's, 16c.; 150 cases 1894-95 crop, Pennsylvania Havana 12@13c., and 150 cases sundries, 5 @15c.; also 400 bales Havana at 5c. to \$1 10 in bond and 180 bales Sumatra at 80c. to \$2 50 in bond.

There has been an increased demand for Straits tin, and prices have advanced, closing at 13'55@13'60c. Additional large sales have been made of ingot copper and prices have advanced slightly, closing firm at 11@11½c. for Lake. Lead has been freely offered and prices have declined, closing at 3 25c. for domestic. Spelter has been quiet but steady, closing at 4'10@4'20c. for domestic. Pig iron has been quiet and easy at \$9 25@12 00 for domestic.

Refined petroleum has been unchanged, closing at 6'25c. in bbls., 3'75c. in bulk and 6'70c. in cases; naphtha lower at 5'50c. Crude certificates have been neglected. Credit balances have been steady at 80c. Spirits turpentine has further declined, closing steady at 28@28½c. Resins have been quiet and unchanged at \$1 65 for common and good strained. Wool has been less active and there has been some weakening in prices. Hops have continued quiet and easy.

## COTTON.

FRIDAY NIGHT, May 14, 1897.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 32,067 bales, against 42,335 bales last week and 34,583 bales the previous week, making the total receipts since the 1st of Sept., 1896, 6,562,796 bales, against 5,087,653 bales for the same period of 1895-6, showing an increase since Sep. 1, 1896, of 1,475,143 bales.

Speculation in cotton for future delivery has continued quiet. The course of prices has been somewhat irregular, but the net change for the week in values has been unimportant. Saturday there was a firmer tone to the market. Foreign advices came stronger and were accompanied by buying orders. The South was also a buyer and there was something of a demand from local shorts to cover contracts; prices advanced, closing 4 to 8 points higher for the day. The market opened quiet but steady on Monday. Subsequently, however, after the receipt of the monthly report of the Government's Agricultural Bureau, which was given a bearish interpretation, there was increased pressure to sell, and prices closed at a decline of 9 to 12 points for the day. Tuesday the market was easier during early change in response to foreign advices. Later in the day, however, the weekly report by the Government's Weather Bureau, which was considered unfavorable, stimulated buying to cover contracts, and prices closed at an advance of 3 to 6 points. There was a slightly easier tone to the market on Wednesday. Foreign advices were disappointing, and dispatches received from sections of the South reported weather conditions more favorable; this prompted some selling and final prices showed a decline of 1 to 5 points for the day. Thursday there was a dull and uninteresting market. The fluctuations in prices were confined to a few points, and at the close prices showed practically no changes for the day. To-day the market opened at a decline of 2 to 5 points in response to weaker foreign advices. Later in the day, however, shorts became nervous over the continued demand for spot cotton, and they bought to cover contracts, on which prices advanced, closing steady, with prices 1 point lower to 2 points higher for the day. Cotton on the spot has been firmer. Prices advanced 1-16c. on Saturday, declined 1-16c. on Monday, but again advanced 1-16c. on Tuesday and Thursday. To-day the market was steady, closing at 7 13-16c. for middling uplands.

The total sales for forward delivery for the week are 443,300 bales. For immediate delivery the total sales foot up this week 12,753 bales, including 7,052 for export, 5,306 for consumption, — for speculation and 400 on contract. The following are the official quotations for each day of the past week—May 8 to May 14.

Rates on and off middling, as established Nov. 22, 1893, and revised Dec. 11, 1895, by the Revision Committee at which grades other than middling may be delivered on contract:

Fair.....	0 1/4 on.	Good Ordinary.....	0 1 off.
Middling Fair.....	7/8 on.	Good Middling Tinged... Even.	
Strict Good Middling....	1 on.	Strict Middling Stained... 7/32 off.	
Good Middling.....	5/8 on.	Middling Stained..... 3/4 off.	
Strict Low Middling.....	3/4 off.	Strict Low Mid. Stained... 26/32 off.	
Low Middling.....	3/4 off.	Low Middling Stained... 1 1/4 off.	
Strict Good Ordinary....	1 1/8 off.		

On this basis the prices for a few of the grades would be as follows.

3 The imports into Continental ports the past week have been 67,000 bales.

The above figures indicate a decrease in the cotton in sight to-night of 108,432 bales as compared with the same date of 1896, a falling off of 1,163,393 bales from the corresponding date of 1895 and a decrease of 834,160 bales from 1894.

AT THE INTERIOR TOWNS the movement—that is the receipts for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1895-96—is set out in detail below.

TOWNS.				MOVEMENT TO MAY 14, 1897.				MOVEMENT TO MAY 15, 1896.				
		Receipts This week.	Balance Since Sept. 1, '96.		Receipts This week.	Balance Since May 14.		Receipts This week.	Balance Since Sept. 1, '96.		Receipts This week.	Balance Since May 15.

Total, 31 towns.....		15,574	4,374,753	28,274	131,701	19,047	3,556,315	41,037	187,120	41,037	187,120	2,376

The above totals show that the interior stocks have *decreased* during the week 12,700 bales and are now 55,419 bales *less* than at same period last year. The receipts at all the towns have been 3,473 bales *less* than same week last year and since Sept. 1 they are 824,438 bales *more* than for same time in 1895-6.

**QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.**—Below are closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending May 14.	CLOSING QUOTATIONS FOR MIDDLING COTTON ON—					
	Satur.	Mon.	Tues.	Wednes.	Thurs.	Fri.
Galveston...	7 1/16	7 1/8	7 1/8	7 1/8	7 1/8	7 1/8

Louisville...	7 1/2	7 1/2	7 1/2	7 3/8	7 3/8	7 1/2

The closing quotations to-day (Friday) at other important Southern markets were as follows.

Atlanta.....	7 1/4	Eufaula.....	7 1/8	Natchez.....	7 1/8
Charlotte.....	7 1/4	Little Rock.....	6 3/8	Raleigh.....	7 1/2
Columbus, Ga.....	7	Montgomery.....	7 1/4	Selma.....	7
Columbus, Miss.....	7	Nashville.....	7 1/4	Shreveport.....	7

**RECEIPTS FROM THE PLANTATIONS.**—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week ending—	Receipts at the Ports.			St'k at Interior Towns.			Rec'pts from Plant'ns.		
	1897.	1896.	1895.	1897.	1896.	1895.	1897.	1896.	1895.
Apr. 9.....	46,639	57,967	93,523	232,170	290,927	247,849	19,759	44,912	65,454
" 16.....	48,795	40,076	80,417	204,020	263,600	212,778	20,045	22,768	45,541
" 23.....	47,260	64,668	69,905	194,847	247,104	189,641	25,057	38,161	43,833
" 30.....	34,599	39,928	56,937	171,920	233,044	165,978	21,661	25,768	36,274
May 7.....	42,333	37,331	41,900	144,401	209,770	148,553	14,814	14,057	24,476
" 14.....	32,067	34,871	80,565	131,701	187,120	137,322	19,367	12,221	19,334

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1896, are 6,573,903 bales; in 1895-96 were 5,242,073 bales; in 1894-95 were 7,797,818 bales.

2.—That although the receipts at the outports the past week were 32,067 bales, the actual movement from plantations was only 19,367 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 12,221 bales and for 1895 they were 19,334 bales.

**OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.**—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending May 14, and since Sept. 1 in the last two years are as follows.

May 14	1896-97.		1895-96.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
<b>Shipped—</b>				
Via St. Louis.....	5,961	507,228	8,154	515,979
Via Cairo.....	2,287	280,778	2,376	231,047

<b>Deduct shipments—</b>				
Overland to N. Y., Boston, &c..	2,942	303,751	3,385	261,085
Between interior towns.....	7	4,216	7	3,366
Inland, &c., from South.....	520	37,982	573	47,043
<b>Total to be deducted.....</b>	<b>3,469</b>	<b>345,949</b>	<b>3,965</b>	<b>311,494</b>
<b>Leaving total net overland*..</b>	<b>9,093</b>	<b>825,199</b>	<b>12,620</b>	<b>768,071</b>

\* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 9,093 bales, against 12,620 bales for the week in 1896, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 57,123 bales.

In Sight and Spinners' Takings.	1896-97.		1895-96.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.

Interior stocks in excess.....	12,700	11,107	22,650	154,420
<b>Came into sight during week.</b>	<b>46,460</b>		<b>42,841</b>	
<b>Total in sight May 14.....</b>	<b>.....</b>	<b>8,123,102</b>	<b>.....</b>	<b>6,713,144</b>
<b>North's spinners tak'g to May 14</b>	<b>2,349</b>	<b>1,535,721</b>	<b>24,406</b>	<b>1,480,191</b>

\* Decrease during week.

It will be seen by the above that there has come into sight during the week 46,460 bales, against 42,841 bales for the same week of 1896, and that the increase in amount in sight to-night as compared with last year is 1,409,955 bales.

**WEATHER REPORTS BY TELEGRAPH.**—Reports to us by telegraph this evening denote that rain has been general at the South during the week and that in localities in Texas and Louisiana the precipitation has been rather heavy. As a rule, however, the moisture was needed, and while in a few districts in Texas heavy rainfall did some injury to young cotton, the crop of the State as a whole was benefited and the plant is in fair condition. From sections of Mississippi and Arkansas we have complaints of bad stands. Cool weather at night is complained of at some points. Planting is completed as a rule on uplands and seed is now being put in on some recently-submerged land. Breaks have occurred this week in the levee at Baton Rouge, La., but latest advices indicate that they have been repaired. The river is steadily falling at Memphis and Helena.

**Galveston, Texas.**—General rains were much needed in some localities, and while the heavy precipitation did some damage the benefit to the cotton crop as a whole will more than counterbalance it. Fair weather would now improve the crop and enable farmers to clean out weeds and grass. The plant, however, is in fair condition, as much of it had been chopped out prior to the rains. We have had rain on three days during the week, the rainfall reaching ninety hundredths of an inch. The thermometer has averaged 76, ranging from 70 to 81.

**Palestine, Texas.**—It has rained on four days of the week, the rainfall being two inches and eighty-four hundredths. The thermometer has ranged from 60 to 86, averaging 73.

**Huntsville, Texas.**—We have had rain on two days of the past week, the precipitation being sixty-five hundredths of an inch. Average thermometer 76, highest 88 and lowest 63.

**Dallas, Texas.**—There has been rain on four days of the past week, the precipitation reaching one inch and twenty-two hundredths. The thermometer has averaged 72, the highest being 86 and the lowest 59.

**San Antonio, Texas.**—We have had rain on three days during the week, to the extent of two inches and forty-six hundredths of an inch. The thermometer has averaged 73, ranging from 60 to 86.

**Luling, Texas.**—Young cotton has been seriously damaged by hail-storm. There has been rain on five days during the week, the precipitation reaching one inch and sixty-three hundredths. The thermometer has ranged from 62 to 87, averaging 74.

**Columbus, Texas.**—It has rained on two days during the week, the precipitation being ninety-three hundredths of an inch. Average thermometer 72, highest 84 and lowest 61.

**Cuero, Texas.**—We have had beneficial rain on five days during the week, the rainfall being two inches and sixty-four hundredths. The thermometer has averaged 76, the highest being 89 and the lowest 63.

**Brenham, Texas.**—It has rained on four days of the week, the precipitation reaching sixty-three hundredths of an inch. The thermometer has averaged 76, ranging from 62 to 89.

**Fort Worth, Texas.**—It has rained on three days of the week, the precipitation reaching one inch and fifty hundredths. Average thermometer 72, highest 86 and lowest 59.

**Weatherford, Texas.**—We have had rain on three days during the week to the extent of two inches and sixteen hundredths. The thermometer has averaged 72, the highest being 84 and the lowest 59.

**New Orleans, Louisiana.**—Rain has fallen on two days of the week, to the extent of eighteen hundredths of an inch. The thermometer has averaged 75.

**Shreveport, Louisiana.**—It has rained on six days of the week, the rainfall being three inches and fifteen hundredths. The thermometer has ranged from 62 to 86, averaging 74.

**Columbus, Mississippi.**—There is considerable complaint of bad stands. The crop is very backward. We have had rain on three days during the week, to the extent of one inch and eleven hundredths. Average thermometer 69, highest 88 and lowest 58.

**Leland, Mississippi.**—The week's rainfall has been two inches and forty-eight hundredths. The thermometer has averaged 68, the highest being 80 and the lowest 61.

**Vicksburg, Mississippi.**—Planting on hill lands has generally been completed this week. Some planting is being done on land recently submerged. We have had rain on five days during the week, the rainfall reaching seventy-nine hundredths of an inch. The thermometer has averaged 71, ranging from 60 to 86.

**Little Rock, Arkansas.**—We have had rain on five days during the week, the precipitation reaching fifty-nine hundredths of an inch. The thermometer has ranged from 56 to 81, averaging 69.

**Helena, Arkansas.**—Between cool weather and cut worms it looks as though high lands would not have much advantage over the inundated territory. Stands of cotton are not good. The river has fallen eleven feet, but much land is still under water. The decline during the past twenty-four hours has been five inches. It has rained lightly on three days of the week, to the extent of forty-three hundredths of an inch. Average thermometer 66, highest 77 and lowest 54.

**Nashville, Tennessee.**—We have had rain on two days of the week, the precipitation reaching one inch and ten hun-

dredths. The thermometer has averaged 70, ranging from 54 to 86.

**Memphis, Tennessee.**—Cut worms and cool weather will necessitate considerable replanting. We have had rain on five days of the week, the precipitation being seventy-nine hundredths of an inch. The weather is now clear and cool. The thermometer has averaged 70.6, the highest being 81.7 and the lowest 58.

**Mobile, Alabama.**—Good and beneficial rains have fallen throughout the interior, but the crop is very backward. Stands are poor and condition is not favorable. It has rained here on two days of the week, the rainfall reaching three inches and seven hundredths. The thermometer has ranged from 60 to 79, averaging 72.

**Montgomery, Alabama.**—Farmers are progressing rapidly with their work. Days and nights have been warmer and the outlook is improving. We have had rain on two days of the week, the rainfall reaching two hundredths of an inch. Average thermometer 74, highest 83 and lowest 64.

**Madison, Florida.**—We have had rain on one day during the week, the rainfall reaching one inch and five hundredths. The thermometer has averaged 78, ranging from 62 to 89.

**Savannah, Georgia.**—We have had rain on two days of the past week, the precipitation being fifty-three hundredths of an inch. Average thermometer 73, highest 83 and lowest 58.

**Augusta, Georgia.**—There has been rain on two days the past week, the rainfall reaching eighty-seven hundredths of an inch. The thermometer has averaged 73, the highest being 87 and the lowest 52.

**Charleston, South Carolina.**—There has been rain on one day during the week, the precipitation reaching forty-six hundredths of an inch. The thermometer has ranged from 62 to 83, averaging 74.

**Stateburg, South Carolina.**—Telegram not received.

**Greenwood, South Carolina.**—Crops are doing well. We have had rain on two days during the week, the rainfall being one inch and thirty nine hundredths. The thermometer has averaged 72, the highest being 83 and the lowest 62.

**Wilson, North Carolina.**—It has rained on four days of the week, the precipitation reaching one inch and thirty-three hundredths. The thermometer has averaged 73, ranging from 52 to 84.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock May 13, 1897, and May 14, 1896.

	May 13, '97.	May 14, '96.

**INDIA COTTON MOVEMENT FROM ALL PORTS.**—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to May 13.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

Year	Shipments this week.			Shipments since Sept. 1.			Receipts.	
	Great Brit'n.	Conti-nent.	Total.	Great Britain.	Conti-nent.	Total.	This Week.	Since Sept. 1.
1896-7	32,000	32,000	64,000	24,000	144,000	168,000	48,000	1,236,000
95-6	8,000	49,000	57,000	64,000	555,000	619,000	85,000	1,847,000
94-5	6,000	31,000	37,000	16,000	310,000	326,000	75,000	1,120,000
93-4	33,000	33,000	66,000	41,000	610,000	651,000	50,000	1,439,000

According to the foregoing Bombay appears to show a decrease compared with last year in the week's receipts of 17,000 bales and a decrease in shipments of 21,000 bales, and the shipments since Sept. 1 show a decrease of 181,000 bales. The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurrachee and Coconada.

Year	Shipments for the week.			Shipments since Sept. 1.		
	Great Britain.	Conti-nent.	Total.	Great Britain.	Conti-nent.	Total.
<b>Calcutta</b>						
1896-97	.....	4,000	4,000	6,000	48,000	54,000
1895-96	.....	8,000	8,000	10,000	54,000	64,000
<b>Madras</b>						
1896-97	.....	.....	.....	6,000	14,000	20,000
1895-96	.....	.....	.....	10,000	7,000	17,000
<b>All others</b>						
1896-97	2,000	5,000	7,000	22,000	63,000	85,000
1895-96	.....	8,000	8,000	13,000	58,000	71,000
<b>Total all</b>						
1896-97	2,000	9,000	11,000	34,000	130,000	164,000
1895-96	.....	17,000	17,000	33,000	119,000	152,000

The above totals for the week show that the movement from the ports other than Bombay is 6,000 bales less than the same week last year. For the whole of India, therefore, the total shipments since September 1, 1896, and for the corresponding periods of the two previous years, are as follows.

REPORTS TO EUROPE FROM ALL INDIA.

Shipments to all Europe from—	1896-97.		1895-96.		1894-95.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Bombay	32,000	469,000	56,000	640,000	37,000	324,000
All other ports	17,000	164,000	17,000	152,000	4,000	109,000
<b>Total</b>	49,000	633,000	73,000	792,000	41,000	433,000

**ALEXANDRIA RECEIPTS AND SHIPMENTS.**—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, May 12.		1896-97.	1895-96.	1894-95.
Receipts (cantars).....				
This week.....		30,000	2,000	5,000
Since Sept. 1.....		5,726,000	5,181,000	4,530,000

<b>Total Europe.....</b>		<b>19,000</b>	<b>641,000</b>	<b>12,000</b>
			<b>811,000</b>	<b>8,000</b>
				<b>565,000</b>

\* A cantar is 98 pounds.

† Of which to America in 1896-97, 46,923 bales; in 1895-96, 53,775 bales; in 1894-95, 40,833 bales.

**MANCHESTER MARKET.**—Our report received by cable to-night from Manchester states that the market is quiet for both yarns and shirtings. Manufacturers are working at a loss. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

**SEA ISLAND COTTON MOVEMENT.**—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (May 14) and since Sept. 1, 1896, the stocks to-night, and the same items for the corresponding periods of 1895-96, are as follows.

Receipts to May 14.	1896-97.		1895-96.		Stock.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1897.	1896.

**HIGH WATER IN THE MISSISSIPPI.**—Breaks in the levees at Baton Rouge, La., this week overflowed land in Ascension, Baton Rouge, Iberville and St. James parishes, including much rich sugar territory. These breaks have been repaired and the situation is now more encouraging. Elsewhere in the Mississippi Valley the water is steadily receding and planting is in progress where practicable.

**JUTE BUTTS, BAGGING, &c.**—The market for jute bagging has shown no special activity the past week and prices are as last quoted, viz.: 5 1/4c. for 1 1/2 lbs., 5 1/2c. for 2 lbs. and 6 1/4c. for standard grades. Car-load lots of standard brands are quoted at 5 1/4c. for 1 1/2 lbs., 5 1/2c. for 2 lbs. and 6 1/4c. for 2 1/2 lbs. f. o. b., at New York. Jute butts have been very quiet at 1.05c. for paper quality, 1.30c. for mixing and 1 1/4c. for bagging, all to arrive.

**GOVERNMENT WEEKLY COTTON REPORT.**—Mr. W. L. Moore, Chief of the Weather Bureau of the Agricultural Department, made public on Tuesday the following telegraphic reports on the crops in the Southern States for the week ending May 10:

**VIRGINIA.**—Too cool and dry for good crop growth; \*\*\* cotton and peanut planting begun.

**NORTH CAROLINA.**—Week too cold and windy, with insufficient rainfall, retarding growth; seeds sprouting poorly, resulting in bad stands of cotton and corn; chopping cotton commenced.

**SOUTH CAROLINA.**—Unfavorable week; corn planting and replanting continues, coming up slowly and injured materially by worms; cotton about all planted, much replanting necessary, plants small and sickly, and stands irregular.

**GEORGIA.**—Continued dry weather and cool nights were detrimental to growing crops; cotton and corn being worked, stands of both poor.

**FLORIDA.**—Excellent week for general cultivation and cleaning crops; copious and general rains with high temperature essential for cotton, corn, cane, tobacco and vegetables, which show slight improvement.

**ALABAMA.**—Week dry and cool, except warmer towards close; rain needed to start late corn and cotton, which are up to poor stands and much being replanted; cotton chopping progressing and corn receiving second plowing.

**MISSISSIPPI.**—Cotton fair stand and about half chopped out; corn worked out; some cotton and corn replanted, owing to worms and unfavorable weather; more rain and heat required, especially for gardens; worms and other pests increasing; water receding slowly on lowlands.

**LOUISIANA.**—Nights continue cool for cotton, poor stands, requiring replanting, some chopping out; corn good, some laying by; cane flourishing; rice not all planted but what is up is good; rain fall badly distributed, except over central portion of sugar belt; some sections seed rain badly.

**TEXAS.**—Warm showers improved cotton generally, but more rain badly needed in localities over south portion, and would improve the crop in extreme eastern portion; cotton clean in southern portion and being chopped out in northern portion, where in localities grass is bad.

**ARKANSAS.**—Cotton and corn about all planted and coming up, but to poor stands, damaged by cool nights and cut worms; weather favorable for plowing and planting, but unfavorable for growth; wheat, oats and fruit doing fairly well; hot sunshine, followed by rain, needed.

**TENNESSEE.**—Early part of the week cool and cloudy, latter part favorable; early plantings of corn and cotton being worked, but damaged by cool nights; cut worms destructive in places; rain needed.

**OKLAHOMA.**—Corn and cotton still backward on account of continued rains and cloudy weather.

**STATE WEEKLY COTTON REPORTS.**—We give below summaries of the reports for the week ending May 10, issued by the various States, under the auspices of the Weather Bureau of the U. S. Department of Agriculture, so far as they apply to cotton.

**VIRGINIA.**—A week of unusually cool and somewhat dry weather has had an unfavorable effect on crops, checking their growth until the latter part, when, under the influence of rising temperature and light local showers, an improvement in condition was noticeable. More rain and a continuance of warm weather is much needed. Cotton and peanut planting have begun in the southeastern counties; and correspondents report a larger acreage put to cotton than usual.

**NORTH CAROLINA.**—*Eastern District.*—The week was fine for work. The weather has been too cool for cotton, causing it to come up slowly and look poorly; some may have to be replanted. Chopping cotton has commenced. *Central District.*—The weather was due for work, but the growth of crops has been very slow on account of the cold, light frost even being reported from Northern points. Cotton is quite backward and growing slowly; some being chopped. *Western District.*—The past week was clear, dry and cool until Thursday, when the weather became warmer. The brisk winds during the week caused lands to crust and bake, and warm rains are much needed. Crops made more advancement than in other districts, though seeds are coming up slowly. Considerable progress made in planting and farm work is about up. Some cotton and corn still to be planted and stands of both are not generally very good; cool weather killed some cotton on sandy lands.

**SOUTH CAROLINA.**—The condition of cotton has improved but little in the most favored sections, and in many places has deteriorated. The cool weather caused the plant to look sickly and on certain lands to die out. Much of that planted before the rains of the previous week will, in the western counties, have to be replanted, which is now being done. First planting practically finished. Chopping to stands confined to eastern and central counties. Stands irregular, but on the whole not satisfactory. Sea Island cotton all planted, stands fair, though damaged some by cut worms.

**ALABAMA.**—The week was marked by almost an entire absence of rain in this section; the early part of the week was cool, and belated reports of last week show light frost having occurred in northern counties on the 2d and 3d; these conditions, with previous cool weather, lowered the conditions of all staple crops, but warm weather during the last few days of the week materially aided growing crops, though rain is badly needed to relieve the crusted condition of the ground and give cotton and corn a good start. Cotton looks sick, and while the crop has all been planted, stands are so poor that much of it is being re-planted; that in favored localities has been chopped out, and chopping is now progressing in other portions and some being cultivated.

**MISSISSIPPI.**—The week gave continued favorable weather for farm work, but was too dry and cool for the rapid growth of vegetation. A fair stand of cotton is reported, and about half the crop is chopped out. Corn is worked out, but reported small in some localities. Considerable cotton and corn have been replanted, due to unfavorable weather and insect pests. Reports of worms are increasing at an alarming rate, and much damage has been caused thereby. The water is receding slowly on low lands, and planting continues as the water falls.

**LOUISIANA.**—The nights continued to cool for any rapid growth of vegetation, although the days were warm. Field work progressed rapidly.

Rain is needed over the greater portion of the northern parishes to germinate and bring up late planted and replanted cotton. Planting is generally completed at this time and chopping out the cotton is progressing. Stands of cotton are, as a rule, faulty and some dying out continues to be reported, necessitating additional replanting. Worms are also injuring the crop in localities. Along the river parishes, or from Madison to Concordia, where the backwater is falling, lands are being planted in cotton as rapidly as possible; but the decline is slow and over the lower portion of that section there is a continued rise of some two inches per day. Planters in Concordia anticipate being able to plant by June 1st to 10th.]

In the section favored with rains, reports on crops are more favorable, the rains falling at the close of the week after field work had been brought up and at a time when the cane, corn and rice required the moisture. Crops on such area look fresh and vigorous, but since the rains only covered the central portion of the southern parishes, the more eastern and western portions complain of the lack of seasonable showers.

**TEXAS.**—The showery weather during the week retarded farming operations to some extent, but were very beneficial for growing crops. The drought still prevails along the coast, where rain is very much needed in some sections, and showers would be beneficial for farming interests over the eastern portion of the State. The showers, where they occurred, were very beneficial to cotton, but the crop is needing a general rain along the coast, and showers would be beneficial to the crop over the eastern portion of the State. The warm weather toward the close of the week started the plant to growing nicely over Central and South Texas, but the plant appears to grow slowly over North Texas and has not recovered from the effects of the late cool weather. Hail on the 6th did some damage to the crop in a few localities over Central Texas, and it is reported that worms are doing considerable damage to the crop in the vicinity of Duval and San Marcos; otherwise the crop is doing very well. Much cotton has been worked out over Central and South Texas, and a fair stand is reported in most sections of the State.

**TENNESSEE.**—The first half of the week was cloudy, cool and generally unfavorable to the growth of vegetation, but not such as to delay farm work, which progressed as usual. Frosts were reported generally over the State on the morning of the 2d, resulting in some damage to young corn and cotton in some sections, but as a rule this was slight. During the latter part of the week conditions were very favorable, and the growth of vegetation was greatly promoted; besides, farmers generally were enabled to push to completion the spring plantings. There is also complaint in the western section of bad stands of cotton, and the cool nights of the early part of the week were not conducive to healthy growth.

**ARKANSAS.**—The weather has been generally favorable for plowing and planting and farm work is well advanced. Owing to cool nights and deficient rainfall vegetation has made but little growth. Most of the cotton and corn is planted and both are coming up, but to poor stands. Some little cotton has been bedded. Neither cotton nor corn shows a healthy growth, plants being yellow and sickly. Much replanting has been necessary owing to cool nights and the ravages of cut worms, which are still doing much damage. The water is receding rapidly over the overflowed districts, and it is thought planting will be general over this portion of the State in ten or fifteen days. Hot sunshine for a few days, followed by a general warm rain, would be most beneficial to all vegetation.

**MISSOURI.**—In nearly all sections of the State the week just closed has been most favorable for farm work of any week this season, and the time has been well improved. Up to Saturday evening the rainfall was generally very light, and over a large part of the State there was none. Late reports, however, indicate that showers were general over the State on Sunday.

**OKLAHOMA AND INDIAN TERRITORY.**—A cloudy week, with rain every day. The nights have been almost as warm as the days, and the temperature has been just about right for all vegetation, but continued cloudiness and much rain has prevented farm work, and has been decidedly unfavorable to cotton. Reports from every section show too much rain and clouds for cotton; much that was planted did not come up, and that which came up has turned yellow. The general tenor of the majority of our correspondents' reports indicate the bulk of crops will have to be planted over again.

**MAY REPORT OF THE AGRICULTURAL BUREAU.**—Under date of May 10 the Agricultural Bureau at Washington issued the following respecting cotton:

The cotton report for the month of May, as consolidated by the Statistician of the Department of Agriculture, relates to the progress of cotton planting and the contemplated acreage.

The extent of the proposed breadth already planted on the 1st day of May was 81.9, against 87.9 per cent last year. This figure is several points below the amount usually planted at this date.

The estimates for the several States are as follows: Virginia, 31; Florida, 90; Alabama, 83; North Carolina, 74; South Carolina, 80; Georgia, 82; Mississippi, 80; Louisiana, 86; Texas, 88; Arkansas, 75; Tennessee, 57; Missouri, 45.

The returns of correspondents in relation to contemplated acreage as compared with the acreage last year, which are simply indicative of correspondents' views as to intentions of planters in respect of area to be planted, are summarized as follows:

General average, 105.4 per cent of last year's breadth, apportioned to States as follows: North Carolina, 103; South Carolina, 103; Georgia, 103; Florida, 101; Alabama, 104; Mississippi, 102; Louisiana, 102; Texas, 109; Arkansas, 104; Tennessee, 105. In the northern part of the cotton belt planting has been greatly retarded by the late season and heavy rains. This is less the case toward the Gulf, while in Texas planting is farther advanced this year than usual.

The proportion of the crop planted May 1 this year in comparison with previous years, as given in the reports of the Agricultural Bureau, is as follows:

PROPORTION OF CROP PLANTED.

STATES.	Proportion of Crop Planted May 1.						
	1897.	1896.	1895.	1894.	1893.	1892.	1891.

**SOUTHERN COTTON MILLS TO CURTAIL PRODUCTION.**—Advices from Charlotte, N. C., are to the effect that on May 15 a meeting of Southern cotton manufacturers will be held in that city. It is expected that upwards of one hundred mills will be represented at the meeting, which has been called for the purpose of consulting as to the best method to be employed to curtail the production of goods. In some quarters a general shut-down is favored, while in others running on half-time and a reduction of wages is believed to be the best course to pursue.

**EUROPEAN COTTON CONSUMPTION TO MAY 1.**—We have received to-day (Friday) by cable Mr. Ellison's figures brought down to May 1. We have also received the revised totals for last year and give them for comparison. The spinners' takings in actual bales and pounds have been as follows:

October 1 to May 1.	Great Britain.	Continent.	Total.
<b>For 1896-97.</b>			
Takings by spinners...bales	2,150,000	2,831,000	5,011,000
Average weight of bales lbs.	501	482	490.2
Takings in pounds.....	1,077,150,000	1,379,002,000	2,456,152,000
<b>For 1895-96.</b>			
Takings by spinners...bales	2,070,000	2,535,000	4,605,000
Average weight of bales lbs.	499	480	488.7
Takings in pounds.....	1,033,179,000	1,217,171,000	2,250,350,000

According to the above, the average weight of the deliveries in Great Britain is 501 pounds per bale this season, against 490 pounds during the same time last season. The Continental deliveries average 482 pounds, against 180 pounds last year, and for the whole of Europe the deliveries average 490.2 pounds per bale against 488.7 pounds last season. Our dispatch also shows the full movement for this year and last year in bales of 500 pounds.

In January.....	64.0	81.0	145.0	61.0	79.0	140.0
In February.....	64.0	81.0	145.0	61.0	80.0	141.0
In March.....	64.0	81.0	145.0	61.0	80.0	141.0
In April.....	64.0	81.0	145.0	61.0	80.0	141.0

Note.—Mr. Ellison has corrected consumption in Continent this season by adding 1,000 bales of 500 lbs. each per week.

The foregoing shows that the weekly consumption is now 145,000 bales of 500 pounds each, against 141,000 bales of like weights at the corresponding time last year. The total spinners' stocks in Great Britain and on the Continent have increased 41,000 bales during the month, and are now 863,000 bales more than at the same date last season.

**DOMESTIC EXPORTS OF COTTON MANUFACTURES.**—We give below a statement showing the exports of domestic cotton manufactures for March and for the nine months ended Mch. 31, 1897, and for purposes of comparison like figures for the corresponding periods of the previous year are also presented:

Quantities of Manufactures of Cotton (colored and uncolored) exported to—	Month ending Mch. 31, 1897.	Month ending Mch. 31, 1896.	9 mos. ending Mch. 31, 1896-97.	9 mos. ending Mch. 31, 1895-96.

Mch-April.....						

## BREADSTUFFS.

FRIDAY, May 14, 1897.

There has been a stronger tone to the market for wheat flour, reflecting the advance in wheat values. Sellers have advanced the prices, but as buyers have held moderate supplies they have been slow to make additional purchases at the higher cost; consequently only a limited volume of business has been transacted. At the close, owing to a reaction in the wheat market, there was a slightly easier market for wheat flour. Rye flour has continued to have a moderate sale, and prices have been unchanged and steady. Corn meal has also continued moderately active, and the business transacted has been at steady prices.

The speculative dealings in the market for wheat futures have been more active and prices have scored a moderate ad-

vance, largely on a demand from shorts to cover contracts, stimulated by an active export demand and continued heavy export clearances. Unfavorable crop advices from the Pacific Coast have also had a strengthening influence upon values. The close showed prices for the near-by deliveries  $2\frac{1}{2}$ @ $4\frac{1}{4}$ c. higher and for the distant  $\frac{1}{2}$ @ $1\frac{1}{4}$ c. up for the week. Saturday there was a firmer market. Crop advices were unfavorable, both from the West and abroad, and the close was at an advance of  $1\frac{1}{4}$ @ $2\frac{1}{2}$ c. Monday crop advices continued unfavorable, and this, together with stronger foreign advices, resulted in an advance of  $\frac{1}{8}$ @ $\frac{3}{8}$ c. Tuesday the market dragged early in the day, subsequently, however, on reports of an active export business and unfavorable crop accounts, prices advanced and closed firm  $\frac{1}{2}$ @ $\frac{5}{8}$ c. higher for the day. Wednesday and Thursday there continued an active export demand, and as crop advices both from the West and abroad were unfavorable, prices further advanced  $\frac{1}{4}$ @ $2\frac{1}{2}$ c. To-day the market turned easier, as there was a falling off in the export demand, foreign advices turned weaker, and crop news was more favorable. There has been a large business transacted for export, the sales reported here and at outports amounting to nearly 1,500,000 bushels. To-day the market was quiet and easier, closing with No. 1 hard Duluth at 86c. f. o. b. afloat; No. 1 Manitoba at 85 $\frac{1}{4}$ c. f. o. b. afloat; No. 1 Northern Duluth at 85 $\frac{1}{4}$ c. f. o. b. afloat; No. 1 Northern New York at 84 $\frac{1}{4}$ c. f. o. b. afloat, and No. 2 hard winter at 83c. f. o. b. afloat.

### DAILY CLOSING PRICES OF NO. 2 RED WINTER WHEAT.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery.....c.	79 $\frac{3}{4}$	80 $\frac{3}{4}$	81 $\frac{1}{4}$	82	83 $\frac{3}{4}$	82 $\frac{3}{4}$
July delivery.....c.	78 $\frac{1}{4}$	78 $\frac{1}{2}$	79 $\frac{1}{4}$	79 $\frac{1}{4}$	80 $\frac{1}{4}$	79
September delivery.....c.	74 $\frac{3}{4}$	75	75 $\frac{3}{4}$	75 $\frac{3}{4}$	75 $\frac{3}{4}$	74 $\frac{3}{4}$
December delivery.....c.	76 $\frac{1}{4}$	76 $\frac{3}{4}$	78 $\frac{3}{4}$	78 $\frac{3}{4}$	77 $\frac{3}{4}$	75 $\frac{3}{4}$

There has been slightly increased activity to the trading in the market for Indian corn futures and prices have advanced  $\frac{5}{8}$ @ $1$ c. for the week, on buying by shorts to cover contracts, stimulated by a more active export business and in sympathy with the rise in wheat values. To-day the market was quiet and prices eased off a fraction under realizing sales, prompted by a subsidence of the export demand. Business in the spot market has been active, as shippers have been buyers, their purchases amounting to 650,000 bushels. To-day the market was quiet and easier. The sales included No. 2 mixed at 30 $\frac{1}{2}$ c. in elevator and 31 $\frac{1}{2}$ c. f. o. b. afloat.

### DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery.....c.	29 $\frac{3}{4}$	29 $\frac{3}{4}$	30	30	30 $\frac{3}{4}$	30 $\frac{3}{4}$
July delivery.....c.	30 $\frac{3}{4}$	30 $\frac{3}{4}$	30 $\frac{3}{4}$	30 $\frac{3}{4}$	31 $\frac{1}{4}$	30 $\frac{3}{4}$
August delivery.....c.	31	31	31 $\frac{1}{4}$	31 $\frac{1}{4}$	31 $\frac{1}{4}$	31 $\frac{1}{4}$
September delivery.....c.	31 $\frac{3}{4}$	31 $\frac{3}{4}$	31 $\frac{3}{4}$	32	32 $\frac{1}{4}$	32

Oats for future delivery have been quiet, but fractional advances have been made in prices on buying by a few shorts to cover contracts, stimulated by the rise in other grains and on an increased export demand. To-day the market was dull and easier. In the spot market business has been active, as both shippers and the home trade have been buying and prices have advanced. The export sales for the week amount to about 500,000 bushels. To-day the market was quiet but steady. The sales included No. 2 mixed at 23 $\frac{1}{4}$ c. in elevator and No. 2 white at 27c. in elevator.

### DAILY CLOSING PRICES OF NO. 2 MIXED OATS.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery.....c.	22 $\frac{3}{4}$	22 $\frac{3}{4}$	22 $\frac{3}{4}$	22 $\frac{3}{4}$	23	22 $\frac{3}{4}$
July delivery.....c.	22 $\frac{3}{4}$	22 $\frac{3}{4}$	22 $\frac{3}{4}$	22 $\frac{3}{4}$	23	22 $\frac{3}{4}$

Rye has been quiet but steady. Barley has been in fair export demand and firm.

AGRICULTURAL DEPARTMENT REPORT ON CEREALS, &c.—The report of the Department of Agriculture showing the condition of the cereal crops on May 1 was issued on the 10th inst., and is as follows:

The May returns of the Department of Agriculture show a decline from the April condition of 1-2 points; 80-2, against 81-4 last month, and 82-7 May 1, 1896. The averages of the principal winter-wheat States are: Ohio, 82; Michigan, 81; Indiana, 61; Illinois, 37; Missouri, 54; Kansas, 78; California, 97; Pennsylvania, 96. The averages in the Southern States are high, ranging from 85 in Mississippi to 98 in Texas, and in the minor States, New Jersey, Delaware, Maryland and Virginia, from 98 in New Jersey to 102 in Maryland. As reported in April, the worst injuries from freezing and deficient snow are in Illinois, though the bordering States, Indiana, Wisconsin, Iowa and Missouri, report severe winter injury, and States bordering these, Ohio, Michigan, Nebraska and Kansas show reduced condition figures. Over the country elsewhere the condition is unusually good, being practically normal east of the Alleghenies and quite high also on the Pacific slope.

Winter rye has lost nearly one point since last month, its average for May being 88 per cent, against 89-9 for the same date in April. The percentage of New York is 97; Pennsylvania, 93; Michigan, 90; Illi-

1890: 70; Wisconsin, 71; Minnesota, 91; Iowa, 83; Kansas, 90; Nebraska, 93; California, 95.

The average condition of winter barley is 96.4 per cent, against 89.2 in 1896 and 94 in 1895. The lowest conditions are in Indiana, Illinois and Michigan, and the highest in Oregon, California and Iowa, the latter state showing 100, or a full crop condition.

The average condition of spring pasture is 93.4, against 93.2 a year ago, and that of meadows 93.4, against 91.9 in 1896, the wet spring having been favorable, particularly in the regions of deficient rainfall.

The percentage of spring plowing finished May 1 is 61.9, the usual percentage being 74, only the extreme Northern and Southern States showing the customary proportion. Everywhere else delay resulted from the late season and heavy rains.

Reports from Europe are generally favorable as to the condition of the crops, but in France there is a reduced area under wheat and the crop is expected to fall short of last year's at least 10,000,000 bushels in part of Prussia the spring sowings have been retarded by rain. The Viceroy of India telegraphs that there will be no wheat for export from that country this year.

NOTE.—All the above figures are based on the monthly preliminary returns received by the Bureau of Statistics, and cover about 93 per cent of the total exports.

For other tables usually given here see page 938.

## THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., May 14, 1897.

The market has ruled quiet throughout the week at both first and second hands. The weather has not so far been favorable to the distribution by retailers of light fabrics, and the return demand for these has been slow, while buyers have shown no greater interest than before in the general run of staple cotton goods. The market for cotton goods cannot be reported easier than before, for sellers have reached the point where they refrain from pressing stocks for sale owing to the prevailing low range of prices and the absence of any profit on the general run of transactions. There is under these conditions a feeling that manufacturers will again be compelled to resort to a liberal curtailment of production, and this is encouraged by the fact that a meeting of Southern manufacturers is to be held at Charlotte, S. C., to-morrow to consider the question of a concerted short-time movement. Buyers are not disturbed by this, and with few exceptions plod along attending to requirements as they arise. The market for woolen goods has been without special feature, a quiet business passing with a generally firm tone for both men's wear fabrics and dress goods.

**WOOLEN GOODS.**—There has been some increase in the number of orders coming to hand this week for men's wear woolen and worsted fabrics, but the quantities called for have been almost uniformly limited. All-wool fancies under \$1 per yard have had chief attention, and the majority of these grow business doing at advances over the prices ruling early in the season of from 5 to 10 per cent. Higher grade fancies are indifferently sought just now. Claws, plain colored chevrons and other staples are firm. There is little doing in dressin' jeans or satinetts. Overcoatings continue dull but mostly firm. Cloakings in fair demand. Flannels and

blankets firm, with small sales. Dress goods quiet throughout, but tone good.

**DOMESTIC COTTON GOODS.**—The exports of cotton goods from this port for the week ending May 10 were 6,535 packages, valued at \$205,304, their destination being to the points specified in the tables below:

NEW YORK TO MAY 10.	1897.		1896.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	74	1,860	65	851

Total.....	7,035	97,335	3,480	89,179

\* From New England mill points direct.

The value of the New York exports for the year to date has been \$3,539,895 in 1897 against \$3,472,622 in 1896.

Sales of brown goods have been on a moderate scale to the home trade, and export business has been quiet. Sheetings and drills are steady, but sellers are not difficult to deal with at prevailing prices. Coarse colored cottons are slow of sale, but buyers pay previous prices for such goods as they require. In bleached cottons the market is inactive, and sellers, outside of a few leading makes, are very easy to deal with. In those leading tickets prices of which were advanced a few weeks ago buyers are doing very little. Business in wide sheetings, cotton flannels and blankets, quilts and white goods is on a limited scale. Kid-finished cambrics steady but dull. Sales of printed fabrics have been moderate without new feature. Gingham inactive throughout. Print cloths have been firm at Fall River at 27-160. for extras, but no sales. Odd goods in quiet request.

At Providence, 64 squares....	47,000	269,000	136,000	225,000
At Fall River, 64 squares....	240,000	883,000	11,000	412,000
At Fall River, odd sizes....	400,000	829,000	64,000	105,000

Total stock (pieces)....1,118,000 1,661,000 211,000 742,000

**FOREIGN DRY GOODS.**—A generally dull week has been reported in foreign merchandise. The orders for fall goods in dress goods, silks, ribbons, etc., have been limited in number. Prices are firm. In seasonable lines re-orders have been indifferent.

#### Importations and Warehouse Withdrawals of Dry Goods.

The importations and warehouse withdrawals of dry goods at this port for the week ending May 13, 1897, and since January 1, 1897, and for the corresponding periods of last year are as follows:

Imports entered for consumption for the week and since January 1, 1897 and 1896.	Week ending May 13, 1897.		Since Jan. 1, 1897.		Week ending May 14, 1896.		Since Jan. 1, 1896.

## Philadelphia, Pa.—Governor Vetoes Bill Intended to Remove Doubt as to the Legality of Proposed Bond Issues.

We reported last week the decision of Judge Biddle sustaining the right of the city of Philadelphia to issue \$11,000,000 of proposed bonds. To remove all doubt regarding the legality of these bonds, a bill was passed by the Legislature intended definitely to legalize the same. This bill Governor Hastings on May 13 vetoed, stating his reasons as follows:

"This bill provides that cities of the first class whose debt at the time of the adoption of the Constitution of 1874 exceeded 7 per centum of the assessed valuation of the taxable property therein, may increase their indebtedness 3 per centum upon such valuation, and by the second section ratifies and confirms any increase of indebtedness heretofore made. Section 8, Article 9, of the Constitution of 1874, which limits the debt of the various municipalities in the State, is as follows: 'The debt of any county, city, borough, township, school district or other municipality or incorporated district, except as herein provided, shall never exceed 7 per centum upon the assessed value of the taxable property therein, nor shall any such municipality or district incur any new debt or increase its indebtedness to an amount exceeding 2 per centum upon such assessed valuation of property without the assent of the electors thereof at a public election, in such manner as shall be provided by law; but any city the debt of which now exceeds 7 per centum of such assessed valuation may be authorized by law to increase the same 3 per centum in the aggregate at any one time upon such valuation.'

'This bill, it will be noted, is applicable only to cities of the first class, and in that class there is at present but one city, namely, the city of Philadelphia. It is predicated upon the financial condition of that city on January 1, 1874, being the date when the Constitution became operative. At that time the debt of the city of Philadelphia was in excess of 7 per centum of the then assessed value of the taxable property therein. It appears, however, by an authoritative deliverance of the Court of Common Pleas No. 1, of Philadelphia County, as recently as May 1, 1897, in *Pepper et al. vs. Philadelphia*, 54, *Legat Intelligencer*, 200, that the assessed value of the taxable property in the city January 1, 1874, was \$818,827,549, and the net debt at the same time was \$31,396,674, or less than 4 per centum of the then assessed valuation of the taxable property. The loans sought to be enjoined in the case above cited, but which the Court held to be lawful, were \$11,000,000, and when added to the pre-existing indebtedness would still bring the city debt much below the 7 per centum limitation provided by the Constitution. It is true that at the time of the adoption of the Constitution of 1874 the debt of Philadelphia exceeded 7 per centum of the assessed value of the taxable property, but that condition has ceased to exist, not only because of the reduction of her debt, but because of the increased value of her taxable property.

'I am of the opinion that the section of the Constitution above cited is an express limitation upon the power of municipalities to contract debts in excess of 7 per centum of the assessed valuation of the taxable property therein. The exception in the last clause of the section, viz.: 'But any city the debt of which exceeds 7 per centum of such valuation may be authorized by law to increase the same 3 per centum, in the aggregate at any one time upon such valuation', was evidently intended to provide for the relief of those cities which at the time of the adoption of the Constitution had a debt in excess of 7 per centum of the assessed value of the taxable property, and to provide for any exigencies which might arise requiring an increase, of their indebtedness. But

when a city once reduced its debt within the Constitutional limit of 7 per centum, it took itself out of the excepted class and became liable to the mandatory provisions of the first clause of the section like all other municipalities in the Commonwealth. To reach any other conclusion would be to hold that any municipality whose indebtedness exceeded the 7 per centum limit on January 1, 1874, and in the intervening twenty-three years has paid such indebtedness, may come to the Legislature at each succeeding session and obtain authority to increase its debt 3 per centum upon the assessed value of its property without any limitation whatever."

"The authority for this legislation must be found in the third clause of the section of the Constitution above cited, or it does not exist, and I am of the opinion that, when the indebtedness of the city of Philadelphia was, either by the reduction of its debt or by the increase of the valuation of its taxable property or both, reduced to an amount less than 7 per centum of the assessed value of its taxable property, it was taken out of the category in which it belonged January 1, 1874, and must increase its indebtedness, if it so desires, under the second clause of the section of the Constitution above cited, to wit, by a proper action of its municipal authorities, to an amount not exceeding 2 per centum upon such assessed valuation of property, if it has not already done so, and, if in excess of 2 per centum, but still within the 7 per centum limit, then with the assent of the electors thereof, as provided in said section.

"In the case of *Wheeler vs. Philadelphia*, 77 P. L. 338, the Supreme Court in discussing the eighth section of Article XIX. of the Constitution, uses the following language: 'The end sought to be attained was clearly a limitation upon the debt of municipalities, and 7 per centum upon the assessed value of the taxable property therein was fixed as the maximum. The fact was, however, known to the Convention that at that time the debt of the city of Philadelphia and perhaps some other municipalities exceeded 7 per centum. In such instances an arbitrary provision that there should be no further increase of the debt might have worked great injury by the stoppage of public works already commenced and essential to the public convenience and welfare. It was therefore provided that as to such municipalities the debt might be increased 3 per centum. The main controversy, however, was as to the manner in which such increase should be accomplished. Here again the distinction is preserved between municipalities whose debt is under 7 per centum and those in which it exceeds 7 per centum. In the former the municipal authorities may increase the debt from time to time until 2 per centum has been added, provided the original debt with the increase does not exceed 7 per centum. After the 2 per centum has been added there can be no further increase without the vote of the people.'

"The case of *Wheeler vs. Philadelphia*, supra, was decided February 15, 1875, very shortly after the adoption of the Constitution, and the interpretation there given has since been followed in other cases, notably in *Pike County vs. Rowland*, 94 P. S., 233. It appears that the only city of the first class in the Commonwealth has an existing indebtedness much below the Constitutional limit, and therefore is not in a position to be authorized by law to increase the same 3 per centum in the aggregate at any one time, but, as has already been stated, comes clearly within the provisions of the second clause of the section above cited.

"I am of the opinion also that the proposed legislation is local and special in its character, and is forbidden by section 7, Article 3 of the Constitution; but sufficient reasons having already been given for withholding my approval, I will not discuss this question."

**North Carolina—Tax Levy for Interest Payments Must be Sanctioned by Electors.**—The New York "Evening Post" of last night contained the following special dispatch, under date of May 14, from Raleigh, N. C.: "The decision of the Supreme Court of this State, that no municipal corporation has the legal authority to levy any tax to pay interest on bonds regularly issued by the municipality, unless the authority to levy the tax has been conferred by a vote of the electors, while not involving the validity of the bonds, raises a question as to the payment of interest. The city of Charlotte recently sold \$300,000 municipal bonds to New York parties, and a tax levy to pay the interest has not been submitted to the voters. There is a like situation in Durham County, where the interest on \$225,000 of town and county bonds may be temporarily suspended, and the same is true as to many thousands of other county and municipal bonds throughout the State. While a popular vote may authorize a tax levy for future interest payments, it is an unsolved legal question what to do about unpaid back interest the tax levy for which was not voted upon.

## Bond Proposals and Negotiations.

**Adair County, Mo.—Bond Election.**—An election will be held in Adair county on June 1, 1897, to decide the question of issuing court-house bonds to the amount of \$50,000.

**Aberdeen, Md.—Bond Sale.**—The \$15,000 of 5 per cent water bonds of the town of Aberdeen were sold to the United States Trust Company of Baltimore, Md. Interest on the securities is payable at the First National Bank of Aberdeen and the principal will mature in 1923, subject to call after 1912.

**Allentown, Pa.—Bond Offering.**—Proposals will be received until May 20, 1897, for the purchase of \$16,000 of 4 per cent school bonds.

**Ambler, Pa.—Bond Election.**—A proposition to issue bonds to the amount of \$16,000 for street-improvements will be put to a vote of the people of Ambler on May 18, 1897.

**Baltimore, Md.—Temporary Loan.**—The city of Baltimore has made a six months' loan of \$500,000.

**Bamberg, S. C.—Bond Sale.**—The town of Bamberg has sold between \$15,000 and \$20,000 of court-house and jail bonds. The securities bear interest at the rate of 5 per cent, payable semi-annually and will mature from 1898 to 1937, inclusive.

**Bay County, Mich.—Bond Offering.**—Proposals will be received until June 14, 1897, by Bay County for the purchase of \$100,000 of 4 per cent 25-30-year refunding bonds.

**Berkley, Va.—Correction.**—John Whetstone, Chairman of the Finance Committee, reports that an additional issue of \$25,000 of improvement bonds has not been authorized, as was stated in the CHRONICLE of last week, the State Legislature having authorized only \$50,000 of bonds, which amount has been issued. Twenty-five thousand dollars of this amount was sold last year and the remainder last month.

**Bingham County, Idaho.—Bond Sale.**—On May 8, 1897, \$57,863 of 6 per cent bonds of Bingham County were given in exchange for outstanding warrants. The King Bridge Company of Cleveland, Ohio, acquired most of the issue.

**Black Hawk, Col.—Bonds Authorized.**—The citizens of Black Hawk have voted in favor of a proposition to issue \$35,000 of water-works bonds.

**Boscawen, N. H.—Bond Sale.**—In April, 1897, the town of Boscawen sold \$6,000 of 4 per cent bridge bonds. The bonds are of the denomination of \$100 each. Interest is payable annually on the first day of July at the office of the Town Treasurer, and the principal will mature at the rate of \$500 per annum from July 1, 1902 to 1913, inclusive.

**Bristol, Conn.—Bond Offering.**—Proposals will be received until 2 o'clock P. M. June 1, 1897, by the Board of Selectmen for the purchase of \$100,000 of 4 per cent funding bonds. The securities will be of the denomination of \$1,000 each and will be secured by a sinking fund of \$6,000 per annum; they will be dated July 1, 1897. Interest will be payable semi-annually on the first days of January and July, and the principal will mature July 1, 1927, both principal and interest being payable at the Bristol National Bank. No bid for less than par and accrued interest will be considered.

**Brooklyn, N. Y.—Bond Offering.**—Proposals will be received until 12 o'clock noon May 18, 1897, by George W. Palmer, City Comptroller, for the purchase of the following registered 3½ per cent gold bonds and stock: \$375,000 of consolidated gold stock issued for improvement of the water system, payable January 1, 1937; \$16,500 of water bonds payable May 21, 1917; \$3,500 of Gravesend improvement bonds, payable May 21, 1925. Interest on all the securities is payable semi-annually on the first days of January and July.

**Calhoun County, Ala.—Bond Sale.**—The \$75,000 of 6 per cent funding bonds of Calhoun County have been awarded to Dietz, Denison & Prior, of Cleveland, Ohio, at 102½.

The securities are of the denomination of \$500 and \$1,000, dated June 1, 1897; interest is payable semi-annually on the first days of April and October at the Tredegar National Bank of Jacksonville, and the principal will mature June 1, 1917.

This loan constitutes the only indebtedness of the county. The assessed valuation of the real estate and personal property for 1896 was \$8,000,000; the real value is estimated at about \$20,000,000; tax rate (per \$1,000) for 1897 will be \$3.70. The population at the present time is estimated at about 85,000.

**Cape May, N. J.—Bond Sale.**—On May 6, 1897, the following bids were received for the purchase of the \$12,000 of 5 per cent bonds of the city of Cape May:

E. H. Gay & Co. ....	103-070	Leonora Bennett.....	101-000
J. Spicer Learning .....	104-500	Morris Cresse.....	103-680
E. C. Jones Co. ....	104-300	Henry R. Wilson.....	103-465
John W. Hearn .....	104-250	Robert E. Hughes.....	102-500
Benj. F. Johnson .....	104-250		

The bonds were awarded to E. H. Gay & Co. at their bid of 103-07.

The securities are of the denomination of \$500 each; interest is payable semi-annually on the first days of May and November, and the principal will mature in twenty years from date of issue.

● **Chagrin Falls, Ohio.—Bond Sale.**—The \$35,000 of 6 per cent water-works bonds of Chagrin Falls were awarded to C. E. Jones & Co. of Toledo, Ohio, at a premium of \$2,467.50. Bids were received. The securities will mature 25 years from date of issue.

**Chelsea, Mass.—Bond Sale.**—On May 11, 1897, the \$50,000 of 4 per cent park bonds were awarded to R. L. Day & Co. of Boston, Mass., at 110-347. The other bids received were:

Jose Parker & Co., Boston, Mass.....	110-01250
Estabrook & Co., Boston, Mass.....	109-580
H. S. Homer & Co., Boston, Mass.....	109-587
Rudolph Kleybolte & Co., New York, N. Y.....	109-540
Leland, Towle & Co., Boston, Mass.....	109-530
Blodgett, Merritt & Co., Boston, Mass.....	109-440
N. W. Harris & Co., Boston, Mass.....	109-435
Farson, Leach & Co., New York, N. Y.....	109-150
E. H. Rollins & Sons, Boston, Mass.....	109-099
W. J. Hayes & Sons, Boston, Mass.....	109-030
Blake Bros. & Co., Boston, Mass.....	108-410
Jas. W. Longstreet & Co., Boston, Mass.....	108-640
Dietz, Denison & Prior, Boston, Mass.....	108-500
D. W. Howland, Boston, Mass.....	108-180
E. H. Gay & Co., Boston, Mass.....	108-030

The securities are of the denomination of \$1,000 each, dated April 1, 1897; interest is payable semi-annually on the first days of April and October, at the office of the City Treasurer of Chelsea, and the principal will mature October 1, 1936.

**Cherry County, Neb.—Bonds Authorized.**—County Clerk Geo. Elliott reports to the CHRONICLE that the people of Cherry County have authorized the issuance of \$12,000 of court-house bonds. The securities are to bear 5 per cent interest, payable semi-annually, and mature in twenty years from date of issue, subject to call after ten years. The date of sale will be determined at the meeting of the County Board in June.

**Chester, S. C.—Bonds Authorized.**—The citizens of Chester have authorized the issuance of \$50,000 of bonds for the construction of water works and an electric-light plant.

**Chippewa County, Mich.—Bond Offering.**—Proposals will be received until 2 o'clock P. M. June 1, 1897, by William M. Snell, County Clerk, for the purchase of \$40,000 of 5 per cent refunding bonds. The securities will be of the denomination of \$500 each, dated June 1, 1897; interest will be payable semi-annually on the first days of June and December at the Chase National Bank of New York City, and the principal will mature June 1, 1912. Each proposal must be accompanied by a certified check for \$500.

The bonded debt of Chippewa County, not including this issue, is \$142,000; the assessed valuation as equalized for 1896 is \$3,475,998; the real value is estimated at about \$5,244,260. The population of the county in 1894 was 15,319.

**Clermont County, Ohio.—Bond Sale.**—The \$20,000 of 5 per cent bridge bonds of Clermont County were sold to Christian Walsh of Cincinnati, Ohio, for \$22,187. The securities are of the denomination of \$500 each and will mature in nine years from date of issue.

**Coatesville, Pa.—Bond Sale.**—The \$23,000 of 4 per cent water bonds of this borough have been sold at 102. The securities are of the denomination of \$100 and \$500; interest is payable semi-annually on the first days of January and July, and the principal will mature January 1, 1927, subject to call after July 1, 1898.

**College Point, N. Y.—Bond Offering.**—Proposals will be received until 3 o'clock P. M. June 7, 1897, by the Village Trustees of College Point for the purchase of \$11,000 of 4 per cent water bonds. The securities will be of the denomination of \$1,000 each and will mature in twenty years from date of issue. Each proposal must be accompanied by a certified check for 5 per cent of the amount bid.

**Columbus, Ga.—Bonds Proposed.**—The city of Columbus proposes to issue court-house bonds to the amount of \$26,000.

**Crawfordsville, Ind.—Bond Sale.**—The city of Crawfordsville has sold \$15,000 of 4 per cent school bonds.

**Cuyahoga Falls, Ohio.—Bond Election.**—An election will be held in Cuyahoga Falls on May 29, 1897, to vote on a proposition to issue water-works bonds to the amount of \$70,000.

**Delaware—Bonds Proposed.**—A bill has been introduced in the Delaware State Legislature authorizing the State to refund \$195,000 of 4 per cent bonds by an issue of 3 per cent bonds.

**East Orange, N. J.—Bonds Authorized.**—The Board of Education of East Orange Township has been authorized to issue \$67,000 of bonds for the purchase of a school site and the erection of a building thereon.

**Fort Scott, Kan.—Bond News.**—The \$11,000 of 6 per cent bonds of Fort Scott, recently purchased by the State School Fund Commissioners of Kansas, were issued by that city July 1, 1887, and are due July 1, 1907.

**Galveston, Texas.—Regarding the proposed increase in the City's Bonded Debt.**—A committee of the tax-payers of the City of Galveston has sent a protest to the Texas Senate against amending the city's charter so as to authorize a further issue of bonds, unless first submitted to a vote of the citizens of Galveston. Among other things they claim that an issue of bonds to fund the floating indebtedness would only cause temporary relief and that the floating debt of the city could be paid off by decreasing the expenses and by taxation assessed according to the true value of the property.

Theo. K. Thompson, City Auditor, in a letter to the Galveston "Daily News," answering statements that the city's debt had increased, presents the following facts:

"When the present administration took charge of the city's affairs the debt of the city was found to be:

Total bonded debt.....	\$3,133,700
Accrued interest on same.....	71,264
<b>Total.....</b>	<b>\$3,204,964</b>
Floating debt.....	423,865
<b>Gross indebtedness.....</b>	<b>\$3,628,829</b>
Deduct bonds held in trust for sinking funds and cash in hands of Treasurer.....	612,106
<b>Total net debt June 1, 1895.....</b>	<b>\$3,016,723</b>
Now take the last quarterly debt statement of the city dated March 1, 1897:	
Total bonded debt.....	\$3,426,000
Accrued interest on same.....	28,918
<b>Total.....</b>	<b>\$3,454,918</b>
Floating debt.....	198,970
<b>Gross indebtedness.....</b>	<b>\$3,653,888</b>
Deduct bonds held in trust for sinking funds and cash in hands of Treasurer.....	793,175
<b>Total net debt March 1, 1897.....</b>	<b>\$2,860,713</b>

The above statements show that the floating debt of June, 1895, say \$423,865, reduced by a bond issue of \$200,000, has been still further reduced from \$223,865 to \$198,970, making a reduction of \$24,895 in the floating debt, and that the total net debt of the city was reduced in the twenty-one months from June, 1895, to March, 1897, from \$3,016,723 to \$2,860,713, making a total reduction of \$156,010.

**Hartford (Conn.) Arsenal School District.—Bond Sale.**—The \$100,000 of funding bonds of this district were awarded to F. R. Cooley of Hartford, Conn., at 105'15. The other bids received were:

Dietz, Denison & Prior, Boston, Mass.....	105-137
E. H. Gay & Co., Boston, Mass.....	105-030
N. W. Harris & Co., New York, N. Y.....	105-089
E. C. Stanwood & Co., Boston, Mass.....	105-090
Farson, Leach & Co., New York, N. Y.....	104-800
C. H. White & Co., New York, N. Y.....	104-330
Street, Wykes & Co., New York, N. Y.....	103-670
Third National Bank, Boston, Mass.....	103-477
E. H. Rollins & Sons, Boston, Mass.....	102-337
Travelers' Life Insurance Co., Hartford, Conn.....	101-875
H. S. Homer & Co., Boston, Mass.....	100-353

The bonds are of the denomination of \$1,000; interest at the rate of 4 per cent is payable semi-annually, and the principal will mature in twenty years from date of issue.

**Highland Park, Ky.—Bonds Authorized.**—The citizens of Highland Park have voted in favor of a proposition to issue \$5,000 of school bonds.

**Homestead, Pa.—Bond Issue.**—Funding bonds to the amount of \$20,000 will soon be issued.

**Huntington, Conn.—Bond Offering.**—Proposals will be received until May 17, 1897, by the town of Huntington for the purchase of \$75,000 of 4 per cent twenty-year refunding bonds.

**Huntington (W. V.) School District.—Bond Sale.**—The \$15,000 of 6 per cent school bonds of this district have been awarded to Dietz, Denison & Prior, of Cleveland, Ohio. Interest on the securities is payable annually and the principal will mature in thirty years from date of issue, subject to call after ten years. Both principal and interest are payable at the National Park Bank of New York City.

**Huntsville, Texas.—Bond Issue.**—The town of Huntsville is about to issue \$18,000 of bonds for water works and school-house purposes. The securities will probably bear interest at the rate of 6 per cent and mature in forty years from date of issue.

**Indianapolis, Ind.—Bond Offering.**—Proposals will be received until 12 o'clock noon, May 27, 1897, by E. M. Johnson, City Comptroller, for the purchase of \$157,000 of 4 per cent Indianapolis public safety bonds. The securities will be of the denomination of \$1,000 each, dated June 1, 1897; interest will be payable semi-annually on the first days of January and July, the first coupon being for one month's interest. The principal will mature January 1, 1927, both principal and interest being payable at the office of Winslow, Lanier & Co., New York City. No bid for less than par and accrued interest will be considered, and each proposal must be accompanied by a certified check for 2½ per cent of the amount bid for.

The official advertisement of the bond offering will be found elsewhere in this Department.

**Laurens, S. C.—Bond Sale.**—The city of Laurens has sold \$80,000 of 6 per cent electric-light and water-works bonds to G. W. Williams of Charleston, S. C. The securities are dated April 1, 1897; interest is payable annually at the Carolina Savings Bank of Charleston, S. C., and the principal will mature in forty years from date of issue, subject to call after twenty years.

**Leicester, Mass.—Temporary Loan.**—The town of Leicester has placed a temporary loan of \$20,000 with Bond & Goodwin of Boston, Mass.

**Lynn, Mass.—Bonds Authorized.**—The city of Lynn has been authorized to issue a sewer loan of \$100,000 and a library loan of \$35,000.

**Manchester, Va.—Bond Offering.**—Proposals will be received until May 18, 1897, by the city of Manchester, for the

purchase of \$75,000 of 5 per cent coupon bonds. The securities will mature in from ten to thirty-four years from date of issue. Of the total amount to be issued \$67,000 will be used to refund a like amount of 6 per cent bonds and \$8,000 will be applied to various improvements.

**Bond Call.**—Notice has been given that \$70,500 of 6 per cent 10-34 year optional bonds of \$500 each of the City of Manchester have been called for payment at the office of the City Treasurer, on July 1, 1897, after which date the securities will cease to bear interest.

**Marinette, Wis.—Bonds Proposed.**—School bonds to the amount of \$15,000 are under consideration.

**Martin, Tenn.—Bonds Authorized.**—The citizens of the city of Martin have voted in favor of a proposition to issue \$25,000 of water-works bonds. The securities will be of the denomination of \$1,000 each; interest at the rate of 6 per cent will be payable annually at the office of the City Treasurer of Martin and the principal will mature in twenty years from date of issue.

**Medford, Mass.—Bond Sale.**—On May 11, 1897, the \$200,000 of 4 per cent bonds of the city of Medford were awarded to Blodget, Merritt & Co. of Boston, Mass., at 106'923. The other bids received were:

Blake Bros. & Co., Boston, Mass.....	106-790
Estabrook & Co., Boston, Mass.....	106-650
Rudolph Kleybolte & Co., New York, N. Y.....	106-490
E. L. Day & Co., Boston, Mass.....	106-446
Adams & Co., Boston, Mass.....	106-396
E. H. Rollins & Sons, Boston, Mass.....	106-3790
Jas. W. Longstreet & Co., Boston, Mass.....	106-370
H. S. Homer & Co., Boston, Mass.....	106-367
Jose Parker & Co., Boston, Mass.....	106-2195
Cushman, Fisher & Phelps, Boston, Mass.....	106-154
Geo. A. Fernald & Co., Boston, Mass.....	106-147
Farson, Leach & Co., Boston, Mass.....	106-075
Tower, Giddings & Co., Boston, Mass.....	106-070
Dietz, Denison & Prior, Boston, Mass.....	105-880
D. W. Howland, Boston, Mass.....	105-710
E. H. Gay & Co., Boston, Mass.....	105-410

The securities are of the denomination of \$1,000 each, dated May 1, 1897, interest is payable semi-annually on the first days of May and November, and the principal will mature May 1, 1917, both principal and interest being payable at the Howard National Bank of Boston, Mass.

**Melrose, Mass.—Bond Sale.**—On May 11, 1897, the \$50,000 of 4 per cent school-house bonds of the town of Melrose were awarded to Estabrook & Co. of Boston, Mass., at 106'59.

E. H. Rollins & Sons, Boston, Mass.....	106-449
Blake Bros. & Co., Boston, Mass.....	106-410
Tower, Giddings & Co., Boston, Mass.....	106-279
Farson, Leach & Co., New York, N. Y.....	106-150
Parkinson & Burr, Boston, Mass.....	106-012
Dietz, Denison & Prior, Boston, Mass.....	106-077
Blodget, Merritt & Co., Boston, Mass.....	106-030
Geo. A. Fernald & Co., Boston, Mass.....	106-020
N. W. Harris & Co., Boston, Mass.....	105-930
Footo & French, Boston, Mass.....	105-879
Rudolph Kleybolte & Co., New York, N. Y.....	105-810
E. L. Day & Co., Boston, Mass.....	105-796
Jose Parker & Co., Boston, Mass.....	105-6975
Adams & Co., Boston, Mass.....	105-580
Third National Bank, Boston, Mass.....	105-550
Jas. W. Longstreet & Co., Boston, Mass.....	105-548
D. W. Howland, Boston, Mass.....	105-510
E. H. Gay & Co., Boston, Mass.....	105-270
Leland, Towle & Co., Boston, Mass.....	105-075

The bonds are of the denomination of \$1,000 each, dated February 24, 1896; interest is payable semi-annually in February and August, and the principal will mature in twenty years from date of issue. Both principal and interest are payable at Boston or Melrose.

**Milan, Tenn.—Bond Election.**—The town of Milan recently voted in favor of a proposition to issue \$16,000 of water-works and electric-light bonds. It is now reported that the election was irregular, as it is said the registration books were not open twenty days before the election, which, it is claimed, is required by the election law.

**Milwaukee, Wis.—Debt Limit not yet Reached.**—As stated in the CHRONICLE of May 1 bids will be opened on May 18, 1897, for the purchase of \$300,000 of Milwaukee library and museum bonds. City Attorney Hamilton recently submitted to Mayor Rauschenberger an opinion on the question raised with reference to right of the city to issue more bonds. It had been claimed by certain parties that under the Constitutional Amendment of 1874, limiting the issue of municipal bonds to 5 per cent of the last assessment for state and county taxes, the city could not go beyond the limit of 5 per cent of the assessed valuation as fixed by the State or county boards. If this valuation were used in computing the debt limit instead of the valuation as established by the local assessors and used by the city authorities in determining the amount of bonds that could be issued, the city at the present time would have no authority for increasing its indebtedness.

In his opinion to the Mayor, Mr. Hamilton said:

"In the charter of Milwaukee will be found the provisions and mode of assessment indicated by statute for ascertaining local values, and an assessor for each ward is provided for. These are the only officers authorized by law to make any assessment of property in this city. An assessment made by any other officers or persons would not be valid or binding. \* \* \* Section 6 of Chapter 11 provides that, for bond issuing purposes, the amount of 'the assessed value of the taxable property in the city shall be ascertained and determined by the average annual amount of the assessment rolls thereof for the next preceding five years.' This law was enacted prior to the Constitutional Amendment under consideration, and is clearly

valid unless contrary to the provisions of the latter. Unless, therefore, the language of the Constitutional Amendment explicitly contravenes or inhibits the provisions of the statute, the latter is legal and in force. I do not think it can be successfully contended that the language of the amendment in question can be so construed.

"Inasmuch as the assessment made by the City Assessors is the only one authorized by law to be made, and the State and county equalization or apportionment is based on it, it is difficult to see what other assessment can be referred to by the language of the Constitutional Amendment. It uses the word 'assessment' and not 'apportionment' or 'equalization.' Then, again, the language of the Constitution is, 'the last assessment for State and county taxes.' This clearly contemplates one assessment and not two equalizations or apportionments made by two separate and distinct boards. Apportionments so made can never, in the course of things, be identical. Then which apportionment or equalization shall control, that made by the State Board of Equalization or that made by the County Board of Supervisors? In 1896 the equalized value of property in the city was fixed by the State Board at \$113,533,467 67, and by the County Board at \$74,497,182, or more than \$39,000,000 less. The latter body equalized the value of city property in 1895 at \$142,349,977 and in 1894 at \$69,500,000. Such jumping-jack figures surely cannot be deemed a basis for computing values upon which to issue municipal bonds."

"I therefore have the honor to advise you that in my opinion the Constitutional limitation upon municipal indebtedness of 5 per cent in the case before us is to be ascertained from the assessment of property within the city of Milwaukee as made by the local assessors and confirmed by the Board of Review."

"It appearing from the records that the average assessed valuation for the preceding five years is \$137,713,100 00, of which 5 per cent is \$6,885,905 00, and the outstanding bonded indebtedness is \$6,352,350 00, it is manifest that the Constitutional limit of indebtedness has not been reached, but on the contrary there is still a large margin of about half a million dollars."

**Bond Redemption.**—Notice has been given that Wm. J. Fiebrantz, City Comptroller, will receive proposals until 10 o'clock A. M., June 1, 1897, from the holders of Milwaukee City bonds subject to redemption by lot at or below par, to surrender their bonds for cancellation to an amount not greater than the amount of the sinking fund now on hand.

**Minneapolis, Minn.—Bond Offering.**—Proposals will be received until 2 o'clock P. M., May 23, 1897, by the Committee on Ways and Means of the City Council, care of Wallace G. Nye, City Comptroller, for the purchase of \$400,000 of 4 per cent water bonds and \$100,000 of 4 per cent school bonds. The securities will be of the denomination of \$1,000 each, dated January 1, 1897; interest will be payable semi-annually on the first days of January and July, and the principal will mature on January 1, 1927, both principal and interest being payable at the fiscal agency of the City of Minneapolis in New York City. No bid for less than par and accrued interest will be considered, and each proposal must be accompanied by a certified check for 2 per cent of the amount bid for. The total bonded debt of the city of Minneapolis, including these issues, is \$9,340,000; water debt, included in total bonded debt, \$1,830,000. There is no floating debt and the sinking fund amounts to \$1,896,496. The assessed valuation for 1897 is \$109,276,016; the actual value is estimated at about \$250,000,000. The population, according to the National Census of 1890, was 164,000 and according to the State Census of 1895, 198,000.

**Mississippi—Bonds Proposed.**—A bill providing for the issuance of bonds to the amount of \$750,000 for the erection of a new Capitol is now before the Mississippi State Legislature. The securities, if authorized, will bear 4 per cent interest and mature in twenty years from date of issue, subject to call after ten years. A proposition to borrow \$200,000 to meet the deficit which will occur in the State treasury during this year is also under consideration.

**Modesto, Cal.—Bond Offering.**—Proposals will be received until June 1, 1897, by the Board of Directors of the city of Modesto for the purchase of \$20,000 of irrigation bonds.

**Morris County, N. J.—Bonds Authorized.**—Morris County has been authorized to issue \$50,000 of road-improvement bonds.

**Munising, Mich.—Bond Offering.**—The village of Munising asks for proposals for the purchase of \$31,000 of water-work bonds. The securities will be of the denomination of \$500 each, dated May 1, 1897; interest will be payable annually at the office of the Village Treasurer or at any bank in Chicago or New York, as the purchaser may desire. The bonds will mature at the rate of \$10,000 every five years, beginning with May 1, 1907.

**Napoleon, Ohio.—Bond Offering.**—Proposals will be received until 12 o'clock noon, May 25, 1897, by J. P. Mason, Village Clerk, for the purchase of \$24,000 of 5 per cent street-improvement bonds. The securities will be of the denomination of \$1,000 and \$500. Interest will be payable semi-annually on the first days of January and July and the principal will mature as follows: \$22,500 at the rate of \$2,500 per annum from July 1, 1898 to 1906, inclusive, and \$1,500 on July 1, 1907. No bid for less than par will be considered and each proposal must be accompanied by a certified check for \$500.

**Newton, Mass.—Bonds Authorized.**—The Board of Aldermen has authorized the city of Newton to issue \$40,000 of street-improvement bonds. The securities will be of the denomination of \$1,000 each; interest will be payable at the rate of 4 per cent and the principal will mature in twenty years from date of issue. Seth A. Ranlett, City Treasurer, reports to the CHRONICLE that it is probable that the entire issue will be taken by the Sinking Fund Commissioners of Newton.

**Newark, Ohio.—Bond Offering.**—Proposals will be received until 12 o'clock noon, May 24, 1897, by W. M. Batty, Clerk of the Board of Education, for the purchase of \$12,000 of 5 per cent school improvement bonds. The securities will be of the denomination of \$1,000 each, dated June 1, 1897; interest will be payable semi-annually and the principal will mature at the rate of \$1,000 per annum from June 1, 1898 to 1909, inclusive.

**New Mexico.—Bond Sale.**—The Geo. D. Cook Co. of Chicago, Ill., has been awarded \$35,000 of 5 per cent 30-year New Mexico bonds at par. Of the amount issued, \$30,000 will be applied to the enlarging of an insane asylum, \$15,000 to the erection of a military academy and \$10,000 to the completion of a normal school.

**New York City.—Bonds Authorized.**—The bill authorizing New York City to issue \$2,500,000 of bonds for the erection of new high schools has been signed by the Governor.

**Norfolk County, Va.—Bond Sale.**—On May 11, 1897, the \$25,000 of 5 per cent refunding coupon bonds of Norfolk County were awarded to J. P. André Mottu & Co. of Norfolk at 103-502. The other bids received were:

Callwell Hardy, Norfolk, Va.	103-060
P. O'Connor (\$2,000)	102-500
Edw. C. Jones Co., New York, N. Y.	101-050
Merchants & Farmers' Bank	100-226
W. J. Hayes & Sons, Cleveland, Ohio	\$754 premium
Dietz, Denison & Prior, Cleveland, Ohio	\$67-85
Rudolph Kleybolte & Co., Cincinnati, Ohio	\$81-00

The securities are dated July 1, 1897; interest is payable semi-annually, and the principal will mature in ten years from the date of issue.

**Norristown, Pa.—Bond Election.**—The citizens of the town of Norristown will in a short time vote on a proposition to issue \$200,000 of electric-light and improvement bonds.

**North Carolina.—Bonds Proposed.**—It is reported that the State of North Carolina will probably issue bonds to meet the interest falling due in 1897 and 1898 on the outstanding bonds.

**Oneonta (N. Y.) Union Free School District No. 5.—Bond Sale.**—On May 10, 1897, the \$10,000 of 4 per cent school bonds of this district were awarded to the Wilbur National Bank at 100-995. Bids were also received from W. J. Hayes & Sons, Rudolph Kleybolte & Co., E. Morrison, Geo. M. Hahn, S. A. Kean and the Edw. C. Jones Co. The securities are dated January 1, 1897; interest is payable annually on January 1 at the Wilbur National Bank at Oneonta, N. Y., where the principal also will be payable. The bonds are of the denomination of 500 each and will mature as follows: \$500 yearly from January 1, 1899, to January 1, 1902, inclusive, and \$2,000 each year thereafter to and including 1906. The loan is issued for the purchase of a new school site and erecting a school building thereon, and is part of an authorized issue of \$24,300; the remainder will probably be offered for sale about July 1, 1897. The total indebtedness of the school district, not including this issue, is \$6,259; its assessed valuation, according to the last assessment roll, is \$1,533,761, and the population is estimated at 7,000.

**Otero County, Col.—Bond Sale.**—In April, 1897, \$7,500 of 6 per cent 10-20 year court-house bonds of Otero County were sold to the Geo. D. Cook Co. of Chicago, Ill., at 112-50. Interest on the securities is payable at the Chemical National Bank of New York City.

**Pawtucket, R. I.—Bond Sale.**—A report has been published that the city of Pawtucket has sold \$500,000 of 4 per cent 40-year gold refunding bonds to E. C. Stanwood & Co., of Boston, Mass., at private sale. The "Boston News Bureau" reports that the securities were sold to that firm early last month.

**Piermont, N. Y.—Bonds Voted.**—It is reported that the people of the town of Piermont have voted in favor of the issuance of street improvement bonds to the amount of \$6,000.

**Pittsfield, Mass.—Bond Sale.**—The following is a complete list of the bids received for the \$170,000 of 4 per cent gold school bonds and the \$100,000 of 4 per cent gold water bonds of the city of Pittsfield.

School Bonds.	Water Bonds.
E. H. Rollins & Sons, Boston, Mass.	101-1570
E. L. Day & Co., Boston, Mass.	102-639
Hodget, Merritt & Co., Boston, Mass.	102-579
E. C. Stanwood & Co., Boston, Mass.	102-523
Jose Parker & Co., Boston, Mass.	102-278
Adams & Co., Boston, Mass.	102-317
Geo. A. Fernald & Co., Boston, Mass.	102-344
Dietz, Denison & Prior, Boston, Mass.	102-502
Cushman, Fisher & Phelps, Boston, Mass.	101-750
Leland, Towle & Co., Boston, Mass.	103-5170
H. S. Homer & Co., Boston, Mass.	102-346
Estbrook & Co., Boston, Mass.	102-235
Parkinson & Burr, Boston, Mass.	103-4500
Faxon, Leach & Co., New York, N. Y.	103-4360
J. W. Longstreet & Co., Boston, Mass.	102-138
E. H. Gay & Co., Boston, Mass.	103-4200
D. W. Howland, Boston, Mass.	103-1120
	102-073
	103-3410
	103-364
	101-860
	102-025

Both issues were awarded to E. H. Rollins & Sons. The securities are dated May 15, 1897; interest is payable semi-

annually on the fifteenth days of May and November, and the principal of each issue will mature at the rate of \$10,000 per annum, beginning with May 15, 1898. Both principal and interest will be payable at the National Bank of Redemption of Boston, Mass. These loans are issued in the form of coupon bonds of \$1,000 each, or, if desired, the school bonds are issued in the form of registered certificates of \$1,000, \$5,000 or \$10,000 and the water bonds in the form of registered certificates of \$1,000 or \$5,000.

**Plainfield, Conn.—Bond Offering.**—Proposals will be received until 4 o'clock P. M., June 1, 1897, by S. L. Adams, Town Treasurer, Central Village, Conn., for the purchase of \$25,000 of 4 per cent highway-improvement bonds. The securities will be of the denomination of \$500 each, dated May 1, 1896; interest will be payable semi-annually on the first days of May and November and the principal will mature at the rate of \$5,000 every five years from May 1, 1906 to 1926, inclusive. No bid for less than par and accrued interest will be considered and each proposal must be accompanied by a certified check for 2 per cent of the amount bid for. This loan is secured by a sinking fund and is part of an authorized issue of \$30,000, the remainder, \$5,000, having been sold in December, 1896.

The official notice of this bond offering, containing a statement of the town's financial condition at the present time, will be found among the advertisements elsewhere in this Department.

**Portsmouth, Va.—Bond Offering.**—Proposals will be received until 6 o'clock P. M., May 24, 1897, by E. Thompson Jr., City Clerk, for the purchase of \$10,000 of 5 per cent paving and grading bonds. Interest on the securities will be payable semi-annually, and the principal will mature April 1, 1907. The loan will be free from taxation and will be issued in the form of coupon bonds of \$100 and \$500 with the privilege of the registration of principal and interest or principal only, as the purchaser may desire.

**Poughkeepsie, N. Y.—Bond Sale.**—In April, 1897, refunding bonds to the amount of \$20,000 were sold by the Finance Committee of Poughkeepsie. The securities bear interest at the rate of 3½ per cent and mature in from one to twenty years from date of issue.

**Providence, R. I.—Bond Issue.**—The Board of Aldermen of Providence has passed an ordinance providing for the sale of \$640,000 of public-improvement bonds and \$674,000 of park bonds to the Sinking Fund Commissioners.

**Putnam, Fla.—Bonds Proposed.**—The city of Putnam proposes to issue bonds to pay the cost of constructing water-works.

**Queensbury (N. Y.) Union Free School District No. 1.—Bond Sale.**—School bonds of this district to the amount of \$24,000, bearing 5 per cent interest, have been awarded to W. J. Hayes & Sons at 105-8875.

**Quincy, Mass.—Bond Sale.**—The \$120,000 of Quincy sewer bonds were awarded to Farson, Leach & Co. of New York City at 106 555. The other bids received were:

Rudolph Kierbolte & Co., New York, N. Y.	106-539
E. L. Day & Co., Co., Boston, Mass.	106-429
Estabrook & Co., Boston, Mass.	106-377
H. S. Homer & Co., Boston, Mass.	106-367
Jas. W. Longstreet & Co., Boston, Mass.	106-321
E. H. Rollins & Sons, Boston, Mass.	106-279
Adams & Co., Boston, Mass.	106-190
Leland, Towle & Co., Boston, Mass.	106-153
N. W. Harris & Co., Boston, Mass.	106-150
Dietz, Denison & Co., Boston, Mass.	106-077
Lee, Higginson Co., Boston, Mass.	106-070
Blodgett, Merrill & Co., Boston, Mass.	106-060
Jose Parker & Co., Boston, Mass.	106-0125
Cushman, Fisher & Phelps, Boston, Mass.	105-953
Geo. A. Fernald & Co., Boston, Mass.	105-810
Tower, Giddings & Co., Boston, Mass.	105-791
Third National Bank, Boston, Mass.	105-550
D. W. Howland, Boston, Mass.	105-450
E. C. Stanwood & Co., Boston, Mass.	105-000
Blake Bros. & Co., Boston, Mass.	101-310

The securities are of the denomination of \$1,000 each, dated May 1, 1897; interest at the rate of 4 per cent is payable semi-annually on the first days of May and November, and the principal will mature at the rate of \$3,000 each year, beginning with May 1, 1898. Both principal and interest are payable at the National Bank of the Commonwealth of Boston, Mass.

**Remington, Ind.—Bond Offering.**—Proposals will be received until 12 o'clock noon June 1, 1897, by Ira W. Yeoman, Town Treasurer, for the purchase of \$3,000 of 6 per cent water-works bonds. The securities will be of the denomination of \$500 each, dated June 1, 1897; interest will be payable semi-annually and the principal will mature as follows: \$3,000 on June 1, 1902, \$2,000 on June 1, 1904, \$3,000 on June 1, 1906, and \$1,000 on June 1, 1907.

**Richmond County, N. Y.—Bond News.**—A report has been current to the effect that the bankers who purchased the \$202,000 of road bonds of Richmond County recently issued have declined to accept them. Messrs. E. D. Shepard & Co., the firm to whom the bonds were awarded, inform us that they have not refused to take the securities, but that their counsel has raised an objection to the form in which the bonds were issued and that the authorities have accordingly

been requested to make the necessary change. This it is expected will be promptly done.

**Rocoe (Ohio) Union School District.—Bonds Unsold.**—The \$1,500 of 6 per cent 1-3-year school bonds of this district, bids for which were opened on May 8, 1897, were not sold, opposed to building the school house having procured parties an injunction to prevent the sale. The case will be brought up before the court next week.

**St. Joseph, Mo.—Bond Renewal.**—Notice has been given that the bonds of the city of St. Joseph now outstanding and bearing 6 per cent interest, issued under an ordinance approved March 10, 1883, have been called for payment on August 1, 1897, after which date the securities will cease to bear interest. Privilege is given to the holders of these bonds to exchange their securities at any time on or before June 19, 1897, for new 4 per cent 20-year bonds, issued to redeem the bonds called for payment. The new loan will be dated August 1, 1897; interest will be payable semi-annually at the National Bank of Commerce of New York City, where the principal also will be payable.

Proposals are asked for the purchase of that portion of the renewal bonds which have not been exchanged for the 6 per cent bonds on or before June 19, 1897, as provided for above. Such bids should be addressed to "The Mayor, Comptroller, City Counselor and Chairman of the Finance Committee of the Common Council of the city of St. Joseph, Missouri", to be deposited with the National Bank of Commerce of New York City before 12 o'clock noon July 15, 1897. No bid for less than par will be considered, and each proposal must be accompanied by a certified check for at least 10 per cent of the bid. Bidders have the privilege of paying for these 4 per cent bonds wholly or in part with the 6 per cent bonds at par.

**Sayre, Pa.—Temporary Loan.**—On April 23, 1897, this borough negotiated a loan of \$1,000 with the Sayre Banking Company, and on May 4, 1897, a loan of \$500. Both issues bear interest at the rate of 6 per cent and mature September 1, 1897.

**Sevier County, Utah.—Bond Sale.**—The \$4,800 of Sevier County twenty-year refunding bonds were sold to the State Board of Land Commissioners of Utah at their bid of par for the bonds bearing 5 per cent interest. The other bids received were:

Duke M. Farson, Chicago, Ill.	\$4,313
S. A. Kean, Chicago, Ill.	4,300

Both of the above bids were made on the basis of the bonds bearing 6 per cent interest.

**Sherman, Texas.—Bonds Proposed.**—An ordinance providing for an issue of \$10,000 of street-improvement bonds has been presented to the City Council of Sherman.

**Silver Creek, N. Y.—Bond Sale.**—On May 12, 1897, the Board of Education of Silver Creek sold \$3,850 of school bonds to the City Bank of Buffalo for \$8,975. The securities bear interest at the rate of 4½ per cent, payable semi-annually and mature at the rate of \$885 annually.

**Somerville, Tenn.—Bonds Proposed.**—Water-works and electric-light bonds of this city to the amount of \$10,000 are under consideration.

**Southington, Conn.—Bond Sale.**—On May 12, 1897, the \$90,000 of 4 per cent bonds of the town of Southington were awarded to H. C. Warren & Co., of New Haven, Conn., at 105 125. The other bids received were:

Bidders.	10-year bonds.	20-year bonds.	30-year bonds.	Entire issue.

\* \$10,000 each series. † For \$5,000.

The securities are of the denomination of \$1,000 each, dated July 1, 1897; interest is payable semi-annually on the first days of January and July at the Southington National Bank, and the principal will mature at the rate of \$30,000 every ten years from July 1, 1907 to 1927, inclusive.

This loan is issued for the purpose of funding the present indebtedness of Southington, and constitutes the only indebtedness of the town.

**Stockton, N. J.—Bonds Authorized.**—General improvement bonds to the amount of \$10,000 have been authorized by the Town Council.

**Syracuse, N. Y.—Bond Offering.**—Proposals will be received until 3 o'clock P. M., May 17, 1897, by E. F. Allen, City Treasurer, for the purchase of \$100,000 of 3½ per cent water bonds. The securities will be of the denomination of \$5,000 each, dated May 1, 1897; interest will be payable semi-annually on the first days of January and July at the office of the Metropolitan Trust Company of New York City, and the principal will mature January 1, 1927. No bid for less than par and accrued interest will be considered.

The present bonded debt of the city of Syracuse amount to \$6,072,000, of which \$5,834,500 are general city bonds and \$238,500 local improvement bonds. The assessed valuation for 1906 is: real estate, \$63,324,520; personal property, \$3,391,843; total, \$66,716,363. The value of real estate is estimated at \$90,000,000; the population is estimated at 120,000.

**Temporary Loan.**—The city of Syracuse has placed a temporary loan of \$100,000 with the Knickerbocker Trust Company of New York City.

**Taunton, Mass.—Bond Sale.**—The following is a complete list of the bids received for the \$45,000 of 4 per cent 9½-year highway bonds of the city of Taunton.

E. H. Rollins & Sons, Boston, Mass.	101-164
Lee, Higginson & Co., Boston, Mass.	101-050
Blodgett, Merrill & Co., Boston, Mass.	101-020
Blake Bros. & Co., Boston, Mass.	103-433

\* And \$5 premium.

The securities were awarded to E. H. Rollins & Sons at their bid of 104-166.

**Tiverton, R. I.—Bonds Authorized.**—Funding bonds to the amount of \$20,000 have been authorized.

**Tropico (Cal.) School District.—Bond Sale.**—This district has sold \$2,000 of 7 per cent school bonds. The securities are of the denomination of \$400 each; interest is payable at the office of the County Treasurer of Los Angeles County.

**Washington, Pa.—Bond Offering.**—Proposals will be received by the finance committee of the Borough Council, Gen. John Hall, Chairman, until 12 o'clock noon, June 7

1897, for the purchase of \$60,000 of street improvement bonds of this borough. The securities are coupon bonds of the denomination of \$500. They will be dated July 1, 1897, interest at the rate of 4 per cent will be payable at the office of the Borough Treasurer on the first days of April and October in each year, and the principal will mature, part yearly, on October 1, from 1898 to 1910 inclusive. Each proposal must be accompanied by a certified check for 5 per cent of the amount bid. The present bonded debt of the borough is \$129,700 and the latest assessed valuation was \$3,023,577.

**Waterford (N. Y.) Union Free School District No. 1.—Bond Sale.**—The \$20,000 of 4 per cent school bonds of this district were awarded to C. H. White & Co. 8½ New York City at 105-25. The securities are of the denomination of \$1,000 each, dated May 1, 1897; interest is payable semi-annually on the first days of May and November, and the principal will mature at the rate of \$1,000 per annum from May 1, 1912 to 1931, inclusive. Both principal and interest are payable at the Garfield National Bank of New York City.

**Wauseon, Ohio.—Bond Offering.**—Proposals will be received until 12 o'clock noon, June 7, 1897, by W. S. Brigham Village Clerk, for the purchase of \$22,000 of 6 per cent water-works bonds. The securities will be of the denomination of \$1,000 each; interest will be payable annually on the first day of September and the principal will mature at the rate of \$1,000 per annum, beginning with September 1, 1903. No bid for less than par and accrued interest will be considered and each proposal must be accompanied by a certified check for \$500.

**West Alexandria, Ohio.—Bond Offering.**—Proposals will be received until June 1, 1897, by the city of West Alexandria for the purchase of water-works bonds to the amount of \$16,000. The securities will bear interest at the rate of 5 per cent.

**Westmoreland County, Pa.—Bond Sale.**—The "New York News Bureau" reports that Dick Bros. & Co. of Philadelphia have been awarded \$15,000 of 5 per cent 5-20-year bonds of Westmoreland County at a premium of \$691 50. There were nine other bidders.

**Wildwood, N. J.—Bond Sale.**—The town of Wildwood has sold \$10,000 of 6 per cent 5-20 year improvement bonds to local

## NEW LOANS.

### \$300,000

**NEWARK, NEW JERSEY,**  
**FOUR PER CENT**  
**Free Public Library**  
**Bonds.**

NEWARK, N. J., May 3d, 1897.

I, JOHN S. GIBSON, Comptroller of the City of Newark, New Jersey, will receive until Wednesday, May 26, 1897, at 4 o'clock P. M., sealed bids for an issue of thirty-year 4 per cent registered bonds in the sum of

### \$300,000.

being an issue of bonds in that amount authorized by law for the construction of the Free Public Library which bonds will be issued in denomination of \$1,000 each. Bids to be opened Wednesday, May 27, 1897, at 4 15 P. M. Each bidder to state in writing the highest amount at which he will purchase the whole or any part of said issue of \$300,000. Bonds to be dated June 1, 1897, exempt from tax, and interest payable semi-annually. Bids to be accompanied by a certified check for 5 per cent of amount bid for. The right to reject any and all bids reserved. All bids to be addressed to John S. Gibson, Comptroller, Newark, New Jersey, and marked "Bid for Library Bonds."

Water debt of city	\$7,757,000 00
Other debt of city	6,016,000 00

Total permanent debt	\$13,773,000 00
Amount in sinking funds	2,784,652 84

Net debt	\$10,988,347 12
Assessed valuation	\$133,483,311 00

Net earnings of the water plant for the year 1896 \$195,481 50

The temporary indebtedness of Newark is represented by temporary loan bonds issued against unpaid taxes and assessments for pavings and sewers, and the temporary assets of the city far exceed its temporary liabilities. Of its permanent debt the revenues from the Water Department are about sufficient to meet the interest and sinking fund charges on the total water debt. The interest and sinking fund charges on \$490,000 of Tax Arrears Bonds are fully met by the collection of taxes on real estate, and interest and sinking fund charges on \$235,000 of Market Bonds are paid from the earnings of the Market. The net reduction in the permanent debt of the city in 1896 was \$71,327 66.

JOHN S. GIBSON, Comptroller,  
Room 8, City Hall,  
Newark, N. J.

## NEW LOANS.

### \$150,000

**INDIANAPOLIS, IND.,**  
**Public Safety Bonds of 1897.**

DEPARTMENT OF FINANCE,  
OFFICE OF THE CITY COMPTROLLER,  
INDIANAPOLIS, IND.

Sealed bids will be received by the city of Indianapolis, Indiana, until Thursday, the twenty-seventh day of May, 1897, at 12 o'clock M. for the whole or any part of \$150,000 Indianapolis Public Safety Bonds of 1897 of said City. Said bonds will be designated "Indianapolis Public Safety Bonds of 1897"; will be dated June 1, 1897, and be of the denomination of \$1,000 each, with interest coupons attached; will bear interest at the rate of four (4) per cent per annum, payable semi-annually on the first day of January and the first day of July of each year. The first coupon on each bond to be for one month's interest only, or from June 1st to July 1st, 1897. The principal is payable on January 1, 1927, and both principal and interest are payable at the banking house of Winslow, Lanier & Company, New York City. Bids for the purchase of said bonds should be endorsed "Proposals for Indianapolis Public Safety Bonds", and directed to the City Comptroller, Indianapolis, Indiana. Bidders may bid for all or any part of said bonds.

The proposals will be opened by the City Comptroller, at his office, on the 27th day of May, 1897, between the hours of 12 o'clock M. and 2 o'clock P. M., and said Comptroller will thereupon award said bonds, or, if he shall see fit, a part or any number thereof, to the highest and best bidder therefor, but said Comptroller shall have the full right to reject any and all bids, or proposals, or any part thereof, and shall have the right to accept a part of any bid, and to award upon any bid the whole or any less number of bonds covered by such bid, he being the sole judge of the sufficiency or insufficiency of any bid, excepting only that no bond shall be sold at less than par and accrued interest. He may also in his judgment and discretion award a part of said bonds to one bidder and a part to another.

Each bid shall be accompanied by a certified check upon some responsible bank of the city of Indianapolis, Indiana, payable to the order of WILLIAM H. SCHMIDT, City Treasurer, for a sum of money equal to two and one half (2½) per cent of the face or par value of the bonds bid for or proposed to be purchased. The bonds awarded will be delivered at the banking house of Winslow, Lanier & Company in the city of New York on the 1st day of June, 1897, and the successful bidder or bidders shall take the bonds awarded to him or them, and his or their omission, neglect or refusal so to do shall be a breach of the contract of his bid or proposal, on account of which damages shall be retained or recovered as liquidated and provided in the ordinance covering this issue.

Said bonds are offered for sale under and by virtue of General Ordinance No. 34, 1897, passed by the Common Council on the 3d day of May, 1897, and approved by the Mayor on the 7th day of May, 1897.  
E. M. JOHNSON,  
City Comptroller.

## NEW LOANS.

### \$25,000

**TOWN OF PLAINFIELD,**  
**WINDHAM COUNTY, CONN.,**  
**4 PER CENT BONDS.**

PLAINFIELD, May 4th, 1897.

Sealed proposals will be received until 4 P. M. Tuesday, June 1st, 1897, for the purchase of \$25,000 of Town of Plainfield four per cent bonds, or any part thereof, at which time, at the Town Treasurer's Office, at Central Village, Conn., the said bids will be publicly opened and read.

These bonds will be issued in coupon bonds of five hundred dollars (\$500) each, dated May 1st, 1896, \$5,000 of which will become due May 1st, 1906, \$5,000 May 1st, 1911, \$5,000 May 1st, 1916, \$5,000 May 1st, 1921, and the remaining \$5,000 May 1st, 1926, with interest at the rate of four per cent per annum, payable semi-annually on the first days of May and November in each year from May 1st, 1897.

These bonds are issued under and in pursuance of and in full conformity with the laws of the State of Connecticut and a vote of said town passed at a meeting legally warned and held on the 11th day of April, 1896, for the purpose of making permanent improvements on the main highways of the town.

Proposals less than par and accrued interest will not be considered, and the Committee reserve the right to reject any and all bids. Proposals must be endorsed "Proposals for Bonds", and addressed to S. L. ADAMS, Town Treasurer, Central Village, Conn., and must state whether for the whole or a part, and if a part for which issue and the amount bid for. Each bid must be accompanied with a certified check on a National Bank for two per cent of the total amount of bonds bid for, payable to the Town Treasurer.

The assessed valuation of real estate and personal property made for taxes by the Town Assessor Oct. 1st, 1896, was \$1,050,917, and the annual town tax laid for some years past has not exceeded ten mills. The financial standing of the Town Aug. 31st, 1896, as taken from the report of the Town Treasurer, gives an indebtedness of \$13,304 10, against which the Town owns property (personal and real estate) to the amount of \$19,440 51; the only bonded debt being this issue of \$30,000 authorized by vote of the Town April 11th, 1896, \$5,000 of which was sold Dec. 2d, 1896, leaving the remaining \$25,000 to be sold June 1st, 1897, as noted above. By vote of Town passed April 11th, 1896, the Selectmen and Town Treasurer must provide a sinking fund sufficient to pay said bonds at their maturity.

HENRY C. STARKWEATHER,  
WILLIAM H. KENYON,  
A. B. SPRAGUE,  
SESSIONS L. ADAMS,  
J. A. ATWOOD.

Committee.

parties at par. Interest on the securities is payable semi-annually at the Tradesman's Bank of Vineland, N. J.

**Wilmington, Del.—Bonds Authorized.**—The State Legislature has authorized the city of Wilmington to issue \$15,000 of bonds for a new crematory.

**Wyandot County, Ohio.—Bond Offering.**—Proposals will be received until May 19, 1897, by T. W. Parker, County Auditor, for the purchase of \$125,000 of 6 per cent court-house bonds.

**Youngstown, Ohio.—Bond Offering**—Proposals will be received until 2 o'clock P. M., May 31, 1897, by F. C. Brown, City Clerk, for the purchase of \$3,200 of 5 per cent street-improvement bonds; interest on the securities will be payable semi-annually and the principal will mature as follows: \$1,000 on October 1, 1898; \$1,000 on October 1, 1899, and \$1,200 on October 1, 1900. Both principal and interest will be payable at the office of the City Treasurer of Youngstown.

## STATE AND CITY DEBT CHANGES.

We subjoin reports as to municipal debts received since the last publication of our STATE AND CITY SUPPLEMENT. Some of these reports are wholly new and others cover items of information additional to those given in the SUPPLEMENT and of interest to investors.

**Clay County, Ind.**—Thomas Phillips, Auditor. In the debt statement of this county, published in the April number of our STATE AND CITY SUPPLEMENT, the assessed valuation was given as \$1,200,000 instead of \$12,000,000, the approximate amount, as reported to us. Since that date we have received the exact figures for the valuation, which we give in the statement below.

County seat is Brazil.

Bonded debt Dec. 1, '96..	\$30,000	Assessment about 1/2 of actual value
Floating debt.....	15,000	Tax rate (per \$1,000)...
Total debt Dec. 1, 1896.	45,000	Population in 1890 was.....
Gravel road bonds (add'l)	60,000	Population in 1897 (est.).....
Tax valuation 1896.....	11,651,055	

**Marysville, Cal.**—W. J. Ellis, Mayor.—The following report of the financial condition of the city of Marysville has been corrected up to April 12, 1897, by means of a special report to the CHRONICLE:

Marysville is the County seat of Yuba County.

### THE FINANCIAL SITUATION.

Yesterday it was announced that the Governor had vetoed the Dudley Graduated Inheritance Tax bill. This is a bit of good news that will be the more welcome in that it comes in a week by no means abounding in encouraging events. It will have a reassuring effect. Wall Street affairs were for a time this week unfavorably affected by the incidents connected with the Greco-Turkish war and its attempted settlement, and in a measure also by the publication of the official statement of the April foreign trade figures. We have written with reference to these matters on subsequent pages. They have not by any means been the more prominent sources of the unrest in industrial circles which has been a conspicuous feature all the week. What has chiefly attracted attention and excited the greater disquietude has been the discussions in the Senate at Washington with reference to the Cuban situation and the final passage by that body on Thursday of the resolution acknowledging the belligerency of the Cuban insurgents by a vote of 41 to 14.

The President's message on Monday, asking for an appropriation to furnish food, &c., for needy Americans in Cuba, the issue of which had been anticipated and feared by many lest it might be disturbing, turned out to be a very quieting document, just such a message as would naturally emanate from a prudent officer, the responsible head of the Government. These Senatorial speeches, though, have, many of them, been of a very different character. The most emotional and intemperate have in the main though not wholly come from the opposition, and therefore the irresponsible party, or from those unceasing mischief-makers composing the silver faction, and have had as their obvious purpose to irritate Spain and involve the United States in a war with that country. Situated as our currency, the Government revenue and business affairs are, no course could be more unwise or reckless; and as to the interests of Cubans it would be by no means the better way to serve them. Fortunately it is not presumable that President McKinley will sign the resolution, even if it should pass the House. Why under these circumstances it received so large a vote is the greater wonder, for every Senator who is not given over to silver and who has any regard for our suffering country must feel that such proceedings are in every way detrimental, delaying business revival and destroying every hope of speedy recovery. It is foolish amid such goings on to talk about signs of business improvement, as some are trying to do. There are no such signs and can be none until our legislators in Washington stop playing the fool and go to work earning their wages like the rest of us, trying to build up instead of pull down.

Of a similar distinctive influence is the Coal Trust inquiry started by an Albany official. To be sure that must be a fearfully oppressive trust, if a trust it is, that results in mining coal, bringing it to market, and selling it at tide water at an average of about \$3 38 a ton, in doing which the miner, the railroad and the merchant are growing poorer daily. How the cause of the wage-earner can be helped or political capital can in any way be made in stirring up such an industry and trying to embarrass it more than it is already embarrassed passes our comprehension. A wiser course might be for Congress, since it has undertaken to attend to the suffering Americans in Cuba, to carry some of its bounty into the Pennsylvania mining sec-

tion and into many manufacturing districts where, because of acts like this Cuban affair and this coal affair, the wage-earner is compelled to bring himself down to a half a crust or less. Rumor says that the movement against the coal roads is a part of the bear speculation against the coal stocks. We know nothing on that point. Rumor is not a safe guide to a correct judgment. The simple facts are that the stocks in question have declined materially since the inquiry was started, and those who were in the secret and sold them short in anticipation of the effect of the movement could buy them in at the prices to which they have since dropped at a very comfortable profit.

We are glad to see that the managers of the companies are beginning to resist these constant efforts to harass and embarrass them, and are taking steps to protect the interests committed to their care. Not one of the numerous "trust" investigations which have of late become so fashionable, whether judicial or legislative, have succeeded in unearthing a single unfavorable fact, and not one of them has been prosecuted with the view to getting at the truth. We hope, therefore, when the Presidents of the companies give their testimony, they will insist on having all the facts bearing upon the coal situation brought out, and not allow their opponents to close the case after having asked a few questions skilfully framed to hoodwink and deceive the public. There is no industry to-day where the conditions are less satisfactory than in the coal trade. The miners who produce the coal are in a pitiable state; the companies on the other hand are no better off, so that neither interest in this great industry is getting decent compensation out of it. Consider for a moment the condition of a few of these companies. The Lehigh Valley was once a staunch investment property. For a period of about thirty-five years it paid regular dividends on its share capital. What are its stockholders getting to-day? Nothing. The Reading has been reorganized a number of times. Its security holders have just paid heavy assessments. And what have they gained by the operation? Let the price of the securities in the market answer. The Central of New Jersey has made two reductions in its dividend rate, and the Stock Exchange price for its stock indicates the present estimate of value put on the property. The Delaware & Hudson has likewise been obliged to cut its dividend, and the Lackawanna is forced to draw upon past accumulations in order to maintain its old rate of distribution. And all this has occurred notwithstanding the utmost efforts at economy. These and other facts like them are what should be put in evidence. We do not imagine that the course of the politicians will be changed thereby, but the effect may be to enlighten the public, and it is on enlightened public sentiment that the companies must rely in the end for fair treatment.

A very striking indication of the business situation has been the arrangement entered into this week for the voluntary liquidation of the Third National Bank of New York and the passing over to the National City Bank of all its business and accounts, the City National agreeing to pay the Third National's depositors in full. The noteworthy fact is that one of our large Clearing House institutions reporting a million dollars capital and twenty per cent surplus, with also a very considerable clientage gathered during a long

business career, finds it more profitable to go out of business than to continue in business; this, too, is in the face of what the Populists delight to call the exclusive rights and valuable privileges of national banks. Mr. Hepburn, the excellent President of the Third National, explains this apparent anomaly in a very simple way. He tells us that the same conditions and principles which apply to general business apply with equal force to the business of banking; that as all branches of trade throughout the country have been much depressed for several years, and people have been compelled to exercise the most rigid economy, and to adopt and practice all available means of retrenchment, so it is with banks and banking business. Notwithstanding the Third National held on the day of this transfer over \$12,000,000 deposits, Mr. Hepburn and his stockholders are confident that their best interests are served by effecting this consolidation. All that means just what so many merchants and manufacturers are saying to-day, that this is the worst year of the series—they are making no money but losing money rapidly.

Current returns of railroad earnings are growing better in some instances, but are as yet far from encouraging. We give our compilations of gross and net for March on another page to-day, and they show a small gain in the aggregate in the gross and a somewhat larger gain in the net, the latter due in great measure to economies in the expense accounts. The compilations include a number of returns specially secured by us—among them the Baltimore & Ohio and the Cleveland Cincinnati Chicago & St. Louis. The Baltimore & Ohio is still continuing its policy of spending large amounts out of earnings for renewals and betterments. Hence, while the gross shows an increase over the amount for March last year of \$205,644, the net records a loss of \$111,819, expenses having increased in the sum of \$317,463. The Cleveland Cincinnati Chicago & St. Louis has a quite favorable statement; it shows \$141,256 increase in gross and \$83,289 increase in net. The Peoria & Eastern, operated by this company but making separate reports, shows for the same month \$7,623 decrease in gross and \$6,047 decrease in net.

For the month of April we have as yet very few returns of net, but of those that have come in some are decidedly poorer than for the months preceding. Two of the lines in the Pennsylvania Railroad system are conspicuous in this respect. Thus the Pittsburgh Cincinnati Chicago & St. Louis reports gross of only \$1,057,655 for April 1897, against \$1,217,277 for April 1896, and net of only \$255,517, against \$366,104; and the Pittsburgh Youngstown & Ashtabula reports gross of only \$87,940, against \$125,811, and net of but \$20,181, against \$52,699. These roads are located in the iron and coal districts, and evidently business in those sections has been on the decline again since Congress has been in session. The Baltimore & Ohio shows a gain in its gross for that month, but it amounts to only \$9,816, against the increase of \$205,644 noted above for March. The Summit Branch and Lykens Valley on their coal mining operations show receipts of only \$119,302, against \$160,083, and a deficiency in meeting expenses of \$13,409 for April, 1897, against a deficiency of \$24,170 for April 1896. Southern roads have done much better, and the Nashville Chattanooga & St. Louis has gross of \$393,229, against \$373,030, and net of \$129,644, against \$125,417.

Money on call, representing bankers' balances, has loaned this week at  $1\frac{1}{4}$  and at  $1\frac{1}{2}$  per cent at the Stock Exchange, averaging  $1\frac{3}{8}$ , and the supply has been abundant. Banks and trust companies loan at the current rates, the agreement between the banks to maintain 2 per cent for their loans having been annulled by the action of the majority of these institutions in accepting whatever rates they could obtain on the Stock Exchange. Money at Chicago and at other Western centres is reported as plentiful, and it is loaning at Chicago about on a par with the New York rate. There is also ease at Boston, and the New York banks report a large movement of currency toward this centre from the interior during the week. Time contracts are freely offered at 2 per cent for thirty to sixty days,  $2\frac{1}{2}$  per cent for ninety days to four months, 3 per cent for five to six months, and  $3\frac{1}{2}$  per cent for seven to eight months on good mixed Stock Exchange collateral. It was reported on Thursday that a down-town bank had loaned \$600,000 for nine months at 3 per cent, but the character of the collateral was not stated. Banks and brokers report a dearth of commercial paper, but at the same time the demand is good, and if a supply could be obtained a large business would be done. Quotations are  $3\frac{1}{2}$ @ $3\frac{1}{4}$  per cent for sixty to ninety day endorsed bills receivable;  $3\frac{1}{2}$ @ $4\frac{1}{4}$  per cent for first class, and  $4\frac{1}{2}$ @5 per cent for good four to six months' single names.

It is stated as the week closes that a suspension of hostilities having been agreed upon, peace negotiations will be conducted between Turkey and Greece direct, and that the terms will be submitted to a European conference. An armistice between the opposing forces in Thessaly, to extend over a period of seventeen days, was formally concluded on Thursday. The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety day bank bills in London  $\frac{1}{4}$  of 1 per cent, against  $1@1\frac{1}{2}$  per cent on Monday, when the news was received of the impossible demands of the Porte. The open market rate at Paris is  $1\frac{1}{2}$  per cent, at Berlin it is  $2\frac{3}{8}$  per cent, and at Frankfort  $2\frac{1}{2}$  per cent. According to our special cable from London, the Bank of England gained £458,240 bullion during the week and held £36,678,824 at the close of the week. Our correspondent further advises us that the gain was due to £226,000 net receipts from the interior of Great Britain and to £232,000 imported, of which £210,000 were from the Cape, £17,000 from China and £5,000 from Australia.

The foreign exchange market has been dull and generally steady this week, with nominal rates entirely unchanged and no alteration in those for actual business since Monday, when there was a reduction of one-quarter of a cent in long sterling. The offerings of bills against exports of silver and also against shipments of provisions seem to have kept the market fairly well supplied during the week, and it is reported that the demand for remittance for imported goods has not been large, most of these goods not having been sold, and there has been a less urgent inquiry to remit for sugar this week. Yesterday Lazard Freres engaged \$1,200,000 in bars for shipment to-day. We learn that there is a possibility of the shipment of \$1,000,000 next week, but if the gold should go it will not be taken from the Treasury or from the banks, but from metal now on deposit with the shipper. The range for posted rates for exchange has remained at 4 87 for sixty days and 4 88 to 4 88 $\frac{1}{2}$  for

sight. On Monday rates for actual business in long sterling were reduced one-quarter of a cent, compared with those at the close on Friday of last week, to 4 86 @ 4 86½, while rates for short sterling remained unchanged at 4 87½ @ 4 87½, and for cable transfers at 4 87½ @ 4 87½. There was no further change in rates during the week and the tone of the market was steady. The following shows the daily posted rates for exchange by some of the leading drawers.

DAILY POSTED RATES FOR FOREIGN EXCHANGE.

		FRI. May 16.	MON. May 17.	TUES. May 18.	WED. May 19.	THUR. May 20.	FRI. May 21.

Merchants' Bk.	60 days	87	87	87	87	87	87
	Night	86½	86½	86½	86½	86½	86½

The market closed dull and steady on Friday with the posted rates at 4 87 for sixty day and 4 88 @ 4 88½ for sight. Rates for actual business were 4 86 @ 4 86½ for long, 4 87½ @ 4 87½ for short and 4 87½ @ 4 87½ for cable transfers. Prime commercial bills were 4 85½ @ 4 85½ and documentary 4 85 @ 4 85½, the latter an advance from 4 84½ @ 4 85½. The Bureau of Statistics at Washington has this week issued the statement of the country's foreign trade for April, and we give the figures below in our usual form.

FOREIGN TRADE MOVEMENT OF THE UNITED STATES.

In the following tables three figures (000) are in all cases omitted

	1896-7.			1895-6.		
	Exports.	Imports.	Excess.	Exports.	Imports.	Excess.
<b>Merch'dise.</b>

1891-92	686,443	600,580	+85,863	68,443	29,211	+39,232	47,601	16,735	+30,866

\* Excess of imports

In the last table gold and silver in ore for 1893-94, 1894-95, 1895-96 and 1896-97 are given under the heads respectively of gold and silver; for the other years both are included in the merchandise figures.

The following statement gives the week's movements of money to and from the interior by the New York banks.

Week Ending May 21, 1897.	Received by N. Y. Banks.	Shipped by N. Y. Banks.	Net Interior Movement.
Currency.....	\$4,533,000	\$1,805,000	Gain, \$2,728,000
Gold.....	372,000	211,000	Gain, 161,000
<b>Total gold and legal tenders.....</b>	<b>\$4,905,000</b>	<b>\$2,016,000</b>	<b>Gain, \$2,889,000</b>

With the Sub-Treasury operations and gold exports the result is as follows.

Week Ending May 21, 1897.	Into Banks.	Out of Banks.	Net Change in Bank Holdings.
Banks' interior movement, as above	\$4,905,000	\$2,016,000	Gain, \$2,889,000
Sub-Treas. operat'ns and gold expts.	17,200,000	19,900,000	Loss, 2,700,000
<b>Total gold and legal tenders.....</b>	<b>\$22,105,000</b>	<b>\$21,916,000</b>	<b>Gain, \$189,000</b>

Amount of bullion in principal European banks.

Bank of	May 20, 1897.			May 21, 1896.

### SIGNIFICANT FEATURES OF THE FOREIGN TRADE FIGURES.

We wrote last week regarding the foreign trade situation before the April returns had been published. The April figures were not made public by the Bureau of Statistics until noon of Saturday. In the conclusion we drew a week ago we correctly indicated their character. The imports prove not only to have been very large, but the largest (\$101,305,000) ever recorded. They compare with \$58,650,000 in April 1896 and with an average of \$55,429,700 for the previous nine months of the current fiscal year. Though they are certain to be less in May, they are still running considerably in excess of the foregoing average, and fully justify just such gold exports as are in progress.

We have prepared from the records we keep of the monthly trade movement the following comparative statement, which will be found interesting and also further helpful in a study of the gold efflux. It covers the first four months (January to April inclusive) of each of the last six calendar years, and is simply the net result for those months—that is the excess of exports over imports, or the opposite, of merchandise, gold and silver, with a final column showing the net balance of the entire trade.

FOUR MONTHS ENDING APRIL 30.

	Net Merchandise.	Net Gold.	Net Silver.	Net Trade Bal.
1892.....	Exp. \$53,546,235	Exp. \$13,635,002	Exp. \$5,002,815	Exp. \$72,184,152
1893.....	Imp. 57,552,160	Exp. 45,051,591	Exp. 6,255,658	Imp. 2,246,011
1894.....	Exp. 55,567,443	Exp. 13,195,667	Exp. 11,432,948	Exp. 80,795,058
1895.....	Exp. 37,700,851	Exp. 14,040,781	Exp. 9,754,131	Exp. 26,925,060
1896.....	Exp. 55,000,905	Imp. 7,285,792	Exp. 10,368,006	Exp. 58,189,779
18 7.....	Exp. 60,507,119	Exp. 4,006,231	Exp. 9,462,954	Exp. 63,064,634

Taking for examination the six years together, marked similarities between the years are noticeable. For instance, with the exception of 1893, when the trade situation for the four months was against the United States, and 1895, when the favorable balance was very small,—with those two exceptions the net merchandise balance each year has shown very nearly the same excess of merchandise exports. A second fact is that, notwithstanding this favorable merchandise balance, gold exports during those months are a feature every one of those years other than in 1896, and even

in 1896 there was a net gold export in April; in connection with this gold movement it should also be stated that net gold exports continued to be a feature in each of those years during the succeeding months of May and June, except in 1895, when the movement was abnormal, made so through the Government bond sale. Still another important fact is the increase in silver exports since the repeal of the purchase clause of the 1890 silver law. These exports amounted to 6½ million dollars in 1893, before the repeal of the law, and to 11½ millions in 1894, after the repeal. Since then they have been very nearly the same in amount each year.

Putting these facts together we have in the last column the net trade balance, including merchandise, gold and silver. Of course to get at the real situation to-day we should be in possession of the trade returns for the month of May now drawing to a close, as they go far to make up the conditions influencing the current exchange market. One other unknown quantity is the outstanding account for imports; in other words, it is a question of importance how far the later merchandise imports have been paid for. As the goods have not been sold the presumption is that the accounts as a rule have not been liquidated and that this is the case to a much greater extent than usual. In our Financial Situation we give our usual summary of the April returns, with previous months, and last year's figures for comparison.

### CORPORATION FINANCE.

Mr. Thomas L. Greene has written and the Putnam's have published a book on "Corporation Finance." We know of no subject that possesses a wider interest. Corporations are a development of modern mercantile and financial conditions. They are at once a necessity and an evolution of civilization. Hence an understanding both of the theory and the practice of corporation finance is within the need and requirement of every student and business man. The railroads of course constitute the largest branch of corporate undertakings, and a great many of the author's illustrations are drawn from this field. Entirely outside the railroad industry, however, corporate affairs are constantly assuming larger dimensions. The growth of the so-called "industrial" enterprises in recent years furnishes the best evidence of this. Many businesses have in this way been converted from private concerns into stock companies, and thus taken the corporate form. The motive in these cases has not always been a desire to secure gain, or to "unload" on the public. In not a few instances the change has been made with the view to overcoming the limitations imposed by the life of an individual, the owner or founder wishing to provide for the continuation of the business after his death.

Mr. Greene had special qualifications for the task assumed in writing such a book. He is well versed in the theory underlying his subject, and has done considerable writing on financial and cognate subjects for the newspapers. At the same time he has had practical experience in corporate work, a fact which his present position as auditor of the Manhattan Trust Company sufficiently attests. This combination of practical and theoretical knowledge has enabled him to prepare an instructive book, useful alike to the student at college and the every-day man of affairs. He writes, too in a careful, discriminating way, is

conservative in expression and views, and does not aim at effects, but presents his statements and arguments in a plain, straightforward way. We imagine few competent critics will take issue with him on any material points in his discussions.

In treating of the subject of bonds and stocks in his opening chapter and the amount of indebtedness that may with advantage be put on a property, he lays down a rule of action which will be commended by everyone. He says that only so much money should be borrowed as can be obtained on favorable terms. He argues that when it is stated, as sometimes happens to be the case, that a particular business cannot bear the high rates of interest which it is directly or indirectly paying, one may rightly assume, in the absence of some other oppressing cause, that the reason for the present distress goes back to the time when the promoters of the enterprise (or the organizers of the newly incorporated company formed to take over an old business) were unwilling to accept the estimate of experienced money lenders upon the success of the company. Either by advancing their own money or by inducing others to become partners in the enterprise they ought to have obtained share capital enough so as to have started the enterprise conservatively.

This idea and thought is also embodied in the subsequent chapters, especially in discussing the merits and desirability of railroad bonds as investments. After noting certain points of dissimilarity between real estate mortgages and railroad bonds, he points out that since railways fill so large a part in our modern industrial life, and since we may safely say that there must be carriers of traffic so long as civilization endures, it is apparent that that traffic can be made the security for the borrowing of money as safely and legitimately as can a dwelling house—provided always that those rules of financiering are observed which require that only the minimum value of the property be represented by such funded debts. The investor, therefore, need not fear to put his money into railway bonds or debentures because of the commercial conditions under which railways are operated; but those commercial conditions require that he should, if he seek safety for his investment, consider the bearing of these facts upon the particular road in which he is interested. If the earning capacity of that company becomes for any reason impaired, the strong legal language of the mortgage will not save the holder of the company's bonds from loss. In the end he must accept as a basis for re-valuation of his securities the earning power of the company as a carrier of traffic.

The author does not see much merit in railway sinking funds. He contends that when railway companies are in good credit, or when the mortgage containing sinking-fund clauses covers property conceded to be worth more than the bonds, the establishment of such funds is a financial mistake. If the bonds are to be compulsorily retired, so many each year by lot at say 110 per cent of their par value, the fact immediately decreases their value as investments. No investor likes to buy bonds which, however good or whatever the premium he may have paid for them, he may have to give up a short time after purchasing. If a bond is really good, the longer the time it has to run the better the bond buyers like it. Another practical objection is that no one wishes to be on the lookout for advertisements which he may or may not chance to see, but which are legal notices, binding on the bondholder, that interest on the bonds named by their

numbers ceases on a certain date. On the other hand, the companies would rightly object to a sinking fund system which should require them to contribute certain sums yearly to be used in buying that particular issue of bonds in the open market. Such a provision would soon create an artificial scarcity in those bonds, so that the price quotations would be above the normal. To purchase at a high premium bonds which at maturity the company could pay at par would be poor financiering and a use of the current revenues of the company to which the shareholders could properly object.

The distinction between railway sinking funds and Government sinking funds is brought out in an interesting way. In national finance, it is understood and recognized that sinking funds for the payment of Government bonds can be established only from Government revenues—in short from taxes. Hence if the opinion be that the Government should not remain always in debt, but arrange to pay off its borrowings by degrees, the funds must be supplied from taxes. The Government is not in business and has no business revenues. But corporations, which must continue to earn money through their services to the public, occupy a different place. The rules covering public debt financiering do not now apply. Rather do we see the opposite, where borrowing is not only a necessity, but often the only road to success. The revenues of such corporations do not come from taxes, but from moneys given to them in return for services rendered in a business way to those concerned. Such services must in some form be continuous and the benefits paid for continuously on a business basis. Moreover, through competition or in other ways, the profits of such companies tend towards smaller margins, these being usually only enough to pay a fair return to the capital invested. Since the only way to pay off debts is from revenue, it follows that the retirement of bonds at maturity by cash payments (except of course through the sale of other bonds) could be effected only by increasing the revenues through advancement of the prices charged to passengers and shippers, or by the shareholders (or perhaps the bondholders themselves) foregoing their returns for years. As a practical matter, either way is inadvisable or impossible.

In the chapter on Corporation Accounting there is an interesting discussion on the subject of what outlays may properly be charged to capital account and what should be considered a part of the ordinary working expenses. Reference is made to the fact that in Great Britain the practice is to charge to capital every item, small and large, which can by any possibility be construed to be a betterment, and to the further fact that no harm has come to the British railways from this policy, because the fluctuations in the volume of their traffic have been comparatively slight. In the United States, however, a like policy would not be practicable or advantageous. From the very nature of the case business of all kinds in a developing country must be more subject to changes in profitability than in older countries. The very character of the American people, energetic and progressive, makes business all the more liable to such fluctuations. Bad years follow good years in every line of American industry, although differences are less violent in those trades which are the longest established and among those companies which have been in operation long enough to render their business comparatively stable. The principle, therefore, of charging all so-called betterments to capital and meet-

ing the cost from the sale of bonds or shares requires modification according to the circumstances of each particular company. The more fluctuating the volume of business has been or is liable to be, the more important is it that in one form or another a part of the profits in prosperous years should be withheld from the shareholders and put into the property or set aside for its renewal.

Mr. Greene suggests as a working principle, to distinguish the one class of outlays from the other, that no additions either to the real estate or to the machinery (if a manufacturing company) or to the roadbed and track (if a railway company) should be considered betterments and charged to capital, unless they increase the productivity or earning capacity of the plant. Under this rule Mr. Greene would regard the purchase of additional equipment for a railway as an expenditure which could conservatively be met by the issue of bonds or equipment notes, because such purchases would enable a larger volume of traffic to be handled; on the other hand the replacement of a wooden bridge by an iron one would not according to this definition be a proper charge to capital, unless it was one of a series of expenditures deliberately resolved upon in order that heavier trains could be run and a larger volume of traffic handled, thus increasing the revenues of the company—an increase which the theory demands be clearly seen to be possible after the various amounts of capital set aside for the purpose had been spent.

The same rule, Mr. Greene thinks, might be applied to corporations other than railways, the safe course being to charge against revenues (possibly through the profit and loss account) the cost of all additions to the property which do not increase the output or decrease the cost of production. Yet he is careful to say that any rule or any principle in so delicate a matter can properly be applied in each case only after a study of all the circumstances, including the business of past years and the prospect for the future.

There are other parts of the book to which we should like to refer, but lack of space forbids.

#### **TURKEY AND THE EUROPEAN CONCERT.**

Events which have followed the overthrow of the Greek armies in Thessaly put a new and startling aspect on the problem of Southeastern Europe. It will be remembered by all who have followed the incidents of this Greco-Turkish war that Europe was confident, up to the very day when Greece finally sued for peace, that the Turkish Government was a docile instrument in their hands. Stock markets at the European capitals advanced on the Greek defeat at Turnavos and on the Turkish capture of Larissa, not because even the financiers were in sympathy with Turkey's purposes, but because it was assumed that with Greece crippled the will of the Powers was supreme; that Turkey could be checked in its advance, that Europe would dictate all the terms of settlement, which the Ottoman authorities would speedily accept; and that, with this accomplished, the *status quo* would be restored and peace assured.

Trusting to such assurances, the defeated Greeks bowed to the will of the European diplomatists and placed Greece's fortunes in their hands. They even withdrew their troops from Crete—the original ground of controversy between the Athens Government and the Powers. With the case of Greece thus formally confided to them, the diplomats laid their purposes before the Sultan. They were received with almost insulting

coolness. The Sultan waived the entire question until a more convenient season, some days later; the Turkish armies, ignoring the express wish of the Powers for an armistice, moved steadily forward, taking one after another the remaining Greek defenses. Finally, at the opening of this week, the Turkish ultimatum was submitted. It gave up, to be sure, the original demand for surrender of the Greek navy, a measure to which all the Powers had shown the most positive objection. But it proposed a cash indemnity reaching to more than \$40,000,000—a sum sufficient to ensure the absolute destruction of the Greek finances; and it furthermore stipulated that the whole of Thessaly should be annexed to Turkey.

To understand the meaning of these stipulations and of the circumstances under which the demands were made, it is necessary to review the history of Southeastern Europe during the last half-century. As long ago as 1853, the Russian Emperor Nicholas, drawing aside at a private company Sir Hamilton Seymour, British Minister at St. Petersburg, used these remarkable words: "We have on our hands a sick man—a very sick man; it will be a great misfortune if one of these days he should slip away from us before the necessary arrangements have been made." This cynical remark did in fact reflect the seeming disintegration of the Turkish Empire. Not even the Crimean War of 1855 materially altered such a movement. The Peace of Paris with which that war was settled in 1856 did indeed provide in terms for the "integrity of Turkish territory", and for the admission of Turkey into the privileges and immunities of European States. But hardly was that treaty signed, and Turkey left to stand or fall on its own merits, when the work of moral and territorial disintegration began again. In 1857 Moldavia and Wallachia were detached from the empire; in 1872 Egypt was virtually lost; in 1879 Bulgaria achieved its independence; Bosnia, Herzegovina and Montenegro had already cut loose from Ottoman domination, and Thessaly was assigned to Greece. Against these territorial losses the Turkish Government protested impotently; its protests were treated either with indifference or disdain. The guaranteed integrity of the Turkish empire, as Mr. Gladstone pointed out two months ago, had been during forty years a "mere fiction of diplomacy." Unsupported by the European Powers, which had stood behind it in the peace of 1856, the Sultan and his Ministers confined their appeals to Europe to a servile plea for protection, sought with such inducements as should tempt the cupidity of governments.

The mere fact, therefore, of the position now assumed by Turkey amounts to something like a threatened revolution in European diplomacy. The change in attitude is still more striking when the incidents of November 1895 are called to mind. The humble pleading of the Sultan's letter to Lord Salisbury, read by the Premier at the Lord Mayor's dinner, was apparently the utterance of a decrepit ruler at the end of his resources. "I will execute the reforms. I will take the paper containing them, place it before me, and see that every article is put in force. I beg and desire his Lordship, having confidence in these declarations, to make another speech. I shall await the result of this message with the greatest anxiety." The reader of these cringing apologies and fawning promises has to rub his eyes before he can believe the writer of the note of 1895 to be the same potentate who this month yawns over the suggestions of the Powers,

defers his answer until the Feast of Bairam has been ended, and at length, snapping his fingers at the Concert, coolly demands that the Powers make a start in turning over again to Turkey the provinces formally removed since 1856.

Several theories are advanced to explain this sudden arrogance. One, and the least ominous, is the familiar explanation that a "war party", inspired by Edhem Pasha's successes in the field, has obtained control of policies in Yildiz Kiosk. In such a situation there would be little formidable; the united intervention of the Powers would quickly change the face of things at Constantinople. A far more serious inference advanced is the suspicion that with Turkey's army a demonstrated power, the Ottoman Empire is no longer, as a political organization, an object of international contempt. A nation which can fight and win, which can conduct scientifically and successfully an organized campaign, is a factor which the military powers must take in reckoning. Therefore the gravest question of the hour is, whether the insolence of Turkey has its origin in a secret understanding with some first-rate government.

What this would mean to Europe it is not difficult to guess. It would involve, first, the reopening of the "Eastern Question" in a shape which it has not assumed since the early decades of the century. It would necessitate radical reconstruction of Great Britain's Eastern policy. It is not inconceivable that instinctive suspicion of this very outcome was a motive in the recent Liberal revolt against the Ministry's existing programme. Last, and by no means least, a conceivable combination of the sort would presumably involve division of the European Powers into Eastern and Western alliances, tacit or expressed. For Turkey's friends thus far in the pending struggle seem to have been Russia and Germany. Russia is known to have checkmated diplomatic moves in favor of the Greeks; Germany has supplied the very field officers of the Turkish army. Let it be remembered that it was Italy, France and England which fought by Turkey's side in the Crimean war of 1855 and that it was English officers who in that year commanded the Turkish regiments along the Danube, and the startling possibilities even of what has been already manifest this year may be discovered.

We notice this as an interesting possibility. It is as yet no more, and in many ways an actual and permanent combination of the kind is in a high degree improbable. For one thing, Turkey's financial dependence on Great Britain is still complete; its material interests are, moreover, opposed to those of Russia and Austria, if not to those of Germany. The Turks are shrewd enough diplomatists to mistrust the permanent good offices of at least that Power whose objective point is Constantinople. Yet it is true that even before the Russian Government, in the middle of the present week, forced Turkey into observance of an armistice, the shrewder critics of the European press had begun to talk of Turkey as Russia's vassal; and even if that influence is used to-day to balk the wishes of the Sultan's aggressive counsellors, it might be used next time to suit even more immediately the purposes of Russia.

All this is the exceedingly interesting problem of the future. Its actual outcome will be doubtful for some considerable time to come, even if the Powers act in the present case harmoniously and successfully. But the truth is, that the action of the so-called "Eu-

European concert" since the first disturbances in Crete has been such as to subject the league of Powers to a pretty heavy strain. Greece was doubtless rash in entering upon this war. In view of what events at the front in Thessaly have shown regarding the organization of the country's army, the declarations of Delyannis, a month ago, sound not wholly unlike the declarations of the unlucky Ollivier to the Paris Deputies in 1870. But for all this, history will not fail to notice that, but for the blockade of Crete by the European Powers, the island might have become a base of active operations against Turkey; but for the restraining influence of the Powers, the Balkan provinces might easily, in the critical second week of April, have risen against the Ottoman domination. Rightly or wrongly, the Powers first crippled Greece herself and then tied the hands of her possible allies, leaving the little kingdom with all the odds against it. There has been very obvious chafing against this policy among the people of Italy, France and England. Skilful handling of the case by the Ministries in control, coupled with the fear of general European war, has served to keep this opposition in a minority. But even this minority must be reckoned with later on, and its attitude will be largely governed by the issue of the pending controversy.

One thing may be predicted with assurance, Turkey will not, by any possibility, retain a position of genuine prestige in the family of nations. Notwithstanding its recent achievements in the field—which after all only repeat achievements of the past—the Ottoman Empire carries within itself the seeds of dissolution. In the face of England's policy of support during more than half a century, the Sultan's European dominions have continuously crumbled, simply because he proved himself incapable of governing them. This incapacity was never more obvious than it is to-day, nor was the savage character of Turkish rule ever more clearly demonstrated than it has been within the past twelve months. It is possible that Turkey may for a time be used in its new position on the chess-board of European diplomacy. But the Power which should invoke the active aid and alliance of Turkey in an international dispute would be confronted by the same denunciation on the part of civilized Europe as Louis XIV. and Napoleon Bonaparte encountered when they undertook or contemplated the same experiment. Nor does history suggest that such a possible alliance would result even in any selfish benefit.

#### **CAN AN INTER-STATE RAILROAD BE FORECLOSED BY PROCEEDINGS IN ONE STATE.**

We reported very briefly last week in our railroad columns the decision of the Supreme Court of Illinois in the suit brought by Elijah R. Craft for leave to redeem from the old Indianapolis Decatur & Western mortgage the Illinois end of that property. As stated by us, the decision was adverse to the plaintiff, the Court affirming the foreclosure decree. Some of the points raised in this action involved minor matters, having a bearing only on the particular case under review, and may therefore be passed over. The main question at issue, however, and upon which the determination of the suit chiefly hinged, concerns a matter of considerable general interest and importance, and deserves more extended notice than we were able to give it in our brief news item of last week.

The property of the Indianapolis Decatur & Springfield (now the Indiana Decatur & Western) lies in two

States, namely Illinois and Indiana. It was foreclosed under a mortgage covering the entire line on a decree issued by the Superior Court of Marion County, Indiana, but without ancillary proceedings in the Illinois courts. The question was whether in view of the general rule that foreclosures and other suits affecting land must be brought in the courts of the State where the land lies, the successor company could claim title to the Illinois portion of the road through the conveyance made by the purchaser at the foreclosure sale under the order of the Indiana court. In other words, can an inter-State road mortgaged as an entirety be foreclosed in a single State court without the institution of ancillary proceedings in the courts of the other States through which it extends. A brief review of the events leading up to the present decision will be interesting, and at the same time tend to a clear understanding of the facts of the case.

On December 31, 1875, the Indianapolis Decatur & Springfield Railway Company executed a first mortgage to secure payment of bonds to the amount of \$1,800,000 on its 152 miles of road from Decatur, Ill., to Indianapolis, Ind. In 1887 the property passed to the Indianapolis Decatur & Western Railway Company, subject to this mortgage, and on January 2, 1888 the latter company executed three mortgages covering the same property, to secure three series of income bonds. On the 10th of May 1894 the property was sold in the city of New York under foreclosure of the first mortgage, and purchased by George Sherman. Sherman subsequently conveyed the Illinois end of the line to the Decatur & Eastern Railway Company and the Indiana end to the Indiana Decatur & Western Railway Company. Elijah R. Craft, as a holder of bonds secured by the income mortgages, filed a bill in the Circuit Court of Edgar County, Illinois, alleging that the sale of the Illinois end of the road under the first mortgage was illegal and void; and asking the Court to decree that the Decatur & Eastern took no title thereto by its deed from Sherman. He prayed for a foreclosure under the income mortgages and that he be allowed to redeem from the first mortgage after an accounting. While the litigation was pending the Decatur & Eastern and the Indiana Decatur & Western were consolidated under the name of the latter. The consolidated company adopted the answers filed by the individual companies and also filed a cross bill claiming absolute title to the property by virtue of the sale under the first mortgage and praying that Craft be perpetually enjoined from interfering with it. The Circuit Court granted the prayer of the cross bill and dismissed the original bill for want of equity.

The plaintiff raised numerous objections such as that the mortgage of 1875 was not valid, that the trustees were not legally appointed, &c., all of which objections the Court failed to sustain; but, as stated above, we shall confine ourselves entirely to the contention that the Superior Court of Marion County, Indiana, was without jurisdiction as to the mortgaged property in Illinois. It was not claimed that the sale of the property in New York City was not in strict conformity with the requirements of the mortgage, but it was insisted that the sale was not a compliance with the Illinois statute requiring that "in all sales of real estate under mortgage \* \* thirty days' previous notice of such sale shall be given, whether so specified in the power of sale or not \* \* and no

sale shall be made except in the county in which the premises are situated."

Judge Wilkin, speaking for the seven justices of the Illinois Court, says that manifestly this provision in the Illinois statute was not intended to apply to the sale of a railroad with its equipments, franchises, &c. The location of such property is rarely confined to a single county. It is not strictly speaking "real estate", or called "premises", as those terms are used in the statute. He refers to the decision of the Court in *P. & S. Rd. Co. vs. Thompson*, 102 Ill., 187, where it was said that "while a railroad franchise when considered by itself will be treated as personal property, and the road itself, when so viewed, will be treated as realty, yet when considered as an entirety, as they must be when so mortgaged and sold, they are, strictly speaking, neither one nor the other within the meaning of the law pertaining to redemptions." To apply the statute to railroad property like this, argues Judge Wilkin, it would be necessary to give notice and sell in every county through which the line of road extended, which would be wholly impracticable.

The Court points out that the general equity jurisdiction of the Indiana Court was not questioned, nor was the regularity of its proceedings in any way criticized. On the contrary it was expressly admitted that "in so far as those judicial proceedings relate to the railroad in Indiana there can be no question as to the completeness of the jurisdiction over the subject matter, and that the decree, sale and master's conveyance divested the title of the Indianapolis Decatur & Western Railway Company and extinguished the mortgage liens created by that company in 1888 (income mortgages) on all its property in Indiana." The question for determination, therefore, was whether the decree of the Indiana Court had a like effect on the mortgage lien in Illinois. In the opinion of the Court, the authorities clearly sustain the view that it did. The leading case, says Judge Wilkin, is that of *Miller vs. Dows*, 94 U. S., 444. That action arose in the Circuit Court of the United States for the district of Iowa by bill to foreclose a mortgage on the Chicago & Southwestern Railway Company, a part of which was in Missouri. The Court decreed a sale of the entire property covered by the mortgage, and directed the master, who was ordered to make the sale, to execute a good and sufficient deed or deeds to the purchaser.

The Court in that case, in outlining its views, said: "If such a foreclosure and sale cannot be made of a railroad which crosses a State line and is within two States, when the entire line is subject to one mortgage, it is certainly to be regretted, and to hold that it cannot be would be disastrous, not only to the companies that own the road, but to the holders of bonds secured by the mortgage. Multitudes of bridges span navigable streams in the United States—streams that are boundaries of two States. These bridges are often mortgaged. Can it be that they cannot be sold as entireties by the decree of a Court which has jurisdiction of the mortgagors? A vast number of railroads, partly in one State and partly in an adjoining State, forming continuous lines, have been constructed by consolidated companies and mortgaged as entireties. \* \* In many cases these investments are sufficiently insecure at the best. But if the railroad, under legal process, can be sold only in fragments; if, as in this case, where the mortgage is upon the whole line, and includes the franchises of the corporation which made the mortgage, the decree of fore-

closure and sale can reach only the part of the road which is within the State—it is plain that the property must be comparatively worthless at the sale. A part of the railroad may be of little value when its ownership is severed from the ownership of another part, and the franchise of the company is not capable of division. In view of this, before we can set aside the decree which was made, it ought to be made clearly to appear beyond the power of the Court. Without reference to the English Chancery decisions, where this objection to the decree would be quite untenable, we think the power of courts of chancery in this country is sufficient to authorize such a decree as was here made. It is here undoubtedly a recognized doctrine that a court of equity, sitting in a State, and having jurisdiction of the person, may decree a conveyance by him of land in another State, and may enforce the decree by process against the defendant. True, it cannot send its process into that other State, nor can it deliver possession of land in another jurisdiction, but it can command and enforce a transfer of the title. And there seems to be no reason why it cannot in a proper case effect the transfer by the agency of the trustees when they are complainants."

After quoting these views, Judge Wilkin says that the law of this case has since been frequently recognized and followed by the Circuit Courts. The decisions of the courts of Pennsylvania, New York, Connecticut, Indiana and other States are to the same effect. The doctrine is reasonable and just to all parties interested in such mortgages. In fact the Court is unable to see how the benefit of the security in such cases could otherwise be given to the holders of the indebtedness. That it could ever operate injuriously to the rights of the mortgagors cannot be conceived. Hence the conclusion is reached that the decree of the Superior Court of Marion County, Indiana, had the same effect upon the mortgaged property west of the State line that it had upon that east of it.

### RAILROAD GROSS AND NET EARNINGS FOR MARCH AND THE QUARTER.

Our statement of the gross and net earnings of United States railroads for March meets expectations in being an improvement on that for the months immediately preceding and in showing moderate gains in both gross and net. Economy in expenditures is again a feature of the returns, and hence the result as to the net is better than that as to the gross. In the gross the increase over last year is only \$947,400, or 1.60 per cent, in the net it is \$1,614,562, or 9.79 per cent. Here are the figures for the month and quarter.

	March. (135 roads.)			January 1 to March 31 (179 roads.)		
	1897.	1896.	Inc. or Dec.	1897.	1896.	Inc or Dec
Gross earn's	\$ 80,244,942	\$ 59,297,542	+ 947,400	\$ 202,564,596	\$ 206,499,920	- 3,335,324
Per. exp...	41,418,561	42,065,723	- 667,162	143,478,803	149,065,950	- 5,587,147
Net earn's	18,826,381	17,211,819	+ 1,614,562	59,085,793	57,433,970	+ 1,651,823

It is true that March the present year had one more business day than the same month last year (having contained only four Sundays, against five Sundays in 1896), but on the other hand bad weather and serious overflows in the valley of the Mississippi and in various other parts of the country greatly obstructed railroad operations and at the same time retarded the course of trade, besides in some instances interfering with the movement of staples to markets. In addition there

turns. The final results, however, are not so good as in the other case. In the gross there is a loss of \$3,935,324, or 1.90 per cent; in the net there is an increase, but it amounts to only \$1,651,823, or 2.88 per cent. Moreover out of ten groups no less than seven fall behind in the gross and three fall behind in the net. The contrast between these results and those for the month serves to give prominence to the fact that the course of earnings at the end of the quarter was much more satisfactory than at the beginning. Below we show the gains and losses in excess of \$100,000.

### RAIFFEISEN MUTUAL RURAL SAVINGS BANKS.

To the Editor of the Chronicle:

SIR—A most interesting article in your last issue entitled "A Plan for Improving Borrowing Facilities" shows clearly a condition of financial affairs among the poorer and the thinly-settled portions of the country that cries aloud for remedy. It is true that our national banking system is applicable solely to the merchant, the manufacturer and the speculator, and discriminates against the farmer; that this discrimination, which is necessitated by the very nature of the banking system, results in wild financial theories among the agricultural and laboring classes that are liable at any time to prove destructive to the prosperity of all classes. The article also indicates but does not state clearly a condition that is known to exist to those who have been intimately associated with the classes in question, and that is this: That in every county of the United States there is cash money enough hoarded to supply with proper banking facilities every legitimate demand of that county for money. Of the remedy proposed by Mr. Dos Passos it is unnecessary to criticise directly, further than to say that it would probably prove advantageous after the long time required to win its way to confidence, and after it had adjusted its relations with the present banking conditions.

There would seem, however, to be another system which would be likely to prove a natural and harmonious extension of our present national savings banks and building and loan associations, and would fulfill the ideal condition of helping others by teaching them to help themselves. I refer to the Raiffeisen mutual rural savings banks so successfully worked by German and Italian peasants. These banks are unlimited liability associations of the farmers of each locality. Like the stockless savings banks of New England, the

profits beyond a reasonable fixed per cent pass entirely into the surplus and can not be distributed among the stockholders. Their progress and success in Germany reads like a fairy tale, and your valuable paper could confer no greater benefit on the community than by giving a clear history and analysis of these banks and their methods, for as far as I know there is no accurate description of them available in English. It would seem a very easy thing for the Government to distribute the necessary information on these banks in all districts; to provide that every fourth-class postmaster should, if required, serve as the clerk and custodian for such a bank in his district without cost; that the surplus funds of all organizations which passed out of existence should be held in the Treasury until a new organization should be formed. The results of such an organization may be stated in a few words. Every county would have money enough for its general business. In case of unusual need they would afford safe investment for the surplus funds of our present national and savings banks at low rates of interest. They would make half the farmers of the country into practical bankers and forever do away with wild financial ideas.

The only apparent drawback to this system (in which it is claimed that no depositor has ever lost a dollar) is that it seems to eliminate entirely the element of greed; and the great obstacle to its introduction into this country is the fact that there is no chance for a speculator to make his wad out of it.

Yours,

Yours,

SCRANTON, PA.

C. E. CHITTENDEN.

### Monetary & Commercial English News

LONDON, SATURDAY, May 8, 1897.

[From our own correspondent.]

What passed between the Emperor Francis Joseph and the Czar during the visit of the former to St. Petersburg is not yet known, but it is generally believed that the two Emperors have come to a decision to exert all their influence to keep the Balkan States quiet, and to prevent any alteration in the Greek territories. At all events, it appears certain that the Vienna Government is quite satisfied with the result of the visit. There is a rumor that Russia has already come round to the views of this country, France and Italy. The general belief is that the Powers are fully agreed that Greece is not to lose any territory and that Crete is to receive full home rule.

The new High Commissioner for South Africa has just arrived in Cape Town and has been received very cordially. Much is hoped from his tact, judgment and great ability, but he has an exceedingly difficult business to manage. Feeling is growing higher every day between the British and the Boers in every part of South Africa. The Boers are arming rapidly and are strongly adverse to any concession. President Krüger is believed to be sincerely anxious to avoid a quarrel, but his term of office is near expiration, and next year he will stand for re-election. It is extremely difficult for him, therefore, to seem to yield, and if he does not the Uitlanders may become desperate. The Imperial garrison in South Africa is being reinforced, and on the Continent opinion is gradually turning against President Krüger. The more influential part of the French press is urging concessions and pointing out that if they are not made British interference will be justified, in Continental opinion. Even in Germany, where the press, almost without exception, has been egging on the Boers, some very influential papers are warning the public that owing to her weakness at sea Germany can do nothing in South Africa, and that therefore the present attitude of the jingo press is leading the Boers to their own destruction. Here, at home, almost all reasonable men are opposed to intervention, but they feel at the same time that the decision really lies with the South Africans.

At the opening of the Volksraad this week President Krüger made a very peaceful speech and expressed much hope that a conflict would be avoided. Since then the Immigration Act has been repealed, which seems to show that the period of reform and concession has really begun, for the Immigration Act was most offensive to the Uitlanders.

Under these circumstances markets are maintaining a waiting attitude. Opinion is as strong as ever in the city that war will be avoided both in Europe and in South Af-

rica. Yet everyone recognizes that an accident may occur, and everybody, therefore, is afraid to engage in new risks.

As regards the American market, the failure of the Senate to ratify the Arbitration Treaty has not made much impression, for everybody had long ago been prepared for the result. It is regretted that the Treaty was not ratified, but it is felt, at the same time, that the two great English speaking peoples, with or without a treaty, will be always able to settle their disputes in an amicable way.

The action of the Senate Committee in regard to the tariff is looked upon as more important from a business point of view. As yet we have not information enough to enable us to judge what the result of that action is, except that it has very materially changed the bill as passed by the House of Representatives. The main point here is, however, that the discussion will be prolonged, and therefore will put off for a considerable time yet the hope of recovery in American trade.

In Central and South American securities there has not been very much doing this week except that on one or two days there was a sharp advance in Uruguayan bonds, caused by a report that an arrangement had been made between the two contending parties. Since then, however, another report has come, to the effect that the Government troops have been very seriously defeated. International securities are fairly well maintained, and so are British stocks of all kinds, especially there has been a fair amount of business in British railway stocks.

The gold shipments from New York have not had much influence upon things here, as they have been expected for some time, and it is not thought that in the early future, at all events, they will reach a very great total. They have rather, therefore, been welcomed. For some months there has been an exceedingly strong demand in London for gold for Japan, Austria-Hungary and Russia, while small sums have now and then gone to Paris and Berlin. The Japanese demand of course is for the reform of the currency and will continue, because the Chinese indemnity enables Japan to take a large amount whenever it pleases. The Austro-Hungarian demand is also alleged to be for the completion of the reform of the currency, but nobody believes that that is the real object of taking the metal now, since it seems incredible that with Europe in its present disturbed state, Austria-Hungary will immediately resume specie payments. The real purpose, therefore, is believed to be to strengthen the war chest.

The Russian demand is in continuation of a policy that has been going on for many years. Already Russia has accumulated nearly 130 millions sterling in gold, and she appears to be as far from satisfied as she was a dozen years ago, and at every opportunity she adds to the accumulation. The demand for France and Germany was partly owing to the natural desire of bankers to strengthen their reserves, in view of eventualities in South Eastern Europe. The shipments from New York have relieved this market, and it is hoped have supplied Austria-Hungary, at all events, with as much as for the moment she has the means to acquire. In consequence, rates of interest and discount have declined here. The rate for three months' bills is barely one per cent.

The India Council is not successful in the sale of its drafts. It offered for tender on Wednesday 35 lacs and disposed of less than 2½ lacs, the average price being 1s. 2½d. per rupee. The Council is not very eager to sell and is holding out for an impossible price. The exchange banks, on the other hand, are hoping that money will become cheaper very soon now, and besides, in the fear that famine, plague and dear money may cause embarrassment among importers, they are not desirous of pushing an active business.

The "Railway News" of London reports the traffic receipts for the week ending May 2 of 55 railways of the United Kingdom which make weekly returns at £1,649,304, against £1,597,396 in the corresponding week of last year, an increase of £51,908. For the eighteen weeks of the current half-year receipts were £27,594,918, an increase of £761,037.

The imports since January 1 have been as follows:

IMPORTS.	1897.	1896.	Difference.	Per Ct.
January.....	39,975,069	33,473,850	+1,501,812	+3.90
February.....	37,245,164	33,476,738	+1,768,429	+4.98

Messrs. Pixley & Abell write as follows under date of May 6:

Gold—All arrivals continue to be taken for export, but not quite at such high prices as have been recently ruling. The Bank has received £237,000 in sovereigns and has sold £130,000. Arrivals: Australia, £236,000; New Zealand, £22,000; Bombay, £74,000; Capetown, £233,000; China, £68,000. Total, £1,023,000. Shipments: Bombay, £32,000; Japan, £335,500. Total, £367,500.

Silver—The market fell slowly until yesterday evening, when a slight improvement occurred in consequence of a large tender for delivery to the Paris mint. At to-day's price of 23d., the market is now steady. The price in Bombay is Rs. 76 per 100 tolas. Arrivals: New York, £126,000; Chili, £73,000. Total, £199,000. Shipments: To Bombay, £53,500.

Mexican Dollars—With scarcely any business, the price is now 27½d.

The quotations for bullion are reported as follows:

#### Commercial and Miscellaneous News

**IMPORTS AND EXPORTS FOR THE WEEK.**—The following are the imports at New York for the week ending for dry goods May 13 and for the week ending for general merchandise May 14; also totals since the beginning of the first week in January.

##### FOREIGN IMPORTS AT NEW YORK.

For week.	1897.	1896.	1895.	1894.
Dry goods.....	\$3,297,165	\$1,372,899	\$1,607,424	\$1,515,155
Gen'l mer'dise	8,761,529	6,701,881	7,498,676	6,828,203
Total.....	\$12,058,694	\$8,074,780	\$9,106,100	\$8,343,358
Since Jan. 1.				
Dry goods.....	\$5,774,925	\$50,681,563	\$58,946,544	\$34,108,003
Gen'l mer'dise	153,294,681	133,820,174	134,037,480	131,501,491
Total 19 weeks.....	\$209,069,606	\$184,501,737	\$192,984,024	\$165,609,494

The following is a statement of the exports (exclusive of specie) from the port of New York to foreign ports for the week ending May 17 and from January 1 to date:

##### EXPORTS FROM NEW YORK FOR THE WEEK.

	1897.	1896.	1895.	1894.
For the week.....	\$9,678,476	\$9,065,384	\$7,525,594	\$7,149,215
Prev. reported.....	137,314,021	134,731,359	120,951,909	132,321,933
Total 19 weeks.....	\$146,992,497	\$143,796,743	\$128,507,193	\$139,471,148

The following table shows the exports and imports of specie at the port of New York for the week ending May 15 and since January 1, 1897, and for the corresponding periods in 1896 and 1895:

##### EXPORTS AND IMPORTS OF SPECIE AT NEW YORK.

Gold.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....		\$979,860		\$112,606
France.....	\$2,296,214	7,962,008		
Germany.....	570,000	3,70,000		10
West India.....		462,792	\$49,191	972,314
Mexico.....			4,123	48,983
South America.....		127,136	18,032	209,081
All other countries.....				157,538
Total 1897.....	\$2,860,234	\$13,101,606	\$71,646	\$1,500,532
Total 1896.....	4,619,799	28,039,918	38,214	18,104,676
Total 1895.....	10,142,222	34,197,061	1,125,937	18,612,140
Silver.	Exports.		Imports.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	\$691,900	\$16,643,310		\$2,022
France.....	207,000	634,000		
Germany.....		5,750		1,000
West India.....	100	62,587	\$4,156	7,438
Mexico.....		500	43,729	481,075
South America.....		18,935	2,700	291,077
All other countries.....			13,880	25,569
Total 1897.....	\$899,000	\$17,414,982	\$64,405	\$873,180
Total 1896.....	9,070,000	19,418,185	61,253	933,842
Total 1895.....	508,064	12,055,557	55,090	536,886

Of the above imports for the week in 1897 \$56,509 were American gold coin and \$596 American silver coin. Of the exports during the same time \$500 0 0 were American gold coin.

—“Chicago Securities” for 1897 has just been issued. This is the seventh annual publication of this valuable manual of corporations whose stocks are listed or largely owned in Chicago. The work aims to give in each case extended and full information regarding the organization. There is also a table of stock and bond values for five years, and a directory of directors. Chicago Directory Co., publishers, price \$2 00.

—In our advertising columns will be found reports of condition at close of business on May 14 of the following national banks: City, American Exchange, Gallatin, Mercantile, Chase, Continental and Market & Fulton.

—Messrs. Pfalzer, Walker & Co., 53 State Street, Boston, issued under date of May 17 a quotation sheet of inactive railroad bonds.

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to an including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

Roads.	Week or Mo.	Latest Gross Earnings.		Jan. 1 to Latest Date.

Figures given do not include Oregon Ry. & Nav., Un. Pac. Denver & Gulf, Denver Leadville & Gunnison, Montana Union and Leavenworth & Topeka & Southwestern. These figures include results on leased lines. Includes earnings from ferries, etc., not given separately. Mexican currency. Includes only half of lines in which Union Pacific has a half interest. Includes operations of the Ohio, Burlington & Northern in both years. Covers results for lines directly operated east of Pittsburg. The earnings for the fourth week of April in 1895 were \$1,411,000. Atlatia & Northwestern, Central Texas & Northwestern and Ft. Worth & New Orleans. Includes St. Louis Alton & Terre Haute for all periods.

**Latest Gross Earnings by Weeks.**—The latest weekly earnings in the foregoing are separately summed up as follows:

For the second week of May our preliminary statement covers 56 roads, and shows 5.31 per cent increase in the aggregate over the same week last year.

**Net Earnings Monthly to Latest Dates.**—The following shows the gross and net earnings to latest dates of all STEAM railroads furnishing monthly statements. The compilation includes every road from which we can get returns of this character and in that form is given once a month. Early returns are published from week to week, as soon as issued, but for the convenience of our readers all the roads making returns are brought together here in the week in which we publish our monthly article on net earnings—say on or about the 20th of the month. Besides the roads furnishing monthly returns, we have added this time the roads which make quarterly returns.

The returns of the street railways we give by themselves under a separate head at the extreme end of these tabulations—see page 996.

### STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

#### STREET RAILWAYS AND TRACTION COMPANIES.

\* Includes results on North Side Traction Company, which was leased February, 1897 to the Second Ave. Traction Co.

**Street Railway Net Earnings.**—In the following we show both the gross and the net earnings to latest dates of all STREET railways from which we have been able to procure monthly returns. As in the case of the steam roads, the returns of the different roads are published by us each week as soon as received, and once a month (on the third or the fourth Saturday of the month) we bring all the roads reporting together, as is done to-day. We add also those roads which make quarterly reports.

## Cincinnati &amp; Muskingum Valley Railway.

(Report for the year ending Dec. 31, 1896.)

President James McCreia in the report says in part:

**General Results.**—"The result of the operations for the year fully justifies the prediction made in the report for the year 1895, as to the more satisfactory annual net earnings of your company, resulting from the expenditures made in former years. The gross earnings decreased \$68,217, or 14 2-10 per cent, while the expenses decreased \$101,620, or 22 9-10 per cent, producing an increased net result of \$33,403. Had the volume of business and gross earnings remained the same as in 1895, the net would have been still further increased by at least \$45,000.

**Litigation.**—There has been no change in the pending litigation since the last annual report. As mentioned in it, the appeal of the Pittsburgh Cincinnati Chicago & St. Louis Railway Company to the Circuit Court in Hamilton County, from the judgment of the Superior Court of Cincinnati, which affirmed the validity of the lease to the P. C. & St. L. Ry. Co., was argued during the first week of March, 1896, but as yet no decision has been handed down.

**Traffic.**—"The total tonnage transported in 1896 was 458,058 tons, while in 1895 it was 577,250 tons, a decrease of 20 65-100 per cent. [Bituminous coal in 1896 contributed 148,777 tons against 225,073 tons in 1895.] The average rate received on freight was 11 4-10 mills, against 11 1-10 mills in 1895.

**Maintenance.**—Maintenance of way and structures shows a decrease of \$43,415, or 28 72-100 per cent, principally due to heavy expenses incurred in 1895 for new buildings. Maintenance of equipment shows a decrease of \$44,243, chiefly due to the cost of engines purchased and rebuilt in 1895 and the cost of tools and machinery purchased in 1895. The physical condition of the property generally has been fully maintained. During the year 5 07-100 tons of new steel, 316 80-100 tons of partly worn steel, 43 69-100 tons of patching iron, 42,921 first-class and 8,133 second-class ties were placed in the main tracks and sidings. Gravel ballast was placed under 7 23-100 miles and cinder ballast under 1 92-100 miles of track. The total expenditure on account of bridges, culverts and trestles was \$44,020.

**Earnings, Etc.**—Earnings, charges, etc., have been as follows:

EARNINGS AND EXPENSES.				
	1896.	1895.	1894.	1893.

## Ohio River Railroad Company.

(Report for the year ending Dec. 31, 1896.)

President H. H. Rogers in the report says in substance:

There has been a gratifying increase in the revenue from freight and passenger traffic, notwithstanding the dullness of trade that prevailed during the greater part of the year. The gross earnings from operations were the largest in the history of the company, and the net earnings were sufficient to afford a surplus of \$21,713 after providing for all other charges. Improvements have been made in the physical condition of your property which places it generally in a much better condition than ever before. During the year \$100,000 of the Huntington & Big Sandy RR. bonds were transferred to the Ohio River RR. Co. in part payment of the advances made by it, and these bonds are now carried as a treasury asset on the books of your company.

a Net earnings here given are after deducting taxes.  
b Net earnings here given are before deducting taxes.  
c All renewals and betterments charged to expenses.  
d Method of reporting expenses changed; each month now being charged with its full proportion of all expenses.  
e Net earnings are after deducting taxes and fire and accident insurance.

**Interest Charges and Surplus.**—The following STREET railways, in addition to their gross and net earnings given in the foregoing, also report charges for interest, &c., with the surplus or deficit above or below those charges.

Roads.	Inter'l. rentals, &c.—		Bal. of Net Earnings—	
	1897.	1896.	1897.	1896.
Denver Con. Tramw. Mar.	18,729	17,878	2,740	2,513

Jan. 1 to Mar. 31.....	6,250	6,250	1,772	3,311
Waterbury Trac. Co. Apr.	3,130	3,158	5,068	5,065
Jan. 1 to Apr. 30.....	12,520	12,632	17,093	20,041

## Vice-President and General Manager Bart adds:

**Tonnage.**—The number of passengers carried one mile was 14,668,595, an increase of 1,501,152, or 11.41 per cent; rate per passenger per mile 2.24 cents, against 2.399 cents; earnings per passenger train mile, not including mail and express, were 75.538 cents, as against 73.975 cents in the previous year.

The number of tons of freight carried was 835,025, against 555,916 tons in the preceding year, an increase of 79,109 tons, or 14.23 per cent. The increase in tonnage received from connecting roads was 79,029 tons, and was principally in pig and bloom iron, castings and machinery, and staves. The number of tons of freight carried one mile was 79,125,915, an increase of 35.47 per cent. The average rate per ton per mile was .644 cents, as compared with .847 cent. This decrease is owing to a larger increase of through business than of local. However, the earnings per mile run by freight trains have increased from 131.546 cents to 171.340 cents, due to the fact that the tonnage per train has been increased from 170.73 to 196.14 tons.

**Maintenance.**—There were 68,391 ties, and 112 sets of switch ties, renewed during the year. Twenty-nine wooden trestles, aggregating 5,661 lineal feet were completely filled during the year. The amount of ballast used in the improvement and maintenance of track, was 12,332 cubic yards of cinder, slag, gravel and stone; 3.91 miles of steel rail were laid in the main track.

**Bonds.**—During the year the company disposed of \$176,000 of its general mortgage bonds and \$35,000 of the Huntington & Big Sandy RR Co. bonds, from the proceeds of which it has been enabled to reduce its floating indebtedness, purchase additional equipment and improve the property generally. At the close of this year there is outstanding \$178,087 in equipment notes, which is an increase of \$170,711 over the amount outstanding at the close of last year. The purchase of 5 locomotives and 300 additional freight cars has materially aided the freight department in obtaining new business. This equipment was secured on favorable terms, the payment therefore extending over a period of years.

The results of operations and the income account, etc., for a series of years were given in V. 64, p. 661.

## Wilmington &amp; Northern Railroad.

(Report for the year ending December 31, 1896.)

President Du Pont in the report says in part:

The industrial demoralization of the year has had a very marked effect upon the gross earnings of the company, notwithstanding the increased tonnage carried. Had the amount received per ton per mile been the same as in 1895, 1.23 cents instead of 1.19 cents, the gross freight earnings would have been over \$12,000 more. Among the various charges for operating it will be observed that \$7,520 is included for mileage on freight cars of other roads which were used by this company. This indicates a deficiency in your equipment, and, as soon as it can be prudently and properly done, steps should be taken to increase the number of freight cars.

Your property has been maintained in excellent condition, and with the acquisition of additional freight cars, the facilities for doing a much larger business would be very satisfactory.

As to maintenance the report says in part:

In repairs of bridges, trestles, water-stations, buildings, etc., 212,967 feet of timber have been used. This is an increase of 40,098 feet over the preceding year, due to the rebuilding of five trestles. Eight hundred and twenty-six thousandths of a mile of main track were laid with 90° tons of seventy pound steel rails, being a decrease of 100,000 tons as compared with last year. This makes the whole amount of steel track 984,610,000 miles.

The number of new cross-ties laid was 41,071, an increase of 4,474 as compared with the previous year. In ballasting 3,420 cubic yards of cinder and 12,480 cubic yards of ashes have been used.

**Equipment.**—The total equipment on Dec. 31, 1896, consisted of 29 locomotives and 463 cars of all descriptions.

A statement of earnings for the year and general balance sheet of December 31, 1896, were given in the CHRONICLE of May 15.—V. 64, p. 949.

## Monoagahela River Railroad.

(Report for the year ending Dec. 31, 1896.)

The report of Vice-President and General Manager Ficklin says in substance:

Notwithstanding the depressed condition of the coal business the output of the company's two mines for the year was 488,000 tons, being 71,000 tons increase over that of any preceding year, and this tonnage would have been largely increased if deliveries on sales could have been made promptly. The price of coal, however, ruled lower than in any preceding year, which of course affected net results. All improvements and repairs have been charged to operating account, excepting new steel mine rails, electrical wire, new dynamo and engine, amounting to \$7,808, which has been charged to new construction.

The property has been put in better and more efficient condition generally during the year. Three new mines have been opened under lease. The last note for the 500 cars purchased by the Coal Company will mature August 1, 1897, and annual payments to the amount of \$25,920 will cease from that date. The last payment on 300 railroad cars will fall due on the 26 of May, 1898, so that notwithstanding the purchase of 200 additional cars by the railroad this year, the annual car trust payments, including interest, will diminish rapidly after the present year.

The company has 8 locomotives, 1,313 coal cars and 15 other cars. The cost of the coal property, including its plant, equipment, etc., and coupon No. 1 for six months' interest to Dec. 1, 1896, payment of which was made in 50 year 5 per cent coal bonds of 1895 was \$1,161,375, leaving in the treasury of the total issue of \$1,500,000 first mortgage coal bonds \$336,625.

A comparative statement of earnings for three years past was published last week. The balance sheet on Dec. 31, 1896, showed:

## BALANCE SHEET DEC. 31, 1896.

## United States Rubber Co.

(Report for the year ending March 31, 1897.)

President Robert D. Evans in the report says:

"The business of your company has suffered to some extent from the disturbed conditions that have prevailed in the political, mercantile and financial worlds. These are familiar to all and require no special mention here. The weather conditions which affect this business particularly were unfavorable in the early part of the year but somewhat more favorable toward the close. The result of general and special conditions has been a decreased volume of trade and a consequent decrease in profits. The price of crude rubber has advanced during the year, due to large consumption in other lines of manufacture.

"The policy of concentration and simplification of manufacture, outlined a year ago, has to some extent been carried out and with good results, and it is advised that further progress in this direction should be made. The manufacture of bicycle tires has been undertaken in one of the disused shoe plants, which will, it is believed, not only increase the volume of business and thus help pay the running expenses, but prove profitable. The reclaiming of old rubber has been concentrated in one of the factories, and the result has been a better and more uniform product at less cost than has heretofore been obtained in the isolated plants.

"Sales have been continued under the consolidated plan adopted two years ago, with beneficial results in reduced expenses and diminished stocks. Competition has been active during the year, but prices remained uniform and steady until March, when a general reduction was made. It is expected that the lower prices then inaugurated will result in a larger volume of business.

"None of the property of this company, nor that of any of the companies in which this company is interested, is hypothecated by bond, mortgage or otherwise.

"In concluding, it may be proper to say that there does not seem to be any reason why the company should make any change in the policy outlined and inaugurated a year ago, namely: That of perfecting consolidation of purchasing, selling and manufacturing, with a view of still further improving the high quality of goods already attained without increasing the manufacturing cost."

The operations for the year ended April 1 were:

	1897.	1896.	1895.

## Chicago Edison Company.

(Report for the year ending March 31, 1897.)

The Chicago "Inter Ocean" gives the following facts regarding the annual report and the company's new mortgage:

**General Results.**—The gross income was about 9 per cent in excess of that for the previous year, and the increase in the amount of current furnished was about 11 per cent. This indicates an average reduction in the price to the consumer of 2 per cent. The incandescent lamps connected March 31, 1897, aggregated 208,954; are lamps, 5,180; motors (horse power), 6,824. The equivalent in sixteen-candle power lamps was 355,140, against 315,732 for the previous year, showing an increase for the last fiscal year of 39,408.

**Bonds.**—The bonded indebtedness is divided into \$2,267,000 first mortgage 5 per cent bonds and \$1,483,000 6 per cent debentures, about \$700,000 of the original issue of debentures having been exchanged for first mortgage bonds, under the option which expired some time ago. The remainder of the debentures are subject to call at any time after Jan. 1 next at par and accrued interest.

**New Mortgage.**—The mortgage executed July 1, 1896, provided for an immediate issue of \$3,500,000 of bonds and for additional issues up to a limit of \$6,000,000; but not more than a total of \$5,000,000 can be issued unless the company first increases its capital stock, so that the total amount of capital stock issued and fully paid shall at least equal the total amount of bonds issued. The mortgage is a first lien on all the company's property and franchise, excepting a piece of property on Indiana Avenue, and its merchandise. The following clause in the instrument explains the charge of \$200,000 to depreciation which appears in the report under review:

"The company shall annually expend in repairs and renewals not less than \$100,000, and over and above the sum annually expended for repairs and renewals in the following years the company shall also credit the following sums to depreciation account: \$200,000 on or be-

fore Oct. 15, 1896; \$10,000 March 31, 1893; \$50,000 March 31, 1899; \$60,000 March 31, 1900; \$70,000 March 31, 1901; \$40,000 March 31, 1902; \$90,000 March 31, 1903; \$100,000 March 31, 1904; and \$100,000 on March 31 in each and every succeeding year so long as any of the bonds secured hereby shall remain unpaid. But the company may charge the actual cost of bonds in extensions of its plant and appliances made after Sept. 15, 1891, against the credits of \$10,000, \$50,000, \$30,000, \$70,000, \$40,000, \$10,000, and \$10,000, made on the 31st day of March, 1893, 1899, 1900, 1901, 1902, 1903 and 1904, respectively, and against the actual credits made in each succeeding year to the full amount of such credit items, but no further."

The bonds are redeemable at par and accrued interest on any interest date after 1910.

**Improvements.**—During the last year the company expended \$320,000 in extensions and improvements. Of this amount \$120,000 was spent on real estate and the remainder on the plant.

**Earnings.**—The income for 1896 in 1897 makes the following showing for the years ending March 31:

	1896-97.	1895-96	1894-95.
Gross earnings.....	\$1,513,693	\$1,481,034	\$1,437,012

#### Philadelphia Company.

(Report for the year ending March 31, 1897.)

President George Westinghouse in the report says in substance:

**Financial.**—The operations for the year show a profit of \$256,719, after charging to operating expenses the additions to the West Virginia pipe line, amounting to \$211,790, and without taking into account the \$62,111 barrels of oil produced during the year and on hand March 31. The bills payable on March 31 had been reduced from \$419,939 to \$399,715 and since the close of the fiscal year \$75,000 additional notes have been paid.

**Prospects.**—The building of the line into Greene County and West Virginia has been fully justified by the results, and the extensive system of lines now owned by our company, extending in a northerly and southwesterly direction a distance of 150 miles, has brought within the scope of the operations of your company an immense amount of gas territory, in which the developments have been numerous and important, indicating clearly a much greater available supply of natural gas than was anticipated a few years ago. The entire product is now sold by meter, and during the year the gas sold amounted to 10,357,935,000 cubic feet.

The abundant supply of natural gas, and its superior advantages over the manufactured article, makes it possible to defer the erection of a fuel gas plant. In the meantime, such plants are being developed by others, and when the time arrives for the manufacture of gas to supplement the supply of natural gas, your company will be in the best possible position to establish a suitable plant at the lowest cost.

**Property.**—During the year 52 wells were drilled against 33 in 1895-96, of which 31 were productive of gas, 11 of oil and 10 non-productive. During the past four years there has been a gradual reduction in the percentage of non-productive wells drilled from 33 per cent in 1894 to 19.2 per cent in 1897. Five wells were added by purchase. During the year 32 miles of pipe were reclaimed and 54½ miles were laid. The total amount of pipe lines at present operated by your company is 924 miles, controlled by 63 telephone stations and accompanied by 330.3 miles of telephone lines. Your company holds under lease 54,701 acres of gas and oil territory situated in Pennsylvania and West Virginia. The annual rental upon these leases amounted to \$13,932 and the royalties upon wells to \$10,335, or a total of \$90,207.

**Statistics.**—Earnings and expenses, &c., were as follows:

	1896-97.	1895-96.	1894-95.
<b>Receipts—</b>			
From gas.....	\$1,223,533	\$1,156,199	\$1,351,929

**Anthracite Coal Companies.—Investigation Under New Anti Trust Act.**—On May 12, at the request of Assistant Attorney-General Davies, Justice Caesar, of the Supreme Court of New York State, issued a subpoena to President Sloan of the Delaware Lackawanna & Western R.R., President Fowler of the New York Ontario & Western, President Oliphant of the Delaware & Hudson, President Maxwell of the Central R.R. of New Jersey, President Harris of the Reading and President Wilbur of the Lehigh Valley, directing them to appear in Albany on May 20 to answer questions as to charges of violation of Chapter 338 of the laws of 1897 against monopolies and combinations in restraint of trade. On Wednesday last Judge Caesar granted a stay of proceedings until May 27 to enable the questions raised by counsel for the coal companies to be argued. The referee thereupon adjourned the hearing until June 1.

The Attorney-General in his petition alleged that certain corporations, domestic and foreign, have entered into an illegal agreement or combination limiting the production of anthracite coal, and asked for the examination of these witnesses before a referee in order to obtain information upon which to base a suit. Judge Caesar named Walter E. Ward as the referee. —V. 62, p. 725.

**Ashtabula Water Supply Co.—Notice to Bondholders.**—Notice is given that all bondholders wishing to participate in the benefits of the bondholders' agreement must deposit their bonds with the Kieckhefer Trust Company, 63 Broadway, New York, on or before June 1, 1897. George H. Holt is chairman of the bondholders' reorganization committee.

**Atlantic Coast Line.—Stock Reduced by Issue of \$5,000,000 Certificates of Indebtedness.**—The company has created \$5,000,000 of certificates of indebtedness. Of this amount \$1,000,000 will be held in reserve and \$1,000,000 are issued to reduce the capital stock from \$10,000,000 to \$5,000,000, being exchanged, dollar for dollar, to the extent of one-half of the holdings of stockholders who availed themselves of the privilege. The certificates bear 5 per cent interest and are irredeemable, ranking as a claim against the company in preference to the capital stock. No mortgage, it is stated, can be placed on the property without the consent of two-thirds of the certificates outstanding, and should a mortgage be authorized, the certificates will be exchangeable for bonds secured by it. —V. 64, p. 837.

**Baltimore & Ohio R.R.—Report of Patterson & Corwin to Baltimore Committee.**—The Baltimore Reorganization Committee has furnished a synopsis of the report made to them by the expert accountants Patterson & Corwin "reviewing the report of Stephen Little, and in connection therewith utilizing the annual reports of the company from 1833 to 1896 inclusive, the special report of H. D. Balkley of February, 1899, and the company's trial balance of Nov. 31, 1895." This review was undertaken with the object of ascertaining, if possible, from the above-named data, the financial condition of the property on Nov. 30, 1895. The synopsis is in part:

Patterson & Corwin state that a careful examination of Mr. Little's report fails to disclose at any point a deliberate statement as to the financial condition of the company. It will appear that Mr. Little has made some serious errors and was strikingly inconsistent. Differences are shown affecting his statement of assets and liabilities alone amounting to over \$2,600,000, including an over-statement of available cash to the extent of over \$1,300,000. After showing that the report does not definitely state the financial condition of the property, and that the so-called "errors" that brought about "confusion" were largely ineffective, Patterson & Corwin claim it to be evident that for further important causes of the embarrassment of the company it will be necessary to go deeper into the facts than Mr. Little appears to have penetrated. They follow a number of statements deposed for the purpose of supplementing as

SEC. 1. The illuminating gas furnished by any such corporation, association, company, partnership or person shall have an illuminating power of not less than twenty two sperm candles of six to the pound, burning at the rate of one hundred and twenty grains of acerumacti per hour tested, at a distance of not less than one mile from the place of manufacture, by a burner consuming five cubic feet of gas per hour, and shall, as regards purity, comply with the standard now or hereafter established by law.

SEC. 5. All acts and parts of acts inconsistent with this act are hereby repealed.

SEC. 6. This act shall take effect on the first day of May, 1897.

—V. 63, p. 968.

**International Bell Telephone Co.—Stock to Be Reduced.**—The stockholders will vote June 2 upon the recommendation of the directors that the capital stock thereof be reduced to \$750,000, in \$75 shares. The directors include: Samuel D. Babcock, Gardiner G. Hubbard, Richard A. McCurdy, Charlton T. Lewis, Louis A. Thebaud.

**Kings County Elevated RR.—Progress of Reorganization.**—General Jourdan is quoted as saying that the plan of reorganization will be announced in the course of four or five weeks. It is proposed to equip the road with electricity, probably using the Sprague unit system.—V. 64, p. 793.

**Lake Shore & Michigan Southern RR.—New 3½ Per Cent Bonds to be Ready About June 1.**—The new 3½ per cent gold bonds will be ready for delivery about June 1. The stockholders on Thursday duly ratified the refunding plan.—V. 64, p. 885.

**Lehigh Coal & Navigation Co.—Offer to Extend Gold 6s for \$1,842,500, Due Dec. 15, 1897, at 4 Per Cent.**—The company gives notice that it has arranged with Brown Brothers & Company, Philadelphia, to extend \$1,842,500 of gold loan 6s, due Dec. 15, 1897, for a term of seventeen years from June 15, 1897, maturing June 15, 1914, with interest at the rate of 4 per cent per annum, payable June 15th and Dec. 15th of each year. Both principal and interest of the extended bonds will be payable in like gold coin of the United States with that provided for in the bonds themselves, without deduction for any tax or taxes that may be levied or assessed upon the principal and interest of such extended bonds under the laws of the State of Pennsylvania or of the United States of America for State or national purposes, the company assuming the payment of all such tax or taxes. The Fidelity Insurance, Trust & Safe Deposit Co. is the mortgage trustee. The balance of the loan—\$2,910,000—will be paid off, canceled and extinguished at maturity, Dec. 15th, 1897.

Referring to the above notice, Brown Brothers & Co. of Philadelphia offer to extend the bonds, as set forth above, upon their deposit, with D-o. 15, 1897, coupons attached, and the payment of \$37.50 for each \$1,000 bond, when deposited (104¼ per cent premium, less 1 per cent to equalize the difference between the interest rate of 6 per cent per annum and 4 per cent per annum for the period from June 15, 1897, to date of maturity of the bonds—December 15, 1897).

The said firm is also prepared to purchase after June 15, 1897, any of the above-mentioned \$1,842,500 bonds not extended by holders at par, and interest at the rate of 6 per cent per annum to December 15, 1897, less discount at the rate of 3 per cent per annum. See full particulars in our advertising columns.—V. 64, p. 371.

**Long Island RR.—Tunnel and Atlantic Avenue Improvement.**—Governor Black and Mayor Wurster have signed the bill authorizing the change of grade of the company's tracks on Atlantic avenue in Brooklyn, the expense to be borne equally by the railroad and the city, but the city's share not to exceed \$1,250,000. The tunnel company required by the bill is being organized, and it is expected to be only a question of weeks when the improvement will be begun. It is to be completed in about two and one-half years. The work is to be done under the supervision of the Atlantic Avenue Improvement board, consisting of seven members, to be appointed by the Mayor of Brooklyn, two of them on the written nomination of the President of the Long Island Railroad.—V. 64, p. 953.

**Metropolitan Street Ry.—Metropolitan Traction—Central Crosstown RR.—Decision That City Has No Right to Purchase Eighth Avenue Line.**—Justice Beach in the Supreme Court on Thursday denied injunctions *pendente lite* in three suits brought to restrain the Eighth Avenue Railroad Company from changing its motive power from horses to electricity, suits in which were raised the question whether the city has the right to purchase the road under the resolution of 1851 granting a franchise. Justice Beach cites the facts that in the confirmatory grant by the Common Council in 1854 the option was omitted, that a statute was passed by the Legislature compelling an extension of the line to the Harlem River which seemed to ignore the option, and that the original grant was declared void by the courts.

The opinion concludes as follows:

"Besides the legislative action, a strong argument against the present existence of the right of the city is furnished by long acquiescence and failure for forty-five years to assert any right, and in its treatment of this railroad following the policy pursued with reference to other roads, as against which no right has been suggested. The grant containing the original resolution furnished the basis for the contract. The former has been repeatedly adjudicated to be void, and there is no reason why the contract founded thereon should not be subject to a like fate, especially as it was omitted from the confirmatory clause in the act of 1854. The one expired with the other, and both grant and contract are dead beyond hope of re-urrection.

"It is possible that the municipal authorities might have had years ago a standing in court to assert some claim in equity under the contract, although in what form of action or for what relief it is difficult to imagine. But even if such right ever existed, it has been thrice barred by the Statute of Limitations, and the insuperable objection to a successful assertion of claims long dormant and neglected."

Counsel for the applicants for the injunctions propose to appeal the case and will endeavor to have the matter heard immediately by the Appellate Division. The next motion day is June 13.

**Central Cross-Town Line Reported Purchased.**—Control of the Central Cross-town RR. Company, it is stated, has

been purchased by parties interested in the Metropolitan Street Railway Co. The Central Cross-town RR. owns a line extending from Twenty-third Street and East River via Seventeenth and Fourteenth streets to Hoboken Ferry, and leases the Christopher and Tenth Street RR., which runs from Christopher Street Ferry on the North River to Tenth Street Ferry, East River. The special significance of the change of ownership appears to be in the possibility that the Third Avenue RR. Co., which now has a transfer arrangement with the Central Company, can be shut off from this cross-town connection by which large numbers of its passengers now reach Union Square, Christopher Street Ferry, etc.—V. 64, p. 935, 843.

**Middle Tennessee & Alabama RR.—Sale Confirmed.**—At Nashville, Tenn., May 10, in the United States District Court, Judge Clark confirmed the sale of this road to Joseph H. Dickson, of St. Louis.—V. 64, p. 888.

**New York & Harlem RR.—New York Central & Hudson River RR.—Who Gets Saving from Refunding of Harlem Bonds.**—We published last week a statement from Treasurer Rositer of the Harlem RR., stating that the Harlem directors were advised by counsel that all saving from the refunding of the Harlem bonds would belong to the Harlem Company. The directors of the New York Central, however, take another view of the matter, holding that their company is not obliged to pay the Harlem any rental above the 8 per cent guaranteed on the stock and the interest on the bonds, at whatever rate the latter shall be refunded. In order, therefore, to protect its own financial interests, the New York Central on Tuesday filed a protest at the meeting held to authorize the new Harlem loan against the proposed refunding, except on such terms as may be agreed upon between the two companies. The question thus raised will be settled either by a friendly suit between the two companies or possibly by arbitration. The New York Central has engaged Edward J. Phelps in addition to its regular counsel to present its claims. The article of the lease bearing on the matter was cited in the CHRONICLE of March 13, 1897, on page 518.—V. 64, p. 953.

**Northeastern RR. of Georgia.—Advertised for Sale.**—Governor Atkinson invites bids for the purchase of this property until 4 o'clock June 21, 1897. No bid will be received for an amount less than the sum of \$287,000.—V. 64, p. 954.

**Northern Pacific Terminal.—Adjustment of Rental.**—A friendly conference was held this week between representatives of the bondholders of the Northern Pacific and Oregon Railroad & Navigation companies. The meeting was at the offices of the New York Life Insurance Co., who are the largest single holders of the bonds. Of the three joint tenants of the property under the lease of 1883, viz., the Oregon & California, Northern Pacific and Oregon Railway & Navigation companies, the two latter are merely tenants at will as successors to the original lessees, sold out under foreclosure. Both the bondholders and the railroad companies are desirous of having the relations between the parties in interest adjusted, and at the meeting above referred to Mr. Edward N. Gibbs, Treasurer of the N. Y. Life Insurance Company, was authorized to appoint a committee representing the bondholders to treat with the railroad companies. The annual fixed charge of the Terminal Co., interest and sinking fund, is \$273,000 per annum. It is understood that the money for the July coupon will be advanced, as it was in January, by the Oregon & California and Northern Pacific.—V. 63, p. 116.

**Oregon Improvement.—Coupons of June 1, 1897, and Prior Dates from First Mortgage Bonds, Deposited Under Waterbury Agreement, to be Paid June 1.**—The Waterbury Reorganization Committee notifies holders of first mortgage bonds that upon depositing the same with all unpaid coupons at Manhattan Trust Co., New York, on or before June 15, next, they will receive on or after June 1, cash for the coupons maturing on that date, as well as for any coupons which matured June 1 or December 1, 1896. Also all holders of certificates of deposit representing first mortgage bonds heretofore deposited will receive cash for the coupons maturing June 1 on presentation thereof, to be stamped at the Manhattan Trust Company, New York. These payments are in lieu of interest for the same period of the new bonds to be issued under the agreement of reorganization.—V. 64, p. 902.

**Philadelphia Reading & New England RR.**—The United States Court on May 18 granted the petition of W. W. Kurtz, representing the bondholders, asking that the Philadelphia & Reading RR. Receivers exhibit the books of that company at the time of the reorganization, with the names of stockholders and amounts of their holdings. This is preliminary to an attempt to hold the Reading liable for the guaranty of Philadelphia Reading & New England bonds. The plaintiffs believe that under the foreclosure decree of the Philadelphia & Reading their claim by virtue of the guaranty was not out off.—V. 64, p. 423.

**Pittsburg Allegheny & Manchester Traction.—New Mortgage for \$250,000.**—The stockholders at their annual meeting May 17 authorized the making of a new mortgage for \$250,000. It is proposed to issue \$150,000 of 5 per cent bonds secured by it to fund the bills payable of \$162,000. The gross receipts for the year ending April 30, 1897, are reported as \$463,000; surplus over all charges, \$133,000, of which \$33,000 was applied to the reduction of floating debt. The option of the Brown syndicate on the property expired some time ago, and so far as is known there is no proposition at present to lease the road to the North Side Traction Co.—V. 64, p. 604.

**Port Arthur Duluth & Western Ry.—Funds Asked for Stock and Bonds.**—The Toronto General Trusts Company invites tenders up to June 15, 1897, for the purchase of \$1,497,724 3 per cent first mortgage bonds and \$1,064,000 capital stock of the road.

The following statement has been made to the CHRONICLE regarding the property:

The road was completed and ready for traffic in 1892, extending from the town of Port Arthur, at the head of Lake Superior in Canada, to the city of Duluth at Gun Flint Lake, a distance of 87 miles, and connecting the State of Minnesota to the Gun Flint Lake port of call, which is its present terminus. The total bond issue on the road is \$1,497,724 3 per cent. The Toronto General Trusts Company have been asked to advance all of the bond issue on the 87 miles, with the exception of \$250,000, and all the bond issue, viz., \$1,247,724 3 per cent. It also contains \$1,640 shares of the capital stock of the Canadian section out of 15,000 shares, as well as the greater part of the shares of the Minnesota section.

A contract was made for the haulage of iron ore, which in 1895 was to reach 100,000 tons annually for a period of eight years. Unfortunately, owing to the collapse of the mining industry, the contract has not been carried out. In consequence of this and the continued depression resulting in delayed development of the mining lands, of interest has been paid on the bonds. Nevertheless, the road has been continually operated and sufficient revenue derived therefrom to meet expenses, as well as to keep the road in a good state of repair.

The railway runs to close proximity to various silver mines and iron deposits, and also large tracts of tamarac and spruce timber suitable for use as frame timber and pulp wood. The extension of the railway to Ely, Minn., about 15 miles distant, and for which the company has a charter, will run through the iron ore deposits of the Mesabi Range in Minnesota, which, with the products of the large pine limits on the route of this extension, would bring a very profitable business to the line between Gun Flint and Port Arthur.

The report to the Canadian authorities shows gross earnings for the year ending June 30, 1896, of \$8,458.

**St. Louis Chicago & St. Paul.—Reorganized Company.**—This company filed articles of incorporation at Springfield, Ill., on May 14, as successor of the St. Louis Chicago & St. Paul Railroad, foreclosed April 3, 1897. The reorganization plan was in the CHRONICLE of April 10. See V. 64, p. 708.

**Seaboard Ry. (of Alabama).—Sold Under Foreclosure.**—This short Alabama road was sold under foreclosure at St. Stephens, Ala., May 10, and was purchased by James L. Lombard, Sanford B. Ladd and Frank Hagerman, trustees for the bondholders, for the sum of \$50,000.—V. 63, p. 76.

**South Carolina & Georgia RR.—Earnings for Nine Months.**—This company does not publish regular reports of earnings, but the figures from July 1, 1896, to April 30, 1897, have been given out as follows: Gross earnings \$1,063,000, net \$434,000; fixed charges for twelve months, including all interest charges and taxes on Augusta Southern, are about \$338,000. The road has carried so far this year, it is said, 10,000 cars of phosphates as against 7,000 cars last year.—V. 64, p. 468.

**Sommit Branch RR.—Reorganization Notice.—Deposits to be received till July 10.**—The foreclosure sale is set for July 13. The Morris reorganization committee calls attention to this fact and says:

The plan of reorganization has been signed by a very large percentage of the bondholders, and also by more than a majority of the stockholders. The time, however, for deposit of bonds and stocks tendered with the Grand Life Insurance, Annuity & Trust Company of Philadelphia is extended until July 10, 1897. The contributions to be paid by the assenting stockholders will not be required or called for until after the confirmation of the trustee's sale.—V. 64, p. 955.

**Tennessee Central RR.—Foreclosure Sale June 21.**—The foreclosure sale has been set for June 21, the minimum bid to be \$125,000.—V. 64, p. 708.

**Third National Bank—National City Bank.—Liquidation.**—The stockholders of the Third National Bank having voted to liquidate its affairs, the National City Bank will take over the accounts of such of its depositors as desire to make the transfer. Mr. A. B. Hepburn, President of the Third National, will become a Vice-President of the National City Bank.

**Union Pacific Ry.—Payment of Equipment Bonds and Coupons.**—The Union Trust Co. of this city and James G. Harris in Boston began May 19 the payment of the \$210,500 equipment trust bonds series B, which became due April 1, each bond receiving \$1,066 67, the interest since maturity being included. They also began paying the coupons due April 1 on the equipment bonds of both series A and B, each coupon receiving in all \$25 17.—V. 64, p. 955.

**United States Rubber.—Annual Meeting.**—At the meeting in New Brunswick, N. J., on Tuesday, the old directors were re-elected, with the exception of Joseph A. Bannigan and William Hill. The directors elected are Samuel P. Colt, of Providence, R. I.; Robert D. Evans, of Boston; James B. Ford, Charles R. Flint, J. Howard Ford, Robert M. Gallaway, Charles Stewart Smith, William L. Tienholm, John D. Vermeulen and George E. Weed, of New York City; Henry L. Hotchkiss and Charles L. Johnson, of New Haven; M. C. Martin, of New Brunswick; Frederick M. Sheppard, of East Orange, N. J.; and Samuel N. Williams, of Williamsport, Penn.

Mr. Bannigan, formerly President, was present at the meeting and made an address in which he claimed the cutting of prices had been started by the United States Rubber Company, and asserted that another 5 or 10 per cent reduction would destroy all the profits. His factory at Woonsocket, he claimed, was being discriminated against and his sons had been thrown out of employment by the directors. The annual report is published on a preceding page.—V. 63, p. 1160.

## The Commercial Times.

### COMMERCIAL EPITOME.

FRIDAY NIGHT, May 21, 1897.

The low rail freight rates now ruling have stimulated trade, in a few instances, to a limited extent. As a rule, however, complaints have continued general of the unsatisfactory condition of business. Merchants, with few exceptions, anticipate delay in the passing of the tariff bill, and latest advices received from Washington indicate that there will be considerable friction when the bill reaches the Conference Committee. The President's Cuban message showed no departure from the conservative policy previously pursued, but at the close of the week the Cuban belligerency resolution as passed by the Senate attracted considerable attention. The European political situation has continued to improve, an armistice between Turkey and Greece having been definitely concluded. The directors in the so-called coal combination have been made defendants in an action brought to test the efficacy of the new Anti-Trust laws.

The demand for lard on the spot has continued slow. A few small sales have been made to local refiners, but the export demand has remained flat and prices have further declined, closing dull at 4 1/10c for prime Western, 3 5/10c for prime City and 4 4/10c for refined for the Continent. No business has been transacted in the local market for lard futures, but at the West prices have declined under free offerings by packers. At the close smaller receipts of swine than expected stimulated some buying by shors to cover contracts and prices advanced slightly.

#### DAILY CLOSING PRICES OF LARD FUTURES.

	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Jan.	Feb.	Mar.	Apr.
May	4 1/10	4 1/10	4 1/10	4 1/10	4 1/10	4 1/10	4 1/10	4 1/10	4 1/10	4 1/10	4 1/10	4 1/10

The demand for pork has continued limited to jobbing lots, and as there have been moderate offerings prices have weakened slightly, closing at \$9 50@9 60 for mess, \$9 50@10 50 for family and \$9 50@10 50 for short clear. Cut meats sold slowly early in the week, but at the close there was an improved demand and prices were steady at 5 1/2@5 1/4c for pickled bellies, 12@10 lbs. average, 5c for pickled shoulders and 8 3/4@9 1/4c for pickled hams. The demand for beef has been quiet, but prices have been without changes and steady, closing at \$7@8 for mess, \$8@9 for pack, \$9@10 for family and \$12@14 for extra India mess. Beef hams have been quiet but about steady at \$22. There has been a slight further decline in the prices for tallow, and at the conclusion a moderate export business has been transacted, closing steady at 2 15 1/16c. Oleo-stearine has been quiet and easier, closing at 4 1 1/16c. Lard stearine has sold slowly, and at the close prices were quoted nominally at 4 1/2@4 3/4c. Cotton seed oil has had only a limited sale, but prices have not changed, closing steady at 20c for prime crude and 23 1/2@24c for prime yellow. Butter has been in fair demand, and choice grades closed firm with creamery at 11@14c. Cheese has sold slowly and prices have declined, closing at 8 3/4@10 1/4c for State factory, full cream. Fresh eggs have been in fair demand, and as receipts have been limited, prices have advanced, closing at 11 1/2@12c for choice Western.

A moderate business has been transacted in invoice lots of Brazil growth of coffee, but there have been free offerings and prices have weakened slightly, closing at 7 3/4c. Mild grades have had a fairly large sale at steady prices, closing at 14c for good Cucuta and 25c for standard Java. There has been increased activity in the speculation in the market for contracts, but it has been at declining prices under selling for local and foreign account, prompted by continued large Brazilian receipts. The close was quiet and easier, with prices 30@45 points lower for the week.

The following were the final asking prices:

May	7 25c	Aug	7 30c	Nov	7 35c
June	7 20c	Sept	7 30c	Dec	7 35c
July	7 25c	Oct	7 35c	Jan	7 35c

Raw sugars have sold slowly and prices have weakened slightly, closing at 3 1/4c for centrifugal, 96-deg. test, and 2 3/4c for muscovado, 89-deg. test. Refined sugars have continued weak and prices have been lowered 1-16@1 1/2c, closing at 4 1/2c for granulated. Teas have had only a limited call and there has been less tone to values.

Kentucky tobacco has had only a limited sale, but prices have been unchanged and steady. Sales, 150 hhds. Seed leaf tobacco has continued to sell slowly but values have been maintained. Sales for the week were 625 cases.

There has been a fairly active demand for Straits tin and prices have advanced, closing firm at 13 50@13 60c. Ingot copper has had a fair sale for the week and values have held steady at 11@11 1/4c for Lake. Lead has continued to meet with only a limited demand, but values have been unchanged and steady, closing at 3 25@3 27 1/2c for domestic. Spelter has been quiet but steady at 4 15@4 20c for domestic. Pig iron has been dull and easy at \$9 25@12 00 for domestic.

Refined petroleum has been advanced, closing at 6 35c in hhls, 3 85c in bulk and 6 80c in cases; naphtha quiet at 5 50c. Crude certificates have been neglected; credit balances have been advanced to 89c. Spirits turpentine has been quiet and easier, closing dull at 27 1/4@27 3/4c. Rosins have been in fair demand and firm, closing at \$1 67 1/2@1 70 for common and good strained. Wool has been quiet and the tone has been easier. Hops have had a fair call for deliveries on contract but prices have continued easy.

## COTTON.

FRIDAY NIGHT, May 21, 1897.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 20,632 bales, against 33,067 bales last week and 42,335 bales the previous week, making the total receipts since the 1st of Sept., 1896, 6,583,428 bales, against 5,109,729 bales for the same period of 1895-6, showing an increase since Sep. 1, 1896, of 1,473,699 bales.

Speculation in cotton for future delivery has been quiet, and the tendency of prices has been downward, values gradually receding under moderate offerings prompted by quiet and easier foreign advices and favorable weather conditions reported from the South for the new crop. Advices from the lower Mississippi Valley state that the waters have subsided over a large area, which has since been ploughed up and planted, and this, too, has had a depressing influence. Saturday there was a quiet market. The opening was at a slight decline under local selling. Subsequently, however, the loss was recovered and the close was steady. Monday the market was lower, particularly for this crop. Foreign advices came weaker and weather conditions at the South were reported favorable. This induced selling, and the close was at a decline of 11 to 13 points for this crop and 4 to 6 points for the next crop. There was a stronger turn to the market on Tuesday. Foreign advices came better than expected, and this stimulated some buying by local shorts to cover contracts, and prices showed an advance for the day to 5 to 6 points on the near-by contracts and 1 to 3 points on the distant months. Wednesday and Thursday the market again weakened, the net decline for the two days being 9@12 points. Southern and foreign advices were weaker and weather conditions were generally favorable throughout the South. To-day the market opened 1 to 4 points lower under quiet and easier foreign advices, and then further declined under continued favorable weather reports from the South accompanied by some selling orders. The close was quoted steady with prices 8 to 10 points lower for this crop and 5 to 7 points down for the next. Cotton on the spot was quiet early in the week, but late Wednesday and on Thursday large sales were made to exporters and spinners. Prices advanced 1-16c. on Saturday but declined 1/8c. on Monday. To-day there was a limited export demand and prices were quoted unchanged, middling uplands closing at 7 3/4c.

The total sales for forward delivery for the week are 463,800 bales. For immediate delivery the total sales foot up this week 11,433 bales, including 6,122 for export, 5,066 for consumption, — for speculation and 300 on contract. The following are the official quotations for each day of the past week—May 15 to May 21.

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

UPLANDS.	Sat.	Mon.	Tues.	Wed.	Th.	Fri.
Good Ordinary.....	6 7/8	6 3/4	6 3/4	6 3/4	6 3/4	6 3/4

## MARKET AND SALES.

The total sales of cotton on the spot and for future delivery each day during the week are indicated in the following statement. For the convenience of the reader we also add a column which shows at a glance how the market closed on same days.

SALES OF SPOT AND CONTRACT.	SPOT MARKET.				Sales of Futures.
	Ex- port.	Con- sump.	Spec- ul'n	Con- tract.	
Sat'day.....	Q't & firm, 1 1/2 ad.	487			487
Monday.....	Steady at 1 1/2 ad.	1,694	1,244	300	3,238
Tuesday.....	Steady.....	200	346		546
Wed'day.....	Quiet & steady.....		351		351
Th'day.....	Active.....	3,309	2,415		5,724
Friday.....	Quiet.....	919	223		1,142
Total.....		6,122	5,066	300	11,488

The above totals show that the interior stocks have *decreased* during the week 18 719 bales and are now 50,035 bales *less* than at same period last year. The receipts at all the towns have been 4,859 bales *less* than same week last year and since Sept. 1 they are 736,697 bales *more* than for same time in 1995-6.

THE VISIBLE SUPPLY OF COTTON to-night, as made up by cable and telegraph is as follows. The Continental stocks, as well as those for Great Britain and the afloat are this week's returns, and consequently all the European figures are brought down to Thursday evening. But to make the totals the complete figures for to-night (May 21), we add the item of exports from the United States, including in it the exports of Friday only:

QUOTATIONS FOR MIDDLING COTTON AT OTHER MARKETS.—Below are closing quotations of middling cotton at Southern and other principal cotton markets for each day of the week.

Week ending May 21.	CLOSING QUOTATIONS FOR MIDDLING COTTON ON—

Columbus, Miss ..	7	Nashville .....	7 <sup>1</sup> / <sub>2</sub>	Shreveport .....	6 <sup>7</sup> / <sub>8</sub>

RECEIPTS FROM THE PLANTATIONS.—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week Ending—	Receipts at the Ports.			St'k at Interior Towns.			Rec'pts from Plant'ns		
	1897.	1896.	1895.	1897.	1896.	1895.	1897.	1896.	1895.
Apr. 18.....	43,795	40,076	80,817	204,020	263,609	212,777	20,445	22,758	45,541
" 23.....	47,280	54,668	69,965	184,847	247,104	186,641	28,077	34,161	41,833
" 30.....	34,583	39,828	55,937	171,920	233,044	165,978	21,661	25,768	36,274
May 7.....	42,333	37,331	41,900	144,401	209,770	148,558	14,814	14,057	24,475
" 14.....	32,067	34,871	30,665	131,701	187,120	137,822	19,367	12,221	19,334
" 21.....	20,632	22,076	20,065	112,982	163,017	114,859	1,913	.....	6,602

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1896, are 6,575,816 bales; in 1895-96 were 5,240,046 bales; in 1894-95 were 7,804,420 bales.

2.—That although the receipts at the outports the past week were 20,632 bales, the actual movement from plantations was only 1,913 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were — bales and for 1895 they were 6,602 bales.

OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending May 21 and since Sept. 1 in the last two years are as follows.

May 21.	1896-97.		1895-96.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
<b>Shipped—</b>				
Via St. Louis .....	7,615	514,843	8,999	524,978
Via Cairo .....	1,878	262,656	2,959	234,005
Via Parker .....	262	18,015	478	18,283
Via Evansville .....	.....	2,554	.....	1,681
Via Louisville .....	514	133,015	2,599	129,543
Via Cincinnati .....	2,156	137,926	2,818	99,597
Via other routes, &c. ....	279	114,813	623	89,948
<b>Total gross overland.....</b>	<b>12,704</b>	<b>1,183,852</b>	<b>18,475</b>	<b>1,098,040</b>
<b>Deduct shipments—</b>				
Overland to N. Y., Boston, &c. ....	2,347	306,098	2,671	263,756
Between interior towns.....	4	4,220	5	3,371
Inland, &c., from South.....	639	38,621	634	47,677
<b>Total to be deducted.....</b>	<b>2,990</b>	<b>348,939</b>	<b>3,310</b>	<b>314,804</b>
<b>Leaving total net overland* ..</b>	<b>9,714</b>	<b>834,913</b>	<b>15,165</b>	<b>783,236</b>

\* Including movement by rail to Canada.

The foregoing shows that the week's net overland movement this year has been 9,714 bales, against 15,165 bales for the week in 1896, and that for the season to date the aggregate net overland exhibits an increase over a year ago of 51,677 bales.

In Sight and Spinners' Takings.	1896-97.		1895-96.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
Receipts at ports to May 21 .....	20,632	6,583,428	22,076	5,109,729
Net overland to May 21 .....	9,714	834,913	15,165	783,236
Southern consumption to May 21 ..	17,000	741,000	17,000	720,000
<b>Total marketed .....</b>	<b>47,346</b>	<b>8,159,341</b>	<b>54,241</b>	<b>6,612,965</b>
Interior stocks in excess .....	18,719	17,612	24,103	130,317
<b>Came into sight during week ..</b>	<b>23,627</b>	<b>.....</b>	<b>30,138</b>	<b>.....</b>
<b>Total in sight May 21.....</b>	<b>.....</b>	<b>8,151,729</b>	<b>.....</b>	<b>6,743,292</b>
North'n spinners' tak'g to May 21 ..	5,446	1,541,167	10,951	1,491,142

\* Decrease during week.

† Less than Sept. 1.

It will be seen by the above that there has come into sight during the week 23,627 bales, against 30,138 bales for the same week of 1896, and that the increase in amount in sight to-night as compared with last year is 1,408,447 bales.

WEATHER REPORTS BY TELEGRAPH.—Our telegraphic advices from the South this evening indicate that outside of Texas dry weather has been quite general all the week. In Texas the conditions have been very favorable, rain having been beneficial, and the plant is now growing rapidly. Reports from Mississippi denote that the crop is improving in that State, but in Arkansas, Tennessee, part of Alabama and along the Atlantic, cool weather is complained of. At the close of the week, however, the temperature has been higher in many districts. Insects are said to be injuring stands in the vicinity of Mobile. The Mississippi is slowly falling at all points.

Galveston, Texas.—Rains during the early part of the week over the greater part of the State have put the ground in excellent condition, and the fair weather now prevailing is very favorable for cotton. The plant is growing rapidly. Finer weather for the crop could not be desired. Some injury by worms has occurred over the western portion of the State. Farmers busy cleaning out cotton. There has been rain on two days during the week, to the extent of thirty-three hundredths of an inch. The thermometer has ranged from 68 to 81, averaging 74.

Polesine, Texas.—It has rained on one day of the week and the rainfall has been sixteen hundredths of an inch. Average thermometer 70, highest 84 and lowest 56.

Huntsville, Texas.—We have had rain on one day of the past week, the rainfall being seventy-five hundredths of an inch. The thermometer has averaged 71, the highest being 86 and the lowest 56.

Dallas, Texas.—It has rained on one day of the week, the precipitation reaching fifteen hundredths of an inch. The thermometer has averaged 70, ranging from 56 to 65.

San Antonio, Texas.—There has been rain on two days of the past week, the precipitation reaching fifty-eight hundredths of an inch. The thermometer has ranged from 58 to 86, averaging 72.

Luling, Texas.—There has been no rain during the week. Average thermometer 73, highest 88 and lowest 58.

Columbia, Texas.—It has rained on two days during the week, to the extent of one inch and thirty-five hundredths. The thermometer has averaged 70, the highest being 83 and the lowest 57.

Cuero, Texas.—Rain has fallen on one day of the week, the precipitation reaching forty-eight hundredths of an inch. The thermometer has averaged 69, ranging from 50 to 88.

Brenham, Texas.—There has been light rain on two days of the week, the rainfall reaching fifty-four hundredths of an inch. The thermometer has ranged from 58 to 88, averaging 73.

Fort Worth, Texas.—We have had rain on one day during the week, the precipitation reaching eight hundredths of an inch. The thermometer has averaged 70, the highest being 84 and the lowest 56.

Wenatch, Texas.—It has been showery on one day of the week, the precipitation reaching three hundredths of an inch. The thermometer has averaged 70, ranging from 56 to 85.

New Orleans, Louisiana.—There has been no rain during the week. Average thermometer 74.

Shreveport, Louisiana.—We have had rain on two days of the week, the precipitation reaching five hundredths of an inch. The thermometer has ranged from 55 to 86, averaging 70.

Columbus, Mississippi.—Prospects are improving but rain would benefit the crop. We have had no rain during the week. The thermometer has averaged 70, the highest being 79 and the lowest 60.

Leland, Mississippi.—Telegram not received.

Vicksburg, Mississippi.—We have had no rain during the week. Good crop weather is prevailing. The thermometer has ranged from 55 to 86, averaging 70.

Little Rock, Arkansas.—We have had no rain during the week. Average thermometer 67, highest 87, lowest 52.

Helena, Arkansas.—The weather has been dry and cool the past week. Crops are not doing well. Cotton has a bad stand and is late on uplands. Much of the bottom land is still under water and the river is falling slowly. It is warmer to-day. The thermometer has averaged 62, the highest being 81 and the lowest 47.

Memphis, Tennessee.—The weather has been fine for farm work during the week, but the growth of crops has been retarded by cold nights. Lately, however, the weather has been warmer. Replanting is active. There has been rain on one day of the past week, the rainfall being fifty-five hundredths of an inch. The thermometer has averaged 66.6, ranging from 51.2 to 85.

Nashville, Tennessee.—We have had no rain the past week. The thermometer has ranged from 45 to 85, averaging 65.

Montgomery, Alabama.—The weather has been more favorable. There has been rain on two days during the week, the rainfall being thirty-nine hundredths of an inch. The thermometer has averaged 68, the highest being 81 and the lowest 56.

Madison, Florida.—The cotton plant is small and not growing well. The weather has been rather too cool. There has been no rain during the week. The thermometer has ranged from 59 to 88, averaging 73.

Mobile, Alabama.—Crop accounts are not favorable. Cool nights are checking growth and insects are injuring stands. There has been rain on one day during the week, the rain-

fall reading seventeen hundredths of an inch. Average thermometer 70, highest 85, lowest 55.

*Augusta, Georgia.*—We have had no rain during the week. The thermometer has averaged 69, the highest being 87 and the lowest 53.

*Savannah, Georgia.*—We have had rain on two days of the week, the rainfall reaching twenty-two hundredths of an inch. The thermometer has averaged 72, ranging from 58 to 90.

*Charleston, South Carolina.*—There has been rain on two days of the week, the rainfall reaching fourteen hundredths of an inch. Average thermometer 71, highest 82 and lowest 61.

*Stateburg, South Carolina.*—Nights continue unseasonably cool, but conditions otherwise are favorable. We have had no rain the past week. The thermometer has averaged 70-1, the highest being 86 and the lowest 52.

*Greenville, South Carolina.*—It has been dry all the week. The thermometer has averaged 68, ranging from 58 to 79.

*Wilson, North Carolina.*—It has rained on one day during the week, the rainfall being ten hundredths of an inch. The thermometer has ranged from 55 to 86, averaging 71.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock May 20, 1897, and May 21, 1896.

	May 20, '97.	May 21, '96.
New Orleans.....	Feet. 19-1	Feet. 7-2
Memphis.....	25-5	11-0

**OUR COTTON ACREAGE REPORT.**—Our cotton acreage report will probably be ready about the 9th of June. Parties desiring the circular in quantities, with their business card printed thereon, should send in their orders as soon as possible, to ensure early delivery.

**HIGH WATER IN THE MISSISSIPPI.**—A considerable improvement in the flood situation in the Mississippi Valley has occurred this week. The water is receding at all points and in Arkansas and Mississippi crops are being put in on recently submerged land.

**INDIA COTTON MOVEMENT FROM ALL PORTS.**—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to May 20.

BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.

**ALEXANDRIA RECEIPTS AND SHIPMENTS.**—Through arrangements we have made with Messrs. Davies, Benachi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt.	1896-97.		1895-96.		1894-95.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Receipts (cantars)....						
This week.....	16,000		7,000		1,000	
Since Sept. 1.....	5,742,000		5,192,000		4,531,000	
Exports (bales)....						
To Liverpool.....	310,000		5,000		4,000	
To Continent.....	4,000	335,000	4,000	300,000	4,000	317,000
Total Europe.....	4,000	645,000	9,000	629,000	8,000	573,000

\* A cantar is 98 pounds.

† Of which 1,000 in 1896-97, 47,019 bales; in 1895-96, 53,993 bales; in 1894-95, 40,993 bales.

**MANCHESTER MARKET.**—Our report received by cable to-night from Manchester states that the market is easy for yarns and quiet for shirtings. Production is being curtailed slowly. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

**SEA ISLAND COTTON MOVEMENT.**—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (May 21) and since Sept. 1, 1896, the stocks to-night, and the same items for the corresponding periods of 1895-96, are as follows.

Receipts to May 21.	1896-97.		1895-96.		Stock.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1897.	1896.
Savannah.....	30	82,896	53	74,481	8,659	1,028
Charleston, &c.....	.....	10,380	.....	10,420	1,433	680
Florida, &c.....	.....	6,733	.....	4,783	2,037	1,238
Total.....	30	100,009	53	89,634	12,729	2,946

The exports for the week ending this evening reach a total of 335 bales, of which 335 bales were to Great Britain, — to France and — to Reval, and the amount forwarded to Northern mills has been 248 bales. Below are the exports for the week and since September 1 in 1896-97 and 1895-96.

Exports from—	Week Ending May 21.			Since Sept. 1, 1896.			North's Mil. s.

Total 1895-6	1,309	145	1,454	40,875	7,046	47,921	1,028	39,202

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations May 21 at Savannah, for Floridas, common, 8c.; medium fine, 10c.; whole, 13 1/2c.

Charleston, Carolinas, medium fine, 15@17c.; fine, 18c.; fully fine, 19@20c.; extra fine, 25@33c.

**EXCHANGES.**—The following exchanges have been made during the week:

'08 pd. to exch. 1,400 Aug. for July.	'03 pd. to exch. 300 Aug. for May.
'07 pd. to exch. 800 Aug. for June.	'06 pd. to exch. 2,300 Aug. for July.
'18 pd. to exch. 200 Dec. for Sept.	'43 pd. to exch. 600 Nov. for Aug.
'08 pd. to exch. 1,000 Aug. for July.	'02 pd. to exch. 500 Oct. for Dec.
'50 pd. to exch. 1,500 Nov. for Aug.	'47 pd. to exch. 500 Jan. for July.
'11 pd. to exch. 1,500 Nov. for Feb.	'46 pd. to exch. 500 Jan. for July.

'04 pd. to exch. 300 Dec. for Jan.	

**EGYPTIAN CROP.**—Under date of Alexandria, April 30, Messrs. Mohr & Fendler report to the S. Blaisdell Jr. Co. of Boston as follows:

The sowing of the new crop is about finished. The weather has been favorable and a second sowing was necessary only in a very few cases. The slow growth of the plant, caused by the cool temperature, is not considered harmful to the crop. It is our opinion that the acreage laid out in cotton this year has been increased 3 to 5 per cent, so that if the crops do not suffer severely during the summer the outlook is for a large harvest.

**EAST INDIA CROP.**—From Messrs. Gaddum & Co.'s cotton report, dated Bombay, April 17, we have the following:

The deaths from plague show a further decrease this week. \* \* \* From Tuticorin we hear that good rains have fallen throughout the Tinnivelly district, which are expected to materially improve the prospects of the second picking, though the effect upon the ungathered portion of the earlier sowings may be less satisfactory.

Under date of May 6 the same firm reports by telegraph as follows:

The belief has existed in the minds of many people since last Autumn that the approach of the monsoon would witness a smart fall in sterling exchange, and the experience of the last few days would appear to justify such a prediction, for there has been quite a break in rates. Unfortunately, however, for the cotton exporter, this decline has in no way assisted his position, for the dealers have been so quick to raise their rupee prices that the fall in exchange is fully counterbalanced. The market remains very steady. Whole receipts are again phenomenally small, whereas the Bengal figures keep up wonderfully well, which is the more surprising when one remembers the bad accounts so freely circulated with regard to this crop early in the season.

**GOVERNMENT WEEKLY COTTON REPORT.**—Mr. W. L. Moore, Chief of the Weather Bureau of the Agricultural Department, made public on Tuesday the following telegraphic reports on the crops in the Southern States for the week ending May 17:

**VIRGINIA.**—Abundant and general rains, with warmer weather, has made a decided improvement in all crops; cotton and peanut planting under way.

**NORTH CAROLINA.**—Very favorable week, warm, with plenty of rain, causing rapid growth of crops and brightening prospects materially; cotton doing much better.

**SOUTH CAROLINA.**—Marked improvement in stands of cotton; cotton chopping progressing slowly, fields well cultivated and free from weeds.

**GEORGIA.**—Good, seasonable showers and warmer weather have caused general improvement in all growing crops; corn and cotton improving steadily.

**FLORIDA.**—Week decidedly more favorable; warmer and rainfall fairly well distributed, reviving cotton.

**ALABAMA.**—Cotton and corn much improved by general rains, except in some northern counties, where rains were excessive; cool nights again checking growth; cotton chopping progressing rapidly and second plowing making fair stands.

**MISSISSIPPI.**—Cotton fair stand generally, and some few are done chopping; cutworms damaging crops and some replanting; planting continues on lowlands as water recedes.

**LOUISIANA.**—Rainfall unequally distributed, but generally beneficial; cool nights unfavorable to cotton, stands poor, some flies and worms, chopping out continues; replanting overflowed lands in upper five parishes commenced; backwater declining slowly.

**TEXAS.**—Cotton improved by general showers, except in scattered localities where damaged by excessive rains; worms injuring crops in few places over western portion; warm sunshine would benefit crop generally.

**ARKANSAS.**—Cool nights and cutworms have prevented improvement in condition of cotton and corn, which are poor in color and stand; cotton being chopped out and corn worked.

**TENNESSEE.**—Damaging rain east and middle sections with cool weather latter part of week; cutworms injuring corn and cotton and bad stands require much replanting.

**MISSOURI.**—Cotton doing well.

**OKLAHOMA.**—Cotton poor.

The Department summarizes these reports as follows:

The reports indicate an improvement in the condition of cotton in the Carolinas, Georgia, Alabama and Texas. In the last-named State, however, some damage has resulted from excessive rains and insects. Cool nights have proved unfavorable in Arkansas and Louisiana, where stands are poor, and where insects have caused injury. Bad stands and complaints from cutworms are also reported from Tennessee.

**STATE WEEKLY COTTON REPORTS.**—We give below summaries of the reports for the week ending May 17 issued by the various States, under the auspices of the Weather Bureau of the United States Department of Agriculture, so far as they apply to cotton.

**VIRGINIA.**—Abundant and general rains have occurred the past week, which, with warmer weather, have caused a decided improvement in all classes of crops and vegetation over the condition as previously reported. Peanut and cotton planting is progressing rapidly and some of this work has been finished. The area planted to cotton is larger than usual.

**NORTH CAROLINA.**—*Eastern District.*—A very nice week, quite favorable for growing crops, which have improved materially. The rain has turned crops green and started them to growing nicely. Cotton replanting about done. It is coming up better and have planted has good stand. Chopping cotton continues. *Central District.*—The first of the week was warm and dry, followed by fine, warm rains, causing vegetation to grow rapidly, but changed to cooler latter part. Grass is now coming on the farmer a little. Cotton now fair stand, about all planted, chopping and cultivation going on. *Western District.*—A week very favorable for growing crops. The weather turned cooler toward end of the week, which has retarded growth a little. Cotton not growing quite so well as it should on account of cool nights, but rain has made it come up better, with fair stand. Chopping cotton continues.

**SOUTH CAROLINA.**—Considerable of the cotton which it was believed necessary to re-plant came up after the recent rains and stands are consequently more promising, although irregular as to size. Its color has improved but little, and the cool nights at the close of the week checked the growth of the plant somewhat. Chopping to stands is progressing slowly and is nowhere much more than half finished and over the western counties only fairly begun. The crop is reported clean, except in Pickens and Kershaw, where fields are becoming grassy. Some reports indicate perfect stands, and may only fair, with spots that are very poor. On the whole the plant is in a good average condition for the season. Warm weather would help cotton.

**GEORGIA.**—The general weather conditions have been more favorable, especially so up to the last two days. At the close of the week the temperature is a little too low for the best interests of growing crops. The showers were general over the State about the middle of the week did much good to growing vegetation. Corn and cotton have made considerable improvement, though bad stands and damage by cutworms are reported in some counties.

**ALABAMA.**—The first part of the week was warm and generally favorable and general rains during middle of week were beneficial, except in extreme northern and northwestern counties, where they were excessive; rains were heavy but not excessive in southern counties and well distributed in other portions of the State, but cool and brisk northerly winds of the last few days of the week gave all staple crops another setback. As a whole the temperature for the week was deficient. Cotton is clean but small and growing very slowly; the second planting is making fairly good stands, but considerable replanting is being done in northern counties; chopping is finished in some southern counties and is progressing rapidly in northern portions of the State; the crop is in condition for rapid growth, with a warm period.

**MISSISSIPPI.**—The week ending May 17 gave generous and refreshing rains, which improved all crops. Cotton only a fair stand generally, and there is much complaint of cool weather injuring the plant. Corn is doing better than cotton and some corn is about ready to be laid by. Complaints continue of damage by cutworms. Planting is progressing on lowlands as the water recedes.

**LOUISIANA.**—The week gave generous rains to the greater portion of Louisiana, although areas in south central, south-east and west central portions had less than an average weekly fall. While the rainfall was beneficial to the crops and growth of vegetation the cool nights had a retarding effect on growth, and a period of hot, sunshiny weather is needed to bring up the stands of cotton and corn. Field work was delayed by the frequent rains over considerable areas during the early

part of the week. Chopping out the cotton continues, but the stands are reported below an average in nearly all sections. The crop is being injured by worms and continues dying out in localities, necessitating some additional replanting. Taken all in all, however, the evils will probably be remedied by a period of favorable weather conditions. Lice are reported in localities. Reports from Madison and neighboring parishes affected by overflow state that the backwater is declining slowly and that planting on overflowed land has commenced and that it is anticipated that the greater portion of the overflowed area will be replanted early in June. The backwater is at a stand or declining slowly in Catahoula. Some farm lands on the right bank of Bayou des Glaises have been overflowed during past week.

**MISSOURI.**—Cotton is generally doing well in the southeast and is being worked out. In Dunklin County, however, considerable replanting was necessary, owing to poor soil and damage by cutworms.

**ARKANSAS.**—Cool nights and the ravages of cutworms have prevented any improvement in the condition of cotton and corn, which are both growing very slowly and of poor color. Cotton has in some places been replanted the third time before a stand could be obtained. Chopping out cotton has begun and corn has been plowed the second and third time. Warm nights, sunshiny days and an occasional shower would improve all crop prospects.

**TENNESSEE.**—The week opened with rainy weather, especially in the Eastern and Middle sections, where heavy damaging rains fell over the greater portion of this territory, washing away soil on uplands and flooding lowlands, besides causing a suspension of farm work. The latter part of the week was more favorable, but the cool weather which prevailed checked the healthy growth of young crops and favored the ravages of cutworms and other insect pests. The early plantings of corn are being worked over. In many places bad stands are so much the rule that many fields have been plowed up and planted over. This is also true of the cotton crop, especially in the western counties. Besides, the cool weather was quite detrimental, and a period of warm sunshine is needed to restore these young crops to a healthy condition.

**OKLAHOMA AND INDIAN TERRITORY.**—Complaints were very general up to the 13th of too much rain, cloudy weather and low temperature, hurting cotton seriously and retarding growth of corn, but since the 13th all crops have grown well, cotton excepted. A great deal of cotton in central and southern sections, reported either as not up, or having been washed out by heavy rains, or badly injured by cool weather, and it is now thought to be too late to replant second time. At Nixon, Atoka County, I. T., a few cutworms are working on cotton. The general outlook for all crops, cotton excepted, is excellent.

**JUTE BUTTS, BAGGING, &c.**—The demand for jute bagging has been rather quiet during the week under review, but prices continue as last quoted, viz.:  $5\frac{1}{4}$ c. for  $1\frac{3}{4}$  lbs.,  $5\frac{5}{8}$ c. for 2 lbs. and  $6\frac{1}{8}$ c. for standard grades. Car-load lots of standard brands are quoted at  $5\frac{1}{2}$ c. for  $1\frac{3}{4}$  lbs.,  $5\frac{5}{8}$ c. for 2 lbs. and  $6\frac{3}{8}$ c. for  $2\frac{1}{4}$  lbs. f. o. b., at New York. Jute butts have been dull at 105c. for paper quality, 130c. for mixing and  $1\frac{1}{4}$ c. for bagging, all to arrive.

**SHIPPING NEWS.**—The exports of cotton from the United States the past week, as per latest mail returns, have reached 67,358 bales. So far as the Southern ports are concerned these are the same exports reported by telegraph and published in the CHRONICLE last Friday. With regard to New York we include the manifests of all vessels cleared up to Thursday.

	Total bales.

## BREADSTUFFS

FRIDAY, May 21, 1897

Only a limited volume of business has been transacted in the market for wheat flour. Demand has been confined almost exclusively to peddling orders to meet immediate requirements, as the weaker turn to the grain market has had a tendency to keep buyers out of the market. Values have ruled easy, and for spring patents quoted prices have been lowered about 10c. per barrel. City mills have been quiet and easier. The demand for rye flour has been limited to jobbing lots, but no changes have been made in quoted prices. Corn meal has had a slow sale, and the tone of the market has been easy, although no changes have been made in quoted values.

There has been a moderately active speculation in the market for wheat futures, but it has been at a decline in prices, which show a net loss for the week of 3 1/2 @ 3 1/4 c. for the near-by delivery and 2 1/2 @ 2 1/4 c. for the distant months, under free offerings, prompted by favorable crop prospects, both at the West and abroad, and quiet and weaker foreign advices. There was a gradual weakening of prices during the first half of the week, under liquidation by longs and selling for short account, induced by improved crop accounts from the West and Europe, a subsidence of the export demand and in sympathy with the easier turn to the foreign market. Wednesday and Thursday, however, there was some buying for foreign account and this stimulated a demand from shorts to cover contracts, on which prices advanced 3/4 @ 1 1/4 c. To-day, however, under

continued favorable crop account and easier foreign advices accompanied by selling orders, the market again turned weaker and closed easy, with prices 1 @ 1 1/4 c. down for the day. In the spot market only a limited volume of business has been transacted and prices have declined with futures. To-day the market was dull and easier. No. 1 hard Duluth was quoted at 81 1/2 c. f. o. b. afloat; No. 1 Northern Duluth at 81 1/2 c. f. o. b. afloat; No. 1 Northern New York at 80 1/2 c. f. o. b. afloat, and No. 2 hard winter at 79 1/2 c. f. o. b. afloat.

### DAILY CLOSING PRICES OF NO. 2 HARD WINTER WHEAT.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery.....c.	81 1/2	80 3/4	78 1/2	79 1/2	80	78 1/2
July delivery.....c.	78 1/2	77 1/2	76 1/2	76 1/2	77 1/2	76 1/2
September delivery.....c.	74 1/2	73 1/2	72 1/2	72 1/2	73 1/2	72 1/2
December delivery.....c.	75 1/2	74 1/2	74	74	74 1/2	73 1/2

There has been an absence of speculative interest in the market for Indian corn futures, and prices have gradually weakened, in sympathy with the depression in the wheat market. There has continued, however, an active export demand, and this has prevented a material weakening of prices. To-day the market was quiet but steady. In the spot market a large business has been transacted for export, the sales here and at out-ports for the week to shippers amounting to about 3,000,000 bushels. To-day the market was steady. The sales included No. 2 mixed at 29 1/2 c. in elevator and 30 1/4 c. f. o. b. afloat; also No. 2 yellow at 3 1/4 c. in elevator.

### DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery.....c.	30	30	29 1/2	29 1/2	29 1/2	29 1/2
July delivery.....c.	30 1/2	30 1/2	30 1/2	30	30	30
August delivery.....c.	31	30 1/2	30 1/2	30 1/2	30 1/2	30 1/2
September delivery.....c.	31 1/2	31 1/2	31 1/2	31	31	30 1/2

The speculation in the market for oats for future delivery has been dull, but there has been a slight weakening in prices in sympathy with the decline in other grains. To-day the market was quiet but steady. There has been an active business in the spot market, large sales for through shipments from the West having been made to shippers. The total export sales for the week amount to about 1,000,000 bushels. To-day the market was unchanged and steady, with No. 2 mixed at 22 1/4 c. in elevator and No. 2 white at 27 c. in elevator.

### DAILY CLOSING PRICES OF NO. 2 MIXED OATS.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery.....c.	22 1/2	22 1/2	22 1/2	22 1/2	22 1/2	22 1/2
July delivery.....c.	22 1/2	22 1/2	22 1/2	22 1/2	22 1/2	22 1/2

Rye and barley have had a fair sale and prices for the week show little change, closing steady.

The following are closing quotations:

FLOUR.		GRAIN.	
Patent, winter.....	\$4 60 @ 4 85	Corn, per bush—	c. c.

## THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., May 21, 1897.

The meeting of Southern manufacturers held at Charlotte on Saturday last turned out less important than had been expected. It was composed almost entirely of representatives of yarn mills and the curtailment resolution adopted by them is regarded as inconclusive. In some quarters there were expectations that this meeting might prove a helpful factor in the situation, but the week's experience shows that it has had no general influence whatever. In all lines of staple cottons the demand has continued dull and still almost entirely confined to spot goods. In seasonable fancies, also, business has been dull, but in certain fall specialties Southern buyers, who are now here in some number, have occasionally operated with a fair amount of freedom. There has been no improvement in prices in any direction, nor do buyers show any apprehension of higher values. At the same time sellers, whilst meeting the current demand readily on the current basis, show a generally steady determination to resist further concessions. In the woolen goods division of the market a slow demand has been reported and with an easier market for raw material and prospects of protracted tariff legislation the recent upward tendency in prices seems to have reached its limit, for the time being at all events.

WOOLEN GOODS.—There has been a quiet demand only for any description of men's wear woollens and worsteds in heavy weights. Buyers are generally filled up for primary requirements, and with an easier tendency in the market for raw material, and the chances of the tariff bill not passing for a considerable time to come, they are quite conservative in adding to their engagements. The local strike in the tailoring trade has a restrictive influence over the demand also. The tone of the market is generally firm, but there is no present tendency towards higher prices discernible in either staples or fancies. Suitings are inactive and only limited sales reported in cotton-warp cassimeres, doeskin jeans, etc. Sales of overcoatings have been on a quiet scale only, but a fair demand is again reported in cloaking. The dress-goods

business of the week has been limited, but the market continues generally firm. Flannels and blankets inactive at previous prices. Carpets in fair demand.

DOMESTIC COTTON GOODS.—The exports of cotton goods from this port for the week ending May 17 were 15,616 packages, valued at \$572,072, their destination being to the points specified in the tables below:

NEW YORK TO MAY 17.	1897.		1896.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain.....	40	1,920	58	909

China, via Vancouver*.....	...	9,250	...	13,707
Total.....	15,616	112,951	5,985	95,064

\* From New England mill points direct

The value of the New York exports for the year to date has been \$4,111,877 in 1897 against \$3,723,063 in 1896.

The demand from the home trade for brown sheetings and drills has been light and confined, with rare exceptions, to spot goods. These can be bought readily at prevailing prices, but sellers are still generally reserved over future business, hardly more so, however, than buyers. The exports of cotton goods last week were exceptional on account of existing contracts, but new business has been quite moderate. Sales of bleached shirtings have been indifferent in the aggregate, but prices rule steady in all grades. The market for wide sheetings, cotton flannels and blankets and quilts has been without new feature of moment. Sales of denims continue on a quiet scale with prices maintained. Ticks, checks and stripes, plaids and chevrons are steady, but sell slowly. Kid-finished cambrics inactive. Fancy calicoes and printed specialties are slow and regular prints dull. Gingham also dull and featureless. Napped fabrics for fall in fair request. Print cloths have ruled firm at 2-7-16c. for extras, but no sales thereat. Odd goods quiet.

Stock of Print Cloths—	1897.	1896.	1895.	1894.
At Providence, 64 squares...	490,000	279,000	144,000	227,000
At Fall River, 64 squares...	291,000	872,000	20,000	445,000
At Fall River, odd sizes...	434,000	545,000	64,000	117,000

Total stock (pieces).... 1,215,000 1,633,000 223,000 789,000

FOREIGN DRY GOODS.—The demand for seasonable lines of foreign merchandise has been of a perfunctory character only and without special feature. Orders for fall goods have come in slowly in all lines, but there has been no change in the general tone of the market.

IMPORTATIONS AND WAREHOUSE WITHDRAWALS OF DRY GOODS.

**New York.—Tax Rate Bills Signed by the Governor.**—On May 18, 1897, Governor Black signed the general and insane tax rate bills, thereby fixing the tax rate of New York State for 1897 at 2-67 mills. The following statement shows the various items which go to make up this amount:

	Mills.
For general purposes .....	18
Canals .....	175
Schools .....	91
Canal maintenance .....	21
Canal (special) .....	995
State care of the insane .....	110
<b>Total .....</b>	<b>2-67</b>

The valuation of the property of the State is \$4,495,802,591 and it is estimated that the tax will yield the following revenue:

For general purposes .....	\$809,244.47
Free schools .....	4,091,180.36
New work on canals .....	202,311.12
Payment of canal debt .....	584,454.34
Canal tax for maintenance and ordinary repairs .....	944,118.54
Canal tax for extraordinary expenses .....	427,101.24
State care of the insane .....	4,915,352.85
<b>Total .....</b>	<b>\$12,003,792.92</b>

The following are the estimated revenues from indirect taxation:

Estimated surplus Sept. 30, 1897 .....	\$1,474,013.60
Tax on corporations and organization tax .....	2,300,000.00
Inheritance tax .....	2,000,000.00
Licenses fees for sale of liquors .....	3,250,000.00
Arrears and interest of non-resident taxes .....	150,000.00
Fees of public officers .....	35,000.00
Sale of lands .....	40,000.00
Banks (for expenses of Bank Department) .....	30,000.00
Insurance companies (for expenses of Insurance Dept.) .....	185,000.00
Railroad companies (for salaries and expenses of Railroad Commissioners) .....	65,000.00

Special tax for Judges of the Supreme Court, stenographers, and attendants .....	131,595.00
Fees of notaries .....	35,000.00
Pool tax .....	30,000.00
Niagara State reservation .....	8,600.00
Electrical subway Commission .....	60,000.00
Soldiers' and Sailors' Home .....	115,000.00
State prisons .....	25,000.00
Halt duties .....	30,000.00
Miscellaneous .....	75,000.00
<b>Total .....</b>	<b>\$10,048,703.60</b>

## Bond Proposals and Negotiations this week have been as follows.

**Abington, Mass.—Bond Sale.**—The town of Abington has sold \$3,000 of 4 per cent water bonds to E. H. Gay & Co. of Boston, Mass., at 107. Interest on the securities is payable semi-annually at the National Bank of Redemption of Boston, Mass., and the principal will mature May 1, 1926.

**Allegheny, Pa.—Bonds Proposed.**—At the next meeting of the City Council of Allegheny an ordinance will be presented authorizing an election on the question of issuing \$200,000 of bonds for the improvement of Riverview Park.

**Allegheny (Pa.) Third Ward School District.—Bond Sale.**—The "New York News Bureau" reports that the \$160,000 of 4 per cent school bonds of this district, bids for which were opened on May 20, were awarded to P. F. Kelly of Philadelphia at a premium of \$3,421. The securities are of the denomination of \$1,000 each, dated June 1, 1897; interest will be payable semi-annually on the first days of June and December, and the principal will mature at the rate of \$8,000 per annum from June 1, 1898 to 1917, inclusive, both principal and interest being payable at the Second National Bank of Allegheny, Penn.

**Astoria, Ore.—Bond Sale.**—This city has sold \$10,000 of bonds, issued for the erection of an electric-light plant, to a local firm.

**Bangor, Me.—Bond News.**—A report has been published that this city contemplated an issue of bonds. We have been informed by the City Treasurer that the report is without foundation.

**Battle Creek, Mich.—Bond Offering.**—Proposals will be received until 12 o'clock noon June 21, 1897, by the city of Battle Creek for the purchase of \$30,000 of 5 per cent paying bonds. The securities will be dated Sept. 1, 1897; interest will be payable semi-annually on the first days of March and September, and the principal will mature at the rate of \$10,000 per annum from Sept. 1, 1918 to 1920, inclusive, both principal and interest being payable at the National Park Bank of New York City.

The total indebtedness of the city of Battle Creek at the present time amounts to \$190,000; there are also outstanding \$25,000 of school bonds, the school district being a separate corporation from the city of Battle Creek. The assessed valuation for 1896, as equalized by the Board of Supervisors, is \$5,174,887; the real value is estimated at about \$12,000,000.

**Belmont, Mass.—Bond Offering.**—Proposals will be received until 2 o'clock P. M. June 1, 1897, by W. L. Chenery, Town Treasurer, for the purchase of \$40,000 of 4 per cent high school bonds and \$6,000 of 4 per cent sewer bonds. The securities will be of the denomination of \$1,000 each, dated June 1, 1897; interest will be payable semi-annually in Boston, where the principal also will be payable. The high school loan will mature in twenty years from date of issue and the sewer loan in thirty years. Bids for each issue must be made separately and must be accompanied by a certified check for 3 per cent of the amount bid for.

The total indebtedness of the town of Belmont, including these issues, is \$157,150; water debt, included in total debt, \$44,750; sinking funds, \$1,260. The assessed valuation for 1896 is \$4,125,095 and the population in 1895 was 2,843.

**Bennington, Vt.—Bond Offering.**—Proposals will be received until 12 o'clock noon, June 1, 1897, by J. H. Walbridge, Chairman of the Board of Selectmen, North Bennington, Vt., for the purchase of \$100,000 of 4 per cent refunding bonds. The securities will be coupon bonds of \$1,000 each, dated July 1, 1897; interest will be payable semi-annually on the first days of January and July, and the principal will mature July 1, 1917, both principal and interest being payable at the office of the Town Treasurer. These bonds are to refund an issue of bonds now outstanding, amounting to \$112,000, \$12,000 of which will be paid during the year from funds in hand and current taxation. There are also outstanding \$37,000 of 4 per cent bonds maturing from January 1, 1898 to 1901, inclusive. The town has no floating debt; its assessed valuation for 1896 is \$3,603,970; the population in 1890 was 6,393 and at the present time is estimated at 8,000.

**Berlin Falls, N. H.—Bonds Authorized.**—The City Treasurer of Berlin Falls has been authorized to issue \$65,000 of 4 per cent refunding bonds. The securities will be secured by a sinking fund and will mature as follows: \$32,000 in twenty years from date of issue and \$33,000 in thirty years.

**Bethlehem, Pa.—Bond Election.**—On June 18, 1897, the citizens of Bethlehem will vote on a proposition to issue \$75,000 of street improvement bonds.

**Boston, Mass.—Bonds Proposed.**—At a meeting of the City Council of Boston, Mayor Quincy recommended that a loan appropriation of \$300,000 be made for improving school buildings. Orders were also submitted calling for a loan of \$1,517,000 for various municipal purposes.

**Brooklyn, N. Y.—Bond Sale.**—On May 19, 1897, the \$375,000 of 3½ per cent consolidated gold stock issued for improvement of the water system, payable January 1, 1897; \$16,500 of 3½ per cent gold water bonds, payable May 21, 1917, and \$8,500 of 8½ per cent Gravesend gold improvement bonds, payable May 21, 1925, were awarded to Blake Bros. & Co. and R. J. Day & Co. at 104-603, 103-141 and 103-871 respectively. The other bids received were:

N. W. Harris & Co., 103-85 for the entire issue.  
Estabrook & Co., 103-81 for the consolidated stock; 102-55 for the water bonds, and 102-91 for the improvement bonds  
Wood, Huestis & Co., 103-70 for \$25,000 of the consolidated stock and 103-40 for \$25,000 of the same issue.  
Hamilton Trust Co., 103-625 for \$100,000 of the consolidated stock.

Farson, Leach & Co., 103-51 for the consolidated stock; 101-51 for the water bonds, and 102 for the improvement bonds.

Abraham White Banking Co., 103-53 for \$50,000 of the consolidated stock; 103-23 for \$50,000; 103-11 for \$50,000; 102-93 for \$25,000; 102-87 for \$50,000; 102-67 for \$50,000, and 102-53 for \$100,000.

Benwell & Everitt, 103-279 for the entire issue.

Bertron & Storrs, 103-01 for the consolidated stock; 101-60 for the water bonds, and 101-45 for the improvement bonds.

Manufacturers' Trust Co., 103-23 for \$175,000 of the consolidated stock; 102-71 for \$100,000, and 102-10 for \$100,000.

Kings County Trust Co., 103-005 for \$100,000 of the consolidated stock.

H. B. Wilson & Co., 102-75 for \$10,000 of the consolidated stock; 102-67 for \$10,000; 102-50 for \$100,000; 102-30 for \$10,000, and 102-23 for \$90,000.

Wm. B. Sager, 102-25 for \$200,000 of consolidated stock.

L. W. Morrison, 101-51 for water bonds.

John F. Prentiss, 100-875 for water bonds.

Interest on these securities is payable on the first days of January and July.

**Bonds Authorized.**—The Governor has signed the following bills relating to the issue of Brooklyn school bonds: To provide for an appropriation for the school board of the borough of Brooklyn of the city of New York involving the issuing of bonds to the amount of \$2,500,000. Authorizing Brooklyn to issue \$500,000 bonds for erecting, furnishing and completing school buildings. Authorizing an issue of \$200,000 bonds to erect two high schools.

**Charlottesville, Va.—Bond Election.**—On May 27, 1897, an election will be held in this place to decide on a proposition to issue \$30,000 of bonds.

**Chelsea, Mass.—Bond Offering.**—Proposals will be received until 4 o'clock P. M. June 8, 1897, by Thomas B. Frost, City Treasurer, for the purchase of \$110,000 of 4 per cent public improvement bonds. The securities are to be secured by a sinking fund; they will be of the denomination of \$1,000 each, dated April 1, 1897, with interest payable semi-annually on the first days of April and October at the office of the City Treasurer of Chelsea. Of the total issue \$40,000 will mature October 1, 1907, and \$70,000 October 1, 1927. These bonds are issued under an act approved April 1, 1897, authorizing the city of Chelsea to incur indebtedness beyond the limit fixed by law, for refunding special loans and for other purposes. City Treasurer Thomas B. Frost reports that all of the indebtedness of the city of Chelsea is now covered by special laws. Bonds and notes of the city now outstanding amount to \$800,000; special loans, \$139,700; sinking funds, Jan. 1, 1897, \$92,017. In addition there is a park loan of \$60,000, issued outside of the debt limit; a water debt of \$300,000 with a sinking fund of \$29,916 and the improvement loan, now being issued, amounting to \$110,000. The assessed valuation for 1896 is: Real estate, \$20,528,550; personal property, \$2,334,544; total, \$22,913,094; tax rate (per \$1,000), \$16.80. The population in 1890 was 27,903 and in 1895, 31,295.

**Chicopee, Mass.—Bond Sale.**—Estabrook & Co. of Boston have been awarded \$25,000 of gold coupon school bonds of the city of Chicopee at 104.657.

Other bids received were:

Adams & Co., Boston.....	104.571
Geo. A. Fernald & Co., Boston ..	104.316
Third Nat. Bank, Boston.....	104.315
Blodget, Merritt & Co., Boston ..	104.230
Jas. W. Longstreet & Co., Boston ..	104.239
N. W. Harris & Co., Boston.....	104.210
Blake Bros. & Co., Boston.....	104.135
R. L. Day & Co., Boston.....	104.079
Farson, Leach & Co., New York ..	103.910
E. H. Rollins & Sons, Boston.....	103.797
Dietz, Denison & Prior, Boston ..	103.610
Rudolph Kleybolte & Co., New York ..	103.590

The securities bear interest at the rate of 4 per cent and mature in ten years from date of issue.

**Christian County, Ky.—Bond Sale.**—On May 18, 1897, Christian County sold \$100,000 of 5 per cent thirty-year refunding bonds. Part of the securities were taken by parties in Hopkinsville, Ky., at from 103 to 105 and the remainder by the Fidelity Trust & Safety Vault Company of Louisville at 103.

**Colbert County, Ala.—Bond Sale.**—The \$100,000 of 5 per cent read bonds of Colbert County have been awarded to Dietz, Denison & Prior, of Cleveland, O., and Farson, Leach & Co., of Chicago, Ill., at par and accrued interest.

**College Point, N. Y.—Bond Offering.**—Proposals will be received until 3 o'clock P. M. June 7, 1897, by the Village Trustees of College Point for the purchase of \$11,000 of 4 per cent water bonds. The securities will be of the denomination of \$1,000 each and will mature in twenty years from date of issue. Each proposal must be accompanied by a certified check for 5 per cent of the amount bid.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

**Colorado Springs, Col.—Bond Election.**—The citizens of Colorado Springs will in the near future vote on a proposition to issue \$40,000 of water bonds.

**Coryell County, Texas.—Bonds Authorized.**—The County Commissioners have passed an ordinance providing for an issue of \$85,000 of court-house and jail bonds.

**Cumberland, Md.—Bonds Authorized.**—The citizens of Cumberland have voted in favor of a proposition to issue \$20,000 of bonds.

**Danbury, Conn.—Bond Offering.**—Proposals will be received by the city of Danbury until May 29, 1897, for the purchase of \$150,000 of 4 per cent funding bonds at private sale. After that date, if no advantageous offer has been received, bids will be asked for in the usual manner. The securities are to be issued to retire an equal amount of the floating debt. They will be of the denomination of \$1,000 each, dated May 1, 1897, interest will be payable semi-annually on the first days of May and November at the National Park Bank of New York City or the office of the City Treasurer of Danbury, and the principal will mature as follows: \$100,000 at the rate of \$10,000 per annum from May 1, 1927 to 1936, inclusive, and \$50,000 May 1, 1937. The bonded debt of Danbury at the present time amounts to \$491,000; floating debt, \$350,000; total debt, \$881,000; water bonds, included in above bonded debt, \$225,000. The assessed valuation for 1896 is \$6,500,000; the real valuation is estimated at about \$15,000,000; the population is about 19,000.

**Delphos, Ohio.—Bond Sale.**—On May 17, 1897, the \$10,000 of 5 per cent water-works bonds were awarded to Rudolph Kleybolte & Co. of Cincinnati, Ohio, for \$99.777. The other bids received were:

S. Kuhn & Son, Cincinnati, Ohio .....	\$10,850 00
Seasongood & Mayer, Cincinnati, Ohio.....	10,828 50
Mason, Lewis & Co., Chicago, Ill.....	10,827 00
The Lamprecht Bros. Co., Cleveland Ohio.....	10,807 00
Forson, Leach & Co., New York, N. Y.....	10,756 00
Dietz, Denison & Prior, Cleveland, Ohio.....	10,537 50
W. J. Hayes & Sons, Cleveland, Ohio.....	10,535 00
Fourth National Bank, Columbus, Ohio.....	10,435 00
Jas. W. Longstreet & Co., Boston, Mass.....	10,239 30

The securities are of the denomination of \$1,000 each and will mature at the rate of \$1,000 per annum from May 1, 1898 to 1907, inclusive.

**East Cleveland, Ohio.—Bond Election.**—A proposition to issue \$100,000 of water bonds will be put to a vote of the people of the village of East Cleveland on May 28, 1897.

**Egg Harbor City, N. J.—Bond Offering.**—Proposals will be received until 7 o'clock P. M. June 15, 1897, by V. P. Hoffman, City Clerk, for the purchase of \$5,000 of 4½ per cent general improvement bonds. The securities will be of the denomination of \$500 each and will mature in from ten to nineteen years from date of issue.

**Elkhart, Ind.—Bond Sale.**—This city has issued a 6 per cent 10-year sewer bond amounting to \$250.

**Ellsworth, Me.—Bond Sale.**—The \$23,000 of Ellsworth, Me., 4 per cent 30-year refunding bonds were awarded to Woodbury & Moulton, of Portland, Me., at 105.27.

The other bids received were:

Dietz, Denison & Prior.....	*105.870
E. H. Gay & Co.....	1104.590
Adams & Co.....	1104.540
Dietz, Denison & Prior.....	104.510
H. B. Sanders.....	104.410
E. H. Gay & Co.....	104.250
Blodget, Merritt & Co.....	1104.040
E. O. Stanwood & Co.....	1103.270
Street, Wykes & Co.....	1102.660
Farson, Leach & Co.....	102.280
Merrill & Co.....	101.880
Chas. C. Burrill.....	5,000 104.200
	5,000 103.500
	5,000 102.115
	5,000 101.730
	2,000 106.000
	2,000 105.000
	2,000 104.000
T. H. Rich.....	1,000 100.000

\* Bonds to be of the denomination of \$500. † Bonds to be of the denomination of \$1,000. ‡ Bonds to be of the denomination of \$1,000 or \$500.

Bids were requested for bonds of the denomination of \$300, consequently the securities were not awarded to Dietz, Denison & Prior, as their bid was for \$500 bonds and on that account did not comply with the conditions of the sale.

**Far Rockaway, N. Y.—Bonds Authorized.**—The citizens of Far Rockaway have voted in favor of a proposition to issue \$35,000 of road improvement bonds.

**Fayette County, Ky.—Bonds Proposed.**—This county is contemplating the issuance of bonds to pay the cost of building a new court-house.

**Fayetteville, N. Y.—Bond Sale.**—The city of Fayetteville has sold \$15,000 of bonds.

**Florence, Ala.—Bonds Defeated.**—At an election held in the city of Florence on May 15, 1897, the people voted against a proposition to issue \$125,000 of water-works bonds.

**Florence, Col.—Bonds Authorized.**—This city has been authorized to issue 6 per cent gold bonds for a gravity system of water-works. The denomination of the securities will be \$1,000.

**Fort Deposit, Ala.—Bonds Proposed.**—The town of Fort Deposit has under consideration a proposition to issue between \$5,000 and \$10,000 of school bonds.

**Fremont, Ohio.—Bond Offering.**—Proposals will be received until 12 o'clock noon May 31, 1897, by C. F. Bell, City Clerk, for the purchase of \$5,000 of water-works bonds bearing interest at 5 per cent.

**Grand Junction, Col.—Bond News.**—Mr. A. T. Wharton, chairman of the Water Committee of Grand Junction, Col., reports to the CHRONICLE that the \$65,000 of water bonds, the particulars of which were published in our issue of May 8, will be disposed of at private sale.

**Green Bay, Wis.—Bond Sale.**—On May 14, 1897, the \$11,000 of 5 per cent refunding bonds of the city of Green Bay were awarded to Farson, Leach & Co. of Chicago, Ill., for \$11.685.

The other bids received were:

W. J. Hayes & Sons, Cleveland, Ohio.....	\$11,804 00
N. W. Harris & Co., Chicago, Ill.....	11,742 50
The Lamprecht Bros. Co., Cleveland, Ohio.....	11,676 50
Spitzer & Co., Toledo, Ohio.....	11,657 50
Mason, Lewis & Co., Chicago, Ill.....	11,579 70
Citizens' National Bank, Green Bay, Wis.....	11,000 00

The bonds are of the denomination of \$1,000 each, dated April 1, 1897, and will mature in from one to twenty years from date of issue. Both principal and interest are payable at the Kellogg National Bank of Green Bay.

**Greensburg, Pa.—Bond Sale.**—This borough has sold to Dick Bros. & Co. of Philadelphia \$15,000 of 5 per cent bonds. The securities will mature in twenty five years from date of issue, subject to call after five years.

**Hardin County, Ohio.—Bond Offering.**—Proposals will be received until May 31, 1897, by M. M. Thompson, County Auditor at Kenton, Ohio, for the purchase of \$4,000 of county bridge bonds. Interest on the securities will be at 6 per cent and the principal will mature in from 4 to 5 years from date of issue.

**Highland Township, Mo.—Bond Call.**—Two bonds of this township, numbered 11 and 12, for \$500 each, dated January 1, 1892, and bearing interest at 5 per cent have been called for redemption. Interest ceases June 2, 1897.

**Holland, Mich.—Bond Sale.**—On May 11, 1897, the \$18,000 of 5 per cent water bonds were awarded to N. W. Harris & Co. of Chicago, Ill., who offered par and accrued interest and a premium of \$19.27, and also agreed to furnish the blank bonds.

The other bids received were as follows:

	Premium.
Mason, Lewis & Co., Chicago.....	\$737.00
Diets, Denison & Prior, Cleveland.....	677.88
W. J. Hayes & Sons, Cleveland.....	594.00
Samuel A. Mayer, Cincinnati.....	518.75
The Lamprecht Bros. Co., Cleveland.....	512.75
R. L. Kleybolte & Co., Cincinnati.....	490.00
P. H. McBride, Holland.....	477.00
Parson, Leach & Co., Chicago.....	430.00
C. J. De Ros, Holland.....	361.00
Spitzer & Co., Toledo.....	227.50
Kent Co. Savings Bank, Grand Rapids.....	181.00
A. A. Keen, Chicago.....	75.00

D. M. Parson, Chicago, par and interest.  
Chas. E. Temple, Grand Rapids, par and blank bonds.  
Holland City State Bank, for \$9,000, par and interest without expense to the city for negotiating the bonds.

The securities are of the denomination of \$1,000 each; interest is payable annually at the office of the City Treasurer of Holland and the principal will mature Feb. 1, 1908.

The total bonded debt of Holland, not including this issue, amounts to \$29,450. The tax valuation for 1896 is \$1,323,320, which is estimated at less than one-half of the actual value.

**Holyoke, Mass.—Temporary Loan.**—The city of Holyoke has placed a loan of \$50,000 with Bond & Goodwin of Boston at 2½ per cent discount. The other bids received were as follows:

Edgerly & Crocker, Boston.....	2.81
Curtis & Motley, Boston.....	2.80
F. B. Moseley & Co., Boston.....	2.83
Dancomb & Jenkinson, Boston.....	3.00
Jas. W. Longstreet & Co., Boston.....	3.02
Adams & Co., Boston.....	3.03
Blodget, Merrill & Co., Boston.....	3.03
Blake Bros. & Co., Boston.....	2.85 per cent interest.

\* And \$9 premium.

The loan was issued in anticipation of taxes due November 3, 1897.

**Homestead, Pa.—Bond Sale.**—The CHRONICLE has been informed by Louis Rott, Borough Treasurer, that arrangements for the sale of \$20,000 of funding bonds are about completed.

**Houston, Texas.—Bond Offering.**—Proposals will be received until 12 o'clock (noon) June 5, 1897, by the City Secretary for the purchase of \$250,000 of 5 per cent paving and sewer bonds. The securities will be of the denomination of \$1,000 each, dated July 1, 1897; interest will be payable semi-annually and the principal will mature in forty years from date of issue, subject to call after twenty years, both principal and interest being payable at the office of the Union Trust Company of New York City.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

**Hudson, Mass.—Bonds Authorized.**—The citizens of the town of Hudson have voted in favor of a proposition to issue water-works bonds to an amount not exceeding \$50,000.

**Huntingdon, Tenn.—Bond Election.**—A proposition to issue \$16,000 of bonds for the construction of water-works and an electric-light plant will soon be put to a vote of the people of this town.

**Huntington, Conn.—Bond Sale.**—On May 17, 1897, the \$75,000 of 4 per cent gold bonds of the town of Huntington were awarded to Dietz, Denison & Prior of Boston, Mass., at 105.488. The other bids received were:

Parkinson & Burr, Boston, Mass.....	104.711
Jas. W. Longstreet & Co., Boston, Mass.....	101.373
N. W. Harris & Co., Boston, Mass.....	104.849
E. H. Rollins & Sons, Boston, Mass.....	104.276
Street, Wicks & Co., New York City, N. Y.....	104.260
E. C. Stanwood & Co., Boston, Mass.....	103.770
Edw. C. Jones Co., New York, N. Y.....	103.820
R. L. Day & Co., Boston, Mass.....	103.297
Blodget, Merrill & Co., Boston, Mass.....	102.250

Interest on the securities is payable semi-annually on the first days of January and July and the principal will mature in twenty years from date of issue, both principal and interest being payable at the Birmingham National Bank of Derby, Conn.

**Huntsville, Ala.—Bond Offering.**—Proposals will be received until June 1, 1897, by E. R. Matthews, City Clerk, for the purchase of \$40,000 of 6 per cent gold bonds. The securities will be dated July 1, 1897, interest will be payable semi-annually on the first days of January and July and the principal will mature July 1, 1927, both principal and interest being payable at the Mechanics' National Bank of New York City. No bid for less than par will be considered, and each proposal must be accompanied by a certified check for 5 per cent of the amount bid.

**Indiana.—Bond News.**—The Finance Board of the State of Indiana has decided to use the surplus money in the sinking fund for the redemption of the State University bonds, amounting on July last to \$110,000, and bearing 5 per cent interest. A New York firm offered to sell the State \$100,000 of the \$800,000 of State bonds which it holds at 99, which proposition, it is stated, did not meet with approval of the board. The securities held by this firm bear 3 per cent interest and mature in 1909, subject to call in 1899.

**Jefferson County, Texas.—Bonds Authorized.**—The County Commissioners have authorized an issue of \$5,000 of court

house, jail and water-works improvement bonds. The securities are to bear interest at the rate of 5 per cent and will mature in forty years from date of issue, subject to call after five years.

**Kenton, Ohio.—Bond Offering.**—Proposals will be received until 2 o'clock P. M., May 31, 1897, by City Clerk A. F. Smith for the purchase of \$1,200 of 6 per cent street improvement bonds of this city.

**Kern County (Cal.) Lakeview School District.—Bond Sale.**—The \$2,500 of 8 per cent 8-year average school bonds of this district were awarded to the Bank of Bakersfield, at Bakersfield, Cal., at a premium of \$390. The other bids received were:

	Premium.
John F. Sprague.....	\$391.65
F. J. Cooper.....	208.00
A. H. Conger.....	161.00
John A. Frittle.....	113.20
Isaac Springer.....	100.00
De Van & Co.....	80.00
First National Bank, Fresno, Cal.....	50.00
W. N. Cockins.....	10.00

**Kern County (Cal.) Rockville School District.—Bond Sale.**—The bids received for the \$2,500 of 8 per cent 8-year average school bonds of this district were the same as those received for the like amount of Lakeview school bonds, the securities being awarded to the Bank of Bakersfield, at Bakersfield, Cal., at a premium of \$380.

**La Belle Township, Mo.—Bond Call.**—Six per cent ten to thirty year township bonds, dated September, 1891, numbered 15 and 16, have been called for redemption. The bonds are for \$500 each and interest ceases June 2, 1897.

**Los Angeles, Cal.—Bond Sale.**—The "Boston News Bureau" reports that the \$270,000 of 4 per cent gold refunding bonds of Los Angeles were awarded to E. H. Rollins & Sons of Boston. The securities are dated June 1, 1897; interest is payable semi-annually on the first days of June and December, and the principal will mature at the rate of \$6,750 per annum, beginning with June 1, 1898. The bonds are of the denomination of \$250 and \$500, and will be payable, both principal and interest, at the office of the City Treasurer of Los Angeles.

**Mabel, Minn.—Bond Sale.**—On May 14, 1897, the village of Mabel sold \$5,000 of 6 per cent water-works bonds to John Jacobson of Harmony, Minn., for \$5,075. A bid of \$3,055 was received from J. C. Norton, of St. Paul, Minn.

The securities are of the denomination of \$500 each; interest is payable semi-annually and the principal will mature at the rate of \$500 per annum from 1907 to 1916 inclusive.

**Manassas, Va.—Bond Sale.**—The \$75,000 of 5 per cent coupon bonds of the City of Manassas were awarded to W. J. Hayes & Sons of Cleveland, Ohio, at 102.53 1-3. The other bids received were:

Parson, Leach & Co., New York, N. Y.....	101.250
Sperry, Jones & Co., Baltimore, Md.....	101.170
A. J. Bradley, Manassas, Va.....	100.125

The securities will mature in from ten to thirty-four years from date of issue.

**Marion (Ill.) School District.—Bond Offering.**—Proposals will be received until 1 o'clock P. M. July 1, 1897, for the purchase of \$6,000 of school building bonds of this city. The securities will be of the denomination of \$1,000. They will be dated July 1, 1897, interest at the rate of 5 or 6 per cent will be payable annually at the Bank of Marion, and the principal will mature at the rate of \$1,000 yearly. Marion has no debt at present; its latest assessed valuation was \$260,000; the real valuation is estimated at about \$2,000,000. The population is about 3,000.

**Marshalltown (Ia.) Independent School District.—Bond Sale.**—On May 15, 1897, the \$17,000 of 4½ per cent school bonds of this district were awarded to N. W. Harris & Co. of Chicago, Ill., at a premium of \$860.

The other bids received were:

First National Bank, Chicago, Ill.....	\$57,856
Parson, Leach & Co., Chicago, Ill.....	57,835
Rudolph Kleybolte & Co., Cincinnati, Ohio.....	57,825
Chas. R. Hannum, Council Bluffs, Ia.....	57,675
Trowbridge & Co., Chicago, Ill.....	57,575
W. J. Hayes & Sons, Cleveland, Ohio.....	57,364
The Lamprecht Bros. Co., Cleveland, Ohio.....	57,027
S. A. Keen, Chicago, Ill.....	57,000
Campbell, Wild & Co., Indianapolis, Ind.....	57,000
Jas. W. Longstreet & Co., Boston, Mass.....	101.03

\* And blank bonds.

Interest on the securities is payable semi-annually and the principal will mature in ten years from date of issue, subject to call after five years.

**Martin, Tenn.—Bond Sale.**—The city of Martin has sold \$25,000 of 6 per cent water bonds. The securities are of the denomination of \$1,000 each; interest is payable at the office of the City Treasurer of Martin and the principal will mature in twenty years from date of issue.

**Massachusetts.—Bonds Authorized.**—It is reported that \$1,000,000 of park, \$300,000 of highway, \$315,000 of sewer, \$120,000 of armory and \$25,000 of insane asylum bonds of the State of Massachusetts have been authorized.

**Mayville, N. Y.—Bond Offering.**—Proposals will be received until 8 o'clock P. M., June 1, 1897, by the village of Mayville for the purchase of \$10,000 of electric-light bonds. The securities will be of the denomination of \$1,000 each and will bear interest at the rate of 4 or 5 per cent.

**Middlesex County, Mass.—Temporary Loan.**—Middlesex County has awarded a six months' loan of \$100,000 to F. S. Mosely & Co., of Boston, Mass., at a discount of 2.85 per cent and \$1.25 premium. The other bids received were:

	Rate of discount
Bond & Goodwin, Boston, Mass.....	2-92
Edgerly & Crocker, Boston, Mass.....	2-99
New England Trust Co., Boston, Mass.....	3-00
E. H. Rollins & Sons, Boston, Mass.....	3-03

**Michigan City, Ind.—Bond Offering.**—On June 1, 1897, Michigan City will sell \$7,000 of 5 per cent school bonds. The securities will be of the denomination of \$200 each; interest will be payable annually, and the principal will mature at the rate of \$1,400 per annum from 1900 to 1904, inclusive, both principal and interest being payable at the office of the City Treasurer of Michigan City.

**Milford, Del.—Bond Offering.**—Proposals will be received until 12 o'clock noon, June 15, 1897, by Isaac S. Truitt, President of the Town Council, for the purchase of \$42,000 of 4 per cent refunding bonds. The securities will be of the denomination of \$1,000 each; interest will be payable semi-annually on the first days of January and July at the First National Bank of Milford and the principal will mature in thirty years from date of issue, subject to call after ten years. The bonds will be exempt from all State, county and municipal taxation and are to be issued for the redemption of the present light and water loan. Each proposal must be accompanied by a certified check for 1 per cent of the amount bid for.

*The official notice of this bond offering, containing a statement of the town's financial condition at the present time, will be found among the advertisements elsewhere in this Department.*

**Milwaukee, Wis.—Bond Sale.**—On May 18, 1897, the \$200,000 of 5 per cent library and museum coupon bonds of the city of Milwaukee were awarded to Seymour Bros. & Co., of New York City, for \$224,550. The other bids received were:

Farson, Leach & Co., Chicago, Ill.....	\$221,300
Edw. C. Jones Co., New York, N. Y.....	223,554
Rudolph Kleybolte & Co., Cincinnati, Ohio.....	223,420
E. H. Rollins & Sons, Boston, Mass.....	223,078
Illinois Trust & Savings Bank and Mason, Lewis & Co., Chicago, Ill.....	223,000
Parkinson & Burr, Boston, Mass.....	223,024
Blodgett, Merritt & Co., Boston, Mass.....	222,880
Estabrook & Co., Boston, Mass.....	222,700
D. W. Howard, Boston, Mass.....	222,515
Chas. Schick, New Milwaukee, Wis.....	222,400
Blake Bros. & Co. and R. L. Day & Co., New York, N. Y.....	222,300
N. W. Harris & Co., Chicago, Ill.....	221,820
The Lamprecht Bros. Co., Cleveland, Ohio.....	221,580
W. J. Hayes & Sons, Cleveland, Ohio.....	221,437
Adams & Co., Boston, Mass.....	220,810
E. D. Shepard & Co., New York, N. Y.....	220,770
E. Morrison, New York, N. Y.....	220,400
S. A. Keao, Chicago, Ill.....	212,600
Blake Bros. & Co. and R. L. Day & Co., New York, for registered bonds	222,300
Bertron & Storrs, New York, N. Y., for registered bonds.....	221,270

The securities are of the denomination of \$1,000 each, dated Jan. 1, 1897; interest is payable semi-annually on the first days of May and November and the principal will mature at the rate of \$10,000 per annum from May 1, 1898 to 1917, inclusive. Principal and interest are payable at the office of the City Treasurer of Milwaukee or at the office of Morton, Bliss & Co., New York City.

The "Evening Wisconsin" of May 19 says: "The \$24,550 of premium received by the city for the library and museum bonds at yesterday's sale will go into the fund for retiring bonds. The resolution which directed that moneys received in this way should be set aside as a fund with which to build a municipal electric-lighting plant has been rescinded. There are several bond ordinances now before the Common Council that will soon be passed, and ere long the Commissioners of Public Debt will have a sale of two or three hundred thousand dollars' worth of securities."

**Minneapolis, Minn.—Bond Offering.**—Proposals will be received until 2 o'clock P. M. May 28, 1897, by the Committee on Ways and Means of the City Council, care of Wallace G. Nye, City Comptroller, for the purchase of \$400,000 of 4 per cent water bonds and \$100,000 of 4 per cent school bonds. The securities will be of the denomination of \$1,000 each, dated January 1, 1897; interest will be payable semi-annually on the first days of January and July, and the principal will mature on January 1, 1927, both principal and interest being payable at the fiscal agency of the City of Minneapolis in New York City. Each proposal must be accompanied by a certified check for 2 per cent of the amount bid for.

*The official notice of this bond offering will be found among the advertisements elsewhere in this Department.*

**Mount Morris, N. Y.—Bond Offering.**—Proposals will be received until 8 o'clock P. M., June 2, 1897, by the town of Mount Morris for the purchase of \$5,500 of bonds. Bids to be made on the basis of the bonds bearing 4 per cent and 4½ per cent interest. The securities will be of the denomination of \$500 each; interest will be payable semi-annually on the tenth days of June and December at the office of Bingham Bros., Mount Morris, and the principal will mature at the rate of \$500 per annum, beginning with December 10, 1897.

**Munising, Mich.—Bond Offering.**—The village of Munising asks for proposals until 12 o'clock noon, May 31, 1897, for the purchase of \$30,000 of 5 per cent water-works bonds. The securities will be of the denomination of \$500 each, dated May 1, 1897; interest will be payable annually at the office of the Village Treasurer or at any bank in Chicago or New York, as the purchaser may desire. The bonds will mature

at the rate of \$10,000 every five years, beginning with May 1, 1907.

**Navajo County, A. T.—Sale Postponed.**—All bids received for the purchase of the \$12,000 to \$15,000 of court house and jail bonds of Navajo County were rejected and the time for receiving proposals was extended to June 14, 1897, at 12 o'clock noon. The securities are to bear interest at a rate not exceeding 6 per cent, payable semi-annually.

**Nevada County (Cal.) School District—Bond Sale.**—The \$10,000 of 6 per cent gold school bonds of this district were awarded to the Citizens' Bank of Nevada City, Cal., for \$10,310. The other bids received were:

Oakland Bank of Savings, Oakland, Cal.....	\$10,253
De Van & Co., Los Angeles, Cal.....	10,102

The securities are of the denomination of \$1,000 each; interest is payable annually on the first Monday in June at the office of the County Treasurer in Nevada City, Cal., and the principal will mature at the rate of \$2,000 per annum on the first Monday in June from 1898 to 1903 inclusive.

**New Barbadoes Township (N. J.) School District.—Bond Offering.**—Proposals will be received until 8 o'clock P. M. June 1, by George N. Comes, District Clerk, for the purchase of \$13,351 of 5 per cent school bonds. The securities will be dated May 1, 1897; interest will be payable semi-annually and the principal will mature as follows: \$1,351 in 1905 and \$12,000 at the rate of \$2,000 per annum from 1906 to 1911, inclusive. The bonds will be of the denomination of \$500 each, except one bond for \$351. No bid for less than par and accrued interest will be considered, and each proposal must be accompanied by a certified check for 2 per cent of the amount bid for.

**New Bedford, Mass.—Bond Sale.**—The city of New Bedford has sold \$52,000 of 4 per cent gold wharf bonds to the Commissioners of Sinking Funds. The securities are dated May 1, 1897; interest is payable semi-annually on the first days of May and November and the principal will become due in thirty years from date of issue, both principal and interest being payable at the office of the City Treasurer of New Bedford.

**New Orleans, La.—Bond Offering.**—The Board of Drainage Commissioners of the city of New Orleans proposes to issue from \$1,250,000 to \$1,500,000 of drainage improvement bonds, for the purchase of which bids will probably be received until June 14, 1897.

**Newtown (N. Y.) Union Free School District No. 2.—Bond Sale.**—The \$15,000 of 4 per cent school bonds of this district were awarded to E. D. Shepard & Co., of New York City. The other bids received were:

N. W. Harris & Co., New York.....	104,030	Geo. M. Hahn, New York.....	103,270
Leland, Twile & Co., Boston.....	103,975	The Lamprecht Bros. Co., Cleve-	
Walter Stanton & Co., N. Y.....	103,975	land, Ohio.....	103,250
Seymour Bros. & Co., N. Y.....	103,810	W. J. Hayes & Sons, Boston.....	103,170
Farson, Leach & Co., New York.....	103,784	Isaac W. Sherrill, Poughkeepsie.....	102,959
C. H. White & Co., New York.....	103,700	Benwell & Everitt, New York.....	102,870
Bertron & Storrs, New York.....	103,500	Daniel A. Moran & Co., N. Y.....	102,780
Rudolph Kleybolte & Co., N. Y.....	103,310	Street, Wykes & Co., New York.....	101,170
E. Morrison, New York.....	103,200	Edward C. Jones Co., N. Y.....	100,660

The securities are of the denomination of \$1,000 each, dated July 1, 1897; interest is payable semi-annually on the first days of January and July, and the principal will mature at the rate of \$1,000 per annum from July 1, 1904, to 1918, inclusive.

**New York City, N. Y.—Bonds Authorized.**—The bill providing for the issuance of \$2,500,000 of bonds for the improvement of Bryant Park and the construction of a public library building to contain the Lenox, Tilden and Astor libraries has been signed by the Governor.

**Northampton, Mass.—Temporary Loan.**—The city of Northampton has awarded a temporary loan of \$50,000 to F. S. Mosely & Co. of Boston, Mass., at 2 90 per cent and a premium of \$1 25. The other bids received were:

	Rate P. C.	Premium.
Bond & Goodwin, Boston, Mass.....	3-00	\$2 00
Edgerly & Crocker, Boston, Mass.....	3-10	1 00
Curtis & Motley, Boston, Mass.....	3-20	—
Adams & Co., Boston, Mass.....	3-20	—
Bay State Trust Co., Boston, Mass.....	3-25	5 00
Blodgett, Merritt & Co., Boston, Mass.....	3-25	3 00

The loan matures November 1, 1897.

**Ocean City, N. J.—Bonds Authorized.**—The people of Ocean City have authorized the issuance of bonds to the amount of \$40,000 for the construction of a new board walk along the ocean front, laying drains in four avenues and for an addition to the school-house.

**Ogden, Utah.—Bond Offering.**—Proposals will be received until 4 o'clock P. M. June 12, 1897, by Edward H. Anderson, City Recorder, for the purchase of \$81,000 of 5 per cent funding gold bonds. The securities will be dated April 1, 1897; interest will be payable semi-annually at the Chase National Bank of New York City, and the principal will mature in twenty years from date of issue, subject to call after ten years.

**Bond Election.**—On June 8, 1897, the citizens of Ogden will vote on a proposition to issue water-works and electric-light bonds to the amount of \$250,000.

**Oyster Bay, N. Y.—Bond Offering.**—Proposals will be received until 1 o'clock P. M. May 26, 1897, by Samuel J. Underhill, Town Supervisor, for the purchase of \$50,000, 4 per cent bonds. The securities will be of the denomination of \$500 each, and will become due June 1, 1927. Each bid must be accompanied by a certified check for \$5,000. This loan is part of an authorized issue of \$300,000. The present bonded debt of Oyster Bay is \$26,000 and the assessed valuation \$5,000,000.

**Patchogue, N. Y.—Bond Offering.**—Proposals will be received until 11 o'clock A. M., May 29, 1897, by Arlington H.

Carman, Village Clerk, for the purchase of \$20,000 of 4 per cent bonds. The securities will be of the denomination of \$1,000 each, interest will be payable annually and the principal will mature at the rate of \$2,000 per annum from Jan. 1, 1899 to 1909, inclusive.

**Phoenix, Ariz.—Bonds Authorized.**—The citizens of Phoenix have voted in favor of a proposition to issue \$30,000 of twenty-year high-school bonds.

**Portland, Me.—Bond Offering.**—Proposals will be received until 12 o'clock noon June 18, 1897, by the Committee on Finance at the office of George H. Libby, City Treasurer, for the purchase of \$450,000 of 4 per cent gold refunding bonds. The securities will be dated July 1, 1897; interest will be payable semi-annually on the first days of January and July and the principal will mature July 1, 1912. This loan will be issued in the form of coupon bonds of \$1,000 each, with interest payable at the National Bank of Redemption of Boston or the Merchants' National Bank of Portland, or in the form of registered bonds of \$500, or a multiple thereof, interest to be remitted by check to the owner as it becomes due if so desired. These bonds are to refund \$150,000 of the \$497,000 of bonds which became due July 1, 1897, the remainder, \$47,000, to be paid from the sinking fund.

**Port Richmond (N. Y.) Union Free School District.—Bonds Proposed.**—The citizens of this district have under consideration a proposition to issue \$45,000 of school bonds.

**Portsmouth, Ohio.—Bond Offering.**—Proposals will be received until May 27, 1897, by T. C. Beatty, Clerk of the School Board, for the purchase of \$9,900 of school bonds. Interest on the securities will be payable at the rate of 4½ per cent.

**Punxsutawney, Pa.—Bond Sale.**—On May 13, 1897, bonds of this borough to the amount of \$8,000 were awarded to the Edw. C. Jones Co. at 101-25. The other bids received were:  
W. J. Hayes & Sons, Cleveland, ..... 100-80  
P. Collins, Alpha, Pa., ..... 100-75  
A. J. McGregor, Punxsutawney, Pa., ..... 100-30  
A. C. Wells, Punxsutawney, Pa., ..... 100-35

The securities bear interest at the rate of 4 per cent and will mature in thirty years from date of issue, subject to call after eight years.

It is reported that an issue of \$14,150 of refunding bonds will be made later.

**Queens, N. Y.—Bonds Authorized.**—School bonds to the amount of \$50,000 have been authorized.

**Romeo, Mich.—Bonds Authorized.**—The citizens of the village of Romeo have voted in favor of a proposition to issue electric-light bonds.

**Saginaw (Mich.) Union School District.—Bond Sale.**—In April, 1897, \$5,000 of 4½ per cent school bonds of this district were awarded to W. J. Hayes & Sons, of Cleveland, Ohio, for \$5,125. The bonds will mature August 1, 1905, both principal and interest being payable at the Chemical National Bank of New York City.

**Scotland County, Mo.—Bond Call.**—Five per cent bonds of this county, numbered from 1 to 310 inclusive, dated May 12, 1892, and numbers 311 to 347 inclusive, dated March 16, 1896, have been called for redemption; interest ceases June 1, 1897. The bonds are all of the denomination of \$1,000.

**Sharon Springs, N. Y.—Sale Postponed.**—Alfred W. Gardner, Chairman of the Water Commissioners, reports to the CHRONICLE that the sale of \$30,000 of water bonds which was to have taken place May 18, 1897, has been postponed because they are at present not prepared to go on with the water works.

**Southport (N. Y.) School District No. 4.—Bond Sale.**—On May 15, 1897, the \$5,500 of 5 per cent school bonds of this district were awarded to Walter S. Antonio & Co. of New York City at 107-52. The other bids received were:

W. J. Hayes & Sons, Cleveland, Ohio ..... 105-85  
Isaac W. Sherell, Poughkeepsie, N. Y., ..... 105-59  
J. C. Wells, Southport, N. Y., ..... 104-00  
Daniel A. Moran & Co., New York, N. Y., ..... 100-75  
Beaumont & Everett, New York, N. Y., ..... 100-00

Interest on the securities is payable annually and the principal will mature in from 4½ to 15½ years from date of issue.

**Spokane, Wash.—Bonds Defeated.**—The proposition to issue \$206,000 of bonds was not carried at an election held recently in Spokane.

**Syracuse, N. Y.—Bond Sale.**—On May 17, 1897, water bonds of this city to the amount of \$100,000 were awarded to Messrs. Blodget, Merritt & Co. at 102-25. The list of bids received is as follows:

Blodget, Merritt & Co., Boston ..... 102-260  
E. C. Jones Co., New York ..... 102-130  
Blake Bros. & Co., New York ..... 102-110  
N. W. Harris & Co., New York ..... 102-070

## NEW LOANS.

\$500,000

### CITY OF MINNEAPOLIS, MINN.

#### 4½ Water-Works and School Bonds.

OFFICE OF THE CITY COMPTROLLER,  
MINNEAPOLIS, MINN., May 15, 1897.

Sealed proposals will be received at the office of the City Comptroller, Minneapolis, Minnesota, until 2 o'clock P. M., Friday, May 28, 1897, for four hundred Water-Works Bonds and one hundred School Bonds of said city of (\$1,000) one thousand dollars each; the bonds are dated January 1, 1897, mature January 1, 1907, and bear interest at four per cent, payable semi-annually in New York City. Bids will be received for either issue or any part thereof and a certified check on a national bank for two per cent of the par value of the bonds bid for must accompany each proposal. Bids must be addressed to the Committee on Ways and Means of the City Council, care of the undersigned. The Committee reserves the right to reject any or all bids. A circular containing full information for bidders will be furnished upon application to

WALLACE G. NYE,  
City Comptroller.

\$92,000

### Choteau County, Mont.,

#### 6 PER CENT BONDS.

Sealed proposals will be received at the office of the County Clerk of Choteau County, Montana, at Fort Benton, the county seat of said county, up to noon of Monday, June 7th, 1897, for the purchase of \$92,000 coupon bond of said county, said bonds to bear interest at the rate of six per cent per annum, payable semi-annually, in January and July of each year, redeemable in fifteen and payable in twenty years after date of issue. Said bonds are issued for the purpose of converting outstanding warrants and redeeming other bonds of said county now due and payable. Said new bonds will be issued in denominations of \$1,000 each, and bids will be received for the whole or any part of the aforesaid amount. Proposals must be endorsed "Proposals for Bonds", and addressed to E. Frank Sayre, County Clerk, Fort Benton, Montana. The right to reject any or all bids is reserved.

By Order Board of County Commissioners,

E. FRANK SAYRE, County Clerk

## NEW LOANS.

\$150,000

### INDIANAPOLIS, IND.,

#### Public Safety Bonds of 1897.

DEPARTMENT OF FINANCE,  
OFFICE OF THE CITY COMPTROLLER,  
INDIANAPOLIS, IND.

Sealed bids will be received by the city of Indianapolis, Indiana, until Thursday, the twenty-seventh day of May, 1897, at 12 o'clock M. for the whole or any part of \$150,000 Indianapolis Public Safety Bonds of 1897 of said City. Said bonds will be designated "Indianapolis Public Safety Bonds of 1897"; will be dated June 1, 1897, and be of the denomination of \$1,000 each, with interest coupons attached; will bear interest at the rate of four (4) per cent per annum, payable semi-annually on the first day of January and the first day of July of each year. The first coupon on each bond to be for one month's interest only, or from June 1st to July 1st, 1897. The principal is payable on January 1, 1907, and both principal and interest are payable at the banking-house of Winslow, Lanier & Company, New York City. Bids for the purchase of said bonds should be endorsed "Proposals for Indianapolis Public Safety Bonds", and directed to the City Comptroller, Indianapolis, Indiana. Bidders may bid for all or any part of said bonds.

The proposals will be opened by the City Comptroller, at his office, on the 27th day of May, 1897, between the hours of 12 o'clock M. and 2 o'clock P. M., and said Comptroller will thereupon award said bonds, or if he shall see fit, a part or any number thereof, to the highest and best bidder therefor, but said Comptroller shall have the full right to reject any and all bids, or proposals, or any part thereof, and shall have the right to accept a part of any bid, and to award upon any bid the whole or any less number of bonds covered by such bid, he being the sole judge of the sufficiency or insufficiency of any bid, excepting only that no bond shall be sold at less than par and accrued interest. He may also in his judgment and discretion award a part of said bonds to one bidder and a part to another.

Each bid shall be accompanied by a certified check upon some responsible bank of the city of Indianapolis, Indiana, payable to the order of WILLIAM H. SCHMIDT, City Treasurer, for a sum of money equal to two and one-half (2½) per cent of the face or par value of the bonds bid for or proposed to be purchased. The bonds awarded will be delivered at the banking-house of Winslow, Lanier & Company, New York City, on the 10th day of June, 1897, and the successful bidder or bidders shall take the bonds awarded to him or them; and his or their omission, neglect or refusal so to do shall be a breach of the contract of his bid or proposal, on account of which damages shall be recoverable or recovered as liquidated and provided in the ordinance covering this issue.

Said bonds are offered for sale under and by virtue of General Ordinance No. 31, 1897, passed by the Common Council on the 3d day of May, 1897, and approved by the Mayor on the 7th day of May, 1897.

E. M. JOHNSON,  
City Comptroller.

## NEW LOANS.

\$25,000

### TOWN OF PLAINFIELD

WINDHAM COUNTY, CONN.,

#### 4 PER CENT BONDS.

PLAINFIELD, May 4th, 1897

Sealed proposals will be received until 4 P. M. Tuesday, June 1st, 1897, for the purchase of \$25,000 of Town of Plainfield four per cent bonds, or any part thereof, at which time, at the Town Treasurer's Office, at Central Village, Conn., the said bids will be publicly opened and read.

These bonds will be issued in coupon bonds of five hundred dollars (\$500) each, dated May 1st, 1900, \$5,000 of which will become due May 1st, 1906, 5,000 May 1st, 1911, 5,000 May 1st, 1916, 5,000 May 1st, 1921, and the remaining \$5,000 May 1st, 1926, with interest at the rate of four per cent per annum, payable semi-annually on the first days of May and November in each year from May 1st, 1897.

These bonds are issued under and in pursuance of and in full conformity with the laws of the State of Connecticut and a vote of said town passed at a meeting legally warned and held on the 11th day of April, 1896, for the purpose of making permanent improvements on the main highways of the town.

Proposals less than par and accrued interest will not be considered, and the Committee reserve the right to reject any and all bids. Proposals must be endorsed "Proposals for Bonds", and addressed to S. L. ADAMS, Town Treasurer, Central Village, Conn., and must state whether for the whole or a part, and if a part for which issue and the amount bid for. Each bid must be accompanied with a certified check on a National bank for two per cent of the total amount of bonds bid for, payable to the Town Treasurer.

The assessed valuation of real estate and personal property made for taxes by the Town Assessor Oct. 1st, 1896, was \$1,960,947, and the annual town tax laid for some years past has not exceeded ten mills. The financial standing of the Town Aug. 31st, 1896, as taken from the report of the Town Treasurer, gives no indebtedness of \$13,304 10, against which the Town owns property (personal and real estate) to the amount of \$10,440 51; the only bonded debt being this issue of \$30,000 authorized by vote of the Town April 11th, 1896, \$5,000 of which was sold Dec 2d, 1896, leaving the remaining \$25,000 to be sold June 1st, 1897, as noted above. By vote of Town passed April 11th, 1896, the Selectmen and Town Treasurer must provide a sinking fund sufficient to pay said bonds at their maturity.

The securities are of the denomination of \$5,000 each, dated May 1, 1897; interest at the rate of 3½ per cent is payable semi-annually on the first days of January and July at the office of the Metropolitan Trust Company of New York City, and the principal will mature January 1, 1927.

**Tiverton, R. I.—Bonds Proposed.**—Some time during the summer this town will dispose of \$25,000 of 4 per cent bonds. The securities will be of the denomination of \$1,000 and will mature at the rate of one bond each year. The date of the sale has not yet been decided upon.

**Waltham, Mass.—Temporary Loan.**—The city of Waltham proposes to issue a loan of \$50,000 in anticipation of taxes.

**Wasco County, (Ore.) School District No. 12.—Bond Sale.**—The \$30,000 of 6 per cent school bonds of this district were awarded to Dietz, Dennison & Prior of Cleveland. Interest on the securities is payable semi-annually, and the principal will mature in twenty years from date of issue, subject to call after ten years.

**Washington County, Ga.—Bond Election.**—An election will be held in Washington County on June 14, 1897, to decide the question of issuing \$18,000 of bonds for the erection of a new court house. The securities, if authorized, will bear 6 per cent interest and mature in 1917.

**Waterloo, Ia.—Bond Sale.**—The city of Waterloo has sold \$60,000 of funding and refunding bonds at a premium of \$112, on a basis of the bonds bearing 4½ per cent interest. The securities are of a denomination of \$1,000 each, dated May 1, 1897; interest is payable semi-annually at the National Park Bank of New York City. The bonds will mature in twenty years from date of issue, the city reserving the right to pay \$21,000 of the amount at any time after five years.

\$20,000 after ten years and \$30,000 after fifteen years from date of issue.

**Waterville, Me.—Bond Election.**—An election will be held in Waterville within a few weeks to decide the question of issuing bonds to pay the cost of water-works and an electric-light plant.

**West Chester, Pa.—Bond Sale.**—In April, 1897, the borough of West Chester issued \$75,000 of 3½ per cent bonds to redeem a matured loan, most of the redemption bonds being taken by the holders of the old securities. It is expected that about July 1, 1897, the borough will issue \$30,000 of water supply extension bonds.

**Westchester County, N. Y.—Bonds Authorized.**—The County Treasurer of Westchester County has been authorized to issue \$30,000 of bonds for the purpose of paying drafts of the Overseers of the Poor of the several towns of the county issued for the temporary support of the poor since January 1.

**White Plains (N. Y.) School District.—Bond Sale.**—On May 12, 1897, the \$6,750 of 19-year average school bonds of this district were awarded to the Central Bank of Westchester County at their bid of par for the securities bearing interest at the rate of 5 per cent.

**Whitestone, N. Y.—Bond Election.**—On June 7, 1897, the citizens of Whitestone will vote on a proposition to issue \$50,000 of street improvement bonds.

**Wilmington, Del.—Bond Offering.**—Proposals will be received until 12 o'clock noon, May 29, 1897, by Joseph K. Adams, City Treasurer, for the purchase of \$15,000 of 4 per cent sinking fund bonds. The securities will be of the denomination of \$100, or multiples thereof, and will mature October 1, 1925.

**Worcester, Mass.—Temporary Loan.**—A temporary loan of \$100,000, maturing in 5 months from date of issue, has been awarded to F. S. Moseley & Co., of Boston, Mass., at 2-85 per cent, interest to be paid at maturity.

**Bonds Proposed.**—The Legislature of Massachusetts has been petitioned by the city of Worcester for permission to borrow \$1,000,000 for the construction of sewers. This amount would be outside of the city's debt limit.

**Yonkers, N. Y.—Bonds Authorized.**—The city of Yonkers has been authorized to issue bonds to an amount not exceeding \$25,000 for the purchase of certain lands for public dock and other municipal purposes.

## NEW LOANS.

**\$42,000**

### TOWN OF MILFORD, DEL.,

#### 4% Refunding Bonds.

Proposals for \$42,000 Refunding Loan of the Town of Milford, State of Delaware.

Proposals will be received at Milford, Delaware, until 12 M., Tuesday, 15th day of June, 1897, for the purchase of all or any portion of the above loan to be issued in bonds of \$1,000, exempt from all State, county and municipal taxation.

Said bonds are being issued by authority of an Act of the Legislature of the State of Delaware, and pursuant to an ordinance of Town Council, the proceeds to be used for the redemption of the Light and Water Loan.

This loan will bear interest at the rate of 4 per cent per annum, payable semi-annually on the first days of January and July at the First National Bank of Milford, Delaware, and is for thirty years, redeemable after ten years.

The successful bidder or bidders will be required to settle for the bonds at or before 12 M. noon, Wednesday, June 30, 1897.

All proposals to be accompanied by certified check of 1 per cent of the amount of bonds bid for, to be made payable to the order of Isaac S. Truitt, President of Town Council of Milford, Delaware, without conditions, and drawn upon an incorporated bank or trust company located in the City of Boston, New York, Philadelphia or Wilmington, and addressed to Town Council, Milford, Delaware.

The right to reject any or all bids reserved. The checks of unsuccessful bidders will be returned. The assessed valuation of real estate of Milford is \$920,350; poll \$272,550.

There is no other bonded or floating debt of any kind. All bids shall be addressed to President of Council, Milford, Delaware, and marked "Proposals for Refunding Loan."

Any further information may be had by applying to

## CLEARING HOUSE RETURNS.

The following table, made up by telegraph, etc., indicates that the total bank clearings of all the clearing houses of the United States for the week ending to-day, May 23, have been \$905,079,474, against \$971,986,754 last week and \$773,866,298 the corresponding week of last year. Decoration day occurred in the week of last year.

CLEARINGS. Returns by Telegraph.	Week Ending May 20.		
	1897.	1896.	Per Cent.
New York.....	\$411,819,458	\$419,171,401	-1.8
Boston.....	71,819,328	70,007,861	+2.0
Philadelphia.....	45,013,422	51,095,778	-11.0
Baltimore.....	11,416,887	11,493,634	-0.7
Chicago.....	70,745,235	72,884,490	-2.7
St. Louis.....	21,055,394	14,932,248	+41.0
New Orleans.....	5,137,291	5,981,919	-14.1

Total all cities, 5 days.....	\$758,799,860	\$770,378,351	-1.5
All cities, 1 day.....	148,270,814	3,486,947	+4095.0
Total all cities for week.....	\$905,079,474	\$773,866,298	+17.0

The full details of clearings for the week covered by the above statement will be given next Saturday. We cannot, of course, furnish them to-day, bank clearings being made up by the various clearing houses at noon on Saturday, and hence in the above the last twenty-four hours of the week have to be in all cases estimated, as we go to press Friday night.

We present below our usual detailed figures for the previous week, covering the returns for the period ending with Saturday noon, May 22, and the results for the corresponding week in 1896, 1895 and 1894 are also given. Contrasted with the preceding week, there is a decrease in the aggregate exchanges of about twenty and a-half million dollars, and at New York alone the loss is six millions. In comparison with the week of 1896 the total for the whole country shows a decrease of 0.5 per cent. Compared with the week of 1895 the current returns record a decline of 8.1 per cent and the excess over 1894 is 16.1 per cent. Outside of New York the loss from 1896 is 1.2 per cent. The decrease from 1895 reaches 3.3 per cent, and making comparison with 1894 the excess is seen to be 15.9 per cent.

### THE FINANCIAL SITUATION.

The crops are becoming week by week of increasing importance as an influence affecting the industrial situation. They will soon hold a first place among the forces operating either favorably or unfavorably on general business. We say soon, because the early growth is such a very important factor in the final result. Every one knows what added vitality all plants gain through a strong and healthy start; how they thereby become able better to resist every ill in later life they are subject to. An abundant harvest is not assured because of a vigorous early growth; but that is an incident of great promise in the progress towards that end. What has given rise to the hopeful feeling recently entertained respecting the crop outlook relates to just this point; that is to say, seeding is finished under favorable circumstances for spring wheat, corn and oats, and all the plantings have thus far done well, and in most sections much better than a year ago. The only drawback anywhere reported is that in some districts the growth has reached a position where rain would be beneficial; no harm from lack of moisture has as yet been done.

This favorable crop situation, some decisions of the Supreme Court limiting the power of the Inter-State Railroad Commission over freight rates about which we have written elsewhere, and a respite from speeches in the Senate on irritating subjects added to a start by the same body on tariff legislation, have given a more hopeful tone to affairs in Wall Street this week. As a consequence of this changed mood all events current and prospective have been interpreted favorably. Prominent among these naturally enough is tariff revision. The work having been begun, a speedy end to it is the first thought and desire of the business public. There seems to have been no actual evidence in support of the assumption, the information coming mostly over private wires from Washington, yet every one claimed that final action by the Senate was to occur much earlier than has recently been anticipated. To be sure our legislators have been engaged on the bill only a few days and none of the most important schedules have been disposed of. At the same time, some little ground for the assumption is to be found in the fact that the party having the bill in charge proposes to talk itself as little as possible, while up to this time no factious opposition has been disclosed on the part of the opposing party; then, too, it lends hope to the wish, when the public recalls to mind how easily the bill skipped into the Senate gaining two or three weeks of time and sparing the tired merchant and banker that amount of additional discussion in committee. As a result of these suggestions and feelings, what we all want to believe had become early in the week the general verdict, that a very few weeks more would see the present attempt to change the Customs law finished.

On this occasion still another idea is aiding the more hopeful feeling or sentiment now prevailing. A large class of our people is fully convinced that nothing more is needed to ensure prosperity but the passage of a high protective tariff measure; that as soon as Customs revision is completed a revival of business, if not a boom, will be the unquestionable outcome. Even those who do not accept that view know that Customs legislation in progress is a hindrance to industrial development, and that the closing of the work by the enactment of the proposed law

would be a removal of that hindrance. With then the high tariff people taking the broader view and most others seeing in a completed law an obstacle to industrial revival removed, no wonder that the developments of this week have created a better sentiment, leading to almost a buoyant movement at one time. On the other hand, when one looks at the situation and sees how depressed all the leading trades are now—especially those we are wont to look at as indicators of the state of general business, such as iron, coal, dry goods and the like—when one notes the low condition of those industries, the proposal, stated in its naked shape, of giving wings to business by increased taxation, does not look especially promising. Considering the marvel involved, one seems almost forced in a faithless sort of way to ask, "Shall these dry bones live?"

Another circumstance of this week which, as we look at it, is extremely satisfactory and in its tendency helpful, has been the discharge of Mr. Havemeyer by Judge Bradley; if now the prosecution of the coal roads could be brought to an abrupt end we should begin to think our overweighted industries might have a much better chance than they now have of revival. Dramatic efforts of politicians to make a display of zeal in the feigned interest of the poorer classes by the persecution of men simply because they are conspicuous for their wealth has been carried so far that apparently to be industrious and thrifty and clever is rated almost as a stigma. Did we think that any Constitutional principle was at stake in Mr. Havemeyer's trial, we should not feel as we do. The question raised, as we understand it, is not one that necessarily touches the honesty or dishonesty of any member of the Senate, but relates simply to the contributions of the Sugar Trust to political party funds. Those contributions could be large without rightfully injuring in the least the good name of any one. If they bore the same proportion to the capital of the donor that small men's contributions do, they would be large, and being large they might—in the opinion of a numerous class of readers who believe that to be rich is to be sinful—be used to reflect on the donor's own honesty or the honesty of members of the Senate without reason. We may, perhaps, assume that manufacturers as a class—not sugar refiners alone—gave last year and four years before, and generally give, good round sums in a Presidential election to help their party; also that people who believe in freer trade act in a similar manner. In a word, whenever there is an important principle at stake the liberal among the rich do what they can to help the side they believe to be right. Probably the result in 1896 was in great part produced through just such liberality which in the main was used to enlighten the public mind, making the people see and feel that free silver is synonymous with industrial cataclysm. Is it to be the practice hereafter to prosecute criminally any wealthy man and hold him up to public reproach and scorn as "a millionaire on the way to the common jail" for the dreadful crime of having subscribed liberally to the party funds?

President Stuyvesant Fish of the Illinois Central made some interesting observations recently bearing on the forces at work in the railroad world and which are working to the detriment of the roads. The portion of the remarks relating to the utility of traffic associations and agreements for the maintenance of rates has special application and pertinency just now, when, ac-

according to common report, the chances of the passage by Congress of a measure permitting some form of pooling among the roads have been greatly improved through the Supreme Court decisions this week. Mr. Fish says that it was to prevent ruinous competition that traffic associations were brought into being. The multitude of interests, diverse interests, of the roads made it necessary for the autonomy of each that agreements be entered into to prevent working in the dark, to avoid competition that would not advance anything but demoralization, and to give the adherents of commerce the benefits of a stability of tariffs upon which they could base a selling price for their commodities. The action of the courts in breaking up these agreements, the gradual reduction of earnings incumbent upon the enforcement of lower rates than are compatible with paying operation, and the adverse action of legislatures and of Congress, make it apparent that the small roads must go to the wall. They cannot afford to exist. The refusal to permit pooling, Mr. Fish observes, must result in the formation of great traffic lines, which will extend over vast distances and bring the roads in the various sections of the country under one management, and thus control in a manner the railroad situation. "Some persons might be inclined to class these systems as monopolies, and yet, if they do become so, who or what is to blame?"

The Wabash makes a very encouraging showing as to net earnings in its return for the month of April. In the gross earnings there had been a loss as compared with the same month last year of over one hundred thousand dollars—\$100,852—but this was met by a still larger reduction in the expenses, the saving here having been \$148,013, so that the net earnings actually record an increase of \$47,161. It is now certain that the results for the fiscal year to June 30 next will be much better than seemed likely a few months ago. For the seven months to January 31 net earnings had shown a loss as compared with the corresponding period in the previous fiscal year of \$272,893. But this loss has been reduced each month since then, and for the ten months to April 30 the shortage as compared with 1895-6 is now only \$197,498.

The Cleveland Cincinnati Chicago & St. Louis for the same month reports comparatively small changes—\$32,870 increase in gross, \$1,799 increase in net. Southern roads show various results. The Southern Railway has \$86,614 increase in gross, \$70,816 increase in net; the Chesapeake & Ohio, with \$78,824 increase in gross, has only \$369 increase in net; the Central of Georgia, with \$1,351 decrease in gross, has \$27,758 increase in net, and the Cincinnati New Orleans & Texas Pacific has \$36,439 increase in gross and \$38,173 increase in net. In the Southwest the St. Louis & San Francisco has added \$29,776 to its gross and \$19,849 to its net, and the San Antonio & Aransas Pass respectively \$53,200 and \$21,159. The Atchison, with \$307,228 increase in gross, has sustained \$124,072 decrease in net. In the Northwest the Milwaukee & St. Paul falls behind \$162,820 in the gross and \$35,750 in the net, and the Minneapolis & St. Louis, while having suffered a reduction of \$6,155 in the gross, has succeeded in enlarging its net by \$4,822. The Chicago & North Western does not give out the net, but in the gross there is a contraction of \$232,076. Among the anthracite coal roads, the Central of New Jersey has \$21,038 decrease in gross but \$15,224 increase in net.

The New York Susquehanna & Western has \$12,063 decrease in gross, \$4,973 decrease in net. The Reading, on the combined operations of the various companies, shows slightly improved net (in amount \$10,011), but this follows almost entirely from a great contraction in the expenses of the Coal & Iron Company attending a large falling off in the gross receipts of that company.

Money on call, representing bankers' balances, has loaned at the Stock Exchange this week generally at  $1\frac{1}{2}$  per cent, with moderately large transactions at the end of the day at  $1\frac{1}{4}$ , making the average for the week about  $1\frac{3}{4}$  per cent. It was reported on Wednesday that \$1,000,000 had been borrowed by a Boston brokerage firm in this market on call at 1 per cent. This cannot be regarded as establishing a 1 per cent rate for call money, as it was a special matter. It is said that the Boston firm will probably be largely interested on the 1st of June in some Eastern city loans made in anticipation of the collection of taxes, and though the money was in form borrowed on call it will probably not be disturbed until the negotiations for these city loans are completed. Banks and trust companies loan at the rate current on the Stock Exchange. Some moderately large time loans have been made this week at 3 per cent for the remainder of the year, and there appears to be a good inquiry for money for long periods, but very little for less than four months. Quotations for time money are 2 per cent for thirty to sixty days;  $2\frac{1}{4}$  per cent for ninety days to four months; 3 per cent for five to seven, and  $3\frac{1}{2}$  per cent for eight months on good Stock Exchange collateral. Banks having large correspondence with the South report a good inquiry from Southern bankers preparatory to an expected demand for cotton and fertilizers, but as yet no money is moving to that section in response to such inquiry, though it is regarded as probable that the demand for funds for re-discounts will be fully as great as it was last year, and perhaps larger. The supply of commercial paper is good but by no means equal to the demand, which is sufficiently great to absorb all offerings. Quotations are  $3\frac{1}{4}$  per cent for sixty to ninety-day endorsed bills receivable;  $3\frac{3}{4}$  to  $4\frac{1}{4}$  per cent for first-class, and  $4\frac{1}{2}$  to 5 per cent for good four to six months single names. A comparatively large amount of very choice four months single-name paper has been bought by one of the banks this week at  $3\frac{1}{2}$  per cent.

Some slight influence upon the European security markets this week has been caused by the varying aspect of peace negotiations, and also by a rumor regarding the health of Barnato, the South African mining operator; but the London market for money has not been disturbed and the tendency is towards ease. The Bank of England minimum rate of discount remains unchanged at 2 per cent. The cable reports discounts of sixty to ninety-day bank bills in London 1 per cent. The open market rate at Paris is  $1\frac{1}{4}$  per cent, at Berlin it is  $2\frac{3}{4}$  per cent and at Frankfort  $2\frac{1}{2}$  per cent. According to our special cable from London the Bank of England lost £147,075 bullion during the week and held £36,531,749 at the close of the week. Our correspondent further advises us that the loss was due to the imports of £210,000 (of which £60,000 were from Australia and £150,000 from the Cape), to £3,000 net sent to the interior of Great Britain and to £354,000 sold in the open market, which report says was principally for Russia and Austria.

The foreign exchange market was easy on Monday, growing weak on Wednesday, influenced by offerings.

of bills drawn against exports of gold and also by drafts against shipments of provisions and flour, and it was steady at the decline on Thursday and quite dull. The gold exports for the week were \$500,000 by Baring Magoun & Co. for Kidder, Peabody & Co. of Boston, \$1,250,000 by Lazard Freres and \$600,000 by L. Von Hoffmann & Co., on Tuesday, and \$500,000 by Lazard Freres on Thursday. All of this gold went to France, and as sight sterling ruled below the point at which the shipment could be made as a direct exchange operation, it follows that the export was facilitated by a triangular movement based upon the condition of sterling at Paris on London. Not all of the gold was taken from the Sub-Treasury, \$1,510,000 of it coming from banks, where it had been accumulated from various sources by the shippers. It was reported on Wednesday that more gold would go forward on Saturday, but none was engaged. The posted rates for exchange were 4 87 for sixty day and 4 88 to 4 88½ for sight until Tuesday, when Brown Bros. reduced both long and short half a cent, making the range for the remainder of the week 4 86½ to 4 87 for sixty day and 4 88 to 4 88½ for sight. Rates for actual business opened on Monday easy at a reduction of one-quarter of a cent, compared with the close on Friday of last week, for short sterling and cable transfers, at 4 87@4 87½ for the former and 4 87½@4 87½ for the latter, while the rate for long sterling was unchanged at 4 86@4 86½. There was no alteration in the rates on the following day, the market being dull and steady, but on Wednesday the tone grew weak and rates for actual business were reduced one-quarter of a cent, to 4 85½@4 86 for long, 4 86½@4 87 for short and 4 87@4 87½ for cable transfers. There was no change on Thursday or Friday and the market was steady at the decline. The following table shows the daily posted rates for exchange by some of the leading drawers.

## THE SUPREME COURT AND THE INTER-STATE COMMERCE COMMISSION.

After the decision of the United States Supreme Court in the Trans-Missouri Freight cases, it is refreshing to have its decisions this week in the cases involving the duties and powers of the Inter-State Commerce Commission. The Court decides that under the Inter-State law the Commission has no power to fix rates; and furthermore, it so construes and interprets the law that it can be made an instrument for the protection of security holders as well as of shippers.

There were decisions in a number of cases bearing on the construction of the Inter-State law, but the most important one was that against the Cincinnati New Orleans & Texas Pacific Railway and other Southern roads in suits originally instituted by the Chicago Freight Bureau and the Cincinnati Chamber of Commerce. It will be remembered that a little over a year ago the Court delivered several important opinions, and that in one of these (the Social Circle case) it overruled the Commission in an attempt to lower rates, and laid down the doctrine that that body had no power to fix rates. It was seen at the time that this doctrine was of far-reaching importance. Since then the circuit courts in the various actions that have come before them have cited that opinion as a ground for denying to the Commission the right to have its orders prescribing rates enforced. The Commission sought, however, to give the language of the Court a more restricted meaning, arguing that the remarks were intended to cover only cases where the Commission sought to fix rates on its own motion or without a previous hearing. The decisions this week completely sweep this plea aside.

The opinion was by Judge Brewer, and he said that the power to prescribe a tariff of rates for carriage is a legislative and not an administrative or a judicial function, and is a power of extreme delicacy and importance. It is not to be presumed, he declared, that Congress has transferred such power to any administrative body. The words and phrases necessary to make the delegation of power are well understood, and if Congress had intended to grant the power to the Inter-State Commerce Commission, it would have used language to do so. He pointed out that incorporating into a statute the obligation to make all charges reasonable and just, and directing the Commission to execute and enforce that statute, does not invest it with the power to exercise the legislative function of prescribing rates which shall control in the future. Furthermore the right of the carrier to fix rates is recognized in the clear language of section six.

Answering the query whether the Commission then has any function to perform in respect to the matter of rates, the Court says unquestionably it has, and

most important duties. It is charged with the general duty of inquiring as to the management of railroad companies and to keep itself informed, &c. It has a right to compel complete and full information as to the manner in which carriers are transacting their business. With this knowledge it is charged with the duty of seeing that there is no violation of the long-and-short-haul clause; that there is no discrimination between individual shippers; that nothing is done by rebate or device to give preference to one as against another; no undue preference to one place or individual or class of individuals; but that in all things the quality of right, which is the great purpose of the Inter-State act, shall be secured to all shippers. The Commission must see that that publicity which is required by section six of the act is observed by the railroads. The Court quotes Commissioner Cooley to the effect that holding the railroad companies to strict compliance with all these statutory provisions, and enforcing obedience to all these provisions, tends both to reasonableness and equality of rates as contemplated by the Inter-State law.

It is not to be supposed, argues Justice Brewer, that Congress could ever authorize an administrative body to establish rates without inquiry and examination, "to evolve, as it were, out of its own consciousness the satisfactory solution of the difficult problem of just and reasonable rates for the various roads in the country." The opinion points out that the Commission is not limited in an inquiry to rates in which a formal complaint is made, but under section 13 may institute any inquiry on its own motion. "There is nothing in the act requiring the Commission to proceed singly against each railroad for every supposed or alleged violation of the act. In the case now at hand, if the fact exists as claimed there would be no escape from the conclusion that it would be within the discretion of the Commission of its own motion to suggest that the inter-State rates on all roads in the country were unjust, and to notify the several roads of such opinion, direct a hearing, and make one general order reaching every road and covering every rate. It will never do to make a provision prescribing the mode and manner applicable to all investigations and all occasions equivalent to a grant of power in reference to some specific matter not otherwise conferred."

Justice Brewer quotes the Commission against itself in the case of *Thatcher* against the Delaware Road, where the Commission said: "It is therefore impossible to fix them (rates) in this case, even if the Commission had the power to fix rates generally, which it has not." After noting that nowhere in the act is there any suggestion of any maximum or minimum rate, the Court makes the important declaration that "a rate may be unreasonable because it is too low as well as too high—in the one case unreasonableness to the stockholder, in the other to the shipper." The Court also repeats its declaration in the *Covington* turnpike case, that in determining the question of reasonableness the duty is to take into consideration both the interests of the public and the owner of the property. Summing up, the Court says: "Our conclusion then is that Congress has not conferred upon the Commission the legislative power of prescribing rates, either maximum or minimum or absolute. As it did not give the express power to the Commission, it did not intend to secure the result indirectly by empowering that tribunal to determine what, in reference to the past, is reasonable and just, whether

as to the maximum, minimum or absolute, and then enable it to obtain from the courts a peremptory order that in the future the railroads should follow the rates thus determined to have been in the past reasonable and just."

It should be noted that the decision in this case is not that of a divided, but that of a nearly unanimous Court, only one of the judges (Justice Harlan) dissenting. The ruling is noteworthy and important not only because it so clearly and unequivocally denies to the Commission the power to fix rates, but also (and perhaps still more) because it lays down the doctrine that rates may be unreasonable in being too low as well as in being too high, and that the interests of the owners of the property are entitled to consideration equally with the users. This is all that any one can ask; and had the Inter-State Commerce Commission in its various rulings acted on that idea, the law might have proved a very beneficial enactment. But the Commission chose to act on the opposite theory—to make the law a one-sided affair, to be used against the roads but never in their favor.

There is likelihood that indirectly great good may result from this decision. The ruling in the *Trans-Missouri Freight* cases has left the railroads in a very precarious situation in the matter of rates, so that new legislation is necessary to prevent general chaos. But such legislation the Inter-State Commerce has opposed, having recently written a long letter showing hostility to the proposed pooling bill now under consideration in the Senate. The denial to the Commission of the right to fix rates changes the whole aspect of things. The Commission finds that its powers have been curtailed. It will presumably therefore now co-operate with the roads in having the law amended; and in view of the importance of the railroad industry we cannot believe that the interests and requirements of the roads will be entirely ignored in a new scheme of legislation.

#### THE QUEEN'S JUBILEE.

On the 20th of next month will be celebrated with due ceremonial the sixtieth anniversary of Queen Victoria's accession to the British throne. The occasion will be in many ways remarkable. Merely as marking a reign exceptionally long in the annals of sovereignty, this sixty-year continuous occupancy of the throne of a great nation is an event in history. Her reign has already extended over a longer period than that of any previous English sovereign. The long reign of George III. lacked nine months of the sixty years which his granddaughter's reign has now nearly completed, and in his last nine years of sovereignty King George was incapable of ruling. The other long reigns of English history—Henry III.'s fifty-seven years upon the throne and Elizabeth's, forty-four—fall materially short of the present Queen's extraordinary record. Louis XIV. of France, who inherited the throne in 1643 and died in 1715, may be said to have reigned the longest of any sovereign in history. But Louis was only five years old at his father's death and until 1661 France was virtually governed by a regency. The present Queen of England, though only nineteen years of age when she succeeded to the throne, exercised from the first the constitutional attributes of sovereignty. It is doubtful whether history records a parallel instance in continuous royal administration.

The importance of precisely such a reign, by precisely such a sovereign, in Great Britain since 1837 is beginning to be recognized. It is the commonplace of criticism to compare the power of the titular head of England's Government with the power of our Chief Executive and to contrast these powers to the disadvantage of the Crown. The President of the United States is the nation's actual ruler; he is the actual commander-in-chief of its armies and navies: the appointing power and the veto power, under their Constitutional restrictions, rest absolutely in his hands; his ministers are in all respects his personal choice. None of these powers is actually exercised by the English sovereign. The Queen does not even name, except by empty form, the commanders of the British forces: her power of appointment in the civil service practically exists no longer; theoretically she may veto Parliamentary measures; in actual fact she has never done so and would probably not be recognized in doing so; her ministers are chosen on the nomination of a party caucus in the Commons, and the nomination thus submitted is to all intents and purposes appointment. Yet in spite of this apparent lack of real authority the Queen's influence on the political history of her time has been very great: not less so, it may properly be affirmed, through what she has refrained from doing than through what she actually has done.

Even sixty years ago it was long since the British sovereign had exerted any direct influence on legislation. Her two predecessors had repeatedly submitted to Parliamentary measures strongly repugnant to them personally, and though they had submitted with bad grace enough, they had confirmed the precedent. But in the British governmental system the policies initiated by a cabinet, especially in foreign affairs, are apt to shape indirectly the action of Parliament, and it has never been impracticable for the sovereign, under certain conditions, to influence or control these cabinet policies. George II. forced out of office the ministers whose plans did not suit his purposes. George III., in the words of the historian of England in the Eighteenth Century, "assumed the position not only of a prime minister but of a cabinet, superintending, directing and prescribing, in all its parts, the policy of the government." George IV. and William IV. came into repeated collision with their ministers. Had either been a sovereign of force and ability, the royal prerogative might have become a different matter in their reigns, and this notwithstanding the gradual loss of power by the Crown over the electorates. In 1837, when the sovereignty devolved upon the present Queen, it is a matter of history that public opinion in many quarters looked forward with distrust to a possible ministry of royal favorites.

The influence of the Crown was in fact by no means so far diminished at that time that a struggle of some sort was impossible. In such a struggle Parliament and the people would undoubtedly have won, but unfortunate results might conceivably have followed from their very victory. The English legislators have been self-restrained at nearly all great crises in the country's history: yet the general movement of reaction from a centralized power which occurred throughout Europe during 1848 was severe and thorough, and might have had very disturbing influence on England but for the already well-defined attitude of the Queen. It is, in fact, the high merit of Victoria's career that she has

tendencies of the time, and has adapted her own position to them. In this there has been no struggle and surrender, as with the earlier sovereigns of her family, nor any sullen submission similar to that of her immediate predecessors. The Crown retained its normal prestige, the People and the Parliament the rights which developed with the needs of the day. Only on one occasion, in her famous rebuke to Lord Palmerston in 1850, has the Queen ever taken issue with a Minister; and in that case fault was not found with the Minister's public policy, but with his practice of altering a policy, already agreed to by the sovereign, without submitting his alterations to the Queen. Personal likes and dislikes, which not unnaturally had been the weak point in the career of previous English queens—even of one as cool and sagacious as Elizabeth—have played no part whatever in this reign. It was thought at Victoria's accession that she preferred Lord Melbourne above any other councillor; it has been said in recent years that her political choice was centred in Lord Salisbury; and it has been believed that neither Palmerston nor Gladstone was a premier altogether to her liking. But except for the episode already noticed, there has been no proof of any feeling of the sort; the Queen has uniformly carried out with dignity the real purposes of the English constitution.

Being moreover by no means a weak or mediocre character, the Queen has become a quiet but essential factor on a good many occasions of importance. The restless young Emperor of Germany has more than once hurried his country almost to the verge of war by saying or doing something which in itself did not exceed the privilege of a constitutional sovereign. The Queen of England, or a King who might have occupied her place, could in the same way have done equal mischief; for these are days when words count for as much at times, in the intercourse of nations, as formal legislative action. But the Queen's opportunities in this regard have been used with rare discretion. History has recorded the very great influence exerted by the Queen and the Prince Consort in the critical days of 1861 towards maintaining friendly relations with the United States. This was an instance all the more noteworthy from the fact that the Ministry of the day was infinitely less conciliatory. Taking a period of more recent date, there is the best of reason to believe that the personal good offices of the Queen did much in the early stormy days of 1896 to smooth away international friction. The pains taken by Lord Salisbury within a month to arrange a personal interview between his sovereign and the President of the French Republic showed that at least one experienced statesman had not lost faith in the influence of the Queen.

It may in fact be said without exaggeration that Queen Victoria's character has been as fortunately adapted to the genius of the Nineteenth Century as was that of her great predecessor to the Sixteenth. Victoria would possibly have made but small impression on the world of absolute government and collision of uneasy States which existed three hundred years ago. But Elizabeth would be as strangely out of place in 1897; indeed, the Elizabeth of history would to-day be utterly impossible. Neither of these two remarkable women can be considered apart from the conditions and circumstances in which their characters found development. It is the supreme merit in the character of each that they comprehended the tendency and spirit of the time and adapted their own careers to it.

Three European sovereigns since the close of the Napoleonic wars have left the impress of their personality on an epoch of distinct and abiding national achievement. These three are Emperor William I. of Germany, King Victor Emmanuel of Italy and Queen Victoria of England. It is not without significance that each of these sovereigns has been remarkable, first for discerning the true movement of national sentiment and aspiration, and second for co-operating cordially with such ministers as best interpreted this movement. None of the three achieved distinction as an autocrat; all recognized the limitations which the Nineteenth Century had placed upon their office. Compared with such spectacular characters and reigns as those of Charles V., Louis XIV. and Napoleon I., their history may seem commonplace. But the three notable sovereigns last mentioned left their States at the end of their careers in ruin or decay. In recent times the almost equally powerful political careers of the Third Napoleon and of Alexander II. of Russia ended with the condition of their people very little bettered, and with nothing contributed to history except some changes in the map of Europe. Such times as ours demand something different from their rulers; it is therefore a true instinct which celebrates the quiet, orderly and progressive reign of Queen Victoria. A succession of sovereigns with similar methods and purposes, in the European States east of the Rhine, would solve the Continental problem which sometimes nowadays seems insoluble. Certainly nothing else will solve it.

#### **CANADIAN CUSTOMS TARIFF POLICY— MANCHESTER COTTON GOODS MARKET.\***

MANCHESTER, May 19.

The new departure in Canadian Customs tariff policy has excited singularly little attention in the United Kingdom. Partly no doubt because its importance and its far reaching consequences are as yet very imperfectly comprehended and partly because the public mind is too full of more exciting questions, the significance of the movement remains so far unrevealed. Even those who knew the strength of the desire in Canada for what is called an Imperial Customs Union were not prepared for an unconditional offer of preferential treatment at the Dominion Customs Houses of British productions. Still less were they prepared for its announcement by a Liberal Administration, since the backbone of the Canadian advocacy of the Customs Union was furnished by the Conservatives.

It will be remembered that at the Congress of Chambers of Commerce of the Empire held in London last June the series of motions in favor of a Customs Union on a preferential basis—which were not adopted—proceeded from Canadian representatives and some of them were the outcome of the Ottawa conference, previously held. Of the popularity and sincerity of the present movement no doubt whatever is entertained here, although it is imagined that it owes some of the earnestness with which it is supported to the Dingley Bill and the readiness with which this was passed by the House of Representatives. But however gratifying the project may be, and however welcome on various grounds, political and commercial, those who have given close

attention to it recognize that it must necessarily raise a question of great interest and magnitude, in view of the British treaties of 1862 and 1865, concluded respectively with Belgium and Germany. Clause 15 of the former says: "Articles the produce or manufacture of Belgium shall not be subject in the British colonies to other or higher duties than those which are, or may be, imposed upon similar articles of British origin." A clause of like purport is contained in the German treaty. In several other treaties subsequently concluded by the British Government "most favored nation" provisions are inserted with reference to the colonies, which, by implication, convey the same privilege.

For the last 13 or 14 years this stipulation has always been omitted. There can be no doubt, however, that the German and Belgian governments will claim that the preferential rates of duty in Canada shall be applied to the productions of their respective countries. This claim the Canadian Administration is not disposed to admit, except upon condition of reciprocal terms in the German and Belgian tariffs being accorded to Canadian produce. The solution of the problem thus emerging will have to be found at the Colonial Office, and there can be no doubt that it will form the subject of very earnest conference between Mr. Laurier, when he visits England next month, and Mr. Chamberlain, the Secretary of State for the Colonies.

There appear to be only two modes of dealing with the difficulty. The two Continental governments may be asked to make some modification of their tariffs so far as Canadian produce is concerned which will warrant the extension to the productions of Germany and Belgium of the preferential tariff; or, failing the success of such a proposal, twelve months' notice may be given to terminate and revise the treaties of 1862 and 1865 with a view to the excision of the clauses relating to the colonies. The first course is very likely to involve the revision of the German treaties concluded in 1892 with Austria, Italy and other European States and that of a later date made with Russia. Hence arises a new possible difficulty. The second is clearly easy enough (as a matter of right), but it can hardly be unattended by the risk of some sort of retaliation or threatened retaliation on the part of Germany and Belgium. So far as this country is concerned there can be no doubt that such action, or even the threat of it, would be very reluctantly adopted by either country, for the policy of unconditional free trade in England and the large market here which is open to the whole world are highly appreciated throughout Europe. They have proved sufficient, for example, in France to secure the voluntary concession of most favored nation treatment for British productions, this being there not the subject of treaty but of special statute passed by the French Parliament in 1882.

It is apparent, therefore, that some very interesting, and perhaps not altogether easy, diplomatic work has been cut out for Lord Salisbury's Government by the new Canadian departure. Meanwhile British goods are entering Canada under the preferential rates of duty, and certificates of origin are being issued by the Chambers of Commerce for such goods.

The state of the Manchester market for cotton goods and yarns can hardly be described by a weaker word than that of "depressed." Rarely, in recent years, have the scantiness of the demand and the lowness of prices in relation to the cost of production been so widespread. Producing, as they do, an

\*Communicated by our special correspondent at Manchester.

incalculable variety of goods for all markets, the spinners, manufacturers, calico printers, dyers and bleachers of Great Britain are never altogether under a cloud. In the worst of times some exceptional instances are met with in which they are able to keep their machinery fully employed and to earn some profit. Just now, however, such instances are very rare, and the complaining is almost general. True, the distribution of goods in the home trade continues fairly abundant, but this department, important as it is, does not take off quite one-fourth of the production of the spindles and looms of the country.

The demand for India is appreciably reduced, not so much by the famine as by the continued effects of the pestilence and the scarcity of money in India. The grain trade and the relief operations in the dependency absorb a much larger proportion of its currency than in normal years, and since the mints are closed the supply of money for other purposes is much lessened. Hence the native distributors of piece goods and other merchandise are greatly hampered by the high rates of interest—often from 14 to 16 per cent—which they have to pay for loans and discounts. Exports of goods to India have consequently fallen off considerably, and seem likely to be lessened still further, if one may judge from the scantiness of the new contracts now being concluded.

Then, too, the demand for the South and Central American markets is weak, particularly those of Brazil and the Argentine Republic. In the last-named country the effects of the destruction to crops caused by locusts last year are added to other causes of depression.

Exports to Turkey have shown a gratifying improvement during the last few months, and for a longer period those to Syria, in particular, have been very liberal. Indeed merchants trading with Beyrout have enjoyed, for at least a year, an excellent and profitable trade, the country served from that port having been, on the whole, prosperous and free from the disturbances which have devastated Armenia. The Egyptian market has also been encouraging, and it is still regarded as a promising one.

On the whole, however, the immediate prospect in Manchester is far from being hopeful, and it is certain that the quantity of weaving machinery standing idle or working short-time is increasing, although in relation to the entire industry it cannot be called large. The spinning branches have for more than a year been relatively in a better state than the weaving, and even now spinners are, as a rule, able to avoid accumulations of stocks. Their condition, though, in this respect is becoming slowly worse, and they can hardly keep so firm a hold upon prices as they could a few weeks ago.

#### THE UNION PACIFIC REORGANIZATION SCHEME.

In the United States Circuit Court at St. Paul, Minn., last week, the petition of the Credits Commutation Company for leave to intervene in the Union Pacific foreclosure suits was dismissed. The petition was not considered of any consequence, as it was difficult to see how the petitioner had any standing in the case. Still the decision is interesting as marking the disposal of another one of those proceedings which, as Mr. Winslow S. Pierce puts it (in answering the order of the Court to show cause), have come to be almost inevitable at a certain stage of railway foreclosure and reorganization.

As regards the reports which have this week come from the other side, saying that there was considerable dissatisfaction with the reorganization plan on the part of the foreign holders of Union Pacific securities, and suggesting the possibility of some opposition, we think they possess little importance. We are sure they would have received no notice whatever except for the coincident appearance of an article in "The Economist" of London criticizing the plan. Fully 80 per cent of all the bonds embraced in the plan and over 95 per cent of the stock have given their adhesion to the plan; so it is evident that the material out of which to organize an opposition is in any event very slender. Of course the position of "The Economist" is such as to invest its criticisms with much weight, and hence even though the work of reorganization has progressed so far that it is only a matter of a few months before it will be altogether completed, it seems desirable to consider very carefully what "The Economist" says and see if its conclusions are supported by the facts.

The "Economist" speaks without reserve, and after urging a number of objections to the plan it concludes its article in these words: "That scheme, as we have already said, is one out of which the reorganizers may make money, but it will benefit no one else, and it would be well if even at this, the eleventh hour, it could be defeated." This is strong language, and for ourselves we must say it does not seem justified. The writer of the article thinks the stockholders should have been accorded better treatment—that the assessment of \$15 a share is too onerous and that the scheme puts an unnecessarily large and greatly inflated amount of securities ahead of the stock. He says the plan "involves the issue of \$100,000,000 of 4 per cent gold mortgage bonds, to replace about \$90,000,000 of existing bonds bearing from 5 to 8 per cent interest; \$75,000,000 of 4 per cent preferred stock, chiefly to be used as compensation to the bondholders converting, and \$61,000,000 of common stock to replace the present shares, which, under the scheme, would be assessed at \$15 apiece."

The "Economist" regards such drastic proposals doubly objectionable in the light of the company's report for 1896, showing "a debit balance of no more than \$1,091,000." In view of that statement a reorganization should certainly be possible, it contends, "without having recourse to such a gigantic inflation of the capital of the undertaking." It criticizes particularly that part of the scheme allotting to the present mortgage bondholders a large amount of new preferred stock as an inducement to them to accept the new bonds in exchange for their present bonds. On this point it says: "Seeing, however, that other American railroads are at present converting their high-rated bonds into 3½ per cent securities, the mortgage bondholders of the Union Pacific might very well be content to renew their bonds upon a 4 per cent basis without receiving such a bonus in preferred stock."

At the outset we may remark that the "Economist" has overlooked one very important fact, namely that last January after the making of the contract with the Government the amount of first mortgage bonds to be issued under the plan was reduced from 100 million dollars to 75 millions. This makes a difference of 25 million dollars in the amount of the securities to be put ahead of the stock and a saving of \$1,000,000 a year in the fixed charges preceding the stock. Fur-

thermore we cannot see that there is anything particularly encouraging in the fact that the deficiency in earning charges (on the main line mileage) in 1896 was "no more than \$1,091,000", especially when it is remembered that the Government requirement deducted in reaching that result fell three-quarters of a million dollars short of meeting the interest paid by the Government in that year on the subsidy bonds issued to the road. Of course this is better than the result in 1894, when the deficiency was \$1,862,733; but a loss of a million dollars (\$1,091,587) is certainly a large amount; the deficiency in 1895 was not quite as heavy as this, being \$823,788.

As to the difference in capitalization between the old company and the new, it is not as great as might be supposed. The new company will have an aggregate capital of \$211,000,000, supposing the securities provided under the reorganization plan are all issued—that is, it will have \$75,000,000 of 4 per cent 1st mortgage bonds, \$75,000,000 of non-cumulative preferred stock and \$61,000,000 of common stock. The old company, according to the statement contained in the reorganization plan under date of October 1895, had a bonded indebtedness of \$87,386,350 (always excepting of course the debt on the branch and auxiliary lines), and owed the United States \$33,539,512 on the principal of the subsidy loan and \$19,500,000 on the unpaid accumulations of interest (in excess of the estimated value of the sinking fund assets in the Government Treasury), making a total debt of \$140,425,862. From this we may deduct \$8,708,850 of main line bonds not actually outstanding but held in the various sinking funds, leaving the amount of the debt roughly \$131,717,000. Adding the \$60,868,500 of stock, we have an aggregate capitalization for the old company of \$192,585,000, against the \$211,000,000 for the new company. To be sure the 192½ million dollars of present debt embraces about 20 million dollars of various issues of collateral trust bonds not comprehended in the reorganization (though a part of the reserve of preferred stock will, we suppose, ultimately go to take up some of these issues), but this 20 million dollars of bonds is now actually in existence ahead of the stock, and therefore cannot be excluded in comparing the position of the stock before and after reorganization.

As to the standing of the stock with reference to the yearly fixed charges, the call for interest on the bonds in 1896 was \$4,548,470, the United States requirement was \$1,244,286, and the sinking fund charge was \$697,970, making the total fixed requirement for the year ahead of the stock \$6,490,726. In 1895 the total of the same three items was \$6,577,955, and for the five years from 1890 to 1894 inclusive, the average yearly amount of the fixed charges or deductions from net earnings was \$6,802,001. After the reorganization the obligatory yearly interest requirement will be only \$3,000,000 per year. The four per cent dividend on the \$75,000,000 of preferred stock would take \$3,000,000 more, but this and the bond interest together only make \$6,000,000 per annum, against much larger amounts, as we have seen, of charges ahead of the present common stock. On this showing, therefore, the prospect for the stock will be better rather than worse after reorganization, notwithstanding a somewhat increased capitalization.

As to whether the terms allowed the bondholders are not more liberal than was needful, that must be a matter largely of opinion. Most of the bonds have

already matured, or will shortly mature, so an allowance of preferred stock to compensate for the retirement of the bonds in advance of maturity was not necessary. On the other hand, an exchange on an even basis, bond for bond, without any bonus, was unquestionably not within the range of probabilities. The comparison which the "Economist" makes with the companies that have recently negotiated 3½ per cent bonds seems to us quite inapt. It is given to very few companies in this country to float bonds on a 3½ per cent basis. Only dividend-paying corporations of long standing and exceptional credit can hope to borrow on such terms. Mere solvency is not enough. There must be in addition all the other advantages possessed by companies like the New York Central, the Lake Shore and the Illinois Central, which have lately been successful in their attempts to place 3½ per cent issues.

Even a 4 per cent rate is not always attainable to an ordinarily solvent company. But in the case of the Union Pacific we are not dealing with a solvent property but with an insolvent one, and one too whose future it was exceptionally hard to determine, by reason of the complications arising out of the indebtedness to the Government and various other causes. We have no doubt the new first mortgage bonds will in time be shown to be a very desirable investment, but that fact must be incontrovertibly established before investors can be got to take them at a figure and on a basis such as a prime 4 per cent bond should command. As there was this element of doubt, affecting alike the value of the new bonds and the value of the new preferred stock, and as the success of the scheme depended on getting the assent of the bondholders and in making a satisfactory settlement with the Government, it was obviously necessary to offer very liberal inducements so as to tempt the bondholders to come in. The bonus given the bonds amounts in certain cases to 50 per cent, and that certainly seems large. But the many letters we have received from bondholders here and in Europe during the last eighteen months, asking whether it would not be better to accept payment of the bonds in cash rather than assent to the reorganization scheme and take the new securities offered in exchange, make it clear that any smaller allotment of new securities to the old bondholders would have jeopardized the success of the scheme. It is to be remembered, too, that the situation of the company has improved somewhat since the scheme was first promulgated.

As to the treatment of the stock, it was of course within the power of the reorganizers to exclude it altogether from participation. That, however, we should have regarded as in every way a misfortune. Many of the holders bought the shares at high figures and it was desirable that their equity should be preserved if possible. On the other hand, as it was under the management of the stock that the disastrous condition of the property was brought about, the stockholders obviously were called upon to bear their share of the burdens necessary to rehabilitate the property. Nor can the assessment of \$15 00 per share be regarded under the circumstances as unduly heavy, especially as preferred stock is to be given for the assessment, which stock ought to command a much better price than preferred shares of reorganized properties usually do, since the amount of fixed charges ahead of the preferred shares in this case is to be relatively so small. Besides, as the Government was

called upon to make such important sacrifices, it was hardly to be expected that the stock could escape without some considerable penalty. Indeed, in view of the bitter feeling in Congress against the road, it may well be questioned whether an arrangement with the Government would have been possible under a scheme which did not provide for a considerable cash contribution from the stock.

It would seem, therefore, that the reorganization plan so far from being inequitable was the best that could be devised under the circumstances. We cannot help thinking too that it is of benefit to every interest—to the stock, the bonds, the Government and the public. The conclusion of an arrangement with the Government was in every way a notable achievement. Previously, on account of the attitude of Congress, it appeared as if no way out of the difficulty could be found, and as if as a consequence a long period of doubt and suspense would have to be encountered. What is particularly commendable in the arrangement is that while insuring to the Government a minimum bid of \$45,754,000 for its interest in the property, it leaves the field open to other bidders, so that if any one feels willing and able to pay more there is nothing to hinder him from doing so and the Government from getting the increased sum. The formation of a syndicate pledged to raise \$65,000,000 to \$75,000,000 on thirty days' notice is an equally noteworthy achievement. We understand that it is expected to bring the property to a sale this summer. When this shall have been done and the relations with the Government terminated, a long-standing reproach to American finances will have been removed.

#### THE BRITISH IRON AND STEEL INDUSTRY AND AMERICAN COMPETITION.\*

MANCHESTER, May 16, 1897.

Within the last twelve months thoughtful men connected with the British iron and steel industries have given much attention to the incipient competition of American iron and steel in the European markets and to the prospects of its increase. For some time past United States pig iron has been quoted on the Manchester Exchange, delivered by steamer direct at the ship canal docks, and numerous small shipments have been disposed of. The monthly official foreign trade statistics of the Kingdom do not state the amount of imports of iron and steel from each country, and the more fully detailed volume, the "Annual Statement" for 1896, will not be issued until June or July. In previous volumes it appears that in 1894 the imports of American pig iron were 1,330 tons and in 1895 3,668 tons. These trifling quantities came, however, it may be confidently assumed, merely as ship's ballast. The business has now reached the regular commercial stage, and the Permanent Secretary of the Board of Trade affirmed a few days ago that the quantity received from the United States in January last was 9,000 tons and in March 4,000 tons.

Even more important is the fact that steel billets were imported from the States to the extent of 3,000 tons in January, 7,000 tons in February and 2,000 tons in March. American pig iron has also gone in small quantities into the North European ports, and German iron producers are beginning to consider their significance. The question of American competition held a conspicuous place in the proceedings of the British

Iron & Steel Institute and the Iron Trade Association, which occurred in London last week, and it was treated very seriously by both bodies; yet without any manifestation of alarm. The papers and speeches show that the whole subject of the relative cost of production in the United States and in Great Britain has been minutely investigated. The net results of the discussions fall into two classes, those connected with the methods and management of the industry in the two countries, and those attributable to natural advantages and facilities of transport. It was freely acknowledged that American blast furnace practice has made great strides within the last two or three years towards more economical production, and already it is being followed, though tardily, in this country.

The performances of the Duquesne blast furnace plant of the Carnegie Steel Company received, of course, full attention. Its largest out-turn of 4,110 tons of pig iron in a single week contrasts very strikingly with one of 1,600 or 1,700 tons which is considered a satisfactory production from the better class of furnaces at present working in this country. The superiority rests partly upon structural arrangements designed to save labor, but largely also upon the use of a greater pressure of blast. One leading English firm, Messrs. Bolekow, Vaughan & Co., of Middleborough, is now putting down six pairs of new engines for the purpose of attaining this object, and there can be no doubt that the stimulus given by these American improvements will before long be found to have brought about almost a revolution in the making of pig iron in this country. But American ingenuity and energy are also leading the way in lessening the cost, by increasing the amount of the out-turn, in the production of steel rails and billets, and in this respect also their example is not likely to be neglected on this side the Atlantic.

The second class of advantages possessed by the American iron and steel producer presents obstacles far more difficult to overcome by his British competitor. Among these the cost of railway transport stands foremost. Ocean freights are competitive, and there is no complaint of the cost of bringing to our shores the iron ore, amounting now to nearly 5,000,000 tons annually imported from Spain, Algeria, Greece, Italy, Sweden and other countries, to supplement the indigenous supply. But the cost of railway transport of minerals and metals on British lines is, notoriously, very much greater than that on American lines, and this difference is a series disadvantage because the utmost that it is possible at present to hope for is a lessening of it, not its elimination.

The story of the struggle against high railway freight rates in England is a long one, and all that need now be said is that the prospect of appreciable reduction is not bright, except perhaps so far as it can be looked for in the adoption of bogie trucks carrying very much heavier loads than the antiquated one now all but universal in this country. The greater cost of fuel in Great Britain than in the United States is a further disability under which the British iron and steel manufacturer labors. It was stated by Sir Alfred Hickman at the meeting of the British Iron Trade Association, on the authority of Mr. W. R. Sterling, of the Illinois Steel Company, that coal is obtained by the American iron producer at 2s. per ton, whilst in England the price is from 6s. to 8s. per ton. He quoted, as at least a partial explanation of this wide difference, a statement of Mr. Sam Woods, M. P., the well-known

\* Communicated by our special correspondent at Manchester.

miners' representative in Parliament, that he found colliers working a full day of eleven hours in American mines for wages of 3s. to 4s. per day, whilst in England the earnings were from 5s. 6d. to 6s. per day of seven hours.

It is, of course, perfectly true that in industries where machinery and organizations play a predominant part, low rates of wages do not necessarily mean low cost of production. Usually, indeed, they mean high cost. But in coal mining, where pure physical labor, incapable of much abridgement, is the chief element of production, the view taken by Sir Alfred Hickman is by no means, obviously, unfounded, at least if the data furnished by Mr. Woods are correct.

But however interesting and important these discussions as to the relative efficiency of the American and British iron and steel industries, there is one consideration hardly touched upon by most observers, which goes a long way toward explaining the present import of raw and manufactured iron from the United States. On your side of the Atlantic trade is very bad, and the kind of enterprise which is directed to investment in works of long duration is feeble. On this side confidence is just now much stronger, and the iron and steel industry in particular is more active than it has been for years. The demand for these metals in their countless manufactured forms for all sorts of purposes in both the home and the foreign markets is exceedingly active. In the case of the latter the activity is measurable in the official statistics of exports. Here are the figures showing, under three heads, the shipments of iron and steel during the first four months of this and each of the two preceding years:

	1897.	1896.	1895.
Iron and steel.....	23,146,914	27,274,206	25,673,488
Steam engines.....	1,150,966	948,282	753,168
Machinery.....	4,689,963	4,311,207	3,723,383
Total.....	213,987,783	212,533,695	210,150,039
Increase 1896-7.....	21,454,088, or 11.5 per cent		
Increase 1895-7.....	3,837,744, or 37.8 per cent		

These figures do not include the value of the iron and steel consumed in the large amount of shipping built for foreign owners, which embraces a considerable tonnage for the war vessels constructed for foreign governments. But at home also the demand for railway material and equipment, for tools and machinery, and for structural iron and steel has during the last nine or twelve months been larger than for several years previously.

Whilst, therefore, forces tending to depress prices inordinately have been in operation in the United States, those working in the opposite direction have prevailed here. In these circumstances it is not at all surprising that the current of iron and steel should move eastward, induced by the widely different conditions of general trade and enterprise on the two sides of the ocean, and the consequent wide variations of prices. A striking illustration of the advance of prices on this side is afforded in the quotations for steel rails. Little more than eighteen months ago they were sold in Lancashire at £3 2s. 6d. per ton; now the price is £4 12s. 6d., and the mills are busily employed in execution of contracts previously entered into, although at the moment there is not much new business. With reference to this particular commodity, Mr. Alexander Armour of Liverpool, speaking at the meeting of the British Iron Association, warned English makers of rails that they would not long be able to maintain their existing quotations, since "the time is not far distant when they will have to face the

competition of America for the rail trade of the whole world."

### STATUS OF NON-ASSENTING BONDS IN REORGANIZATIONS WITHOUT FORECLOSURE.

We are pleased to make room for the following letter concerning our article of two weeks ago under the above caption. It explains itself and calls for no comment.

NEW YORK, May 20th, 1897.

*Editor of the Commercial and Financial Chronicle:*

DEAR SIR—My attention has been called to your report, and editorial thereon, in your issue of May 15th instant, concerning the decision of the Appellate Division of the New York Supreme Court, in the case of Simon Rothschild, a holder of ten first mortgage bonds of the Denver & Rio Grande Western Railway Company. Having been the attorney for the Rio Grande Western Railway, the successor of the obligor company, throughout the litigation, and being conversant with all the facts of the case, permit me to state, through the columns of your journal, that while your report and editorial in the main correctly state the facts of the case, yet the language of the caption of your editorial, "Status of Non-assenting Bonds in Reorganizations Without Foreclosure", is, in my opinion, calculated to convey to the mind of the casual reader the impression that the decision in that case is an authority for the proposition that notwithstanding the provisions of a mortgage securing an issue of corporate bonds to the contrary, a bondholder can have recourse to his legal remedy for recovery of principal and interest upon the bonds.

Such an impression would clearly be erroneous, for the decision cannot be regarded as a precedent upon such an abstract proposition. The special facts and circumstances appearing in the case, as your editorial intimates render it impossible to regard the decision as one of general application regarding the right of minority bondholders to enforce legal remedies ordinarily incident to their bonds.

In the Rothschild case the two salient questions were, first the true interpretation of article VIII. of the trust deed or mortgage securing the bonds, and second whether the offer of proof of the funding plan made at the trial was sufficient under the technical rules of evidence to admit of proof of the plan.

As to the first question, Mr. Justice Andrews upon the first trial, construing the provisions of said article VIII. of that mortgage, held that their true meaning and legal operation were such as to bar Mr. Rothschild, the bondholder, of any legal remedy by action to recover upon his coupons and non-suit him. Upon appeal taken by Mr. Rothschild the General Term of the Court, for the reasons stated in your editorial, reversed the decision of Justice Andrews and directed a new trial of the action. It was upon the second trial that the other question as to the sufficiency of the offer of proof of the funding plan arose, and the recent decision of the Appellate Division, which your editorial refers to, was rendered upon the appeal taken by the company from the judgment entered upon a verdict directed by the Court for Mr. Rothschild upon the second trial. We thus have two conflicting decisions as to the true interpretation of article VIII. of the mortgage in question—one of Justice Andrews in favor of the railway company and another by the late General Term of the Supreme Court in favor of Mr. Rothschild. Which is correct? It must not be overlooked that the Appellate Division in its recent decision (per curiam) expressly says that:

"We are not at liberty to consider anew the provisions of Article VIII. of the mortgage in connection with the contention of the defendant that the terms of that article obstruct the right of the plaintiff to maintain an action upon the coupons; that question having been determined also upon an appeal to the General Term (84 Hun, 103) "

As far as the technical question of proof in the case alluded to is concerned, it is a positive fact that the funding plan has received the assent in binding form of all the holders of the entire issue of \$6,900,000 in bonds, excepting only twenty bonds, including the ten held by Mr. Rothschild.

It yet remains to be seen whether Mr. Rothschild, as the holder of an insignificant amount of the issue of \$6,900,000 in bonds, will ultimately succeed in his efforts and gain the advantage he seeks in this instance over the vast majority of assenting bondholders; for an appeal from the decision of the Appellate Division to the Court of Appeals has just been taken and perfected by the Railway Company, upon which appeal the true meaning and construction of Article VIII. of the mortgage will doubtless be determined, and it is confidently believed in favor of the contention of the company, barring Mr. Rothschild of any remedy by his present action.

You are certainly correct, therefore, in your observation that "the existence of these special features (above alluded to) controlling the determination (of the Appellate Division) greatly limit and restrict its significance", and it seems to me that you might have ventured further by stating that the present decision affords no precedent of general application. Yours, &c.,

THEODORE F. H. MEYER.

## IMPORTS AND EXPORTS FOR APRIL.

The Bureau of Statistics has issued a detailed statement of the foreign commerce of the country for the month of April, 1897 and 1896, and for the ten months ending April 30 in 1896-97 and 1895-96, as follows:

## MERCHANDISE.

	April.	10 mos. end. Apr. 30.
1896-97.—Exports—Domestic.....	\$76,176,997	\$983,903,314
Foreign.....	1,548,703	16,080,640
Total.....	\$77,725,700	\$899,983,953
Imports—Free of duty.....	\$50,913,135	\$304,100,037

## IMPORTS AND EXPORTS OF GOLD AND SILVER AT SAN FRANCISCO.

We have received this week from the Collector of Customs at San Francisco the details of imports and exports of gold and silver through that port for the month of April, and they are presented below, together with the figures for the preceding months, thus completing the results for the ten months of the fiscal year 1896-97. The imports of gold were a little less than in March, the amount received reaching \$92,689, of which \$86,789 was in bullion, and of silver there came in \$106,178, of which \$77,527 was bullion. There has been received during the ten months a total of \$9,454,449 gold and \$1,790,239 silver, which compares with \$348,354 gold and \$1,672,039 silver in 1895-96. The shipments of gold during April were \$51,390 coin and \$100 bullion, and the exports of silver have been \$49,012 coin and \$372,644 bullion. For the ten months the exports of gold have been \$972,376, against \$599,619 in 1895-96 and \$8,046,086 silver has been sent out, against \$10,263,335 in 1895-96. The exhibit for April and the ten months is as follows:

## Monetary &amp; Commercial English News

LONDON, SATURDAY, May 13, 1897.

[From our own correspondent.]

The new Greek Government intimated at the end of last week that it would gladly welcome intervention by the Powers, but did not officially apply for mediation. All the Powers were willing to act at once with the exception of Germany, which insisted that the Greek Government should first withdraw its troops from Crete and acknowledge its autonomy; in other words, give up all claim to the island; whilst the Greek Government was also required to commit its case without reservation to the Powers. The Greek Government feeling itself powerless to resist the Turks further, and anxious to avoid useless bloodshed, submitted to the harsh terms of Germany, and intervention was immediately undertaken.

The attitude of the Sultan is somewhat in doubt. He recalled Ghazi Osman Pasha from Salonica because of the warm reception everywhere accorded to the Hero of Plevna, and there is a general belief that already the Sultan is beginning to fear the military influence of Edhem Pasha. The best hopes, therefore, are founded upon the timidity of the Sultan. On the other hand, the Mohammedans are naturally elated, and are much irritated by the intervention of the Powers.

It is to be feared that the conclusion of a satisfactory peace will be difficult. This country, France and Italy are anxious to protect Greece from loss of territory and from an oppressive war indemnity. Russia, it is thought now, likewise wishes to protect Greece. She was not sorry that the Greek pretensions to Salonica and Constantinople should be destroyed, but now that she is not able to play a great part in the Balkan Peninsula, it is everywhere believed that Russia is anxious to come forward as her protector. On the other hand, Germany is so eager to favor the Turks in every possible way that she will probably insist upon a large indemnity.

Germany wants large concessions for railway building and the like in Turkey, and she desires likewise to gain political influence, so that she may play off Turkey against Russia if an occasion should arise. Probably, likewise, she hopes to deprive this country of some of its commercial importance in Turkey. At all events, Germany has been consistently hostile to Greece from the beginning, and ostentatiously friendly to Turkey. At the same time, it is believed in the best political circles and in the highest financial circles, that the concert between the Powers will be maintained and that a reasonable peace will be secured. The Hungarian Prime Minister in the Hungarian Parliament on Wednesday declared that the aims of Russia in the East are identical with those of Austria-Hungary; that both are striving for tranquillity and order. If that be so, Germany will not be able to defeat the friendly desire of the other five Powers to protect Greece, though no doubt she may make serious difficulties.

The condition of Austria-Hungary itself is giving rise to much uneasiness. The present Government has no majority; Austria proper and Hungary have not yet arranged the ten-years term of union which ought to be at once renewed, and there are grave dissensions between the Germans and the Czechs in Bohemia. All that, however, is calculated to make the Emperor Francis Joseph exert all his great influence to preserve peace abroad.

The condition of Italy too, is disquieting. The Rudini Cabinet is determined not to abandon altogether its African colony, and it is evident that this will result in a very sharp struggle of parties. What the consequence might be if the

Pope were to instruct Roman Catholic voters to take part in the next election nobody can foresee. The famine and plague in India, unfortunately, are not much abating, and New South Wales, Victoria and the southern part of Queensland are threatened with a third year in succession of drought. Happily, the prospect in South Africa seems to be clearing. There is a very general expectation amongst all those connected with South Africa that the Boer Government will make very great concessions to the Uitlanders.

As a result of this and the universal opinion that peace will be restored almost immediately in Europe, there has been a wonderful revival in the stock markets this week. In many cases prices have risen 100 per cent and in one or two cases even more. The most active day was Monday, when the crowds surrounding the Stock Exchange reminded one of the wild times of the boom of 1895. Tuesday and Wednesday were quieter but there was a rush to buy again on Thursday. There was also a much larger business done in American securities than for a long time past. If the tariff bill were only settled in some way or other we should probably see a considerable increase in American investment.

All the intelligence received here is that President McKinley is in full sympathy with Mr. Gage and that the latter is preparing efficient measures for restoring order in the currency. If that is done, European investment will prove very large. There has not been much business in South American securities. It is evident that the failure of the crops is telling severely upon Argentine trade. The insurrection in Uruguay continues, and the condition of Brazil is anything but promising. Continental markets are all strong and hopeful, and both French and Germans are buying South African shares here upon a large scale.

The Bank of England on Thursday reduced its rate of discount from two and a-half per cent to two per cent. It has hesitated for some weeks because of the threatening state of politics and of the consequent desire of the Continental banks to strengthen their gold reserves. Now, however, that political apprehension has so much abated, the Continental demand for gold has practically ended, and New York seems to be supplying Austria with all she wants.

Japan, it is true, is still buying gold, and as she is about to bring out a loan for four millions sterling, she will no doubt take a considerable amount during the course of the year. But the Japanese demand standing alone is not very important. At all events rates in the open market have fallen away so completely that the Bank of England has not found it possible to keep up its rate any longer.

The silver market is without life, but the India Council has this week sold the full amount of drafts offered, that is 35 lacs, about 30 in bills and about 5 in transfers. The average price of the bills was a trifle over 1s. 2½d. per rupee.

The long-expected sterling loan is announced. It is for 3½ millions sterling, is to bear interest at 2½ per cent and the minimum price is 95½.

The "Railway News" of London reports the traffic receipts for the week ending May 9 of 55 railways of the United Kingdom which make weekly returns at £1,661,788, against £1,584,349 in the corresponding week of last year, an increase of £80,439. For the nineteen weeks of the current half-year receipts were £29,169,736, an increase of £841,477.

Messrs. Pixley & Abell write as follows under date of May 13:

Gold—Prices of a week ago are maintained, and although there is at present no inquiry for the East, the demand for Austria has absorbed all arrivals. The Bank has received £73,000 in sovereigns, and has sold £15,000 for Vienna. Arrivals: Silver Plate, £45,000; South Africa, £85,000; New Zealand, £146,000; West Indies, £33,000; total, £299,000. Shipments to Bombay, £18,000.

Silver—The price gradually fell to 27½d. when, with America holding off, recovery ensued, and the market closes steady at 27½d. The Bombay price day is 77½ rupees per 100 tolas. Arrivals: New York, £219,000; West Indies, £27,000; total, £246,000. Shipments: Bombay, £72,400; Calcutta, £7,500; total, £79,900.

Mexican Dollars—These coins have scarcely been dealt in, and their nearest price is their silver value of 27½d. Shipments to Penang, £1,000.

The quotations for bullion are reported as follows:

Of the above imports for the week in 1897 \$22,759 were American gold coin and \$260 American silver coin. Of the exports during the same time \$7,830 were American gold coin.

—“Undercurrents Bearing on Values”, being Supplement No. 3 to “Toby's Digests and Tables”, prepared by George P. Toby of the Investment Department of H. B. Hollins & Co., is now being distributed among the customers of the firm. The output, prices and foreign trade statistics of leading staple articles for a series of years are so stated in tabular form as to permit of ready comprehension of the interesting changes that are taking place with respect to the same.

—Notice is given that on and after June 1st, 1897, the Mercantile Trust Company, of New York, will pay coupon No. 19 of the first mortgage 5 per cent bonds of the Iowa Central Railway Company, and on and after June 1st, 1897, the Central Trust Company, of New York, will pay coupon No. 24 of the Keithsburg Bridge Company first mortgage 6 per cent bonds, due June 1st, guaranteed by the Iowa Central Railway Company.

—\$150,000 Richmond Railway & Electric Co. first mortgage bonds are offered for sale at 82½ by W. H. Cooper, 45 Broadway. For particulars see his advertisement. A map of this company's system is published on page 75 of the STREET RAILWAY SUPPLEMENT, issued with to-day's CHRONICLE.

—Messrs. Redmond, Kerr & Co. advertise on page viii of to-day's issue a selected list of high-grade investment securities. On most of these issues special circulars can be had on application at either the New York or Philadelphia office of the firm.

—Coupons and dividends payable at the office of the Farmers' Loan & Trust Company on and after June 1 will be found advertised in to-day's issue.

—Messrs. N. W. Harris & Co., 31 Nassau Street, will send, on request, a new list of city and county bonds offered by them for investment.

WALL STREET, FRIDAY, MAY 28, 1897—5 P. M.

**The Money Market and Financial Situation.**—There is a more favorable sentiment in Wall Street regarding railway securities as a consequence of the Supreme Court decision handed down on Monday denying the right of the Inter-State Commerce Commission to prescribe railway traffic rates. It is hoped that this decision foreshadows other legal and possible legislative action which will result in establishing the railroad traffic of the country on a more satisfactory basis than it has recently occupied.

Sentiment was also favorably affected by the beginning of work on the tariff bill in the Senate and the prospect of a conclusion of that matter within a reasonable time. When this is done the chief hindrance to industrial and commercial activity will have been removed.

Because of these and other less important reasons, including more favorable reports of railway earnings, especially those from the South and Southwest, business at the Stock Exchange has been better distributed this week than of late, showing an increase in commission house transactions and some buying of a more substantial character than has recently been common. Naturally enough under these conditions the tendency of prices has been upward, and except in a few cases, for reasons which are noted under our review of the stock market, quotations for railway securities are generally higher than last week. Little notice was taken of the fact that early in the week gold was engaged for export. The movement has been limited to \$2,850,000 and not all the amount was taken from the Sub-Treasury, as a part of it was supplied by the banks.

The open market rates for call loans on the Stock Exchange during the week on stock and bond collaterals have ranged from 1 1/4 to 1 1/2 per cent. To-day's rates on call were 1 1/4 to 1 1/2 per cent. Prime commercial paper is quoted at 8 1/2 to 4 1/2 per cent.

The Bank of England weekly statement on Thursday showed a decrease in bullion of £147,075 and the percentage of reserve to liabilities was 51.54, against 51.37 last week; the discount rate remains unchanged at 3 per cent. The Bank of France shows an increase of 9,625,000 francs in gold and a decrease of 525,000 francs in silver.

The New York City Clearing-House banks in their statement of May 22 showed an increase in the reserve held of \$1,488,100 and a surplus over the required reserve of \$45,998,950, against \$44,490,500 the previous week.

	1897. May 22.	Differen- s fr'm Prev. week.	1896 May 23.	1895. May 25.

**Foreign Exchange.**—The foreign exchange market has been weak on a limited volume of business, and rates are fractionally lower than our last quotations.

To-day's actual rates of exchange were as follows: Bankers, sixty days' sterling, 4 85 3/4 @ 4 86; demand, 4 86 3/4 @ 4 87; cables, 4 87 @ 4 87 1/4.

The following were the rates of domestic exchange on New York at the under-mentioned cities to-day: Savannah, buying 1-16 discount, selling par; Charleston, buying par, selling 1/2 premium; New Orleans, bank, \$1 50 premium; commercial, 25c. premium; Chicago, 60c. per \$1,000 premium; St. Louis, 70c. @ 90c. per \$1,000 premium.

**State and Railroad Bonds.**—Sales of State bonds at the Board are limited to \$1,000 Virginia fund. debt 2-3s of 1991 at 64 3/4.

The market for railway bonds has improved as the week advanced. The volume of business has increased and in most cases prices are better. Prominent among the exceptions are Central of New Jersey gen. 5s, which suffered a further decline of over 2 per cent. These bonds have recovered somewhat to-day, however. Some of the Baltimore & Ohio issues sold on Thursday from 8 to 10 points or more below recent quotations, on reports that interest coupons maturing June 1st will not be paid. The list of active issues which have advanced from 1 to 2 1/2 per cent includes Atchison adjustment 4s, Erie 4s, prior and gen. lien 3s, Southern Railway, Kansas Pacific 1sts, Missouri Kansas & Texas 2ds and St. Louis & San Francisco 4s. Among the most active have been the Atchison, Northern Pacific, Erie, Chesapeake & Ohio, Missouri Kansas & Texas, St. Louis & San Francisco and Texas & Pacific issues, many of which close higher than at our last quotations.

**Railroad and Miscellaneous Stocks.**—A more hopeful tone has characterized the stock market this week than has recently been noted and with an increase in volume the business has been somewhat better distributed. The active railroad list has been especially firm, having advanced an average of nearly 2 points. Lake Shore, Burlington & Quincy, Central of New Jersey, Northern Pacific preferred and Rock Island have advanced more than the average mentioned. The granger group and some of the Southern and Southwestern stocks have been notably strong on current traffic reports and future prospects. Central of New Jersey has been the most active stock on this list and made its lowest record on Monday, when it sold at 68 1/4. It rallied to 74 1/4 on Wednesday and closes at 74 1/4. The other coalers were weak. Baltimore & Ohio declined rapidly on rumors that interest due June 1st will not be paid, selling on Thursday at 9 1/4, a decline of 3 points from the opening price on Wednesday. Cleveland Cincinnati Chicago & St. Louis preferred dropped 5 points below the last previous sale on the offering of a few shares accompanied with the rumor of a possible reduction in the dividend rate.

Chicago Gas has continued the active feature of the miscellaneous list but has fluctuated within a narrow range. American Sugar advanced 3 points on what was considered favorable tariff prospects. American Tobacco, Western Union and United States Leather preferred have each advanced from 1 to 2 per cent. United States Rubber, both common and preferred, declined sharply on the execution of selling orders and a change in the executive officers of the company.

## NEW YORK STOCK EXCHANGE—ACTIVE STOCKS for week ending MAY 28, and since JAN. 1, 1897.

# Investment AND Railroad Intelligence.

## RAILROAD EARNINGS.

The following table shows the gross earnings of every STEAM railroad from which regular weekly or monthly returns can be obtained. The first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the period from January 1 to and including such latest week or month.

The returns of the street railways are brought together separately on a subsequent page.

ROADS.	Latest Gross Earnings.		Jan. 1 to Latest Date.

Figures given do not include Oregon Ry. & Nav., Un. Pac. Denver & Gulf, Denver Leadville & Gunnison, Montana Union and Leavenworth Topeka & Southwestern. These figures include results on leased lines. Includes earnings from ferries, etc., not given separately. Mexican currency. Includes only half of lines in which Union Pacific has a half interest. Includes operations of the Chic. Burlington & Northern in both years.

Covers results for lines directly operated east of Pittsburg. The earnings for the fourth week of April in 1895 were \$1,411,000. Austin & Northwestern, Central Texas & Northwestern and Ft. Worth New Orleans. Includes St. Louis Alton & Terre Haute for all periods.

**Latest Gross Earnings by Weeks.**—The latest weekly earnings in the foregoing are separately summed up as follows: For the third week of May our preliminary statement covers 60 roads, and shows 5.39 per cent increase in the aggregate over the same week last year.

**Net Earnings Monthly to Latest Dates.**—The table following shows the net earnings of STREAM railroads reported this week. A full detailed statement, including all roads from which monthly returns can be obtained, is given once a month in these columns, and the latest statement of this kind will be found in the CHRONICLE of May 22, 1897. The next will appear in the issue of June 19, 1897.

## STREET RAILWAYS AND TRACTION COMPANIES.

The following table shows the gross earnings for the latest period of all STREET railways from which we are able to obtain weekly or monthly returns. The arrangement of the table is the same as that for the steam roads—that is, the first two columns of figures give the gross earnings for the latest week or month, and the last two columns the earnings for the calendar year from January 1 to and including such latest week or month.

<sup>a</sup> Includes results on North Side Traction Company, which was leased February, 1897 to the Second Ave. Traction Co.

**Street Railway Net Earnings.**—The following table gives the returns of STREET railway gross and net earnings received this week. In reporting these net earnings for the street railways, we adopt the same plan as that for the steam roads—that is, we print each week all the returns received that week, but once a month (on the third or the fourth Saturday) we bring together all the roads furnishing returns, and the latest statement of this kind will be found in the CHRONICLE of May 22, 1897. The next will appear in the issue of June 19, 1897.

### Peoria Decatur & Evansville Railway.

(Report for the year ending Dec. 31, 1896.)

**General Remarks.**—Notwithstanding the general depression in business throughout the country, the volume of traffic has been about the same as in 1895, Receiver Hopkins saying:

The general business condition has had a very depressant effect upon the movement of pig iron, building material, merchandise, coal and other products and commodities which go to make up the tonnage handled by this road, outside of products of agriculture. An increase in grain handled has assisted us to a great extent in overcoming the loss in earnings due to the light movement of other commodities. This grain, however, has been handled a longer distance than usual on account of the demand in the South, but, as is usual with long hauls, the rate per ton per mile for such haul is much less than for short hauls. The outlook now is that the business condition as to the movement of grain will continue during the year 1897, although there is every reason to believe that with the revival of business movements of other products will increase.

**Maintenance of Track.**—But six miles of steel have been purchased during the past three years, which has been insufficient to give necessary rail for side track purposes, much of the rail to sidings being nearly worn out, occasioning frequent derailments when switching trains. There is also more or less new siding being demanded each year. As much as ten miles of steel should be purchased during 1897.

The gross earnings decreased \$47,722, operating expenses decreased \$9,513, leaving a decrease in net of \$38,209, or 13 per cent.

**Equipment.**—There was spent for repairs to cars in 1896 \$45,158, against \$48,749 in 1895. During the year 103 cars were dismantled as not worth repairing. "This condition has existed for some years, and our equipment is, therefore, becoming smaller each year." The report repeats the fact, mentioned last year, that by an Act of Congress all freight cars must be equipped with air-brakes and automatic couplers on or before January 1st, 1898. To equip 600 cars will necessitate

an expenditure of approximately \$63,000. The age, size and condition of the remainder of the equipment (900 cars) is such that it will not be economy to equip them after this manner.

**Coupons Paid.**—The first mortgage coupons paid with interest during the year were: Evansville division, due Sept. 1, 1895, and March, 1896, \$90,820; Peoria division of January and July, 1896, \$79,472; total, \$170,292.

**Finances.**—Principal of P. D. & E. bills payable remains the same as in the last report, viz.: \$808,591. Interest thereon due and accrued, \$175,295; there are also \$25,000 of receiver's bills payable; equipment obligations were slightly reduced, leaving \$12,330 outstanding; no additional receiver's certificates were issued, \$18,017 only being outstanding. The report states also that since January, 1897, to May 1, the property suffered from severe floods, which will necessitate an increase in operating expenses for 1897.

**Statistics.**—Earnings and charges on whole line have been:

	1896.	1895.	1894.	1893.

#### Pacific Mail Steamship Company.

(Preliminary report for the year ending April 30, 1897.)

The company submits the following preliminary statement of earnings and expenses for the year ending April 30, 1897, to be followed (as soon as practicable) by the customary annual report, covering in detail the operations of the company. President C. P. Huntington signs the report, which says:

"As compared with the operations of the previous year there has been a decrease in gross earnings of \$82,789 and a decrease in expenses of \$83,665, resulting in an increase in net earnings of \$3,877.

"The sum of \$150,000, charged to expenses for "general and extraordinary repairs of steamers", is carried to the credit of the fund set aside for that character of repairs, to which account has been charged the sum of \$230,165 expended on its steamers during the year, leaving a balance to the credit of this fund April 30, 1897, amounting to \$123,878.

"In addition to above expenditure for extraordinary repairs the sum of \$126,770 has been paid during the year and charged to "steamer expenses" for ordinary repairs to the company's fleet.

"The company is free from indebtedness, except for current expenses, and had available loans and cash on hand in New York, San Francisco and London April 30, 1897, the sum of \$1,108,146."

#### EARNINGS AND EXPENSES FOR THE YEARS ENDING APRIL 30.

	1896-7.	1895-6.	1894-5.

#### STREET RAILWAYS.

Kings County Elevated.....reorg. 1001

**Albany Railway.—New Mortgage.**—On June 1, the stockholders will vote on the proposition to authorize a mortgage for \$750,000 of 5 per cent 50-year gold bonds, of which \$375,000 will be used to pay for the extension to Cohoes, etc., and the balance reserved for future needs.—V. 64, p. 841.

**American Bell Telephone.—Proposed Union of Independent Exchanges.**—At a meeting of independent telephone interests at Fort Wayne, Ind., on Monday, fourteen States being represented, a provisional committee to take steps toward the organization of a national association was appointed as follows: W. L. Holmes, President Detroit Telephone Co.; J. M. Thomas, President Ohio Telephone Association; Burt Hubbell, Secretary of Pennsylvania Telephone Association, of Pittsburgh; J. C. Duncan, President Southern Telephone Co. of Knoxville, and George M. Beers, President Home Telephone Co. of Fort Wayne. The objects in view are stated as follows:

1. A national association of the independent telephone exchanges of the United States for mutual protection and development.
2. Long distance toll lines by connection of the independent exchanges.
3. An independent long distance service, connecting the great commercial centres in a field now occupied exclusively by the Bell Co.
4. An opposition telephone exchange in Chicago, for which purpose a company has already been organized.
5. Co-operation for resisting any action the Bell Company may take in the courts in reference to the Berliner decision.

On Thursday, Friday and Saturday of this week about two hundred representatives of independent companies met in Chicago for further consideration of the matters above indicated.—V. 64, p. 950.

**American Grocery.—Injunction Against Sale.**—At Trenton, N. J., May 24, Judge Kirkpatrick issued an order restraining the company from disposing of its business under a resolution adopted by the stockholders authorizing the sale of the business of the company upon such terms as the directors shall deem for the best interests of the company.

The restraining order was granted on the application of David A. Hunt, a stockholder, and is directed to T. L. Mar-salis, President. It specifies that nothing therein contained is to be construed as prohibiting the company from transacting its business in the usual way.—V. 64, p. 950.

**Anthracite Coal Companies.—Hearing Adjourned.**—The hearing before Judge Chester, on the application for an order vacating the order issued on May 11 for an inquiry under the new anti-trust law into the affairs of the alleged Coal Trust, was adjourned on Thursday until Tuesday, June 8. An order was made postponing the hearing before the referee until after the determination of the pending motion to vacate the order.—V. 64, p. 939.

**Baltimore & Ohio RR.—Coupon Payments and Defaults.**—The following notice is made regarding the interest due June 1:

"The receivers of the Baltimore & Ohio RR. will pay interest upon the following securities on June 1, viz.: Schuylkill River East Side RR. first mortgage bonds; receivers' certificates issued June 1, 1896, \$5,000,000; receivers' certificates issued Dec. 1, 1896, \$953,000. They will not at that time pay the interest on the Terminal mortgage bonds, 2½ per cent on \$8,500,000, nor will they at the same time pay the interest on the Chicago Division sterling loan of 1877."

The following statement made by the receivers on Thursday clearly indicates that the above-mentioned defaults may be only temporary:

These properties will have been in the hands of the receivers for fifteen months to June 1, and they have received the earnings thereof only for that period, while interest falling due June 1 on the Chicago Division bonds will be the third interest instalment, making eighteen months' interest to be met out of fifteen months' earnings. The receivers will have in their hands surplus earnings for this division applicable to the payment of the interest \$50,000, or possibly more, but not sufficient to pay the \$166,000 interest at that time, and they do not feel that they can pay this interest until the same is earned by the division. Therefore it will necessarily remain in default for a limited period of time.

For the same reason the receivers do not intend to pay the interest upon the Terminal mortgage bonds which fall due June 1. The rentals of the Terminal properties are \$375,000 per annum. Out of the fifteen months' rentals in the receivers' hands they have already paid out two interest installments, amounting to \$332,000, and they have not now sufficient of these rentals in their hands to meet the third installment on June 1. In other words, fifteen months' rentals are not sufficient to pay eighteen months' interest, and consequently these bonds must wait until the rentals of the respective properties are equivalent to the interest upon the bonds.

The figures show that the Chicago division is about earning its interest. The rentals of the Terminal properties also are very nearly equal to the interest upon the Terminal bonds.—V. 64, p. 999.

**Capital Traction Company (Washington, D. C.)—Listed on New York Stock Exchange.**—The New York Stock Exchange has listed this company's \$12,000,000 of capital stock. The company is remarkable in that it has no bonded or other indebtedness except current accounts.—V. 62, p. 137.

**Central Branch Union Pacific RR.—Atchison & Pike's Peak RR.—New Mortgage Trustee.**—An application will be made by the company to the Supreme Court of New York State on June 7, 1897, for an order confirming the appointment of Oakes A. Anea to be trustee under the Atchison & Pike's Peak mortgage of 1865 and trustee under the funded coupon agreement of 1879, to fill the vacancy occasioned by the death of Oliver Anea.—V. 62, p. 908.

**Central Pacific RR.—Protective Measures by Stock and Bond Holders.**—As no arrangement has been made with the United States Government regarding its claims against the company, Speyer & Co., in co-operation with their correspondents in England, Germany and Holland, propose to call for a deposit of Central Pacific Railroad bonds. This step, it is stated, is not taken because of any apprehension regarding the company's ability punctually to meet its obligations, as heretofore, but because it is desired to secure effective representation of the holders, and thereby facilitate satisfactory adjustment with the Government. Notice giving the conditions of deposit will be published shortly. It is understood also that the shareholders' London committee intends asking the stockholders to deposit their shares in New York, London and Amsterdam, with the view of securing proper representation and unity of action.

The company claims that its sinking fund assets which have been heretofore sold by the Government, together with the moneys reserved in the bond and interest account with the Government, were more than sufficient to offset the amounts owing for principal and interest of the subsidy bonds due to and including January 1, 1897. The Government, however, in March made a formal demand for \$9,605,210, the balance which it claims to be due and unpaid as of Jan. 1, 1897. The subsidy bonds still to mature are as follows: Central Pacific, \$10,614,120 on Jan. 1, 1899; \$9,197,000 on Jan. 1, 1899; Western Pacific, \$1,650,560 on Jan. 1, 1899.

It is in view of this condition of affairs that it is thought well for the security holders to unite and so place themselves in a position to facilitate the consummation at an early day of an amicable adjustment of the Government claims.—V. 64 p. 884, 897.

**Central RR. of New Jersey.—Official Statement as to Floating Debt.**—The New York "Sun" on May 22 printed the following letter from President J. Rogers Maxwell:

DEAR SIR:—Answering yours of to-day, I would say one of the causes of the decline in the price of our stock is the persistent attack on the company in some of the daily papers and the repeated and misleading statements of the floating debt of the Lehigh & Wilkesbarre Coal Co., in which company the Central RR. Co. of New Jersey is the principal owner.

We deem it but right to make the following statement: The Lehigh & Wilkesbarre Coal Co., excepting \$375,000 borrowed money, has no floating debt other than that due the Central RR. Co. of New Jersey. The Central RR. Co. of New Jersey has \$1,100,000 borrowed money. The two companies have coal on hand, coal accounts, cash in bank and cash items in excess of both the above-named amounts.

We are suffering from the reduced volume of freight and coal business caused by the general business depression. Your roadway and rolling stock are in good condition and capable of handling a largely increased business without any outlay of new capital. The net earnings of the year so far of the two companies taken together are in excess of the same period last year, and if business improves later in the year should show considerable gains. Yours respectfully,

J. ROGERS MAXWELL, President.

NEW YORK, May 21, 1897.  
—V. 64, p. 706.

**Chickamauga Coal & Coke.—Chattanooga & Durham RR.—Reorganized Company.**—The Chickamauga Coal & Coke, which owns all of the Chattanooga & Durham RR., has made a mortgage that is about to be filed, securing \$400,000 of 6 per cent 20-year gold bonds, interest payable April 1 and Oct. 1 in New York. The bonds mature April 1, 1917, but are subject to call for the sinking fund at par and interest. The mortgage is secured on coal lands and other real estate and properties at and near Chickamauga, Ga., including the Chattanooga & Durham RR. (all the bonds and capital stock of the latter being deposited under this mortgage), &c. The Continental Trust Co., N. Y., is mortgage trustee.—V. 64, p. 706.

**Columbus & Hocking Coal & Iron Company—Receiver's Certificates.**—Receiver J. O. Moss, has been authorized to issue receiver's certificates for \$85,000 in view of a contract with the Philadelphia & Reading Coal & Iron Company to deliver to them at West Superior 50,000 tons of coal. The proceeds of the certificates, it is stated, will be used to pay miners' wages and freight bills.—V. 64, p. 1000.

**Columbus Hocking Valley & Toledo RR.—Notice to Holders of General Mortgage of 1884.**—The Knickerbocker Trust Co. of New York, as mortgage trustee, in place of John H. Devereaux, resigned, requests holders of the 6 per cent

general mortgage gold bonds of 1884, for protection of their interests, to communicate with the company, stating the amount of their respective holdings.—V. 64, p. 842.

**Dry Dock East Broadway & Battery RR.—Quarterly.**—Earnings for the quarter and the nine months ending March 31 have been reported as follows:

3 mos. end.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, surplus.
Mar. 31—					
1897.....	\$154,965	\$24,795	\$23,982	\$33,890	\$14,886
1896.....	170,129	37,347	4,511	32,730	9,128
9 months—					
1896-7.....	\$512,421	\$124,394	\$29,288	\$102,197	\$51,485
1895-6.....	553,798	135,391	10,765	99,658	46,498

In November, 1896, a dividend of 1½ per cent, calling for \$18,000, was paid, and in February, 1897, paid 1½ per cent, but in May, 1897, no dividend was declared.—See V. 64, p. 843.

**Duluth & Iron Range RR.—Dispute as to Land Grant.**—The land grant from the State of Minnesota was for about 506,000 acres, of which 201,790 acres have been patented. To prevent the selection of the remaining acres the Legislature at its recent session passed two bills, one forfeiting the grant and the other appointing a commission to push the claims of the State against the road. A suit to test the constitutionality of the forfeiture bill has now been brought by a Chicago capitalist, who holds \$500,000 bonds of the company which are secured on the land grant. The State contends that the road forfeited the grant because it did not comply with the requirements of its contract with the State in regard to building its road. The company claims that it did comply with the contract, alleging that the topography of the country was responsible for the road not being built in as direct a line as the State believes it should have been constructed.—V. 63, p. 228.

**Erie RR.—Listing of Extended Bonds.**—The New York Stock Exchange has listed the \$2,482,000 New York & Erie bonds, extended at 4 per cent till May 1, 1947. Each old bond is bound up with an engraved extension contract duly signed by the officers of the Erie RR. Co., under its corporate seal.

The contract, after providing for the extension till 1947 at 4 per cent interest, says:

This extension at the reduced rate of interest is made and accepted upon condition that payment of the principal and interest of such bond, as extended, shall be made in United States gold coin of the present standard of weight and fineness, without deduction for any taxes which the company may lawfully be required to retain therefrom; and the Erie Railroad Company covenants to make such payment accordingly of interest as it accrues and of principal upon May 1, 1947. The security of said bond remains unimpaired, and no part of this contract shall be construed to affect its priority or validity.—V. 64, p. 952.

**Fourth Street & Arsenal Street Ry., St. Louis.—Foreclosure Sale June 29.**—The date of the foreclosure sale has been fixed for June 29. The sale will be made subject to the first mortgage bonds for \$50,000.—V. 64, p. 611.

**Galveston La Porte & Houston Ry.—Southern Pacific Company.—Mr. Huntington's Terms Accepted.**—A press dispatch from Houston, Texas, says that Mr. Huntington's offer of \$1,000,000 in guaranteed 4 per cent gold bonds for the Galveston La Porte & Houston Railway was accepted on Saturday last at a meeting of a committee of the creditors.—V. 64, p. 610, 889.

**Georgia & Alabama Ry.—Eight Miles Extension.**—An extension of eight miles on the Fitzgerald branch to Ocilla has been completed and will be put in operation June 1. The new road opens up a timber section.—V. 64, p. 947.

**Harriman & Northeastern RR.—Receiver Appointed.**—George W. Chandler has been made temporary receiver of this road on petition of S. W. Murray and the Pittsburg Locomotive Works. Two coupons are now in default. The road is 22 miles long, running from Harriman Junction to Petros, Tenn., with a branch from James Ferry to Iron Mines, Tenn., 7 miles.—V. 62, p. 40.

**Kansas Central RR.—Sale Postponed.**—The sale has been postponed until June 15.—V. 61, p. 799.

**Kansas City Pittsburg & Gulf RR.—Abstract of Mortgage.**—An abstract of the Kansas City Pittsburg & Gulf mortgage will be found on subsequent pages of this issue. The earnings of this road, which are reported from week to week in the CHRONICLE, indicate a large and growing business, which will be largely increased by the opening very shortly of the line through to Port Arthur on the Gulf of Mexico. The company's first mortgage four per cent bonds will be listed at once on the New York, Boston, London and Berlin Stock Exchanges. They are already listed on the Philadelphia Stock Exchange.—V. 64, p. 953.

**Kansas City & Southwestern RR.—St. Louis & San Francisco RR.—Decree Value of Bonds.**—The Kansas City & Southwestern bonds of 1886 are entitled from the proceeds of foreclosure sale to receive the sum of \$223 from Master Commissioner Dillon at the Central National Bank Building, Topeka, Kansas.—V. 64, p. 567.

**Kings County Elevated Ry.—Quarterly.**—This road, which is in the hands of a receiver, and about to be reorganized, has just reported its earnings for the quarter and the six months ending Dec. 31 as follows:

3 mos. end.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, &c.	Balance, deficit.
Dec. 31—					
1896.....	\$196,407	\$18,139	\$4,142	\$96,285	\$34,004
1895.....	210,573	80,957	3,293	88,918	4,668
6 months—					
1896.....	\$347,538	\$85,570	\$8,244	\$192,077	\$98,283
1895.....	382,722	132,163	6,555	179,809	41,091

Loans and bills payable Dec. 31, 1896, \$217,500; interest on bonds due and accrued, \$196,015; accrued taxes, \$164,411; due for wages and supplies, \$60,833; due on open accounts, \$20,833. Cash on hand, \$42,357; open accounts receivable, \$147,942.—V. 64, p. 798.

**Lake Shore & Michigan Southern RR.—Quarterly—Earnings for the quarter ending March 31 were:**

3 mos. end Mar. 31.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, surplus.
1897.....	\$1,742,177	\$1,811,267	\$83,010	\$1,118,010	\$776,267
1896.....	5,046,870	1,364,356	98,713	1,103,713	850,356

Dividends of 3 per cent (amounting to \$1,483,995) are paid each February and August. Report for the year 1896 was given in CHRONICLE of May 8.—V. 64, p. 1001.

**Lehigh Valley RR.—Earnings in New York State.**—The lines in New York State now include: Lehigh Valley in New York, 283 miles; Lehigh & New York (formerly Southern Central), 115 miles; Rochester Southern, 30 miles; Elmira Cortland & North, (since Feb. 20, 1896), 139 miles, and Middlesex Valley (since Dec., 1895), 30 miles; total, 597 miles. Earnings for the quarter and the nine months ending March 31 have been reported as follows:

3 months ending March 31—	Gross earnings.	Net earnings.	Interest, taxes, etc.	Balance, surplus.
1897.....	\$1,120,576	\$323,340	\$267,506	\$55,834
1896.....	1,101,246	256,809	226,613	27,196
9 months—				
1897.....	\$4,399,941	\$1,663,622	\$803,761	\$865,858
1896.....	3,871,622	1,234,756	695,930	598,928

—V. 64, p. 754.

**Louisville Evansville & St. Louis Consolidated RR.—Old Receivers' Certificates to be paid June 1.**—All receivers' certificates, whether due or not, issued by E. O. Hopkins and James J. Wilson, former receivers, will be paid on and after June 1, 1897, at the National Bank, Evansville, Ind., and the Fidelity Trust & Safety Vault Company, Louisville, Ky. In March, 1897, receivers' certificates for \$324,500 were authorized, of which \$280,000 were to retire these old receivers' certificates now to be paid, \$40,000 for 100 new cars and \$4,500 for interest on Venice & Carondelet bonds.—V. 64, p. 799.

**Metropolitan Street Ry.—Central Crosstown RR. (New York City).**—Transfer Arrangements Changed.—Since the Metropolitan got control of the Central Crosstown Line, the Third Avenue Railroad has been informed that its transfer arrangements with the Crosstown line will be abrogated on June 22.—V. 64, p. 1001.

**Milwaukee Benton Harbor & Columbus—St. Joseph Valley.**—The first-named company, which is a reorganization of the St. Joseph Valley, proposes to build a road from Benton Harbor, Mich., to Nappanee, Ind. The old St. Joseph Valley, extending from Buchanan to Berrien Springs, Mich., 11½ miles, is being rebuilt, and work is in progress on an extension from Berrien Springs to Benton Harbor, 16 miles. A. A. Patterson, Jr., Benton Harbor, Mich., is President.

**Missouri Pacific Ry.—St. Louis Iron Mountain & Southern Ry.—Payment of Cairo Arkansas & Texas Bonds due June 1.**—As already announced the \$1,450,000 first mortgage bonds of the Cairo Arkansas & Texas Railway Co., maturing on June 1st next, will be paid in cash on and after that date at the office of the Mercantile Trust Co.

**Listing of Extended Iron Mt. Bonds.**—The New York Stock Exchange has listed the \$4,000,000 first mortgage of the St. Louis & Iron Mountain RR. Co., dated August 1, 1867 (Farmers' Loan & Trust Co., trustee), which fell due May 1, 1897, and have been extended to the first day of May, 1947, at 4½ per cent per annum, the coupons being payable in February and August. The first coupon, due August 1, 1897, is for three months interest only. The original bonds are bound in with the extension contracts and new coupon sheets. The extension contract provides that the bonds may be retired by the company on six months' notice at 105 and interest. The statement to the Exchange says:

The property covered by this mortgage is the railroad and franchises located in the State of Missouri, extending from St. Louis to Pilot Knob; also the branch from Mineral Point to Putout, and from Hiramark to Belmont, in all about 210 miles, together with the lands, buildings and other property belonging to this company.—V. 64, p. 843, 800, 708.

**Nassau Electric RR. (Brooklyn, N. Y.).—Quarterly.**—Earnings for the quarter ending March 31, 1897, have been reported as follows. The lines of the Atlantic Avenue RR., including Brooklyn Bath & West End, were leased in April, 1896, and their results are included below:

1896-97—	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, surplus.
3 mos. to Mar. 31.	\$334,539	\$112,408	\$30,736	\$142,771	\$373
3 mos. to Dec. 31.	367,782	130,417	17,300	145,806	1,011
3 mos. to Sept. 30.	551,170	242,088	18,656	177,869	82,876
Total 9 months	\$1,253,491	\$484,913	\$66,692	\$466,445	\$85,160

The six months ending March 31 are of course the poorest half of the year. No full comparison with the corresponding periods of last year is possible, as the Atlantic Avenue lines were not leased till April, 1896. For the nine months of 1895-96, however, the combined gross earnings of the three roads above mentioned were \$1,944,967. The increase for the current year is therefore over \$300,000. This result is considered very satisfactory, and, with warm weather, earnings are expected to show a growing surplus over all charges. A map of the company's lines will be found in the current issue of the STREET RAILWAY SUPPLEMENT.—V. 64, p. 793.

**New York Central & Hudson River RR.—New Mortgage Authorized.**—At Albany on May 26 the new \$100,000,000 refunding mortgage was duly authorized by a vote of \$70,089,300 of the company's \$100,000,000 of capital stock.—V. 61, p. 1001.

**New York New Haven & Hartford RR.—Favorable Decision in Bridgeport Grade-Crossing Case.**—At New Haven, Conn., May 26, the Connecticut Supreme Court handed down a decision sustaining the lower court in its finding against F. J. Mooney, who sought to restrain the city of Bridgeport from paying its share—about 16 per cent—under the contract with the company for four-tracking its lines through that city. The proposed improvement, which will cost about \$2,500,000, it is understood, can now be proceeded with whenever the company is so disposed.

**Electric Line Opened.**—The new electric railway between Hartford and New Britain was opened to the public on Monday, 3,237 passengers being carried on the opening day. The cars were run regularly at half-hour intervals, covering the ten miles in twenty minutes. The time in transit it is thought will soon be reduced to fifteen minutes, the electric trains at present using only one of the two tracks, a turnout midway permitting the trains bound in opposite directions to pass.—V. 64, p. 853.

**Northern Pacific Ry.—Bonds Called.**—In our advertising columns are published the numbers of 382 Northern Pacific general first mortgage bonds called for payment, interest ceasing July 1.—V. 64, p. 843.

**Omaha Minneapolis & Buffalo RR.—Mortgage for \$15,000,000 Filed.**—A \$15,000,000 mortgage has been filed at Omaha by the Omaha Minneapolis & Buffalo RR. Co. of Nebraska to the Missouri Kansas & Texas Trust Co., as trustee. The line is projected to run from Omaha northeasterly through Iowa and Minnesota, and also to Buffalo, N. Y., by way of Southern Canada, forming northern and eastern connections for the Kansas City Pittsburg & Gulf RR.

**Oregon Improvement Company.—Amy Committee Offers to Cash First Mortgage Coupons.**—The Amy Committee gives notice that holders of first mortgage bonds who deposit the same on or before June 15, 1897, under the agreement dated Nov. 18, 1896, will receive from the committee cash for the coupon maturing June 1, 1897, attached to such bonds. The offer of the Waterbury Committee to cash the first mortgage coupons was mentioned last week.—V. 64, p. 1000.

**Oregon Short Line RR.—New Securities.**—The mortgage securing the B Income bonds having been authorized by the new company and the trust accepted by the State Trust Co., the securities of the reorganized company, the Oregon Short Line RR. Co., will be issued as soon as the legal formalities in connection with the recording of the mortgage can be perfected.—V. 64, p. 841.

**People's Railway (St. Louis).—To be Sold June 29.**—The Court has ordered the foreclosure sale of this road for June 29 next. The property is known as the Fourth Street Cable Line.—V. 64, p. 611.

**Pittsburg Bessemer & Lake Erie RR.—New Equipment.**—This company has ordered 600 fifty-ton steel cars and ten large locomotives. The old road-bed has been largely reconstructed so that the new line will have grades that will permit of heavy train loads. It is expected to have the road in operation from the Carnegie works near Pittsburg to Conneaut harbor on Lake Erie by the middle of August.—V. 64, p. 800.

**Peoria Decatur & Evansville RR.—Reorganization Plan.**—First Mortgage Coupons.—The committee, consisting of Moses L. Scudder, Charles S. Fairchild, Jenkins Van Schaick, R. Suydam Grant and William H. Payne, has prepared a plan for the reorganization of the company. Copies of the plan can be obtained from the New York Security & Trust Co., 46 Wall Street. Holders of first mortgage bonds are invited to deposit the same and to receive an advance of \$25 in cash for one past due coupon and thereafter \$25 for each maturing coupon, being in effect 5 per cent per annum until the new bonds begin to draw interest. If the plan is declared inoperative the first mortgage bonds can be withdrawn without charge.

**The Plan.**—The chief feature of the plan is that the first mortgage bondholders are asked to consent to a reduction of interest from six to five per cent, exchanging their bonds for a new first mortgage bond bearing that rate of interest in consideration of the second mortgage bondholders and stockholders contributing in cash \$543,000 for the payment of past-due interest on the firsts, the receiver's debts and for improving the property at a cost of \$260,000.

The operation of the property under the receiver for the three past years shows the small average deficiency of \$795 per annum below interest on the first mortgages at 6 per cent, but net earnings have been more than sufficient to meet the interest payments called for under the reorganization plan.

The road is 238 miles long and runs from Evansville to Pekin. The first mortgage bonds are now divided—\$1,287,000 are secured on the Peoria division, 110 miles long, and \$1,470,000 on the Evansville division, 128 miles long. It is proposed to create a new mortgage for \$3,000,000, covering the entire line and the interest of the company in the Peoria Terminal, and to make the new bonds run forty years, whereas the old divisional bonds expire in 1920.

If the firsts will not accept this proposition the alternative is foreclosure of the first mortgages, a suspension of interest.

for some time and finally raising the money to put the property in order.

The new securities proposed are as follows:

First mortgage 5 per cent 40-year gold bonds.....	\$3,000,000
Of which in exchange for old divisional firsts.....	2,757,000
To acquire Peoria & Pekin Union stock.....	243,000
Temporary second mortgage, due in twenty years but subject to call when drawn by lot.....	500,000
Of which for second mortgage bondholders' subscription..	477,600
In treasury.....	22,400
Preferred stock, 5 per cent non-cumulative.....	2,550,000
Of which for old second mortgage bonds.....	2,038,000
Subscription.....	417,000
In treasury.....	44,400
Common stock.....	3,500,000
Of which for second mortgage subscription.....	1,670,400
" " common stock subscription.....	1,630,000
In treasury.....	199,600

To provide the cash required, the second mortgage bondholders (amount outstanding \$2,038,000) are expected to contribute \$200 per bond in five monthly instalments. For each \$1,000 of this cash contribution they are to receive: \$1,000 temporary mortgage bond; \$1,000 new preferred stock, and \$4,000 new common stock. In addition to this there is to be given \$2,038,000 new preferred stock in exchange for the old second mortgage bonds.

Holders of common stock in the new company (amount outstanding \$3,400,000) are to be allowed to acquire stock in the new company to the extent of one-fifth of their present holdings on paying \$7 50 per share of the new stock.

As an inducement to the first mortgage bondholders to deposit their bonds under this agreement, the committee proposes to advance to each bondholder \$25 on each past-due coupon or maturing coupon until the new 5 per cent bonds begin to draw interest, in order that the first mortgage bondholders may receive interest past due at once and interest during reorganization on regular interest payment days.

The terms of exchange of old for new securities will therefore be as follows:

—OLD SECURITIES IN—		—WILL RECEIVE—				
Paying	Assess.	Cash.	New 1st	2d M.	Prof. Stk.	Com. Stk.
AMOUNTS AS FOLLOWS.						
1st mort., \$1,000.....	None.	\$25	\$1,000			
2d mort., \$5,000.....	20%			\$1,000	\$6,000	\$4,000
Common stock, \$500.....	\$7 50					100

† For each coupon pending reorganization.

See also advertisement in another column.—V. 64, p. 664.

**Reading Company—Philadelphia & Reading Coal & Iron.**—Payment of Coal Company Bonds June 1.—The \$739,000 bonds of the Coal & Iron Company maturing June 1, 1897, secured upon lands known as the Reed tract, Wood estate, Hartman & Meyer, &c., tract, Forbes & Delano, &c., tract, will be paid at maturity either by J. P. Morgan & Co., New York, or Drexel & Co., Philadelphia.—V. 64, p. 955.

**Richmond Traction.**—Results Since Opening.—The Richmond Traction Co. has just issued an approximate statement of its operations for the first eleven months of its existence, or say from date of the opening of its first section, June 20th, 1896, to May 31st, 1897, showing gross earnings of \$106,000; operating expenses, taxes and accident insurance, \$70,000; net earnings, \$36,000. Interest on outstanding bonds June 30th, 1896, to May 31st, 1897, \$18,000. Surplus earnings (applicable to stock), \$18,000. The company completed and began the operation of its entire system April 10th, 1897, and during the period above referred to the company had only about 75 per cent on an average of its mileage in operation. That the company should have earned full interest charges and also a dividend at the rate of over 6 per cent on its capital stock under these circumstances is regarded as most promising.—V. 61, p. 1179.

**Saginaw Consolidated Street Ry.—Union Street Ry.**—Receiver Appointed.—At Saginaw, Mich., May 22, Homer Loring of Newton, Mass., was appointed receiver of these companies.—V. 64, p. 954.

**St. Louis & San Francisco RR.—Old Receivers Held Liable for Branch Line Rentals.**—At St. Louis, May 24, Judges Sanborn and Thayer, in the U. S. Circuit Court of Appeals, affirmed the decree of the lower court holding the receivers of the old company under the contracts with the branch lines liable for the rentals accruing during the receivership. The amount involved is \$225,000, which was deposited with the Trust Company by the Reorganization Committee pending a settlement of the suit. Two of the branch lines waived the claim when they were taken into the reorganized company, and the amount named above goes to the Kansas Midland and the St. Louis Kansas & Southwestern companies, the two branch lines which were not taken over by the Frisco.—V. 64, p. 507.

**South Brooklyn Railroad & Terminal Company.**—Judgment Entered for \$60,767.—Judgment for \$60,767 was entered Tuesday against this company, of which John W. Ambrose is President, in favor of W. Bayard Cutting. The claim is for \$11,824, advanced Sept. 10, 1891, and the balance is on eleven notes made between Feb. 9, 1892, and May 3, 1894.

**Springfield (Vt.) Electric Ry.—Town Offers Stock Bonus.** At a special town meeting the town of Springfield, Vt., on May 22, voted to give its \$30,000 worth of stock in the uncompleted Springfield Electric Railway to any responsible party who will complete the road and put it in running condition. Of the \$120,000 capital stock only \$53,300 has been paid in, and of this amount this town paid \$30,000. The road has built about 5 miles of track but no work has been done

since December, 1896. It is estimated that about \$100,000 is needed to put the road in operation. There are \$100,000 of bonds authorized but none sold, though some are held by the contractors.

**Sunbury & Erie RR.—Pennsylvania RR.—Offer to Purchase Bonds Due Oct. 1, 1897.**—The Pennsylvania RR. Co. gives notice that from June 1 until July 1 it will purchase at \$1,022 50 per bond the Sunbury & Erie first mortgage seven maturing Oct. 1, 1897.—V. 64, p. 465, 470.

**Sunbury & Lewistown Ry.—Bonds Listed.**—The New York Stock Exchange has listed \$500,000 of this company's authorized issue of \$600,000 first mortgage 4 per cent gold bonds of 1896, due July 1, 1936. The mortgage covers specifically the road from Lewistown, Pa., to Selins Grove Junction, Pa., 43½ miles. The underlying mortgages have been satisfied of record. The bonds are payable, principal and interest, tax free. The earnings are reported as follows:

Year.	Gross.	Net.	Oth. Inc.	Int., etc.	Bal. Sur.
1896.....	\$414,885	\$98,143	\$19,734	\$32,467	\$85,410

—V. 63, p. 561.

**Supreme Court Decisions.**—Inter-State Commerce Commission have no Power to Make Rates.—Several cases involving the construction of parts of the Inter-State Commerce law were decided in the Supreme Court this week. The most important was that of the Inter-State Commerce Commission vs. the Cincinnati New Orleans & Texas Pacific Railroad Company and others upon a question asked by the Court of Appeals for the Sixth Circuit, viz., "Has the Inter-State Commerce Commission power to fix rates." The question was answered by the Court, said Justice Brewer, in the opinion announcing the judgment, in the case to which the Commission and the Cincinnati Southern Railway Company were parties last year, when the Court said: "We do not find any provision of the act that expressly, or by necessary implication, confers such a power."

A fuller report and a review of the decision will be found in our editorial department.

**Taxation of Bonds in Pennsylvania.**—New York Susquehanna & Western RR.—Recent Ruling.—Auditor-General Mylin of Pennsylvania has ruled in the case of the New York Susquehanna & Western that the Treasurer of the company shall hereafter take it for granted that all the bonds of the company are held in Pennsylvania unless he can prove otherwise. A circular setting forth the necessity of getting information as to the residence of bondholders has therefore been sent out by Treasurer Moore. Heretofore it has been the custom to collect the Pennsylvania tax on coupons only from bonds known to be held in that State, returning the rest as "residence unknown." The company owns in fee but very little mileage in the State of Pennsylvania.—V. 64, p. 664.

**Terre Haute & Loganport RR.—Interest Payment.**—M. L. Scudder, chairman of the First Mortgage Bondholders' Committee gives notice to the holders of New York Security & Trust Company certificates for first mortgage bonds that they have collected the interest which fell due on said bonds last January, with interest thereon to May 24, being \$30 72 for each coupon, which can be collected at the New York Security & Trust Company.—V. 64, p. 467.

**Union Pacific Ry.—Western Union.—Telegraph Arrangement to End Sept. 1.**—Judge Munger, in the United States Court at Omaha, on May 24, ordered that the arrangement by which the Western Union Company has had exclusive telegraph privileges along the railroad lines of the Union Pacific system must cease Sept. 1. Judge Munger suggested that the question of adjusting the property rights of the two corporations would be brought before Judge Cornish, special master in chancery in the Union Pacific case. The decision of the United States Supreme Court, which led up to the present order, was cited in the CHRONICLE of Nov. 30, 1895, page 968; see also p. 926.—V. 64, p. 1002, 758.

**Union Railway (N. Y. City).—Quarterly.**—Earnings for the quarter and the nine months ending March 31 were:

3 mos. end.	Gross earnings.	Net earnings.	Other income.	Interest, taxes, etc.	Balance, sur. or def.
Mar. 31.					
1897.....	\$111,194	\$30,995	\$83	\$34,029	def. \$2,951
1896.....	102,370	28,036	249	29,287	def. 1,002
9 mos.					
1897 7.....	\$393,613	\$157,968	\$582	\$100,820	sur. \$57,730
1895 6.....	349,741	118,628	1,166	93,676	sur. 26,118

—V. 64, p. 182.

**United States Rubber.—New President.**—At the annual meeting on Wednesday R. D. Evans declined re-election and nominated F. M. Sheppard, who was unanimously elected. The other officers elected were: Vice-president, James B. Ford; Treasurer, Charles R. Flint; Assistant Treasurer, H. M. Sadler, jr.; Secretary, Samuel P. Colt, of Providence; Executive Committee: F. M. Sheppard, James B. Ford, Charles R. Flint, Samuel P. Colt, Henry L. Hotchkies, of New Haven, and M. C. Martin, of New Brunswick, N. J.—V. 64, p. 1002.

**Western Gas Co. (Milwaukee).—Securities Listed.**—The New York Stock Exchange has listed \$3,805,500 of this company's first mortgage collateral trust 5 per cent gold bonds of 1933 and also its \$4,000,000 capital stock. The company is a New York corporation owning the entire capital stock of the Milwaukee Gas Light Co., which last is free from incumbrance.

**Wilmington Newbern & Norfolk Ry.—Foreclosure Sale Ordered.**—Judge Simonton, at Raleigh, N. C., May 23, ordered the foreclosure sale of this road, the date of sale to be fixed later.—V. 64, p. 563.

## Reports and Documents.

### KANSAS CITY PITTSBURG & GULF RR. CO.

ABSTRACT OF FIRST MORTGAGE, DATED APRIL 1, 1897, SECURING 5 PER CENT GOLD BONDS  
DUE APRIL 1, 1923.

#### PARTIES.

The KANSAS CITY PITTSBURG & GULF RAILROAD COMPANY, organized under the laws of Missouri, and hereinafter called "The Company", party of the first part, and the MISSOURI KANSAS & TEXAS TRUST COMPANY, of Kansas City, Missouri, and THE STATE TRUST COMPANY, of New York, hereinafter, for brevity, called "Trustees", parties of the second part, and holders of the bonds hereinafter described, parties of the third part.

#### PREAMBLE—DESCRIPTION OF BONDS.

WHEREAS, the Company, for the purpose of meeting the expense of the completion, construction, repair and equipment of its line of road and branches, and the purchase and acquisition of the stocks and first mortgage bonds of other railroad companies, if necessary to maintain said road or any part thereof, has resolved to issue its bonds to an amount not exceeding \$25,000 per mile of completed single main track and of yard and terminal tracks, and \$15,000 additional per mile of parallel completed main or double track of said line of railroad or railroads, its extensions and branches, not to exceed at any time the capital stock of said Company, except as authorized by the laws of the State of Missouri. All of the said bonds to be dated April 1, 1893, and to be payable in gold coin of the United States of America, of the present standard of weight and fineness, at the Company's office, or the agency in the city of New York, on the first day of April, 1923, of the denomination of \$1,000 each, negotiable in form, and to pass by delivery unless registered, as specified in said bonds; to bear interest at the rate of 5 per cent per annum, payable semi-annually in like gold coin; and to have interest coupons attached, executed by the *fac simile* signature of the Treasurer, the said coupons to be payable at the agency of said Company in New York on the first days of April and October in each year. Said bonds to be numbered consecutively from one to the highest number thereof issued, and all to be ratably secured by said deed of trust or mortgage, without discrimination or preference in respect to the time or times of their issue or negotiation or in any other manner whatsoever; and

WHEREAS, the stockholders and directors of the company have duly authorized the making of this mortgage to secure the bonds above described, said bonds to be of the following form:

No. \$1,000.  
FORM OF BOND.  
UNITED STATES OF AMERICA.  
THIRTY YEAR FIRST MORTGAGE FIVE PER CENT GOLD BOND  
of the

#### KANSAS CITY PITTSBURG & GULF RAILROAD CO.

For value received, on the first day of April, one thousand nine hundred and twenty-three (1st of April, 1923), the Kansas City Pittsburg & Gulf Railroad Company, a corporation created and existing under the laws of the State of Missouri, promises to pay one thousand dollars (\$1,000) in gold coin of the United States, or of equal to the present standard of weight and fineness to the holder of this bond, or in case same be registered, then to the registered holder thereof, at its financial agency in the city of New York, State of New York, together with interest thereon at the rate of five per cent per annum in like gold coin semi-annually, on the first days of the months of April and October in each year, after four years from date thereof, on delivery and presentation of the annexed coupons, and for the first four years, viz.: From date hereof to April first, eighteen hundred and ninety-seven, inclusive, will pay to said holder semi-annually on the first days of April and October of each year of said four years, in like gold coin, interest at the rate of five per cent per annum, as set forth in coupons hereto annexed, from the net earnings only of said company for the six months next preceding next first days of April and October, as specified in deed of trust hereinafter referred to, provided the said net earnings shall be sufficient to make such payment to the holders of the series of bonds of which this is one; but if not sufficient, then pro rata equally to each of the holders of said bonds the whole of said earnings by way of interest; but said income interest shall not accumulate on said income coupons for the benefit of the holders thereof, but each of the same shall, when it matures, and on payment of amount due thereon, as specified in this bond and said deed of trust, be delivered up to said company and canceled.

This bond is one of a series of bonds of like amount, tenor and effect, numbered from one to the highest number issued thereof, with like coupons attached.

(1) The payment equally of each and all of said bonds, together with the interest thereon, without reference to the date of issue or negotiation of said bonds, no interest to be paid before actually issued and negotiated, is secured by a deed of trust of even date herewith conveying to the Missouri Kansas & Texas Trust Company of Kansas City, Missouri, and the State Trust Company of New York, in trust for the holders of said bonds and coupons, all of the property of said Company, real, personal and mixed, of every kind, character and description, including all franchises, and in whatever State or Territory situated, now owned or possessed by said Company, or which may hereafter be acquired, as set forth in said deed of trust to which reference is hereby made as part herof.

The said bonds are to be certified and issued only in such amounts that the entire amount of the issue outstanding at any one time shall not exceed the rate of twenty five thousand dollars per mile of single track completed and equipped, as more fully specified in said deed of trust, to which reference is hereby made.

If default shall be made in the payment of any semi-annual installment of interest on this bond when the same shall become due and be demanded, and if the same shall remain unpaid for six months after such demand, the principal of this bond shall become due and payable

in the manner provided in said deed of trust. The stockholders of this Company are not to be held individually liable on this bond or in respect thereto.

This Company hereby waives the benefit of any extension, redemption, State or appraisal laws now existing or that may hereafter be passed in any State or Territory where any portion of the said property is or may be situated.

This bond is to be valid only when authenticated by a certificate endorsed hereon, signed by the said Trustees, to the effect that it is one of the bonds properly issued under the said deed of trust.

This bond shall pass by delivery, unless registered in the name of the owner on the books of the Company in said city of New York. After registration of ownership certified hereon or hereto by the proper registrar, agent or officer of the said Railroad Company, no transfer except on the books of the Company shall be valid unless the last preceding transfer shall have been to bearer, which shall restore transferability by delivery; but this bond shall be continued subject to successive registrations and transfers to bearer as aforesaid, at the option of each holder.

IN WITNESS WHEREOF, the said Company has caused its corporate name to be hereto signed by its President and its corporate seal to be hereto affixed and attested by its Secretary, this first day of April, eighteen hundred and ninety-three, and the annexed coupons to be executed with the engraved *fac simile* signature of its Treasurer.

KANSAS CITY PITTSBURG & GULF RAILROAD CO.,

By

President.

Attest.

Secretary.

FORM OF COUPON PAYABLE ON OR AFTER OCTOBER 1, 1897.

The Kansas City Pittsburg & Gulf Railroad Company will pay the bearer, at its financial agency in the city of New York, twenty-five dollars (\$25) in United States Gold Coin on the first day of ..... being six months' interest then due on its First Mortgage Gold Bond No. ....

Dated this first day of April, 1893.

Treasurer.

NOTE.—Prior to October 1, 1897, the coupons were payable only if earned.

#### TRUSTEES' CERTIFICATE TO BE ENDORSED.

The within bond is hereby certified to be one of the bonds issued under the deed of trust of the said Kansas City Pittsburg & Gulf Railroad Company to the undersigned Trustees, dated April 1st, 1893.

MISSOURI KANSAS & TEXAS TRUST COMPANY,  
Trustee.

By

President.

THE STATE TRUST COMPANY,

Trustee.

By

President.

#### PROPERTY COVERED.

NOW, THEREFORE, THIS INDENTURE WITNESSETH: That the Company, in consideration of the premises and of one dollar (\$1 00), etc., etc., by these presents does transfer unto the Trustees all and singular its said line of railroad, constructed or hereafter constructed or acquired as follows:

#### LINE CONSTRUCTED AND TO BE CONSTRUCTED.

Kansas City, Mo., southerly to a point at or near Fort Smith, Ind. T. Also all other lines that may be built by the Company in the States of Missouri, Kansas, Arkansas and in Indian Territory.

Also all interest which the Company may obtain by acquisition of stock and bonds of other railroad companies or by construction, purchase or lease of the continuation of said line from Fort Smith, passing through the States of Arkansas, Texas and Louisiana via Shreveport to Sabine Pass and to any other point on or near the Gulf of Mexico.

Also any other lines in the States of Arkansas, Texas and Louisiana. The total length of the various lines projected being 1,000 miles.

[The above statement is condensed from the mortgage, which was drawn when only a small portion of the road had been constructed.

The completed road July 1, 1897, covered by the mortgage will be as follows:

#### ROAD OWNED AND COVERED BY MORTGAGE JULY 1, 1897.

Grandview, Mo., a point 23 miles south from Kansas City, in un-	Miles.
broken line, to Fort Arthur, Texas, on the Gulf of Mexico.....	765
De Quincy to Lake Charles, La.....	21
Trackage from Grandview, Mo., over the Kansas City Osceola &	
Southern Railway to the Kansas City terminals of the Kansas	
City Suburban Belt Railway Company.....	23

Total mileage covered by mortgage (exclusive of trackage)... 786

To conform with State laws, portions of the road have been built and are owned under the title of the Texarkana & Fort Smith Railway Company and the Kansas City Shreveport & Gulf Railroad Company. The stock and bonds of these subsidiary companies, however, being pledged to secure the bonds of the Kansas City Pittsburg & Gulf Railroad Company, as provided in the mortgage, the latter bonds possess a first lien on the entire line as above described.—Ed.]

Also all rights-of-way, depot grounds and other lands, all tracks, bridges, stations, freight-houses and shops, and all other structures and buildings now held or hereafter acquired in either of said States of Missouri, Kansas, Arkansas, Texas and Louisiana, or in said Indian Territory, for use in the construction, maintenance or operation of the above mentioned lines of railroad. Also all locomotives, rolling-stock and equipment whatsoever, and all machinery, tools and implements, and all fuel, supplies and materials now or hereafter acquired in connection therewith.

And all the capital stock and bonds of any other railroad company which the said party of the first part may hereafter acquire or own, whose lines of railroad either form a part of said main line, or any extension, continuation or branch thereof, in the said States of Missouri, Kansas, Arkansas, Texas, Louisiana and said Indian Territory.

And all revenues arising from said railroads and premises; and all rights and exemptions, and all corporate and other franchises now owned or hereafter acquired relating to the said main line of railroad, its extensions, continuations and branches. Also all leases and traffic contracts, etc., etc.

**ISSUE OF BONDS SHALL NOT EXCEED \$25,000 PER MILE OF COMPLETED MAIN LINE OR TERMINAL TRACKS AND \$15,000 PER MILE OF SECOND TRACK—OTHER PROVISIONS.**

**Article First.**—The bonds shall be certified by the Trustees to the extent of not to exceed at the date of any certification \$25,000 per mile for each completed single main track and for each mile of yard or terminal tracks, and \$15,000 per mile additional for each mile of parallel completed main or double track of the said line of railroad of the company theretofore completed and equipped, or by it theretofore purchased or acquired or leased, and completed and equipped.

The Trustees shall also certify bonds to an amount not to exceed \$25,000 per mile for each completed single main, yard and terminal tracks, and \$15,000 per mile for each mile of parallel completed main or double track, as aforesaid, of any railroad company of said main line, its extensions or branches, the stock and first mortgage bonds of which may before or at the date of said certification be owned or possessed by said party of the first part, and which shall have been transferred and delivered to said Trustees as security for the payment of all the bonds certified hereunder.

**LIMITATIONS REGARDING ISSUE OF BONDS UPON BASIS OF STOCKS AND BONDS DEPOSITED.—OTHER PROVISIONS.**

But in no such case shall the said bonds so certified upon the basis of such stocks and bonds of any other railroad company exceed \$25,000 per mile of completed single main track of such railroad companies, and \$15,000 additional per mile of completed main double track, as hereinbefore recited; nor exceed in the aggregate per mile the first mortgage bonds of such other railroad company so transferred to said Trustees as security. Nor shall the bonds so certified exceed at the time of certification the authorized capital of the Company, party of the first part, except as authorized by the laws of the State of Missouri.

*And provided, further,* that whenever bonds are certified hereunder, upon the basis of ownership of the stock and bonds of other railroad companies, the Company shall at the date of such certification own and have transferred to the Trustees as security at least a majority of the first mortgage bonds theretofore issued by said other railroad companies; and also, as like security, such amount of their capital stock as may be sufficient to control such other companies.

*And provided, further,* that in the issuance of bonds hereunder upon the basis of the mileage of leased lines no greater amount of bonds shall be issued than the Company shall have expended in cash in the construction or equipment, or both, of said leased lines or portion thereof.

**VERIFIED STATEMENTS REQUIRED BEFORE BONDS SHALL BE CERTIFIED.**

It shall be the duty of said Trustees, upon the request of the directors or the executive committee thereof of the Company, to deliver the foregoing bonds in the manner hereinbefore provided, upon being furnished with a statement and request of the Company in writing and under its seal, with the certificate of the President (or Vice-President) and Chief Engineer that such statement is true. Such statements shall give the amount of miles theretofore constructed, acquired or leased, and in the case of issuance and certification of bonds on the basis of stocks and bonds of other railroads, also the number of miles of road of such other company theretofore conveyed and mortgaged as security for the payment of such first mortgage bonds of such other company. Said statement shall also contain such other recitals of facts as may from time to time be required by the Trustees.

**ALSO PROPERTY ACQUIRED TO BE DULY CONVEYED TO TRUSTEES.**

**Article Second.**—This article provides that the company shall from time to time, before the certification of bonds thereon, transfer to the Trustees by proper conveyance the lines of railroad constructed, purchased or leased, and also the stock and bonds on account of which it is desired to issue bonds hereby secured.

**COUPONS PURCHASED TO HAVE NO LIEN.**

**Article Third.**—Coupons of said bonds taken up, purchased or paid at time of maturity, or subsequently, for the accommodation of the company, shall cease to be a lien on any portion of said property herein conveyed.

**COVENANTS TO PAY PRINCIPAL, INTEREST, TAXES, ETC.**

**Article Fourth.**—The Company covenants well and truly to pay the principal of each of the said bonds secured hereby and the interest thereon, as the same shall from time to time become due and payable, and also to pay, when due, all taxes and assessments and other charges which may be lawfully levied upon the property, or upon the Company, or the earnings thereof, and which, if left unpaid, might become a lien on the property superior to the lien of this indenture. If the Company shall at any time make any lease of the said railroad the same shall be expressly made subject to this indenture, and all agreements herein contained.

**COMPANY TO ENJOY PEACEABLE POSSESSION.**

**Article Fifth.**—Until default in the performance of some covenants herein the Company shall be suffered to have undisturbed possession of the property.

**DEFAULT FOR SIX MONTHS, TRUSTEES MAY TAKE POSSESSION AND OPERATE PROPERTY.**

**Article Sixth.**—In case of default for six months in the payment of interest on any of the bonds or in the perform-

ance of any covenant herein contained, then, upon requisition and indemnity, as hereinafter prescribed in Article Eleven of this indenture, it shall be lawful for the Trustees to enter upon, all and singular, the said lines of railroad, and to operate the same, making all useful alterations, additions and improvements, and applying the income of the property, after deducting the expenses of operating, and of all repairs, alterations, additions and improvements, and all payments for taxes, assessments, charges or liens prior to the lien of these presents, to the payment of the accrued interest on the bonds hereby secured, in the order in which such interest shall have become due, ratably, to the persons entitled thereto, and of any other moneys in respect to which the Company shall be in default.

**OR MAY SELL THE PROPERTY AT AUCTION.**

**Article Seventh.**—In case default as aforesaid, or in case of default on the principal of any of said bonds when due, it shall likewise be lawful for the Trustees, upon requisition and indemnity as in Article Eleven prescribed, to sell the lines of railroad, with appurtenances, together with the stocks and bonds of other railroad companies which may have been theretofore assigned to the Trustees, to the highest and best bidders at public auction in the city of New York, or in the city of Philadelphia, or in Kansas City, as may be determined by said trustees, or a majority in interest of the holders of said bonds, having first given public notice of the sale by advertisement published not less than five times a week for eight consecutive weeks in New York, Philadelphia and Kansas City.

After deducting all necessary expenses of the sale and of operating said railroad, the residue of said proceeds of sale shall be applied, first, to the payment of the interest of such of the aforesaid bonds as may be at such time due and unpaid, and, second, to the payment of all unpaid bonds, whether the same shall have, by their terms, become due and payable, or not, without discrimination or preference, but ratably.

**PROVISIONS HEREIN IN THE EVENT OF DEFAULT ARE ADDITIONAL TO THE ORDINARY REMEDIES ALLOWED BY LAW.**

All provisions in this indenture contained which specify remedies in the event of default are cumulative to the ordinary remedy by foreclosure in the courts.

**AT ANY SUCH SALE TRUSTEES MAY PURCHASE FOR THE BONDHOLDERS.**

**Article Eighth.**—At any such sale of the mortgaged premises the Trustees may purchase the same in behalf of the bondholders in the proportion of the respective interests of the bondholders, at a reasonable price if but a portion of the property be sold, or if all the property be sold at a price not exceeding the total amount of such bonds secured by this instrument outstanding, with interest accrued thereon, and the expenses of said sale or sales.

The purchasers shall be entitled, in making settlements of the purchase money, to turn in any of the bonds or coupons secured by these presents, and held by the said purchasers, towards the payment of the purchase money, reckoning said bonds and coupons as a sum equal to, but not exceeding that which would be payable out of the net proceeds of said sale if made wholly for money, to the purchaser or purchasers, as the holder or holders of said bonds or coupons, for his or their just share or proportion in that character of such net proceeds.

**UPON DEFAULT FOR SIX MONTHS IN PAYMENT OF INTEREST, THE PRINCIPAL OF ALL THE BONDS MAY BE DECLARED DUE AND PAYABLE—POWER OF A MAJORITY IN INTEREST OF THE BONDHOLDERS TO WAIVE OR ENFORCE THIS RIGHT.**

**Article Ninth.**—In case of default for six months in the payment of any instalment of interest on any of the bonds hereby secured, the payment having been duly demanded, then in such case the principal of all the bonds secured by these presents shall, at the election of the said Trustees, become immediately due and payable. But a majority in interest of the holders of said bonds then outstanding may, by instrument or concurrent instruments in writing, under their hands and seals, or by vote of a meeting duly held, as herein provided, instruct the Trustees in such case to declare the said principal to be due, or to waive their rights to so declare, on such terms and conditions as such majority shall deem proper, or may annul or reverse the said election of the said Trustees.

**RIGHT TO RELEASE PROPERTY FROM LIEN HEREOF.**

**Article Tenth.**—The Trustees may in their discretion release from the lien of these presents any portion of the property appurtenant to the said railroad lines which, in the judgment of the Trustees, may be unnecessary for the use in connection therewith, and which shall have been acquired or held for stations, or other buildings, or for a supply of fuel, gravel or other material. Also to release, as aforesaid, any lands which may become disused by reason of a change of the location of any station-house or other building connected with the said railroad. They may also consent to any changes in the location of the track, or of station-houses, or other buildings, which in the judgment of the Company shall have become expedient; but the title to any lands, premises or property which may be acquired for permanent use, in substitution for any so released, shall at once become vested in said Trustees, and shall be conveyed to the Trustees hereunder. The power of release hereby

given shall be exercised, only in case of the Company contracting to sell the property so to be released, and only upon the written request of the President of the Company showing sufficient reason therefor, accompanied by an affidavit, satisfactory to the Trustees, of the Chief Engineer, or other proper officer of the Company, stating the facts upon which such request is made.

**A MAJORITY IN INTEREST OF THE BONDHOLDERS MAY REQUIRE THE TRUSTEES TO ENFORCE THE REMEDIES IN CASE OF DEFAULT.**

**Article Eleventh.**—In case of default in any manner as above described, it shall be the duty of the Trustees, upon requisitions in writing signed by the holders of a majority in amount of the bonds then outstanding, and upon adequate indemnity against all costs, to proceed to enforce the rights of the bondholders under these presents, either by the exercise of the powers granted by Articles Six and Seven of this indenture, or any of said powers, or by a suit or suits in equity or at law, as the Trustees, being advised by counsel, shall deem most effectual to enforce such rights, subject to the power hereby declared of a like majority in interest of the holders of said bonds then outstanding to instruct in writing the Trustees to waive any such default, or to enforce the rights of the bondholders by reason thereof.

*Provided* that no holders of any bonds secured hereby shall have the right to institute any suit, action or proceeding for remedy hereunder or hereupon without first giving notice in writing to the Trustees of default having occurred and continued, as in this article aforesaid, and requesting the Trustees, and affording them a reasonable opportunity, to institute such action, suit or proceeding in their own name, and also offering to them adequate indemnity.

**TRUSTEES MAY BE REMOVED BY A MAJORITY IN INTEREST OF THE BONDHOLDERS.**

**Article Twelfth.**—Any Trustees may be removed by a majority in interest or amount of the holders of all said bonds hereby secured and then outstanding by concurrent instruments in writing under their hands and seals, or by a vote of a meeting duly held as herein provided. But in the case of a resignation of one of the Trustees the other Trustees shall be vested with the title, rights and powers of both until another shall be chosen and be subject to the liabilities and obligations of both.

**NEW TRUSTEES MAY BE CHOSEN BY A MAJORITY INTEREST OF THE BONDHOLDERS—RIGHT TO APPOINT TEMPORARY TRUSTEES.**

In case of the resignation or removal of the Trustees, or either of them, a successor may be appointed by a majority in interest of the holders of all said bonds hereby secured and then outstanding by concurrent instruments in writing under their hands and seals, or by a vote of a meeting held as herein provided; and until an appointment be so made the board of directors of the Company may appoint a Trustee to fill such vacancy for the time being.

In case of a vacancy being temporarily filled by appointment by the Board of Directors of the Company, under the foregoing provision, it shall be competent for any court of equitable powers, having jurisdiction in the premises, upon the application of holders of not less than \$100,000 in amount of the bonds, and upon due notice to the company and to the existing Trustees, and for cause shown, to annul such appointment and to appoint another Trustee or Trustees to hold the Trust for such period as the Trustees appointed by the Board of Directors would hold the same, but not longer.

And in case any vacancy in the trusteeship shall not be filled within three months by the bondholders, it shall be the duty of the President of the Company to call a meeting of the bondholders, to fill the vacancy, to be held in Kansas City or in New York. Any appointment of a Trustee under the hands and seals of the majority in interest of the holders of the then outstanding bonds shall supersede any previous appointment by the Board of Directors of the Company or by a court under the preceding provisions. But no appointment of new Trustees hereunder shall be made, in any of the ways above provided, except of a corporation existing under the laws of the State of Missouri or of the State of New York or of the State of Pennsylvania, having its principal place of business in the said city of New York, Kansas City or Philadelphia.

#### BONDHOLDERS' MEETINGS.

**Article Thirteenth.**—Whenever a meeting of the bondholders shall be expedient for any of the purposes mentioned in this indenture, it shall be the duty of the President of the Company, on the written request of the holders of not less than one-fifth in the amount of said bonds to call a meeting of the holders of all the then outstanding bonds secured hereby, to be held in Kansas City, or in New York, or Philadelphia, by advertisement to be published twice a week for three successive weeks in two daily newspapers of good circulation published in said cities. In default of such meeting being called by the President of the Company within thirty days after request as aforesaid, it shall be competent for the holders of one-fifth in amount of said bonds then outstanding to call such meeting in the manner aforesaid. At any such meeting the bondholders shall be competent to exercise all the powers conferred upon them by these presents; *provided*, that the majority in interest or amount of the outstanding bonds, in person or by proxy, shall be required to constitute a quorum at any such meeting.

#### DEEDS OF FURTHER ASSURANCE.

**Article Fourteenth.**—The Company covenants to deliver all such further deeds and assurances for the better transferring to the Trustees the said property, etc., as by the Trustees or their counsel shall be reasonably required.

**BONDS TO BE APPLIED TO CONSTRUCTION AND EQUIPMENT OF ROAD, ETC.**

**Article Fifteenth.**—The Company covenants that it will use the said bonds to pay for the construction, completion, repair, equipment and acquisition of said lines of road and leased portions (if any) or the acquisition of the stocks and bonds of other railroads, as hereinbefore provided.

#### PROVING OF BONDHOLDERS' INSTRUMENTS.

**Article Sixteenth.**—The execution of any instruments executed by a majority in interest of the holders of said bonds hereby secured shall be deemed sufficiently proved if certified by a notary public or other person authorized to take acknowledgements of deeds, with their seals of office.

**COMPANY'S RIGHT, PRIOR TO DEFAULT, TO VOTE ON STOCKS PLEDGED.**

**Article Seventeenth.**—The Trustees at any time prior to default hereunder, when requested by the said Company, shall deliver to its representatives so many shares of the stocks of any other railroad company held hereunder as may be necessary to qualify persons to serve as directors; but all proxies to vote the stock held by the Trustees shall contain a provision substantially as follows:

"This proxy shall not be used to authorize any increase of the bonded indebtedness per mile of the said railroad (here naming same), nor shall the said proxy be voted in favor of an extension or continuation of said railroad, or any other branch thereof, unless the bonds to be issued on such extension or continuation shall be limited per mile as hereinbefore recited, and unless it be agreed that the stocks and bonds, if any to be issued against or upon, or on account of, such extension or continuation, shall be transferred and delivered to the said trustees, or their successors, to be held for the same purposes and the same security as the stock so to be voted upon may be held."

#### BONDS TO BE REGISTRABLE IN NEW YORK CITY.

**Article Eighteenth.**—The Company covenants at all times hereafter to keep in its office in New York a "Registry of Bonds", where any bondholder may register his bonds upon presenting the same. [For further provisions respecting registration of bonds, see the copy of the bond on a preceding page.]

**THE TRUSTEES TO KEEP A BOOK OF RECORD REGARDING CERTIFICATION OF BONDS.**

**Article Nineteenth.**—The Trustees, or one of them, shall keep a record book of all bonds certified under the provisions of this indenture, their numbers, and a brief reference to the facts, certificates or statements of the President or Vice-President and Chief Engineer of said Company, authorizing such certification of said bonds as provided by this indenture.

**INTEREST PAYMENTS DURING FOUR YEARS ENDING APRIL 1, 1897.**

**Article Twenty.**—This article refers merely to the right (now terminated) during the first four years to pay the interest only in so far as earned.

**COMPANY TO MEET EXPENSES OF TRUSTEES IN ADMINISTRATION OF TRUST.**

**Article Twenty-first.**—The Trustees may employ such assistants as they deem necessary for the administration of the trusts herein, and the Company agrees to reimburse them for the cost.

**WAIVER OF ALL APPRAISEMENT, REDEMPTION, ETC., LAWS.**

**Article Twenty-second.**—The Company irrevocably waives the benefit of all appraisement, extension or redemption laws, and of all laws requiring mortgages to be foreclosed by action therefor now existing or which may hereafter exist in any State wherein the property to be sold hereunder may be situated, and covenants that it will not in any manner seek to take advantage of such laws, any statutes to the contrary notwithstanding.

**RIGHT TO HAVE PROPERTY SOLD AS AN ENTIRETY OR IN PARCELS.**

**Article Twenty-third.**—The Company expressly waives all right to have the assets marshalled upon any foreclosure, and agrees that the Trustees herein shall have the right to sell the entire property as a whole or in parts, as they may think fit. A majority in interest of the holders of said bonds may, in writing, direct the Trustees to sell the property either as an entirety or in parts.

#### TREATMENT OF COLLATERAL SECURITIES.

**Article Twenty-fourth.**—In case of default to pay the collateral bonds or the interest thereon, the Trustees shall have the power to take all the needful proceedings to foreclose said mortgages and enforce the covenant thereof upon request of the Company or of majority in interest or amount of holders of bonds certified hereunder. But until default is made in the payment of the bonds secured hereby, or the interest on the same, the Company shall have the power and right to collect all interest and dividends on the collateral stocks and bonds.

#### FINANCIAL AGENCY IN NEW YORK CITY.

**Article Twenty-fifth.**—The Company will maintain a financial agency in the city of New York, and if the Company fails to maintain such agency, then the coupons and bonds issued hereunder shall be payable at the office of the STATE TRUST COMPANY in New York.

# The Commercial Times.

## COMMERCIAL EPITOME.

FRIDAY NIGHT, May 28, 1897.

Now that the proposed new tariff bill has been taken up in open debate in the Senate the progress of the measure is being closely followed. Trade has continued slow, but the general outlook for business has been considered more encouraging, developments thus far in the Senate leading merchants to believe that there will be less delay in the tariff legislation than has been latterly thought probable. Weather conditions have been against trade, as the season has continued backward, the temperature being too cool to permit of extensive operations in summer goods. The European political situation has not attracted especial attention, satisfactory progress being reported on the peace negotiations in the Far East.

The volume of business transacted in the market for lard on the spot has been small. Local refiners have been indifferent buyers and the export demand has been flat. There has been some pressure to sell and prices have further declined, closing dull at 3.85c. for prime Western, 3.55c. for prime city and 4.10c. for refined for the Continent. There has been no trading in the local market for lard futures and at the West business has been quiet. Packers, however, have offered supplies freely prompted by heavy receipts of swine, and prices have declined, closing dull.

### DAILY CLOSING PRICES OF LARD FUTURES.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May.....	4.05	4.00	3.95	3.80	3.75	3.80

Pork has sold slowly although at the close demand showed some improvement and prices were quoted steady at \$8.50@\$9.00 for mess, \$9.90@\$10.75 for short clear and \$9.25@\$10.00 for family. Cut meats have had only a moderate sale, but offerings have been somewhat limited, and for pickled shoulders prices have advanced slightly, closing at 5 1/2@5 3/4c. for pickled bellies, 12@10 lbs. average, 5 1/4c. for pickled shoulders and 9@9 1/2c. for pickled hams. Beef has sold slowly, but no changes have been made in quoted values, closing at \$7@8 for mess, \$8@9 for packet, \$9@10 for family and \$12@14 for extra India mess. Beef hams have advanced, closing steady at \$33. The demand for tallow has been quiet, but the price has held steady, closing at 3c. Oleo-stearine has had a better sale, and the close was firm at 4.1-16c. Lard stearine has been dull and nominal at 4 1/2@4 3/4c. Cotton seed oil has had only a limited sale but values have held steady, closing at 20c. for prime crude and 23 1/2@24c. for prime yellow. Butter has had a fair sale for the choice grades, closing steady at 11@15 1/2c. for creamery. Cheese has declined, but at the close there was some export demand and the tone was steadier, with State factory full cream at 7@8 1/2c. Receipts of fresh eggs have been large and prices have declined, closing at 10 1/4@10 1/2c. for choice Western.

Coffee of Brazil growth has had only a limited call, and as the offerings have been moderately large prices have weakened slightly, closing at 7 1/2c. for Rio No. 7. The mild grades have had only a limited call, but prices have not changed, closing steady at 14c. for good Cucuta and 25c. for standard Java. Speculation in the market for contracts has been quiet, and as neither buyers nor sellers have been aggressive the change in prices has been unimportant. The close was steadier on reports that an amendment has been introduced into the Senate placing an import duty of 2c. per pound on coffee.

The following were the final asking prices:

June.....	7.25c.	Sept.....	7.30c.	Dec.....	7.35c.
July.....	7.25c.	Oct.....	7.35c.	Jan.....	7.40c.
Aug.....	7.30c.	Nov.....	7.35c.	Feb.....	7.40c.

Raw sugars have had a fair sale at steady prices, closing at 3 1/2c. for centrifugal, 96-deg. test, and 2 3/4c. for muscovado, 89-deg. test. Refined sugars have been in more active demand and steady, closing at 4 1/2c. for granulated. Teas have been quiet but steady.

Kentucky tobacco has continued to meet with a slow sale, but values have held steady. Sales 125 hhds. Seed leaf tobacco has been quiet but steady. Sales for the week were 650 cases, as follows: 100 cases 1895 crop, New England Havana, 16@22 1/2c.; 50 cases 1895 crop, New England seed, 13@17c.; 100 cases 1893 crop, Wisconsin Havana, 9 1/4c.; 100 cases 1895 crop, Wisconsin Havana, 5 1/2c.; 200 cases 1894 crop, Zimmers, p. t., and 100 cases 1895 crop, Zimmers, 15@16c.; also 700 bales Havana at 85c. to \$1.15 in bond and 150 bales Sumatra at 90 to \$2.25 in bond.

The demand for Straits tin has continued fairly active and prices have further advanced, closing firm at 13.60@13.70c. Ingot copper has had a moderate sale and prices have been unchanged at 11@11 1/4c. for Lake. Lead has had only a limited call but values have held steady, closing at 3.25@3.30c. for domestic. Splitter has advanced and the close was firm at 4.20@4.25c. for domestic. Pig iron has been dull at \$9.35@12.00 for domestic.

Refined petroleum has been lowered, closing at 6.15c. in bbls., 8.65c. in bulk and 6.60c. in cases; naphtha quiet at 5.50c. Crude certificates have been neglected; credit balances have been lowered to 87c. Spirits turpentine has had a slow sale and prices have declined to 27@27 1/4c. Rosins have been in fair request and firmer. Wool has been quiet and barely steady. Hops have been in slow demand and weak.

## COTTON.

FRIDAY NIGHT, May 28, 1897.

THE MOVEMENT OF THE CROP, as indicated by our telegrams from the South to-night, is given below. For the week ending this evening the total receipts have reached 16,152 bales, against 20,632 bales last week and 33,067 bales the previous week, making the total receipts since the 1st of Sept., 1896, 6,628,167 bales, against 5,127,619 bales for the same period of 1895-6, showing an increase since Sept. 1, 1896, of 1,500,548 bales.

Speculation in cotton for future delivery has continued quiet. The fluctuations in prices have been within a narrow range and the net change in values for the week is unimportant. Crop advices from the South have been the principal factor in the market. As a rule they have been of an encouraging nature, although during the latter part of the week advices of cooler weather stimulated buying by a few shorts to cover contracts. Saturday foreign advices were better than expected and prices strengthened slightly, closing at an advance of 1 to 3 points. Monday the market opened at a decline under moderate offerings prompted by favorable prospects at the South for the crop and dull and easier foreign advices. Toward the close rumors, which have not been confirmed, that a large export business for future shipments had been transacted stimulated buying by shorts to cover contracts, and part of the early loss was recovered, closing unchanged to 4 points lower for the day. Tuesday the market was firmer during early change, reflecting unexpected stronger foreign advices. Subsequently, however, prices reacted slightly under moderate offerings, induced by the favorable weekly report of the Government's Weather Bureau on the condition of the crop. Wednesday foreign advices were dull and easier, but advices from the South reported weather conditions slightly less favorable and prices held about steady. Thursday there was a quiet and irregular market. The near-by deliveries eased off a trifle, while the next crop futures were slightly higher on further reports of cool weather. The close showed prices 2 to 4 points lower to unchanged to 2 points higher for the day. To day the market was quiet and easier. The opening was at a decline of 1 to 3 points and prices further weakened 2 to 5 points during the day, in response to dull and easier foreign advices. The close was quiet at a decline of 2 to 4 points for the day. Advices were received from Southwestern Texas stating that cool weather and insects had done some damage to the crop, but they had little or no influence upon the market. Cotton on the spot had only a limited sale. Monday prices declined 1-16c, but Tuesday the loss was recovered. To day the market was unchanged and steady, middling uplands closing at 7 3/4c.

The total sales for forward delivery for the week are 350,400 bales. For immediate delivery the total sales foot up this week 14,774 bales, including 5,888 for export, 5,386 for consumption, — for speculation and 3,500 on contract. The following are the official quotations for each day of the past week—May 22 to May 28.

On the basis of the rates on and off middling as established by the Revision Committee, the prices for a few of the grades would be as follows:

The imports into Continental ports the past week have been 98,000 bales.

The above figures indicate a decrease in the cotton in sight to-night of 114,835 bales as compared with the same date of 1896, a falling off of 1,173,521 bales from the corresponding date of 1895 and a decrease of 325,609 bales from 1894.

**AT THE INTERIOR TOWNS the movement—that is the receipt** for the week and since September 1, the shipments for the week and the stocks to-night, and the same items for the corresponding period of 1895-96—is set out in detail below.

TOWNS.	Receipts This week.	Receipts Since Sept. 1, 96.	Shipments This week.	Stock May 28, 1897.	Receipts This week.	Receipts Since Sept. 1, 95.	Shipments This week.	Stock May 29, 1896.

Columbus, Ga.	7 <sup>3</sup> / <sub>8</sub>	Montgomery...	7 <sup>3</sup> / <sub>8</sub>	Shreveport....	6 <sup>7</sup> / <sub>8</sub>

**RECEIPTS FROM THE PLANTATIONS.**—The following table indicates the actual movement each week from the plantations. The figures do not include overland receipts nor Southern consumption; they are simply a statement of the weekly movement from the plantations of that part of the crop which finally reaches the market through the outports.

Week ending—	Receipts at the Ports.			St'k at Interior Towns.			Rec'pts from Plant'ns.		
	1897.	1896.	1895.	1897.	1896.	1895.	1897.	1896.	1895.
Apr. 23.....	47,260	51,066	68,965	184,847	247,104	186,611	28,047	38,161	43,833
" 30.....	34,588	39,828	56,937	171,920	233,044	185,978	21,661	25,768	36,274
May 7.....	42,333	37,331	41,900	144,401	209,770	148,553	14,814	14,067	24,475
" 14.....	32,067	34,871	30,665	181,701	187,120	137,822	19,367	12,221	19,334
" 21.....	20,632	22,078	29,065	112,982	163,017	114,859	1,913	.....	6,602
" 28.....	16,152	17,890	29,020	101,291	147,437	101,628	4,461	2,310	15,789

The above statement shows: 1.—That the total receipts from the plantations since Sept. 1, 1896, are 6,608,864 bales; in 1895-96 were 5,242,356 bales; in 1894-95 were 7,825,695 bales.

2.—That although the receipts at the outports the past week were 16,152 bales, the actual movement from plantations was only 4,461 bales, the balance being taken from the stocks at the interior towns. Last year the receipts from the plantations for the week were 2,310 bales and for 1895 they were 15,789 bales.

**OVERLAND MOVEMENT FOR THE WEEK AND SINCE SEPT. 1.**—We give below a statement showing the overland movement for the week and since September 1. As the returns reach us by telegraph late Friday night it is impossible to enter so largely into detail as in our regular monthly report, but all the principal matters of interest are given. This weekly publication is of course supplementary to the more extended monthly statements. The results for the week ending May 28 and since Sept. 1 in the last two years are as follows.

May 28.	1896-97.		1895-98.	
	Week.	Since Sept. 1.	Week.	Since Sept. 1.
<b>Shipped—</b>				
Via St. Louis.....	6,697	521,540	6,764	531,742
Via Cairo.....	1,609	284,265	2,239	236,294
Via Parker.....	301	18,316	304	18,592
Via Evansville.....	.....	2,554	.....	1,681
Via Louisville.....	532	133,547	1,950	131,493

<b>Total marketed.....</b>	<b>41,333</b>	<b>8,229,261</b>	<b>49,280</b>	<b>6,6</b>

**WEATHER REPORTS BY TELEGRAPH.**—Reports to us by telegraph this evening denote that dry weather has prevailed in a large part of the cotton belt the past week and that at some points rain is needed. Along the Atlantic the crop has been benefited in a number of sections by the rains which have fallen. In Texas cotton is promising, and while pests are reported in some localities the damage has been unimportant as yet. Alabama advices indicate that cotton is doing better. Our Helena correspondent states that the crop is doing much better on recently submerged land than on uplands. The Mississippi River is steadily falling. Cold nights are complained of in some districts.

**Galveston, Texas.**—The scattered showers, while not needed very much, were beneficial to cotton, and the crop continues promising. Some cotton pests were reported in localities, but they have not done much damage as yet. A poor stand in some places over North Texas has necessitated much replanting. Warm, sunshiny weather would be beneficial to cotton in many sections. We have had rain on one day the past week to the extent of four hundredths of an inch. Average thermometer 75, highest 82 and lowest 68.

**Palestine, Texas.**—There has been rain on one day of the week, the precipitation being ten hundredths of an inch. The thermometer has averaged 74, the highest being 88 and the lowest 60.

**Huntsville, Texas.**—It has been dry all the week. The thermometer has averaged 75, ranging from 59 to 91.

**Dallas, Texas.**—We have had rain on one day during the week, the rainfall reaching seventy-five hundredths of an inch. The thermometer has ranged from 64 to 91, averaging 78.

**San Antonio, Texas.**—The weather has been dry all the week, only a trace of rain. Average thermometer 77, highest 88 and lowest 66.

**Luling, Texas.**—There have been showers on three days of the week, the precipitation reaching forty-seven hundredths of an inch. The thermometer has averaged 76, the highest being 90 and the lowest 63.

**Columbia, Texas.**—We have had rain on two days of the past week, to the extent of twenty-five hundredths of an inch. The thermometer has averaged 72 and ranged from 60 to 85.

**Cuero, Texas.**—There has been rain on one day during the week, the rainfall reaching one hundredth of an inch. The thermometer has ranged from 62 to 90, averaging 76.

**Brenham, Texas.**—We have had rain on one day of the week, to the extent of fourteen hundredths of an inch. Average thermometer 76, highest 92 and lowest 60.

**Fort Worth, Texas.**—Rain has fallen on one day of the week, to the extent of eighty hundredths of an inch. The thermometer has averaged 76, ranging from 63 to 90.

**Weatherford, Texas.**—We have had rain on two days during the week, the rainfall reaching sixty-one hundredths of an inch. The thermometer has ranged from 62 to 89, averaging 76.

**New Orleans, Louisiana.**—We have had rain on one day of the week, the rainfall being four hundredths of an inch. Average thermometer 77.

**Shreveport, Louisiana.**—There has been rain on one day during the week, to the extent of six hundredths of an inch. The thermometer has averaged 75, the highest being 89 and the lowest 63.

**Columbus, Mississippi.**—There has been no rain during the week. Moisture is needed. The thermometer has averaged 69, ranging from 58 to 89.

**Leland, Mississippi.**—There has been no rain all the week. The thermometer has ranged from 58 to 87, averaging 73.4.

**Vicksburg, Mississippi.**—We have had dry weather all the week. Average thermometer 73.3, highest 86 and lowest 58.

**Little Rock, Arkansas.**—No rain all the week. Average thermometer 73, highest 89, lowest 54.

**Helena, Arkansas.**—There has been no rain since the 13th of May. Crops on high lands are suffering from drought and worms. The river has fallen eighteen feet from the highest mark, but some land is not yet free of water. Cotton is better on recently overflowed lands than on uplands. The thermometer has averaged 69, ranging from 54 to 84.

**Memphis, Tennessee.**—With the exception of a few cool nights the weather has been favorable for farm work during the week, but moisture is badly needed. We had a shower on Sunday, the rainfall being two hundredths of an inch. The thermometer has ranged from 51.6 to 68, averaging 72.

**Nashville, Tennessee.**—It has rained on one day during the week, the precipitation reaching eight hundredths of an inch. Average thermometer 67, highest 85, lowest 49.

**Mobile, Alabama.**—The crop is making slow progress, on account of cool nights and dry weather. We have had rain on one day of the week, to the extent of twenty-six hundredths of an inch. The thermometer has averaged 74, the highest being 87 and the lowest 55.

**Montgomery, Alabama.**—The weather has been warm and dry during the week, there having been but a trace of rain. Crops are doing much better. The thermometer has averaged 74, ranging from 62 to 86.

**Madison, Florida.**—There has been no rain during the week and young plants are suffering for moisture. Average thermometer 81, highest 94 and lowest 69.

**Savannah, Georgia.**—We have had no rain during the week. The thermometer has averaged 75, ranging from 60 to 92.

**Augusta, Georgia.**—The rainfall during the week has reached ten hundredths of an inch, on one day. The thermometer has ranged from 54 to 90, averaging 73.

**Charleston, South Carolina.**—There has been no rain during the week. The thermometer has averaged 74, the highest being 92 and the lowest 62.

**Slateburg, South Carolina.**—Crops have been much benefited by the rain but nights have again been too cool. We have had rain on one day of the week, the precipitation reaching forty-four hundredths of an inch. The thermometer has averaged 72.6, ranging from 52 to 90.

**Greenwood, South Carolina.**—It has rained on one day of the week, the precipitation reaching five hundredths of an inch. The thermometer has ranged from 58 to 82, averaging 70.

**Wilson, North Carolina.**—We have had rain on one day of the week, the rainfall being forty-three hundredths of an inch. Average thermometer, 70; highest, 90; lowest, 51.

The following statement we have also received by telegraph, showing the height of the rivers at the points named at 8 o'clock May 27, 1897, and May 28, 1896.

**OUR COTTON ACREAGE REPORT.**—Our cotton acreage report will probably be ready about the 9th of June. Parties desiring the circular in quantities, with their business card printed thereon, should send in their orders as soon as possible, to ensure early delivery.

**CANADIAN CUSTOMS TARIFF POLICY.—THE MANCHESTER COTTON GOODS MARKET.**—In our editorial columns to-day, under the above caption, will be found an article by our special Manchester correspondent.

**JUTE BUTTS, BAGGING, &C.**—Jute bagging has been in light demand during the week under review, but prices are unchanged at 5¼c. for 1¾ lbs., 5½c. for 2 lbs. and 6¼c. for standard grades. Car-load lots of standard brands are quoted at 5¼c. for 1¾ lbs., 5½c. for 2 lbs. and 6¼c. for 2¼ lbs. f. o. b., at New York. Jute butts have been very quiet at 1'03c. for paper quality, 1'25c. for mixing and 1¼c. for bagging, all to arrive.

**INDIA COTTON MOVEMENT FROM ALL PORTS.**—The receipts and shipments of cotton at Bombay have been as follows for the week and year, bringing the figures down to May 27.

**BOMBAY RECEIPTS AND SHIPMENTS FOR FOUR YEARS.**

Year	Shipments this week.			Shipments since Sept. 1.			Receipts.	
	Great Brit'n.	Continent.	Total.	Great Britain.	Continent.	Total.	This Week.	Since Sept. 1.
'96-7	.....	31,000	31,000	26,000	483,000	509,000	50,000	1,383,000
'95-6	5,000	16,000	21,000	69,000	638,000	707,000	83,000	1,982,000
'94-5	5,000	1,000	6,000	22,000	325,000	347,000	74,000	1,274,000
'93-4	.....	30,000	30,000	44,000	651,000	695,000	56,000	1,543,000

According to the foregoing Bombay appears to show a decrease compared with last year in the week's receipts of 13,000 bales and an increase in shipments of 10,000 bales, and the shipments since Sept. 1 show a decrease of 193,000 bales. The movement at Calcutta, Madras and other India ports for the last reported week and since the 1st of September, for two years, has been as follows. "Other ports" cover Ceylon, Tuticorin, Kurraohee and Coconada.

	Shipments for the week.			Shipments since Sept. 1.		
	Great Britain.	Continent.	Total.	Great Britain.	Continent.	Total.
Calcutta—						
1896-97....	.....	2,000	2,000	6,000	53,000	59,000
1895-96....	.....	3,000	3,000	10,000	62,000	72,000
Madras—						
1896-97....	.....	.....	.....	6,000	14,000	20,000
1895-96....	.....	1,000	1,000	10,000	8,000	18,000
All others—						
1896-97....	.....	3,000	3,000	23,000	74,000	97,000
1895-96....	.....	4,000	5,000	14,000	70,000	84,000
Total all—						
1896-97....	.....	5,000	5,000	35,000	141,000	176,000
1895-96....	.....	8,000	9,000	34,000	140,000	174,000

The above totals for the week show that the movement from the ports other than Bombay is 4,000 bales less than the same week last year. For the whole of India, therefore, the total shipments since September 1, 1896, and for the corresponding periods of the two previous years, are as follows.

**EXPORTS TO EUROPE FROM INDIA.**

Shipments to all Europe from—	1896-97.		1895-96		1894-95.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	This week.	Since Sept. 1.
Bombay .....	31,000	509,000	21,000	707,000	6,000	347,000
All other ports	5,000	176,000	9,000	174,000	7,000	125,000
Total	36,000	685,000	30,000	881,000	13,000	472,000

**ALEXANDRIA RECEIPTS AND SHIPMENTS.**—Through arrangements we have made with Messrs. Davies, Benaohi & Co., of Liverpool and Alexandria, we now receive a weekly cable of the movements of cotton at Alexandria, Egypt. The following are the receipts and shipments for the past week and for the corresponding week of the previous two years.

Alexandria, Egypt, May 28.	1896-97.	1895-96.	1894-95.
Receipts (cantars)*.....			
This week.....	16,000	8,000	2,000
Since Sept. 1.....	5,753,000	5,196,000	4,534,000
Exports (bales)—			
To Liverpool.....	3,000 313,000	2,000 322,000	2,000 261,000
To Continent.....	3,000 335,000	1,000 301,000	..... 316,000
Total Europe.....	6,000 651,000	3,000 623,000	2,000 577,000

\* A cantar is 98 pounds.

† Of which to America in 1896-97, 47,597 bales; in 1895-96, 53,917 bales; in 1894-95, 40,993 bales.

This statement shows that the receipts for the week ending May 28 were 16,000 cantars and the shipments to all Europe 6,000 bales.

**MANCHESTER MARKET.**—Our report received by cable to-night from Manchester states that the market is dull for both yarns and shirtings. The demand for home trade is poor, but for foreign markets is good. We give the prices for to-day below and leave those for previous weeks of this and last year for comparison.

	1897.						1896.					
	32s Cop. Twist.		8 1/4 lbs. Shirtings, common to finest.		Cott'n Mid. Uplds.		32s Cop. Twist.		8 1/4 lbs. Shirtings, common to finest.		Cott'n Mid. Uplds.

**SEA ISLAND COTTON MOVEMENT.**—We have received this (Friday) evening by telegraph from the various ports the details of the Sea Island cotton movement for the week. The receipts for the week ending to-night (May 28) and since Sept. 1, 1896, the stocks to-night, and the same items for the corresponding periods of 1895-96, are as follows.

Receipts to May 28.	1896-97.		1895-96.		Stock.	
	This week.	Since Sept. 1.	This week.	Since Sept. 1.	1897.	1896.
Savannah.....	18	84,011	123	76,974	9,108	2,720
Charleston, &c.....	9	10,389	71	10,491	1,729	648
Florida, &c.....	.....	6,733	.....	4,783	2,567	916
Total.....	27	101,133	194	92,248	13,405	4,284

\* 1,097 bales added as correction of receipts since Sept. 1.

The exports for the week ending this evening reach a total of 438 bales, of which 433 bales were to Great Britain, — to France and — to Reval, and the amount forwarded to Northern mills has been 310 bales. Below are the exports for the week and since September 1 in 1896-97 and 1895-96.

Exports from—	Week Ending May 28.			Since Sept. 1, 1896.			North'n Mil. e.

Charl'tn, &c.....	.....	.....	.....	2,933	.....	2,933	10	1,970
Florida, &c.....	.....	.....	.....	.....	.....	.....	.....	6,733
New York.....	2	.....	2	10,884	6,702	17,586	.....	.....
Boston.....	436	.....	436	11,813	.....	11,813	.....	.....
Phila., &c.....	.....	.....	.....	3,622	102	3,724	.....	.....
Total.....	438	.....	438	44,280	9,990	54,260	310	36,740
Total 1895-6.....	477	100	577	41,352	7,146	48,498	648	38,851

A considerable portion of the Sea Island cotton shipped to foreign ports goes via New York, and some small amounts via Boston and Baltimore. Instead of including this cotton for the week in which it leaves the Southern outports, we follow the same plan as in our regular table of including it when actually exported from New York, &c. The details of the shipments of Sea Island cotton for the week will be found under the head "Shipping News," on a subsequent page.

Quotations May 28 at Savannah, for Floridas, common, 8c.; medium fine, 10c.; choice, 13 1/2c.

Charleston, Carolinas, medium fine, 15@17c.; fine, 18c.; fully fine, 19@20c.; extra fine, 25@33c.

**EXCHANGES.**—The following exchanges have been made during the week:

03 pd. to exch. 400 June for July.	09 pd. to exch. 200 Jan. for Sept.
39 pd. to exch. 100 Jan. for Aug.	32 pd. to exch. 2,500 Sep. for J'ne.
44 pd. to exch. 100 Oct. for Aug.	01 pd. to exch. 100 June for July.
02 pd. to exch. 1,400 Aug. for J'ne.	04 pd. to exch. 200 Aug. for June.
04 pd. to exch. 2,400 Aug. for July.	50 pd. to exch. 100 Oct. for June.

**GOVERNMENT WEEKLY COTTON REPORT.**—Mr. W. L. Moore, Chief of the Weather Bureau of the Agricultural Department, made public on Tuesday the following telegraphic reports on the crops in the Southern States for the week ending May 24:

**VIRGINIA.**—Cotton up and being worked.

**NORTH CAROLINA.**—Favorable week for work, with excess of sunshine and deficiency of precipitation, but cool nights retarding growth; stand of cotton fair, plants small but healthy.

**SOUTH CAROLINA.**—Too dry and cool for rapid growth; fields clean and well cultivated; corn and cotton continue small but healthy; cotton chopping progressing rapidly.

**GEORGIA.**—No rain and abundant sunshine during the week were favorable for farm work, but rather detrimental to growing crops; early part of week too cool, last half more favorable; cotton and corn improving slowly and nearly all worked.

**FLORIDA.**—Rain needed for corn, cane, cotton, &c.; outworms continue bad in some localities; dry weather, rather cool nights, retarding growth of cotton.

**ALABAMA.**—Week dry, but very favorable for cotton and corn, which are much improved; outworms not so numerous; cotton chopping nearing completion.

**MISSISSIPPI.**—Cotton and corn improving, although lice, worms and cool nights have injured the stand in some places and some land has been replanted; planting on lowlands progresses as water recedes.

**LOUISIANA.**—Week favorable for field work and chopping cotton; the prevailing cool nights retarded growth of all vegetation; cotton shows but slight improvement, continues sickly and lousy; crops somewhat backward but will improve with warmer nights and showers.

**TEXAS.**—Good growing weather improved cotton, which is making rapid advancement generally and over southern portion forming squares and bolls, some lice reported from southern portion; crop clean, except in scattered localities where too much rain for proper cultivation.

**ARKANSAS.**—Temperature favorable, but lack of precipitation detrimental to growth; cotton and corn improved, though stand of former poor; both crops well worked, but plants small for season; general rain much needed; outworms about ceased their depredations.

**TENNESSEE.**—Favorable weather enabled farmers to progress rapidly in cultivating young crops; light rains Friday in east and middle sections; cool nights injurious to corn and cotton; much early cotton plowed up and area replanted.

**OKLAHOMA.**—The best growing week of the season; corn, cotton and grass growing fast.

The Department summarizes these reports as follows:

Cotton has experienced general improvement in Texas and has made rapid advancement over the southern part of the State, where squares and bolls are forming. Decided improvement is also reported from Alabama, with favorable reports from Arkansas and Georgia. Cool nights have proved injurious in Tennessee, and but slight improvement is reported from Louisiana, where the plant is sickly and is being injured by lice. While cool nights have unfavorably affected the crop in Mississippi it shows improvement. In the Carolinas the plant is small but healthy.

**STATE WEEKLY COTTON REPORTS.**—We give below summaries of the reports for the week ending May 24 issued by the various States, under the auspices of the Weather Bureau of the United States Department of Agriculture, so far as they apply to cotton.

**VIRGINIA.**—The warm and showery weather which prevailed during the greater portion of the week has done much to counteract the unfavorable effects of the previous cool and dry weather. A larger acreage than usual has been put to cotton in the counties where this staple is grown, and the product is up and being worked.

**NORTH CAROLINA.**—*Eastern District.*—The past week was sunny and warm during the day, but the nights were quite cool, and, excepting scattered showers one or two days, the weather was quite dry. Crops of all kinds have made some improvement and are clear of grass. Cotton chopping is progressing; cotton small but fair stand; too cool for cotton, which does not look as well as it might. *Central District.*—The reports from this district are generally favorable. Cotton and corn continue to grow slowly, but though backward are looking healthy. Cotton chopping going on; growth very irregular; some replanting still necessary. *Western District.*—The week has been generally favorable, although the nights were too cool. Crops made considerable progress the latter half of the week, though all growth has been more or less checked by cool nights. Cotton has good stand, being chopped out; growth backward.

**SOUTH CAROLINA.**—Cotton has improved somewhat, and no complaints are received of poor stands, except from Abbeville, Greenwood, Edgefield, Barnwell and Saluda, where on certain lands the plant is dying. The plants, while small, are healthy, and although somewhat irregular as to size, stands are otherwise nearly perfect, and require very little "patching" by replanting, over the State generally. "Chopping out" is progressing rapidly and is nearing completion in the more easterly counties, while in the northwestern counties is only well begun, as cotton is not all up yet. The plant is in a satisfactory condition and in excellent shape to respond to more favorable weather for growth. Sea Island cotton made slow growth and stands in need of rain.

**GEORGIA.**—During the week just ended the weather has been very dry. Unseasonably low temperature at night characterized the early part of the week, and as a consequence vegetation had its growth somewhat retarded. The cool nights were especially unfavorable to cotton. More favorable temperature conditions prevailed during the last half of the week, and a steady though slow improvement in all growing crops was the result. Cotton generally is not as good as usual; it is about two or three weeks late and much of the crop has been injured by bugs; some fields have been entirely destroyed. It has been well worked, and is now ready for and wanting good rains and seasonable temperature.

**FLORIDA.**—Rains needed for corn, cane, cotton, &c. Outworms continue bad in some localities. Rather cool nights are retarding the growth of cotton.

**ALABAMA.**—There was an entire absence of rainfall in this section, and while the week opened with continued cool nights, the last half was warm, forcing and particularly beneficial to cotton and corn, and materially lessened damage by outworms. Cotton has improved steadily under recent warm weather, and while stands are poor and it is about two weeks late, it is looking well and is generally clean, and many a good cotton crop has been made with a worse start; damage by worms is steadily decreasing and chopping out is being pushed to completion; there is some complaint of damage by lice in southeastern counties.

**MISSISSIPPI.**—The week was dry and sunny, with about normal temperature for the season. Cotton and corn are improving, although much injury is reported to date by outworms, lice and cool nights, and some replanting has been necessary. Planting continues on the lowlands as the water recedes. Rain would be beneficial to all crops.

**LOUISIANA.**—Field work progressed rapidly under the favorable weather conditions, and all crops and vegetation show a general improvement, except cotton, which has become lousy, and continues

dying out, with broken stands over areas in the northwest. Worms are also infesting the stands of cotton, and the crop is reported small and backward from nearly all sections. The cotton is nearly all chopped up. Reports are a somewhat more favorable regarding the cotton crop over the northeastern and central portions of the State. Planting on overflowed lands from which water has receded, in the northwestern patches, is progressing.

**TEXAS.**—The weather during the week was generally favorable for farming operations and much farm work was done. The showers at the close of the week were not needed very much for general farming interests and will delay work to some extent. Cotton planting is completed except some late fields over the northwestern portion of the State, and a great deal of replanting has been done in localities over North Texas. Much of the crop has been chopped and worked out, but some fields are beginning to show weeds and grass, and more dry weather would enable farmers to clean out the entire crop and put it in an excellent condition. It is reported from the western portion of the State that worms are not working on cotton as much as they were at last report, but it is reported lice are doing some damage to the crop in places over the southern portion. Early planted cotton is not so promising over North Texas, while over the southern portion it is growing rapidly and has commenced fruiting.

**ARKANSAS.**—The warm weather and abundant sunshine has been very favorable for all crops, though the lack of rain has been detrimental to them. Cutworms have ceased their depredations to a great extent, though there are some few complaints in localities. Cotton has improved considerably and is being chopped out. The plant is small and stand generally poor, and some complaint of dying of the late planting from lack of moisture.

**TENNESSEE.**—The early part of the week was cool and dry, and the latter part warmer, with light showers in the eastern and middle sections. These favorable conditions enabled farmers to advance rapidly the work of completing the later plantings and of cultivating the young crops of corn and cotton. The nights were too cool for the healthy growth of the young corn and cotton, besides promoting the continued depredations of the cutworms and the budworms on these crops and gardens. The first plantings of cotton developed such bad stands that much of the area was plowed up and planted over. Good rains are much needed in all parts of the State.

**MISSOURI.**—The past week averaged considerably warmer than usual except in the southeastern section, where the temperature was about normal. Up to Saturday noon the rainfall was very light in all sections, and over the greater portion of the State there was none, but during Saturday afternoon and night good showers fell in many of the central and northern counties and were of great benefit to all growing crops. The week has been very favorable for work in the fields, but in most sections crops suffered to a greater or less extent from lack of moisture.

**OKLAHOMA AND INDIAN TERRITORY.**—Except a few light, local showers, no rain fell, and every day was clear and pleasant. This has been by far the best growing week of the season, and crops of all kinds have made remarkable growth. Cotton, too, shows a better growth and looks better than formerly, especially throughout the southern section. Although a good stand is rare, a great deal of replanting has been done throughout central sections, and some fields planted to cotton have been plowed and planted to other crops.

**EXPORTS OF COTTON GOODS FROM GREAT BRITAIN.**—Below we give the exports of cotton yarn, goods, &c., from Great Britain for the month of April and since October 1 in 1896-97 and 1895-96, as compiled by us from the British Board of Trade returns. It will be noticed that we have reduced the movement all to pounds.

Yarn & Thread.	Cloth.						Total of All.	
	1896-97	1895-96	1896-97	1895-96	1896-97	1895-96	1896-97	1895-96

Stockings and socks.							500	678
Dry articles.							15,34	14,941
Total exports of cotton manufactures.							712,720	760,348

The foregoing shows that there has been exported from the United Kingdom during the seven months 712,720,000 lbs. of manufactured cotton, against 750,348,000 lbs. last year, or a decrease of 37,628,000 lbs.

A further matter of interest is the destination of these exports, and we have therefore prepared the following statements, showing the amounts taken by the principal countries during April and since October 1 in each of the last three years:

**EXPORTS OF PIECE GOODS AND YARNS TO PRINCIPAL COUNTRIES IN APRIL AND FROM OCTOBER 1 TO APRIL 30.**

## BREADSTUFFS.

FRIDAY, May 28, 1897.

Early in the week a fair volume of business was transacted in the trade brands of wheat flour, but at slight concession from quoted prices, and moderately large export sales of the low grades were made at steady values. Subsequently, however, owing to a weaker turn to the wheat market the demand, both from the home trade and shippers subsided, and prices turned easier, declining 10 to 15c. per bbl. The demand for rye flour has continued quiet and prices have weakened slightly, \$2 65 now being the outside prices. Only a moderate volume of business has been transacted in corn meal but prices have been without changes and fairly steady.

There has been only a limited speculation in the market for wheat futures. Early in the week prices made fractional advances on buying by a few shorts to cover contracts, stimulated by reports from Europe of crop damage. Subsequently, however, the market turned weaker in response to easier foreign advices and favorable crop accounts from the West, accompanied by selling orders. Saturday the market was firmer, prices advancing  $\frac{1}{2}$ @ $\frac{1}{4}$ c. on unfavorable crop accounts from France. Monday prices further advanced during early 'Change on poor crop accounts from abroad. Toward the close, however, there was selling for Western account and the improvement was lost. Tuesday the market was easier, in response to weaker foreign advices and under selling for foreign account, closing at a decline of  $\frac{3}{4}$ @ $\frac{1}{2}$ c. for the day. Wednesday there was a further break of  $\frac{3}{4}$ @ $\frac{1}{2}$ c. in prices under general selling, induced by weaker foreign advices and favorable crop advices from the West. The market was slightly stronger during early 'Change, owing to small receipts in the Northwest. Later in the day, however, favorable crop accounts and dull and easier foreign advices caused a reaction and the close showed prices  $\frac{1}{4}$ @ $\frac{1}{2}$ c. lower for the day. To-day the market was weaker in response to foreign advices and on crop news. Toward the close, however, there developed a demand from shorts to cover contracts and prices rallied, closing steady. In the spot market a fair business has been transacted, but at lower prices. To-day the market was moderately active but at slightly lower prices. No. 1 hard Duluth was quoted at

80 $\frac{1}{2}$ c. f.o.b. afloat; No. 1 Northern Duluth at 79 $\frac{1}{2}$ c. f.o.b. afloat; No. 1 Northern New York at 78 $\frac{1}{2}$ c. f.o.b. afloat and No. 2 hard winter at 76 $\frac{1}{2}$ c. f.o.b. afloat.

December delivery.....c.	73 $\frac{3}{4}$	73 $\frac{3}{4}$	73 $\frac{3}{4}$	72 $\frac{3}{4}$	72	72 $\frac{3}{4}$

The speculation in the market for Indian corn futures has been dull and prices have declined under a free movement of the crop at the West and in sympathy with the weakness in wheat. Prices for the week show a net loss of  $\frac{5}{8}$ @ $\frac{1}{2}$ c. per bushel. In the spot market the export demand has continued active, the sales here and at outports amounting to 1,500,000 bushels. To-day the market was fairly active and steady. The sales included No. 2 mixed at 29c. in elevator and 30 $\frac{1}{2}$ c. f.o.b. afloat.

### DAILY CLOSING PRICES OF NO. 2 MIXED CORN.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
May delivery.....c.	28 $\frac{3}{4}$	29 $\frac{3}{4}$	29 $\frac{3}{4}$	29 $\frac{3}{4}$	29	29
July delivery.....c.	30	29 $\frac{3}{4}$	29 $\frac{3}{4}$	29 $\frac{3}{4}$	29	29
August delivery.....c.	30 $\frac{3}{4}$	30 $\frac{3}{4}$	30 $\frac{3}{4}$	29 $\frac{3}{4}$	29 $\frac{3}{4}$	29 $\frac{3}{4}$
September delivery.....c.	31	31	30 $\frac{3}{4}$	30 $\frac{3}{4}$	30 $\frac{3}{4}$	30 $\frac{3}{4}$

The market for oats for future delivery has been dull and prices have declined in sympathy with the weakness of other grains and under a large movement of the crop at the West. In the spot market shippers have been fairly active buyers, but prices have declined with futures. The sales for the week amounted to 750,000 bushels. To-day the market was fairly active and steady. The sales included No. 2 mixed at 21 $\frac{1}{2}$ c. in elevator and No. 2 white at 25 $\frac{1}{2}$ c. in elevator.

### DAILY CLOSING PRICES OF NO. 2 MIXED OATS.

	Sat.	Mon.	Tues.	Wed.	Thurs.	Fri.
July delivery.....c.	22 $\frac{3}{4}$	22 $\frac{3}{4}$	22	21 $\frac{3}{4}$	21 $\frac{3}{4}$	21 $\frac{3}{4}$

Rye and barley have had only a limited sale and prices have been easy.

## THE DRY GOODS TRADE.

NEW YORK, FRIDAY, P. M., May 23, 1897.

The market during the past week has been of a monotonous character. The day-to-day attendance ruled moderate and spot business pronouncedly quiet, whilst neither from salesmen on the road nor from customers direct were there orders of importance received. Reports from various markets indicate a very quiet general condition in both the retail and jobbing trades, a condition ascribed in some measure to the absence of the warm weather, which is much needed to stimulate the distribution of seasonable and summer merchandise. The inactivity in the primary markets of staple cotton goods is severely testing the firmness of sellers, but so far they have stood it fairly well. There are unquestionably considerable stocks on hand in the aggregate, but prices are on such a low level that in most instances the preference is to carry them rather than make further concessions, the more so as there appears to be some prospect of important mills resorting to a curtailment of production in the near future. The woolen goods division has been inactive in both men's-wear fabrics and dress goods at previous prices.

**WOOLEN GOODS.**—The effect of the strike in the local tailoring trades has been quite evident in the arrest of repeat orders from local purchasers and in the suspension in some instances of the delivery to them of merchandise already purchased. There has not been anything in the way of better business from outside markets to make amends for this, and a very quiet week in men's-wear woolen and worsted fabrics, in both staple and fancy lines, has resulted. Tonia has not had any influence over prices, which are well maintained, but the market does not present any hardening appearance. Overcoatings have been in slack request at previous prices, and cloakings have sold fairly without change in values. There has been no demand of any moment for satinettes, cotton-warp cassimeres, etc. Sales of dress goods have been limited in volume in both plain and fancy lines. Flannels and blankets are steady but inactive; carpets firm.

**DOMESTIC COTTON GOODS.**—The exports of cotton goods from this port for the week ending May 24 were 7,087

packages, valued at \$272,538, their destination being to the points specified in the tables below:

NEW YORK TO MAY 24.	1897.		1896.	
	Week.	Since Jan. 1.	Week.	Since Jan. 1.
Great Britain	179	2,099	14	923
Other European	10	1,586	23	1,268
India	4,257	52,712	10,219	43,336

China, via Vancouver	.....	9,250	.....	13,707
Total	7,087	120,038	11,589	106,653

\* From New England mill points direct.

The value of the New York exports for the year to date has been \$4,834,463 in 1897 against \$4,184,039 in 1896.

There has again been but a quite indifferent interest taken in brown sheetings and drills beyond immediate requirements by home buyers, and exporters have been light purchasers also. The demand has been confined almost entirely to spot goods and has come forward at fairly steady prices. Sellers are still reserved in committing themselves to forward business, even where afforded the opportunity. The coarse, colored cottons market has shown no change of moment. The demand for denims, ticks, &c., has been on quite a moderate scale but sellers have been able to realize former prices in nearly all instances. Bleached cottons have been in light general request in all grades without change in prices. Wide sheetings slow and unchanged. Cotton flannels and blankets generally well sold but current demand slow. Kid-finished cambrics sell in small lots at previous prices. Prints of all descriptions and printed specialties have been in light request, and the demand for ginghams has been on a limited scale. Print cloths continue firm at 2 7-16c. for extras with small sales. Odds in quiet demand on that basis.

Stock of Print Cloths—	1897.	1896.	1895.	1894.
May 22.	May 23.	May 25.	May 26.	May 26.
At Providence, 64 squares	495,000	284,000	155,000	263,000
At Fall River, 64 squares	803,000	900,000	23,000	451,000
At Fall River, odd sizes	.....	539,000	69,000	135,000

Total stock (pieces).....1,300,000 1,723,000 247,000 852,000

**FOREIGN DRY GOODS.**—Cleaning up has been the feature in seasonable business, but has not been productive of marked results. The demand for fall lines of dress goods, silks, ribbons, etc., has been indifferent, but the general tone of the market continues steady.

**Importations and Warehouse Withdrawals of Dry Goods.**

The importations and warehouse withdrawals of dry goods at this port for the week ending May 27, 1897, and since January 1, 1897, and for the corresponding periods of last year are as follows:

Imports entered for consumption for the week and since January 1, 1897 and 1896.	Week Ending		Since Jan. 1, 1897.		Since Jan. 1, 1896.	
	May 27, 1897.	Value.	May 27, 1897.	Value.	May 27, 1896.	Value.

The above terms for one month and upwards are for standing cards.

**Bond Proposals and Negotiations** this week have been as follows.

**Adams County, Neb.—Bond News.**—The officials of Adams County a short time ago petitioned the Board of Educational Lands and Funds of the State of Nebraska that the county be allowed to refund certain of its bonds held by the State, which do not mature for a number of years. The matter was referred to the Attorney-General, who has just rendered an opinion to the effect that the board has no authority to give the county permission to refund the bonds.

**Allegheny (Pa.) Third Ward School District.—Bond Sale.**—The following bids were received for the purchase of the \$160,000 of 4 per cent school bonds of this district:

P. F. Kelly, Philadelphia.....	\$163,424 00	Robinson Bros., Pittsburg.....	\$160,864 00
W. J. Hayes & Sons, Cleveland.....	161,759 00	Dietz, Denison & Prior, Clev.....	160,117 50

The bonds were awarded to P. F. Kelly. Other bids were received, but they were not considered, as they failed to comply with the conditions of the sale. The securities are of the denomination of \$1,000 each, dated June 1, 1897; interest is payable semi-annually on the first days of June and December, and the principal will mature at the rate of \$8,000 per annum from June 1, 1898 to 1917, inclusive, both principal and interest being payable at the Second National Bank of Allegheny, Pa.

**Ambler, Pa.—Bonds Authorized.**—The citizens of Ambler have voted in favor of issuing the \$16,000 of street-improvement bonds by a majority of 23 votes.

**Americus, Ga.—Bond Election.**—The voters of the city of Americus will soon determine the question of issuing bonds to the amount of \$30,000 to pay the cost of improving the water-works and sewers.

**Appanoose County, Ia.—Bonds Defeated.**—The people of this county have voted against the proposition to issue \$65,000 of court-house bonds.

**Ashland County, Wis.—Bond Offering.**—Proposals will be received until 10 o'clock A. M. to-day by C. F. Latimer, trustee, for the purchase of \$85,000 of 5 per cent county gold bonds, payable in 1915.

**Athens, Ohio.—Bond Sale.**—The \$5,000 of 5 per cent city hall bonds offered by the city of Athens on May 25, 1897, have been awarded to D. H. Moore, of Athens, at 100-53.

**Atlantic City, N. J.—Bond Sale.**—Atlantic City has sold at private sale \$23,000 of City Hall bonds and \$12,000 of water bonds to N. W. Harris & Co. of New York City. The securities bear interest at the rate of 4½ per cent and are payable, both principal and interest, at the Union National Bank of Atlantic City. The City Hall bonds mature as follows: \$10,000 June 1, 1899, and \$13,000, June 1, 1900; the water bonds become due June 1, 1917.

**Baker City, Ore.—Bonds Proposed.**—This city is contemplating the issuance of bonds to the amount of \$20,000 to pay the cost of improving the water-works.

**Barre, Vt.—Temporary Loan.**—The city of Barre has awarded a four-months' note amounting to \$10,000 to Bond & Goodwin, of Boston, at a discount of 3-25 per cent.

The following bids were received:

Bidders—	Rate of Discount.
Bond & Goodwin, Boston.....	3-25
Curtis & Motly, Boston.....	3-375
Duncomb & Jennison, New York.....	3-50 and 3 premium.

The loan was issued in anticipation of the collection of taxes.

**Barton Heights, Va.—Bonds Proposed.**—The citizens of Barton Heights have under consideration a proposition to issue \$25,000 of general improvement bonds.

**Bayonne, N. J.—Bond Sale.**—Bayonne has sold \$9,000 of school bonds at 101. Both principal and interest on the securities are payable at the Mechanics' Trust Company of Bayonne.

**Belmont, Mass.—Bond Sale.**—On May 24, 1897, the \$40,000 of 4 per cent 20-year high-school bonds and the \$6,000 of 4 per cent 30-year sewer bonds of the town of Belmont were awarded to Blodgett, Merritt & Co., of Boston, Mass., at 106-78 and 108-78 respectively. The following is a complete list of the bids received:

Bidders—	\$40,000 School Bonds.	\$6,000 Sewer Bonds.
Blodgett, Merritt & Co., Boston.....	106-780	108-780
Farson, Leach & Co., New York.....	106-890	108-270
Adams & Co., Boston.....	106-830	108-573
Third National Bank, Boston.....	108-577	108-577
Geo. A. Fernald & Co., Boston.....	106-540	108-030
Leland, Towle & Co., Boston.....	106-430	108-307
Cushman, Fisher & Phelps, Boston.....	106-430	108-580
E. H. Rollins & Sons, Boston.....	104-410	106-410
N. W. Harris & Co., Boston.....	106-355	106-350
Blake Bros. & Co., Boston.....	106-285	108-045
Josef Parker & Co., Boston.....	106-157	108-089
Parkinson & Burr, Boston.....	106-021	107-520
R. L. Day & Co., Boston.....	105-937	107-639
Estabrook & Co., Boston.....	105-910	107-410
Jas. W. Longstreet & Co., Boston.....	105-773	107-473
Dietz, Denison & Prior, Boston.....	105-750	107-250
Rudolph Kleybolte & Co., New York.....	105-690	107-3191

The securities are of the denomination of \$1,000 each, dated June 1, 1897; interest is payable semi-annually in Boston, where the principal also will be payable.

The total indebtedness of the town of Belmont, including these issues, is \$157,150; water debt, included in total debt, \$44,750; sinking funds, \$1,260. The assessed valuation for 1896 is \$4,125,095 and the population in 1895 was 2,843.

**Berlin Falls, N. H.—Bond Sale.**—Berlin Falls has sold \$50,000 of refunding bonds to Leland, Towle & Co. of Boston, at 100-75. The securities bear 4 per cent interest and will mature in twenty years from date of issue.

**Brookings County, S. D.—Bond Sale.**—This county has sold \$7,000 of 5 per cent bonds to Trowbridge & Co. of Chicago. The securities are dated July 1, 1897; interest is payable semi-annually and the principal will mature in ten years from date of issue, subject to call after five years. Both principal and interest are payable at the First National Bank of Chicago. This issue of bonds constitutes the only indebtedness of the county.

**Buffalo, N. Y.—Bond Offering.**—Proposals will be received until 12 o'clock noon, June 5, 1897, by Erasmus C. Knight, City Comptroller, for the purchase of \$151,456 10 of 3½ per cent grade-crossing bonds. The securities will be dated May 1, 1897; interest will be payable semi-annually on the first days of May and November, and the principal will mature May 1, 1917, both principal and interest being payable at the office of the City Comptroller of Buffalo or at the Gallatin National Bank of New York City. No bid for less than par and accrued interest will be considered, and each proposal must be accompanied by a certified check for 2 per cent of the amount bid for.

The bonded debt of the city of Buffalo on May 1, 1897, less amounts held in the sinking funds, was \$12,932,652 18; the assessed valuation of the taxable real estate of the city by the rolls of 1897 is \$230,693,810.

**Bonds Authorized.**—The Governor has signed bills authorizing the city of Buffalo to issue \$400,000 of public-market and hall bonds, and \$183,000 of bonds to fund \$83,000 of water bonds and a temporary grade crossing loan to the amount of \$100,000.

**Carrollton, Ala.—Bond Sale.**—The city of Carrollton has sold \$30,000 of 5 per cent 23-year funding bonds to Morgan, Robertson & Co., T. O. Burris and D. M. Richards of Columbus, Miss.

**Carrollton Township, Mich.—Bond Sale.**—The \$6,000 of 5 per cent road bonds of this township were awarded to Duke M. Farson of Chicago, Ill., for \$6,067-50. The bonds are dated May 1, 1897, and will mature at the rate of \$1,000 per annum from May 1, 1903 to 1907, inclusive, both principal and interest being payable in New York City.

**Champlain, N. Y.—Bond Offering.**—Proposals will be received until June 4, 1897, by W. G. Graver, Secretary of the Board of Water Commissioners, for the purchase of \$20,000 of 4 per cent water-works bonds. The securities will be in the form of coupon bonds of \$1,000 each; interest will be payable annually and the principal will mature at the rate of \$4,000 per annum, beginning June 10, 1922.

The town of Champlain has no bonded indebtedness, other than this proposed issue.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

**Chatham, N. J.—Bond Election.**—It is reported that a proposition to issue \$45,000 of bonds for the construction of water-works will be put to a vote of the people of Chatham on June 1, 1897.

**Chester, S. C.—Bond News.**—The \$50,000 of water-works and electric-light bonds recently voted by the citizens of Chester will bear 6 per cent interest.

**Chicago, Ill.—Bonds Proposed.**—The city of Chicago proposes to issue bonds to the amount of \$390,000.

**China (Cal.) School District.—Bonds Authorized.**—The citizens of this school district have voted in favor of a proposition to issue \$20,000 of 6 per cent 8-year average bonds. The interest on the securities will be payable annually.

**Clearfield, Me.—Bonds Authorized.**—The people of this municipality have authorized the issuance of paving bonds to the amount of \$15,000.

**College Point, N. Y.—Bonds Authorized.**—The citizens of College Point have voted in favor of a proposition to issue \$25,000 of bonds for the erection of a water tower.

**Columbus, Ohio.—Bonds Authorized.**—The City Council of Columbus has passed an ordinance providing for an issue of street-improvement bonds. The securities will bear interest at a rate not exceeding 6 per cent, payable semi-annually.

on the first days of March and September, and will mature in ten years from date of issue.

**Cottage City, Mass.—Note Sale.**—The town of Cottage City has borrowed \$15,000.

**David City, Neb.—Bonds Proposed.**—The Board of Supervisors of David City has under consideration a proposition to refund \$90,000 of railroad aid bonds falling due July 1, 1897, by an issue of 5 per cent 15-year bonds.

**Defiance, Ohio.—Temporary Loan.**—The city of Defiance has borrowed \$15,000 in anticipation of the collection of taxes. The loan bears interest at the rate of 6 per cent and becomes due October 1, 1897. Both principal and interest are payable at Cleveland, Ohio.

**Detroit, Mich.—Bonds Defeated.**—At a recent meeting of the Board of Estimate of Detroit, the proposition to issue \$30,000 of bonds for a soldiers' memorial building was defeated.

**Bonds Proposed.**—A bill permitting the City Council of Detroit to issue \$150,000 of bonds for new normal and manual training schools has passed the Assembly.

**Durfar (Ore.) School District No. 29.—Bond Sale.**—This district has sold \$3,000 of 6 per cent 10-20 year optional school bonds to John Bonn of The Dalles, Oregon, at par. The interest on the securities is payable at The Dalles.

**Duquesne, Pa.—Bond Election.**—An election will be held in this city on June 22, 1897, to decide the question of issuing \$85,000 of street improvement and \$40,000 of sewer bonds.

**East Providence, R. I.—Bond Offering.**—Proposals will be received until 3:30 P. M., June 5, 1897, by Benjamin Wilson, President of the Town Council, Rumford, R. I., for the purchase of \$100,000 of 4 per cent gold funding bonds. The securities will be of the denomination of \$1,000 each; interest will be payable semi-annually, and the principal will mature as follows: \$50,000 in twenty-five years from date of issue and \$50,000 in fifty years from date of issue.

**Eatontown, N. J.—Bonds Authorized.**—The citizens of Eatontown have voted in favor of a proposition to issue \$2,000 of school bonds.

**Evansville, Ind.—Bond Sale.**—The city of Evansville has sold \$50,000 of 5 per cent refunding school bonds as follows: \$25,000 at 106 and the remainder at 104 1/2. The First National Bank of Evansville was awarded \$25,000 of the amount issued and N. W. Harris of Chicago the remainder. The interest on the securities is payable semi-annually on the first days of June and December at the office of Winslow, Lanier & Co. of New York City, and the principal will mature in ten years from date of issue.

**Far Rockaway, N. Y.—Bond Offering.**—The Trustees of the village of Far Rockaway will sell to the highest bidder at public sale at 2:30 P. M. June 7, 1897, \$35,000 of 5 per cent street improvement bonds. The securities will be of the denomination of \$1,000 each, dated June 1, 1897; interest will be payable semi-annually and the principal will mature as follows: \$20,000 at the rate of \$1,000 per annum from June 1, 1898 to 1917, inclusive, and \$15,000 on June 1, 1918. The bonds can not be legally sold for less than par and accrued interest.

The official notice of this bond offering will be found among the advertisements elsewhere in this Department.

**Fort Madison, Iowa.—Bond Offering.**—Proposals will be received until 7:30 P. M. June 2, 1897, by Charles H. Peters, Chairman of the Finance Committee, for the purchase of \$120,000 of 5 per cent refunding bonds. The securities will be of the denomination of \$1,000 each, dated July 1, 1897; interest will be payable semi-annually on the first days of January and July in New York or Chicago, and the principal will mature in twenty years from date of issue, subject to call after five years. Each proposal must be accompanied by a certified check for \$500.

The bonded debt of the city of Fort Madison at the present time is \$120,000 and its assessed valuation \$1,750,000. The real valuation is estimated at about \$7,500,000 and the population at 11,000.

**Gaston County, N. C.—Bonds Authorized.**—The voters of Gaston County have authorized the issuance of bonds to the amount of \$15,000 for the erection of a court-house.

**Glen Ridge, N. Y.—Bond Election.**—On June 25, 1897, a special election will be held to vote on the question of issuing \$90,000 of improvement bonds.

**Grand Rapids, Mich.—Bond News.**—The citizens of Grand Rapids have voted in favor of a proposition to issue \$125,000 of electric-light bonds to bear interest at a rate not exceeding 4 per cent, payable semi-annually in New York City, and to mature in twenty years from date of issue. At a recent meeting of the Common Council it was moved that these bonds be issued. No definite action, however, has as yet been taken.

**Greensburg, Pa.—Bond News.**—Dick Bros. & Co. of Philadelphia have refused to take the \$15,000 of 5 per cent 5-25 year optional bonds of Greensburg. It is reported that they will be sold at 104 5/8 to another Philadelphia firm.

**Grimes County, Texas.—Bonds Redeemed.**—Grimes County has redeemed \$1,000 of bridge bonds held in the school fund.

**Hartford, Conn.—Bonds Proposed.**—The City Treasurer of Hartford will ask the City Council for authority to make a volume in both loan for \$75,000, or issue bonds to that amount for as steady but inactive; w police station.

**Domestic Cotton (to Bond News.**—Savillian Arnold, Town from this port for the week end, ENCLIC that the Water Com-

missioners have been authorized to borrow \$50,000 and will probably issue notes to that amount to private parties at different times during the summer as the money may be required.

**Indianapolis, Ind.—Bond Sale.**—The \$150,000 of 4 per cent Indianapolis public safety bonds were awarded to E. H. Rollins & Sons, of Boston, for \$160,548 50. The securities are of the denomination of \$1,000 each, dated June 1, 1897; interest is payable semi-annually on the first days of January and July, the first coupon being for one month's interest. The principal will mature January 1, 1927, both principal and interest being payable at the office of Winslow, Lanier & Co., New York City.

**Irvington, N. J.—Bonds Proposed.**—The village of Irvington has under consideration a proposition to issue \$30,000 of sewer bonds.

**Jacksonville, Fla.—Bond Offering.**—Proposals will be received until 10 o'clock A. M. June 1, 1897, by B. F. Dillon, Chairman, for the purchase of \$83,500 of 5 per cent gold bonds of the city of Jacksonville.

**Jamaica, N. Y.—Bond News.**—It is reported that W. J. Hayes & Sons have refused to accept the \$100,000 of sewer bonds of this village, recently awarded them, their claim being that under the provisions of the law the securities should have been printed and in the hands of the Village Treasurer before the bids were received; these bonds, they state, were not printed when the sale took place.

**Jeanette (Pa.) School District.—Bond Call.**—Notice has been given that the school bonds of this district, numbered from 101 to 120 inclusive, dated November 1, 1890, and of \$100 each, have been called for payment on June 1, 1897, at the First National Bank of Jeanette, after which date they will cease to bear interest.

**Jefferson City, Mo.—Bond Sale.**—No bids were received for the \$54,000 of 4 per cent 10-year refunding bonds of Jefferson City. The City Council therefore changed them to 4 1/2 per cent bonds and sold them to the W. C. Little & Bro. Investment Co. of St. Louis at par.

**Jefferson County, Texas.—Bond Sale.**—The State Board of Education has purchased \$5,000 of Jefferson County Court-House bonds for the school fund.

**Jellico, Tenn.—Bond Offering.**—Proposals will be received by Dr. D. W. Moore, Mayor of Jellico, until June 1, 1897, for the purchase of \$6,000 of 6 per cent school bonds. The interest on the securities will be payable semi-annually and the principal will mature in twenty years from date of issue. These bonds were to have been sold on May 25, 1897, but the sale was postponed until the above date.

**Jersey City, N. J.—Bonds Authorized.**—The Finance Committee of Jersey City has authorized the issuance of \$330,000 of gold bonds. The securities are to bear interest at the rate of 4 1/2 per cent and mature in thirty years from date of issue.

**Lancaster, Ohio.—Bond Offering.**—Proposals will be received until June 10, 1897, by the city of Lancaster for the purchase of street improvement bonds to the amount of \$20,000. The securities will bear interest at the rate of 6 per cent and be of the denomination of \$500.

**Langdon, N. D.—Bond Sale.**—The city of Langdon has sold \$4,500 of 6 per cent 20-year funding bonds to F. R. Fulton & Co. of Grand Forks, N. D., at par. The interest on the securities is payable semi-annually at the Chase National Bank of New York City.

**Lavaca County, Texas.—Bond Issue.**—It is reported that Court House bonds to the amount of \$30,000 and to bear interest at the rate of 5 per cent will be issued by this county.

**Lima, Ohio.—Bond News.**—A petition has been filed by the Pennsylvania Railroad Company asking for an injunction to prevent the city of Lima from issuing \$98,000 of bonds for purpose of securing the shops of the Lima Northern Railway Company. It is claimed that these bonds were voted for park purposes, and so cannot be issued to secure railroad shops. Judge Taft of Cincinnati, who heard the motion for an injunction, has granted a temporary order, setting the final order for hearing on June 26, 1897, at Toledo.

**Linda Vista Irrigation District, Cal.—Bond News.**—E. C. Hickman, Secretary of this district, reports to the CHRONICLE that none of the bids for the \$824,000 of bonds have been accepted. A bid of par for the entire issue offered by William Osborn, contingent on a contract for the work, is being considered by the Board of Directors, and will be passed upon on June 1, 1897.

**Los Angeles, Cal.—Bond Sale.**—The following bids were received for the \$270,000 of 4 per cent gold refunding bonds of Los Angeles:

E. H. Rollins & Sons, Boston, \$271,431 00	C. H. White & Co., N. Y., \$270,100 00
First Nat. Bank, Chicago, 270,507 00	Farron, Leach & Co., Chicago, 270,016 75
N. W. Harris & Co., Chicago, 270,101 00	

The bonds were awarded to E. H. Rollins & Sons at their bid of \$271,431. The securities are dated June 1, 1897; interest is payable semi-annually on the first days of June and December, and the principal will mature at the rate of \$6,750 per annum, beginning with June 1, 1893. The bonds are of the denomination of \$250 and \$500, and will be payable, both principal and interest, at the office of the City Treasurer of Los Angeles.

**Lynn, Mass.—Temporary Loan.**—The city of Lynn has awarded a five months loan amounting to \$200,000 to Blake Bros. & Co. of Boston at 3 7/8 per cent interest.

**Marquette, Wis.—Bond News.**—J. T. Edwards, Superintendent of the Board of Education, reports to the CHRONICLE that the school bonds which were under consideration will

not be issued at present, as the building of the school-house has been postponed.

**Martin, Tenn.—Bond Sale.**—The \$25,000 of 6 per cent water bonds of the city of Martin were sold at 102. The securities are of the denomination of \$1,000 each; interest is payable at the office of the City Treasurer of Martin and the principal will mature in twenty years from date of issue.

**Mayville, N. Y.—Bond Offering.**—Proposals will be received until 8 o'clock P. M., June 1, 1897, by the Board of Water and Light Commissioners of the village of Mayville for the purchase of \$10,000 of electric light bonds. The securities will be of the denomination of \$1,000 each, dated August 1, 1896; interest at the rate of 4 per cent will be payable semi-annually and the principal will mature in twenty years from date of issue, both principal and interest being payable at the Hanover National Bank of New York City. Each bid must be accompanied by a certified check for \$500.

**McGregor, Iowa.—Bond Sale.**—The \$15,000 of 5 per cent water works bonds of the city of McGregor were awarded to the First National Bank of Chicago at their bid of \$15,101. The securities are of the denomination of \$500 each, dated June 1, 1897; interest is payable semi-annually on the first days of June and December at the First National Bank of McGregor. The principal will mature as follows: 10,000 at the rate of \$5.00 every six months from June 1, 1900, to December 1, 1909, and the remainder June 1, 1916, subject to call after June 1, 1910.

**Mercer County, N. D.—Bond Offering.**—Proposals will be received until 2 o'clock P. M., June 12, 1897, by the Board of County Commissioners at Stanton, N. D., for the purchase of \$40,000 of 6 per cent funding bonds. The securities will mature in twenty years from date of issue, subject to call after fifteen years.

**Michigan City, Ind.—Bond Sale.**—Michigan City has sold \$7,000 of 5 per cent school bonds to local investors. The securities are of the denomination of \$200 each; interest is payable annually, and the principal will mature at the rate of \$1,400 per annum from 1900 to 1904, inclusive, both principal and interest being payable at the office of the City Treasurer of Michigan City.

**Mt. Pleasant, Pa.—Bond Sale.**—Mount Pleasant has sold \$24,000 of 5 per cent funding and improvement bonds to Dietz, Denison & Prior of Cleveland for \$25,480.80. The following is a complete list of the bids received:

**Mt. Pleasant Township, Mo.—Bond Call.**—Notice has been given that on June 1, 1897, at the State Bank, St. Louis, Mo., the County Court of Bates County will redeem 140 of the \$1,000 5 per cent refunding bonds of Mount Pleasant Township. The called bonds are numbered from 9 to 148, inclusive, and were issued by the county on behalf of the township. They are dated July 1, 1891, and are payable at the above bank on July 1, 1911, subject to call after July 1, 1896. Interest on the securities will cease after June 1, 1897.

The holders of these bonds may, if they prefer, exchange their bonds for those now issued by Bates County on behalf of the township, providing they pay a premium for each new bond. The new securities are for \$1,000 each, bearing 4½ per cent interest, and maturing in twenty years from date of issue, subject to call. The premium requested for each new bond is as follows: \$10 for each bond subject to call on June 1, 1902; \$12.50 for those on June 1, 1907, and \$15 for those on June 1, 1912.

Dietz, Denison & Prior, Cleve. \$25,480.80	Rudolph Kleybolte & Co., Cin. \$25,150.00
